**Assessment Requirements for PUAFER001
Identify, prevent and report potential
facility emergency situations**

Release: 1

Assessment Requirements for PUAFER001 Identify, prevent and report potential facility emergency situations

Modification History

Release 1. This is the first release of this unit of competency in the PUA Public Safety Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements, performance criteria and range of conditions on at least one occasion and includes

- communicating with team members and stakeholders
- identifying and reporting situations in a facility that reduce the effectiveness of emergency protection systems and equipment
- identifying emergency protection systems and equipment present in a facility
- identifying, monitoring and reporting situations that could lead to emergencies in a facility

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements, performance criteria and range of conditions and includes knowledge of

- basic types emergency protection systems and equipment
- principles of operation and limitations of emergency protection systems and equipment installed in a facility
- procedures for identifying, minimising, or preventing, and reporting situations within a facility that may lead to an emergency
- safe work practices applicable to a facility that help to prevent emergencies
- situations at a facility that reduce the effectiveness of emergency protection systems and equipment

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in industry approved simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to

- a range of relevant activities, exercises, case studies and/or simulations
- relevant and appropriate materials, equipment, tools and personal protective clothing and equipment currently used in industry
- applicable documentation including organisational procedures, facility emergency response procedures, industry standards, equipment specifications, regulations, codes of practice and operation manuals.
