|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-----------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"><li>• identifying needs and priorities of customers</li><li>• distinguishing between different levels of customer satisfaction</li><li>• treating customers with courtesy and respect</li><li>• responding to and reporting on, customer feedback</li><li>• knowledge of organisational policy and procedures for customer service.</li></ul>                                                                                                                                                                              |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"><li>• access to an actual workplace or simulated environment</li><li>• access to office equipment and resources</li><li>• examples of customer complaints</li><li>• examples of documents relating to customer service standards and policies.</li></ul>                                                                                                                                                                                                                                                                                   |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"><li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li><li>• review of reports on customer service delivery</li><li>• analysis of responses to case studies and scenarios</li><li>• demonstration of techniques</li><li>• oral or written questioning to assess knowledge of customer service strategies.</li></ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Appropriate interpersonal skills</i></b> may include: | <ul style="list-style-type: none"> <li>• listening actively to what the customer is communicating</li> <li>• providing an opportunity for the customer to confirm their request</li> <li>• questioning to clarify and confirm customer needs</li> <li>• seeking feedback from the customer to confirm understanding of needs</li> <li>• summarising and paraphrasing to check understanding of customer message</li> <li>• using appropriate body language.</li> </ul>                                                    |
| <b><i>Customers</i></b> may include:                        | <ul style="list-style-type: none"> <li>• corporate customers</li> <li>• individual members of the organisation</li> <li>• individual members of the public</li> <li>• internal or external</li> <li>• other agencies.</li> </ul>                                                                                                                                                                                                                                                                                          |
| <b><i>Customer needs and expectations</i></b> may include:  | <ul style="list-style-type: none"> <li>• accuracy of information</li> <li>• advice or general information</li> <li>• complaints</li> <li>• fairness/politeness</li> <li>• further information</li> <li>• making an appointment</li> <li>• prices/value</li> <li>• purchasing organisation's products and services</li> <li>• returning organisation's products and services</li> <li>• specific information.</li> </ul>                                                                                                   |
| <b><i>Organisational requirements</i></b> may include:      | <ul style="list-style-type: none"> <li>• access and equity principles and practice</li> <li>• anti-discrimination and related policy</li> <li>• defined resource parameters</li> <li>• goals, objectives, plans, systems and processes</li> <li>• legal and organisational policies, guidelines and requirements</li> <li>• OHS policies, procedures and programs</li> <li>• payment and delivery options</li> <li>• pricing and discount policies</li> <li>• quality and continuous improvement processes and</li> </ul> |

| Release 1 | <p>This version first released with <i>BSB07 Business Training Package version 6.0</i>.</p> <p>Revised unit. Performance criteria amended so that the learner is not required to 'incorporate evidence of customer satisfaction in decision to modify products or services'. Required skills updated to focus on learning and development practices and compliance with policy and procedures.</p> <p>Replaces BSBCUS401A Coordinate implementation of customer service strategies</p> |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to advise on, carry out and evaluate customer service strategies, including the design of improvement strategies based on feedback. Operators may have responsibility to provide guidance or to delegate aspects of these tasks to others.

### Application of the Unit

This unit applies to individuals with a broad knowledge of customer service strategies who contribute well developed skills in addressing customer needs and problems.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

### Elements and Performance Criteria Pre-Content

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

### Elements and Performance Criteria

|                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- communication skills to
  - communicate effectively with personnel and clients at all levels
  - articulate customer service strategies
- interpersonal skills to:
  - build relationships with customers
  - establish rapport
- literacy skills to:
  - prepare general information and papers
  - read a variety of texts
  - write formal and informal letters according to target audience
- planning skills to develop implementation schedules
- problem-solving skills to diagnose organisational problems relating to customer services
- self-management skills to:
  - comply with policies and procedures
  - consistently evaluate and monitor own performance
  - seek learning opportunities.

### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - environmental issues
  - occupational health and safety (OHS)
- principles of customer service
- organisational business structure, products and services
- product and service standards and best practice models.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"><li>• identifying needs and priorities of the organisation in delivering services to customers</li><li>• responding to and reporting on customer feedback</li><li>• designing strategies to improve delivery of products and services</li><li>• knowledge of the principles of customer service.</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"><li>• access to an actual workplace or simulated environment</li><li>• access to office equipment and resources</li><li>• examples of customer complaints, feedback and strategies.</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"><li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li><li>• review of documentation reporting changes necessary to maintain service standards</li><li>• analysis of responses to case studies and scenarios</li><li>• demonstration of techniques</li><li>• observation of presentations</li><li>• oral or written questioning to assess knowledge of customer service techniques and strategies</li><li>• review of systems, records and reporting procedures to compare changes in customer satisfaction.</li></ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|--------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| Release 1 | <p>This version first released with <i>BSB07 Business Training Package version 6.0</i>.</p> <p>Revised unit. Required skills updated to focus on learning and development practices and compliance with policy and procedures.</p> <p>Replaces BSBCUS402A Address customer needs</p> |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to manage the ongoing relationship with a customer, which includes assisting the customer to articulate their needs, meeting customer needs and managing networks to ensure customer needs are addressed. The customer relationship would typically involve direct interaction a number of times over an extended period.

This unit is appropriate to workers who are expected to have detailed product knowledge in order to recommend customised solutions. They would be expected to apply organisational procedures and be aware of, and apply as appropriate, broader factors involving ethics, industry practice and relevant government policies and regulations.

### Application of the Unit

This unit applies to workers required to be familiar with a product and service that varies widely and is capable of significant customisation.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

### Elements and Performance Criteria Pre-Content

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

### Elements and Performance Criteria

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- communication skills to relate to people from diverse backgrounds and people with diverse abilities.
- information management skills to summarise information verbally and non-verbally
- literacy and numeracy skills to:
  - interpret product and service features or sales data
  - read a variety of texts to prepare general information and papers
  - summarise information obtained from a variety of verbal and non-verbal sources
  - write formal and informal text
- numeracy skills to analyse data, and to compare time lines and promotional costs against budgets
- problem-solving skills to develop solutions unique to a customer
- self-management skills to:
  - comply with policies and procedures
  - seek learning and development opportunities.

### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - environmental issues
  - occupational health and safety
- organisational procedures and standards for customer service relationships
- detailed product and service knowledge which may:
  - be of significant breadth so as to propose alternative products and services, or
  - of significant depth so as to propose variations within a limited product and service range.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• assisting customers to articulate their needs</li> <li>• documenting processes used and customer satisfaction with the products/services offered</li> <li>• assisting customers to address their needs.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• examples of products/services and promotional strategies.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• review of documentation prioritising preferred actions</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• observation of presentations</li> <li>• assessment of written reports</li> <li>• evaluation of communication established with customers</li> <li>• review of customer interaction records.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Customers</b> may include:                                | <ul style="list-style-type: none"> <li>customers with routine or specific requests</li> <li>in person, computer-based and telephone customers</li> <li>internal and external customers</li> <li>people from a range of social, cultural or ethnic backgrounds</li> <li>people who may be unwell, drug affected or emotionally distressed</li> <li>people with varying physical and mental abilities</li> <li>regular and new customers.</li> </ul>                                                                                                                                                                                |
| <b>Rights and responsibilities of customers</b> may include: | <ul style="list-style-type: none"> <li>fulfilment of external obligations</li> <li>informed consent.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Effective regular communication</b> may include:          | <ul style="list-style-type: none"> <li>giving customers full attention</li> <li>handling sensitive and confidential issues</li> <li>maintaining eye-contact (for face-to-face interactions), except where eye-contact may be culturally inappropriate</li> <li>speaking clearly and concisely</li> <li>using active listening techniques</li> <li>using appropriate language and tone of voice</li> <li>using clearly written information/communication</li> <li>using non-verbal communication e.g. body language, personal presentation (for face-to-face interactions)</li> <li>using open and/or closed questions.</li> </ul> |

| Release 1 | Initial release.                                                                                                                                                                                                                    |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to recognise and interact productively with diversity in the workplace. It covers sensitive responses to, and interactions with, all manner of diversity that might be encountered during the course of work.

### Application of the Unit

This unit applies to individuals who work in a variety of contexts, where they will be expected to interact with a diverse client and/or co worker population.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable

### Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

## Elements and Performance Criteria

|                                                               |                                                                                                                                                                                                                                                                                                                                                                                                    |
|---------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Recognise individual differences and respond appropriately | <p>1.1 Recognise and respect <b><i>individual differences</i></b> in <b><i>colleagues</i></b>, clients and customers</p> <p>1.2 Respond to differences sensitively</p> <p>1.3 Ensure behaviour is consistent with <b><i>legislative requirements</i></b> and <b><i>enterprise guidelines</i></b></p> <p>1.4 Accommodate diversity using appropriate verbal and non-verbal communication</p>        |
| 2. Work effectively with individual differences               | <p>2.1 Recognise and document knowledge, skills and experience of others in relation to team objectives</p> <p>2.2 Encourage colleagues to utilise and share their specific qualities, skills or backgrounds with other team members and clients in order to enhance work outcomes</p> <p>2.3 Ensure relations with customers and clients demonstrate that diversity is valued by the business</p> |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities
- problem-solving and initiative skills to recognise and address own responses to difference.

## Required knowledge

- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety
- major groups in the community and work environment, as defined by cultural, religious and other traditions and practices
- reasonable adjustments that facilitate participation by people with a disability
- value of diversity to the economy and society in terms of workforce development, Australia's place in the global economy, innovation and social justice.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                    |
|-----------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                    |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• adjusting language and behaviour as required by interactions with diversity</li> <li>• awareness of diversity issues</li> <li>• knowledge of relevant legislation.</li> </ul>              |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• examples of diversity issues in the workplace</li> <li>• examples of documents relating to diversity policies and procedures.</li> </ul> |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p>                                                                                                                                |

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>• analysis of responses to case studies and scenarios</li> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• oral or written questioning to assess knowledge of sourcing support about workplace diversity</li> <li>• review of documentation outlining the knowledge, skills and experience of others in relation to team objectives.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• workplace effectiveness units.</li> </ul>                                                                                                                                                                                                                                                                                    |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|---------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Individual differences</i></b> may include: | <ul style="list-style-type: none"> <li>• ability</li> <li>• age</li> <li>• belief systems/values</li> <li>• culture</li> <li>• expertise/experience/working styles</li> <li>• gender</li> <li>• interests</li> <li>• interpersonal style</li> <li>• language</li> <li>• mental ability</li> <li>• past experiences</li> <li>• physical characteristics</li> <li>• politics</li> <li>• race</li> <li>• religion</li> <li>• sexual orientation</li> </ul> |
|---------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                                              |                                                                                                                                                                                                           |
|----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills to identify financial information; to read and understand the organisation's accounting procedures; and to edit and proofread documents to ensure conformity and consistency of information
- communication skills to clarify information and to refer errors or discrepancies to appropriate people
- numeracy skills to read and interpret financial data and to prepare cash analysis sheets
- problem-solving skills to reconcile figures.

#### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - financial legislation
  - occupational health and safety (OHS)
- organisational policies and procedures relating to maintaining financial records
- definition of credits/creditors and debits/debtors
- principles of double entry bookkeeping and accrual accounting
- methods of presenting financial data.

## Evidence Guide

| <b>EVIDENCE GUIDE</b>                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                   | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Compile financial information and data | <p>1.1. Collect, evaluate and code current <b><i>financial data</i></b> to ensure consistency, quality and accuracy in accordance with <b><i>organisational requirements</i></b></p> <p>1.2. Use <b><i>conversion and consolidation procedures</i></b> to compile analysis in accordance with organisational requirements</p> <p>1.3. Make, record and disclose asset and liability valuations in accordance with organisational requirements</p> <p>1.4. Ensure that <b><i>discrepancies</i></b>, unusual features or queries are identified, resolved or referred to the appropriate authority</p>                                  |
| 2. Prepare statutory requirement reports  | <p>2.1. Correctly record income and expenditure to ensure compliance with <b><i>statutory requirements</i></b></p> <p>2.2. Calculate liabilities for tax in accordance with current legislation and <b><i>revenue gathering practices</i></b></p> <p>2.3. Correctly identify relevant receipts, <b><i>revenue documentation</i></b> and payments</p> <p>2.4. Ensure that statements and claims take full advantage of <b><i>available benefits and allowances</i></b> in accordance with statutory requirements</p> <p>2.5. Submit statutory requirement reports to appropriate authorities within <b><i>stated deadlines</i></b></p> |

| ELEMENT                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3. Provide financial business recommendations | <p>3.1. Ensure that <b>recommendations</b> are logically derived and supported by <b>evidence</b> in report</p> <p>3.2. Provide recommendations to propose constructive actions to enhance the effectiveness and efficacy of functions and services</p> <p>3.3. Ensure recommendations are concise and facilitate direction and control of organisation's operations</p> <p>3.4. Identify and prioritise <b>significant issues</b> in statements including comparative financial performances for review and decision making</p> <p>3.5. Ensure structure and <b>format of reports</b> are clear and conform to organisational and statutory requirements</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills to identify financial information and the organisation's accounting procedures, and to create financial reports
- problem-solving skills to deal with a defined range of predictable problems
- decision making skills to make routine decisions
- numeracy skills to calculate data and to reconcile figures.

#### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - financial legislation
  - occupational health and safety (OHS)
- principles of double entry bookkeeping and accrual accounting
- techniques for forecasting and analysis
- Federal government taxes and charges

**REQUIRED SKILLS AND KNOWLEDGE**

- options, methods and practices for deductions, benefits and depreciations.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- organising financial data to highlight relevant features
- presenting financial data in comprehensive format
- completing Business Activity Statements
- knowledge of relevant legislation.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to an actual workplace or simulated environment
- access to office equipment and resources
- examples of financial data, reports and documents.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- review of income and expenditure records
- analysis of responses to case studies and scenarios
- demonstration of techniques
- review of tax liabilities calculations
- oral or written questioning to assess knowledge of principles of double entry bookkeeping and accrual accounting
- assessment of recommendations provided proposing constructive actions to enhance the effectiveness and efficacy of functions and services.

**EVIDENCE GUIDE****Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- general administration units
- other financial administration units.

**Range Statement****RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Financial data*** may include:

- Australian Bureau of Statistics (ABS) economic data
- budget variances
- budgets and forecasts
- cash flow/profit reports
- financial markets monitoring services (e.g. Reuters)
- financial/operational statements and reports (e.g. expenditures and receipts, profit and loss statements)
- market valuations

***Organisational requirements*** may include:

- financial analysis assessments
- financial management manuals
- legal and organisational policies, guidelines and requirements
- OHS policies, procedures and programs
- price and exchange parameters
- quality assurance and/or procedures manuals
- recording and filing systems
- reporting requirements
- standard financial analysis techniques

***Conversion and consolidation procedures*** may include:

- moving averages
- spreadsheets

| 4. Review and evaluate financial management processes | <p>4.1. Collect and collate for analysis, <b>data and information on the effectiveness of financial management processes</b> within the work team</p> <p>4.2. Analyse data and information on the effectiveness of financial management processes within the work team and identify, document and recommend any improvements to existing processes</p> <p>4.3. Implement and monitor agreed improvements in line with financial objectives of the work team and the organisation</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- numeracy skills to read and understand a budget and to update a budget
- technology skills to use software associated with financial record keeping.

#### Required knowledge

- basic accounting principles
- organisational requirements related to financial management
- relevant legislation and current requirements of the Australian Taxation Office, including GST
- requirements for organisational record keeping and auditing
- principles and techniques involved in:
  - budgeting

**REQUIRED SKILLS AND KNOWLEDGE**

- cash flows
- electronic spreadsheets
- GST
- ledgers and financial statements
- profit and loss statements.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- financial skills required to work with and interpret budgets, ageing summaries, cash flow, petty cash, GST, and profit and loss statements
- knowledge of the record keeping requirements for the ATO and for auditing purposes.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to appropriate documentation and resources normally used in the workplace.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- assessment of written reports indicating broad knowledge of managing budgets and managing financial resources in the organisation
- demonstration of techniques using financial record keeping software
- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- oral or written questioning to assess knowledge of requirements for organisational record keeping and auditing

**EVIDENCE GUIDE**

| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• other units from the Diploma of Management.</li> </ul>                                                                                                                           |

**Range Statement****RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                   |                                                                                                                                                                                                                                                                                                                                                        |

| 1 Develop organisation's remuneration strategy | <p>1.1 Analyse strategic and operational plans to determine the scope of <b>remuneration and benefits plans</b></p> <p>1.2 Undertake research on current practice, recent developments and legislative parameters for the remuneration strategy</p> <p>1.3 Develop options for consideration by relevant managers</p> <p>1.4 Present options showing the link to organisational strategic objectives</p> <p>1.5 Ensure remuneration policies and incentive plans are agreed and documented</p>                       |
| 2 Implement remuneration strategy              | <p>2.1 Research occupational groups to determine those which are industrial agreement based</p> <p>2.2 Access/undertake <b>market rates surveys</b> regularly to ensure the organisation's required level of competitiveness for particular occupational groups is maintained</p> <p>2.3 Align remuneration and benefits plans with performance management system</p> <p>2.4 Ensure that employees receive at least their minimum entitlements in accordance with organisational policies and legal requirements</p> |

- 2.5 Ensure **salary packages** comply with organisational policies and legal requirements including fringe benefits tax (FBT) and superannuation
  - 2.6 Ensure **incentive arrangements**, if included, comply with the organisation's remuneration strategy
- 3 Review and update remuneration strategy
  - 3.1 Consult managers and employees about the effectiveness of the remuneration strategy
  - 3.2 Amend strategy and plans as necessary to meet organisational policies and legal requirements

## Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

### Required skills

interpersonal skills and ethics to communicate sensitively about remuneration and to observe confidentiality

mathematical and technology skills to calculate costs to the organisation, to graph salary costs and to link salaries to budgets

research skills to determine appropriate models of remuneration and benefits for particular occupational groups and individuals.

### Required knowledge

leasing arrangements including novated leases

models for bonus/incentive schemes including gain sharing/profit sharing

relevant legislation

remuneration principles/models and strategies

requirements of Australian Tax Office in relation to income tax, superannuation reporting, FBT and bonus payments.

award structures for industrial agreements.

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- compliance with all of the legal aspects of managing remuneration and benefits
- demonstrated capacity to research and apply remuneration strategies to different occupational groups and circumstances
- application of awards and agreements to structure remuneration processes
- knowledge of the requirements of the Australian Tax Office in relation to income tax, superannuation reporting, FBT and bonus payments.

#### Context of and specific resources for assessment

Assessment must ensure:

- access to appropriate documentation and resources normally used in the workplace.

#### Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- assessment of written reports on remuneration models and approaches
- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- review of research undertaken on current practice, recent developments and legislative parameters for the remuneration strategy
- review of remuneration options developed for consideration by relevant managers
- oral or written questioning to assess knowledge of legislation and the taxation

system.

**Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

other units from the Diploma of Human Resources Management.

## Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Remuneration and benefits** may include:

- allowances
- annual leave
- bonuses/incentives
- competency-based progression
- employee share plans
- ex gratia payments
- expense reimbursement
- family/carer's leave
- fringe benefits
- leave without pay
- long service leave
- motor vehicle
- salaries and wages
- share options
- sick leave
- special leave
- study leave
- superannuation

|                                            |                                                                                                                                                                                                                                                                                   |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Market rates surveys</b> may include:   | data from remuneration specialists<br>general community surveys<br>industry salary benchmarking<br>surveys conducted by the organisation                                                                                                                                          |
| <b>Salary packages</b> refers to:          | payment arrangement where the total remuneration and benefits payable to an employee are calculated as total cost of employment (i.e. salary, allowances, motor vehicle, superannuation and fringe benefits)<br>it does not include payroll tax or workers compensation insurance |
| <b>Incentive arrangements</b> may include: | commission<br>bonuses<br>share plans<br>share options<br>gain sharing<br>profit sharing                                                                                                                                                                                           |

| <b>Unit descriptor</b> | <p>This unit describes the performance outcomes, skills and knowledge required to manage all aspects of the recruitment selection and induction processes in accordance with organisational policies and procedures.</p> <p>No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.</p> |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### Application of the Unit

|                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application of the unit</b> | <p>This unit applies to human resources managers or human resources personnel who take responsibility for managing all aspects of selecting new staff and orientating those staff to their new positions. It is not assumed that the manager will be directly involved in the selection processes themselves, although this may well be the case.</p> <p>In small organisations this role may belong to someone who is not a dedicated human resources professional; the unit however will still be applicable.</p> |

Ensure that <b>selection procedures</b> are in accordance with organisational policy and legal requirements</p> <p>2.7. Ensure that processes for advising applicants of selection outcome are followed</p> <p>2.8. Ensure that job offers and contracts of employment are executed promptly and that new appointments are provided with advice about salary, terms and conditions</p> |
| 3. Manage staff induction | <p>3.1. Provide access to training and ongoing support for all persons engaged in staff induction</p> <p>3.2. Check that induction processes are followed across the organisation</p> <p>3.3. Oversee the management of probationary employees and provide them with feedback until their employment is confirmed or terminated</p> <p>3.4. Obtain feedback from participants and relevant managers on the extent to which the induction process is meeting its objectives</p> <p>3.5. Make refinements to induction policies and procedures</p>                                                                                                                                                                                                                                                    |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to liaise across the organisation and to ensure that policies and procedures are well supported
- leadership skills to engage others and to ensure that good processes are followed and supported

**REQUIRED SKILLS AND KNOWLEDGE**

- literacy skills to document clear policies and procedures and to develop proformas to support recruitment, selection and induction.

**Required knowledge**

- concept of outsourcing
- diversity, equal employment opportunity and anti-discrimination principles and associated legislation
- employee contracts
- industrial relations
- recruitment and selection methods, including assessment centres
- relevant legislation on equal opportunity, industrial relations and anti-discrimination
- relevant terms and conditions of employment
- understanding of psychometric and skills testing programs
- workplace relations regulations, workplace relations legislation and other relevant legislation.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- development of a policy and procedures framework for recruitment, selection and induction OR critical analysis of an existing policy and procedures framework for recruitment, selection and induction
- knowledge of relevant legislation.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to appropriate documentation and resources normally used in the workplace.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- assessment of written reports on recruitment,

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <p>selection and induction processes</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• review of training and other forms of support provided to all persons involved in the recruitment and selection process</li> <li>• evaluation of trialling of forms and documents that support policies and procedures</li> <li>• review of documentation outlining feedback obtained from participants and relevant managers on the extent to which the induction process is meeting its objectives</li> <li>• oral or written questioning to assess knowledge of relevant legislation and selection processes.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• other units form the Diploma of Human Resource Management.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## Range Statement

| RANGE STATEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                                                                                                                                                                                      |

Identify, <b>remove</b> and/or <b>relocate inactive or dead files</b> in accordance with organisational requirements<br>3.3. Establish and assemble new files in accordance with organisational requirements<br>3.4. Update reference and index systems in accordance with organisational requirements            |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills to read and understand organisation's recordkeeping and information systems(including classification systems), to follow sequenced written instructions and to comprehend/interpret nature of record content
- numeracy skills to sequence and index files
- planning skills to organise work priorities and arrangements
- problem-solving skills to solve routine problems
- technology skills to select and use technology appropriate to maintaining workplace information.

#### Required knowledge

- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety
- organisational policies and procedures relating to collecting and processing workplace information
- organisational recordkeeping/filing systems and security procedures
- organisation's business and structure
- range of filing systems including paper-based and software-based.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-----------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• applying organisational policies and procedures for collecting and processing workplace information</li> <li>• accuracy in recording and documenting information</li> <li>• correctly storing, classifying and maintaining documents and records.</li> </ul>                                                                                                                                                                                                                                                                                          |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• examples of workplace information systems.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• review of maintenance of information and filing systems</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• oral or written questioning to assess knowledge of the management of information in the workplace.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• general administration units</li> <li>• other information management units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                              |

## Range Statement

| <b>RANGE STATEMENT</b>                                                                                                                                                                                                                                                                                                                                                                                                                      |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and</p> |

| <b>RANGE STATEMENT</b>                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Elements and Performance Criteria

| ELEMENT                           | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Collect and assess information | <p>1.1. Access product and service <b>information</b> in accordance with <b>organisational requirements</b></p> <p>1.2. Ensure <b>methods of collecting information</b> are reliable and make efficient use of available time and resources</p> <p>1.3. Assess information for clarity, accuracy, currency and relevance to intended tasks</p> <p>1.4. Use <b>interpersonal skills</b> to access relevant information from teams and individuals</p>                                                                                                                                                                                |
| 2. Organise information           | <p>2.1. Organise information in a <b>format</b> suitable for analysis, interpretation and dissemination in accordance with organisational requirements</p> <p>2.2. Use appropriate <b>technology/systems</b> to maintain information in accordance with organisational requirements</p> <p>2.3. Collate information and materials, and communicate to relevant <b>designated persons</b></p> <p>2.4. Identify difficulties organising and accessing information and solve collaboratively with individuals and team members</p> <p>2.5. Update and store information in accordance with organisational requirements and systems</p> |
| 3. Review information             | 3.1. Actively seek <b>feedback</b> on clarity, accuracy and                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| ELEMENT | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                               |

| needs   | <p>sufficiency of information to ensure relevance of information and system</p> <p>3.2. Review the contribution of information to decision making and implement appropriate modifications to collection processes</p> <p>3.3. Identify future information needs and incorporate in modifications to collection processes</p> <p>3.4. Document future information needs and incorporate in modifications to reporting processes</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- analytical skills to classify and report information
- literacy skills to read and understand a variety of texts; and to write, edit and proofread documents to ensure clarity of meaning, accuracy and consistency of information
- problem-solving skills to deal with information which is contradictory, ambiguous, inconsistent or inadequate
- technology skills to display information in a format suitable to the target audience.

#### Required knowledge

- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety (OHS)
- methods for checking validity of information and its sources
- organisational recordkeeping/filing systems, security procedures and safe recording practices
- policies and procedures relating to distribution of workplace information, and legal and ethical obligations.

## Evidence Guide

| <b>EVIDENCE GUIDE</b>                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| <b>Context of and specific resources for assessment</b>                                                                                                                                                                | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• examples of information documents found in the workplace.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Method of assessment</b>                                                                                                                                                                                            | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• oral or written questioning to assess knowledge of organisational recordkeeping/filing systems</li> <li>• analysis of how information and materials were communicated to relevant people</li> <li>• review of documentation outlining future information needs.</li> </ul> |
| <b>Guidance information for assessment</b>                                                                                                                                                                             | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBWRT301A Write simple documents</li> <li>• general administration units</li> <li>• other information management units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Information** may include:

- computer databases (e.g. library catalogue, customer records)
- computer files (e.g. letters, memos and other documents)
- correspondence (e.g. faxes, memos, letters, email)
- financial figures
- forms (e.g. insurance forms, membership forms)
- invoices (e.g. from suppliers, to debtors)
- personnel records (e.g. personal details, salary rates)
- production targets
- sales records (e.g. monthly forecasts, targets achieved)

**Organisational requirements** may include:

- code of conduct/code of ethics
- information protocols
- legal and organisational policies, guidelines and requirements
- management and accountability channels
- OHS policies, procedures and programs
- procedures for updating records
- quality assurance and/or procedures manuals
- security and confidentiality requirements

**Methods of collecting information** may include:

- checking research provided by others
- checking written material including referrals and client files
- classification tools
- individual research
- information from other organisations
- interviews with colleagues/customers

| <b>RANGE STATEMENT</b>                   |                                                                                                                                                                                                                                                                                     |

# BSBINM501A Manage an information or knowledge management system

## Modification History

Not applicable.

## Unit Descriptor

|                        |                                                                                                                                                                                                                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Unit descriptor</b> | <p>This unit describes the performance outcomes, skills and knowledge required to organise learning to use an information or knowledge management system and to manage the use of the system.</p> <p>No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.</p> |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Application of the Unit

|                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application of the unit</b> | <p>This unit applies to managers who have responsibility for seeing that key information and corporate knowledge are retained, accessible to others and improve business outcomes.</p> <p>The unit does not address the requirement to select the technical system (software or hardware), which is seen as the role of an information technology specialist, although in some smaller organisations this may be a part of the manager's role.</p> |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                                                | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

|                                                             | 2.3. Monitor integration and alignment with data and information systems<br>2.4. Collect information on achievement of <b>performance measures</b><br>2.5. Manage contingencies such as system failure or technical difficulties by accessing technical specialist help as required                    |
| 3. Review use of information or knowledge management system | 3.1. Analyse effectiveness of system and report on strengths and limitations of the system<br>3.2. Review business and operational plan and determine how effectively the system is contributing to intended outcomes<br>3.3. Make recommendations for improvement to system, policy or work practices |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- analytical and problem-solving skills to ensure the system is working in accordance with organisational expectations and to deal with contingencies
- technology skills to work with and manage the use of the information or knowledge management system.

#### Required knowledge

- legislation, codes of practice and national standards, for example:
  - privacy and confidentiality legislation
  - freedom of information legislation
  - AS 5037:2005 Knowledge management - A guide
- organisational policies and procedures, for example:
  - records management
  - information management
  - customer service
  - commercial confidentiality
- organisational operations, and existing data and information systems.

## Evidence Guide

| <b>EVIDENCE GUIDE</b>                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

**EVIDENCE GUIDE****assessment**

industry sector, workplace and job role is recommended, for example:

- other units from the Diploma of Management.

**Range Statement****RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Relevant personnel*** include:

- managers, leaders, supervisors and coordinators
- owners
- staff, team members and colleagues

***Stakeholders*** include:

- clients and customers
- employee representatives
- funding bodies
- industry, professional and trade associations
- regulatory bodies and authorities
- sponsors
- tenderers, suppliers and contractors

***Information or knowledge management*** is defined as:

- equipment, strategies, methods, activities and techniques used formally and informally by individuals and the organisation to identify, collect, organise, store, retrieve, analyse, share and draw on information and knowledge valuable to the work of the organisation

***An information or knowledge management system:***

- comprises policies, protocols, procedures and practices to manage information or knowledge within the organisation and among relevant stakeholders

***Learning activities*** include:

- coaching and mentoring programs
- help desks
- information sessions, briefings, workshops and training programs
- paper-based or electronic (including intranet)

| <b>RANGE STATEMENT</b>                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| <b>Application of the unit</b> | <p>This unit applies individuals who play a pro active role in demonstrating, encouraging or supporting innovation in a team environment. The individual may be a team participant or a team leader.</p> <p>The team may 'make itself' or be constructed by others. It may have core members and members who participate at certain times or for particular purposes. It may be permanent or temporary, or come together at different times to work on specific projects.</p> <p>The team could consist of a team of contractors/freelancers, permanent staff, clients and service providers, or any combination of these groups. It may operate within an organisation or across several organisations - or simply across a group of individuals.</p> <p>The key focus of the unit is on what makes for an innovative team, what keeps it working well, how the structure of work can make a difference and what skills and knowledge are needed to maximise opportunities for innovation. Where a greater focus on team leadership is required this unit should be combined with units such as BSBLED401A Develop teams and individuals.</p> |

| 2. Organise and agree effective ways of working | 2.1. Jointly establish <b>ground rules</b> for how the team will operate<br>2.2. Agree and communicate responsibilities in ways that encourage and reinforce <b>team-based innovation</b><br>2.3. Agree and share tasks and activities to ensure the best use of skills and abilities within the team<br>2.4. Plan and schedule activities to allow time for thinking, challenging and collaboration<br>2.5. Establish personal reward and stimulation as an integral part of the team's way of working |
| 3. Support and guide colleagues                 | 3.1. Model <b>behaviour that supports innovation</b><br>3.2. Seek <b>external stimuli and ideas</b> to feed into team activities<br>3.3. Pro-actively share information, knowledge and experiences with other team members<br>3.4. Challenge and test ideas within the team in a positive and collaborative way<br>3.5. Pro-actively discuss and explore ideas with other team members on an ongoing basis                                                                                              |
| 4. Reflect on how the team is working           | 4.1. De-brief and reflect on activities and on opportunities for improvement and innovation<br>4.2. Gather and use feedback from within and outside the team to generate discussion and debate<br>4.3. Discuss the <b>challenges of being innovative</b> in a constructive and open way<br>4.4. Take ideas for improvement, build them into future activities and communicate key issues to relevant colleagues<br>4.5. Identify, promote and celebrate successes and examples of successful innovation |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

**REQUIRED SKILLS AND KNOWLEDGE**

- communication skills to work collaboratively as part of a team, to provide guidance and support to others, and to participate in open and constructive discussions
- creative thinking skills to generate, explore, test and challenge ideas
- learning skills to stretch boundaries of own knowledge and skills
- literacy skills to analyse a wide range of information from varied sources
- planning and organisational skills to participate in the effective allocation of work in a team context
- problem-solving skills to work constructively to overcome issues and challenges of both a practical and conceptual nature and to make ideas become realities
- self-management skills to take a pro-active team role and to reflect on own performance in modelling and encouraging behaviour that supports innovation.

**Required knowledge**

- barriers to innovation that can occur within a team and broader barriers that sometimes hinder innovation
- broad concepts of innovation including what innovation is, different types of innovation and the benefits of innovation
- characteristics of teams that are more likely to be innovative and characteristics of broader environments that support and encourage innovation
- different roles that people may play within a team, how this impacts on the way a team works and what it might achieve
- group dynamics in a team.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- active participation in a team where the team takes a pro-active and considered approach to innovation and innovative practice
- collaborative and open communication within the team
- knowledge and understanding of the internal and external factors that contribute to a team becoming

| EVIDENCE GUIDE                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|                                                         | and remaining innovative.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Context of and specific resources for assessment</b> | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>demonstration of skills as part of a team.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Method of assessment</b>                             | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>direct observation of team interactions</li> <li>evaluation of reports by the candidate or the team (could be oral or written) discussing the ideas, challenges and opportunities associated with teams, and how they can be more innovative</li> <li>evaluation of feedback from other people in the team about the candidate's communication approaches and abilities</li> <li>oral or written questioning to assess knowledge of the characteristics of innovative teams, innovation concepts more broadly and they ways in which innovation can be encouraged</li> <li>review of jointly established 'groundrules' for how the team will operate.</li> </ul> |
| <b>Guidance information for assessment</b>              | Innovation does not occur in isolation. Holistic assessment with other units relevant to the industry sector, workplace and job role is highly recommended.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## BSBITS401B Maintain business technology

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                   |
|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version first released with <i>BSB07 Business Training Package version 6.0</i>.</p> <p>Revised unit. Required skills updated to focus on learning and development practices and compliance with policy and procedures.</p> <p>Replaces BSBITS401A Maintain business technology</p> |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to maintain the effectiveness of business technology in the workplace. It includes maintaining existing technology and planning for future technology requirements.

### Application of the Unit

This unit applies to individuals with a broad knowledge of business technology who contribute well developed skills in creating solutions to maintenance and upgrade issues with existing technology. They may have responsibility to provide guidance or to delegate aspects of these tasks to others.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

## Elements and Performance Criteria

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|--------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Maintain performance of hardware and software | <p>1.1 Monitor and evaluate system effectiveness to ensure it meets <b>organisational and system requirements</b></p> <p>1.2 Use operating system, drive and disk structure, reports and files to identify performance problems</p> <p>1.3 <b>Maintain disk drives and peripherals</b> according to manufacturers' and organisational requirements</p> <p>1.4 Replace <b>consumables</b> in accordance with manufacturers' and organisational requirements</p>                                                                                                                              |
| 2. Provide basic system administration           | <p>2.1 Carry out system back-up procedure at regular intervals according to organisational and system requirements</p> <p>2.2 Install and operate <b>software</b> applications in accordance with developers' and organisational requirements</p> <p>2.3 Maintain and update security access procedures in line with organisational requirements</p> <p>2.4 Ensure that licence for use of software is used, checked and recorded in accordance with organisational requirements</p> <p>2.5 Regularly maintain and update virus programs in accordance with organisational requirements</p> |
| 3. Identify future technology requirements       | <p>3.1 Maintain knowledge of current and new <b>technology</b> by regularly accessing <b>sources of information</b></p> <p>3.2 Identify and develop <b>improved technology systems</b> using feedback from clients and colleagues</p> <p>3.3 Assess existing technology against newly available technology to determine future needs and priorities</p> <p>3.4 Identify and select new technologies to achieve and maintain continuous organisational development</p> <p>3.5 Obtain management and budget approval for new selected</p>                                                     |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- communication skills to explain the operation and troubleshooting of technology in the work environment
- literacy skills to interpret and evaluate the purposes and objectives of various uses of technology; to display logical organisation of written information
- problem-solving skills to address routine and non-routine faults with hardware and software
- research and analytical skills to analyse and identify organisation's future technology requirements.

### Required knowledge

- costs and benefits of technology maintenance strategies
- general features and capabilities of current industry accepted hardware and software products
- principles of environmental sustainable practice in implementing business technology
- importance of back-up and security procedures; maintenance and diagnostic procedures; licensing, installation and purchasing procedures
- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - environmental issues
  - occupational health and safety (OHS).

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                        |  |
|------------------------|--|
| Overview of assessment |  |
|------------------------|--|

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-----------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>installing software and hardware</li> <li>organising and accessing software, materials and consumables</li> <li>maintaining technology security and maintenance systems</li> <li>knowledge of costs and benefits of technology maintenance strategies.</li> </ul>                                                                                                                                                                                                                                                           |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>access to an actual workplace or simulated environment</li> <li>access to office equipment and resources</li> <li>access to examples of technology maintenance and security procedures.</li> </ul>                                                                                                                                                                                                                                                                                                                                          |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>analysis of responses to case studies and scenarios</li> <li>demonstration of techniques</li> <li>oral or written questioning to assess knowledge of general features and capabilities of current industry accepted hardware and software products.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>other information and communications technology or general administration units.</li> </ul>                                                                                                                                                                                                                                                                                                                                               |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Organisational and system requirements</b> may include: | <ul style="list-style-type: none"> <li>• back-up procedures</li> <li>• Code of Conduct</li> <li>• ethical standards</li> <li>• legal and organisational policy/guidelines and requirements</li> <li>• maintenance of customised software</li> <li>• OHS policies, procedures and programs</li> <li>• quality assurance and/or procedures manuals</li> <li>• register of licenses</li> <li>• restore procedures</li> <li>• security and confidentiality procedures</li> <li>• software licence documentation</li> <li>• storage of information technology documentation</li> <li>• storage retrieval and type of product licenses</li> <li>• updating of virus protection systems.</li> </ul> |
| <b>Disk drive and peripherals maintenance</b> may include: | <ul style="list-style-type: none"> <li>• backing up files before major maintenance</li> <li>• checking hard drive for errors</li> <li>• cleaning dust from internal and external surfaces</li> <li>• creating more free space on the hard disk</li> <li>• defragmenting the hard disk</li> <li>• deleting unwanted files</li> <li>• reviewing programs</li> <li>• using up-to-date anti-virus programs.</li> </ul>                                                                                                                                                                                                                                                                           |

## Elements and Performance Criteria

| ELEMENT                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Implement procedures to send and receive electronic mail | <p>1.1. Log in to <b>software</b> for sending and receiving email in accordance with <b>organisational requirements</b></p> <p>1.2. <b>Check outgoing email for accuracy</b> and ensure any required <b>attachments</b> are prepared, in accordance with organisational and service provider requirements</p> <p>1.3. Identify urgent, confidential, personal, <b>suspicious or potentially dangerous email</b> and take appropriate actions</p> <p>1.4. <b>Deal with returned email</b> in accordance with organisational policies and procedures</p> |
| 2. Manage electronic mail                                   | <p>2.1. Set security levels and/or filters for incoming email in accordance with organisational requirements</p> <p>2.2. Create and maintain individual mailboxes in accordance with organisational requirements</p> <p>2.3. <b>Store email</b> and/or attachments in accordance with organisational requirements</p> <p>2.4. Empty inboxes and archive or permanently delete in accordance with organisational requirements</p> <p>2.5. Prepare and maintain electronic <b>mailing lists</b> in accordance with organisational requirements</p>       |
| 3. Collaborate online                                       | <p>3.1. Identify software to be used in collaboration</p> <p>3.2. Ensure <b>online collaboration</b> is undertaken in</p>                                                                                                                                                                                                                                                                                                                                                                                                                              |

| ELEMENT | PERFORMANCE CRITERIA                                                                                                                                                                                                           |
|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|         | <p>accordance with organisational policy, procedures and <i>net etiquette</i> (netiquette)</p> <p>3.3. Respond to posts or communications in accordance with agreed parameters, organisational requirements and netiquette</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to request advice, to receive feedback and to work with a team
- literacy skills to identify work requirements; to understand and process basic, relevant workplace information; and to draft simple correspondence
- problem-solving skills to solve routine technology problems.

#### Required knowledge

- different methods of electronic communication
- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• sending and receiving email for a range of purposes</li> <li>• attaching and removing documents to email</li> <li>• using software applications to collaborate online</li> <li>• knowledge of relevant legislation.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• access to software applications likely to be used in the workplace.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• oral or written questioning to assess knowledge of electronic communication methods and tools</li> <li>• review of attachments prepared for email</li> <li>• review of electronic mailing lists</li> <li>• evaluation of postings and responses to online discussions.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• general administration units</li> <li>• other IT use units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

## Range Statement

| <b>RANGE STATEMENT</b>                                                                                                                                                                                                                                              |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating</p> |

**RANGE STATEMENT**

conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Software** may include:

- mobile or wireless software applications:
  - personal digital assistants (PDA)
  - mobile phones
  - text messaging (SMS/TXT)
  - multimedia messaging (MMS)
  - internet relay chat (IRC)
- personal computer-based software applications:
  - email applications
  - web-based email services
  - chat applications
  - internet discussion groups/boards/chat rooms
  - intranet discussion groups/boards/chat rooms

**Organisational requirements** may include:

- carbon copies or blind carbon copies
- concise, relevant subject line
- electronic signature
- form of address
- formality/informality of language, tone and structure
- including original message in the reply
- length of emails (i.e. short and to the point)
- net ethics
- net etiquette(netiquette)
- requesting read receipt
- sender's name and address

**Checking outgoing email for accuracy** may include checking:

- clarity of intended meaning
- completeness
- content
- grammar
- punctuation
- recipient's address
- spelling
- structure

**Attachments** may include:

- PDFs

| <b>RANGE STATEMENT</b>                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|                                |                                                                                                                                                                                                                                                                                                                             |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application of the unit</b> | <p>This unit applies to individuals employed in a range of work environments who develop and use simple databases to store and retrieve data. They may provide administrative support within an enterprise, or may be independently responsible for the storage and retrieval of data relating to their own work roles.</p> |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Create a simple database   | <p>1.1.Design a simple database, with at least two tables, using a <b><i>database application, basic design principles, software functions</i></b> and <b><i>simple formulae</i></b></p> <p>1.2.Develop a table with fields and attributes according to database usage, as well as <b><i>data</i></b> considerations and user requirements</p> <p>1.3.Create a primary key for each table</p> <p>1.4.Modify table layout and field attributes as required</p> <p>1.5.Create a relationship between the two tables</p> <p>1.6.<b><i>Check and amend data</i></b> entered, in accordance with organisational and task requirements</p> |
| 2. Create reports and queries | <p>2.1.Determine information output, database tables to be used and <b><i>report layout</i></b> to meet task requirements</p> <p>2.2.Determine data groupings, search and sort criteria to meet task requirements</p> <p>2.3.Run reports and queries to check that results and formulae provide the required data</p> <p>2.4.Modify reports to include or exclude additional requirements</p>                                                                                                                                                                                                                                        |
| 3. Use database               | <p>3.1.Ensure data input meets <b><i>designated time lines</i></b> and organisational requirements for speed and accuracy</p> <p>3.2.Use manuals, user documentation and online help to overcome problems with database design and</p>                                                                                                                                                                                                                                                                                                                                                                                               |

| ELEMENT | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                               |
|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|         | <p>production</p> <p>3.3. Preview, adjust and <b><i>print</i></b> database reports or forms in accordance with organisational and task requirements</p> <p>3.4. Name and <b><i>store databases</i></b>, in accordance with organisational requirements, and exit application without data loss or damage</p> <p>3.5. Prepare and distribute reports to appropriate person in a suitable format</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- numeracy skills to create simple queries and to use simple formulae
- planning and organising skills to develop effective databases
- problem-solving skills to address inconsistencies in data and issues in database, and to query structures.

