Release 1

MST20722 Certificate II in Apparel, Fashion and Textiles

Modification History

Release 1. New renamed qualification merges the existing Certificate II in TCF Production Support, Certificate II in TCF Production operations, Certificate II in TCF Services and Repair and Certificate II in Applied Fashion Design and Technology. All outcomes are retained within a new broadly-based qualification. Overall number of units reduced by one to account for some merging of units. Core units changed and made more industry-specific to reflect a broader range of skills needed across sectors. Currently unused elective units have been removed.

Specialisations and/or elective selections allow for the tailoring of this qualification to achieve basic skill outcomes in different areas of apparel, fashion and textile work.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.
