NWPSS00003 Certification bridging

Release 2

NWPSS00003 Certification bridging

Modification History

Release 2: This is the second release of this Skill Set in the NWP National Water Training Package with updated unit codes and details.

Release 1: This skill set was released in NWP Water Training Package release 1.0 and meets the Standards for Training Packages.

- New skill set composed of existing units.

Description

This skill set allows for the attainment of competencies to allow staff possessing earlier versions of water qualifications to undertake bridging to meet the requirements of the Water Certification program. The skill set allows transition of existing workers in the water industry into the requirements of the certification.

Pathways Information

These units may provide credit towards a range of qualifications in the Water Training Package.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

A total of 2 units of competency must be attained.

NWPGEN017	Apply the risk management principles of the water industry standards, guidelines and legislation
NWPGEN020	Sample and test source or drinking water

Target Group

This skill set applies to those working in water industry operations.

Suggested words for Statement of Attainment

These competencies meet the industry standards for water certification.