#### Required knowledge

- key provisions of relevant legislation from all forms of government, standards and codes that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety
- organisational requirements relating to data entry, storage and presentation.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Guidelines for the Training Package.                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• creating simple databases and queries</li> <li>• manipulating data using queries</li> <li>• formatting data into a final version.</li> </ul>                                                                                                                                                                                                                                                   |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• access to sample data.</li> </ul>                                                                                                                                                                                                                                                        |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• review of authenticated documents from the workplace or training environment</li> <li>• demonstration of techniques.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• administration units</li> <li>• other information and communications technology units.</li> </ul>                                                                                                                                                                                                            |

## Range Statement

| <b>RANGE STATEMENT</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |

| <b>RANGE STATEMENT</b>                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Database applications</b> may include:      | <ul style="list-style-type: none"> <li>• commercial database applications</li> <li>• organisational specific database applications</li> </ul>                                                                                                                                                                                                                                                                                                                                 |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                         | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Select and prepare resources | 1.1. Select and use appropriate <b>technology</b> and <b>software</b> applications to produce required <b>business documents</b><br>1.2. Select layout and style of publication according to information and <b>organisational requirements</b><br>1.3. Ensure document design is consistent with company and/or client requirements, using basic design principles<br>1.4. Discuss and clarify format and style with person requesting document/publication |
| 2. Design document              | 2.1. Identify, open and generate files and records according to task and organisational requirements<br>2.2. Design document to ensure efficient entry of information and to maximise the presentation and appearance of information<br>2.3. Use a range of <b>functions</b> to ensure consistency of design and layout<br>2.4. Operate <b>input devices</b> within designated requirements                                                                  |
| 3. Produce document             | 3.1. Complete document production within designated time lines according to organisational requirements<br>3.2. Check document produced to ensure it meets task requirements for style and layout<br>3.3. Store document appropriately and save document to                                                                                                                                                                                                  |

| ELEMENT              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                              |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                      | avoid loss of data<br>3.4. Use manuals, training booklets and/or help-desks to overcome basic difficulties with document design and production                                                                                                                                                                                                                                                    |
| 4. Finalise document | 4.1. Proofread document for readability, accuracy and consistency in language, style and layout prior to final output<br>4.2. Make any modifications to document to meet requirements<br>4.3. <b>Name</b> and <b>store</b> document in accordance with organisational requirements and exit the application without data/loss damage<br>4.4. Print and present document according to requirements |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- keyboarding and computer skills to complete a range of formatting and layout tasks
- literacy skills to read and understand a variety of texts; to prepare general information and papers according to target audience; and to edit and proofread documents to ensure clarity of meaning and conformity to organisational requirements
- numeracy skills to access and retrieve data
- problem-solving skills to determine document design and production processes.

#### Required knowledge

- appropriate technology for production requirements
- functions and features of contemporary computer applications
- organisational policies, plans and procedures
- organisational requirements for document design e.g. style guide.

## Evidence Guide

| <b>EVIDENCE GUIDE</b>                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                          | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Determine development needs   | <p>1.1. Systematically identify and implement <b><i>learning and development needs</i></b> in line with <b><i>organisational requirements</i></b></p> <p>1.2. Ensure that a learning plan to meet individual and group training and development needs is collaboratively developed, agreed to and implemented</p> <p>1.3. Encourage individuals to self-evaluate performance and identify areas for improvement</p> <p>1.4. Collect <b><i>feedback on performance</i></b> of team members from relevant sources and compare with established team learning needs</p>                                                                         |
| 2. Develop individuals and teams | <p>2.1. Identify learning and development program goals and objectives, ensuring a match to the specific knowledge and skill requirements of competency standards relevant to the industry</p> <p>2.2. Ensure that <b><i>learning delivery methods</i></b> are appropriate to the learning goals, the learning style of participants, and availability of <b><i>equipment and resources</i></b></p> <p>2.3. Provide workplace learning opportunities, and <b><i>coaching and mentoring assistance</i></b> to facilitate individual and team achievement of competencies</p> <p>2.4. Create development opportunities that incorporates a</p> |

| ELEMENT                                    | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <p>range of activities and support materials appropriate to the achievement of identified competencies</p> <p>2.5. Identify and approve resources and time lines required for learning activities in accordance with organisational requirements</p>                                                                                                                                                                                                                                                                                     |
| 3. Monitor and evaluate workplace learning | <p>3.1. Use feedback from individuals or teams to identify and implement improvements in future learning arrangements</p> <p>3.2. Assess and record outcomes and performance of individuals/teams to determine the effectiveness of development programs and the extent of additional development support</p> <p>3.3. Negotiate modifications to learning plans to improve the efficiency and effectiveness of learning</p> <p>3.4. Document and maintain records and reports of competency according to organisational requirements</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to receive and report on feedback, to maintain effective relationships and to manage conflict
- culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities
- leadership skills to gain trust and confidence of clients and colleagues
- literacy skills to read, write and understand a variety of texts; and to edit and proofread documents to ensure clarity of meaning, accuracy and consistency of information
- negotiation skills to achieve mutually acceptable outcomes
- technology skills to support effective communication and presentation.

#### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles

**REQUIRED SKILLS AND KNOWLEDGE**

- codes of practice
- privacy laws
- occupational health and safety (OHS)
- facilitation techniques to encourage team development and improvement
- organisational policies, plans and procedures
- career paths and competency standards relevant to the industry.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- identifying and implementing learning opportunities for others
- giving and receiving feedback from team members to encourage participation in and effectiveness of team
- creating learning plans to match skill needs
- knowledge of relevant legislation.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to an actual workplace or simulated environment
- access to office equipment and resources
- examples of learning and development plans, policies and procedures
- examples of documents relating to diversity policies and procedures.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- analysis of responses to case studies and scenarios

| <b>EVIDENCE GUIDE</b>                      |                                                                                                                                                                                                                                                        |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>• oral or written questioning to assess knowledge of career paths and competency standards relevant to the industry</li> <li>• review of records and reports of competency.</li> </ul>                          |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• management units</li> <li>• other learning and development units.</li> </ul> |

## Range Statement

| <b>RANGE STATEMENT</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

## BSBLED501A Develop a workplace learning environment

### Modification History

Not applicable.

### Unit Descriptor

|                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Unit descriptor</b> | <p>This unit describes the performance outcomes, skills and knowledge required to encourage and support the development of a learning environment in which work and learning come together. Particular emphasis is on the development of strategies to facilitate and promote learning, and to monitor and improve learning performance.</p> <p>No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.</p> |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### Application of the Unit

|                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application of the unit</b> | <p>This unit applies to managers. All managers have a prominent role in encouraging, supporting and facilitating the development of a learning environment in which work and learning come together.</p> <p>At this level work will normally be carried out within complex and diverse methods and procedures, which require the exercise of considerable discretion and judgement, using a range of problem solving and decision making strategies.</p> |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                          | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Create learning opportunities | <p>1.1. Identify potential formal and informal <b><i>learning opportunities</i></b></p> <p>1.2. Identify <b><i>learning needs</i></b> of individuals in relation to the needs of the team and/or enterprise, and available learning opportunities</p> <p>1.3. Develop and implement <b><i>learning plans</i></b> as an integral part of individual and team performance plans</p> <p>1.4. Develop strategies to ensure that learning plans reflect the <b><i>diversity of needs</i></b></p> <p>1.5. Ensure organisational procedures maximise individual and team access to, and participation in, learning opportunities</p> <p>1.6. Ensure effective liaison occurs with <b><i>training and development specialists</i></b> and contributes to learning opportunities which enhance individual, team and organisational performance</p> |

| ELEMENT                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2. Facilitate and promote learning            | <p>2.1. Develop strategies to ensure that workplace learning opportunities are used and that team members are encouraged to share their skills and knowledge to <b><i>encourage a learning culture</i></b> within the team</p> <p>2.2. Implement organisational procedures to ensure workplace learning opportunities contribute to the development of appropriate workplace knowledge, skills and attitudes</p> <p>2.3. Implement policies and procedures to encourage team members to assess their own competencies, and to identify their own learning and development needs</p> <p>2.4. Share the benefits of learning with others in the team and organisation</p> <p>2.5. Recognise workplace achievement by timely and appropriate recognition, feedback and rewards</p> |
| 3. Monitor and improve learning effectiveness | <p>3.1. Use strategies to ensure that team and individual learning performance is monitored to determine the type and extent of any additional work-based support required, and any occupational health and safety (OHS) issues</p> <p>3.2. Use feedback from individuals and teams to identify and introduce improvements in future learning arrangements</p> <p>3.3. Make adjustments, negotiated with training and development specialists, for improvements to the efficiency and effectiveness of learning</p> <p>3.4. Use processes to ensure that records and reports of competency are documented and maintained within the organisation's systems and procedures to inform future planning</p>                                                                         |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to:
  - deal with people openly and fairly

## REQUIRED SKILLS AND KNOWLEDGE

- encourage colleagues to share their knowledge and skills
- gain the trust and confidence of colleagues
- use consultation skills effectively
- literacy skills to access and use workplace information
- planning and organisational skills to facilitate, promote and monitor learning by:
  - developing learning plans
  - establishing a workplace which is conducive to learning
  - evaluating the effectiveness of learning
  - identifying learning needs
  - negotiating learning arrangements with training and development specialists
  - selecting and using work activities to create learning opportunities
  - using coaching and mentoring to support learning.

## Required knowledge

- management of relationships to achieve a learning environment
- principles and techniques involved in the management and organisation of:
  - adult learning
  - coaching and mentoring
  - consultation and communication
  - improvement strategies
  - leadership
  - learning environment and learning culture
  - monitoring and reviewing workplace learning
  - problem identification and resolution
  - record keeping and management methods
  - structured learning
  - work-based learning.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• methods for reviewing performance development needs and techniques for providing feedback on those needs</li> <li>• models for planning professional development</li> <li>• options available for professional development</li> <li>• knowledge of relationship management required to achieve a learning environment.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to appropriate documentation and resources normally used in the workplace.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• analysis of responses to case studies and scenarios</li> <li>• assessment of written reports</li> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• observation of performance in role plays</li> <li>• observation of presentations</li> <li>• oral or written questioning to assess knowledge of the principles and techniques involved in the management and organisation of adult learning</li> <li>• review of the development and implementation of learning plans</li> <li>• evaluation of how workplace achievement is recognised</li> <li>• review of processes used to record and report competency.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• other units from the Diploma of Management.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## Range Statement

**RANGE STATEMENT**

**RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Learning opportunities*** may include:

- structured learning activities conducted outside and within the workplace such as:
  - accredited training through an independent organisation such as a state/territory OHS authority
  - action learning
  - short courses
  - training through a Registered Training Organisation (RTO) leading to a nationally recognised Australian Qualifications Framework (AQF) qualification or Statement of Attainment
  - workshops
- workplace learning activities, that may also contribute to a recognised credential, such as:
  - coaching
  - exchange/rotation
  - induction
  - mentoring
  - shadowing

***Learning needs*** may include:

- developmental learning, for example the learning required to progress through an organisation and take on new tasks and roles
- gaps between the competencies held by the employee, and the skills and knowledge required to effectively undertake workplace tasks

***Learning plans*** may include:

- codes of conduct
- key performance indicators
- negotiated agreement with individual/s
- OHS requirements
- performance standards
- team competencies
- team roles and responsibilities
- work outputs and processes

| RANGE STATEMENT                                            |                                                                                                                                                                                                                                    |
|------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Diversity of needs</i></b> may include:              | <ul style="list-style-type: none"> <li>learning needs that relate to social, cultural and other types of workplace diversity, such as the need for varied communication styles and approaches</li> </ul>                           |
| <b><i>Training and development specialists</i></b> may be: | <ul style="list-style-type: none"> <li>internal</li> <li>external</li> </ul>                                                                                                                                                       |
| <b><i>Encourage a learning culture</i></b> may refer to:   | <ul style="list-style-type: none"> <li>encouraging learning and sharing skills and knowledge across the work team and the wider organisation to develop competencies of individual team members and the team as a whole</li> </ul> |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                           | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Implement operational plan     | <p>1.1. Collate, analyse and organise details of <b><i>resource requirements</i></b> in consultation with <b><i>relevant personnel, colleagues and specialist resource managers</i></b></p> <p>1.2. Implement <b><i>operational plans</i></b> to contribute to the achievement of organisation's performance/business plan</p> <p>1.3. Identify and use <b><i>key performance indicators</i></b> (KPIs) to monitor operational performance</p> <p>1.4. Undertake <b><i>contingency planning</i></b> and <b><i>consultation processes</i></b></p> <p>1.5. Provide assistance in the development and presentation of proposals for resource requirements in line with operational planning processes</p> |

| 3. Monitor operational performance | <p>3.1. Monitor <b>performance systems and processes</b> to assess progress in achieving profit/productivity plans and targets</p> <p>3.2. Analyse and use budget and actual financial information to monitor profit/productivity performance</p> <p>3.3. Identify unsatisfactory performance and take prompt action to rectify the situation according to organisational policies</p> <p>3.4. Provide mentoring, coaching and supervision to support individuals and teams to use resources effectively, economically and safely</p> <p>3.5. Present recommendations for variation to operational plans to the <b>designated persons/groups</b> and gain approval</p> <p>3.6. Implement <b>systems, procedures and records</b> associated with performance in accordance with organisation's requirements</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- coaching and mentoring skills to provide support to colleagues
- literacy skills to access and use workplace information, and to prepare reports
- planning and organising skills to monitor performance and to sequence work of self and others to achieve planned outcomes.

#### Required knowledge

- principles and techniques associated with:
  - contingency planning
  - methods for monitoring and reporting on performance
  - monitoring and implementing operations and procedures
  - problem identification and methods of resolution

**REQUIRED SKILLS AND KNOWLEDGE**

- relevant budgeting and financial analysis, interpretation and reporting requirements
- resource management systems at the tactical implementation level
- resource planning and acquisition
- tactical risk analysis including identification and reporting requirements.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- ability to monitor and adjust operational performance, produce short-term plans for the department or section, plan and acquire resources, and provide reports on performance as required
- knowledge of principles and techniques associated with monitoring and implementing operations and procedures.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to appropriate documentation and resources normally used in the workplace.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- review of documentation outlining contingency planning and consultation processes undertaken
- demonstration of techniques in managing performance
- evaluation of mentoring, coaching and supervision provided to support individuals and teams to use resources effectively, economically and safely.

**EVIDENCE GUIDE****Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- other units from the Certificate IV in Frontline Management.

**Range Statement****RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Resource requirements*** may refer to:

- goods and services to be purchased and ordered
- human, physical and financial resources - both current and projected
- stock requirements and requisitions

***Relevant personnel, colleagues and specialist resource managers*** may include:

- colleagues and specialist resource managers
- managers
- occupational health and safety committees and other people with specialist responsibilities
- other employees
- people from a wide range of social, cultural and ethnic backgrounds, and people with a range of physical and mental abilities
- supervisors

***Operational plans*** may refer to:

- organisational plans
- tactical plans developed by the department or section to detail product and service performance

***Key performance indicators*** may refer to:

- measures for monitoring or evaluating the efficiency or effectiveness of a system, and which may be used to demonstrate accountability and to identify areas for improvements

| <b>RANGE STATEMENT</b>                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Contingency planning</i></b> may refer to:                             | <ul style="list-style-type: none"> <li>• contracting out or outsourcing human resources and other functions or tasks</li> <li>• diversification of outcomes</li> <li>• finding cheaper or lower quality raw materials and consumables</li> <li>• increasing sales or production</li> <li>• recycling and re-use</li> <li>• rental, hire purchase or alternative means of procurement of required materials, equipment and stock</li> <li>• restructuring of organisation to reduce labour costs</li> <li>• risk identification, assessment and management processes</li> <li>• seeking further funding</li> <li>• strategies for reducing costs, wastage, stock or consumables</li> <li>• succession planning</li> </ul> |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT               | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Allocate work      | <ul style="list-style-type: none"><li>1.1. Consult relevant groups and individuals on work to be allocated and resources available</li><li>1.2. Document performance in accordance with the organisational performance management system</p> <p>3.5. Conduct formal structured feedback sessions as necessary and in accordance with organisational policy</p>                                                                                                                                                                                                  |
| 4. Manage follow up | <p>4.1. Write and agree performance improvement and development plans in accordance with organisational policies</p> <p>4.2. Seek assistance from human resources specialists where appropriate</p> <p>4.3. Reinforce excellence in performance through recognition and continuous feedback</p> <p>4.4. Monitor and coach individuals with poor performance</p> <p>4.5. Provide support services where necessary</p> <p>4.6. Counsel individuals who continue to perform below expectations and implement the disciplinary process if necessary</p> <p>4.7. <b><i>Terminate</i></b> staff in accordance with legal and organisational requirements where serious misconduct occurs or ongoing poor-performance continues</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

### Required skills

- communication skills to articulate expected standards of performance, to provide effective feedback and to coach staff who need development
- risk management skills to analyse, identify and develop mitigation strategies for identified risks
- planning and organisation skills to ensure a planned and objective approach to the performance management system.

### Required knowledge

- relevant legislation from all levels of government that affects business operation, especially in regard to occupational health and safety and environmental issues, equal opportunity, industrial relations and anti-discrimination
- relevant awards and certified agreements
- performance measurement systems utilised within the organisation
- unlawful dismissal rules and due process
- staff development options and information.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- documented performance indicators and a critical description and analysis of performance management system from the workplace
- techniques in providing feedback and coaching for improvement in performance
- knowledge of relevant awards and certified agreements.

#### Context of and specific resources for assessment

Assessment must ensure:

- access to appropriate documentation and resources normally used in the workplace.

**EVIDENCE GUIDE**

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Method of assessment</b>                | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• analysis of responses to case studies and scenarios</li> <li>• assessment of written reports</li> <li>• demonstration of techniques in providing feedback and coaching</li> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• review of work plans, performance indicators, risk analysis, performance management and review processes, performance improvement and development plans.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• other management units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**Range Statement****RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                     |                                                                                                                                                                                                                                                                  |
|-------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Performance standards</b> mean:  | <ul style="list-style-type: none"> <li>• level of performance sought from an individual or group which may be expressed either quantitatively or qualitatively</li> </ul>                                                                                        |
| <b>Code of Conduct</b> means:       | <ul style="list-style-type: none"> <li>• agreed (or decreed) set of rules relating to employee behaviour/conduct with other employees or an agreed (or decreed) set of rules relating to employee behaviour/conduct with other employees or customers</li> </ul> |
| <b>Performance indicators</b> mean: | <ul style="list-style-type: none"> <li>• measures against which performance outcomes are gauged</li> </ul>                                                                                                                                                       |

| RANGE STATEMENT                                |                                                                                                                                                                                                                                                                                                                                                                      |
|------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Risk analysis</i></b> means:             | <ul style="list-style-type: none"> <li>determination of the likelihood of a negative event preventing the organisation meeting its objectives and the likely consequences of such an event on organisational performance</li> </ul>                                                                                                                                  |
| <b><i>Performance management</i></b> means:    | <ul style="list-style-type: none"> <li>in accordance with relevant industrial agreements</li> <li>process or set of processes for establishing a shared understanding of what an individual or group is to achieve, and managing and developing individuals in a way which increases the probability it will be achieved in both the short- and long-term</li> </ul> |
| <b><i>Excellence in performance</i></b> means: | <ul style="list-style-type: none"> <li>regularly and consistently exceeding the performance targets established while meeting the organisation's performance standards</li> </ul>                                                                                                                                                                                    |
| <b><i>Termination</i></b> means:               | <ul style="list-style-type: none"> <li>cessation of the contract of employment between an employer and an employee, at the initiative of the employer within relevant industrial agreements</li> </ul>                                                                                                                                                               |

## Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

### Required skills

literacy skills to read a variety of texts, to prepare general information and papers, and to write formal and informal letters according to target audience

planning skills to develop implementation schedules

problem-solving skills to address issues which may affect plans and their implementation.

### Required knowledge

key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:

anti-discrimination legislation

ethical principles

codes of practice

privacy laws

environmental issues

occupational health and safety

organisational policies and procedures

specific product knowledge related to goods and services being marketed.

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

planning and implementing marketing activities

reviewing the effectiveness of the marketing plan

documenting the activities and processes worked with

knowledge of relevant legislation.

#### Context of and specific resources for assessment

Assessment must ensure:

access to an actual workplace or simulated environment

access to office equipment and resources

examples of goods/services to be marketed

examples of marketing plans.

#### Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate

review of work activity plans for marketing activities

analysis of responses to case studies and scenarios

demonstration of techniques

observation of presentations

oral or written questioning to assess knowledge of marketing techniques and

strategies

analysis of documentation outlining the outcomes of marketing activities

review of marketing activities reports.

### Guidance information for assessment

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

other marketing, advertising or public relations units.

## Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Need** may be determined by:

analysis of sales figures and other performance data

analysis of client information

direction from relevant enterprise personnel

development of new products and services

**Marketing activities** may include:

attendance at trade shows, conferences and other events

basic advertising

development and distribution of general promotional and informational materials

development and distribution of samples, case studies, testimonials and other evidence of enterprise activity

development of displays and signs

development of media releases, articles and media background information

information sessions for clients, suppliers

|                                               | accordance with the marketing plan                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2. Monitor marketing strategies and tactics   | <p>2.1. Monitor and implement promotional activity against communication objectives in the marketing plan</p> <p>2.2. Monitor product, pricing and distribution decisions against organisational policy and the objectives of the marketing plan</p> <p>2.3. Monitor marketing results against targets in the marketing plan</p> <p>2.4. Monitor marketing revenue and costs against budget, and analyse record variations</p> <p>2.5. Prepare and present marketing reports that indicate ongoing progress towards marketing objectives</p>                                               |
| 3. Evaluate and improve marketing performance | <p>3.1. Regularly assess marketing performance against objectives</p> <p>3.2. Identify opportunities for improvement through discussion with customers and personnel responsible for each element of the marketing mix</p> <p>3.3. Change business practices in line with changing customer requirements to maintain business relevance and viability</p> <p>3.4. Document recommendations for improvement in accordance with organisational requirements</p> <p>3.5. Communicate changes to marketing objectives and targets with relevant stakeholders, to facilitate implementation</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities
- literacy skills to prepare complex reports on marketing performance
- numeracy skills to analyse marketing performance, revenue and cost
- teamwork skills to manage a marketing team.

#### Required knowledge

**REQUIRED SKILLS AND KNOWLEDGE**

- organisational strategic and marketing objectives, plans and performance measures
- principles of the marketing mix
- key provisions of relevant legislation from all forms of government, codes of practice and national standards that may affect aspects of business operations such as:
  - anti-discrimination legislation and principles of equal opportunity, equity, and diversity
  - ethical principles
  - marketing codes of practice and conduct such as the Australian Direct Marketing Association (ADMA) Direct Marketing Code of Practice
  - privacy laws
  - Trade Practices Act.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- successfully implementing marketing strategies identified in an organisation's marketing plan
- coordinating personnel involved in conducting marketing activities
- monitoring, evaluating and reporting on marketing activities against defined objectives
- modifying marketing activities in line with new or emerging trends.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to office equipment and resources
- access to organisational and marketing strategic plans.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                          | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|--------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Develop and maintain business networks        | <p>1.1. Use appropriate <b><i>network strategies</i></b> to establish and maintain relationships that promote the development of business opportunities</p> <p>1.2. Identify and pursue network opportunities to maximise a range of contacts</p> <p>1.3. Communicate information regarding new networks to inform individuals, colleagues and clients of potential benefits</p> <p>1.4. Participate in <b><i>professional networks and associations</i></b> to obtain and maintain personal knowledge and skills</p> |
| 2. Establish and maintain business relationships | <p>2.1. Develop and maintain relationships to promote benefits consistent with <b><i>organisational/client requirements</i></b></p> <p>2.2. Gain and maintain trust and confidence of contacts through demonstration of high standards of business practices</p> <p>2.3. Use a high level of <b><i>negotiation skills</i></b> to encourage positive outcomes</p> <p>2.4. Identify difficult situations and negotiate solutions using collaborative problem-solving techniques</p>                                     |

| ELEMENT                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                             | 2.5. Seek specialist advice in the development of contacts where appropriate                                                                                                                                                                                                                                                                                                                                                                                                 |
| 3. Promote the relationship | 3.1. Develop strategies to represent and promote the interests and requirements of the relationship<br>3.2. Use appropriate presentation skills to communicate the goals and objectives of the relationship<br>3.3. Effectively communicate issues, policies and practices of the relationship to a range of audiences, in writing and verbally<br>3.4. Obtain <b>feedback</b> to identify and develop ways to improve promotional activities within available opportunities |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to receive and report on feedback, to maintain effective relationships and to manage conflict
- culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities
- leadership skills to gain trust and confidence of clients and colleagues
- negotiation skills to achieve mutually acceptable outcomes
- technology skills to support effective communication and presentation.

#### Required knowledge

- client or organisational policies, plans and procedures
- related organisations, agencies and networks
- trends and forecasts for relevant industries, services and products.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the

| <b>EVIDENCE GUIDE</b>                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| <b>Context of and specific resources for assessment</b>                                                                      | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• access to examples of networking strategies and documentation.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Method of assessment</b>                                                                                                  | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• review of documentation communicating issues, policies and practices of the relationship to a range of audiences</li> <li>• evaluation of promotional strategies</li> <li>• observation of negotiation of solutions between groups and individuals</li> <li>• observation of promotional presentations.</li> </ul> |
| <b>Guidance information for assessment</b>                                                                                   | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• interpersonal communication units</li> <li>• other relationship management units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                    |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                             | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Gather and organise information  | <p>1.1. Gather and organise <b>information</b> in a format suitable for analysis, interpretation and dissemination in accordance with <b>organisational requirements</b></p> <p>1.2. Access information held by the organisation ensuring accuracy and relevance in line with established organisational requirements</p> <p>1.3. Ensure that <b>methods of collecting information</b> are reliable and make efficient use of resources in accordance with organisational requirements</p> <p>1.4. Identify research requirements for combining online research with non-electronic sources of information</p> <p>1.5. Use <b>business technology</b> to access, organise and monitor information in accordance with organisational requirements</p> <p>1.6. Update, modify, maintain and store information, in accordance with organisational requirements</p> |
| 2. Research and analyse information | <p>2.1. Clearly define <b>objectives of research</b> ensuring consistency with organisational requirements</p> <p>2.2. Ensure that data and <b>research strategies</b> used are valid and relevant to the requirements of the research and make efficient use of available resources</p> <p>2.3. Identify <b>key words and phrases</b> for use as part of any online search strategy, including the use of <b>Boolean operators</b> and other search tools</p>                                                                                                                                                                                                                                                                                                                                                                                                  |

| ELEMENT                | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                        | <p>2.4. Use reliable <b>methods of data analysis</b> that are suitable to research purposes</p> <p>2.5. Ensure that assumptions and conclusions used in analyses are clear, justified, supported by evidence and consistent with research and <b>business objectives</b></p>                                                                                                                                                                                                         |
| 3. Present information | <p>3.1. Present recommendations and issues in an appropriate format, style and structure using suitable business technology</p> <p>3.2. Structure and format reports in a clear manner that conforms to organisational requirements</p> <p>3.3. Report and distribute research findings in accordance with organisational requirements</p> <p>3.4. Obtain <b>feedback</b> and comments on suitability and sufficiency of findings in accordance with organisational requirements</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills to read, write and understand a variety of texts; and to edit and proofread documents to ensure clarity of meaning, accuracy and consistency of information
- problem-solving skills to deal with information which is contradictory, ambiguous, inconsistent or inadequate
- technology skills to select and use technology appropriate to a task
- research skills to identify and access information.

#### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety (OHS)
- organisational record keeping/filing systems, security procedures and safe

**REQUIRED SKILLS AND KNOWLEDGE**

- recording practices
- organisational policies and procedures relating to distribution of workplace information, and legal and ethical obligations
- research processes and strategies to identify new sources (online and print) of information and to use them most efficiently and effectively.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- presenting information and data
- maintaining and handling data and documents systematically
- analysing and interpreting data to support organisational activities
- knowledge of research processes and strategies to identify new sources of information.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to an actual workplace or simulated environment
- access to office equipment and resources
- examples of research tasks and resources.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- analysis of responses to case studies and scenarios
- demonstration of techniques
- observation of presentations
- review of documentation outlining recommendations and issues

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                       |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>• review of reports outlining research findings.</li> </ul>                                                                                                                                                                    |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• general administration units</li> <li>• IT use units</li> <li>• Governance units</li> </ul> |

## Range Statement

| RANGE STATEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## Elements and Performance Criteria

| ELEMENT                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                |
|-------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Identify risks             | 1.1. Identify the <b><i>context</i></b> for risk management<br>1.2. Identify <b><i>risks</i></b> using <b><i>tools</i></b> , ensuring all reasonable steps have been taken to identify all risks<br>1.3. Document identified risks in accordance with relevant policies, procedures and legislation |
| 2. Analyse and evaluate risks | 2.1. Analyse and document risks in consultation with relevant <b><i>stakeholders</i></b><br>2.2. Undertake <b><i>risk categorisation</i></b> and determine <b><i>level of risk</i></b><br>2.3. Document analysis processes and outcomes                                                             |
| 3. Treat risks                | 3.1. Determine appropriate <b><i>control measures</i></b> for risks and assess for strengths and weaknesses<br>3.2. Identify control measures for all risks                                                                                                                                         |

| ELEMENT                                                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                         |
|---------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                         | <p>3.3.Refer risks relevant to whole of organisation or having an impact beyond own work responsibilities and area of operation to others as per established policies and procedures</p> <p>3.4.Choose and implement control measures for own area of operation and/or responsibilities</p> <p>3.5.Prepare and implement treatment plans</p> |
| 4. Monitor and review effectiveness of risk treatment/s | <p>4.1.Regularly review implemented treatment/s against <b><i>measures of success</i></b></p> <p>4.2.Use review results to improve the treatment of risks</p> <p>4.3.Provide assistance to auditing risk in own area of operation</p> <p>4.4.Monitor and review management of risk in own area of operation</p>                              |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills sufficient to read and understand a variety of texts; and to write, edit and proofread documents to ensure clarity of meaning, accuracy and consistency of information
- research and data collection skills to monitor and evaluate risks
- problem-solving skills to appropriately address identified risks.

#### Required knowledge

- Australian and international standards for risk management
- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - environmental issues
  - occupational health and safety
- organisational policies and procedures relating to risk management processes and

**REQUIRED SKILLS AND KNOWLEDGE**

- strategies
- auditing requirements relating to risk management.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- identification, analysis and evaluation of risks
- demonstrated understanding of personal role in relation to wider organisational or project context
- demonstrated understanding of risk management processes and procedures.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to workplace documentation relating to risk management
- access to risk management tools and frameworks.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- review of documentation outlining risk analysis processes and outcomes
- analysis of responses to case studies and scenarios
- oral or written questioning to assess knowledge of Australian and international standards for risk management
- review of implementation of treatment plans.

**Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

**EVIDENCE GUIDE**

- general administration units
- other risk management units.

**Range Statement****RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Context*** may include:

- any related projects or organisations
- any resources, including physical assets, which are vital to operations
- key operational elements and service of the organisation
- organisation or project, how it is organised and its capabilities
- own role and responsibilities in relation to overall project or organisation design

***Risks*** may include:

- commercial and legal relationships
- economic circumstances and scenarios
- human behaviour
- individual activities
- management activities and controls
- natural events
- political circumstances
- positive risk
- technology - technological issues

***Tools*** may include:

- documentation to assist in process of identifying risk, and assessing impact and likelihood of occurrence
- standard instruments developed for the organisation and contextualised for sections of the workplace's operations, such as checklists and testing procedures
- tools to prioritise risks, including where relevant, numerical scoring systems for risks

| <b>RANGE STATEMENT</b>                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Stakeholders</b> may include:        | <ul style="list-style-type: none"> <li>• contractors</li> <li>• employees</li> <li>• financial managers</li> <li>• insurance agents</li> <li>• managers</li> <li>• public</li> <li>• service providers</li> <li>• suppliers</li> <li>• unions</li> <li>• volunteers</li> </ul>                                                                                                                                                                  |
| <b>Risk categorisation</b> may include: | <ul style="list-style-type: none"> <li>• likelihood of risks: <ul style="list-style-type: none"> <li>• almost certain</li> <li>• likely</li> <li>• possible</li> <li>• unlikely</li> <li>• rare</li> </ul> </li> <li>• consequences of risks: <ul style="list-style-type: none"> <li>• insignificant</li> <li>• minor</li> <li>• moderate</li> <li>• major</li> <li>• catastrophic</li> <li>• current control measures</li> </ul> </li> </ul>   |
| <b>Level of risk</b> may include:       | <ul style="list-style-type: none"> <li>• low, treated with routine procedures</li> <li>• moderate, with specific responsibility allocated for the risk, and monitoring and response procedures implemented</li> <li>• high, requiring action, as it has potential to be damaging to the organisation or project</li> <li>• extreme, requiring immediate action, as it has potential to be devastating to the organisation or project</li> </ul> |
| <b>Control measures</b> may include:    | <ul style="list-style-type: none"> <li>• hierarchy of controls: <ul style="list-style-type: none"> <li>• reduction in likelihood of risks</li> <li>• reduction of consequences of risks</li> <li>• retention of risks</li> <li>• risk aversion</li> <li>• transfer of responsibility of risks</li> </ul> </li> </ul>                                                                                                                            |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to manage risks in a range of contexts across the organisation or for a specific business unit or area.

### Application of the Unit

This unit addresses the management of the risk across the organisation or within a business unit or area. It does not assume any given industry setting.

This unit applies to individuals who are working in positions of authority and are approved to implement change across the organisation, business unit, program or project area. They may or may not have responsibility for directly supervising others.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

Establish risk context          | 1.1 Review organisational processes, procedures and requirements for undertaking <b>risk</b> management<br>1.2 Determine <b>scope</b> for risk management process<br>1.3 Identify internal and external stakeholders and their issues<br>1.4 Review political, economic, social, legal, technological and policy context<br>1.5 Review strengths and weaknesses of existing arrangements<br>1.6 Document critical success factors, goals or objectives for area included in scope<br>1.7 Obtain support for risk management activities<br>1.8 Communicate with <b>relevant parties</b> about the risk management process and invite participation |
| 2. Identify risks                  | 2.1 Invite relevant parties to assist in the identification of risks<br>2.2 <b>Research</b> risks that may apply to scope<br>2.3 Use <b>tools and techniques</b> to generate a list of risks that apply to the scope, in consultation with relevant parties                                                                                                                                                                                                                                                                                                                                                                                       |
| 3. Analyse risks                   | 3.1 Assess <b>likelihood</b> of risks occurring<br>3.2 Assess <b>impact or consequence</b> if risks occur<br>3.3 <b>Evaluate</b> and prioritise risks for treatment                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 4. Select and implement treatments | 4.1 Determine and select most appropriate <b>options</b> for treating risks<br>4.2 Develop an <b>action plan</b> for implementing risk treatment<br>4.3 Communicate risk management processes to relevant parties<br>4.4 Ensure all documentation is in order and appropriately stored                                                                                                                                                                                                                                                                                                                                                            |

|  |                                                                               |
|--|-------------------------------------------------------------------------------|
|  | 4.5 Implement and monitor action plan<br>4.6 Evaluate risk management process |
|--|-------------------------------------------------------------------------------|

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- communication and literacy skills to consult and negotiate, to prepare communications about risk management, and to encourage stakeholder involvement
- organisational and management skills to plan and implement risk management processes
- problem-solving and innovation skills to find practical ways to manage identified risks.

### Required knowledge

- AS/NZS ISO 31000:2009 Risk Management - Principles and Guidelines
- legislation, codes of practice and national standards, for example:
  - duty of care
  - company law
  - contract law
  - environmental law
  - freedom of information
  - industrial relations law
  - privacy and confidentiality
  - legislation relevant to organisation's operations
  - legislation relevant to operation as a business entity
- organisational policies and procedures, including:
  - risk management strategy
  - policies and procedures for risk management
- overall operations of organisation
- reasonable adjustment in the workplace for people with a disability
- types of available insurance and insurance providers.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• risk management plan which includes a detailed stakeholder analysis, explanation of the risk context, critical success factors, identified and analysed risks, and treatments for prioritised risks</li> <li>• details of monitoring arrangements for risk management plan and an evaluation of the risk management plan's efficacy in treating risks</li> <li>• knowledge of relevant legislation, codes of practice and national standards.</li> </ul>                                                                                                                                                                                                                                                                              |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to workplace documentation.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• observation of presentations</li> <li>• oral or written questioning to assess knowledge of risk management policies and procedures</li> <li>• review of documented critical success factors, and goals or objectives for area</li> <li>• review of risks prioritised for treatment</li> <li>• evaluation of action plan for implementing risk treatment</li> <li>• evaluation of documentation communicating risk management processes to relevant parties.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• financial management units, governance units, human resource management units, or technology units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                             |                                                                                                                                                                                                                                                                                                                                                                   |
|---------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Risks</b> may include those relating to: | <ul style="list-style-type: none"> <li>• commercial relationships</li> <li>• economic circumstances and scenarios</li> <li>• human behaviour</li> <li>• individual activities</li> <li>• legislation</li> <li>• management activities and controls</li> <li>• natural events</li> <li>• political circumstances</li> <li>• technology.</li> </ul>                 |
| <b>Scope</b> may apply to:                  | <ul style="list-style-type: none"> <li>• given project</li> <li>• specific business unit or area</li> <li>• specific functional such as: <ul style="list-style-type: none"> <li>• financial management</li> <li>• OHS</li> <li>• governance</li> </ul> </li> <li>• external environment</li> <li>• internal environment</li> <li>• whole organisation.</li> </ul> |
| <b>Relevant parties</b> may include:        | <ul style="list-style-type: none"> <li>• all staff</li> <li>• internal and external stakeholders</li> <li>• senior management</li> <li>• specific teams or business units</li> <li>• technical experts.</li> </ul>                                                                                                                                                |
| <b>Research</b> may include:                | <ul style="list-style-type: none"> <li>• data or statistical information</li> <li>• information from other business areas</li> <li>• lessons learned from other projects or activities</li> <li>• market research</li> <li>• previous experience</li> <li>• public consultation</li> <li>• review of literature and other information sources.</li> </ul>         |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                                                                        | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Ascertain own financial position and the ability to provide capital/equity for the business | <p>1.1. Realistically detail <b><i>personal, family or community financial situation</i></b> in terms of funds available and commitments already incurred</p> <p>1.2. Determine equity finance and assets available for micro business from personal, family or community sources</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 2. Determine projected cash flow for the business                                              | <p>2.1. Determine the level of forecast business activity over a year and the business mix</p> <p>2.2. Estimate <b><i>establishment costs</i></b> for the business and repayment schedule for borrowings</p> <p>2.3. Calculate the monthly variable and fixed costs needed to conduct business activity over a year</p> <p>2.4. Estimate personal drawings needed to be taken from the business</p> <p>2.5. Estimate the monthly income generated by the business for a year based on price per unit item or hourly charge rate for labour</p> <p>2.6. Develop a cash flow budget for the first year of business operation</p> <p>2.7. Seek <b><i>professional advice</i></b> to estimate goods and services tax and operating finance required for the business</p> |
| 3. Source the required                                                                         | 3.1. Estimate required funding to establish and run the                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| ELEMENT                                  | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                      |

| funds to establish the business          | <p>business based on expected sales and activity levels, available finances and commitments</p> <p>3.2. Investigate methods of accessing alternative <b><i>sources of finance</i></b></p> <p>3.3. Identify strategies for meeting financial obligations</p> <p>3.4. Implement plans to access available funds as required</p>                                             |
| 4. Monitor profitability of the business | <p>4.1. Maintain and review monthly expenditure and income records</p> <p>4.2. Compare equity at beginning and end of a year to estimate business performance</p> <p>4.3. Assess the <b><i>financial viability</i></b> of the business after a year of operation</p> <p>4.4. Seek professional advice on depreciation, insurance and tax implications of the business</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- analytical skills to determine the viability of the business
- literacy skills to interpret financial reports and to complete relevant forms requested by financial bodies
- numeracy skills to calculate basic revenue and expense forecasts, and to estimate the funding needed to establish and run the business
- research skills to source financial information.

#### Required knowledge

- basic budgeting
- basic costing for the business
- financial commitments and requirements
- financial reports and terminology
- methods and relative costs of obtaining finance
- own financial position
- sources of advice and assistance.

## Evidence Guide

| <b>EVIDENCE GUIDE</b>                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| <b>Method of assessment</b>                                                                                                                                                                                            | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• problem-solving scenario which requires candidate to assess the financial viability of a proposed micro business in candidate's geographical location; the scenario should include opportunities for the candidate to calculate expenses and commitments against expected income</li> <li>• oral or written questioning to assess knowledge of financial reports and terminology</li> <li>• review of estimated establishment costs for the business and repayment schedule for borrowings</li> <li>• review of plans implemented to access available funds.</li> </ul> |
| <b>Guidance information for assessment</b>                                                                                                                                                                             | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBSMB302A Develop a micro business proposal</li> <li>• BSBSMB304A Determine resource requirements for the micro business.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                            |
|------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Personal, family or community financial situation</i></b> may include: | <ul style="list-style-type: none"> <li>• education and other expenses               <ul style="list-style-type: none"> <li>• equity available through capital, savings and assets</li> </ul> </li> <li>• existing loan repayments and/or other debt repayments</li> <li>• family, community or cultural commitments and obligations</li> <li>• living expenses such as rent, food, clothing for self and family</li> </ul> |
| <b><i>Establishment costs</i></b> may include:                               | <ul style="list-style-type: none"> <li>• capital equipment</li> <li>• insurance costs</li> <li>• purchase price</li> <li>• start-up costs</li> </ul>                                                                                                                                                                                                                                                                       |

## Elements and Performance Criteria

| ELEMENT                                                                         | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|---------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Identify the regulatory, taxation and insurance requirements of the business | <p>1.1. Identify <b>regulatory, taxation and insurance requirements</b> that might be relevant to the operation of the business</p> <p>1.2. Gather <b>information</b> that assists in interpreting and explaining the regulatory, taxation and insurance requirements</p> <p>1.3. Investigate the relationships between legislation, regulations, codes of practice, associated standards and written material to determine compliance requirements of the business</p>                                                                                                                  |
| 2. Develop procedures to ensure compliance and risk minimisation                | <p>2.1. Identify business advisers and other sources of assistance relevant to compliance requirements and type of business</p> <p>2.2. Explain to advisers business type and operations, covering the full scope of the business</p> <p>2.3. Clarify and confirm compliance requirements and risk minimisation needs with advisers</p> <p>2.4. Establish <b>sources of advice and specialist services</b> for regulatory, taxation and insurance compliance</p> <p>2.5. Review advice and procedures against the compliance requirements and their appropriateness for the business</p> |
| 3. Implement compliance                                                         | <p>3.1. Implement procedures within the guidelines</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| ELEMENT    | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                  |
|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| procedures | <p>provided</p> <p>3.2. Take action to ensure that the business complies with the relevant taxation and business registration requirements, legislation, regulations, codes of practice and associated standards</p> <p>3.3. Arrange appropriate insurance cover for the business</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to question and seek clarification from advisers on regulatory, taxation or insurance matters
- literacy skills to interpret relevant regulatory, taxation and insurance information
- research skills to investigate compliance requirements.

#### Required knowledge

- business registration and licensing requirements
- commonwealth, state/territory and local government legislative requirements relating to business operation, especially in regard to occupational health and safety (OHS) and environmental issues, equal employment opportunity, industrial relations and anti-discrimination
- nature of legal responsibility
- relevant industry codes of practice
- relevant OHS responsibilities and procedures
- sources of advice and specialist services
- sources of information about regulatory, taxation and insurance requirements and issues
- taxation requirements.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• identification of regulatory, taxation and insurance compliance requirements and risk minimisation needs of the business</li> <li>• identification of sources of advice on compliance and risk minimisation procedures for the business</li> <li>• development and review of procedures for compliance and risk minimisation (with assistance from advisers)</li> <li>• knowledge of legislative requirements affecting business operation.</li> </ul>                                                                                                                                            |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to relevant documentation</li> <li>• candidate's individual circumstances and work in the context of establishing or running a micro business, are the basis for assessment.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• oral or audio-visual presentation of a case study of a micro business in similar field and location as candidate's proposal</li> <li>• portfolio of evidence including identification of relevant compliance and risk minimisation needs for the micro business, and development of risk minimisation and compliance procedures (with assistance from advisers)</li> <li>• review of implementation of procedures</li> <li>• review of insurance cover arranged for the business.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBSMB302A Develop a micro business proposal.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Regulatory, taxation and insurance requirements*** may include:

- local, state/territory, commonwealth and international legislation, regulations and codes of practice affecting business operations such as:
  - Acts and regulations
  - industry and OHS codes of practice
  - business registrations and licences
  - planning and other permissions
  - environmental legislation
  - industrial law, agency law, property law, consumer legislation and standards, Torts Law and duty of care
  - equal employment opportunity (EEO) and anti-discrimination legislation
  - anti-competition regulations

***Information gathered*** may include:

- government agencies
- industry associations
- internet
- written material

***Taxation*** requirements may include:

- Australian Business Number
- Business Activity Statement and goods and services tax (GST) returns
- GST registration
- PAYG and withholding arrangements
- tax file number

***Insurance*** requirements may include:

- comprehensive insurance for vehicles/property
- professional indemnity insurance
- public liability insurance
- third party insurance on motor vehicles
- workers compensation
- other insurance cover as required by state/territory or commonwealth legislation, contractual obligations or as recommended for

| RANGE STATEMENT                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Develop marketing strategies               | <p>1.1. Analyse the business and its key products or services to determine the focus of marketing activities, in accordance with the objectives of the business plan</p> <p>1.2. Evaluate the customer base and target market for the small business as a basis for the <b><i>marketing objectives and strategies</i></b></p> <p>1.3. Determine marketing objectives and strategies that are ethically and culturally appropriate, in consultation with <b><i>relevant people</i></b> and in accordance with the business plan</p>                                          |
| 2. Determine a marketing mix for the business | <p>2.1. Balance product mix, volumes and pricing to optimise sales and profit</p> <p>2.2. Evaluate the costs and benefits of using different <b><i>distribution channels</i></b> and/or providing different <b><i>levels of customer service</i></b> and consider the results in determining the <b><i>marketing mix</i></b></p> <p>2.3. Determine promotional activities to suit the target market</p> <p>2.4. Consider customer needs and preferences in determining the marketing mix</p> <p>2.5. Determine the marketing mix according to market and business needs</p> |
| 3. Implement marketing                        | <p>3.1. Brief persons involved in the marketing effort on their roles and responsibilities, to ensure the success</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| ELEMENT                                      | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| strategies                                   | <p>of marketing strategies</p> <p>3.2. Plan and implement <b><i>promotional activities</i></b>, in accordance with marketing objectives and budgetary requirements</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4. Monitor and improve marketing performance | <p>4.1. Monitor marketing activities and evaluate business performance according to the objectives and targets of the business plan</p> <p>4.2. Analyse <b><i>performance gaps</i></b> and take corrective action or set new targets</p> <p>4.3. Encourage all relevant people to propose ways to improve marketing performance</p> <p>4.4. Seek and analyse <b><i>customer reaction</i></b> to all aspects of the marketing mix, using culturally appropriate processes, to improve targeting and outcomes</p> <p>4.5. Conduct ongoing research of customer requirements to identify opportunities for change and improvement</p> <p>4.6. Monitor and investigate changes in the market for new opportunities to aid business development</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to question, clarify and report
- literacy and numeracy skills to research information, to analyse data and to interpret market data.

#### Required knowledge

- industry market trends
- methods of analysing costs and benefits of marketing strategies
- methods of developing marketing objectives and marketing mix
- methods of monitoring customer satisfaction
- relevant market analysis and research
- relevant marketing concepts and methods.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- developing a marketing strategy and choosing a marketing mix for the small business that are culturally appropriate and that complement the business plan
- implementing and monitoring the marketing strategy/plan to optimise the chances of small business success
- knowledge of relevant marketing concepts and methods.

#### Context of and specific resources for assessment

Assessment must ensure:

- access to relevant documentation
- candidate's individual circumstances and work in the context of running a small business, are the basis for assessment.

#### Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- portfolio of evidence including marketing strategy and monitoring of marketing performance
- oral or written questioning to assess knowledge of industry market trends
- review of analysis of performance gaps and corrective action taken or new targets set
- review of promotional activities implemented.

#### Guidance information for assessment

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- BSBSMB404A Undertake small business planning.

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Marketing objectives and strategies*** may include:

- achieving lower costs of production and distribution than competitors
- creating a very different product line or service so that the business becomes a class leader in the industry
- distribution
- pricing, presentation and display of products/services
- product design and packaging
- product range and mix
- promotion and advertising
- pursuing cost leadership and/or product differentiation within a specialist market segment

***Relevant people*** may include:

- accountant or other specialist services
- family members, work team members, sub-contractors, community members
- franchise agency
- financial backers, clients
- owner/operator, partners, directors, shareholders
- regulatory bodies
- trade or industry associations

***Distribution channels*** may include:

- dealer, re-seller, franchisee
- distributor, delivery service, mail order, telesales
- self-access, wholesale, retail

***Levels of customer service*** may include:

- after sales service
- one-on-one personal service
- sales assistance for problems/queries only

***Marketing mix*** may include:

- distribution
- level of service
- pricing

| RANGE STATEMENT                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                          | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Implement financial plan      | <p>1.1. Identify <b><i>financial information</i></b> requirements and obtain <b><i>specialist services</i></b>, as required, to profitably operate and extend the business in accordance with the business plan</p> <p>1.2. Produce financial budgets/projections, including <b><i>cash flow</i></b> estimates, as required for each forward period, and distribute to <b><i>relevant people</i></b> in accordance with legal requirements</p> <p>1.3. Negotiate, secure and manage business capital to best enable implementation of the business plan and to meet the requirements of <b><i>financial backers</i></b></p> <p>1.4. Develop and maintain strategies to enable adequate financial provision for taxation in accordance with legal requirements</p> <p>1.5. Develop, monitor and maintain client <b><i>credit policies</i></b>, including contingencies for debtors in default, to maximise cash flow</p> <p>1.6. Select key performance indicators to enable ongoing monitoring of financial performance</p> <p>1.7. Record and communicate financial procedures to relevant people to facilitate implementation of the business plan</p> |
| 2. Monitor financial performance | 2.1. Regularly monitor and report on financial performance targets and analyse data to establish the                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| ELEMENT | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                     |

|         | <p>extent to which the <i>financial plan</i> has been met</p> <p>2.2. Monitor marketing and operational strategies for their effects on the financial plan</p> <p>2.3. Calculate and evaluate <i>financial ratios</i> according to own/industry benchmarks</p> <p>2.4. Assess financial plan to determine whether variations or alternative plans are needed, and change as required</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- analytical skills to interpret financial data
- communication skills to negotiate capital and to report on performance
- literacy skills to interpret legal requirements and financial reports
- numeracy skills to calculate costs, prices, profit and other financial information.

#### Required knowledge

The following knowledge must be assessed as part of this unit:

- benchmarking
- financial decision making relevant to the business
- financial indicators
- purpose of financial reports
- preparation and interpretation of budget/actual reports
- principles for preparation of balance sheets and their interpretation
- principles for preparation of profit and loss statements and their interpretation
- stock records/stock control relevant to the business.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• development, implementation and review of strategies for the ongoing management of finance</li> <li>• maintenance of day-to-day financial management of the business as well as implementation of broad financial strategies</li> <li>• knowledge of purpose of financial reports.</li> </ul>                                                                                                                                                                                                    |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to relevant documentation</li> <li>• candidate's individual circumstances and work in the context of establishing or running a small business, are the basis for assessment.</li> </ul>                                                                                                                                                                                                                                                                                                                   |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• portfolio of evidence including financial reports</li> <li>• preparation and review of financial ratios</li> <li>• review of cash flow projections</li> <li>• analysis of development, monitoring and maintenance of client credit policies</li> <li>• oral or written questioning to assess knowledge of principles for preparation of balance sheets and their interpretation.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBSMB402A Plan small business finances</li> <li>• BSBSMB405A Monitor and manage small business operations.</li> </ul>                                                                                                                                                                                                                                                                                         |

## Range Statement

| <b>RANGE STATEMENT</b>                                                                    |
|-------------------------------------------------------------------------------------------|
| The range statement relates to the unit of competency as a whole. It allows for different |

**RANGE STATEMENT**

work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Financial plan*** may include:

- analysis of sales by product/service, identifying where they were sold and to whom
- cash flow estimates for each forward period
- current financial state of the enterprise (or owner/operator)
- estimates of profit and loss projections for each forward period
- financial performance to date (if applicable)
- likely return on investment
- monthly, quarterly or annual returns
- non-recurrent assets calculations
- profit, turnover, capital and equity targets
- projected profit targets, pricing strategies, margins
- projections of likely financial results (budgeting)
- projections, which may vary depending on the importance of such information and the stage in the life of the business
- resources required to implement the proposed marketing and production strategies (staff, materials, plant and equipment)
- review of financial inputs required (sources and forms of finance)
- risks and measures to manage or minimise risks
- working, fixed, debt and equity capital
- working in conjunction with external consultants e.g. investment analysts, accountants, financiers

***Financial information*** may include:

- accrual of staff leave/entitlements
- asset management strategies which may include:
  - owning, leasing, sharing, syndicating
  - maintaining and deploying assets
- asset registers
- balance sheets
- bookkeeping/accounting/stock/job costing records
- business activity statements
- business capital
- cash book

| <b>RANGE STATEMENT</b>                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|                                                 | <p>are unfamiliar with the procedures of the business</p> <p>2.5. Develop and implement a <b>staff development program and career paths</b> based on the requirements of business and staff competencies</p> <p>2.6. <b>Advertise staff vacancies</b> appropriately in accordance with staffing plan</p>                                                                                                                                                                                                                                                                                                                              |
| 3. Comply with INDUSTRIAL RELATIONS obligations | <p>3.1. Clarify workplace rights and obligations of employers and employees, in accordance with <b>legal requirements and codes of practice</b></p> <p>3.2. Counsel staff, if required, in a positive and constructive manner and record outcomes accurately</p>                                                                                                                                                                                                                                                                                                                                                                      |
| 4. Maintain staff records                       | <p>4.1. Develop <b>staff records system</b> to provide timely and accurate information, in accordance with confidentiality, legal and taxation requirements</p> <p>4.2. Monitor and accurately maintain the system for recording and retrieving personnel and payroll information and seek specialist advice where required</p>                                                                                                                                                                                                                                                                                                       |
| 5. Manage staff                                 | <p>5.1. Regularly review contribution and skills of self and other team members to ensure performance is in line with agreed <b>performance measures</b></p> <p>5.2. Monitor and adjust staffing requirements to respond to any changes in tasks and functions required by the business</p> <p>5.3. Support and encourage staff, and acknowledge and reward their contribution to the business</p> <p>5.4. Regularly provide opportunities for staff to discuss work related issues</p> <p>5.5. Develop <b>contingency plans</b> to cope with unexpected or extreme situations and take appropriate corrective action as required</p> |
| 6. Review team performance                      | <p>6.1. Develop positive and constructive relationships with and between <b>team members</b></p> <p>6.2. Review and update team objectives in support of business goals on a regular basis in consultation with team members</p> <p>6.3. Identify strengths and weaknesses of team against current and expected work requirements</p> <p>6.4. Schedule time, on a regular basis, for team members to review work operations in order to maintain and improve operational efficiency</p> <p>6.5. Encourage team members to monitor their own</p>                                                                                       |

| ELEMENT | PERFORMANCE CRITERIA                                                                                                                                                                              |
|---------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|         | <p>performance, suggest improvements and to identify professional development needs, in accordance with personal and business requirements</p> <p>6.6. Monitor and review staff turnover rate</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- analytical skills to identify workplace skill gaps
- coaching skills
- communication skills to relate to staff
- conflict resolution skills
- literacy skills to interpret legal requirements, to compile reports and to prepare a job/position description
- team building and motivation skills.

#### Required knowledge

- commonwealth, state/territory and local government legislative requirements relating to business operation, especially in regard to occupational health and safety (OHS) and environmental issues, equal employment opportunity (EEO), industrial relations and anti-discrimination
- OHS responsibilities and procedures for managing hazards
- relevant industry awards/enterprise agreements
- staff development and career planning
- staff counselling, grievance and disciplinary procedures
- unfair dismissal legislation and procedures.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-----------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>managing a small team including staff selection, staff records, induction, training and development</li> <li>developing and maintaining team performance to enhance business operations</li> <li>knowledge of relevant legislative requirements affecting business operation.</li> </ul>                                                                                                                                                                                                       |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>access to relevant documentation</li> <li>candidate's individual circumstances and work in the context of running a small business, are the basis for assessment.</li> </ul>                                                                                                                                                                                                                                                                                                                                   |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>portfolio of evidence including staff policies and records, and contingency plans</li> <li>oral or written questioning to assess knowledge of staff recruitment procedures, staff development and review programs</li> <li>review of job/position descriptions and selection criteria developed</li> <li>review of documentation monitoring and reviewing staff turnover rate.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>BSBSMB405A Monitor and manage small business operations.</li> </ul>                                                                                                                                                                                                                                                                                                                                          |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating

| <b>RANGE STATEMENT</b>                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Elements and Performance Criteria

| ELEMENT                                                  | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Develop workplace sustainability policy               | 1.1. Define <b>scope</b> of sustainability policy<br>1.2. Gather information from a range of <b>sources</b> to plan and develop policy<br>1.3. Identify and consult <b>stakeholders</b> as a key component of the policy development process<br>1.4. Include appropriate <b>strategies</b> in policy at all stages of work for minimising resource use, reducing toxic material and hazardous chemical use, and employing life cycle management approaches<br>1.5. Make recommendations for policy options based on likely effectiveness, timeframes and cost<br>1.6. Develop policy that reflects the organisation's commitment to sustainability as an integral part of business planning and as a business opportunity<br>1.7. Agree to appropriate methods of implementation |
| 2. Communicate workplace sustainability policy           | 2.1. Promote workplace sustainability policy, including its expected outcome to key stakeholders<br>2.2. Inform those involved in implementing the policy as to outcomes expected, activities to be undertaken and responsibilities assigned                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 3. Implement workplace sustainability policy             | 3.1. Develop and communicate procedures to help implement workplace sustainability policy<br>3.2. Implement strategies for continuous improvement in resource efficiency<br>3.3. Establish and assign responsibility to use recording systems for tracking continuous improvements in sustainability approaches                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4. Review workplace sustainability policy implementation | 4.1. Document outcomes and provide feedback to key personnel and stakeholders<br>4.2. Investigate successes or otherwise of policy<br>4.3. Monitor records to identify trends that may require remedial action and use to promote continuous improvement of performance<br>4.4. Modify policy and or procedures as required to ensure improvements are made                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to adjust communication to suit different audiences; to respond effectively to diversity; to work as a member of a team to consult on and validate policy
- literacy skills to read and evaluate complex and formal documents such as policy and legislation
- problem skills to effectively manage different points of view and dissenting stakeholders
- research, analytical and writing skills to research, analyse and present information; to prepare written reports requiring precision of expression and language and structures suited to the intended audience

#### Required knowledge

- best practice approaches relevant to own work area
- environmental or sustainability legislation, regulations and codes of practice applicable to industry and organisation
- equal employment opportunity, equity and diversity principles and occupational health and safety implications of policy being developed
- policy development processes and practices
- principles, practices and available tools and techniques of sustainability management relevant to the particular industry context
- quality assurance systems relevant to own organisation
- relevant industry competency
- relevant organisational policies, procedures and protocols
- relevant systems and procedures to aid in the achievement of workplace sustainability

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-----------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• candidate's involvement as a key person in planning, developing and implementing organisational policy and that the developed policy complies with legislative requirements</li> <li>• implementation strategy, as part of the policy, that has been devised, implemented and reviewed showing a measurable improvement utilising the chosen benchmark indicators</li> <li>• communicating with stakeholders to discuss possible approaches to policy development and implementation, and contributing to the resolution of disputes among stakeholders</li> <li>• developing and monitoring policies for analysing data on enterprise resource consumption</li> <li>• using software systems for recording and filing documentation for measurement of current usage and using word processing and other basic software for interpreting charts, flowcharts, graphs and other visual data and information</li> <li>• reviewing and improving policies by identifying improvements and benchmarking against industry best practice and attempting new approaches continuously over time.</li> </ul> |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to relevant legislation/standards/guidelines</li> <li>• access to a range of workplace documentation and personnel, information and resources (such as compliance obligations, organisational plans, work responsibilities)</li> <li>• access to reports from other parties involved in the development and implementation of policy</li> <li>• evidence is collected over time, involving both formative and summative assessment</li> <li>• evidence is relevant to the particular workplace role, including work area, equipment, systems, and documentation.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

**EVIDENCE GUIDE**

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on the job performance by the candidate</li> <li>• response to case studies</li> <li>• review of policy developed and procedural documentation outlining the approach taken</li> <li>• review of implementation strategy, plans and work plans</li> <li>• analysis of methods used to involve stakeholders in policy development, implementation and review</li> <li>• analysis of inefficiencies or opportunities for improvements identified in the workplace</li> <li>• evaluation of participation in sustainability work practices and programs such as an environmental management framework</li> <li>• observation over time in relation to review of work area relating to policy and procedures being developed to assess measurement of resources used, hazards and compliance.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBATSIM419A Contribute to the development and implementation of organisational policies</li> <li>• BSBHRM506A Manage recruitment, selection and induction processes</li> <li>• BSBHRM602B Manage human resources strategic planning</li> <li>• BSBINN502A Build and sustain an innovative work environment</li> <li>• BSBMGT515A Manage operational plan</li> <li>• BSBMGT516C Facilitate continuous improvement</li> <li>• BSBMGT608C Manage innovation and continuous improvement</li> <li>• BSBMGT616A Develop and implement strategic plans</li> <li>• BSBMGT617A Develop and implement a business plan</li> <li>• BSBRSK501A Manage risk.</li> </ul>                                                                                                                 |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Scope** of workplace sustainability policy may include:

- addressing sustainability initiatives through reference to standards, guidelines and approaches such as:
  - ecological foot printing
  - Energy Efficiency Opportunities Bill 2005l
  - Global Reporting Initiative
  - green office program
  - green purchasing
  - Greenhouse Challenge Plus (Australian government initiative)
  - ISO 14001:1996 Environmental management systems life cycle analyses
  - life cycle analyses
  - product stewardship
  - supply chain management
  - sustainability covenants/compacts
  - triple bottom line reporting
- integrated approach to sustainability which includes environmental, economic and social aspects, or a specific approach that focuses on each aspect individually
- investigating particular business and market context of the industry/organisation
- meeting relevant laws, by laws and regulations or best practice to support compliance in environmental performance and sustainability at each level as required (such as Environmental Protection or Biodiversity Conservation Act):
  - international
  - commonwealth
  - state/territory
  - industry

| <b>RANGE STATEMENT</b>           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| 3. Review work performance | <p>3.1.Seek <b><i>feedback</i></b> on work performance from supervisors or colleagues</p> <p>3.2.Monitor and adjust work according to <b><i>feedback</i></b> obtained through supervision and comparison with established team and organisational <b><i>standards</i></b></p> <p>3.3.Identify and plan <b><i>opportunities for improvement</i></b> in liaison with colleagues</p>                                                                                                                                                                                         |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills to use written and oral information about workplace requirements
- organising skills to arrange work priorities and arrangements
- problem-solving skills to solve routine problems
- technology skills to select and use technology appropriate for a task.

#### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety (OHS)
- organisational policies, plans and procedures.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- organising and completing own work activities
- seeking and acting on feedback from clients, colleagues and supervisors
- using available business technology appropriate to the task, under direct instruction

#### Context of and specific resources for

Assessment must ensure:

| <b>EVIDENCE GUIDE</b>                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>assessment</b>                          | <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• examples of work plans, policies and procedures.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Method of assessment</b>                | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• review of documentation planning and prioritising workload</li> <li>• evaluation of time line required to complete tasks</li> <li>• review of documentation planning opportunities for improvement.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• administration units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Range Statement

| <b>RANGE STATEMENT</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                        |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                        |
| <b><i>Appropriate persons</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                                       | <ul style="list-style-type: none"> <li>• colleagues</li> <li>• other staff members</li> <li>• supervisors, mentors or trainers</li> </ul>                                                                              |

| Release 1 | <p>This version first released with <i>BSB07 Business Training Package version 6.0</i>.</p> <p>Revised unit. Required knowledge and Range Statement changed to include environmentally sustainable practices</p> <p>Replaces BSBWOR203A Work effectively with others</p> |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to work in a group environment promoting team commitment and cooperation, supporting team members and dealing effectively with issues, problems and conflict.

### Application of the Unit

This unit applies to individuals who perform a range of routine tasks using a limited range of practical skills and fundamental knowledge of teamwork in a defined context under direct supervision or with limited individual responsibility.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

### Elements and Performance Criteria Pre-Content

| Element | Performance Criteria |
|---------|----------------------|
|---------|----------------------|

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

## Elements and Performance Criteria

|                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Develop effective workplace relationships           | <p>1.1 Identify own <b>responsibilities and duties</b> in relation to <b>workgroup members</b> and undertake activities in a manner that promotes cooperation and good relationships</p> <p>1.2 Take time and resource constraints into account in fulfilling work requirements of self and others</p> <p>1.3 Encourage, acknowledge and act upon constructive <b>feedback</b> provided by others in the workgroup</p>                                                                                               |
| 2. Contribute to workgroup activities                  | <p>2.1 Provide <b>support to team members</b> to ensure workgroup goals are met</p> <p>2.2 Contribute constructively to workgroup goals and tasks according to organisational requirements</p> <p>2.3 Share <b>information</b> relevant to work with workgroup to ensure designated goals are met</p> <p>2.4 Identify and plan <b>strategies/opportunities for improvement</b> of workgroup in liaison with workgroup</p>                                                                                            |
| 3. Deal effectively with issues, problems and conflict | <p>3.1 Respect differences in personal values and beliefs and their importance in the development of relationships</p> <p>3.2 Identify any linguistic and cultural differences in communication styles and respond appropriately</p> <p>3.3 Identify issues, problems and conflict encountered in the workplace</p> <p>3.4 Seek assistance from workgroup members when issues, problems and conflict arise and suggest possible ways of dealing with them as appropriate or refer them to the appropriate person</p> |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- literacy skills to read and understand the organisation's policies and work procedures, to write simple instructions for particular routine tasks and to interpret information gained from correspondence
- communication skills to request advice, to receive feedback and to work with a team
- technology skills to select and use technology appropriate to a task
- culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities.

### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety (OHS)
  - environmentally sustainable work practices
- organisational policies, plans and procedures
- workgroup member responsibilities and duties, and relationship to individual responsibilities and duties.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

| Overview of assessment                                                                              |                                                                                                                                                                                                                                                                                                                |
|-----------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | Evidence of the following is essential: <ul style="list-style-type: none"><li>• providing support to team members to ensure goals are met</li><li>• seeking feedback from clients and/or colleagues and taking appropriate action</li><li>• knowledge of appropriate conflict resolution techniques.</li></ul> |

|                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|---------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Context of and specific resources for assessment</b> | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• examples of customer complaints or staff conflict.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Method of assessment</b>                             | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• observation of demonstrated techniques in resolving conflict</li> <li>• observation of presentations</li> <li>• review of documentation identifying and planning strategies/opportunities for workgroup improvement.</li> </ul> |
| <b>Guidance information for assessment</b>              | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• interpersonal communication units</li> <li>• other industry capability units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                        |                                                                                                                                                                                                                                                                                                                                                                                          |
|--------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Responsibilities and duties</i></b> may include: | <ul style="list-style-type: none"> <li>• Code of Conduct</li> <li>• job description and employment arrangements</li> <li>• organisation's policy relevant to work role</li> <li>• skills, training and competencies</li> <li>• supervision and accountability requirements including OHS</li> <li>• environmentally sustainable working practices</li> <li>• team structures.</li> </ul> |
|--------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|--------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Workgroup members</b> may include:                        | <ul style="list-style-type: none"> <li>• coach/mentor</li> <li>• other members of the organisation</li> <li>• peers/work colleagues/team/enterprise</li> <li>• supervisor or manager.</li> </ul>                                                                                                                                                                                                                                                                              |
| <b>Feedback</b> on performance may include:                  | <ul style="list-style-type: none"> <li>• formal/informal performance appraisals</li> <li>• obtaining feedback from clients</li> <li>• obtaining feedback from supervisors and colleagues</li> <li>• personal, reflective behaviour strategies</li> <li>• routine organisational methods for monitoring service delivery.</li> </ul>                                                                                                                                           |
| <b>Support to team members</b> may include:                  | <ul style="list-style-type: none"> <li>• explaining/clarifying</li> <li>• helping colleagues</li> <li>• problem-solving</li> <li>• providing encouragement</li> <li>• providing feedback to a team member</li> <li>• undertaking extra tasks if necessary.</li> </ul>                                                                                                                                                                                                         |
| <b>Information</b> to be shared may include:                 | <ul style="list-style-type: none"> <li>• acknowledging satisfactory performance</li> <li>• acknowledging unsatisfactory performance</li> <li>• assisting a colleague</li> <li>• clarifying the organisation's preferred task completion methods</li> <li>• encouraging colleagues</li> <li>• open communication channels</li> <li>• workplace hazards, risks and controls.</li> </ul>                                                                                         |
| <b>Strategies/opportunities for improvement</b> may include: | <ul style="list-style-type: none"> <li>• career planning/development</li> <li>• coaching, mentoring and/or supervision</li> <li>• formal/informal learning programs</li> <li>• internal/external training provision</li> <li>• performance appraisals</li> <li>• personal study</li> <li>• recognition of current competence (RCC)/skills recognition/initial assessment</li> <li>• work experience/exchange/opportunities</li> <li>• workplace skills assessment.</li> </ul> |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                      | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                |
|------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Select and use technology | <p>1.1. Select appropriate <b><i>technology</i></b> and <b><i>software applications</i></b> to achieve the requirements of the task</p> <p>1.2. Adjust workspace, furniture and equipment to suit user ergonomic requirements</p> <p>1.3. Use technology according to <b><i>organisational requirements</i></b> and in a way which promotes a safe work environment</p>                                                                             |
| 2. Process and organise data | <p>2.1. Identify, open, generate or amend files and records according to task and organisational requirements</p> <p>2.2. Operate <b><i>input devices</i></b> according to organisational requirements</p> <p>2.3. <b><i>Store data</i></b> appropriately and exit applications without damage to or loss of, data</p> <p>2.4. Use manuals, training booklets and/or online help or help-desks to overcome basic difficulties with applications</p> |
| 3. Maintain technology       | <p>3.1. Identify and replace used <b><i>technology consumables</i></b> in accordance with manufacturer's instructions and organisational requirements</p> <p>3.2. Carry out and/or arrange <b><i>routine maintenance</i></b> to ensure equipment is maintained in accordance with manufacturer's instructions and organisational requirements</p>                                                                                                   |

| ELEMENT | PERFORMANCE CRITERIA                                                                                                                                 |
|---------|------------------------------------------------------------------------------------------------------------------------------------------------------|
|         | 3.3. <b>Identify equipment faults</b> accurately and take action in accordance with manufacturer's instructions or report fault to designated person |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills to identify work requirements; to understand and process basic, relevant workplace information; and to follow written instructions
- communication skills to request advice, to receive feedback and to work with a team
- problem-solving skills to solve routine technology problems.

#### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
- ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety (OHS)
- organisational policies, plans and procedures, especially in regard to file-naming and storage conventions
- organisational IT procedures including back-up and virus protection procedures
- basic technical terminology in relation to reading help-files and manuals.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• selection and application of appropriate equipment and software applications in relation to assigned task/s</li> <li>• access, retrieval and storage of required data</li> <li>• performance of basic maintenance on a range of office equipment</li> </ul>                                                                                                                                                                                                                                          |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• examples of files and data for storage</li> <li>• manuals and training booklets for equipment.</li> </ul>                                                                                                                                                                                                                                                                                      |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• oral or written questioning to assess knowledge of office equipment</li> <li>• evaluation of maintaining technology.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• IT use units</li> <li>• other industry capability units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised**

**RANGE STATEMENT**

wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Technology** may include:

- computer technology, such as laptops and personal computers
- digital cameras
- modems
- printers
- scanners
- zip drives
- photocopiers
- shredders
- binders
- laminators
- cutters

**Software applications** may include:

- email, internet
- word processing, spreadsheet, database, accounting or presentation packages

**Organisational requirements** may include:

- correctly identifying and opening files
- legal and organisation policies, guidelines and requirements
- locating data
- log-on procedures
- manufacturer's guidelines
- OHS policies, procedures and programs
- saving and closing files
- storing data

**Input devices** may include:

- keyboard
- mouse
- numerical key pad
- scanner

**Storage of data** may include:

- appropriate storage/filing of hard copies of computer generated documents
- storage in directories and sub-directories
- storage on CD-ROMs, hard and floppy disk drives or back-up systems

**Technology consumables** may include:

- back-up tapes
- CD-ROM
- floppy disks

| RANGE STATEMENT                                         |                                                                                                                                                                                                                                                                                                                                                             |
|---------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                         | <ul style="list-style-type: none"> <li>• print heads</li> <li>• printer ribbons and cartridges</li> <li>• toner cartridges</li> <li>• zip disks</li> </ul>                                                                                                                                                                                                  |
| <b><i>Routine maintenance</i></b> may include:          | <ul style="list-style-type: none"> <li>• in-house cleaning and servicing of equipment according to manufacturer's guidelines</li> <li>• periodic servicing by qualified or manufacturer approved, technician</li> <li>• regular checking of equipment</li> <li>• replacing consumables</li> </ul>                                                           |
| <b><i>Identifying equipment faults</i></b> may include: | <ul style="list-style-type: none"> <li>• checking repairs have been carried out</li> <li>• encouraging feedback from work colleagues</li> <li>• keeping a log book of detected faults</li> <li>• preparing a maintenance program</li> <li>• regular back-ups of data</li> <li>• regular OHS inspections</li> <li>• routine checking of equipment</li> </ul> |

Performance criteria and required skills updated to focus on learning and development practices, KPIs and compliance with policy and procedures.</p> <p>Replaces BSBWOR301A Organise personal work priorities and development</p> |

## Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to organise own work schedules, to monitor and obtain feedback on work performance, and to maintain required levels of competence. Operators may exercise discretion and judgement using appropriate theoretical knowledge of work scheduling and performance improvement to provide technical advice and support to a team.

## Application of the Unit

This unit applies to individuals who are skilled operators and apply a broad range of competencies in various work contexts.

## Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

## Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

## Elements and Performance Criteria

|                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Organise and complete own work schedule            | <p>1.1 Ensure that <b>work goals, objectives</b> or <b>KPIs</b> are understood, negotiated and agreed in accordance with <b>organisational requirements</b></p> <p>1.2 Assess and prioritise workload to ensure tasks are completed within identified timeframes</p> <p>1.3 Identify <b>factors affecting the achievement of work objectives</b> and incorporate contingencies into work plans</p> <p>1.4 Use <b>business technology</b> efficiently and effectively to manage and monitor scheduling and completion of tasks</p>                                                                                                                                                                                |
| 2. ## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- communication skills to give and receive constructive feedback relating to development needs
- literacy skills to read and understand the organisation's procedures
- planning skills to organise work priorities according to work goals and objectives
- problem-solving skills to solve routine problems
- self-management skills to:
  - comply with policies and procedures
  - consistently evaluate and monitor own performance
  - seek learning opportunities.

### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety (OHS)
- organisational policies, plans and procedures
- methods to elicit, analyse and interpret feedback
- principles and techniques of goal setting, measuring performance, time management and personal assessment
- competency standards and how to interpret them in relation to self
- methods to identify and prioritise personal learning needs.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"><li>• preparing work plans</li><li>• scheduling and prioritising work objectives and tasks</li><li>• knowledge of the principles and techniques of goal setting, measuring performance, time management and personal assessment.</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"><li>• access to an actual workplace or simulated environment</li><li>• access to office equipment and resources</li><li>• examples of work schedules and performance improvement plans.</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"><li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li><li>• review of self-assessment documentation outlining learning and development needs</li><li>• analysis of responses to case studies and scenarios</li><li>• demonstration of techniques</li><li>• oral or written questioning to assess knowledge of methods to identify and prioritise personal learning needs</li><li>• evaluation of planning for personal skill development activities and professional development opportunities.</li></ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|--------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Work goals and objectives</b> may include:                            | <ul style="list-style-type: none"> <li>• budgetary targets</li> <li>• production targets</li> <li>• reporting deadlines</li> <li>• sales targets</li> <li>• team and individual learning goals</li> <li>• team participation.</li> </ul>                                                                                                                                                                                                                                                                                        |
| <b>KPIs</b> may include:                                                 | <ul style="list-style-type: none"> <li>• key performance indicators on customer satisfaction</li> <li>• key performance indicators on customer effort</li> <li>• monitoring time taken to answer calls</li> <li>• operating within reporting protocols</li> <li>• score tools such as net promoter</li> <li>• understanding metrics.</li> </ul>                                                                                                                                                                                 |

### Application of the Unit

|                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application of the unit</b> | <p>Frontline managers play an important role in developing and maintaining positive relationships in internal and external environments so that customers, suppliers and the organisation achieve planned outputs and outcomes. They play a prominent part in motivating, mentoring, coaching and developing team cohesion through providing leadership for the team and forming the bridge between the management of the organisation and team members.</p> <p>At this level, work will normally be carried out within routine and non routine methods and procedures, which require planning and evaluation, and leadership and guidance of others.</p> |

|                                                    | 1.5. Implement <b>processes</b> to ensure that issues raised are resolved promptly or referred to <b>relevant personnel</b> as required                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2. Develop trust and confidence                    | 2.1. Treat all internal and external contacts with integrity, respect and empathy<br>2.2. Use the <b>organisation's social, ethical and business standards</b> to develop and maintain effective relationships<br>2.3. Gain and maintain the trust and confidence of <b>colleagues, customers and suppliers</b> through competent performance<br>2.4. Adjust interpersonal styles and methods to meet organisation's social and cultural environment<br>2.5. Encourage other members of the work team to follow examples set, according to <b>organisation's policies and procedures</b> |
| 3. Develop and maintain networks and relationships | 3.1. Use <b>networks</b> to identify and build relationships<br>3.2. Use networks and other work relationships to provide identifiable benefits for the team and organisation                                                                                                                                                                                                                                                                                                                                                                                                            |
| 4. Manage difficulties into positive outcomes      | 4.1. Identify and analyse difficulties, and take action to rectify the situation within the requirements of the organisation and relevant legislation<br>4.2. Guide and support colleagues to resolve work difficulties<br>4.3. Regularly review and improve <b>workplace outcomes</b> in consultation with relevant personnel<br>4.4. Manage <b>poor work performance</b> within the organisation's processes<br>4.5. Manage conflict constructively within the organisation's processes                                                                                                |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- coaching and mentoring skills to provide support to colleagues

**REQUIRED SKILLS AND KNOWLEDGE**

- literacy skills to research, analyse, interpret and report information
- relationship management and communication skills to:
  - deal with people openly and fairly
  - forge effective relationships with internal and/or external people, and to develop and maintain these networks
  - gain the trust and confidence of colleagues
  - respond to unexpected demands from a range of people
  - use supportive and consultative processes effectively.

**Required knowledge**

- relevant legislation from all levels of government that affects business operation, especially in regard to occupational health and safety (OHS), and environmental issues, equal opportunity, industrial relations and anti-discrimination
- theory associated with managing work relationships to achieve planned outcomes:
  - developing trust and confidence
  - maintaining consistent behaviour in work relationships
  - understanding the cultural and social environment
  - identifying and assessing interpersonal styles
  - establishing, building and maintaining networks
  - identifying and resolving problems
  - resolving conflict
  - managing poor work performance
  - monitoring, analysing and introducing ways to improve work relationships.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- range of methods and techniques for communicating information and ideas to a range of stakeholders
- range of methods and techniques for developing positive work relationships that build trust and

| <b>EVIDENCE GUIDE</b>                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| <b>Context of and specific resources for assessment</b> | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>access to appropriate documentation and resources normally used in the workplace.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Method of assessment</b>                             | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>demonstration of techniques in managing poor performance and communicating effectively</li> <li>direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>observation of performance in role plays</li> <li>observation of presentations</li> <li>oral or written questioning to assess knowledge of relevant legislation</li> <li>review of consultation processes implemented to encourage employees to contribute to issues related to their work</li> <li>review of documentation outlining reviewing of workplace outcomes.</li> </ul> |
| <b>Guidance information for assessment</b>              | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>other units from the Certificate IV in Frontline Management.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised

**RANGE STATEMENT**

wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|                        |                                                                                                                                                                                                                                                                                                                                                                                        |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Unit descriptor</b> | <p>This unit describes the performance outcomes, skills and knowledge required to promote teamwork. It involves developing team plans to meet expected outcomes, leading the work team, and proactively working with the management of the organisation.</p> <p>No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.</p> |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### Application of the Unit

|                                |                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application of the unit</b> | <p>Frontline managers have an important leadership role in the development of efficient and effective work teams. They play a prominent part in team planning, supervising the performance of the team and developing team cohesion. They provide leadership for the team and bridge the gap between the management of the organisation and the team members. As such they must 'manage up' as well as manage their team/s.</p> |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                          | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Plan to achieve team outcomes | <p>1.1. Identify, establish and document <b><i>team purpose, roles, responsibilities, goals, plans and objectives</i></b> in <b><i>consultation</i></b> with team members</p> <p>1.2. Support team members in meeting expected outcomes</p>                                                                                                                                                                                                                                                                                                                                                            |
| 2. Develop team cohesion         | <p>2.1. Provide opportunities for input of team members into planning, decision making and operational aspects of work team</p> <p>2.2. Encourage and support team members to take <b><i>responsibility for own work</i></b> and to assist each other in undertaking required roles and responsibilities</p> <p>2.3. Provide <b><i>feedback</i></b> to team members to encourage, value and reward individual and team efforts and contributions</p> <p>2.4. Recognise and address issues, concerns and problems identified by team members or refer to <b><i>relevant persons</i></b> as required</p> |

| ELEMENT                                    | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3. Participate in and facilitate work team | <p>3.1. Actively encourage team members to participate in and take responsibility for team activities and communication processes</p> <p>3.2. Give the team support to identify and resolve problems which impede its performance</p> <p>3.3. Ensure own contribution to work team serves as a role model for others and enhances the organisation's image within the work team, the organisation and with clients/customers</p>                                                                                                       |
| 4. Liaise with management                  | <p>4.1. Maintain open <b>communication</b> with <b>line manager/management</b> at all times</p> <p>4.2. Communicate information from line manager/management to the team</p> <p>4.3. Communicate unresolved issues, concerns and problems raised by the team/team members to line manager/management and ensure follow-up action is taken</p> <p>4.4. Communicate unresolved issues, concerns and problems related to the team/team members raised by line managers/management to the team and ensure follow-up to action is taken</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to:
  - boost team morale
  - deal with team conflict
  - deliver messages from management
  - facilitate discussion
  - mentor and coach
- leadership skills
- planning and organising skills.

#### Required knowledge

**REQUIRED SKILLS AND KNOWLEDGE**

- organisational goals, objectives and plans
- organisational policy and procedures framework
- organisational structure, including organisational chart
- principles and techniques associated with:
  - delegation and work allocation
  - goal setting
  - group dynamics and processes
  - individual behaviour and difference
  - leadership
  - motivation
  - negotiation
  - planning.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- teamwork plan with details of how it was generated and how it will be monitored so that team goals can be met
- techniques in communicating information, dealing with team conflict and resolving issues
- knowledge of organisational goals, objectives and plans.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to appropriate documentation and resources normally used in the workplace.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- analysis of responses to case studies and scenarios

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• observation of demonstrated techniques in working with team dynamics</li> <li>• observation of performance in role plays</li> <li>• oral or written questioning to assess knowledge of principles and techniques associated with group dynamics and processes</li> <li>• evaluation of opportunities provided for input of team members into planning, decision making and operational aspects of work team</li> <li>• review of feedback provided to team members</li> <li>• review of teamwork plan.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• other units from the Certificate IV in Frontline Management.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Range Statement

| RANGE STATEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                               |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                                                                                                                                                                               |
| <b><i>Team purpose, roles, responsibilities, goals, plans and objectives</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                        | <ul style="list-style-type: none"> <li>• action plans, business plans and operational plans linked to strategic plans</li> <li>• expected outcomes and outputs</li> <li>• goals for individuals and the work team</li> <li>• individual and team performance plans and key performance indicators</li> <li>• occupational health and safety (OHS) responsibilities</li> </ul> |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Plan document        | 1.1. Determine <b><i>audience</i></b> and <b><i>purpose</i></b> for the document<br>1.2. Determine <b><i>format</i></b> and <b><i>structure</i></b><br>1.3. Establish key points for inclusion<br>1.4. Identify <b><i>organisational requirements</i></b><br>1.5. Establish <b><i>method of communication</i></b><br>1.6. Establish <b><i>means of communication</i></b>                            |
| 2. Draft document       | 2.1. Develop draft document to communicate key points<br>2.2. Obtain and include any required additional information                                                                                                                                                                                                                                                                                |
| 3. Review document      | 3.1. Check draft for suitability of tone for audience, purpose, format and communication style<br>3.2. Check draft for readability, grammar, spelling, and sentence and paragraph construction<br>3.3. Check draft for sequencing and structure<br>3.4. Check draft to ensure it meets organisational requirements<br>3.5. Ensure draft is proofread, where appropriate, by supervisor or colleague |
| 4. Write final document | 4.1. Make and proofread necessary changes<br>4.2. Ensure document is sent to <b><i>intended recipient</i></b><br>4.3. File copy of document in accordance with                                                                                                                                                                                                                                      |

| ELEMENT | PERFORMANCE CRITERIA                   |

|         | organisational policies and procedures |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills to read and understand a variety of texts; to prepare general information and papers according to target audience; and to proofread and edit documents to ensure clarity of meaning and conformity to organisational requirements
- problem-solving skills to determine document design and production processes.

#### Required knowledge

- basic grammar, spelling and punctuation.
- communication protocols
- how audience, purpose and method of communication influence tone
- organisational policies and procedures for document production
- resources to assist in document production, such as dictionary, thesaurus, templates, style sheets.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- producing a range of documents that accurately convey required basic information
- using formatting suitable for intended audience
- knowledge of organisational policies and procedures for document production.

| <b>EVIDENCE GUIDE</b>                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Context of and specific resources for assessment</b> | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to office equipment and resources</li> <li>• examples of documents.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Method of assessment</b>                             | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• review of draft documents</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• oral or written questioning to assess knowledge of communication protocols</li> <li>• review of final documents.</li> </ul> |
| <b>Guidance information for assessment</b>              | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBITU303A Design and produce text documents</li> <li>• other general administration units.</li> </ul>                                                                                                                                                                                                                                                                                                                                              |

## Range Statement

| <b>RANGE STATEMENT</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                   |

| 3. Prepare final text | 3.1. Review draft text to ensure document objectives are achieved and requirements are met<br>3.2. Check grammar, spelling and style for accuracy and punctuation<br>3.3. Ensure draft text is approved by <b>relevant</b> enterprise personnel<br>3.4. Process text amendments as required |
| 4. Produce document   | 4.1. Choose basic <b>design elements</b> for documents appropriate to audience and purpose<br>4.2. Use word processing software to apply basic design elements to text<br>4.3. Check documents to ensure all requirements are met                                                           |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to clarify requirements of documents
- literacy skills to edit and proofread documents; to create documents with a complex, organised structure of linked paragraphs which use simple and complex syntactic structure
- numeracy skills to collate and present data, graphs and annotated references
- problem-solving skills to use processes flexibly and interchangeably.

#### Required knowledge

- enterprise style guide/house style
- formatting styles and their impact on formatting, readability and appearance of documents
- organisational requirements for ergonomics, work periods and breaks, and resource conservation techniques
- rules and conventions for written English, as defined by general and specialist dictionaries and books about grammar.

## Evidence Guide

| <b>EVIDENCE GUIDE</b>                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| <b>Context of and specific resources for assessment</b>                                                                                                                                                                | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• examples of documents and style guides.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Method of assessment</b>                                                                                                                                                                                            | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• review of structure and content of documents</li> <li>• review of draft documents</li> <li>• review of final documents</li> <li>• demonstration of techniques</li> <li>• oral or written questioning to assess knowledge of word processing software functions.</li> </ul> |
| <b>Guidance information for assessment</b>                                                                                                                                                                             | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBITU401A Design and develop complex text documents.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                        |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Purposes of documents*** may include:

- conveying research findings
- documenting policies, procedures and processes
- influencing attitudes, opinions, beliefs
- meeting legal requirements
- meeting other data, information or knowledge needs of an audience
- proposing recommendations, options and actions

***Appropriate formats*** for documents may include:

- detailed business letters
- emails
- instructions and procedures
- manuals
- publications, leaflets, brochures
- reports
- speeches and presentations
- submissions tender documentation and public notices
- website text

***Means of communication*** may include:

- software packages such as MS Word, MS Excel, MS PageMaker, MS PowerPoint and templates

***Requirements of documents*** may include:

- compliance with genre
- compliance with proformas, standardised reporting requirements or undertakings made by the organisation about reporting
- file types and sizes for online documents
- languages other than English requirements
- legal or traditional requirements for the particular document format
- organisational policy, procedures and guidelines applying to writing documents, including house style
- point numbering systems
- requirements for illustrations, photographs, graphs, charts, maps and other illustrative material

| <b>RANGE STATEMENT</b>                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

### Unit Descriptor

**Descriptor**

This unit describes the knowledge and skills required to develop and analyse policies which impact on the client group and the work of the organisation

### Application of the Unit

**Application**

This unit may apply in a range of community service contexts

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Review existing policies

1.1 Identify relevant organisation and other policies and assess them for relevance to the organisations objectives and effectiveness

1.2 Consult clients and other stakeholders about their views on policies

1.3 Document and present reviews of policies in a format appropriate to the purpose of the review, the context, and the receiver

#### 2. Contribute to *research* for policy advice

2.1 Identify, plan and implement research and consultation strategies appropriate to the worker's role in the research process within timeframes, resource constraints and agreed processes

2.2 Collate, report and present research and consultation outcomes in a format appropriate to the research process, the purpose of the research, the context and the receiver

2.3 Identify factors impacting on quality or outcomes of research or consultation and incorporate in reports

#### 3. Provide briefing materials on policy issues

3.1 Prepare briefing materials as required in a format

**ELEMENT****PERFORMANCE CRITERIA**

appropriate to audience, purpose and context

3.2 Draw on expertise and role of worker and organisation for briefing materials

3.3 Incorporate reasoned argument and evidence into briefing materials

4. Promote informed policy debate

4.1 Identify *strategies to stimulate informed debate* appropriate to the worker's role in policy development, community education or client service delivery in consultation with other workers and management

4.2 Implement strategies to stimulate informed debate within timeframes, resource allocations and agreed processes

4.3 Where necessary, implement strategies to translate policy materials into language/s easily understood by clients and other stakeholders

4.4 Develop strategies that enable exchange of views and information between policy initiators, clients and other stakeholders

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Organisation policies impacting on the worker, the organisation and its target groups
- Government and other policies impacting on the issue under consideration, and the organisation and its target groups
- The contexts for policies, people and the organisation
- Research and consultation techniques
- The limits of the worker's own role and competence and the organisation's role

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate application of skills to:
  - policies within own organisation
  - policies within networks or associations
  - policies directly related to own work role and areas of expertise
  - policies for target groups relevant to the organisation
- Demonstrate involvement with stakeholders relevant to the organisation and the policy issue under consideration

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Analyse evidence and arguments
- Demonstrate reasoning, including identification of implications and consequences of particular courses of action
- Apply consultation and research methodologies
- Demonstrate application of skills in:
  - report writing, including translation of complex concepts into simple language or images
  - public speaking addressing a group
  - group participation
  - effective use of relevant information technology in line with work health and safety (WHS) guidelines

## **Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions

This may include the use of languages other than English and alternative communication systems

- It is recommended that assessment take place on one or more than occasions to enable assessment of all aspects of policy development to take place

- Access and equity considerations:*
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

- Context of and specific resources for assessment:*
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resource requirements for assessment of this unit include access to:
    - an appropriate workplace where assessment can take place, or simulation of realistic workplace setting for assessment

- Method of assessment:*
- Assessment may include observations, questioning and evidence gathered from the workplace

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Research may be:*

- Survey
- Qualitative
- Quantitative

*Information gathering and consultation techniques may include:*

- Interview structured, semi-structured and unstructured, group and individual
- Conversation by phone or face-to-face
- Observation and listening
- Collection of materials e.g. Printed material and videos
- Attendance at workshops, meetings and forums
- Questionnaires and other basic survey instruments

*Strategies to stimulate informed debate will involve:*

- Employing a range of communication styles, modes and media
- Employing any of the consultation techniques identified in the Range Statement
- Employing networking strategies

## **Unit Sector(s)**

Not Applicable

# CPPSEC3004A Lead small teams in the security industry

## Modification History

Not Applicable

## Unit Descriptor

**Unit descriptor** This unit of competency specifies the outcomes required to plan, organise and monitor a small team to achieve designated outcomes in a security context. It requires the ability to allocate duties and schedule rosters, set and maintain team and individual performance standards, facilitate open communication and resolve individual or team concerns. It also requires the ability to coordinate and facilitate team development and team performance.

This unit may form part of the licensing requirements for persons involved in specific security activities in those states and territories where these are regulated activities.

## Application of the Unit

**Application of the unit** This unit of competency has wide application in the security industry in those roles which involve the facilitation of small teams. Competency requires legal and operational knowledge applicable to relevant sectors of the security industry. The knowledge and skills described in this unit are to be applied within relevant legislative and organisational guidelines.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Not Applicable

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency. Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge section and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

| ELEMENT                            | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Facilitate team planning.</b> | <p>1.1 Individual and team purpose, roles and responsibilities are clarified, agreed upon and defined in accordance with <b><i>organisational goals and objectives</i></b>.</p> <p>1.2 <b><i>Assignment instructions</i></b> are identified and clearly communicated to team members in accordance with <b><i>legislative</i></b> and <b><i>organisational</i></b> requirements.</p> <p>1.3 <b><i>Contingencies</i></b> are considered when allocating specific work duties and responsibilities to team members.</p> <p>1.4 Open <b><i>communication</i></b> within the team is encouraged and facilitated to ensure full understanding and accurate exchange of information.</p> <p>1.5 Effective communication and <b><i>interpersonal techniques</i></b> are used that reflect sensitivity to individual <b><i>social and cultural differences</i></b>.</p> |
| <b>2 Monitor team performance.</b> | <p>2.1 Duties, rosters and team rotation requirements are assessed and matched to individual capabilities.</p> <p>2.2 Performance of the team and individual members is systematically monitored to ensure the satisfactory completion of assignment instructions.</p> <p>2.3 Problems are identified and appropriate remedial action is implemented in accordance with organisational procedures.</p> <p>2.4 Potential and actual security risk situations are identified and appropriate responses implemented in accordance</p>                                                                                                                                                                                                                                                                                                                              |

| ELEMENT                            | PERFORMANCE CRITERIA                                                                                                                                                                                        |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                    | with organisational procedures.                                                                                                                                                                             |
|                                    | 2.5 Performance expectations are clearly communicated and assistance provided to team members as required.                                                                                                  |
|                                    | 2.6 Relevant <b>documentation</b> is completed and processed in accordance with workplace procedures.                                                                                                       |
| 3 <b>Develop team performance.</b> | 3.1 Effective working relationships are established and maintained through the provision of appropriate support, communication and feedback.                                                                |
|                                    | 3.2 <b>Constructive feedback</b> on quality of performance is regularly provided to team members for integration into work practices.                                                                       |
|                                    | 3.3 Positive action to address deficiencies or areas for improvement in team performance is taken and handled sensitively.                                                                                  |
|                                    | 3.4 Team is supported and encouraged to achieve its goals and changing priorities through active reflection and participation in team activities and communication processes.                               |
|                                    | 3.5 Team concerns are acknowledged and addressed as required and wherever possible discussed and resolved within the team.                                                                                  |
|                                    | 3.6 In the event of non-resolution, team concerns are constructively presented and discussed with <b>relevant persons</b> in a timely and objective manner using established dispute resolution procedures. |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge and their level required for this unit.

#### Required skills

- acknowledge and resolve individual or team problems
- apply conflict resolution and negotiation techniques
- apply effective interpersonal techniques
- communicate effectively with others
- complete and maintain records and documentation
- comply with applicable legislative, regulatory and licensing requirements
- comply with organisational policies and standard operating procedures

## REQUIRED SKILLS AND KNOWLEDGE

- modify work activities dependent on differing workplace continues, risk situations and environments
- plan, organise and monitor work activities of team members
- prioritise and schedule work tasks to meet designated schedules
- provide constructive feedback and support to team members
- provide effective informal performance counselling
- provide leadership and work collaboratively with others
- take appropriate initiatives concerning security incidents
- use and maintain appropriate business and security equipment
- use coaching and mentoring skills to provide support and build effective workplace relationships.

### Required knowledge

- applicable legislation and regulations including Occupational Health and Safety (OHS) and licensing requirements
- conflict resolution and team building techniques
- emergency and evacuation procedures
- operational principles of a range of business and security equipment
- organisational performance standards and assessment techniques
- organisational policies and procedures
- principles of effective communication
- principles of time management
- reporting and documentation requirements and procedures
- rights and responsibilities of employers and employees
- roles, functions and responsibilities of team members
- site layout and standard operating procedures
- teamwork principles and relationship-building techniques
- types of problems and security risk incidents in the workplace and appropriate response procedures
- workplace contingency procedures.

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Critical aspects for** A person who demonstrates competency in this unit must be able to

**assessment and evidence required to demonstrate competency in this unit**

provide evidence of:

- acknowledging individual or team concerns and facilitating discussion and resolution within the group
- assessing and monitoring team and individual performance against set measurable criteria, and creating opportunities to maintain or improve individual and team performance
- clearly defining and communicating to team members individual and team roles and responsibilities, assignment instructions and organisational goals and objectives
- communicating effectively on a one-to-one and group basis with colleagues, clients and supervisors and developing trust and confidence in workplace relationships
- communicating performance expectations for a range of tasks and duties within the team and providing constructive feedback
- selecting and allocating duties and responsibilities appropriate to individual knowledge, skill, aptitude and assignment requirements.

**Context of and specific resources for assessment**

Context of assessment includes:

- a setting in the workplace or environment that simulates the conditions of performance described in the elements, performance criteria and range statement.

Resource implications for assessment include:

- access to plain English version of relevant statutes and procedures
- access to a registered provider of assessment services
- access to a suitable venue and equipment
- assessment instruments including personal planner and assessment record book
- work schedules, organisational policies and duty statements.

Reasonable adjustments must be made to assessment processes where required for people with disabilities. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support.

**Method of assessment**

This unit of competency could be assessed using the following methods of assessment:

- observation of processes and procedures
- questioning of underpinning knowledge and skills.

**Guidance information for assessment**

Assessment processes and techniques must be culturally appropriate and suitable to the language, literacy and numeracy capacity of the candidate and the competency being assessed. In all cases where practical assessment is used, it should be combined with targeted questioning to assess the underpinning knowledge.

Oral questioning or written assessment may be used to assess underpinning knowledge. In assessment situations where the candidate is offered a choice between oral questioning and written assessment, questions are to be identical.

Supplementary evidence may be obtained from relevant authenticated correspondence from existing supervisors, team leaders or specialist training staff.

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Organisational goals and objectives may include:***

- budgetary targets
- reporting deadlines
- team and individual learning goals
- team participation.

***Assignment instructions may include:***

- assignment objectives and timeframes
- personal protective clothing and equipment requirements
- reporting and documentation requirements
- resource and equipment requirements
- specific client requirements
- work schedules
- work tasks and procedures.

***Legislative requirements may relate to:***

- Australian standards and quality assurance requirements
- general 'duty of care' responsibilities
- licensing or certification requirements
- privacy and confidentiality
- relevant commonwealth, state, territory legislation, codes and national standards for:
  - anti-discrimination
  - cultural and ethnic diversity
  - environmental issues
  - equal employment opportunity
  - industrial relations

**Organisational requirements may relate to:**

- OHS
- relevant industry codes of practice.
- access and equity policies, principles and practices
- business and performance plans
- client service standards
- code of conduct, code of ethics
- communication and reporting procedures
- complaint and dispute resolution procedures
- emergency and evacuation procedures
- employer and employee rights and responsibilities
- OHS policies, procedures and programs
- own role, responsibility and authority
- personal and professional development
- privacy and confidentiality of information
- quality assurance and continuous improvement processes and standards
- resource parameters and procedures
- roles, functions and responsibilities of security personnel
- storage and disposal of information.

**Contingencies may involve:**

- domestic considerations
- impending leave
- individual strengths and weaknesses
- preferences
- security risk situations
- team dynamics and combinations.

**Communication may be:**

- face-to-face
- group interaction
- in Indigenous languages
- in languages other than English
- oral reporting
- participation in routine meetings
- reading independently
- recording of discussions
- speaking clearly and directly
- through the use of assistive technology
- via an interpreter
- visual or written
- writing to audience needs.

**Interpersonal techniques may involve:**

- active listening
- being non-judgemental
- being respectful and non-discriminatory
- constructive feedback

|                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

# CPPSEC3032A Gather information by factual investigation

## Modification History

Not Applicable

## Unit Descriptor

### Unit descriptor

This unit of competency specifies the outcomes required to gather oral, written and electronic information for the carriage of investigation tasks. It requires the ability to plan and carry out factual information gathering activities, analyse and verify information, and present clear and accurate recommendations.

This unit may form part of the licensing requirements for persons engaged in investigative work in those states and territories where these are regulated activities.

## Application of the Unit

### Application of the unit

This unit of competency has application in a range of work roles in investigative services. Work is performed under limited supervision and competency requires some judgement and decision-making. The knowledge and skills described in this unit are to be applied within relevant legislative guidelines.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability skills

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the required skills and knowledge section and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1 Prepare for investigative activities.

- 1.1 Client and ***legislative requirements*** relevant to conducting and investigation and related information are identified and complied with.
- 1.2 ***Assignment instructions*** are obtained, reviewed and clarified as required with ***relevant persons***.
- 1.3 ***Resource and equipment*** requirements including ***technical specialists*** are confirmed and organised.
- 1.5 ***Information sources and systems*** are reliable and used in accordance with assignment objectives.
- 1.6 A plan detailing key activities and their sequence is developed taking into consideration all known factors, client instructions and legal requirements.
- 1.7 Research and preliminary inquiries are carried out to gather information and ***evidence*** in accordance with legislative requirements.

#### 2 Gather information.

- 2.1 ***Methods*** used for collecting information are valid and reliable and make efficient use of resources.
- 2.2 Interviews and meetings are conducted using effective ***communication skills*** and ***interpersonal techniques*** and demonstrating sensitivity to ***individual social and cultural differences***.
- 2.3 Comprehensive statements are taken and physical evidence collected to support ***available facts*** in accordance with legislative requirements.
- 2.4 Information is assessed for relevance and accuracy and additional information sought as required from identified sources.

| ELEMENT               | PERFORMANCE CRITERIA                                                                                                                                    |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3 Report information. | 2.5 Gathered information is prioritised and organised in a logical manner with regard to continuity of evidence.                                        |
|                       | 3.1 Report is prepared presenting all relevant facts and observations in appropriate <i>format</i> .                                                    |
|                       | 3.2 Content is evaluated in terms of validity, reliability and relevance in consultation with relevant persons.                                         |
|                       | 3.3 Client satisfaction with service delivery is reviewed using verifiable data and feedback and recommendations for improvement to service identified. |
|                       | 3.4 All investigative information and records are securely maintained with due regard to confidentiality.                                               |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge and their level required for this unit.

#### Required skills

- accurately record, report and document information and evidence
- analysis
- communicate using appropriate channels and communication modes
- diagramming
- identify and comply with applicable legal and procedural requirements, including licensing requirements, relevant to investigative activities
- illustration
- image compilation
- information technology
- interpret and follow instructions and procedures
- literacy skills to understand and communicate information (reading, writing, speaking, numeracy and listening)
- organise equipment and resource requirements
- plan and conduct meetings and interviews
- problem solving and negotiation
- questioning to check understanding
- reconstruction of facts
- relate to people from a range of social, cultural and ethnic backgrounds and of varying physical and mental abilities
- research

## REQUIRED SKILLS AND KNOWLEDGE

- risk assessment.

### Required knowledge

- applicable licensing and legal requirements relevant to investigative activities
- basic investigation techniques
- communication channels and modes
- evidence management principles
- factual information gathering techniques
- how to safeguard confidential information
- how to use business equipment to present information which may be used as evidence
- information management systems and methods
- interviewing, reviewing and debriefing processes
- legislative requirements applicable to the conduct and reporting of investigations
- legislative restrictions on the use of recording devices
- principles of effective communication including interpersonal techniques
- reliable and verifiable sources of information
- reliable sources and methods for collecting information
- reporting and documentation requirements
- requirements for continuity of evidence.

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

A person who demonstrates competency in this unit must be able to provide evidence of:

- using reliable sources and methods to gather information that is factual, lawful and relevant to the investigation in compliance with legislative and client requirements
- conducting interviews and meetings using appropriate interpersonal techniques and communication skills, and taking accurate and complete contemporaneous notes and statements
- evaluating and presenting gathered information in an appropriate format within designated timeframes
- collecting, storing and maintaining evidence in accordance with

|                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

|                                                         | evidence management principles.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Context of and specific resources for assessment</b> | <p>Context of assessment includes:</p> <ul style="list-style-type: none"><li>• a setting in the workplace or environment that simulates the conditions of performance described in the elements, performance criteria and range statement.</li></ul> <p>Resource implications for assessment include:</p> <ul style="list-style-type: none"><li>• access to plain English version of relevant statutes and procedures</li><li>• access to a registered provider of assessment services</li><li>• access to a suitable venue and equipment</li><li>• assessment instruments including personal planner and assessment record book</li><li>• work schedules, organisational policies and duty statements.</li></ul> <p>Reasonable adjustments must be made to assessment processes where required for people with disabilities. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support.</p> |
| <b>Method of assessment</b>                             | <p>This unit of competency could be assessed using the following methods of assessment:</p> <ul style="list-style-type: none"><li>• observation of processes and procedures</li><li>• questioning of underpinning knowledge and skills.</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Guidance information for assessment</b>              | <p>Assessment processes and techniques must be culturally appropriate and suitable to the language, literacy and numeracy capacity of the candidate and the competency being assessed. In all cases where practical assessment is used, it should be combined with targeted questioning to assess the underpinning knowledge.</p> <p>Oral questioning or written assessment may be used to assess underpinning knowledge. In assessment situations where the candidate is offered a choice between oral questioning and written assessment, questions are to be identical.</p> <p>Supplementary evidence may be obtained from relevant authenticated correspondence from existing supervisors, team leaders or specialist training staff.</p>                                                                                                                                                                                                                        |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different

work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Legislative requirements may relate to:***

- applicable commonwealth, state and territory legislation which affects investigative work such as:
  - workplace safety
  - environmental issues
  - equal employment opportunity
  - industrial relations
  - anti-discrimination and diversity
- Australian standards and quality assurance
- authority to conduct investigation
- award and enterprise agreements
- evidence collection
- freedom of information
- licensing arrangements and certification requirements
- privacy requirements
- relevant industry codes of practice
- restrictions in the use of recording devices.

***Assignment instructions may include:***

- assignment tasks and procedures
- assignment timeframe
- client information
- investigation purpose and objective
- methods of investigation
- reporting and documentation requirements
- resource and equipment allocations.

***Relevant persons may include:***

- client
- industry or government representatives
- police
- security personnel
- supervisor or manager
- technical specialist.

***Resources and equipment***

- 35mm and video cameras
- compass
- lap-top computer
- mobile phones, pagers
- personnel
- scales
- scanners (audio, document, computer)

- tape measures
  - transport
  - voice recorder, transcript recorder
  - writing instruments.
- Technical specialists may be:**
- accountants
  - engineers
  - forensic experts
  - information technology experts
  - photographers
  - solicitors, lawyers
  - specialist investigators
  - undercover operatives.
- Information sources**
- colleagues, supervisor, management
  - government departments or agencies
  - industry networks
  - industry specialists
  - internet and other electronic sources
  - interviews and meetings
  - library
  - newspapers and other print media
  - photographs
  - plans, map and schematic drawings
  - police
  - professional bodies
  - records, reports, case notes.
- Information systems may depend on:**
- importance of information
  - reliability of information
  - sensitivity of information
  - source or origin of information
  - where information is to be disseminated.
- Evidence may be:**
- circumstantial
  - direct
  - documentary
  - hearsay
  - opinion
  - physical.
- Methods for collecting information may include:**
- electronic
  - meetings and interviews
  - photograph and filmed evidence
  - pretext inquiries
  - questioning

- researching public records
  - taking statements
  - testing of rumour
  - undercover operations
  - use of informants.
- Communication skills may include:***
- active listening
  - comprehension
  - negotiation
  - note-taking
  - positive body language
  - questioning
  - reading accurately
  - speaking clearly
  - summarising
  - writing.
- Interpersonal techniques may include:***
- active listening
  - being respectful and non-discriminatory to others
  - control of tone of voice and body language
  - demonstrating flexibility and willingness to negotiate
  - interpreting non-verbal and verbal messages
  - maintaining professionalism
  - providing and receiving constructive feedback
  - questioning to clarify and confirm understanding
  - two-way communication
  - use of communication appropriate to cultural differences
  - use of positive, confident and cooperative language.
- Social and cultural differences may relate to:***
- dress and personal presentation
  - food
  - language
  - religion
  - social conventions
  - traditional practices
  - values and beliefs.
- Available facts may relate to:***
- accident reports
  - claims
  - employer accident records
  - machinery reports
  - medical reports
  - personal records
  - personnel records
  - policies

- Format may relate to:**
- travel documents.
  - accuracy
  - common industry terminology
  - enclosures and attachments
  - length
  - sequence of coverage
  - style
  - use of abbreviations
  - use of appendices
  - use of plain English.

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to develop and implement plans for public relations activities within an organisation.

### Application of the Unit

The skills and knowledge outlined in this unit are relevant to owner/managers of small businesses, departmental managers within organisations and marketing personnel.

At this level individuals are working independently and are expected to apply theoretical concepts in a broad range of contexts, which involve contingency planning and devising solutions to unpredictable problems.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria

|                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|---------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Generate organisational identity consistent with organisation's vision | <p>1.1 Collect and analyse <b>internal and external information</b> relevant to the development of <b>public relations strategies</b></p> <p>1.2 Review the organisation's core activities, business values and current business direction to identify potential <b>images and messages</b></p> <p>1.3 Identify and consult with key <b>stakeholders</b> about public relations issues</p>                                                                                                                                                                                                                                                                                       |
| 2. Prepare public relations plans or strategies                           | <p>2.1 Identify <b>target groups</b> for public relations activities</p> <p>2.2 Identify and select strategies that enhance and promote the organisation's identity to target groups</p> <p>2.3 Identify and plan for the range of <b>potential situations</b> and reactions to which the organisation may need to respond</p> <p>2.4 Incorporate <b>legal and ethical considerations</b> into the planning process</p> <p>2.5 Provide timely opportunities for colleagues to contribute to public relations planning</p> <p>2.6 Negotiate changes to plans as required</p> <p>2.7 Submit public relations plans for approval according to organisational policy as required</p> |
| 3. Manage the implementation of public relations plans                    | <p>3.1 Define and clearly communicate all <b>aspects</b> of public relations plans to others involved in the public relations activities</p> <p>3.2 Implement and monitor actions detailed in plans and take action to rectify anything that has the potential to impact negatively on activities</p> <p>3.3 Produce public relations reports according to organisational policy</p> <p>3.4 Share public relations information with colleagues to maintain awareness of current direction and priorities of</p>                                                                                                                                                                  |

|                                               |                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                               | organisation                                                                                                                                                                                                                                                                                                                           |
| 4. Evaluate and review public relations plans | <p>4.1 Establish appropriate <b>mechanisms</b> to obtain feedback about public relations activities and strategies</p> <p>4.2 Evaluate <b>public relations activities</b> using agreed methods and benchmarks</p> <p>4.3 Make adjustments according to feedback and evaluation</p> <p>4.4 Communicate and implement agreed changes</p> |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- communication skills to:
  - relate to people from diverse backgrounds and people with diverse abilities
  - discuss issues around public relations activities with a range of stakeholders
  - negotiate changes to public relations strategies in a constructive manner
  - brief colleagues about public relations activities
- initiative and enterprise skills to:
  - devise public relations activities that best suit target groups
  - anticipate and manage risks to public relations activities
- literacy skills to:
  - interpret a range of complex material
  - write reports and strategic materials
- planning and organising skills to:
  - organise information in a logical way when producing public relations plans and reports
  - manage projects and processes
- research skills to obtain necessary background information to assist with the development of public relations plans and strategies
- technology skills to:
  - use a range of office equipment and software to produce public relations plans and reports
  - make effective use of the internet for research purposes.

### Required knowledge

- public relations context for the organisation, including ways in which similar organisations generate and promote their identity
- ways in which public relations link to other aspects of marketing and management
- issues and challenges that can arise in the context of developing and managing public relations strategies
- structure and functions of a range of print and electronic media
- planning techniques and formats in relation to public relations
- formats, features and uses of different public relations resources
- legal issues that specifically impact on public relations practice
- intellectual property issues and legislation that impact on public relations activities.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-----------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the ability to:</p> <ul style="list-style-type: none"> <li>• develop a public relations plan for a specific organisation or area of an organisation</li> <li>• work collaboratively with others on the development and implementation of public relations activities</li> <li>• apply knowledge of public relations protocols, resources and activities.</li> </ul>                                                                                                                                                                                 |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure access to:</p> <ul style="list-style-type: none"> <li>• an organisation for which public relations activities could be planned</li> <li>• materials, resources and equipment needed to research public relations campaigns and media opportunities.</li> </ul>                                                                                                                                                                                                                                                                           |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• evaluation of a public relations plan developed by the candidate</li> <li>• role play or simulation and practical activities to assess candidate's consultation and communication skills and ability to interact with the media</li> <li>• questioning and discussion about case studies, plans and strategies</li> <li>• review of portfolios of evidence</li> </ul> |

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>• review of third-party reports from experienced practitioners.</li> </ul> <p>Assessment methods should closely reflect workplace demands (e.g. literacy) and the needs of particular groups (e.g. people with disabilities, and people who may have literacy or numeracy difficulties, such as speakers of languages other than English, remote communities and those with interrupted schooling).</p> |
| <b>Guidance information for assessment</b> | Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.                                                                                                                                                                                                                                                                                                                                   |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                         |                                                                                                                                                                                                                                                                                                                                                      |
|---------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Unit Sector(s)

Business development – public relations

# HLTFA301B Apply first aid

## Modification History

## Unit Descriptor

This unit of competency describes the skills and knowledge required to provide first aid response, life support, management of casualty(s), the incident and other first aiders, until the arrival of medical or other assistance

## Application of the Unit

These skills and knowledge may be applied in a range of situations, including community and workplace settings

Training Package users should ensure implementation is consistent with any specific workplace and/or relevant legislative requirements in relation to first aid, including State/Territory requirements for currency

Application of these skills and knowledge should be contextualised as required to address specific industry, enterprise or workplace requirements and to address specific risks and hazards and associated injuries

A current Senior First Aid, Workplace Level 2 or Level 2 qualification may provide evidence of skills and knowledge required by this competency unit. However, as with all evidence of competence, evidence must be assessed against the requirements specified in the competency unit

## Licensing/Regulatory Information

## Pre-Requisites

## Employability Skills Information

The required outcomes described in this unit of competency contain applicable facets of Employability Skills

The Employability Skills Summary of the qualification in which this unit of competency is packaged will assist in identifying Employability Skill requirements

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

# Elements and Performance Criteria

## Elements and Performance Criteria

| Element                      | Performance Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| 1 Assess the situation       | <p>1.1 Identify assess and minimise <b>hazards</b> in the situation that may pose a risk of injury or illness to self and others</p> <p>1.2 Minimise immediate <b>risk</b> to self and casualty's health and safety by controlling any hazard in accordance with occupational health and safety requirements</p> <p>1.3 Assess casualty and identify injuries, illnesses and conditions</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2 Apply first aid procedures | <p>2.1 Calmly provide information to reassure casualty, adopting a communication style to match the casualty's level of consciousness</p> <p>2.2 Use available <b>resources and equipment</b> to make the casualty as comfortable as possible</p> <p>2.3 Respond to the casualty in a culturally aware, sensitive and respectful manner</p> <p>2.4 Determine and explain the nature of casualty's injury/condition and relevant first aid procedures to provide comfort</p> <p>2.5 Seek consent from casualty prior to applying first aid management</p> <p>2.6 Provide <b>first aid management</b> in accordance with <b>established first aid principles</b> and Australian Resuscitation Council (ARC) Guidelines and/or State/Territory regulations, legislation and policies and industry requirements</p> <p>2.7 Seek first aid assistance from others in a timely manner and as appropriate</p> <p>2.8 Correctly operate first aid equipment as required for first aid management according to manufacturer/supplier's instructions and local policies and/or procedures</p> |

- 2.9 Use safe manual handling techniques as required
- 2.1 Monitor **casualty's condition** and respond in accordance with effective first aid principles and procedures
- 2.1 Finalise casualty management according to casualty's needs and first aid principles
- 3 Communicate details of the incident
  - 3.1 Request ambulance support and/or appropriate medical assistance according to relevant circumstances using relevant **communication media and equipment**
  - 3.2 Accurately convey assessment of casualty's condition and management activities to ambulance services /other emergency services/relieving personnel
  - 3.3 Prepare reports as appropriate in a timely manner, presenting all relevant facts according to established procedures
  - 3.4 Accurately record details of casualty's physical condition, changes in conditions, management and response to management in line with established procedures
  - 3.5 Maintain confidentiality of records and information in line with privacy principles and statutory and/or organisation policies
- 4 Evaluate own performance
  - 4.1 Seek feedback from **appropriate clinical expert**
  - 4.2 Recognise the possible psychological impacts on rescuers of involvement in critical incidents
  - 4.3 Participate in debriefing/evaluation as appropriate to improve future response and address individual needs

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

ARC Guidelines relating to provision of first aid as outlined

Working knowledge of:

basic principles and concepts underlying the practice of first aid

procedures for dealing with major and minor injury and illness

priorities of management in first aid when dealing with life threatening conditions

basic occupational health and safety requirements in the provision of first aid

infection control principles and procedures, including use of standard precautions

chain of survival

first Aiders' skills and limitations

Understanding of the use of an Automated External Defibrillator (AED), including when to use and when not to

First aid management of:

abdominal injuries

allergic reactions

altered and loss of consciousness

bleeding

burns - thermal, chemical, friction, electrical

cardiac arrest

casualty with no signs of life

chest pain

choking/airway obstruction

injuries: cold and crush injuries; eye and ear injuries; head, neck and spinal injuries; minor skin injuries; needle stick injuries; soft tissue injuries including sprains, strains, dislocations

envenomation - snake, spider, insect and marine bites

environmental impact such as hypothermia, hyperthermia, dehydration, heat stroke

fractures

medical conditions, including cardiac conditions, epilepsy, diabetes, asthma and other respiratory conditions

near drowning

poisoning and toxic substances (including chemical contamination)  
respiratory distress  
seizures  
shock  
stroke  
substance misuse - common drugs and alcohol, including illicit drugs

Awareness of stress management techniques and available support

Social/legal issues:

duty of care  
need to be culturally aware, sensitive and respectful  
importance of debriefing  
confidentiality  
own skills and limitations

**Essential skills:**

Ability to:

Conduct an initial casualty assessment

Plan an appropriate first aid response in line with established first aid principles, policies and procedures, ARC Guidelines and/or State/Territory regulations, legislation and policies and industry requirements and respond appropriately to contingencies in line with own skills

Demonstrate correct procedures for performing CPR using a manikin, including standard precautions (i.e. as per unit **HLTCPR201A Perform CPR**)

Apply first aid principles

Infection control, including use of standard precautions

Follow OH&S guidelines

Demonstrate:

safe manual handling  
consideration of the welfare of the casualty  
ability to call an ambulance  
site management to prevent further injury

Provide assistance with self-medication as per subject's own medication regime and in line with State/Territory legislation, regulations and policies and any available

medical/pharmaceutical instructions

Administer medication in line with state/territory regulations, legislation and policies

Prepare a written incident report or provide information to enable preparation of an incident report

Communicate effectively and assertively in an incident

Make prompt and appropriate decisions relating to managing an incident in the workplace

Call an ambulance and/or medical assistance according to relevant circumstances and report casualty's condition

Use literacy and numeracy skills as required to read, interpret and apply guidelines and protocols

Evaluate own response and identify appropriate improvements where required

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package. The evidence guide supplements assessment requirements that apply to all units in this Training Package. Users of this evidence guide should first read the package's assessment guidelines.

### Critical aspects of assessment:

Assessment must include demonstrated evidence of specified Essential Knowledge and Essential Skills identified in this competency unit

Competence should be demonstrated working individually and, where appropriate, as part of a first aid team

Consistency of performance should be demonstrated over the required range of situations relevant to the workplace or community setting

Currency of first aid knowledge and skills is to be demonstrated in line with State/Territory regulations, legislation and policies, ARC and industry guidelines

**Context and resources required for assessment:**

Skills in performing first aid procedures are to be assessed through demonstration, with questioning to confirm essential knowledge

For assessment purposes, demonstration of skills in CPR procedures requires using a model of the human body (resuscitation manikin) in line with Australian Resuscitation Council Guidelines

**Access and equity considerations:**

All workers in the health industry should be aware of access and equity issues in relation to their own area of work

All workers should develop their ability to work in a culturally diverse environment

In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people

Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Contextualisation to address specific requirements may include:**

Focus on first aid management of specific types of injury

First aid provision under specific constraints or circumstances (e.g. in confined spaces, in maritime work environment or in work environment involving identified risks/hazards)

**Established first aid principles include:**

Preserve life

Prevent illness, injury and condition(s) becoming worse

Promote recovery

Protect the unconscious casualty

**Vital signs include:**

Consciousness

Breathing

Circulation

**A hazard is:**

A source or situation with the potential for harm in terms of human injury or ill-health, damage to property, the environment, or a combination of these

**Hazards may include:**

Physical hazards

Biological hazards

Chemical hazards

Hazards associated with manual handling

**Risks may include:**

Risks from equipment, machinery and substances

Risks from first aid equipment

Environmental risks

Exposure to blood and other body substances

Risk of further injury to the casualty  
Risks associated with the proximity of other workers and bystanders  
Risks from vehicles

**Casualty's condition is managed for:**

Abdominal injuries  
Airway obstruction  
Allergic reactions  
Altered and loss of consciousness  
Bleeding  
Burns - thermal, chemical, friction, electrical  
Chest pain/cardiac arrest  
Injuries: cold and crush injuries; eye and ear injuries; head, neck and spinal injuries; minor skin injuries; needle stick injuries; soft tissue injuries including sprains, strains, dislocations  
Near drowning  
Envenomation - snake, spider, insect and marine bites  
Environmental conditions such as hypothermia, hyperthermia, dehydration, heat stroke  
Fractures  
Medical conditions, including cardiac conditions, epilepsy, diabetes, asthma and other respiratory conditions  
No signs of life  
Poisoning and toxic substances (including chemical contamination)  
Respiratory distress/arrest  
Seizures  
Shock  
Stroke  
Substance misuse - common drugs and alcohol, including illicit drugs.

**First aid management must take into account applicable aspects of:**

The setting in which first aid is provided, including:

- workplace policies and procedures
- industry/site specific regulations, codes etc.
- OHS requirements
- state and territory workplace health and safety legislative requirements
- location and nature of the incident
- situational risks associated with, for example, electrical and biological hazards, weather, motor vehicle accidents
- location of emergency services personnel.

The use and availability of first aid equipment and resources

- Infection control
- Legal and social responsibilities of first aider

**Resources and equipment are used appropriate to the risk to be met and may include:**

- AED
- First aid kit
- Auto-injector
- Puffer/inhaler
- Resuscitation mask or barrier
- Spacer device

**Communication media and equipment may include but are not limited to:**

- Telephones, including landline, mobile and satellite phones
- HF/VHF radio
- Flags
- Flares
- Two way radio
- Email

Electronic equipment

Hand signals

**Appropriate clinical expert may include:**

Supervisor/manager

Ambulance officer/paramedic

Other medical/health worker

**Documentation may include:**

Injury report forms

Workplace documents as per organisation requirements

**Documentation may include recording:**

Time

Location

Description of injury

First aid management

Fluid intake/output, including fluid loss via:  
blood

vomit

faeces

urine

Administration of medication including:

time

date

person administering

dose

Vital signs

## Unit Sector(s)

## HLTFA403C Manage first aid in the workplace

### Modification History

| HLT07 Version 4                                | HLT07 Version 5                                | Comments                                                                                                                                                        |

| HLTFA403B<br>Manage first aid in the workplace | HLTFA403C<br>Manage first aid in the workplace | ISC upgrade changes to remove references to old OHS legislation and replace with references to new WHS legislation. Updated unit codes to First Aid references. |

### Unit Descriptor

**Descriptor**

This unit addresses the establishment and maintenance of facilities to enable or facilitate the provision of appropriate first aid in the workplace

### Application of the Unit

**Application**

The skills and knowledge described in this competency unit are suitable for those in nominated workplace first aider roles

Training Package users should ensure implementation is consistent with any specific workplace and/or relevant legislative requirements in relation to WHS and provision of first aid

Application of these skills and knowledge should be contextualised as required to address specific industry, enterprise or workplace requirements and to address specific risks and hazards and associated injuries

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

- |                                                 |                                                                                                                                                                   |
|-------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Establish a workplace first aid facility     | 1.1 Plan a <i>first aid facility</i> in the workplace to address <i>workplace and legislative requirements</i>                                                    |
|                                                 | 1.2 Identify potential <i>workplace hazards</i> and assess <i>associated risks</i> as a basis for determining <i>first aid resource</i> requirements              |
|                                                 | 1.3 Identify and prepare first aid equipment and resources required to address identified workplace requirements                                                  |
|                                                 | 1.4 Identify personnel requirements in line with legislative and workplace requirements                                                                           |
|                                                 | 1.5 Establish and maintain links with relevant <i>first aid bodies and professional organisations</i> to maintain currency in the field and for referral purposes |
|                                                 | 1.6 Access and provide information in the workplace to encourage risk minimisation and facilitate access to first aid facilities as appropriate                   |
| 2. <i>Manage</i> a workplace first aid facility | 2.1 Monitor and maintain availability of adequate resources to support workplace first aid response                                                               |

**ELEMENT****PERFORMANCE CRITERIA**

- 2.2 Conduct regular inspections of stock and equipment to ensure currency and operational readiness in line with workplace requirements
  - 2.3 Ensure equipment is recovered and reprocessed and that waste is disposed of safely according to legislative and workplace procedures
  - 2.4 Ensure equipment and resources are stored and maintained in line with relevant legislation and manufacturer's/supplier's instructions
  - 2.5 Contribute to the review of risks in the workplace and validation of organisation policies and procedures relating to the provision of first aid
  - 2.6 Contribute to planning for response to major workplace incidents
  - 2.7 Deploy appropriate equipment, resources and personnel to ensure timely and effective first aid response in line with workplace requirements
  - 2.8 Use safe manual handling techniques
- 
- 3. Manage workplace first aid records
    - 3.1 Ensure *documentation* is completed as required according to legislation and workplace procedures
    - 3.2 Maintain first aid records in line with legislative requirements and workplace security practices
    - 3.3 Send relevant documents to appropriate bodies in line with workplace and legislative requirements
    - 3.4 Maintain confidentiality of records and information in line with privacy principles and statutory and/or organisation policies
- 
- 4. Evaluate the provision of first aid in the workplace
    - 4.1 Evaluate management of workplace incidents and develop an action plan in consultation with relevant parties to improve first aid response in the workplace if required
    - 4.2 Participate in debriefing/evaluation in order to improve future operations and address individual needs
    - 4.3 Ensure first aid response is provided in a culturally aware, sensitive and respectful manner
    - 4.4 Implement and evaluate workplace management

**ELEMENT****PERFORMANCE CRITERIA**

procedures in accordance with risk assessment

4.5 Formulate and review contingency planning to identify and select alternative management principles and procedures as required

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Working knowledge of:
  - Australian Resuscitation Council (ARC) Guidelines relating to provision of first aid
  - company/organisation standard operating procedures (SOPS)
  - first aid risk assessment practices and procedures
  - first aiders' skills and limitations in relation to first aid response in the workplace
  - how to gain access to and interpret Safety Data Sheets (SDS)
  - legal responsibilities and duty of care
  - occupational health and safety requirements in the provision of first aid
  - priorities of management in first aid
  - procedures for dealing with major and minor accidents in the workplace
  - safe storage and handling of medication in the workplace
- First aid equipment and resources to manage injuries and illnesses addressed in HLTFA311A: Apply first aid and HLTFA412A: Apply advanced first aid
- First aid management procedures for conditions identified in the Range Statement
- Infection control principles and procedures, including using standard precautions
- State/territory regulations, legislation and policies relating to:
  - currency of first aid skills and knowledge
  - first aid training
  - occupational health and safety requirements in the provision of first aid

## REQUIRED SKILLS AND KNOWLEDGE

- workplace first aid provision
- Stress management techniques and available support
- Social issues, with particular reference to workplace culture, issues and resources and associated organisation requirements:
  - importance of first aid response to be culturally aware, sensitive and respectful
  - debriefing counselling procedures
  - consent and confidentiality
  - own skills and limitations

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply first aid principles in the workplace
- Assess workplace first aid requirements
- Communicate effectively and assertively and show leadership in an incident
- Conduct an initial casualty assessment and prioritisation
- Conduct/review first aid risk assessment
- Demonstrate:
  - adequate infection control procedures - use of standard precautions
  - consideration of the welfare of casualties and first aiders
  - incident management skills
  - safe manual handling
  - safe storage and handling of medication in the workplace
  - safe storage and handling procedures for pressurised gases
- Implement WHS guidelines
- Interpret, use and maintain records of the range of documentation required by the workplace and regulatory authorities
- Maintain first aid equipment and resources in operational condition
- Make prompt and appropriate decisions relating to managing an incident in the workplace
- Manage a first aid response in an identified workplace context
- Plan an appropriate first aid response in line with established first aid principles, ARC Guidelines and/or State/Territory regulations, legislation and policies and respond appropriately to contingencies in line with own level of skills and knowledge
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use high level literacy and numeracy skills as required to read, interpret, address and

## REQUIRED SKILLS AND KNOWLEDGE

communicate guidelines, protocols and reporting requirements

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

- Critical aspects of assessment:*
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
  - Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
  - Currency of first aid knowledge and skills is to be demonstrated in line with state/territory regulations, legislation and policies, ARC and industry guidelines

- Interdependence of units:*
- Competence in this unit may be assessed individually or with other related competency units, such as:
- Occupational health and safety
  - Risk assessment
  - Emergency procedures

- Access and equity considerations:*
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal

## EVIDENCE GUIDE

and/or Torres Strait Islander clients and communities

*Related units:*

This unit should be assessed either after or in conjunction with achievement of the following related competency unit:

- HLTFA412A Apply advanced first aid

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Workplace first aid facility may involve:*

- First aid room/clinic
- First aid kits suited to specific workplace needs
- First aid equipment and resources
- Availability of personnel trained to provide first aid

*Workplace first aid management must take into account:*

- Workplace policies and procedures
- Industry/site specific regulations, codes
- Workplace WHS requirements
- State and territory workplace health and safety legislative requirements

*Workplace and legislative requirements for a first aid facility include:*

- State/territory regulations, legislation and policies
- Specific industry requirements, regulations and/or WHS issues
- Specific hazards present in the workplace
- Number of employees in the workplace
- Number of different workplace sites/locations
- Proximity to local services, including doctors,

**RANGE STATEMENT**

hospital, ambulance and other emergency services

*First aid resources may include but are not limited to:*

**Non-consumables:**

- Equipment, such as:
  - oxygen resuscitation/cylinders
  - AED
  - thermometers
  - auto-injectors
  - back boards
  - stretchers
  - soft bag resuscitator
  - first aid kit
  - casualty's medication
  - analgesic inhalers
  - analgesic gas equipment
  - resuscitation mask or barrier
  - spacer device
  - cervical collars
  - Personal Protective Equipment
- Relevant texts and documentation, such as:
  - Australian Resuscitation Council Guidelines
  - first aid principles, policies and procedures
  - reference materials including SDSs, relevant Occupational Health and Safety Act and Regulations
  - first aid code of practice/compliance codes
  - workplace records and blanks
- Communication systems and equipment

*First aid resources may include but are not limited to:*

**Consumables:**

- First aid kits, including bandages, tape, scissors, splinter removers, antiseptic, eye management, disinfectants, resuscitation masks, emergency numbers and contacts, etc
- Dressings
- Ointments
- Cold packs

**RANGE STATEMENT**

- Analgesics
- Splints
- Sharps disposal
- Bio-hazardous waste bags/bins
- Medical grade oxygen
- Bandages
- Medication
- Personal protective equipment
- Eye wash
- Disinfectants
- Bronchodilators

*Workplace hazards and risks may include:*

- Hazards associated with workplace equipment, machinery, substances and processes
- Environmental risks
- Risks associated with first aid response involving:
  - first aid equipment (oxygen cylinders, AED)
  - exposure to blood and other body substances
  - risk of further injury to the casualty
  - risks associated with the proximity of other workers and bystanders

*First aid bodies and professional organisations may include:*

- Australian Resuscitation Council (ARC)
- Support Groups
- Registered Providers/Authorities
- Emergency services

*First aid management skills must include:*

- Administration of analgesic gases in accordance with ARC Guidelines, state/territory regulations, legislation and policies and industry requirements
- CPR
- Infection control
- AED (where available)

*First aid management must account for:*

- Location and nature of the workplace
- Environmental conditions e.g. electricity, biological risks, weather, motor vehicle accidents
- Location of emergency services personnel

**RANGE STATEMENT**

- Number of casualties and potential casualties
- Use and availability of first aid equipment, resources and pharmaceuticals
- Types of dangers/risks to the casualty and any others in the vicinity of the situation
- Confined spaces, subject to industry need

*Documentation may include:*

- Incident/injury reports
- Casualty history forms
- Disease notification
- Workcover forms
- Medication registers
- Workers' compensation
- Day book
- Pre-participation records (sport)
- Medical histories
- Management records
- Stock records
- Infection control records
- Training records
- First aid risk assessment

**Unit Sector(s)**

# HLTGM202B Use hand and power tools

## Modification History

## Unit Descriptor

This unit of competency describes the skills and knowledge required to safely and appropriately use hand and power tools while conducting maintenance and construction tasks

## Application of the Unit

Work will usually be performed within a prescribed range of functions involving known routines and procedures

## Licensing/Regulatory Information

## Pre-Requisites

## Employability Skills Information

The required outcomes described in this unit of competency contain applicable facets of Employability Skills

The Employability Skills Summary of the qualification in which this unit of competency is packaged will assist in identifying Employability Skill requirements

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### Elements and Performance Criteria

| Element                                           | Performance Criteria                                                                                                                                                    |
|---------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 Identify and select <b>hand and power tools</b> | 1.1 Identify and follow the occupational health and safety requirements for using hand and power tools<br>1.2 Select, correctly fit and use appropriate <b>personal</b> |

**protective equipment**

- 1.3 Select hand and power tools consistent with the needs of the task
- 1.4 Check tools for serviceability and safety and report any faults to supervisor
- 1.5 Identify power supply
- 1.6 Select equipment needed to hold or support power tool application
- 2 Use hand tools
  - 2.1 Locate and hold in place material needed for hand tool application
  - 2.2 Use hand tools safely and effectively
  - 2.3 Safely locate hand tools when not in immediate use
- 3 Use power tools
  - 3.1 Locate and hold in place material needed for power tool application
  - 3.2 Use power tools safely and effectively
  - 3.3 Safely locate power tools when not in immediate use
- 4 Clean up
  - 4.1 Clean, maintain and store tools correctly and according to organisation requirements
  - 4.2 Clean, visually check and store power leads/hoses
  - 4.3 Clean and store equipment
  - 4.4 Clear the work area and remove waste

**Required Skills and Knowledge**

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

Functions and use of hand and power tools

Operating procedures

Safety requirements for tool operation

**Essential skills:**

Ability to:

Demonstrate work safely to instructions

Apply appropriate hand-eye coordination in the use of tools

Select appropriate tool for intended task and materials involved

Handle/hold materials during operation of tools

Communicate with others in relation to work to be undertaken and potential workplace disruption

Follow infection control practices

Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility

Apply problem solving skills - the ability to use available resources and prioritise workload

**Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate this competency unit:**

Consistency of performance should be demonstrated over the required range of workplace situations

Ability to work safely, and follow the organisation's occupational health and safety practices

Relevant knowledge of the tools required to be used in performing maintenance work on

the organisation's buildings, plant, equipment and machinery

Ability to identify boundaries of role and when to refer problems to a tradesperson in relation to the use of tools

Demonstrate compliance with occupational health and safety regulations applicable to the use of tools

Apply correct operating procedures for the use of tools

Interactively communicate with others in relation to the use of power tools

**Context of and specific resources for assessment:**

Assessment should replicate workplace conditions as far as possible

Simulations may be used to represent workplace conditions as closely as possible

Where, for reasons of safety, access to equipment and resources and space, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible

Resources essential for assessment include:

Workplace health and safety policies

Hand and power tools appropriate to the maintenance tasks in the organisation and to the worker's role

Suitable work area

Maintenance policy and procedures

Tool handling manuals

Job description

**Method of assessment**

Observation in the work place (if possible)

Written assignments/projects

Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice

## Questioning

### Access and equity considerations:

All workers in the health industry should be aware of access and equity issues in relation to their own area of work

All workers should develop their ability to work in a culturally diverse environment

In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people

Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### Hand tools may include, but are not limited to:

Adjustable spanners  
Bars (crow and pinch)  
Bolt cutters  
Brooms  
Chisels

Hacksaws and handsaws

Hammers

Measuring tapes

Nips

Picks/mattocks

Pliers

Sealant gun

Shovel/spades

Sledge hammers

Spanners and wrenches

Spirit level

Straight edge

String lines

Trowels and float

Wire cutters

Paint brushes/rollers

Spatula/putty knives

Screwdrivers

**Power tools include but are not limited to:**

Drills

Nail guns

Staplers

Sanders

Angle grinders

Pneumatic wrenches

Circular saw

Jig saws

Planers

Routers

Jackhammer

Other tools powered by compressed air or electricity

**Personal protective equipment may include, but is not limited to:**

Overalls, boots  
Hard hat/cap  
Safety glasses/goggles  
Gloves  
Ear plugs/muff  
Face mask/respirator

**Unit Sector(s)**

# HLTGM305B Maintain pool environments

## Modification History

## Unit Descriptor

This unit of competency describes the skills and knowledge required to monitor and maintain the water quality in pools and spas

This unit of competency applies to health facilities with pools and spas

## Application of the Unit

Work performed requires a range of well developed skills where some discretion and judgement is required. Individuals will take responsibility for their own outputs and may participate in work teams

## Licensing/Regulatory Information

## Pre-Requisites

## Employability Skills Information

The required outcomes described in this unit of competency contain applicable facets of Employability Skills

The Employability Skills Summary of the qualification in which this unit of competency is packaged will assist in identifying Employability Skill requirements

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### Elements and Performance Criteria

#### Performance Criteria

- |                                     |                                                                                                 |
|-------------------------------------|-------------------------------------------------------------------------------------------------|
| 1 Monitor <b>pool water quality</b> | 1.1 Carry out routine regular water testing according to organisation procedures and regulatory |
|-------------------------------------|-------------------------------------------------------------------------------------------------|

- requirements
- 1.2 Test water for pH level, total alkalinity and chlorine levels
- 1.3 Visually check water quality regularly and initiate corrective action
- 1.4 Accurately read levels and compare with prescribed levels
- 1.5 Identify special problems and report to the appropriate person(s)
- 2 Observe **state and local government health requirements**
  - 2.1 Conduct pool monitoring according to state and local health requirements
  - 2.2 Complete and maintain records according to state and local health requirements and organisation reporting procedures
- 3 Action water problems
  - 3.1 Accurately diagnose special water quality problems and determine treatment
  - 3.2 Identify problem requiring specialist assistance and notify the appropriate person(s)
- 4 Ensure safe use of chemicals
  - 4.1 Identify chemical to-up requirements and carefully measure
  - 4.2 Distribute chemicals to pools at correct time and in correct quantities according to organisation procedures
  - 4.3 Lift and carry chemicals using correct lifting techniques and appropriate equipment
  - 4.4 Identify and handle hazardous chemicals according to OHS guidelines
  - 4.5 Wear appropriate protective clothing when handling chemicals
- 5 Test discharge
  - 5.1 Test the discharge to be drained off to ensure compliance with local government and environmental legislation
  - 5.2 Record pool water treatments and corrective action according to organisation specifications and promptly report to the appropriate person(s)

- |   |                       |                                                                                                                                                                                   |
|---|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6 | Monitor water volumes | 6.1 Regularly test water volumes to ensure that damage to the filtration systems is avoided and pump efficiency is maintained                                                     |
| 7 | Maintain equipment    | 7.1 Conduct testing of pumps and filtration equipment on a regular basis, according to organisation procedures                                                                    |
|   |                       | 7.2 Diagnose faults with plant and equipment and implement action according to organisation procedures                                                                            |
|   |                       | 7.3 Rectify <b>faults and problems</b> requiring routine maintenance                                                                                                              |
|   |                       | 7.4 Carry out preventative maintenance of plant and equipment for the long term protection of assets according to organisation procedures and supplier/manufacture specifications |
|   |                       | 7.5 Identify problems requiring specialist assistance and notify the appropriate person(s)                                                                                        |
| 8 | Monitor w             | 8.1 Conduct regular cleaning according to organisation procedures                                                                                                                 |

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### Essential knowledge:

Relevant organisation policy and procedures and equipment safety requirements, including OHS

Types and purpose of pool chemicals and treatments

Hand tools and equipment

Materials relevant to pool maintenance

Safe materials handling procedures

## Measurement and chemical calculation requirements

### Essential skills:

Ability to:

Work safely to instructions

Use hand tools

Safely handle materials and chemicals

Address measurement and chemical calculation requirements

Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility

Apply problem solving skills - the ability to use available resources and prioritise workload

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

### Critical aspects for assessment and evidence required to demonstrate this competency unit:

Observation of workplace performance is essential for assessment of this unit

Consistency of performance should be demonstrated over the required range of workplace situations

Demonstration of the safe and effective preparation of chemicals and materials for the process used to maintain pool environments

Compliance with OHS regulations applicable to workplace operations

Compliance with organisation policies and procedures including quality assurance requirements

Tools, plant and equipment used safely and

effectively

**Context of and specific resources for assessment:**

Assessment should replicate workplace conditions as far as possible

Simulations may be used to represent workplace conditions as closely as possible

Where, for reasons of safety, access to equipment and resources and space, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible

Resources essential for assessment include:

General materials relevant to pool maintenance process

Hand tools and power tools appropriate to pool maintenance process

Plant and equipment appropriate to pool maintenance

Suitable work area appropriate to pool maintenance

Material safety data sheets on all chemicals used in the pool maintenance process

Workplace health and safety policies

Job description

**Method of assessment**

Observation in the work place (if possible)

Written assignments/projects

Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice

Questioning

Role play simulation

**Access and equity considerations:**

All workers in the health industry should be aware of access and equity issues in relation

to their own area of work

All workers should develop their ability to work in a culturally diverse environment

In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people

Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Pools include all types which may be found in rehabilitation, community health, hospital, obstetric facilities:**

Swimming pools

Hydrotherapy pools

Spas

Decorative pools and fountains

Animal pools

**State and local government requirements may include:**

Environmental protection agency guidelines

Local council regulations

**Testing may include:**

Chemical testing  
Probes  
Electronic metres

**Equipment may include:**

Pumps  
Filtration equipment  
Plant equipment  
Automatic pool cleaners

**Pool water quality refers to:**

Levels of water treatment and chemical balance governed by local health regulations for the treatment of public swimming pool water

**Faults and problems requiring routine maintenance may include:**

Minor plumbing  
Removing and repairing underwater light  
Dredging  
Cleaning may be either manual and/or automatic

**Cleaning may include:**

Removing debris and leaves  
Vacuuming

**Unit Sector(s)**

## PSPREG401C Exercise regulatory powers

### Modification History

| Release | TP Version | Comments                                |
|---------|------------|-----------------------------------------|
| 3       | PSP12V1    | Unit descriptor edited.                 |
| 2       | PSP04V4.2. | Layout adjusted. No changes to content. |
| 1       | PSP04V4.1  | Primary release.                        |

### Unit Descriptor

This unit covers the exercise of powers under the organisation's enabling legislation, and other relevant legislation for regulation, monitoring, inspection and investigation. It includes establishing regulatory powers, applying enabling legislation, utilising other legislation and standards, and working with other organisations.

In practice, exercising regulatory powers occurs in the context of other specialist and generalist public sector work activities such as acting ethically, promoting client compliance, assessing compliance, conducting investigations, making arrests, conducting search and seizure, interviewing, gathering evidence, etc.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Application of the Unit

Not applicable.

### Licensing/Regulatory Information

Not applicable.

### Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in ***bold italics*** is explained in the Range Statement following.

## Elements and Performance Criteria

| ELEMENT                                    | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Establish regulatory powers             | <p>1.1 Current information relating to enabling <b><i>legislation</i></b> and regulations is accessed and used to maintain up-to-date knowledge of requirements.</p> <p>1.2 Powers provided under the legislation and the boundaries of those powers are confirmed.</p> <p>1.3 Compliance requirements of the legislation, related regulations, standards, codes of practice and policy are identified and confirmed.</p> <p>1.4 Acts and omissions that comprise non-compliance/offences under the legislation are identified and confirmed.</p>                                                                                                                                                                                                                                                              |
| 2. Apply enabling legislation              | <p>2.1 Circumstances where regulatory powers will be exercised are identified and analysed to determine <b><i>response/s or measures</i></b> to apply, in accordance with the legislation and organisational policy and procedures.</p> <p>2.2 Circumstances requiring the exercise of regulatory powers that are outside own limits are identified and referral to others is made in accordance with organisational policy and procedures.</p> <p>2.3 <b><i>Risks associated with the exercise of regulatory powers</i></b> are identified and strategies to manage risks are identified in accordance with the organisation's risk management strategy.</p> <p>2.4 Enabling legislation is applied consistent with the boundaries and powers contained therein and organisational policy and procedures.</p> |
| 3. Utilise other legislation and standards | <p>3.1 <b><i>Other legislation</i></b> and <b><i>standards</i></b> which impact on powers are identified and their requirements confirmed.</p> <p>3.2 Apparently conflicting legislative directions are resolved or referred in accordance with organisational policy and procedures.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

**ELEMENT****PERFORMANCE CRITERIA****4. Work with other organisations**

- 4.1 Organisations that have jurisdictions which may overlap are identified and **relationships** are established and maintained in accordance with organisational policy and procedures.
- 4.2 Organisations available to provide assistance and advice or take referrals are identified and relationships are established for mutual benefit.
- 4.3 Organisational protocols and procedures are followed when working with **other organisations**.
- 4.4 Compliance matters are referred to other organisations for action when required in accordance with organisational policy and procedures.
- 4.5 Lead agency protocols/lines of authority are followed during operations involving more than one organisation.

**Required Skills and Knowledge**

This section describes the essential skills and knowledge and their level, required for this unit.

**Skill requirements**

Look for evidence that confirms skills in:

- undertaking research and analysis
- using information technology to access relevant legislation and procedures
- reading complex written materials such as legislation, regulations, codes of practice and legal precedents and applying them to work practices
- using scanning techniques to locate main ideas in legislation, guidelines and policy documents
- engaging in discussion involving exchanges of often complex oral information
- communicating with a range of people from diverse backgrounds
- responding to diversity, including gender and disability
- choosing regulatory responses/measures to fit the circumstances and justifying those responses against legislation, guidelines, policy and regulations
- networking, building relationships and working with others
- applying occupational health and safety and environment procedures relating to the exercise of regulatory powers

**Knowledge requirements**

Look for evidence that confirms knowledge and understanding of:

- full range of regulatory powers and the limits to those powers
- enabling legislation
- offences under the legislation
- aspects of criminal law, administrative law, industrial law, contract law
- statutory time limits
- applicable standards
- terminology used in legislation and procedures
- organisational policies, guidelines and regulations
- equity and diversity principles
- public sector legislation such as occupational health and safety and environment relating to the exercise of regulatory powers

## Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

### Units to be assessed together

- *Pre-requisite* units that must be achieved prior to this unit: *Nil*
- *Co-requisite* units that must be assessed with this unit: *Nil*
- *Co-assessed units* that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPCART401B Carry out court orderly functions
  - PSPCART402B Manage witnesses
  - PSPCART403B Handle exhibits and documents tendered
  - PSPCART404B Serve process
  - PSPCART405B Handle monies received in satisfaction of warrants or orders
  - PSPCART406B Compile and use official notes
  - PSPETHC401A Uphold and support the values and principles of public service
  - PSPGOV422A Apply government processes
  - PSPLEGN401A Encourage compliance with legislation in the public sector
  - PSPREG402C Promote client compliance
  - PSPREG403B Assess compliance
  - PSPREG404C Investigate non-compliance
  - PSPREG405B Act on non-compliance

- PSPREG406C Make arrests
- PSPREG407B Produce formal record of interview
- PSPREG408C Conduct search and seizure
- PSPREG409B Prepare a brief of evidence
- PSPREG411A Gather information through interviews

### **Overview of evidence requirements**

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- the exercise of regulatory powers in a range of (3 or more) contexts (or occasions, over time)

### **Resources required to carry out assessment**

These resources include:

- legislation, regulations, policy, guidelines and standards
- public sector values and codes of conduct
- case studies and workplace scenarios to capture the range of regulatory situations likely to be encountered

### **Where and how to assess evidence**

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when exercising regulatory powers, including coping with difficulties, irregularities and breakdowns in routine
- the exercise of regulatory powers in a range of (3 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular target groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, 2 or more of:

- case studies
- demonstration
- observation
- portfolios
- projects
- questioning
- scenarios
- simulation or role plays
- authenticated evidence from the workplace and/or training courses

**For consistency of assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments

## Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in ***bold italics*** in the Performance Criteria is explained here.

***Legislation*** may include:

- State/Territory and Commonwealth legislation related to:
  - public sector management, financial management
  - auditor general
  - audit, customs and excise, quarantine, fisheries, agriculture, land management, conservation, coastal management, environmental protection, environment, insurance, legal administration (sheriffs, young offenders), workers compensation, occupational safety and health, workplace relations
  - planning, construction, transport, energy, mining, resource management, communications
  - education and children's services, employment, vocational education and training, equal employment opportunity and anti-discrimination

***Regulatory responses or measures*** may include:

- audit
- caution
- clearance
- community protection

|                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|----------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                        | <ul style="list-style-type: none"> <li>• control</li> <li>• encouragement to comply</li> <li>• entry</li> <li>• impoundment</li> <li>• initiation of proceedings that may lead to prosecution</li> <li>• inspection</li> <li>• investigation</li> <li>• issue of notices</li> <li>• on-the-spot fines</li> <li>• possession</li> <li>• referral to another agency/jurisdiction</li> <li>• search</li> <li>• seizure</li> <li>• surveillance</li> <li>• warning</li> </ul> |
| <b><i>Risks associated with the exercise of regulatory powers</i></b> may result from: | <ul style="list-style-type: none"> <li>• workplace hazards</li> <li>• environmental hazards</li> <li>• equipment failure</li> <li>• people engaged in illegal activities</li> <li>• movement into and out of Australia of: <ul style="list-style-type: none"> <li>• aircraft</li> <li>• cargo</li> <li>• people</li> <li>• postal articles</li> <li>• vessels</li> </ul> </li> <li>• client cultural background</li> <li>• client literacy levels</li> </ul>              |

| <b><i>Standards</i></b> may include:                                                   | <ul style="list-style-type: none"> <li>• public sector standards</li> <li>• government security standards</li> <li>• fraud control standards</li> </ul>                                                                                                                                                                                                                                                                                                                   |
| <b><i>Relationships</i></b> may include:                                               | <ul style="list-style-type: none"> <li>• informal</li> <li>• formal</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                            |

**Other organisations** may include:

- memoranda of understanding (MOUs)
- administrative appeals tribunals
- Coroner's office
- emergency services
- federal police
- fire and rescue

### Unit Descriptor

This unit covers identification of possible non-compliance and recommendations for ensuing action. It includes initiating a preliminary investigation to confirm non-compliance, and planning, conducting and finalising the investigation.

In practice, investigating non-compliance may overlap with other generalist or specialist public sector work activities such as acting ethically, exercising regulatory powers, acting on non-compliance, conducting formal records of interview, gathering and managing evidence.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Application of the Unit

Not applicable.

### Licensing/Regulatory Information

Not applicable.

### Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in ***bold italics*** is explained in the Range Statement following.

## Elements and Performance Criteria

| ELEMENT                                                                | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| 1. <b>Initiate preliminary investigation to confirm non-compliance</b> | <p>1.1 Information is assessed in terms of its accuracy and against legislative requirements to confirm likely non-compliance.</p> <p>1.2 Information is tested against the legislation to confirm whether the possible breach falls within jurisdiction.</p> <p>1.3 Importance/urgency of the matter is assessed and the priority is allocated to enable timely and effective action.</p> <p>1.4 Documentation to commence investigation of alleged breach is initiated and meets legislative and organisational requirements.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 2. <b>Plan investigation</b>                                           | <p>2.1 Objectives of the investigation are determined and <b><i>resources</i></b> to conduct the investigation are determined and obtained in accordance with organisational policy and procedures.</p> <p>2.2 Risks associated with the investigation are identified and planned for, including sensitivities that might affect the organisation.</p> <p>2.3 <b><i>Methods</i></b> to achieve the investigation's objectives are selected and authorised in accordance with <b><i>legislation, policies and guidelines</i></b>.</p> <p>2.4 Timelines are identified and tasks prioritised to inform the sequence of activities and provide for future review of the investigation process.</p> <p>2.5 Communication and case management requirements are confirmed and initiated in accordance with organisational policy and procedures.</p> <p>2.6 Investigation <b><i>planning</i></b> and recording is conducted in accordance with legislative requirements and organisational policy and procedures.</p> |
| 3. <b>Conduct investigation</b>                                        | <p>3.1 Subjects and suspects involved in the possible breach are identified and details are recorded in accordance with legislative</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

**ELEMENT****PERFORMANCE CRITERIA**

|                                  |                                                                                                                                                                                        |
|----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                  | requirements and organisational policy and procedures.                                                                                                                                 |
|                                  | 3.2 Information relevant to the investigation is collected and analysed in accordance with legislative requirements, rules of evidence and organisational policy and procedures.       |
|                                  | 3.3 <b>Exhibits</b> are processed and managed in accordance with legislative requirements, rules of evidence and organisational policy and procedures.                                 |
|                                  | 3.4 Likely defences are anticipated and evidence to counter them is included.                                                                                                          |
|                                  | 3.5 The need for <b>expert assistance</b> is determined and arranged in accordance with organisational procedures.                                                                     |
| <b>4. Finalise investigation</b> | 4.1 If no breach has occurred or no action is to be taken, documentation includes reasons and justification, and is completed in accordance with organisational policy and procedures. |
|                                  | 4.2 If breach is confirmed, appropriate, timely <b>action</b> is <b>recommended</b> within the officer's discretion under the legislation and organisational policy and procedures.    |
|                                  | 4.3 A record of the investigation and consequent recommendations for action are prepared and submitted in accordance with legislative and organisational requirements.                 |

## Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

### Skill requirements

Look for evidence that confirms skills in:

- acting ethically
- applying legislation, regulations and codes of practice
- using process mapping
- undertaking research, analysis and problem solving in the context of investigating non-compliance
- reading and applying complex information from legislation
- communicating including questioning and negotiating meaning in sometimes difficult situations
- responding to diversity, including gender and disability
- using planning and time management in the context of investigations
- preparing written reports and recommendations requiring accuracy and formal

structures and language

- using information technology for data analysis, recording and reporting
- applying public sector legislation such as occupational health and safety and environmental procedures in the context of investigation

### Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- investigation methodology and techniques
- rules and types of evidence
- storage and continuity of evidence
- applicable legislation
- aspects of criminal, civil or administrative law
- jurisdiction, powers and restrictions to investigate
- organisational policy and procedures
- cultural awareness
- confidentiality and privacy issues
- procedures re lines of reporting
- report procedures which provide a written and/or electronic audit trail
- public sector legislation such as occupational health and safety and environment relating to investigations

## Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

### Units to be assessed together

- *Pre-requisite* units that must be achieved prior to this unit: *Nil*
- *Co-requisite* units that must be assessed with this unit: *Nil*
- *Co-assessed units* that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC401A Uphold and support the values and principles of public service
  - PSPGOV406B Gather and analyse information
  - PSPGOV408A Value diversity
  - PSPGOV422A Apply government processes
  - PSPLEGN401A Encourage compliance with legislation in the public sector

- PSPREG401C Exercise regulatory powers
- PSPREG407B Produce formal record of interview
- PSPREG412A Gather and manage evidence

### **Overview of evidence requirements**

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- investigation of non-compliance in a range of (3 or more) contexts (or occasions, over time)

### **Resources required to carry out assessment**

These resources include:

- legislation, regulations, policy, guidelines and standards
- public sector values and codes of conduct
- case studies and workplace scenarios to capture the range of investigation situations likely to be encountered

### **Where and how to assess evidence**

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when investigating non-compliance, including coping with difficulties, irregularities and breakdowns in routine
- investigation of non-compliance in a range of (3 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios

- questioning
- scenarios
- authenticated evidence from the workplace and/or training courses

**For consistency of assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments

## Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in ***bold italics*** in the Performance Criteria is explained here.

***Resources*** may include:

- human, physical and financial and may include other agencies, such as:
  - other police organisations
  - National Crime Authority
  - Criminal Justice Commission/s
  - other government departments/agencies
  - non-government agencies such as financial institutions and insurance companies

***Investigation methods*** may include:

- forensic examination/analysis
- informants/informers
- listening devices and other covert surveillance techniques
- search and search warrants
- computer interrogation/data retrieval
- door knocks
- using other sources of information, such as the media

***Legislation, policies and guidelines*** may include:

- enabling legislation
- confidentiality
- privacy
- criminal, civil or administrative law
- contract law
- equal employment opportunity and anti-discrimination law
- disciplinary procedures
- government policy

***Investigation planning***  
may include:

- organisational guidelines
- regulatory standards
- codes of practice
- international treaties (equal employment opportunity, world heritage)
- objectives
- methods
- risks
- timelines
- resources
- activities
- communication
- case management
- evidentiary elements of the offence

***Exhibits*** may include:

- the individual items of evidence that could be presented to a court and may be required for viewing by:
- judicial officers
- prosecutors
- defence counsel
- expert and non-expert witnesses
- those required for audit purposes

***Expert assistance*** may  
include:

- advice on/assistance with evidentiary matters
- audit matters
- data analysis
- document examination
- execution of search warrants
- fingerprinting
- forensic
- handwriting
- legal advice - director of public prosecutions, government solicitor
- photography
- recovery issues
- scientific or technical matters
- surveillance

***Recommended action***  
may include:

- measures to control/contain breach
- warning
- caution
- notice

- fine
- arrest
- criminal prosecution
- civil action
- debt recovery strategy
- no action (must specify criteria for use of no action):
  - used where investigation identifies no offence or a relevant defence is raised
  - also used when exercising prosecutorial discretion

## **Unit Sector(s)**

Not applicable.

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in ***bold italics*** is explained in the Range Statement following.

## Elements and Performance Criteria

| ELEMENT                              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|--------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Prepare for proceedings           | <p>1.1 <b><i>Arrangements for, role and involvement in proceedings</i></b> are confirmed.</p> <p>1.2 <b><i>Documentation and exhibits</i></b> are prepared in accordance with <b><i>legislation, policy and procedures</i></b>.</p> <p>1.3 Any <b><i>witnesses</i></b> are supported as required, in accordance with organisational policy and procedures, to attend proceedings and give evidence.</p>                                                                                                                                                                                                                                                                                                                                                               |
| 2. Present evidence                  | <p>2.1 <b><i>Protocols and rules of evidence</i></b> relevant to the setting and the organisation involved are adhered to throughout proceedings.</p> <p>2.2 Feedback from counsel and/or police and comments by <b><i>deciding authority</i></b> are noted and incorporated.</p> <p>2.3 <b><i>Evidence</i></b> is presented in a clear, concise and articulate manner in accordance with organisational standards.</p> <p>2.4 Quality and <b><i>standard of evidence and presentation</i></b> enhance the reputation and image of the organisation with the public, legal profession and colleagues.</p> <p>2.5 Considered expert evidence is provided on request in accordance with the organisation's policy and consistent with qualifications and expertise.</p> |
| 3. Follow up outcomes of proceedings | <p>3.1 The outcomes of the proceedings are noted and filed, and reports are completed where required according to organisational requirements.</p> <p>3.2 Any <b><i>required actions</i></b> are implemented in accordance with organisational policies and procedures.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

### Skill requirements

Look for evidence that confirms skills in:

- presenting evidence clearly and concisely
- writing reports
- word processing
- taking notes
- communicating with people from diverse backgrounds
- responding to diversity, including gender and disability
- making comparisons and exercising judgment about facts in written materials
- report writing using formal structures and language
- applying public sector standards and legislation such as occupational health and safety and environment in the context of giving evidence

### Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- court prosecution processes
- common law versus judicial precedent versus legislation
- specific powers of the organisation
- court/tribunal/commission structures
- jurisdiction of each court/tribunal/commission
- appeals systems
- role of legal personnel in judicial or quasi-judicial systems
- procedures and protocols in different judicial or quasi-judicial systems
- types of offences
- general principles of criminal liability
- exemptions and defences
- types of evidence admissible in judicial or quasi-judicial systems
- legislative requirements of presenting evidence
- use of notes in court/tribunal/commission
- organisation policies and procedures relating to preparation of documents and evidence and providing expert opinion
- public sector legislation such as occupational health and safety and environment relating to the presentation of evidence

## Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

### Units to be assessed together

- *Pre-requisite* units that must be achieved prior to this unit: *Nil*
- *Co-requisite* units that must be assessed with this unit: *Nil*
- *Co-assessed units* that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC401A Uphold and support the values and principles of public service
  - PSPLEGN401A Encourage compliance with legislation in the public sector
  - PSPGOV408A Value diversity
  - PSPGOV419A Work with interpreters
  - PSPGOV422A Apply government processes
  - PSPREG401C Exercise regulatory powers

### Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- giving evidence in a range of (3 or more) contexts (or occasions, over time)

### Resources required to carry out assessment

These resources include:

- legislation, policy, procedures and protocols relating to presentation of evidence
- case studies and workplace scenarios to capture the range of likely offences for which evidence needs to be presented

### Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when giving evidence, including coping with difficulties, irregularities and breakdowns in routine
- giving evidence in a range of (3 or more) contexts (or

occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- demonstration
- observation
- questioning
- scenarios
- simulation or role plays
- authenticated evidence from the workplace and/or training courses

**For consistency of assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments

## Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in ***bold italics*** in the Performance Criteria is explained here.

***Arrangements for, role and involvement*** may include:

- confirmation of time, date and location of proceedings
- confirmation of evidence required to be presented
- working with/briefing legal counsel

***Proceedings*** may include:

- criminal, coronial and civil courts
- defence tribunals

|                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                 |

### Unit Descriptor

This unit covers management of regulatory compliance - a management role with responsibility for regulatory officers who enforce and promote compliance with legislation. It includes interpreting and advising on enabling and related legislation; developing and implementing strategies to promote long-term voluntary compliance and develop a culture of compliance in the community; and providing strategic advice on compliance matters.

In practice, managing regulatory compliance may overlap with other public sector work activities such as managing ethical behaviour; managing diversity, risk, resources; persuading and influencing opinion.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Application of the Unit

Not applicable.

### Licensing/Regulatory Information

Not applicable.

### Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

### Elements and Performance Criteria Pre-Content

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in ***bold italics*** is explained in the Range Statement following.

### Elements and Performance Criteria

| ELEMENT                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Interpret and advise on enabling and related legislation | <p>1.1 Non-routine or <b><i>complex matters</i></b> related to enabling and related <b><i>legislation</i></b> are resolved or referred in accordance with organisational procedures.</p> <p>1.2 Advice is provided to clients and staff that is timely, consistent and constructive, and within level of authority.</p> <p>1.3 Feedback is obtained on client level of understanding, and additional information or explanation is provided to clarify issues.</p> <p>1.4 Staff understanding of legislation and procedures is monitored and action to address professional development needs is timely and in accordance with organisational procedures.</p> |
| 2. Develop and implement compliance strategies              | <p>2.1 <b><i>Strategies</i></b> and <b><i>measures</i></b> to influence long-term voluntary compliance are identified and implemented to suit the audience and the context.</p> <p>2.2 Information that is current and promotes the benefits of compliance is provided to clients.</p> <p>2.3 Strategies are developed in accordance with government and organisational policy and practice.</p> <p>2.4 Information and strategies are adjusted in response to feedback gathered from a range of stakeholders.</p>                                                                                                                                            |
| 3. Provide strategic advice on compliance matters           | <p>3.1 Client/government information requirements are confirmed.</p> <p>3.2 Advice is provided based on current information and meets the specific needs of clients in its range, depth and form of presentation.</p> <p>3.3 Presentation standards are maintained in accordance with organisational guidelines.</p> <p>3.4 Feedback is obtained on how well the advice/information suits its purpose and audience, and is used to recommend further</p>                                                                                                                                                                                                      |

**ELEMENT****PERFORMANCE CRITERIA**

action.

## Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

### Skill requirements

Look for evidence that confirms skills in:

- undertaking planning and information analysis
- engaging in mentoring and coaching
- interpreting complex written materials
- preparing written reports requiring formal structure and language
- providing oral advice to a range of audiences requiring adaptation of style and language
- using active listening and questioning to confirm understanding
- responding to diversity, including gender and disability
- applying occupational health and safety and environment legislation in the context of regulatory compliance management

### Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- enabling legislation
- aspects of common law
- strategic management of regulatory compliance
- equal employment opportunity, equity and diversity principles
- organisational reporting procedures
- public sector policy and legislation including occupational health and safety and environment relating to the management of regulatory compliance

## Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

### Units to be assessed

- *Pre-requisite* units that must be achieved prior to this

**together**unit:*Nil*

- *Co-requisite* units that must be assessed with this unit:*Nil*
- *Co-assessed units* that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC601B Maintain and enhance confidence in public service
  - PSPGOV601B Apply government systems
  - PSPLEGN601B Manage compliance with legislation in the public sector
  - PSPMNGT602B Manage resources
  - PSPMNGT605B Manage diversity
  - PSPMNGT608B Manage risk
  - PSPPOL603A Manage policy implementation
  - PSPREG602B Evaluate regulatory compliance

**Overview of evidence requirements**

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- management of regulatory compliance in a range of (3 or more) contexts (or occasions over time)

**Resources required to carry out assessment**

These resources include:

- legislation, policy, procedures and protocols relating to regulatory compliance in the public sector
- enabling legislation
- relevant aspects of common law
- case studies and workplace scenarios to capture the range of situations likely to be encountered when managing regulatory compliance

**Where and how to assess evidence**

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when managing regulatory compliance, including coping with difficulties, irregularities and breakdowns in routine
- management of regulatory compliance in a range of (3 or more) contexts (or occasions over time)

Assessment methods should reflect workplace demands, such as

literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- projects
- questioning
- scenarios
- authenticated evidence from the workplace and/or training courses

**For consistency of assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments

## Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in ***bold italics*** in the Performance Criteria is explained here.

***Complex matters*** may include:

- conflicting legislation
- unclear or ambiguous guidelines
- use of legal precedents
- regional or national issues
- issues not previously encountered
- 'red herring' issues

***Legislation*** may include:

- enabling legislation, such as that dealing with:
- audit, customs and excise, quarantine, fisheries, agriculture,

land management, conservation, coastal management, environmental protection, environment, insurance, legal administration (sheriffs, young offenders), workers compensation, occupational safety and health, workplace relations

- public sector management, financial management
- auditor general
- planning, construction, transport, energy, mining, resource management, communications
- family services, employment, equal employment opportunity and anti-discrimination
- aspects of common law
- contract law
- administrative law
- equal employment opportunity and anti-discrimination law

**Strategies** may include:

- public education campaigns
- culture change programs
- redesign of organisational documents
- incentive programs
- web site
- help desk
- staff training
- policy changes
- awareness-raising consultations with client groups

**Measures** may include:

- evaluation criteria against strategic goals/targets/required policy outcomes
- quantitative, such as:
  - reported injuries/deaths, workers compensation claims and premiums (workplace safety)
  - illegal imports (customs)
  - exotic diseases (quarantine)
  - amount of land affected by salinity (land management)
- qualitative, such as:
  - client satisfaction (relevant to all regulatory areas)

# PUACOM001C Communicate in the workplace

## Modification History

PUACOM001C Release 2: Layout adjusted. Application added.

PUACOM001C Release 1: Primary release.

## Unit Descriptor

This unit covers the competency for interacting with people internally and externally through verbal, nonverbal and written communications in the workplace and the ability to follow verbal and written workplace instructions.

## Application of the Unit

This unit applies to all workers, but has a specific focus on the communication skills required by entry level workers with public safety organisations and other safety roles.

## Licensing/Regulatory Information

Not applicable.

## Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency.

Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.

## Elements and Performance Criteria

| ELEMENT                                                                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                     |
|-------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Communicate verbally                                                 | <p>1.1 Language used in all communications is clear concise and appropriate to client, assignment and organisation's requirements.</p> <p>1.2 Active listening skills and questioning techniques are used to clarify issues.</p> <p>1.3 Established <b>communication</b> pathways are used for routine and non-routine communication.</p>                                                                                                |
| 2. Communicate non verbally                                             | <p>2.1 <b>Non verbal communication</b> is positive, culturally appropriate and tailored to the audience.</p> <p>2.2 Non verbal communication is consistent with verbal communication.</p>                                                                                                                                                                                                                                                |
| 3. Communicate with clients                                             | <p>3.1 Questioning, learning and summarising skills are used to establish <b>client needs</b>.</p> <p>3.2 The needs of <b>clients</b> are addressed in line with organisation's policy and procedures.</p> <p>3.3 Confidentiality is observed in accordance with organisation's policies and procedures.</p>                                                                                                                             |
| 4. Give and receive instructions                                        | <p>4.1 <b>Instructions</b> received are acted upon within an agreed time frame and to meet organisation needs.</p> <p>4.2 Difficulties/problem areas are identified and communicated to the appropriate person in a timely manner.</p> <p>4.3 Clarification of instructions is sought from the appropriate person.</p> <p>4.4 Instructions are relayed clearly, concisely and accurately and confirmation of understanding obtained.</p> |
| 5. Take part in group discussions and informal meetings                 | <p>5.1 Contributions are made in small informal group activities and meetings to facilitate outcomes.</p> <p>5.2 Responses are sought from, and provided to, other group members in a constructive way.</p> <p>5.3 Views and opinions of individuals or a group are understood, acknowledged and accurately represented to others where required.</p>                                                                                    |
| 6. Prepare and process routine written correspondence notes and records | <p>6.1 Information and ideas are presented in a format, language and timeframe to meet organisation's requirements.</p> <p>6.2 Presentation of written documents meets organisation's standards of style and accuracy.</p> <p>6.3 Documents are processed to comply with legislative</p>                                                                                                                                                 |

**ELEMENT****PERFORMANCE CRITERIA**

requirements and organisation's policy and procedures.

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

### Required Skills

- communicate in group setting
- follow written instructions
- give and receive verbal instructions
- interact with clients
- use information technology effectively

### Required Knowledge

- effective non verbal communication techniques
- effective verbal communication techniques
- group communication techniques
- small group dynamics
- written communication skills

## Evidence Guide

### Critical aspects for assessment and evidence required to demonstrate competency in this unit

It is essential for this unit that competence be demonstrated in effectively interacting with clients and communicate verbally and non verbally.

### Consistency in performance

Evidence should be gathered over a period of time in a range of actual or simulated workplace environments.

### Context of and specific resources for assessment

#### Context of assessment

- A combination of oral or written presentations
- observations
- on the job and/or in a simulated workplace environment

#### Specific resources for assessment

No special requirements.

## Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the Performance Criteria is detailed below.

- Clients*** may include:
- external
  - internal
  - representatives of other organisations
  - representatives of non government organisations
  - contractors
  - members of the public
  - persons from culturally and linguistically diverse backgrounds
  - people with hearing/vision impairments

- Instructions*** may include:
- verbal
  - non verbal
  - written and may include requests
  - directions

- Modes of communication*** may include:
- written
  - face to face
  - radio
  - mobile telephone
  - land line telephone
  - facsimile
  - information technology systems
  - signalling systems
  - pamphlets translated in other languages for persons from culturally and linguistically diverse backgrounds
  - Auslan gestures
  - use of interpreters
  - signals
  - visual signalling re vessels
  - helicopter signals
  - fixed plane signals
  - signalling to vessel skipper re anchoring, towing etc

- Client needs*** may include:
- information
  - advice
  - directions
  - assistance

- Workplace** may include:
- office
  - in the field
  - workshop
  - operational area
  - surf or ocean environment
  - blue water coastal areas, barrier reef
  - bars and bar crossings

- Non verbal communication** may include:
- body language
  - gestures and signals

- Routine correspondence** may include:
- brief notes
  - documents
  - number of themes covered in document would be simple and limited

## Unit Sector(s)

Not applicable.

## PUACOM012B Liaise with media at a local level

### Modification History

| Release | TP Version | Comments                            |
|---------|------------|-------------------------------------|
| 3       | PUA12 V2.1 | Editorial changes.                  |
| 2       | PUA12 V2   | Layout adjusted. Application added. |
| 1       | PUA00 V8.1 | Primary release.                    |

### Unit Descriptor

This unit covers the liaison with media at a low level incident and providing information about local events.

### Application of the Unit

This unit applies to workers of local public safety groups who are delegated the responsibility to liaise with media in both emergency and non-emergency situations.

### Licensing/Regulatory Information

Not applicable.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

### Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency.

Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the Range Statement. Assessment of

performance is to be consistent with the Evidence Guide.

## Elements and Performance Criteria

| ELEMENT                             | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Determine media requirements     | <p>1.1 <b>Organisational protocols</b> are followed when <i>liaising with the media</i>.</p> <p>1.2 The media's potential interest is assessed and arrangements are made to meet needs where appropriate.</p> <p>1.3 <b>Operational responsibilities</b> are balanced against the provision of information to the <i>media</i>.</p>                                                                     |
| 2. Provide information to the media | <p>2.1 A positive image of the <b>organisation</b> is maintained when liaising with the media.</p> <p>2.2 Every opportunity is used to promote the organisation, its services and personnel.</p> <p>2.3 <b>Relevant and succinct information</b> is supplied to media when operational responsibilities are under control and when organisational representative is available to talk to the media.</p> |
| 3. Publicise an event               | <p>3.1 Relationship is established with media contacts.</p> <p>3.2 <b>Event</b> details and support materials are gathered and presented in a logical, relevant and concise manner to the media.</p> <p>3.3 Information provided to media is recorded and maintained.</p>                                                                                                                               |

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

### Required Skills

- attention to detail
- communicating facts in a fluent, clear and interesting manner
- empathy with victims and operational personnel
- liaison with media and other organisation personnel
- media presentation
- prioritisation between operational responsibilities and provision of information to

media

- public speaking
- retaining professionalism under duress

### **Required Knowledge**

- organisational protocols relating to media liaison, for example legal and organisation requirements relating to:
  - confidentiality
  - libel
  - accuracy
  - discrimination
- role of media in disseminating information
- requirements of media to present information in a newsworthy/informative manner
- requirements of different media:
  - newspapers
  - magazines
  - radio
  - television (local, regional, national media)
- communication skills
- establishing media relationship

## **Evidence Guide**

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

It is essential for this unit that competence be demonstrated in providing information to media whilst managing operational responsibilities.

### **Consistency in performance**

Evidence should be gathered over a period of time in a range of actual or simulated workplace environments.

### **Context of and specific resources for assessment**

#### **Context of assessment**

On the job or in a simulated work environment.

#### **Specific resources for assessment**

No special requirements.

## Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the Performance Criteria is detailed below.

- Organisation*** may include
- Fire
  - Police
  - State Emergency Service
  - Emergency Management

- Organisational protocols*** may include
- organisational policies and procedures
  - personal presentation being as neat as possible considering the operational circumstances
  - ensuring media liaison person is fully briefed and prepared
  - acknowledge support of other organisations
  - seeking advice from headquarters where appropriate
  - limiting comments on role of own service
  - relevant Federal and State legislation and regulations

- Liaising with the media*** may include
- print (local, community, daily newspapers, magazines)
  - television (live or pre-recorded)
  - radio (live or pre-recorded)

- Operational responsibilities*** may include
- preservation of life and property, which is the principal concern to all public safety personnel
  - presenting information relevant to the public

- Event*** may include
- long service to organisation
  - medal presentation
  - awarding of certificates
  - donations/sponsorships/fundraising
  - recruiting
  - new equipment
  - VIP visit
  - open day
  - training
  - unusual rescues
  - self help information

- Media's potential interest*** may include:
- enormous media event
  - standard report
  - human interest
  - in the public's interest

- Media's requirements*** may include:
- deadlines
  - capabilities

- visual and verbal requirements
- types of medium
- variation
- journalists
- amenities
- briefing area
- access to media liaison person
- bilingual personnel and bilingual information
- Media** may include:
  - representatives from mainstream, community and ethnic television
  - print and broadcast media
- Organisational positive image** may include:
  - promote the relevance and efficiency of the service
  - report the facts
  - heroism of personnel
  - organisational personnel are co-operative and responsive
  - organisational personnel well presented
  - handling media in most positive manner in even the most adverse conditions/circumstances
- Media opportunity** may include:
  - opportunity to promote the services
  - provide educational information to the public
  - airplay
- Relevant and succinct information** may include:
  - information that according to protocol is available for public release
  - report facts and avoid speculation
  - do not supply classified information
  - use language that can be readily understood by all to avoid misinterpretation

## Unit Sector(s)

Not applicable.

## **RTF4007A Prepare a garden design**

### **Modification History**

Not applicable.

### **Unit Descriptor**

This competency standard covers the process of preparing garden designs. It requires the ability to negotiate with clients to develop a garden design brief, provide design solutions, select plants, determine irrigation requirements and oversee garden construction. It requires knowledge of plants, landscape drafting, lawns and soil preparation.

The preparation of a landscape design is likely to be undertaken without supervision. Responsibility for the work of others may be involved. It requires a broad range of horticultural skills and involves the application of underpinning knowledge with depth in some areas such as plant selection, soils, landscape design principles, drafting techniques, and communication skills.

### **Application of the Unit**

Not applicable.

### **Licensing/Regulatory Information**

Not applicable.

### **Pre-Requisites**

Not applicable.

### **Employability Skills Information**

Not applicable.

### **Elements and Performance Criteria Pre-Content**

Not applicable.

### **Elements and Performance Criteria**

#### **Elements and Performance Criteria**

| Element                     | Performance Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 Develop a design brief    | <p>1.1 <b>Client</b> is consulted to establish purpose and requirements of design.</p> <p>1.2 Design brief is developed and agreed in consultation with the client.</p> <p>1.3 Cost structures and timelines are negotiated with the client.</p>                                                                                                                                                                                                                                                                  |
| 2 Undertake a site analysis | <p>2.1 Base plan of site is prepared or obtained from the client or other sources.</p> <p>2.2 <b>Physical elements and features</b> of the site are recorded on the base plan.</p> <p>2.3 Assessment of soil, topography, aspect, existing vegetation and climatic factors are recorded on the site plan.</p> <p>2.4 Functional analysis of the site is completed and recorded on the base plan.</p> <p>2.5 Other relevant data, including scale and north point is determined and recorded on the base plan.</p> |
| 3 Develop a concept design  | <p>3.1 Concept plan is prepared to illustrate the location and layout of proposed site works according to the design brief.</p> <p>3.2 Plant list is compiled of species and varieties suitable for the site according to design brief.</p> <p>3.3 Consultation with the client is undertaken to agree on options and approaches for development.</p> <p>3.4 Consistent graphic style is used to present the concept plan.</p>                                                                                    |
| 4 Produce a final plan      | <p>4.1 Detailed garden design is produced according to the design brief.</p> <p>4.2 Design solutions and graphic representations are applied to a range of garden development situations.</p> <p>4.3 Garden plan is <b>drafted</b> according to enterprise standards.</p>                                                                                                                                                                                                                                         |

- 4.4 Information on the plan is relevant and precise, and clearly communicates development works to be undertaken.
- 4.5 Notes and specifications are included on the plan to assist in plan interpretation.

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

### What evidence is required to demonstrate competence for this standard as a whole?

Competence in this unit requires evidence that garden designs have been successfully developed according to client and industry requirements and standards. The skills and knowledge required to prepare garden designs must be **transferable** to a range of work environments and contexts. For example, this could include different design solutions for a range of commercial or private sites.

### What specific knowledge is needed to achieve the performance criteria?

Knowledge and understanding are essential to apply this standard in the workplace, to transfer the skills to other contexts, and to deal with unplanned events. The knowledge requirements for this unit are listed below:

elements and principles of design

garden design process

plan interpretation

conventional symbols

plant selection

drafting techniques.

### What specific skills are needed to achieve the performance criteria?

To achieve the performance criteria, some complementary skills are required. These skills include the ability to:

negotiate with clients  
undertake a site analysis  
provide garden design solutions  
select plants  
develop concept and/or construction plans  
develop planting schedules and bills of quantity.

### What processes should be applied to this competency standard?

There are a number of processes that are learnt throughout work and life that are required in all jobs. They are fundamental processes and generally transferable to other work functions. Some of these are covered by the **key competencies**, although others may be added. The questions below highlight how these processes are applied in this competency standard. Following each question a number in brackets indicates the level to which the key competency needs to be demonstrated where 0 = not required, 1 = perform the process, 2 = perform and administer the process and 3 = perform, administer and design the process.

- |                                                                                |                                                                                                                        |
|--------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|
| 1. How can <b>communication of ideas and information</b> (2) be applied?       | Communication of ideas and information can be applied through the development of concept and final garden design plans |
| 2. How can <b>information be collected, analysed and organised</b> (2)?        | Information can be collected, analysed and organised at site inspection in field notes.                                |
| 3. How are <b>activities planned and organised</b> (2)?                        | Activities are planned and organised with other members of the team, including clients.                                |
| 4. How can <b>team work</b> (2) be applied?                                    | Through site surveying and measuring in preparing a base plan.                                                         |
| 5. How can the use of <b>mathematical ideas and techniques</b> (2) be applied? | Mathematical ideas and techniques can be applied in drafting concept and final garden design plans                     |
| 6. How can <b>problem-solving skills</b> (3) be applied?                       | Problem-solving skills can be applied when providing design solutions                                                  |
| 7. How can the <b>use of technology</b> (3) be applied?                        | The use of technology can be applied when measuring, drafting, printing and recording design plans.                    |

### Are there other competency standards that could be assessed with this one?

This competency standard **could** be assessed on its own or in combination with other competencies relevant to the job function.

There is essential information about **assessing this competency standard for consistent performance and where and how it may be assessed**, in the Assessment Guidelines for this Training Package. All users of these competency standards must have **access** to the **Assessment Guidelines**. Further advice may also be sought from the relevant **sector booklet**.

## Range Statement

### Range of Variables

The Range of Variables explains the contexts within which the performance and knowledge requirements of this standard may be assessed. The scope of variables chosen in training and assessment requirements may depend on the work situations available

|                                                                            |                                                                                                                                                                                                                                                                                                                                            |
|----------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| What type of <b>clients</b> may be covered by this unit?                   | Clients may include private individuals, organisations, public bodies and community groups.                                                                                                                                                                                                                                                |
| What <b>physical elements and features</b> may be included on a base plan? | Physical elements and features included in a design include proposed or existing structures, buildings, watercourses, irrigation and/or drainage systems, roads and paths, existing plants, topographic features, views and outlooks, climate and weather conditions, soils characteristics, access to site and existing site use details. |
| What may be covered by a <b>functional analysis</b> of the site?           | A functional analysis of the site might include the existing or proposed use of site, pedestrian movement, microclimatic notes and client requirements.                                                                                                                                                                                    |
| What methods may be included in <b>drafting</b> the plan                   | Drafting may be done by hand or with proprietary software.                                                                                                                                                                                                                                                                                 |

For more information on contexts, environment and variables for training and assessment

refer to the Sector Booklet.

## **Unit Sector(s)**

Not applicable.

# **RUV3507A Carry out companion animal breeding procedures**

## **Modification History**

Not applicable.

## **Unit Descriptor**

This unit of competency covers the process of preparing animals for breeding and implementing routine breeding procedures in accordance with the breeding plan. Work is performed in accordance with the breeding program and the organisations standard operating procedures.

In addition to legal and ethical responsibilities, all units of competency in the Animal Care and Management Training Package have the requirement for animals to be handled gently and calmly. The individual is required to develop an empathetic understanding of animals in their care, so that stress and discomfort can be minimised.

The work functions within this unit require the demonstration of relevant theoretical knowledge and the application of a range of well-developed skills. One would be expected to apply known solutions to a variety of predictable problems and take responsibility for ones own outputs and have limited responsibility for the output of others.

## **Application of the Unit**

## Elements and Performance Criteria

### Elements and Performance Criteria

| Element                          | Performance Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 Facilitate reproduction        | <p>1.1 Requirements of the <b>breeding program</b> are identified and confirmed with the supervisor.</p> <p>1.2 Current status of animal reproductive cycle is <b>monitored</b> and reported.</p> <p>1.3 Risks associated with potential aggressive animal behaviour are identified and monitored in accordance with <b>occupational health and safety (OHS)</b> and <b>animal welfare requirements</b>.</p> <p>1.4 Animals selected for mating are placed in an appropriate <b>environment</b>.</p>                                                                             |
| 2 Implement breeding procedures  | <p>2.1 Appropriate <b>breeding systems</b> are applied in accordance with breeding program.</p> <p>2.2 Appropriate <b>mating methods</b> are applied in accordance with breeding program.</p> <p>2.3 Animals are monitored after mating period to determine success rates.</p>                                                                                                                                                                                                                                                                                                   |
| 3 Perform post-mating procedures | <p>3.1 Animals are monitored for <b>signs of hatching or birthing</b>.</p> <p>3.2 Problems with hatching or birthing are noted and reported to the supervisor.</p> <p>3.3 Offspring are identified, sexed and weaned according to the breeding program.</p> <p>3.4 <b>Post-weaning management</b> is carried out in accordance with the breeding program and the supervisor's instructions.</p> <p>3.5 <b>Breeding records</b> are maintained according to the organisation's standard operating procedures and any special requirements of the particular breeding program.</p> |

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

**What are the critical aspects of evidence required for this unit of competency as a whole?**

The critical requirements that are valuable for this unit of competency as a whole are listed below.

Assessment must confirm one's ability to:

- monitor and observe animals and report on breeding cycle
- identify risks related to OHS and animal welfare
- implement mating methods in accordance with breeding program
- apply post-mating procedures
- keep accurate records.

**What specific knowledge is needed to achieve the performance criteria?**

Knowledge and understanding are essential to apply this unit in the workplace, to transfer the skills to other contexts and to deal with unplanned events. The knowledge requirements for this unit of competency are listed below:listed below and include:

- breed or species' /breed breeding program requirements
- anatomy and physiology of species and breeds in the breeding program
- mating behaviour of species concerned
- monitoring and observation including identification of abnormalities
- breeding systems and methods
- post-weaning procedures
- organisational record keepingrecord-keeping requirements.

**What specific skills are needed to achieve the performance criteria?**

To achieve the performance criteria, some complementary skills are required. These skills are:

ability to identify sex, age and reproductive status of male and female animals

ability to implement breeding programs

ability to operate breeding equipment

ability to care for neonates and juveniles

ability to monitor and observe abnormalities

ability to apply application of post-weaning husbandry

ability to dispose of waste according to health regulations adequate health and safety standards

ability to keep records

record keeping

literacy skills to read and follow OHS and waste management procedures and other organisational policies and procedures; select and apply the procedures to perform a range of defined tasks; follow sequenced written instructions; and record accurately and legibly the information collected

Literacy skills to read and follow OHS and waste management procedures, other organisational policies and procedures; ability to select and apply the procedures to perform a range of tasks; follow treatment instructions, record accurately and legibly information collected.

oral communication skills / language competence to fulfil the job role as specified by the organisation including questioning techniques, active listening, asking for clarification and consulting with supervisor

Oral communication skills (language competence) required to fulfil the job role as specified by the organisation. Skills include questioning techniques, active listening, asking for clarification and consulting with supervisor.

Numeracy skills required to complete

arithmetic calculations

interpersonal skills to work with and relate to people from a range of cultural, social and religious backgrounds. Interpersonal skills required include working with others, and an ability to relate to persons from differing cultural, social and religious backgrounds.

problem-solving skills to use available resources and prioritise daily tasks. Problem solving skills required include an ability to use available resources and to prioritise daily tasks

**What are the specific resource implications for this unit of competency?**

For valid assessment, one **must** have opportunities to participate in a range of exercises, case studies and other real and simulated practical and knowledge assessments that demonstrate the skills and knowledge to participate in **carrying out companion animal breeding procedures**. They One **must** also have access to the resources listed below: below that include:

an appropriate workplace or an environment which environment that reproduces normal working work conditions

access to equipment and resources normally used in the workplace

a range of species and breeds

breeding program

breeding equipment including artificial insemination

waste disposal procedures

records systems.

**What considerations should there be for consistency in performance?**

To ensure consistency in one's performance, competency should be demonstrated on more than one occasion over a period of time in order to cover a variety of circumstances, cases and responsibilities, and, where

possible, over a number of assessment activities.

The skills and knowledge required to **carry out companion animal breeding procedures** must be **transferable** to a range of work environments and contexts and include the ability to deal with unplanned events. For example, This could include work within kennels, catteries or breeding establishments.

**What considerations should there be for context of assessment?**

Assessment for this unit of competency is to be largely practical in nature and will be most appropriately assessed in a companion animal breeding workplace or in a situation which situation that reproduces normal workingwork conditions.

There must be access in either situation to the appropriate equipment and/orand / or resources to enable one to demonstrate competency.

**What processes should be applied to this unit of competency?**

There are a number of processes that are learnt throughout work and life which are required in all jobs. They are fundamental processes and generally transferable to other work functions. Some of these are covered by the **key competencies**, although others may be added. The questions below highlight how these processes are applied in this unit of competency. Following each question a number in brackets indicates the level to which the key competency needs to be demonstrated where 0 = not required, 1 = perform the process, 2 = perform and administer the process and 3 = perform, administer and design the process.

1. How can communication of ideas and information (2) be applied?

By maintaining breeding records.

2. How can information be collected, analysed and organised (2)?

By observing animal behaviour to assess readiness for mating and by collecting and analysing breeding data to determine breeding problems.

3. How are activities planned and organised

Through scheduling mating activities to meet

|                                                                         |                                                                                                      |
|-------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------|
| (2)?                                                                    | requirements of the breeding program.                                                                |
| 4. How can <b>teamwork</b> (1) be applied?                              | By contributing to the production of offspring for the organisation's purpose in a co-ordinated way. |
| 5. How can the use of mathematical ideas and techniques (2) be applied? | By apportioning the feed requirements of different animals and species.                              |
| 6. How can problem-solving skills (2) be applied?                       | By observing and reporting problems with mating, and animals with problems at birth.                 |
| 7. How can the <b>use of technology</b> (2) be applied?                 | By recording breeding data using the organisation's information systems.                             |

### Are there other units of competency that could be assessed with this one?

This unit of competency **could** be assessed on its own or in combination with other competencies relevant to the job function.

## Range Statement

### Range of Variables

The Range of Variables explains the range of contexts within which the performance and knowledge requirements of this unit may be assessed. The scope of variables chosen in training and assessment may depend on the work contexts

|                                                                   |                                                                                                                                                                                                                                                                                                                           |
|-------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| What information may be included in the <b>breeding program</b> ? | The breeding program is likely to include information about number of breeders required; selection criteria for breeders; record system to be used including cards, computer, closed rings, microchipping and tattooing; data to be collected about production rates (e.g. numbers born and sex ratio) and weaning rates. |
| What <b>OHS requirements</b> are relevant to this unit?           | Safe handling systems and procedures may include identifying hazards and assessing and reporting risks.                                                                                                                                                                                                                   |

|                                                                  |                                                                                                                                                                                                                                              |
|------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| What are the <b>animal welfare requirements</b> ?                | Animal welfare requirements may include local, state and federal legislation; animal care and animal ethics; duty of care; and animal hygiene.                                                                                               |
| What sort of <b>environment</b> is suitable for breeding?        | The appropriate environment for breeding may depend on the species involved and the specific requirements of the breeding program. This could include temperature, humidity, day or night cycle and seasonal effects.                        |
| What <b>breeding systems</b> may be applied?                     | Breeding systems may include line breeding and controlled out-crossing.                                                                                                                                                                      |
| Which <b>mating methods</b> may be applied?                      | Mating methods may include paired mating, the harem system and stud mating.                                                                                                                                                                  |
| What <b>signs of hatching or birthing</b> might be observed?     | Signs might include evidence of breaking through shell; territorial behaviour; change in appearance of egg colour; labour and preparation for birth including nest making, laboured breathing, pushing, milk let down and vaginal discharge. |
| What is involved in <b>post-weaning management</b> ?             | Post-weaning management may include supplementary feeding, selection of future breeding animals, health, immunisation and recording observations.                                                                                            |
| What information should be included in <b>breeding records</b> ? | Breeding records may include date of birth; numbers born, stillborn, missing or found dead; sexes born; number weaned; growth weight; and strain and genotype information.                                                                   |

| 3       | Updated and equivalent.<br>Reduction of repetition.<br>No changes to competency outcome. |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to recognise and respond appropriately in emergency situations, such as those caused by fire, accident or weather. The unit focuses on the application of organisational policies and procedures to maintain the welfare of participants in an activity in response to emergency situations.

### Application of the Unit

This unit applies to those who work in a range of roles and settings in the sport, fitness and recreation industry. This may include those working in after-school or holiday-care programs in a range of locations; those assisting in coaching activities, competitions and events, as attendants at sporting grounds or facilities; or those undertaking a role in indoor recreation activities including fitness venues and outdoor recreation activities, such as camps and other guided activities. This unit also applies to those working in aquatic centres, such as instructors, operators or lifeguards.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

### Elements and Performance Criteria

| Element                                                           | Performance Criteria                                                                                                                                                                                                                                                                                                                                                      |

| 3. Coordinate and monitor participant response.                   | 3.1. Convey emergency instructions to participants in the activity and colleagues.<br>3.2. Identify and implement strategies for group control and remove participants and colleagues from danger.<br>3.3. Monitor the condition and location of participants.<br>3.4. Provide information on developments to participants.                                               |

## Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

### Required skills

- communication skills to:
  - follow instructions and procedures during emergencies
  - report emergency situations
  - inform participants of evacuation procedures
  - debrief participants on the emergency situation
- planning and organising skills to:
  - coordinate participant movement away from the emergency
  - monitor participants during the emergency
- literacy and numeracy skills to interpret and follow policies and safety signage
- technology skills to use emergency and communications equipment
- problem-solving skills to identify emergency situations and respond safely and promptly.

### Required knowledge

- organisational policies and procedures to:
  - enable safe response to an emergency
  - ensure safe response to situations according to own work role and level of responsibility
- first-aid knowledge appropriate to the location and level of responsibility
- contingency management techniques
- local call-out procedures and information to access emergency services personnel.

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- identify and follow all organisational emergency policies and procedures in relation to own work role and level of responsibility
- respond to emergency situations safely and promptly with consideration for the welfare of all participants and colleagues

- apply contingency-management techniques to respond to emergencies
- respond to different types of emergency situations relevant to the individual's current or intended work situation.

**Context of and specific resources for assessment**

Assessment must ensure:

- prompt response to emergency situations, which may be simulated in an environment that reflects the individual's current or intended work situation to demonstrate consistency of performance.

Assessment must also ensure access to:

- emergency response equipment appropriate to the work environment
- documentation, such as organisational policies and procedures for responding to emergency situations.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of applying organisational procedures to respond to emergencies
- observation of coordinating participant movement during the emergency
- third-party reports from a supervisor detailing work performance
- oral and or written questioning to assess knowledge of accessing and interpreting organisational policies and procedures.

**Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

## Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                           |                                                                         |

Emergency Response.

## SISXEMR402A Coordinate emergency responses

### Modification History

The release details of this endorsed unit of competency set are in the table below. The latest information is at the top.

| Release | Comments                                                      |
|---------|---------------------------------------------------------------|
| 3       | Reduction of repetition.<br>No changes to competency outcome. |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to coordinate a response to an emergency situation according to an organisation's policies and procedures. The unit focuses on assessing emergency situations, implementing an emergency action plan, and coordinating a prompt and effective response.

### Application of the Unit

This unit applies to staff members designated as safety officers during a specific indoor or outdoor activity at locations such as camp sites, training areas and outdoor sites, sporting grounds and competition venues or the warden in a sport, recreation or fitness centre, which may include a community leisure centre, gym, aquatic centre or indoor activities centre.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

### Elements and Performance Criteria

| ELEMENT                                                           | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

**ELEMENT****PERFORMANCE CRITERIA**

authorities.

5. Finalise operational procedures.

5.1. Complete and maintain an operational log.

5.2. Debrief emergency team members.

5.3. Evaluate operation of emergency procedures and recommend any changes.

5.4. Advise emergency team members to refer media inquiries to the nominated spokesperson.

## Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

### Required skills

- communication skills to:
  - liaise with all parties to coordinate effective responses to emergency situations
  - convey information to relevant authorities
  - debrief emergency team members
- problem-solving skills to:
  - assess emergency situations and develop action plans
  - improvise equipment or techniques where required
- planning and organisational skills to coordinate resources and equipment necessary to respond effectively to emergency situations
- self-management skills to review and reflect on own work performance in coordinating emergency responses
- language and literacy skills to:
  - complete emergency documentation
  - interpret and respond to emergency reports and signals.

### Required knowledge

- organisational emergency policies and procedures and staff responsibilities to enable prompt and effective response to emergencies and incidents
- legislation relevant to own work role and level of responsibility including:
  - duty of care
  - occupational health and safety
  - environment protection
  - hazardous substances and dangerous goods
  - public health and safety
- location and use of rescue and emergency equipment to enable effective

implementation of an emergency response

- rescue techniques to enable selection of technique appropriate to type of emergency
- emergency response agencies within the activity area and direct communication channels to enable information about an emergency to be communicated quickly and directly
- factors that impact on emergency situations to enable appropriate contingency planning
- behaviour and characteristics of typical emergencies to enable the development of an action plan to quickly and effectively bring the situation under control.

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- identify and implement organisation policies and procedures to assess and coordinate emergency responses promptly and safely
- comply with relevant legislation in coordination of emergency response
- coordinate participatory arrangements for the management of the emergency response
- complete all relevant documentation
- evaluate and reflect on performance to identify ways in which emergency procedures can be improved.

#### Context of and specific resources for assessment

Assessment must ensure:

- coordination of multiple emergency responses, which may be simulated to reflect the individual's current or intended work environment to demonstrate competency and consistency of performance.

Assessment must also ensure access to:

- equipment and resources to ensure adequate response to emergencies
- staff and clients in industry-appropriate ratios
- legislation and organisational policies and procedures.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of applying organisational emergency procedures when responding to emergency situations
- observation of interacting with safety officers and wardens to ensure effective coordination of emergency situations
- oral and or written questioning to assess knowledge of relevant legislation which underpins the effective implementation of organisational emergency procedures
- third-party reports from a supervisor detailing work performance.

**Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SISXWHS402 Implement and monitor Work Health and Safety policies.

**Range Statement**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Reports or signals*** may include:

- verbal
- emergency warning and alarm systems
- hand signals
- telephone and radio communications
- whistles.

***Emergency situations*** may include:

- fire
- hazardous release of chemicals
- bomb threats or civil disorder
- environmental conditions
- other natural or man-made disasters
- activity-specific.

***Organisational policies and***

- Work Health and Safety
- emergency procedures

**procedures** may include:

- reporting incidents
- staff roles and responsibilities in the event of an emergency
- communication lines
- exit and assembly points.

**Designated personnel** may include:

- supervisors
- managers.

**Potential for escalation** may include:

- spread of fire
- threat to adjoining areas
- danger of explosion
- loss of communications
- involvement of additional persons
- deterioration in environmental conditions.

**Emergency equipment** may include:

- hoses
- monitors
- foam equipment and extinguishers
- blankets
- spill kits
- personal protective clothing and equipment
- ladders
- salvage gear
- rescue equipment
- first-aid and evacuation equipment and resources.

**Emergency team** may include:

- nominated safety officers or wardens
- emergency team members
- emergency response related persons.

**Appropriate authorities** may include:

- Police Search and Rescue
- State Emergency Service
- Fire Brigade
- Ambulance Service
- Land Management Authorities
- Australian Volunteer Coastguard.

**Emergency evacuation** may include:

- total or partial
- to an internal or external refuge
- to an assembly point.

| 3       | Reduction of repetition.<br>No changes to competency outcome. |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to prepare for and conduct projects in specific activity areas, It also involves undertaking contingency planning to enable the achievement of project outcomes.

### Application of the Unit

This unit applies to those working autonomously and within supervisory roles in a sport, fitness and recreation environment, including those in roles such as recreation officers, program managers, logistics coordinators, sports trainers, coaches, development officers, personal trainers and outdoor leaders. These roles may be performed in a wide range of sport, fitness and recreation environments. The unit focuses on the application of project management skills and the requirement to meet time lines, quality standards, legislative obligations, budgetary limits and other requirements set for the project.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

No applicable

### Employability Skills Information

This unit contains employability skills.

## Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

### Required skills

- communication and negotiation skills to:
  - consult with project team members
  - convey information on project progress
  - liaise and negotiate with internal and external service providers
- planning and organising skills to:
  - develop, monitor and maintain project implementation schedules
  - design risk and contingency management plans
  - coordinate project resources within timelines and budget
- problem-solving skills to:
  - define and monitor objectives of the project
  - identify and address deviations to the project-management plan
  - develop contingency plans
- literacy and numeracy skills to:
  - interpret a project-management plan
  - complete project documentation
  - identify and meet budget and timeframe requirements
- self-management skills to review and reflect on own work performance to conduct a project.

## Required knowledge

- organisation policies and procedures to enable accountability and satisfactory completion of project outcomes according to organisation protocols and standards
- legislation to enable project to be conducted safely and responsibly, such as:
  - anti-discrimination
  - Work Health and Safety
  - privacy
  - duty of care
  - trade practices
  - goods and services
  - contract
  - environment protection
- quality-assurance principles to enable project accountability in the achievement of quality outcomes
- project-management techniques to effectively prepare, implement and monitor a project implementation plan within budget and on time
- organisation financial recording and reporting requirements
- conflict-resolution techniques to enable negotiation of issues arising during the project
- evaluation processes to enable improvements to be made to future projects.

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- implements, monitors and review a project management plan according to organisation recording and reporting systems
- liaise with relevant personnel and allocate and coordinate project tasks and resources to maximise timely project outcomes
- use communication strategies and systems to encourage and maintain information flow and exchange between project team personnel while maintaining commercial confidentiality
- apply contingency-management techniques to deal

with a range of problems and issues that may arise during the project and report those outside own level of responsibility to relevant personnel

- conduct projects according to ethical practices and comply with legislation and organisation policies and procedures
- evaluate and reflect on own work performance to identify ways in which future project outcomes and benefits to the organisation and individuals can be improved.

**Context of and specific resources for assessment**

Assessment must ensure:

- conduct of multiple projects within budgetary constraints and timeframes that are of sufficient breadth to demonstrate competency and consistency of performance.

Assessment must also ensure access to:

- a sport, fitness and recreation environment that reflects local issues and initiatives for which projects can be implemented
- equipment and resources required for the project, including support staff, equipment and materials
- organisational procedures and protocols, such as project reporting or recording requirements
- sources of information on project-management techniques.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of interacting with project team, including allocating tasks and monitoring progress
- observation of dealing with contingencies in relation to project deviations and budgets
- oral and or written questioning to assess knowledge of relevant organisational policies and procedures for conducting a project
- third-party reports from a supervisor detailing work performance
- portfolio containing evidence of research and documentation, such as a project-management plan and project reports.

**Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended,

for example:

- SISXIND409 Organise a sport, fitness or recreation event .

## Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Scope*** may include:

- objectives
- desired outcomes
- benefits to the organisation
- cost
- risks
- inclusions
- exclusions
- quality standards
- time.

***Project*** may include:

- internal or external projects
- conferences and major meetings
- promotional or other events
- introduction of new technology or systems
- product or service development
- research or development projects
- ongoing business projects
- skills-improvement projects.

***Resources*** may include:

- service providers
- financial
- human
- physical
- technical.

***Contract requirements*** may include:

- performance standards
- timelines
- names of parties bound by contract
- payment
- completion requirements
- staffing

- Key milestones** may include:
- ownership of materials
  - indemnity and insurance
  - reporting mechanisms.
  - recording and reporting
  - developing a work plan
  - timelines
  - achievement of key tasks and project phases
  - measurement and achievement of set outcomes
  - completion of task
  - completion of contract phases and requirements.
- Quality measures** may include:
- objectives and outcomes
  - benchmarks
  - standards
  - key performance indicators
  - project monitoring process
  - achievement of timelines
  - costs.
- Relevant personnel** may include:
- project managers
  - senior staff
  - board members
  - sponsors
  - clients
  - internal and external service providers.
- Monitor** may include:
- progress and timeframes
  - performance
  - variables
  - activities
  - problems and issues
  - changes to project plan
  - costs associated with the project.
- Project records** may include:
- team reports
  - project control chart
  - critical path
  - control point chart
  - Gantt and bar charts
  - milestone chart
  - budget control chart
  - interim and final reports.

| 2.0                         | Amendments to the Evidence Guide which better define the assessment environment and assessment requirements of the unit. |
| 1.0                         | E<br>Replaces and is equivalent to SITHFAB009A Provide responsible service of alcohol.                                   |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to responsibly sell or serve alcohol.

### Application of the Unit

Responsible practices must be undertaken wherever alcohol is served or sold, including where alcohol samples are served during on-site product tastings. This unit, therefore, applies to any workplace where alcohol is served or sold, including all types of hospitality venues, retail liquor outlets and wineries, breweries and distilleries.

This unit applies to all levels of sales personnel involved in the sale, service and promotional service of alcohol in licensed premises. Those selling or serving alcohol may include food and beverage attendants; retail liquor sales persons; winery, brewery and distillery cellar door staff and supplier sales representatives. It also applies to security staff who monitor customer behaviour and to the licensee who is ultimately responsible for RSA management.

### Licensing/Regulatory Information

The unit incorporates the knowledge requirements, under state and territory liquor licensing law, for employees engaged in the sale or service of alcohol.

Certification requirements differ across states and territories. In most cases all people involved in the sale, service and promotional service of alcohol in licensed premises must be certified in this unit. This can include the licensee and security staff.

This unit covers the Responsible Service of Alcohol (RSA) skill and knowledge requirements common to all States and Territories. Some legislative requirements and knowledge will differ across borders. In some cases after completion of this unit, state and territory liquor authorities require candidates to complete a bridging course to address these specific differences.

Those developing training to support this unit must consult the relevant state or territory liquor licensing authority to determine any accreditation arrangements for courses, trainers and assessors.

## Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

### Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.

1. Sell or serve alcohol responsibly.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

- 1.1 Sell or serve alcohol according to provisions of relevant state or territory legislation, licensing requirements and responsible service of alcohol principles.
- 1.2 Provide ***accurate information*** to customers on alcoholic beverages according to organisation or house policy and government legislation, including types, strengths, standard drinks and the alcoholic percentages of a range of frequently sold alcoholic beverages.
- 1.3 Assist customers with information on the range of non alcoholic beverages available for purchase.
- 1.4 Identify ***issues*** related to the sale and service of alcohol to different types of customers, especially ***those at risk***, and incorporate them into sales or service.

2. Assist customers to drink within appropriate limits.
  - 2.1 Prepare and serve **standard drinks** or **samples** according to industry requirements.
  - 2.2 Encourage customers courteously and diplomatically to drink within appropriate limits.
  - 2.3 Recognise **erratic drinking patterns** as an early sign of possible intoxication and take appropriate action.
  - 2.4 Monitor emotional and physical state of customers for signs of intoxication and ill effects of illicit or other drug usage.
  - 2.5 Where appropriate, offer food and non alcoholic beverages.
  - 2.6 Politely decline requests for alcohol to be dispensed in a manner that is **irresponsible, or which encourages the rapid or excessive consumption of alcohol**, and advise customers of the reasons for the refusal.
3. Assess alcohol affected customers and identify customers to whom sale or service must be refused.
  - 3.1 Assess intoxication levels of customers using a number of methods, including observing **changes in behaviour**, observing emotional and physical state, and monitoring noise levels and drink purchases.
  - 3.2 When assessing intoxication, take into account **factors** that may affect individual responses to alcohol.
  - 3.3 Identify customers to whom sale or service must be refused according to state and territory legislation, including minors, those purchasing on behalf of minors, intoxicated persons, and persons affected by the consumption of illicit and other drugs.
  - 3.4 Where appropriate, request and obtain acceptable **proof of age** prior to sale or service.
4. Refuse to provide alcohol.
  - 4.1 Refuse service in a polite manner and state reasons for the refusal.
  - 4.2 Speak to **intoxicated** customers in a suitable and consistent manner, minimising confrontation and arguments and point out **signage**.
  - 4.3 Provide **appropriate assistance** to customers when refusing service.
  - 4.4 Where appropriate, give customers a verbal warning and ask them to leave the premises according to organisation or house requirements, the specific situation and provisions of state or territory legislation and regulations.
  - 4.5 Use appropriate **communication and conflict resolution skills** to handle difficult situations.
  - 4.6 Refer difficult situations beyond the scope of individual responsibility to the appropriate person.
  - 4.7 Promptly identify situations that pose a threat to the safety

or security of colleagues, customers or property, and seek assistance from appropriate colleagues according to organisational policy.

## Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

### Required skills

- communication to:
  - provide complex information on responsible service of alcohol laws in a way that is readily understood by customers
  - speak firmly and clearly with intoxicated customers
  - deal with customers sensitively, courteously and discreetly using non-confrontational language
- critical thinking skills to assess intoxication levels of customers
- initiative and enterprise skills to offer food and non-alcoholic beverages to assist customers
- learning skills to continuously update knowledge of changing responsible service of alcohol laws and regulations
- literacy skills to:
  - read and interpret documents such as identification (ID) cards, proof of age cards, driver's licences, statutory signage, warning signs and wording within advertising or promotional material, in-house policies and procedures and any general plain English regulatory and advisory information issued by local, or state and territory liquor licensing authorities
- numeracy skills to measure and calculate standard drinks or samples and calculate blood alcohol levels to determine alcohol consumption
- problem-solving skills to:
  - identify customers to whom sale or service must be refused
  - identify intoxicated persons and refuse service
  - identify situations that pose a safety threat and seek assistance from appropriate colleagues
- teamwork skills to share customer information with team members to ensure proper responsible service of alcohol practices within the organisation.

### Required knowledge

- public interest reasons for implementation of responsible service of alcohol practices, including:
  - government and community concern with alcohol misuse and abuse
  - crime, violence and anti-social behaviour associated with alcohol abuse
- impact of excessive drinking on:

- local neighbourhood and community
- premises and staff
- customers
- particular types of customers who may be at heightened risk such as young people, pregnant women and minors
- government agencies such as the local police, health facilities and road authority
- key agencies and how to source relevant information on laws, regulations and codes of practice or conduct
- current promotional and strategic community education campaigns developed and conducted by agencies and industry groups
- effects of alcohol on:
  - emotional state
  - health
  - physical alertness
- factors that affect individual responses to alcohol, including:
  - gender
  - weight
  - general health
  - rate of consumption
  - food intake
  - other substances taken
- time for effects of alcohol to be registered
- standard drinks and acceptable measures of alcohol
- indicators of intoxication, including ways of assessing intoxication of customers
- ways of assessing customers affected by the consumption of illicit and other drugs
- principles of harm minimisation and strategies to minimise the harm associated with liquor abuse:
  - strategies laid down in legislation and codes of conduct developed by government agencies or industry groups
  - organisational policies that are designed to reduce the harm associated with liquor abuse
- the key provisions of liquor laws and regulations at a depth relevant to the scope of job responsibility within licensed premises, including the following list that expresses general statements about requirements of liquor legislation and information that must be customised for each State or Territory:
  - legislative definition of intoxication; intoxicated person and unduly intoxicated
  - role of individual staff members and supervisors or managers in providing responsible service of alcohol, including seller or server duty of care and liability
  - requirement to adopt and use statutory signage on the premises for the entire range of circumstances applicable to the organisation
  - requirements for mandatory content of any warning signs and wording within advertising or promotional material of any form, such as print advertising or internet

sales

- requirements for the remote sale and delivery of alcohol sales generated via the telephone, fax, email or mail
- requirements for proof of age and obligations to minors under local legislation
- provisions for retaining and reporting falsified proof of age documents
- provisions for requiring someone to leave the premises
- transportation options
- barring procedures
- opening and closing hour provisions
- requirements for monitoring noise and disturbances in and around licensed premises
- requirements laid down in codes of practice or conduct developed by government agencies or industry groups
- requirements described by an in-house policy, standard or code of practice or conduct
- training and record keeping requirements
- banned or undesirable products
- personal and business implications of breaching any laws, regulations, government or industry-driven codes of practice or conduct
- offences and penalties relating to offences
- legal restrictions on alcohol use customised to state or territory legislation, including intoxication provisions of liquor licensing laws
- legal drink and drive limits.

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the ability to:

- responsibly sell or serve alcohol on multiple occasions to customers
- satisfy the legal requirements for responsible sale or service of alcohol for the local state or territory law
- follow organisational policies and procedures for the responsible service of alcohol
- demonstrate knowledge of:
  - reasons for and benefits of responsible service of alcohol
  - principles of responsible service of alcohol and

|                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

**assessment**

activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- SITHFAB202 Operate a bar
- SITHFAB302 Conduct a product tasting for alcoholic beverages
- SITHFAB303 Prepare and serve cocktails
- SITHFAB304 Provide advice on beers, spirits and liqueurs
- SITHFAB305 Provide advice on Australian wines
- SITHFAB306 Provide advice on imported wines
- SITHFAB307 Provide table service of food and beverage.

## Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Accurate information*** may be provided to customers:

- by use of fact sheets and advertising material that comply with legislative requirements
- by use of mandatory signage
- verbally.

***Issues*** may include:

- demeanour and mood
- familiarity with specific customers
- perceived effects of illicit and other drug usage
- perceived health status
- physical stature
- social context.

***Those at risk*** may include:

- minors
- people affected by the consumption of illicit and other drugs
- people from non-English speaking backgrounds
- women
- young customers.

***Standard drinks*** should be measured using:

- appropriate nip measures

**Samples** may include tastings of any item for sale in a:

- appropriately sized sample glasses
- electronic dispensing and measuring devices.
- brewery
- distillery
- hospitality venue
- retail liquor outlet
- winery.

**Erratic drinking patterns** may include:

- mixing a wide range of drink types
- drinking quickly and asking for more immediately
- ordering more than one drink for self-consumption
- mixing alcohol consumption with consumption of prescription or illicit drugs
- consistently returning to the tasting site to request more samples
- ordering multiple samples
- ordering large samples
- ordering 'triple shots' or extra large drinks.

Requests for drinks to be dispensed in a manner that is **irresponsible, or which encourages the rapid or excessive consumption of liquor** include:

- jugs of spirits and mixers
- large samples
- laybacks
- multiple samples for self-consumption
- rocket fuel
- shooters
- test tubes
- yard glasses.

**Changes in behaviour** may involve the customer becoming:

- aggressive
- disorderly
- quarrelsome
- violent.

**Factors** include:

- food intake
- gender
- general health
- other substances taken, especially illicit and other drugs
- rate of consumption
- weight.

**Proof of age** includes:

- current drivers licence

***Intoxicated*** denotes:

- passport
- photo card
- proof of age card.
- drunk
- those to whom service may be refused due to excessive consumption of alcohol
- ‘unduly intoxicated’ may also be used in some state or territory legislation.

***Signage*** may include:

- signs produced in-house that comply with wording required by legislation
- standard promotional signs issued by the relevant state or territory licensing authority
- warning notices within any form of advertising.

***Appropriate assistance*** may include:

- assisting the customer to connect with their designated driver
- offering alternatives to alcohol, including food
- offering to sell or serve non-alcoholic drinks
- organising transport for customers wishing to leave
- providing information on taxis.

***Communication and conflict resolution skills*** may include:

- using open and non-aggressive body language
- using a number of strategies to diffuse a situation, such as taking the person away from an audience or blaming the refusal on the ‘law’
- monitoring the reactions of other customers
- picking early warning signs and intervening before the person is intoxicated
- not using physical touch or body language
- remaining calm and using tactful language.

## SITXMPR501 Obtain and manage sponsorship

### Modification History

The version details of this endorsed unit of competency set are in the table below. The latest information is at the top.

| Version | Comments                                                                                                                           |
|---------|------------------------------------------------------------------------------------------------------------------------------------|
| 1.0     | E<br>Replaces and is equivalent to SITXFIN006A Obtain and manage sponsorship.<br>Re-categorised to Marketing and Public Relations. |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to obtain and manage sponsorship for a business activity, product, service or event. It requires the ability to determine sponsorship requirements, source and negotiate with potential sponsors and manage sponsorship arrangements.

### Application of the Unit

This unit applies to any tourism, travel, hospitality or event sector where sponsorship is sought to support business or community activities. Sponsorship may relate to a one-off activity, such as an event, or to ongoing operations, such as sponsorship of a particular service.

It applies to senior coordinators and managers who operate independently, have responsibility for others and are responsible for making a range of financial and operational decisions. They may work under the overall guidance of event organising committees.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

### Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

cooperative approaches.

## Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

### Required skills

- communication skills to liaise and negotiate with sponsors and manage their participation
- critical thinking skills to evaluate a potential sponsor's best fit with the business activities or projects
- initiative and enterprise skills to identify and action opportunities to obtain sponsorship
- literacy skills to:
  - read and interpret details of the business activities or projects to be sponsored and complex sponsorship contracts or agreements
  - research potential sponsors that are aligned with the business activities or projects
  - write sponsorship materials and agreements expressing complex business ideas and proposals
- numeracy skills to evaluate budgets and interrogate or use a range of financial data to inform sponsorship activities
- planning and organising skills to organise sponsorship activities according to agreements
- problem-solving skills to monitor activities, identify sponsorship servicing deficiencies and make required adjustments
- self-management skills to take responsibility for sourcing and managing sponsorship arrangements
- teamwork skills to brief colleagues on details of sponsorship arrangements
- technology skills to design effective sponsorship proposals.

### Required knowledge

- for the particular industry sector and business type:
  - a range of business activities or events which would appeal to sponsors
  - potential sponsorship opportunities and sources of finance
- protocols for sponsor contact
- packages that can be offered to sponsors
- a range of formats for and inclusions of sponsorship proposals
- features of sponsorship contracts and agreements:
  - legal requirements to supply services as contracted and ramifications of failure to comply
  - sponsor reporting expectations and requirements.

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- determine sponsorship requirements and obtain and manage sponsorship for a business activity, product, service or event
- monitor and manage sponsorship arrangements over a period of time
- develop clear, concise and professional sponsorship proposals
- integrate knowledge of practices and protocols for accessing sponsorship opportunities
- effectively communicate and negotiate with sponsors.

#### Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated tourism, hospitality or event industry business operation, product, service or event that a sponsor can be involved in
- computers, printers and software packages currently used by the tourism, hospitality and event industries to design effective sponsorship proposals
- current commercial sponsorship contracts
- sponsors to allow the individual to communicate, negotiate and manage sponsorship arrangements.

#### Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- project activities that allow assessment of the individual's ability to initiate and manage sponsorship
- evaluation of sponsorship packages and proposals produced by the individual
- oral or written questioning to assess knowledge of sponsorship practices and protocols for accessing sponsorship opportunities
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

#### Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units

relevant to the industry sector, workplace and job role, for example:

- BSBCMM401A Make a presentation
- BSBPMG510A Manage projects
- SITXEVT503 Manage event staging components
- SITXMGT501 Establish and conduct business relationships
- SITXMPR404 Coordinate marketing activities.

## Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Colleagues*** may include:

- customers
- event organisers
- funding bodies
- management
- management committees.

***Items, activities or projects*** may include:

- entertainment
- individual awards within an awards program
- meals
- one-off promotional activities or projects
- ongoing organisational activities, such as an annual publication
- overall event or activity sponsorship
- permanent or temporary exhibitions
- physical items, such as satchels
- social events
- speaker sessions
- sporting components
- travel.

***Potential sponsors*** may include:

- community organisations
- educational institutions
- existing sponsors
- government agencies
- individuals
- industry organisations or professional associations

***Sponsorship materials*** may include:

***Sponsorship documentation*** may include:

- investors
- private companies.
- electronic presentations
- printed promotional material.
- activity reports or schedules
- attendance figures
- contracts
- feedback documentation
- financial records.

## SRSCOP001B Prepare for public speaking

### Modification History

Not applicable.

### Unit Descriptor

This unit has been developed for the Sport Industry Training Package.

This unit covers the knowledge and skills required to prepare and deliver a talk, including the structure and the communication skills required.

### Application of the Unit

Not applicable.

### Licensing/Regulatory Information

Not applicable.

### Pre-Requisites

Not applicable.

### Employability Skills Information

Not applicable.

### Elements and Performance Criteria Pre-Content

Not applicable.

### Elements and Performance Criteria

#### Elements and Performance Criteria

| Element                              | Performance Criteria                                                                                          |
|--------------------------------------|---------------------------------------------------------------------------------------------------------------|
| 1 <b>Prepare</b> for public speaking | 1.1 Select information <b>relevant</b> to the audience                                                        |
|                                      | 1.2 <b>Organise</b> the <b>talk</b> and use <b>appropriate language</b> to convey a clear expression of ideas |

## 2 Present a talk to a public forum

- 2.1 Deliver the **talk** in an audible manner
- 2.2 Deliver the **talk** in a manner that engages and holds the audience's attention
- 2.3 Develop ideas logically, coherently and complete the **talk** in the given time
- 2.4 Use appropriate vocabulary and grammatical structures
- 2.5 Use a confident and fluent manner that uses appropriate register and tone and employ a variety of pace, pitch, stress and volume
- 2.6 Use **relevant non-verbal communication and body language**
- 2.7 Enhance the presentation through the selection, organisation and presentation of supporting materials such as **visuals**
- 2.8 Deal with questions **effectively** and **impromptu talk**

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements

### Critical aspects of evidence to be considered

Assessment must confirm sufficient knowledge of the factors that influence the preparation and presentation of an impromptu talk and a longer prepared speech

Assessment of performance should be over a period of time covering all categories from the Range Statements

Assessment must confirm the ability to apply

knowledge and appropriate techniques to  
prepare information for a speech  
present a speech that contains relevant  
information  
present a speech in a manner that engages  
and holds the audience's attention  
deliver a speech using appropriate  
vocabulary and communication skill

**Interdependent assessment of units**

This unit must be assessed after attainment  
of competency in the following unit(s)

Nil

This unit must be assessed in conjunction  
with the following unit(s)

Nil

For the purpose of integrated assessment,  
this unit may be assessed in conjunction with  
the following unit(s)

Nil

**Required knowledge and skills**

Required knowledge

Knowledge of organisational codes of  
practice and guidelines for the delivery of  
speeches to the public

Knowledge of decision making and conflict  
resolution strategies for answering difficult  
questions

Knowledge of the organisation, its key  
functions, personnel, aims and objectives

Required skills

Problem solving in order to answer difficult  
questions fully and correctly, or to refer to  
others if answer is not known

Interpersonal skills in order to develop a  
rapport with audience

Communication (verbal and listening skills)

Observation in order to monitor effect of talk  
and adjust if necessary

Negotiation skills to negotiate outcomes with  
the audience and control audience reception

of your talk

Flexibility skills to be able to adjust the talk on the spot in order to achieve the best outcome

## **Resource implications**

Physical resources - assessment of this competency requires access to

an appropriately equipped theory space

a microphone

a lectern

a stage

access to relevant information

Human resources - assessment of this unit of competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must

be competent in this unit

be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area

be personnel with career oriented participant competency at the appropriate level

have attained the mandatory competency requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the **Standards for Registered Training Organisations**

## **Consistency in performance**

Due to the issues such as variable conditions of athlete participation this unit of competency must be assessed over a period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to career oriented participants

## **Context for assessment**

This unit of competency must be assessed in the context of a sporting activity with a range of real clients. For valid and reliable

assessment the activity should be conducted in a real or simulated environment with sporting participants. The environment should be safe, with noise to a level experienced with an activity in full operation and support serviced provided for optimum performance

This unit of competency should be assessed through the observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes

Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## KEY COMPET ENCIES

| Collect,<br>Analyse&O<br>rganise<br>Information | Communic<br>ate<br>Ideas&Info<br>rmation | Plan&Orga<br>nise<br>Activities | Work with<br>Others&in<br>Teams | Use<br>Mathematic<br>al<br>Ideas&Tec<br>hniques | Solve<br>Problems | Use<br>Technology |
|-------------------------------------------------|------------------------------------------|---------------------------------|---------------------------------|-------------------------------------------------|-------------------|-------------------|
| 2                                               | 2                                        | 1                               | 1                               | -                                               | 1                 | 1                 |

These levels do not relate to the Australian Qualifications Framework. They relate to the seven areas of generic competency that underpin

effective  
workplace  
practices.

The three  
levels of  
performanc  
e (1, 2 and  
3) denote  
the level of  
competency  
required to  
perform the  
task:

Use routine  
approaches

Select from  
routine  
approaches

Establish  
new  
approaches

**Collecting,  
analysing  
and  
organising  
informatio  
n** - Gather  
and  
organise  
information  
related to  
public  
speaking

**Communic  
ating ideas  
and  
informatio  
n** - Conduct  
public  
speaking to  
express  
ideas

**Planning  
and  
organising**

**activities -**

Use  
planning  
and  
organisatio  
n skills to  
structure  
presentatio  
n

**Working  
with teams  
and others**

- Seek  
audience  
response

**Using  
mathemati  
cal ideas  
and  
techniques**

- Not  
applicable

**Solving  
problems -**

Ensure  
presentatio  
n is  
relevant to  
audience

**Using  
technology**

- Use data  
projector or  
other media  
technologie  
s to assist  
public  
presentatio  
n

Please refer  
to the  
Assessment  
Guidelines  
for advice  
on how to  
use the Key

Competencies.

## Range Statement

### Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency

#### RANGE STATEMENT

#### CATEGORIES

##### Appropriate language

[all categories]  
is pitched at audience level  
appropriate to the topic  
contains no bad or offensive language  
does not use jargon

##### Effectively

[all categories]  
fully  
politely  
correctly

##### Impromptu talk

[all categories]  
usually shorter  
audience unknown, therefore ability to  
respond to feedback and adjust presentation  
is very important  
ability to think on your feet

##### Non-verbal communication and body language

[all categories]  
placement of hands  
stance  
head movements  
eye movements

|                      |                                    |
|----------------------|------------------------------------|
| <b>Organise</b>      | [all categories]                   |
|                      | past                               |
|                      | present                            |
|                      | future                             |
|                      | introduction                       |
|                      | body                               |
|                      | conclusion                         |
| <b>Prepared talk</b> | [all categories]                   |
|                      | preparation time                   |
|                      | practice                           |
|                      | research topic and audience        |
|                      | ability to use visual aids         |
| <b>Relevant</b>      | [all categories]                   |
|                      | interesting                        |
|                      | informative                        |
|                      | on the subject advertised          |
|                      | motivational                       |
| <b>Talk</b>          | [all categories]                   |
|                      | short                              |
|                      | long                               |
|                      | prepared                           |
|                      | impromptu                          |
| <b>Visuals</b>       | [all categories]                   |
|                      | overhead transparencies            |
|                      | slides                             |
|                      | photographs                        |
|                      | handouts                           |
|                      | video recording                    |
|                      | PowerPoint or digital presentation |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements

### Critical aspects of evidence to be considered

Assessment must confirm sufficient knowledge of how to plan, distribute, explain and evaluate rules and regulations

Assessment of performance should be over a period of time covering all categories from the Range Statements

Assessment must confirm the ability to apply knowledge and appropriate techniques to

prepare plans for publication and distribution of international, national and local rules and regulations for a specified activity

prepare plans for publications and distribution of the code of conduct for the specified activity

explain interpretations of the rules and regulations for the specified activity

evaluate the effectiveness of current rules and regulations

prepare plans for implementing changes to current rules and regulation

### Interdependent assessment of units

This unit must be assessed after attainment of competency in the following unit(s)

Nil

This unit must be assessed in conjunction with the following unit(s)

Nil

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s)

Nil

## **Required knowledge and skills**

### **Required knowledge**

Knowledge of planning knowledge in order to develop plans of activity rules and regulations for publication and distribution

Knowledge of publication processes in order to manage the publication process of activity rules and regulations

Knowledge of distribution processes in order to manage the distribution process of activity rules and regulations

Knowledge of relevant rules and regulations and their interpretations

Knowledge of communication systems in order to ensure the requirements of the publication and distribution processes are understood by all relevant persons

### **Required skills**

Interpersonal skills in order to develop rapport with all relevant persons

Communication (written and verbal) skills in order to effectively communicate with all persons relevant to the development of activity rules and regulations

Planning skills to effectively plan the publication and distribution of activity rules and regulations

Organisational skills in order to ensure the organisation of the development of activity rules and regulations is efficient and effective

Evaluation skills in order to assess the procedures used and make recommendations for modifications where necessary

## **Resource implications**

Physical resources - assessment of this competency requires access to

relevant guidelines, policies and procedures

Human resources - assessment of this unit of competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must

be competent in this unit

be competent in sports administration at the appropriate level

be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area

have attained the mandatory competency requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the **Standards for Registered Training Organisations**

### **Consistency in performance**

Due to the issues such as variable sports administration situations, this unit of competency must be assessed over a period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to sports administration

### **Context for assessment**

This unit of competency must be assessed in the context of a sporting activity with a range of real clients. For valid and reliable assessment the activity should be conducted in a real or simulated environment with sporting participants. The environment should be safe, with noise to a level experienced with an activity in full operation and support serviced provided for optimum performance

This unit of competency should be assessed through the observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes

Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of

locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## KEY COMPET ENCIES

| Collect,<br>Analyse&O<br>rganise<br>Information | Communic<br>ate<br>Ideas&Info<br>rmation | Plan&Orga<br>nise<br>Activities | Work with<br>Others&in<br>Teams | Use<br>Mathematic<br>al<br>Ideas&Tec<br>hniques | Solve<br>Problems | Use<br>Technology |
|-------------------------------------------------|------------------------------------------|---------------------------------|---------------------------------|-------------------------------------------------|-------------------|-------------------|
| 3                                               | 2                                        | 2                               | 3                               | -                                               | 3                 | 1                 |

These levels do not relate to the Australian Qualifications Framework. They relate to the seven areas of generic competency that underpin effective workplace practices.

The three levels of performance (1, 2 and 3) denote the level of competency required to perform the task:

Use routine approaches

Select from  
routine  
approaches

Establish  
new  
approaches

**Collecting,  
analysing  
and  
organising  
informatio  
n** - Collect  
information  
on rules  
and  
regulations

**Communic  
ating ideas  
and  
informatio  
n** - Develop  
code or  
conduct  
and rules  
and  
regulations

**Planning  
and  
organising  
activities** -  
Prepare  
plans for  
publicatio  
ns

**Working  
with teams  
and others**  
- Seek  
advice from  
others

**Using  
mathemati  
cal ideas  
and  
techniques**  
- Not

applicable

**Solving problems -**

Consult rules and regulations to resolve problems

**Using technology**

- Use computer to prepare documentation

Please refer to the Assessment Guidelines for advice on how to use the Key Competencies.

## Range Statement

### Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency

### RANGE STATEMENT

#### Plan

### CATEGORIES

[all categories]

transition

communication of change

effective date

publication and distribution of amendments

**Publishing requirements**

[all categories]  
copyright  
printers agreement  
members

**Rationale**

[all categories]

| 5 <b>Conduct post-event evaluations</b>                         | <p>5.1 Assess delivery of event to determine whether the original needs were met effectively and efficiently</p> <p>5.2 Prepare <b>reports</b> and make recommendations are made</p>                                                                                                                                                                                                                                                                                                                                                                                           |

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

### Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements

### Critical aspects of evidence to be considered

Assessment must confirm sufficient knowledge of coordinating special events in the work environment

Assessment of performance should be over a period of time covering the prescribed number of categories from the Range Statements

In particular, assessment must confirm the ability to

identify gaps in the market for the delivery of special events

plan, budget and set timelines for a special event that is in line with goals and objectives of the organisation

coordinate the activities of team members during a special event

contingency plans are developed to be implemented in the event of a deviation from set operating procedures during the special event

prepare reports detailing an assessment of the special event

finalise financial accounts and prepare financial records for inspection by the auditor

### Interdependent assessment of units

This unit must be assessed after attainment of competency in the following unit(s)

SRXEVT002B Organise meeting/event and provide on-site meeting/event management

services

This unit must be assessed in conjunction with the following unit(s)

Nil

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s)

SRXEVT004B Plan and manage conferences on behalf of management to achieve identified goals

SRXEVT008A Process and monitor event registrations

SRXEVT009A Develop a transport strategy for an event

SRXEVT010A Manage an event across a number of facilities

SRXEVT011A Environmental issues and events

SRXEVT012A Liaise with state/local government agencies

THHGCS05B Organise in-house functions

THTFME05A Select event venues and sites

THTFME06A Manage event contractors

THTFME07A Organise and monitor infrastructure for outdoor events

THTFME08A Integrate technology into the event management process

THTFME09A Develop and update knowledge of protocol

THTPPD08B Plan and develop event proposals and bids

THTPPD09B Develop conference programs

THTPPD10B Develop and implement sponsorship plans

## Required knowledge and skills

Required knowledge

Organisation's policy and procedures for the

management of meetings/events

Organisation's policy and procedures for contracting suppliers

Organisation's procedures for coordinating a function or event

Occupational Health and Safety (OH&S) and risk management procedures for coordination of functions and events

Knowledge of typical technical requirements for functions

Knowledge of typical layouts for functions

Development of promotional displays and material

Public relations knowledge for servicing of clients

Organisation's procedures for processing of accounts to be paid

Industrial Relations Act

Insurance laws

Local government by-laws

Required skills

Organisational skills in terms of event planning

Use of technology and equipment for coordination of events

Referral skills to identify to whom to refer difficulties with the venue or equipment

Research skills to seek information on the current market for events

Problem solving skills to identify the best course of action if equipment does not work during an event and/or insufficient staff or food arrives

Literacy skills to clarify information on current market gaps for special events

## Resource implications

Physical resources - assessment of this competency requires access to

market research on special events

Human resources - assessment of this unit of competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must

be competent in this unit but preferably be competent in the unit at the level above

be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area

have attained the mandatory competency requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the **Standards for Registered Training Organisations**

### **Consistency in performance**

Due to issues such as dealing with various sectors within the market, this unit of competency must be assessed over a period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to conducting market research and identifying possible gaps in the delivery of special events

### **Context for assessment**

This unit of competency must be assessed in the context of a sport or recreation activity with a range of real clients. For valid and reliable assessment the sport or recreation activity should closely replicate the work environment. The environment should be safe with the hazards, circumstances and equipment likely to be encountered in a real workplace

Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes

Where performance is not directly observed and/or is required to be demonstrated over a

"period of time" and/or in a "number of locations", any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## KEY COMPET ENCIES

| Collect,<br>Analyse&O<br>rganise<br>Information | Communic<br>ate<br>Ideas&Info<br>rmation | Plan&Orga<br>nise<br>Activities | Work with<br>Others&in<br>Teams | Use<br>Mathematic<br>al<br>Ideas&Tec<br>hniques | Solve<br>Problems | Use<br>Technology |
|-------------------------------------------------|------------------------------------------|---------------------------------|---------------------------------|-------------------------------------------------|-------------------|-------------------|
| 2                                               | 2                                        | 3                               | 2                               | -                                               | 2                 | 1                 |

These levels do not relate to the Australian Qualifications Framework. They relate to the seven areas of generic competency that underpin effective workplace practices.

The three levels of performance (1, 2 and 3) denote the level of competency required to perform the task:

Use routine

approaches

Select from  
routine  
approaches

Establish  
new  
approaches

**Collecting,  
analysing  
and  
organising  
informatio  
n -**

Analysing  
information  
to  
determine  
trends and

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

### Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements

### Critical aspects of evidence to be considered

Assessment must confirm sufficient knowledge of the factors influencing the development of a risk management plan for the management of spectators at an event or program in the work environment

Assessment of performance should be over a number of events/programs covering the prescribed number of categories from the Range Statements

In particular, assessment must confirm the ability to

ensure the risk management plan identifies all the risks associated with the event or

program, puts steps in place to minimise the identified risks and complies with all legal and organisational requirements

ensure enough personnel are on hand to effectively manage the expected number of spectators

ensure personnel, procedures and equipment are in place to effectively deal with an emergency

### **Interdependent assessment of units**

This unit must be assessed after attainment of competency in the following unit(s)

SRXRIK002A Manage an organisation's risk

SRXEMR002A Coordinate emergency response

SRX EVT002B Organise meeting/event and provide on-site meeting/event management services

This unit must be assessed in conjunction with the following unit(s)

Nil

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s)

SRX EVT005B Manage special events

### **Required knowledge and skills**

Required knowledge

Comprehensive knowledge of typical event/program management systems

Issues and problems relating to overall event/program management

Organisation's policy and procedures for the management of events/programs

Occupational Health and Safety (OH&S) and risk management procedures for coordination of events/programs

Knowledge of typical technical requirements for events/programs

Public relations knowledge for servicing of

clients/guests/delegate/speakers

Occupational Health and Safety (OH&S)  
legislation

Relevant insurances for the staging of an  
event/program

#### Required skills

Organisational skills in terms of event  
planning

Analysis skills to assess risks associated with  
the staging of events/programs

Use of technology and equipment for  
coordination of events/programs in order to  
assess systems

Referral skills to identify to whom to refer  
questionable safety aspects of the staging of  
the event/program

Research skills to seek information on the  
legal requirements associated with the  
event/program

Problem solving skills in order to advise  
coordinator of the event of the most  
appropriate course of action in an emergency

Literacy skills to clarify information on  
procedures and systems for the management  
of events

Organisational skills in terms of  
events/programs planning

Use of technology and equipment for  
coordination of events/programs

#### Resource implications

Physical resources - assessment of this  
competency requires access to

a real event or program in order to develop  
and implement a risk management plan

Human resources - assessment of this unit of  
competency will require human resources  
consistent with those outlined in the  
Assessment Guidelines. That is, assessors (or  
persons within the assessment team) must

be competent in this unit but preferably be competent in the unit at the level above

be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area

have attained the mandatory competency requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the **Standards for Registered Training Organisations**

### **Consistency in performance**

Due to issues such as dealing with different venues with differing layouts, this unit of competency must be assessed over a number of events/programs in order to ensure consistency of performance over the Range Statements and contexts applicable to managing spectators at an event

### **Context for assessment**

This unit of competency must be assessed in the context of a sport or recreation event/program with a range of real clients. For valid and reliable assessment the sport or recreation event/program should closely replicate the work environment. The environment should be safe with the hazards, circumstances and equipment likely to be encountered in a real workplace

Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes

Where performance is not directly observed and/or is required to be demonstrated over a "period of time" and/or in a "number of locations", any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## **KEY COMPET ENCIES**

| Collect, Analyse & Organise Information | Communicate Ideas & Information | Plan & Organise Activities | Work with Others & in Teams | Use Mathematical Ideas & Techniques | Solve Problems | Use Technology |
|-----------------------------------------|---------------------------------|----------------------------|-----------------------------|-------------------------------------|----------------|----------------|
| 3                                       | 3                               | 3                          | 3                           | 2                                   | 3              | 2              |

These levels do not relate to the Australian Qualifications Framework. They relate to the seven areas of generic competency that underpin effective workplace practices.

The three levels of performance (1, 2 and 3) denote the level of competency required to perform the task:

Use routine approaches

Select from routine approaches

Establish new approaches

**Collecting, analysing**

**and  
organising  
information -**

Collecting  
information  
on the  
venue and  
the event

**Communic  
ating ideas  
and  
information -**

Briefing  
staff  
members  
on the  
emergencie  
s  
procedures  
to be  
adopted

**Planning  
and  
organising  
activities -**

Planning  
evacuation  
routes in  
the event of  
an  
emergency

**Working  
with teams  
and others**

- Working  
with venue  
staff to  
develop  
policies

**Using  
mathemati  
cal ideas  
and  
techniques**

-

Estimating  
anticipated  
numbers of  
spectators  
at an event

**Solving  
problems -**

Dealing  
with a first  
aid  
emergency  
at a venue

**Using  
technology**

- Using a  
fire  
extinguishe  
r in the  
event of  
fire at the  
venue

Please refer  
to the  
Assessment  
Guidelines  
for advice  
on how to  
use the Key  
Competenci  
es.

## Range Statement

### Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency

#### RANGE STATEMENT

**Emergency**

#### CATEGORIES

[four categories]

|                         |                                                         |
|-------------------------|---------------------------------------------------------|
|                         | fire                                                    |
|                         | earthquake                                              |
|                         | bombing                                                 |
|                         | chemical leak or spill                                  |
|                         | riot                                                    |
|                         | illegal entry                                           |
|                         | alcohol                                                 |
|                         | drugs                                                   |
|                         | medical emergency                                       |
|                         | equipment failure                                       |
|                         | stage failure or collapse                               |
| <b>Event or program</b> | [two categories]                                        |
|                         | festivals                                               |
|                         | sport events                                            |
|                         | competitions                                            |
|                         | community events                                        |
|                         | functions                                               |
|                         | conferences                                             |
|                         | holiday programs                                        |
|                         | celebrations                                            |
|                         | arts events                                             |
|                         | performances                                            |
|                         | complex event or program                                |
|                         | long lead time - more than three months                 |
|                         | large organising team or group - more than three people |
|                         | several events within the overall event of program      |
|                         | participant and/or audience origin varied               |
|                         | complex organisational structure                        |
| <b>Facilities</b>       | [two categories]                                        |
|                         | stadiums                                                |
|                         | arenas                                                  |

| Element                                                                     | Performance Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-----------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 Identify the roles of governance and management                           | <p>1.1 Differentiate and document the member, governance and management issues of the organisation in the <b>organisation's governance policy guidelines</b></p> <p>1.2 Identify, document and refer to the relationships between governance issues and management issues</p>                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2 Facilitate the development of an effective Board                          | <p>2.1 Provide information to enable the <b>Board</b> to analyse the efficiency and effectiveness of the organisation in meeting its stated objectives and performance targets</p> <p>2.2 Ensure new Directors understand the way that the <b>Board</b> operates and the <b>organisation's governance policy guidelines</b></p> <p>2.3 Highlight continuing professional development opportunities to the attention of all Directors</p> <p>2.4 Monitor relevant aspects of the appropriate federal, state and local <b>legislation</b> and by-laws for organisation compliance and provide advice to ensure Directors follow legal requirements when carrying out <b>Board</b> duties</p> |
| 3 Provide detailed information for the Board to deal with the right matters | <p>3.1 Ensure the <b>Board</b> is aware of <b>emerging issues</b> in the industry that are likely to have an impact on the organisation's business</p> <p>3.2 Evaluate the identified <b>emerging issues</b> within a risk management and due diligence framework for their impact on the organisation and provide this information to the <b>Board</b></p> <p>3.3 Differentiate governance and management issues of the organisation to ensure the <b>Board</b> deals with the right matters</p> <p>3.4 Collate a well structured <b>Board</b> paper, containing all necessary information items and including a recommendation from management, for all agenda items</p>                 |

- 3.5 Ensure **Board** members receive the papers in sufficient time to study them before the meeting
  - 3.6 Establish processes to source appropriate internal and external professional advice for Directors to inform their decision-making (where required)
  - 3.7 Establish processes to deal with extraordinary matters that arise outside scheduled meetings
- 4 **Ensure that Board decisions are implemented properly**
  - 4.1 Ensure complete and accurate minutes are recorded and reported to the **Board**
  - 4.2 Identify and implement actions that flow from the decisions clearly
  - 4.3 Implement the appropriate policies and procedures to support the Board's decisions within agreed timeframes
  - 4.4 Advise the **Board** promptly of **issues** affecting the implementation of **Board** decisions
- 5 **Ensure regular communication with the Board**
  - 5.1 Provide information and advice regularly to the **Board** to foster informed decision-making
  - 5.2 Brief the Chairperson in great detail on all substantive issues at all times
  - 5.3 Seek clear instructions from the **Board** in order to implement specific policy directions (as required)
  - 5.4 Seek feedback from the **Board** in relation to the performance of staff regarding implementation of the specific policy directions

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

### Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of

competence and should be read in conjunction with the Range Statements

**Critical aspects of evidence to be considered**

Assessment must confirm sufficient knowledge of working effectively with the Board of a recreation organisation or facility in the work environment

Assessment of performance should be over a period of time covering all categories of the Range Statements that are applicable in the learner's environment

In particular, assessment must confirm the ability to

differentiate between management and governance issues

ensure the Board follows the organisation's governance policy guidelines

facilitate the establishment of an effective Board team

arrange for the Board to deal with the right matters

provide sufficient documentation for the Board to reach informed decisions

ensure that the decisions are implemented properly

communicate regularly with the Board and ensure the Chairperson is well briefed on current issues affecting the organisation

**Interdependent assessment of units**

This unit must be assessed after attainment of competency in the following unit(s)

Nil

This unit must be assessed in conjunction with the following unit(s)

Nil

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s)

Nil

## Required knowledge and skills

### Required knowledge

Knowledge of the business and operations of the organisation as it relates to the formulation of strategic directions

Knowledge of the legal framework under which the organisation operates and the Memorandum and/or Articles of Association of the organisation

Knowledge of roles and responsibilities of particular functions on the Board such as Chairperson, Secretary and Director

Knowledge of the role policies and procedures play in the effective running of an organisation

Knowledge of the separation of the governance (Board) and management (Chief Executive Officer) functions of the organisation and how the management issues are effectively functions of the Board that are delegated to the Chief Executive Officer (CEO)

Knowledge of human resource management practices as they relate to the development of effective working relationships between paid staff and volunteer Boards

### Required skills

Literacy and numeracy skills as they relate to the reading, comprehension, evaluation and analysis of documentation that relates to the organisation's strategic direction, governance policy guidelines and the monitoring of trends in industry

Research skills as they relate to the monitoring of trends in industry

Verbal communication skills as they relate to the presentation of information to the Board

Written communication skills as they relate to the presentation of papers at a Board meeting

Consultation skills as they relate to the

meaningful engagement of relevant Board members in the organisation's operations

Policy development skills as they relate to the drafting of, consultation on and endorsement of policies and procedures for the effective operation of the organisation

Facilitation and project management skills as they relate to the implementation of Board decisions

Leadership skills as they relate to demonstration of appropriate individual standards of performance, influencing others, making decisions, facilitating group decision - making and the utilisation of appropriate leadership styles

## Resource implications

Physical resources - assessment of this competency requires access to

either real or simulated organisations and their respective Board processes

Human resources - assessment of this unit of competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must

be competent in this unit but preferably be competent in the unit at the level above

be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area

have attained the mandatory competency requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the **Standards for Registered Training Organisations**

## Consistency in performance

Due to issues such as the varied issues that are required to be discussed by a Board, this unit of competency must be assessed over period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to working

effectively with the Board or management committee of a sport or recreation organisation

### Context for assessment

This unit of competency must be assessed in the context of working effectively with the Board or management committee of a sport or recreation organisation

Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes

Where performance is not directly observed and/or is required to be demonstrated over a "period of time" and/or in a "number of locations", any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

### KEY COMPETENCIES

| Collect, Analyse&Organise Information | Communicate Ideas&Information | Plan&Organise Activities | Work with Others&in Teams | Use Mathematical Ideas&Techniques | Solve Problems | Use Technology |
|---------------------------------------|-------------------------------|--------------------------|---------------------------|-----------------------------------|----------------|----------------|
| 3                                     | 3                             | 3                        | 3                         | 3                                 | 3              | 2              |

These levels do not relate to the Australian Qualifications Framework. They relate to the seven areas of generic competency that

underpin  
effective  
workplace  
practices.

The three  
levels of  
performanc  
e (1, 2 and  
3) denote  
the level of  
competency  
required to  
perform the  
task:

Use routine  
approaches

Select from  
routine  
approaches

Establish  
new  
approaches

**Collecting,  
analysing  
and  
organising  
informatio  
n -**

Collecting  
information  
on the core  
business of  
the  
organisatio  
n

**Communic  
ating ideas  
and  
informatio  
n -**

Reporting  
to the  
Board on a  
task that  
was

allocated

**Planning  
and  
organising  
activities -**

Planning  
and  
organising  
regular  
Board  
meetings

**Working  
with teams  
and others**

- Working  
with memb  
ers of a  
Board of an  
organisatio  
n

**Using  
mathemati  
cal ideas  
and**

**techniques**  
- Analysing  
financial  
documents  
for the  
organisatio  
n

**Solving  
problems -**

Identifying  
the need to  
hold an  
extraordina  
ry meeting

**Using  
technology**

- Taking  
part in a  
teleconfere  
nce

Please refer  
to the

Assessment  
Guidelines  
for advice  
on how to  
use the Key  
Competenci  
es.

## Range Statement

### Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency

#### RANGE STATEMENT

#### CATEGORIES

##### Board

[all categories]

refers to Boards or committees of management responsible for the governance of a recreation organisation or facility as distinct from the management operations

Board members may be paid Directors or volunteers

##### Emerging issues

[all categories]

may include but not limited to

the Corporate Law Economic Reform Bill (1998)

technology

information

##### Legislation

[all categories]

specific laws

Corporation law

the Corporations law, the complimentary State legislation and the Ordinances of the relevant Territories

the Company Law Review Act (1998)  
the Corporate Law Economic Reform Bill  
(1998)

Associations law  
Trade Practices law  
Competition  
consumer protection  
Contract law  
Environmental law  
Taxation law  
Regulatory compliance

laws relating to people  
Industrial Relations/Workplace Relations  
Act  
Occupational Health and Safety (OH&S)  
Acts  
Employment  
Equal Opportunity and Anti - Discrimination  
Child Protection  
Volunteer Workers Insurance  
Public Liability  
Workers compensation  
business specific laws

laws relating to business  
Income Tax Act  
Payroll Acts  
Stamp duty Act  
Liquor Licensing Acts  
Landlord and Tenant  
Goods and Services Tax (GST) Act  
Copyright Act  
Trade Marks Act

**Organisation's governance policy guidelines**

business specific laws and acts

[all categories]

would include policies and processes in the areas of

role of Board

Board structure

role of individual Directors

role of Chairperson

role of Company Secretary

role of Chief Executive Officer (CEO)

Board meetings

Board meeting agenda

Board papers

Board minutes

the Board calendar

committees

delegation of authority

monitoring

strategy formulation

service/advice

contacts

Chief Executive Officer (CEO) evaluation

Director protection

Board evaluation

Director development

Director selection and induction

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

### Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements

#### Critical aspects of evidence to be considered

Assessment must confirm sufficient knowledge of typical symptoms and causes of conflict in the work environment and conflict resolution techniques

Assessment of performance should be over the resolution of a minimum of three (3) different conflict situations, covering the prescribed number of categories from the Range Statements

Assessment must confirm the ability to apply this knowledge and appropriate techniques to identify sources of conflict in the workplace resolve a range of different conflict situations, using different options for resolution

use suitable communication skills to facilitate effective discussion between all parties and achieve resolution

#### Interdependent assessment of units

This unit must be assessed after attainment of competency in the following unit(s)

Nil

This unit must be assessed in conjunction with the following unit(s)

Nil

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s)

Nil

#### Required knowledge and skills

Required knowledge

Signs and stages of conflict in the workplace

Possible causes/sources of conflict  
(ideational, status and power, goal conflict)

Functions of conflict (functional and  
dysfunctional)

Options for constructive responses to typical  
conflict situations

Required skills

Interpersonal skills

Participation in small informal work groups

Problem solving

Ability to gather, record, and convey  
information

## Resource implications

Physical resources - assessment of this unit  
of competency requires access to

real or simulated work group situations

access to information relevant to the  
workplace

Human resources - assessment of this unit of  
competency will require human resources  
consistent with those outlined in the  
Assessment Guidelines. That is, assessors (or  
persons within the assessment team) must

be competent in this unit but preferably be  
competent in the unit at the level above

be current in their knowledge and  
understanding of the industry through  
provision of evidence of professional activity  
in the relevant area

have attained the mandatory competency  
requirements for assessors under the  
Australian Quality Training Framework  
(AQTF) as specified in Standard 7.3 of the  
**Standards for Registered Training  
Organisations**

## Consistency in performance

Due to issues such as differences in conflict  
situations, this unit of competency must be

assessed over the resolution of a minimum of three (3) different conflict situations, to ensure consistency of performance over the Range Statements and contexts applicable to conflict arising in workplaces

### Context for assessment

This unit of competency must be assessed in the context of responding to a conflict issue arising during a sport or recreation activity for a group of clients. For valid and reliable assessment the clients should be real, i.e., not peers, and the sport or recreation activity should be similar to those that occur in the learners work environment. The environment should be safe with the hazards, circumstances and equipment likely to be encountered in a real workplace

Assessment of this unit of competency will usually include observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes

Where performance is not directly observed and/or is required to be demonstrated over a "period of time" and/or in a "number of locations", any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

### KEY COMPETENCIES

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements

#### Critical aspects of evidence to be considered

Assessment must confirm sufficient knowledge of managing volunteers in the work environment

Assessment of performance should be over a period of time covering one category from the industry sector and all other categories of all the Range Statements that are applicable in the learner's environment

Assessment must confirm the ability to apply this knowledge and appropriate techniques to

ensure the organisation's human resources plan and financial plan incorporate the requirements of the organisation's volunteers

ensure sufficient volunteers are recruited and maintained to fulfil all functions identified as a volunteer function

ensure appropriate training is provided to volunteers to maximise their contribution to the organisation

undertake periodical counselling and reviews with volunteers and incorporate identified areas of concern in future planning processes

#### Interdependent assessment of units

This unit must be assessed after attainment of competency in the following unit(s)

BSBMGT605A Provide leadership across the organisation

This unit must be assessed in conjunction with the following unit(s)

Nil

For the purpose of integrated assessment,

this unit may be assessed in conjunction with the following unit(s)

BSBHR402A Recruit and select personnel

### **Required knowledge and skills**

Required knowledge

Recruitment methods and training processes

Organisation's policy and procedures for developing job descriptions

Organisation's strategic planning processes

Work supervision

Team facilitation

Insurance and relevant policies

Organisational systems, policy and procedures for industrial awards and agreements

Equal Employment Opportunity legislation

Occupational Health and Safety legislation

Required skills

Communication - written and verbal

Team and human resource management

Counselling/mentoring

### **Resource implications**

Physical resources - Assessment of this unit of competency requires access to

A real work environment in which volunteers play a vital role

Associated resources and information relevant to the work environment

Human resources - Assessment of this unit of competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) should

be competent in this unit but preferably be competent in the unit at the level above

be current in their knowledge and understanding of the industry through

provision of evidence of professional activity in the relevant area

have attained the National Competency Standards for Assessment: BSZ 401A, BSZ 402A and BSZ 403A

### Consistency in performance

Due to issues such as variations in contextual issues, this unit of competency must be assessed over a period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to the learner's work environment

### Context of assessment

This unit of competency must be assessed in the context of a sport or recreation activity with the participation of volunteers. For valid and reliable assessment the sport or recreation activity should closely replicate the work environment. The environment should be safe with the hazards, circumstances and equipment likely to be encountered in a real workplace

This unit of competency should be assessed through the observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes

Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

### Key competencies

| Collect, Analyse&Organise Information | Communicate Ideas&Information | Plan&Organise Activities | Work with Others&in Teams | Use Mathematical Ideas&Techniques | Solve Problems | Use Technology |
|---------------------------------------|-------------------------------|--------------------------|---------------------------|-----------------------------------|----------------|----------------|
| 2                                     | 2                             | 2                        | 2                         | -                                 | 2              | -              |

These levels do not relate to the Australian Qualifications Framework. They relate to the seven areas of generic competency that underpin effective workplace practices.

The three levels of performance (1, 2 and 3) denote the level of competency required to perform the task:

Use routine approaches

Select from routine approaches

Establish new approaches

**Collecting, analysing and organising information -**

Collecting and evaluating information

on  
organisatio  
nal needs  
and  
matching  
volunteers  
to meet  
needs

**Communic  
ating ideas  
and  
informatio  
n -**

Communic  
ating  
information  
both shared  
and in a  
confidential  
context  
with  
colleagues  
and  
volunteers

**Planning

mathematical ideas  
and  
techniques**

- Not  
applicable

**Solving  
problems -**  
Resolving  
difficulties  
experienced  
by  
volunteers

**Using  
technology**  
- Not  
applicable

Please refer  
to the  
Assessment  
Guidelines  
for advice  
on how to  
use the Key  
Competencies.

## Range Statement

### RANGE STATEMENTS

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency

### RANGE STATEMENT

**Industry sector**

### CATEGORIES

[one category]

sport

**Position description**

fitness  
outdoor recreation  
community recreation

[all categories]  
elements, including  
required knowledge  
skills and attributes  
responsibilities  
accountability  
commitment  
rewards  
reimbursement of costs  
uniform

**Relevant legislation and industry codes**

[all categories]  
may include but are not limited to  
Occupational Health and Safety  
consumer affairs  
equal opportunity  
company code  
organisation articles of association  
professional association regulations  
codes and guidelines

**Role of volunteers**

[all categories]  
identify roles, including  
coach  
fundraiser  
instructor  
judge  
umpire  
referee  
administrator  
organiser  
leader

catering  
team support  
management of events  
projects  
finance  
administration of facilities  
administration of equipment/uniforms  
assist with marketing/promotions  
technical assistance  
maintenance  
run events  
supervision of children  
activity leaders  
transport

**Social and other motivations**

[all categories]  
factors impacting on motivation, including:  
socialisation  
enjoyment  
loyalty  
desire to do something different  
support of family members and/or friends  
meet new people  
break from routine  
sense of involvement  
learn new skills  
increased self esteem  
pathway to employment  
travel  
acknowledgment  
status

**Target areas**

[all categories]  
may include but are not limited to  
past and present membership

## Unit Descriptor

This unit specifies the competence required to plan and organise the assessment process in a competency-based assessment system.

### Competency Field

Assessment

### Application of the Unit

This unit addresses the competence of planning the assessment process and making the organisational arrangements which enable assessment to occur. It is applicable in both a learning and assessment pathway and an assessment only pathway.

The critical focus of this unit is on developing an assessment plan that will be used to guide assessor/s in conducting competency-based assessments. The unit also covers contextualisation of the assessment benchmarks and assessment tools to address the environment in which assessment will take place and organising the human, material and physical resources needed to conduct the assessment.

This competence applies to planning and organising an assessment process which may involve single or multiple candidates being assessed against individual or multiple unit/s of competency in a process that includes a number of assessment events or activities over time.

The planning function in assessment is distinguished as a discrete activity and may be undertaken by the assessor responsible for assessing the candidates reflected in the assessment plan or by another person in the organisation.

This competence may be applied in the context of an existing assessment strategy which documents the overall framework for assessment at a qualification level. In this context, the assessment plan adds further detail relating to the specific organisational arrangements for assessment/s against individual unit/s of competency.

The competence of developing an assessment strategy is separately addressed in two other units of the TAA04 Training and Assessment Training Package: **TAADES501A Design and develop learning strategies** (in a learning and assessment pathway) and **TAAASS501A Lead and co-ordinate assessment systems and services** (in an assessment only pathway).

The achievement of this unit includes interpretation of competency standards, (where competency standards are used as the benchmarks for assessment). **TAADES401A Use Training Packages to meet client needs** addresses this skill in depth.

The competence specified in this unit is typically required by assessors, workplace supervisors with assessment planning responsibilities, trainers or other assessors responsible for planning assessment.

This unit specifies the competence required to plan and organise the assessment process in a competency-based assessment system.

  - 2.6 Roles and responsibilities of all people involved in the assessment process are clarified, agreed and documented
  - 2.7 Timelines and time periods for evidence collection are determined and all information to be included in the assessment plan is documented
  - 2.8 The assessment plan is confirmed with relevant personnel
- 3 Contextualise and review assessment plan
- 3.1 Characteristics of the candidate/s and any allowances for reasonable adjustments and/or specific needs are identified/clarified with relevant people and documented
  - 3.2 Where required, competency standards are contextualised, to reflect the operating environment in which assessment will occur, in accordance with contextualisation guidelines
  - 3.3 Selected assessment methods and assessment tools are examined and adjusted, where required, to ensure continuing applicability taking into account:
    - any contextualisation of competency standards, -
    - reasonable adjustment/s, where identified, -
    - integration of assessment activities, where appropriate and practical, -
    - capacity to support application for recognition of current competence
  - 3.4 Adjusted assessment tools are reviewed to ensure the specifications of the competency standards are still addressed
  - 3.5 The assessment plan is updated, as needed, to reflect ongoing contextualisation needs, any changes in organisational resource requirements or changes in response to the conduct of assessment
  - 3.6 Assessment plan/s are stored and retrieved in accordance with assessment system policies and procedures and legal/organisational/ethical requirements

- |   |                                  |     |                                                                                                                                                                                |
|---|----------------------------------|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4 | Organise assessment arrangements | 4.1 | Identified material and physical resource requirements are arranged in accordance with assessment system policies and procedures and legal/organisational/ethical requirements |
|   |                                  | 4.2 | Any specialist support required for assessment is organised and arranged in accordance with organisational/ethical/legal requirements, where required                          |
|   |                                  | 4.3 | Roles and responsibilities of all people involved in the assessment process are organised                                                                                      |
|   |                                  | 4.4 | Effective communication strategies are established to encourage regular communication flow and feedback with relevant people involved in the assessment process                |
|   |                                  | 4.5 | Assessment record keeping and reporting arrangements are confirmed                                                                                                             |

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

The Evidence Guide provides advice to inform and support appropriate assessment of this unit. It contains an overview of assessment followed by identification of specific aspects of evidence that will need to be addressed in determining competence. The Evidence Guide is an integral part of the unit and should be read and interpreted in conjunction with the other components of competency.

Assessment must reflect the endorsed Assessment Guidelines of the TAA04 Training and Assessment Training Package.

### Overview of Assessment

To demonstrate competence against this unit candidates must be able to provide evidence that they have developed an assessment plan and organised the material resources and personnel to support the assessment process.

The evidence provided must describe how the purpose of assessment was identified; contain structured plans that detail the selection/confirmation of assessment methods and tools, and assessment environments; include appropriate communication strategies with relevant people regarding the assessment process; outline resource requirements and special assistance required throughout the assessment process; and include recording and reporting requirements.

## **Evidence Requirements**

### **Required knowledge includes:**

competency-based assessment: work focused, criterion referenced, standards-based, evidence-based

the different purposes of assessment and different assessment contexts

how to read and interpret the identified competency standards as the benchmarks for assessment

how to contextualise competency standards within relevant guidelines

the four principles of assessment and how they guide the assessment process

what is evidence and different types of evidence

the four rules of evidence and how they guide evidence collection

different types of assessment methods, including suitability for collecting various types of evidence

assessment tools and their purpose; different types of tools; relevance of different tools for specific evidence gathering opportunities

different resource requirements for assessment and associated costs

where to source other relevant assessment information and how to incorporate this into the plan

the principles of inclusivity, and strategies for reasonable adjustment, without compromise to the competency standards

sources and types of specialist support to candidates

methodologies suitable for reviewing assessment tools

the assessment system policies and procedures established by the industry and/or organisation

risks and requirements associated with different assessment applications in various contexts, including:

capacities of assessors at higher AQF levels

when linked to licensing

legal implications of assessing competence

the relevant organisational/legal/ethical requirements impacting on the planning and organisation of assessment, as set out in the Range Statement of the relevant competency standards

other relevant policy, legislation, codes of practice and national standards including national Commonwealth and state/territory legislation for example:

- copyright and privacy laws in terms of electronic technology
- security of information
- plagiarism
- licensing requirements
- anti-discrimination including equal opportunity, racial vilification and disability - discrimination
- workplace relations
- industrial awards/enterprise agreements

OHS responsibilities associated with planning and organising assessment, such as:

- hazards commonly found, and preferred risk controls for the specific assessment environment
- OHS procedures to be observed in the assessment process
- safe use and maintenance of relevant equipment
- sources of OHS information

**Required skills and attributes include:**

cognitive interpretation skills to:

- accurately interpret competency standards and other assessment documentation
- identify opportunities for integrated competency assessment
- contextualise competency standards to the operating assessment environment
- sort information

observation skills to:

- assess the effectiveness of the organisation's assessment operations
- identify where improvement to the assessment process can be made

technology skills to:

- use appropriate equipment and software to communicate effectively with others

research and evaluation skills to:

- obtain competency standards and other assessment information, assessment tools and other relevant --assessment resources
- research candidate characteristics and any reasonable adjustment needs
- identify and confirm required material and physical resources
- evaluate feedback, and determine and implement improvements to processes
- make recommendations

planning skills relating to formulation of the assessment plan

organisational skills relating to organising resources required

literacy skills to:

- read and interpret relevant information to design and facilitate assessment and recognition processes
- prepare required documentation and information for those involved in assessment processes

communication skills to:

- discuss assessment processes with clients and assessors
- establish professional relationships and networks

sensitivity to access and equity considerations and candidate diversity

capacity to promote and implement equity, fairness, validity, reliability and flexibility in planning an -assessment process

**Products that could be used as evidence include:**

assessment plans

modified/adjusted assessment tools to allow for specific needs

contextualised competency standards

documentation of consultations with clients and other stakeholders regarding the assessment purpose and context

**Processes that could be used as evidence include:**

how competency standards and other documents were interpreted

how assessment activities were scheduled

how resources were identified and obtained

how communication systems were used to include relevant stakeholders in the planning process

how assistance was sought from individuals providing specialist support

**Resource implications for assessment include:**

access to relevant Training Package/s

access to assessment materials and tools

access to other relevant assessment information

access to suitable assessment venue/equipment

workplace documentation

cost/time considerations

personnel requirements

**The collection of quality evidence requires that:**

assessment must address the scope of this unit and reflect all components of the unit, i.e. the Elements, Performance Criteria, Range Statement, Evidence Requirements and Key Competencies

a range of appropriate assessment methods/evidence gathering techniques is used to determine competency

evidence must be gathered in the workplace whenever possible. Where no workplace is available, a simulated workplace must be provided

the evidence collected must relate to a number of performances assessed at different points in time and in a learning and assessment pathway these must be separated by further learning and practice

assessment meets the rules of evidence

a judgement of competence should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated

**Specific evidence requirements must include:**

evidence of planning and organising the assessment process on a minimum of two occasions. The evidence collected must:

- address the provision of documented assessment plans
- cover a range of assessment events
- cater for a number of candidates
- relate to different competency standards or accredited curricula
- address recognition assessment
- involve the contextualisation of competency standards and the selected assessment tools, where required
- incorporate consideration of reasonable adjustment strategies
- include organisational arrangements

**Integrated assessment means that:**

this unit can be assessed alone or as part of an integrated assessment activity involving relevant units in the TAA04 Training and Assessment Training Package. Suggested units include but are not limited to:

TAAASS402A Assess competence

TAAASS403A Develop assessment tools

TAAASS404A Participate in assessment validation

TAADES401A Use Training Packages to meet client needs.

The Evidence Guide provides advice to inform and support appropriate assessment of this unit. It contains an overview of assessment followed by identification of specific aspects of evidence that will need to be addressed in determining competence. The Evidence Guide is an integral part of the unit and should be read and interpreted in conjunction with the other components of competency.

Assessment must reflect the endorsed Assessment Guidelines of the TAA04 Training and Assessment Training Package.

## Overview of Assessment

To demonstrate competence against this unit candidates must be able to provide evidence that they have developed an assessment plan and organised the material resources and personnel to support the assessment process.

The evidence provided must describe how the purpose of assessment was identified; contain structured plans that detail the selection/confirmation of assessment methods and tools, and assessment environments; include appropriate communication strategies with relevant people regarding the assessment process; outline resource requirements and special assistance required throughout the assessment process; and include recording and reporting requirements.

## Evidence Requirements

### Required knowledge includes:

competency-based assessment: work focused, criterion referenced, standards-based, evidence-based

the different purposes of assessment and different assessment contexts

how to read and interpret the identified competency standards as the benchmarks for assessment

how to contextualise competency standards within relevant guidelines

the four principles of assessment and how they guide the assessment process

what is evidence and different types of evidence

the four rules of evidence and how they guide evidence collection

different types of assessment methods, including suitability for collecting various types of evidence

assessment tools and their purpose; different types of tools; relevance of different tools for specific evidence gathering opportunities

different resource requirements for assessment and associated costs

where to source other relevant assessment information and how to incorporate this into the plan

the principles of inclusivity, and strategies for reasonable adjustment, without compromise to the competency standards

sources and types of specialist support to candidates

methodologies suitable for reviewing assessment tools

the assessment system policies and procedures established by the industry and/or organisation

risks and requirements associated with different assessment applications in various contexts, including:

capacities of assessors at higher AQF levels

when linked to licensing

legal implications of assessing competence

the relevant organisational/legal/ethical requirements impacting on the planning and organisation of assessment, as set out in the Range Statement of the relevant competency standards

other relevant policy, legislation, codes of practice and national standards including national Commonwealth and state/territory legislation for example:

- copyright and privacy laws in terms of electronic technology
- security of information
- plagiarism
- licensing requirements
- anti-discrimination including equal opportunity, racial vilification and disability - discrimination
- workplace relations
- industrial awards/enterprise agreements

OHS responsibilities associated with planning and organising assessment, such as:

- hazards commonly found, and preferred risk controls for the specific assessment environment
- OHS procedures to be observed in the assessment process
- safe use and maintenance of relevant equipment
- sources of OHS information

**Required skills and attributes include:**

cognitive interpretation skills to:

- accurately interpret competency standards and other assessment documentation
- identify opportunities for integrated competency assessment
- contextualise competency standards to the operating assessment environment
- sort information

observation skills to:

- assess the effectiveness of the organisation's assessment operations
- identify where improvement to the assessment process can be made

technology skills to:

- use appropriate equipment and software to communicate effectively with others

research and evaluation skills to:

- obtain competency standards and other assessment information, assessment tools and other relevant --assessment resources
- research candidate characteristics and any reasonable adjustment needs
- identify and confirm required material and physical resources
- evaluate feedback, and determine and implement improvements to processes

- make recommendations

planning skills relating to formulation of the assessment plan

organisational skills relating to organising resources required

literacy skills to:

- read and interpret relevant information to design and facilitate assessment and recognition processes

- prepare required documentation and information for those involved in assessment processes

communication skills to:

- discuss assessment processes with clients and assessors

- establish professional relationships and networks

sensitivity to access and equity considerations and candidate diversity

capacity to promote and implement equity, fairness, validity, reliability and flexibility in

planning an -assessment process

**Products that could be used as evidence include:**

assessment plans

modified/adjusted assessment tools to allow for specific needs

contextualised competency standards

documentation of consultations with clients and other stakeholders regarding the assessment purpose and context

**Processes that could be used as evidence include:**

how competency standards and other documents were interpreted

how assessment activities were scheduled

how resources were identified and obtained

how communication systems were used to include relevant stakeholders in the planning process

how assistance was sought from individuals providing specialist support

**Resource implications for assessment include:**

access to relevant Training Package/s

access to assessment materials and tools

access to other relevant assessment information

access to suitable assessment venue/equipment

workplace documentation

cost/time considerations

personnel requirements

**The collection of quality evidence requires that:**

assessment must address the scope of this unit and reflect all components of the unit, i.e. the Elements, Performance Criteria, Range Statement, Evidence Requirements and Key Competencies

a range of appropriate assessment methods/evidence gathering techniques is used to determine competency

evidence must be gathered in the workplace whenever possible. Where no workplace is available, a simulated workplace must be provided

the evidence collected must relate to a number of performances assessed at different points in time and in a learning and assessment pathway these must be separated by further learning and practice

assessment meets the rules of evidence

a judgement of competence should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated

**Specific evidence requirements must include:**

evidence of planning and organising the assessment process on a minimum of two occasions. The evidence collected must:

- address the provision of documented assessment plans
- cover a range of assessment events
- cater for a number of candidates
- relate to different competency standards or accredited curricula
- address recognition assessment
- involve the contextualisation of competency standards and the selected assessment tools, where required
- incorporate consideration of reasonable adjustment strategies
- include organisational arrangements

**Integrated assessment means that:**

this unit can be assessed alone or as part of an integrated assessment activity involving relevant units in the TAA04 Training and Assessment Training Package. Suggested units include but are not limited to:

TAAASS402A Assess competence

TAAASS403A Develop assessment tools

TAAASS404A Participate in assessment validation

TAADES401A Use Training Packages to meet client needs.

## Range Statement

The Range Statement adds definition to the unit by elaborating critical or significant aspects of the performance requirements of the unit. The Range Statement establishes the range of indicative meanings or applications of these requirements in different operating contexts and conditions. The specific aspects which require elaboration are identified by the use of italics in the Performance Criteria.

### **Purpose/s of assessment may include:**

- recognise current existing competence of candidate/s
- determine if competence has been achieved following learning
- establish candidate/s progress towards achievement of competence
- determine language, literacy, numeracy needs of candidates/s
- certify competence through a Statement of Attainment
- establish progress towards a qualification
- determine training gaps of candidate/s
- measure work performance
- classify employees/support career progression
- meet organisational requirements for work - operate equipment/develop new skills
- licensing or regulatory requirements

### **Context of assessment may include:**

- the environment in which the assessment will be carried out, including real work/simulation
- opportunities for collecting evidence in a number of situations
- who carries out the assessment
- relationships between competency standards and work activities in the candidate's workplace
- relationships between competency standards and learning activities
- auspicing and partnership arrangements
- the period of time during which the assessment takes place
- apportionment of costs/fees, if applicable
- quality assurance mechanisms
- individual unit or integrated approaches to competency assessment

### **Relevant people must include:**

- the candidate/s
- the assessor/s responsible for conducting the assessment/s, which may be self or other assessors

### **Relevant people may include:**

- the client, company or organisation

team leaders, managers, supervisors  
delivery personnel  
technical/subject experts  
training and assessment coordinators  
industry regulators  
employee and employer representatives  
members of professional associations  
Commonwealth department official/Centrelink  
personnel/caseworker  
New Apprenticeship Centre (NAC) personnel

**Legal/organisational/ethical requirements may include:**

assessment system policies and procedures  
assessment strategy requirement  
reporting, recording and retrieval systems for assessment  
quality assurance systems  
business and performance plans  
access and equity policies and procedures  
collaborative/partnership arrangements  
defined resource parameters  
mutual recognition arrangements  
industrial relations systems and processes, awards/enterprise agreements  
Australian Quality Training Framework (AQTF) standards on assessment  
registration scope  
human resources policies/procedures  
legal requirements including anti-discrimination, equal employment, job  
role/responsibilities/conditions  
relevant industry codes of practice  
confidentiality and privacy requirements  
OHS considerations, including:  
ensuring OHS requirements are adhered to during the assessment process  
identifying and reporting OHS hazards and concerns to relevant personnel

**The assessment strategy is a documented framework to guide and structure assessment arrangements for a vocational education and training qualification. In a learning and assessment pathway it is addressed as part of the learning strategy. In an assessment only pathway it is a separate document.**

**The assessment strategy may encompass:**

the identification of the competency standards forming the qualification and interpretation of the packaging rules of the qualification, where part of a Training Package interpretation of the competency standards as the benchmarks for assessment application of Training Package Assessment Guidelines, where part of a Training Package arrangements for recognition of existing competence (RCC/RPL), including provision of guidance and assistance to candidates in gathering and evaluating evidence determination of assessment methods for identified competency standards selection of assessment tools for identified competency standards organisational arrangements for assessment, including physical and human resources, roles and responsibilities and partnership arrangements (where relevant)

- nominated quality assurance mechanisms
- identified risk management strategies

**Benchmark/s for assessment refers to:**

the criterion against which the candidate is assessed which, may be a competency standard/unit of competency, assessment criteria of course curricula, performance specifications, product specifications

**Evidence is:**

material collected which, when matched against the specifications in the competency standards, provides proof of competency achievement

**Types of evidence may include:**

direct, e.g. observation of work activities under real/simulated work conditions, examples of work products

indirect, e.g. third party reports from a range of sources

supplementary, e.g. question and answer, work records, training records, portfolios

candidate gathered evidence

assessor gathered evidence

current/recent/historical

combination of above

**The rules of evidence guide the evidence collection process to ensure evidence is:**

valid, for example:

- address the elements and Performance Criteria
- reflect the skills and knowledge described in the relevant unit/s of competency
- show application in the context described in the Range Statement
- demonstrate performance skills and knowledge are applied in real/simulated workplace situations

current, for example:

- demonstrate the candidate's current skills and knowledge
- comply with current standards

sufficient, for example:

- demonstrate competence over a period of time
- demonstrate repeatable competence
- not inflate the language, literacy and numeracy requirements beyond those required in performing the work task

authentic, for example:

- be the work of the candidate
- be corroborated/verified

**All component parts of the competency standards refers to:**

Elements

Performance Criteria

Range Statement including advice on :

- range of contexts/conditions to be met in assessment
- aspects of the Performance Criteria that can be contextualised
- information which adds definition to support assessment
- links to knowledge and skills
- underpinning language, literacy and numeracy requirements

Evidence Guide requirements, including:

- underpinning/required knowledge
- underpinning/required skills and attributes
- underpinning language, literacy and numeracy requirements
- Key Competencies/generic skills
- critical aspects of evidence to be considered/quality evidence requirements
- concurrent assessment and interdependence of units
- assessment methods/resources/context

dimensions of competency, which include:

- task skills
- task management skills
- contingency management skills
- job role/environment skills

**Related documentation may include:**

requirements set out in the Assessment Guidelines of the relevant Training Package/s

information from the competency standards about the resources required for assessment, the assessment context, appropriate assessment methods

assessment activities identified in accredited modules derived from the relevant competency standards

assessment activities in Support Materials related to the relevant competency standards

any requirements of OHS, legislation, codes of practice, standards and guidelines

indicators and levels of competence of the National Reporting System

organisational requirements for demonstration of work performance

product specifications

**Assessment methods are the particular techniques used to gather different types of evidence and may include:**

direct observation, for example:

- real work/real time activities at the workplace
- work activities in a simulated workplace environment

structured assessment activities, for example:

- simulation exercises/role-plays
- projects
- assignments
- presentations
- activity sheets

questioning, for example:

- written questions, e.g. on a computer
- interviews
- self-assessment
- verbal questioning questionnaires
- oral/written examinations (for higher AQF levels)

portfolios, for example:

- collections of work samples by the candidate
- product with supporting documentation
- historical evidence
- journal/log book
- information about life experience

review of products, for example:

- products as a result of a project
- work samples/products

third party feedback, for example:

- testimonials/reports from employers/supervisors
- evidence of training
- authenticated prior achievements
- interview with employer, supervisor, peers

**Assessment tools contain:**

the instruments developed from the selected assessment methods to be used for gathering evidence such as:

- a profile of acceptable performance measures
- templates/proformas
- specific questions or activities
- evidence/observation checklists
- checklists for the evaluation of work samples
- candidate self-assessment materials
- the procedures, information and instructions for the assessor/candidate relating to the use of assessment instruments and assessment conditions

**Selected/confirmed means:**

selected on the basis that they are suitable and effective in collecting the evidence in light of the purpose and context

confirmed in accordance with the assessment strategy, where appropriate

**Principles of assessment are:**

validity

reliability

flexibility

fairness

**Material and physical resources may include:**

documents required for the assessors and candidates, including competency standards and assessment tools

plant and equipment

technology

personal protective equipment

venues for assessment

adaptive technologies

physical adjustments to assessment environment

**Assessment plan is the overall planning document for the assessment process and may include:**

- the purpose and aims of the assessment
- the context of assessment
- relevant competency standards to be used as the benchmarks for assessment
- other assessment information/documentation identified as relevant
- identified personnel
- identified assessment methods and assessment tools
- possibilities for clustering units of competency for assessment purposes
- identified OHS hazards, including assessed risks and control strategies
- material and/or physical resources required
- organisational arrangements for conducting assessment
- OHS reporting requirements
- any special assessment needs, e.g. personal protective equipment requirements
- outline of assessment milestones, time lines and target dates
- candidate self-assessment procedures
- connections to relevant organisational plans, policies and procedures

**Relevant personnel may include:**

- self in such contexts as one-person/small training and/or assessment organisation
- lead assessor
- training and/or assessment supervisor/coordinator
- training and/or assessment manager

**Characteristics of the candidate/s may include:**

- level of work experience
- level and experiences of previous learning and assessment
- motivation for assessment - personal/organisational
- English language, literacy and/or numeracy levels/needs
- physical impairment or disability involving hearing, vision, voice, mobility
- intellectual impairment or disability
- medical condition such as arthritis, epilepsy, diabetes, asthma that is not obvious but may impact on assessment
- differences in learning progress
- psychiatric or psychological disability
- religious and spiritual observances

cultural background images/perceptions

age

gender

**Reasonable adjustments and/or specific needs must not compromise the integrity of the competency standards and may include:**

adjustments to the assessment process taking into account candidate's language, literacy, numeracy requirements

provision of personal support services, for example, reader, interpreter, attendant carer, scribe, member of community in attendance

use of adaptive technology or special equipment

flexible assessment sessions to allow for fatigue or administering of medication

format of assessment materials, for example, in braille, first language, use of audiotape/videotape

adjustments to the physical environment or venue

revising proposed assessment methods/tools

considerations relating to age and/or gender,

considerations relating to cultural beliefs, traditional practices, religious observances

**Contextualised means:**

to change the wording of some component parts of the competency standard to reflect the immediate operating environment

**Contextualisation guidelines relate to:**

ANTA Guidelines on Training Package Contextualisation

relevant Training Package contextualisation guidelines

**Recognition of current competence is defined as:**

the process of assessment and formal recognition by an assessor of competence currently held by a candidate which has been gained through any combination of formal, informal training and education, work experience or real life experiences

**Assessment system policies and procedures may include:**

candidate selection

rational and purpose of competency-based assessment

assessment records/data management/information management

recognition of current competency/recognition of prior learning/credit arrangements

assessors - needs, qualifications, maintaining currency

assessment reporting procedures

assessment appeals

candidate grievances/complaints

validation  
evaluation/internal audit  
costs/resourcing  
access and equity/reasonable adjustment  
partnership arrangements  
links with human resource or industrial relations systems  
links with overall quality management system

**Specialist support may include:**

assistance by third party - carer, interpreter  
development of online assessment activities  
support for remote or isolated candidates and/or assessors  
support from subject matter or safety experts  
advice from regulatory authorities  
assessment teams/panels  
support from lead assessors  
advice from policy development experts

**Communication strategies may include:**

interviews (face-to-face or telephone)  
email, memos and correspondence  
meetings  
video conferencing/e-based learning  
focus groups

The Range Statement adds definition to the unit by elaborating critical or significant aspects of the performance requirements of the unit. The Range Statement establishes the range of indicative meanings or applications of these requirements in different operating contexts and conditions. The specific aspects which require elaboration are identified by the use of italics in the Performance Criteria.

**Purpose/s of assessment may include:**

recognise current existing competence of candidate/s  
determine if competence has been achieved following learning  
establish candidate/s progress towards achievement of competence  
determine language, literacy, numeracy needs of candidates/s  
certify competence through a Statement of Attainment  
establish progress towards a qualification  
determine training gaps of candidate/s

measure work performance

classify employees/support career progression

meet organisational requirements for work - operate equipment/develop new skills

licensing or regulatory requirements

**Context of assessment may include:**

the environment in which the assessment will be carried out, including real work/simulation

opportunities for collecting evidence in a number of situations

who carries out the assessment

relationships between competency standards and work activities in the candidate's workplace

relationships between competency standards and learning activities

auspicing and partnership arrangements

the period of time during which the assessment takes place

apportionment of costs/fees, if applicable

quality assurance mechanisms

individual unit or integrated approaches to competency assessment

**Relevant people must include:**

the candidate/s

the assessor/s responsible for conducting the assessment/s, which may be self or other assessors

**Relevant people may include:**

the client, company or organisation

team leaders, managers, supervisors

delivery personnel

technical/subject experts

training and assessment coordinators

industry regulators

employee and employer representatives

members of professional associations  
Commonwealth department official/Centrelink  
personnel/caseworker

New Apprenticeship Centre (NAC) personnel

**Legal/organisational/ethical requirements may include:**

assessment system policies and procedures

assessment strategy requirement

reporting, recording and retrieval systems for assessment

quality assurance systems  
business and performance plans  
access and equity policies and procedures  
collaborative/partnership arrangements  
defined resource parameters  
mutual recognition arrangements  
industrial relations systems and processes, awards/enterprise agreements  
Australian Quality Training Framework (AQTF) standards on assessment  
registration scope  
human resources policies/procedures  
legal requirements including anti-discrimination, equal employment, job  
role/responsibilities/conditions  
relevant industry codes of practice  
confidentiality and privacy requirements  
OHS considerations, including:  
ensuring OHS requirements are adhered to during the assessment process  
identifying and reporting OHS hazards and concerns to relevant personnel

**The assessment strategy is a documented framework to guide and structure assessment arrangements for a vocational education and training qualification. In a learning and assessment pathway it is addressed as part of the learning strategy. In an assessment only pathway it is a separate document.**

**The assessment strategy may encompass:**

the identification of the competency standards forming the qualification and  
interpretation of the packaging rules of the qualification, where part of a Training Package  
interpretation of the competency standards as the benchmarks for assessment  
application of Training Package Assessment Guidelines, where part of a Training Package  
arrangements for recognition of existing competence (RCC/RPL), including provision of  
guidance and assistance to candidates in gathering and evaluating evidence  
determination of assessment methods for identified competency standards  
selection of assessment tools for identified competency standards  
organisational arrangements for assessment, including physical and human resources, roles  
and responsibilities and partnership arrangements (where relevant)  
nominated quality assurance mechanisms  
identified risk management strategies

**Benchmark/s for assessment refers to:**

the criterion against which the candidate is assessed which, may be a competency standard/unit of competency, assessment criteria of course curricula, performance specifications, product specifications

**Evidence is:**

material collected which, when matched against the specifications in the competency standards, provides proof of competency achievement

**Types of evidence may include:**

direct, e.g. observation of work activities under real/simulated work conditions, examples of work products

indirect, e.g. third party reports from a range of sources

supplementary, e.g. question and answer, work records, training records, portfolios

candidate gathered evidence

assessor gathered evidence

current/recent/historical

combination of above

**The rules of evidence guide the evidence collection process to ensure evidence is:**

valid, for example:

- address the elements and Performance Criteria
- reflect the skills and knowledge described in the relevant unit/s of competency
- show application in the context described in the Range Statement
- demonstrate performance skills and knowledge are applied in real/simulated workplace situations

current, for example:

- demonstrate the candidate's current skills and knowledge
- comply with current standards

sufficient, for example:

- demonstrate competence over a period of time
- demonstrate repeatable competence
- not inflate the language, literacy and numeracy requirements beyond those required in performing the work task

authentic, for example:

- be the work of the candidate
- be corroborated/verified

**All component parts of the competency standards refers to:**

Elements

Performance Criteria

Range Statement including advice on :

- range of contexts/conditions to be met in assessment
- aspects of the Performance Criteria that can be contextualised
- information which adds definition to support assessment
- links to knowledge and skills
- underpinning language, literacy and numeracy requirements

Evidence Guide requirements, including:

- underpinning/required knowledge
- underpinning/required skills and attributes
- underpinning language, literacy and numeracy requirements
- Key Competencies/generic skills
- critical aspects of evidence to be considered/quality evidence requirements
- concurrent assessment and interdependence of units
- assessment methods/resources/context

dimensions of competency, which include:

- task skills
- task management skills
- contingency management skills
- job role/environment skills

**Related documentation may include:**

requirements set out in the Assessment Guidelines of the relevant Training Package/s

information from the competency standards about the resources required for assessment, the assessment context, appropriate assessment methods

assessment activities identified in accredited modules derived from the relevant competency standards

assessment activities in Support Materials related to the relevant competency standards

any requirements of OHS, legislation, codes of practice, standards and guidelines

indicators and levels of competence of the National Reporting System

organisational requirements for demonstration of work performance

product specifications

**Assessment methods are the particular techniques used to gather different types of evidence and may include:**

direct observation, for example:

- real work/real time activities at the workplace
- work activities in a simulated workplace environment

structured assessment activities, for example:

- simulation exercises/role-plays
- projects
- assignments
- presentations
- activity sheets

questioning, for example:

- written questions, e.g. on a computer
- interviews
- self-assessment
- verbal questioning questionnaires
- oral/written examinations (for higher AQF levels)

portfolios, for example:

- collections of work samples by the candidate
- product with supporting documentation
- historical evidence
- journal/log book
- information about life experience

review of products, for example:

- products as a result of a project
- work samples/products

third party feedback, for example:

- testimonials/reports from employers/supervisors
- evidence of training
- authenticated prior achievements
- interview with employer, supervisor, peers

**Assessment tools contain:**

the instruments developed from the selected assessment methods to be used for gathering evidence such as:

- a profile of acceptable performance measures
- templates/proformas
- specific questions or activities
- evidence/observation checklists
- checklists for the evaluation of work samples

- candidate self-assessment materials
- the procedures, information and instructions for the assessor/candidate relating to the use of assessment instruments and assessment conditions

**Selected/confirmed means:**

selected on the basis that they are suitable and effective in collecting the evidence in light of the purpose and context

confirmed in accordance with the assessment strategy, where appropriate

**Principles of assessment are:**

validity

reliability

flexibility

fairness

**Material and physical resources may include:**

documents required for the assessors and candidates, including competency standards and assessment tools

plant and equipment

technology

personal protective equipment

venues for assessment

adaptive technologies

physical adjustments to assessment environment

**Assessment plan is the overall planning document for the assessment process and may include:**

the purpose and aims of the assessment

the context of assessment

relevant competency standards to be used as the benchmarks for assessment

other assessment information/documentation identified as relevant

identified personnel

identified assessment methods and assessment tools

possibilities for clustering units of competency for assessment purposes

identified OHS hazards, including assessed risks and control strategies

material and/or physical resources required

organisational arrangements for conducting assessment

OHS reporting requirements

any special assessment needs, e.g. personal protective equipment requirements

outline of assessment milestones, time lines and target dates

candidate self-assessment procedures

connections to relevant organisational plans, policies and procedures

**Relevant personnel may include:**

self in such contexts as one-person/small training and/or assessment organisation

lead assessor

training and/or assessment supervisor/coordinator

training and/or assessment manager

**Characteristics of the candidate/s may include:**

level of work experience

level and experiences of previous learning and assessment

motivation for assessment - personal/organisational

English language, literacy and/or numeracy levels/needs

physical impairment or disability involving hearing, vision, voice, mobility

intellectual impairment or disability

medical condition such as arthritis, epilepsy, diabetes, asthma that is not obvious but may impact on assessment

differences in learning progress

psychiatric or psychological disability

religious and spiritual observances

cultural background images/perceptions

age

gender

**Reasonable adjustments and/or specific needs must not compromise the integrity of the competency standards and may include:**

adjustments to the assessment process taking into account candidate's language, literacy, numeracy requirements

provision of personal support services, for example, reader, interpreter, attendant carer, scribe, member of community in attendance

use of adaptive technology or special equipment

flexible assessment sessions to allow for fatigue or administering of medication

format of assessment materials, for example, in braille, first language, use of audiotape/videotape

adjustments to the physical environment or venue

revising proposed assessment methods/tools

considerations relating to age and/or gender,

considerations relating to cultural beliefs, traditional practices, religious observances

**Contextualised means:**

to change the wording of some component parts of the competency standard to reflect the immediate operating environment

**Contextualisation guidelines relate to:**

ANTA Guidelines on Training Package Contextualisation

relevant Training Package contextualisation guidelines

**Recognition of current competence is defined as:**

the process of assessment and formal recognition by an assessor of competence currently held by a candidate which has been gained through any combination of formal, informal training and education, work experience or real life experiences

**Assessment system policies and procedures may include:**

candidate selection

rational and purpose of competency-based assessment

assessment records/data management/information management

recognition of current competency/recognition of prior learning/credit arrangements

assessors - needs, qualifications, maintaining currency

assessment reporting procedures

assessment appeals

candidate grievances/complaints

validation

evaluation/internal audit

costs/resourcing

access and equity/reasonable adjustment

partnership arrangements

links with human resource or industrial relations systems

links with overall quality management system

**Specialist support may include:**

assistance by third party - carer, interpreter

development of online assessment activities

support for remote or isolated candidates and/or assessors

support from subject matter or safety experts

advice from regulatory authorities

assessment teams/panels

support from lead assessors

advice from policy development experts

**Communication strategies may include:**

interviews (face-to-face or telephone)

email, memos and correspondence

meetings

video conferencing/e-based learning

focus groups

**Unit Sector(s)**

Not applicable.

## TAAASS402A Assess competence

### Modification History

Not applicable.

### Unit Descriptor

This unit specifies the competence required to assess the competence of a candidate.

#### Competency Field

Assessment

#### Application of the Unit

This unit addresses the competence of conducting competency assessment in accordance with a developed assessment plan. It includes assessment carried out in an assessment and learning pathway as well as assessment conducted in an assessment only pathway.

The critical focus of this unit is on interpreting the collected evidence and making a judgement of competence against the specified competency standards by applying the principles of assessment and rules of evidence. This unit also covers demonstration of the professional relationship between assessor and candidate/s and the skills needed to support this relationship.

The achievement of this unit includes interpretation of competency standards, (where competency standards are used as the benchmarks for assessment). **TAADES401A Use Training Packages to meet client needs** addresses this skill in depth.

This unit does not address the development of an assessment plan or organisation of required resources for assessment, which is addressed in **TAAASS401A Plan and organise assessment**.

The competence specified in this unit is typically required by assessors.

This unit specifies the competence required to assess the competence of a candidate.

#### Competency Field

Assessment

#### Application of the Unit

This unit addresses the competence of conducting competency assessment in accordance with a developed assessment plan. It includes assessment carried out in an assessment and learning pathway as well as assessment conducted in an assessment only pathway.

The critical focus of this unit is on interpreting the collected evidence and making a judgement of competence against the specified competency standards by applying the principles of assessment and rules of evidence. This unit also covers demonstration of the professional relationship between assessor and candidate/s and the skills needed to support this relationship.

The achievement of this unit includes interpretation of competency standards, (where competency standards are used as the benchmarks for assessment). **TAADES401A Use Training Packages to meet client needs** addresses this skill in depth.

This unit does not address the development of an assessment plan or organisation of required resources for assessment, which is addressed in **TAAASS401A Plan and organise assessment**.

The competence specified in this unit is typically required by assessors.

## Elements and Performance Criteria

### Elements and Performance Criteria

| Element                                             | Performance Criteria                                                                                                                                                                                                                                                                                                                                                                       |
|-----------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 Establish and maintain the assessment environment | <p>1.1 The assessment plan is interpreted and assessment system policies and procedures and organisational/legal/ethical requirements for conducting assessment are confirmed with relevant people</p> <p>1.2 The relevant benchmarks for assessment and nominated assessment tools are accessed and interpreted to confirm the evidence to be collected and how it is to be collected</p> |

- 1.3 Details of the assessment plan and the assessment process are explained, discussed and clarified with the candidate including opportunities for assessment, reasonable adjustment, reassessment and appeals
    - 1.4 Proposed changes to the assessment process are negotiated and agreed with the candidate, where relevant
- 2 Gather quality evidence
  - 2.1 The assessment plan is followed to guide the conduct of assessment and assessment methods and assessment tools are used to gather, organise and document evidence in a format suitable for determining competence
  - 2.2 The principles of assessment and rules of evidence are applied in gathering quality evidence
  - 2.3 Opportunities for evidence gathering in work activities/simulated work activities are determined with the candidate and relevant personnel
  - 2.4 Opportunities for integrated assessment activities are identified and assessment tools are modified, where required
  - 2.5 Identified assessment system policies and procedures and organisational/legal/ethical and requirements for assessment are addressed
- 3 Support the candidate
  - 3.1 Candidates are guided in gathering their own evidence to support recognition of current competence
  - 3.2 Appropriate communication and interpersonal skills are used to develop a professional relationship with the candidate which reflects sensitivity to individual differences and enables twoway feedback
  - 3.3 Decisions on reasonable adjustment/s, where applicable, are made with the candidate, based on candidate's needs and characteristics
  - 3.4 Reasonable adjustments must maintain the integrity of the relevant competency standards and provide balanced application of the principles of assessment and rules of evidence

- 3.5 Specialist support is accessed, where required, in accordance with the assessment plan
  - 3.6 Any occupational health and safety (OHS), risk to person or equipment is addressed immediately
- 4 Make the assessment decision
  - 4.1 Limitations in obtaining and evaluating quality evidence are identified and assistance is sought, where required, from relevant people
  - 4.2 Collected evidence is examined and evaluated to ensure that it reflects the evidence required to demonstrate competency and which: encompasses all component parts of the competency standards and the dimensions of competency (where competency standards are the benchmarks for assessment), addresses other related documentation, complies with the rules of evidence
  - 4.3 Judgement is used to infer whether competence has been demonstrated, based on the available evidence
  - 4.4 Relevant assessment system policies and procedures and organisational/legal/ethical considerations are addressed in making the assessment decision
  - 4.5 Clear and constructive feedback is provided to the candidate regarding the assessment decision and a follow-up action plan is developed, where required
- 5 Record and report the assessment decision
  - 5.1 Assessment outcomes are recorded promptly and accurately in accordance with assessment system policies and procedures and organisational/legal/ethical requirements
  - 5.2 An assessment report is completed and processed in accordance with assessment system policies and procedures and organisational/legal/ethical requirements
  - 5.3 Recommendations for follow up action are submitted to relevant people, where required
  - 5.4 Other relevant parties are informed of the assessment decision where required, and in accordance with confidentiality conventions

- |   |                               |     |                                                                                                                                                           |
|---|-------------------------------|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6 | Review the assessment process | 6.1 | The assessment process is reviewed against criteria in consultation with relevant people to improve and modify future assessment practice                 |
|   |                               | 6.2 | The review is documented and recorded in accordance with relevant assessment system policies and procedures and organisational/legal/ethical requirements |
|   |                               | 6.3 | Reflection skills are used to review and self-evaluate assessment practice                                                                                |

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

The Evidence Guide provides advice to inform and support appropriate assessment of this unit. It contains an overview of assessment followed by identification of specific aspects of evidence that will need to be addressed in determining competence. The Evidence Guide is an integral part of the unit and should be read and interpreted in conjunction with the other components of competency.

Assessment must reflect the endorsed Assessment Guidelines of the TAA04 Training and Assessment Training Package.

### Overview of Assessment

To demonstrate competence against this unit candidates must be able to provide evidence that they can assess the competence of another individual through a process of collecting and reviewing evidence and making an informed judgement.

The evidence provided must show: how the assessment environment was established and how the candidate's needs were met; how the units of competency were interpreted to determine the evidence requirements; how the assessment plan was followed; how the assessment tools were used in collecting evidence; the basis for the assessment decision using the rules of evidence; communication skills used to guide, support and provide feedback to the candidate during the assessment process; records and reports; and how the assessment process was reviewed.

### Evidence Requirements

#### Required knowledge includes:

competency-based assessment covering:

- vocational education and training as a competency-based system
- assessment is criterion referenced/distinction to norm referenced assessment

- criterion used in national VET is endorsed or accredited competency - standards defining specifications for performance of work/work functions and - skills/knowledge

- reporting of competency-based assessment

- competency standards as the basis of qualifications

- the principles of competency-based assessment

- the structure and application of competency standards

what are the principles of assessment and how are they applied (validity, reliability, fairness, flexibility)

what are the rules of evidence and how are they applied (valid, authentic, sufficient, current)

the range of assessment purposes and assessment contexts

different types of assessment methods, including suitability for gathering various types of evidence; suitability for content of units; resource requirements and associated costs

what are reasonable adjustments/when are they applicable/not applicable

basic evaluation methodologies suitable for reviewing personal assessment practice

types and forms of evidence, including assessment tools that are relevant to gathering different types of evidence

practical knowledge of the potential barriers and processes relating to assessment tools and methods

the assessment system and assessment policies and procedures established by the industry, organisation or training authority

cultural sensitivity and equity considerations

relevant policy, legislation, codes of practice and national standards including national Commonwealth and state/territory legislation for example:

- copyright and privacy laws in terms of electronic technology

- security of information

- plagiarism

- Training Packages/competency standards

- licensing requirements

- industry/workplace requirements

- duty of care under common law

- recording information and confidentiality requirements

- anti-discrimination including equal opportunity, racial vilification and disability - discrimination

- workplace relations

- industrial awards/enterprise agreements

OHS responsibilities associated with assessing competence such as:

- requirements for reporting hazards and incidents
- emergency procedures and procedures for use of relevant personal protective equipment
- safe use and maintenance of relevant equipment
- sources of OHS information

**Required skills and attributes include:**

analysis and interpretation skills to:

- unpack competency standards
- interpret assessment tools and other assessment information
- identify candidate needs
- make judgements based on assessing available evidence

observation skills to:

- determine candidate readiness for assessment
- observe candidate performance
- identify when candidate may need assistance throughout the assessment processes

research and evaluation skills to:

- access required human and material resources for assessment
- access assessment system policies and procedures
- evaluate evidence
- evaluate the assessment process

cognitive skills to:

- weigh up the evidence and make a judgement
- consider and recommend reasonable adjustments

decision making skills to:

- make a decision on a candidate's competence

literacy skills to:

- read and interpret relevant information to conduct assessment
- prepare required documentation and records/reports of assessment outcomes in required format

communications/interpersonal skills to:

- explain the assessment process to the candidate
- give clear and precise instructions
- ask effective questions
- provide clarification
- discuss process with other relevant people

- give appropriate feedback to the candidate
- discuss assessment outcome with the candidate
- using language appropriate to the candidate and assessment environment
- establish a working relationship with the candidate

attributes including:

- a willingness to guide and support candidates
- capacity to encourage, accept and utilise feedback
- sensitivity to individual difference and need
- ethical conduct in assessment

**Products that could be used as evidence include:**

completed assessment tools/templates/checklists

documentation of evidence collected and assessment decisions

feedback from candidate/assessor/supervisor

feedback to candidate with recommendations for future options

completed assessment records/reports

reviews of assessment practices and recommended changes to future practices

**Processes that could be used as evidence include:**

how competency standards and other documents were interpreted

how assessment activities were scheduled

how the assessment plan was modified to meet candidate needs

how evidence was collated and evaluated against the rules of evidence

**Resources implications for assessment include:**

access to candidates to be assessed

access to competency standards

access to assessment materials and tools

access to suitable assessment venue/equipment

workplace documentation

access to documentation/records of candidate to determine specific requirements

cost/time considerations

personnel requirements

**The collection of quality evidence requires that:**

assessment must address the scope of this unit and reflect all components of the unit, i.e. the Elements, Performance Criteria, Range Statement, Evidence Requirements and Key Competencies

a range of appropriate assessment methods/evidence gathering techniques is used to determine competency

evidence must be gathered in the workplace wherever possible. Where no workplace is available, a simulated workplace must be provided

the evidence collected must relate to a number of performances assessed at different points in time and in a learning and assessment pathway these must be separated by further learning and practice

assessment meets the rules of evidence

a judgement of competence should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated

**Specific evidence requirements must include:**

carrying out assessment of a number of candidates, assessed against different units of competency or accredited curricula, following the relevant assessment plan

at least one candidate must be assessed through an assessment only pathway

at least one assessment must include consideration of reasonable adjustment and the reasons for decisions and approach

all must show:

- the application of different assessment methods and tools involving a range of assessment activities and events
- demonstration of two-way communication and feedback
- how judgement was exercised in making the assessment decision how and when assessment outcomes were recorded and reported
- completion of assessment records/reports in accordance with assessment system - legal/organisational ethical requirements
- how the assessment process was reviewed and the review outcomes documented

**Integrated assessment means that:**

this unit can be assessed alone or as part of an integrated assessment activity involving relevant units in the TAA04 Training and Assessment Training Package. Suggested units include but are not limited to:

- TAAASS401A Plan and organise assessment
- TAAASS403A Develop assessment tools
- TAAASS404A Participate in assessment validation
- TAADES401A Use Training Packages to meet client needs.

The Evidence Guide provides advice to inform and support appropriate assessment of this unit. It contains an overview of assessment followed by identification of specific aspects of evidence that will need to be addressed in determining competence. The Evidence Guide is an integral part of the unit and should be read and interpreted in conjunction with the other components of competency.

Assessment must reflect the endorsed Assessment Guidelines of the TAA04 Training and Assessment Training Package.

### **Overview of Assessment**

To demonstrate competence against this unit candidates must be able to provide evidence that they can assess the competence of another individual through a process of collecting and reviewing evidence and making an informed judgement.

The evidence provided must show: how the assessment environment was established and how the candidate's needs were met; how the units of competency were interpreted to determine the evidence requirements; how the assessment plan was followed; how the assessment tools were used in collecting evidence; the basis for the assessment decision using the rules of evidence; communication skills used to guide, support and provide feedback to the candidate during the assessment process; records and reports; and how the assessment process was reviewed.

### **Evidence Requirements**

#### **Required knowledge includes:**

competency-based assessment covering:

- vocational education and training as a competency-based system
- assessment is criterion referenced/distinction to norm referenced assessment
- criterion used in national VET is endorsed or accredited competency - standards defining specifications for performance of work/work functions and - skills/knowledge
- reporting of competency-based assessment
- competency standards as the basis of qualifications
- the principles of competency-based assessment
- the structure and application of competency standards

what are the principles of assessment and how are they applied (validity, reliability, fairness, flexibility)

what are the rules of evidence and how are they applied (valid, authentic, sufficient, current)

the range of assessment purposes and assessment contexts

different types of assessment methods, including suitability for gathering various types of evidence; suitability for content of units; resource requirements and associated costs

what are reasonable adjustments/when are they applicable/not applicable

basic evaluation methodologies suitable for reviewing personal assessment practice

types and forms of evidence, including assessment tools that are relevant to gathering different types of evidence

practical knowledge of the potential barriers and processes relating to assessment tools and methods

the assessment system and assessment policies and procedures established by the industry, organisation or training authority

cultural sensitivity and equity considerations

relevant policy, legislation, codes of practice and national standards including national Commonwealth and state/territory legislation for example:

- copyright and privacy laws in terms of electronic technology
- security of information
- plagiarism
- Training Packages/competency standards
- licensing requirements
- industry/workplace requirements
- duty of care under common law
- recording information and confidentiality requirements
- anti-discrimination including equal opportunity, racial vilification and disability - discrimination
- workplace relations
- industrial awards/enterprise agreements

OHS responsibilities associated with assessing competence such as:

- requirements for reporting hazards and incidents
- emergency procedures and procedures for use of relevant personal protective equipment
- safe use and maintenance of relevant equipment
- sources of OHS information

**Required skills and attributes include:**

analysis and interpretation skills to:

- unpack competency standards
- interpret assessment tools and other assessment information
- identify candidate needs
- make judgements based on assessing available evidence

observation skills to:

- determine candidate readiness for assessment
- observe candidate performance
- identify when candidate may need assistance throughout the assessment processes

research and evaluation skills to:

- access required human and material resources for assessment
- access assessment system policies and procedures
- evaluate evidence

- evaluate the assessment process

cognitive skills to:

- weigh up the evidence and make a judgement
- consider and recommend reasonable adjustments

decision making skills to:

- make a decision on a candidate's competence

literacy skills to:

- read and interpret relevant information to conduct assessment
- prepare required documentation and records/reports of assessment outcomes in required format

communications/interpersonal skills to:

- explain the assessment process to the candidate
- give clear and precise instructions
- ask effective questions
- provide clarification
- discuss process with other relevant people
- give appropriate feedback to the candidate
- discuss assessment outcome with the candidate
- using language appropriate to the candidate and assessment environment
- establish a working relationship with the candidate

attributes including:

- a willingness to guide and support candidates
- capacity to encourage, accept and utilise feedback
- sensitivity to individual difference and need
- ethical conduct in assessment

**Products that could be used as evidence include:**

completed assessment tools/templates/checklists

documentation of evidence collected and assessment decisions

feedback from candidate/assessor/supervisor

feedback to candidate with recommendations for future options

completed assessment records/reports

reviews of assessment practices and recommended changes to future practices

**Processes that could be used as evidence include:**

how competency standards and other documents were interpreted

how assessment activities were scheduled

how the assessment plan was modified to meet candidate needs

how evidence was collated and evaluated against the rules of evidence

**Resources implications for assessment include:**

access to candidates to be assessed

access to competency standards

access to assessment materials and tools

access to suitable assessment venue/equipment

workplace documentation

access to documentation/records of candidate to determine specific requirements

cost/time considerations

personnel requirements

**The collection of quality evidence requires that:**

assessment must address the scope of this unit and reflect all components of the unit, i.e. the Elements, Performance Criteria, Range Statement, Evidence Requirements and Key Competencies

a range of appropriate assessment methods/evidence gathering techniques is used to determine competency

evidence must be gathered in the workplace wherever possible. Where no workplace is available, a simulated workplace must be provided

the evidence collected must relate to a number of performances assessed at different points in time and in a learning and assessment pathway these must be separated by further learning and practice

assessment meets the rules of evidence

a judgement of competence should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated

**Specific evidence requirements must include:**

carrying out assessment of a number of candidates, assessed against different units of competency or accredited curricula, following the relevant assessment plan

at least one candidate must be assessed through an assessment only pathway

at least one assessment must include consideration of reasonable adjustment and the reasons for decisions and approach

all must show:

- the application of different assessment methods and tools involving a range of assessment activities and events

- demonstration of two-way communication and feedback

- how judgement was exercised in making the assessment decision how and when assessment outcomes were recorded and reported
- completion of assessment records/reports in accordance with assessment system - legal/organisational ethical requirements
- how the assessment process was reviewed and the review outcomes documented

**Integrated assessment means that:**

this unit can be assessed alone or as part of an integrated assessment activity involving relevant units in the TAA04 Training and Assessment Training Package. Suggested units include but are not limited to:

- TAAASS401A Plan and organise assessment
- TAAASS403A Develop assessment tools
- TAAASS404A Participate in assessment validation
- TAADES401A Use Training Packages to meet client needs.

**Range Statement**

The Range Statement adds definition to the unit by elaborating critical or significant aspects of the performance requirements of the unit. The Range Statement establishes the range of indicative meanings or applications of these requirements in different operating contexts and conditions. The specific aspects which require elaboration are identified by the use of italics in the Performance Criteria.

**An assessment plan is the overall planning document for the assessment process and may include:**

the purpose and aims of the assessment

the context of assessment

identified personnel

relevant competency standards and other assessment documentation

evidence plan

identified assessment methods and assessment tools

possibilities for clustering units of competency for assessment purposes

identified OHS hazards, including assessed risks and control strategies

material/physical resources required

organisational arrangements for conducting assessment

OHS reporting requirements

any special assessment needs, e.g. personal protective equipment requirements

outline of assessment milestones, time lines and target dates

candidate self-assessment procedures

connections to relevant organisational plans, policies and procedures

**Assessment system policies and procedures may include:**

candidate selection

rational and purpose of competency-based assessment

assessment records/data management/information management

recognition of current competency/recognition of prior learning/credit arrangements

assessors - needs, qualifications, maintaining currency

assessment reporting procedures

assessment appeals

candidate grievances/complaints

validation

evaluation/internal audit

costs/resourcing

access and equity/reasonable adjustment

partnership arrangements

links with human resource or industrial relations systems

links with overall quality management system

**Organisational/legal/ethical requirements may include:**

assessment system policies and procedures

reporting, recording and retrieval systems for assessment

licensing/legal ramifications of assessing competence

requirements of training and/or assessment organisations relating to assessment and validation

quality assurance systems

business and performance plans

collaborative/partnership arrangements

policies, procedures and programs

defined resource parameters

mutual recognition arrangements

industrial relations systems and processes, awards/enterprise agreements

Australian Quality Training Framework (AQTF) Standards for Registered Training Organisations (RTOs), in particular Standard 8, RTO assessments

registration scope

human resources policies/procedures

legal requirements including anti-discrimination, equal employment, job role/responsibilities/conditions

relevant industry codes of practice

confidentiality and privacy requirements of information relating to completed assessments

OHS considerations, including:

ensuring OHS requirements are adhered to during the assessment process

identifying and reporting OHS hazards and concerns to relevant personnel

**Relevant people may include:**

the candidate/s

other assessors

the client, company or organisation

team leaders, managers, supervisors

trainers/facilitators

technical/subject experts

training and assessment coordinators

industry regulators

employee and employer representatives

members of professional associations

Commonwealth department official/Centrelink staff/caseworker

New Apprenticeship Centre (NAC) personnel

**Benchmark/s for assessment refers to:**

the criterion against which the candidate is assessed which, may be a competency standard/unit of competency, assessment criteria of course curricula, performance specifications, product specifications

**Assessment tools contain both the instrument and the procedures for gathering and interpreting evidence in accordance with designated assessment methods and may include:**

the instruments to be used for gathering evidence such as:

- a profile of acceptable performance measures
- templates/proformas
- specific questions or activities
- evidence/observation checklists
- checklists for the evaluation of work samples
- candidate self-assessment materials

the procedures, information and instructions for the assessor/candidate relating to the use of assessment instruments and assessment conditions

**Reasonable adjustment must not compromise the integrity of the competency standard and may include:**

adjustments to the assessment process taking into account candidate's language, literacy, numeracy requirements

provision of personal support services, for example, reader, interpreter, attendant carer, scribe, member of community in attendance

use of adaptive technology or special equipment

flexible assessment sessions to allow for fatigue or administering of medication

format of assessment materials, for example, in Braille, first language, use of audiotape/videotape

adjustments to the physical environment or venue

revising proposed assessment methods/tools

considerations relating to age and/or gender,

considerations relating to cultural beliefs, traditional practices, religious observances

**Assessment methods are the particular techniques used to gather different types of evidence and may include:**

direct observation, for example:

- real work/real time activities at the workplace
- work activities in a simulated workplace environment

structured activities, for example:

- simulation exercises/role-plays
- projects
- presentations
- activity sheets

questioning, for example:

- written questions, e.g. on a computer
- interviews
- self-assessment
- verbal questioning
- questionnaires
- oral/written examinations (for higher AQF levels)

portfolios, for example:

- collections of work samples by the candidate
- product with supporting documentation
- historical evidence

- journal/log book
  - information about life experience
- review of products, for example:
- products as a result of a project
  - work samples/products
- third party feedback, for example:
- testimonials/reports from employers/supervisors
  - evidence of training
  - authenticated prior achievements
  - interview with employer, supervisor, peer

**Principles of assessment guide the assessment process and must address:**

validity

reliability

flexibility

fairness

**Rules of evidence are closely related to the assessment principles and provide guidance on the collection of evidence to ensure that it is:**

valid

sufficient

authentic

current

**Quality evidence addresses the rules of evidence and must:**

encompass the Performance Criteria to demonstrate achievement of the outcomes (Elements)

reflect the skills, knowledge and attributes defined in the relevant units of competency

show application of the skills in the context described in the Range Statement

demonstrate competence over a period of time

demonstrate repeatable competence

be the work of the candidate

be able to be verified

demonstrate current skills/knowledge of the candidate

not inflate the language, literacy and numeracy requirements beyond those required in the performance of the competency

**Guided means to explain to the candidate:**

what is recognition-based assessment

what are assessment tools

how to use these tools

the rules of evidence that must be met by the evidence they provide

**Recognition of current competence is defined as:**

the process of assessment and formal recognition by an assessor of competence currently held by a candidate which has been gained through any combination of formal, informal training and education, work experience or real life experiences

**Communication skills may include:**

providing constructive and supportive feedback

using active listening

using appropriate questioning to clarify and confirm instructions for evidence gathering

accurately interpreting verbal messages

assisting candidates to paraphrase advice/instructions to the assessor

making clear and concrete presentations of options/advice

**Interpersonal skills may include:**

accurately interpreting non-verbal messages

engaging in two-way interaction

using language appropriate to candidate, assessment context and work performance addressed by competency standards

using language and concepts appropriate to cultural differences

using culturally inclusive and sensitive techniques

**Individual differences may include:**

English language, literacy and numeracy barriers

physical impairment or disability involving hearing, vision, voice, mobility

intellectual impairment or disability

medical conditions such as arthritis, epilepsy, diabetes and asthma that are not obvious but may impact on assessment

learning difficulties

psychiatric or psychological disability

religious and spiritual observances

cultural images/perceptions

age

gender

**Feedback may include:**

ensuring assessment process is understood

ensuring candidate concerns are addressed  
enabling question and answer  
confirming outcomes  
identifying further evidence to be provided  
discussing action plans  
confirming gap training needed  
information regarding available appeal processes  
suggesting improvements in evidence gathering and presentation

**Specialist support may include:**

assistance by third party - carer, interpreter  
support from specialist educator  
development of online assessment activities  
support for remote or isolated candidates and/or assessors  
support from subject matter or safety experts  
advice from regulatory authorities  
assessment teams/panels  
support from lead assessors  
advice from policy development experts

**Addressed may include:**

stopping the assessment until the OHS risk is rectified  
stopping the assessment until the equipment is fixed or replaced

**Limitations may relate to:**

job role and responsibilities  
meeting candidate needs  
assessment panels  
training and/or assessment organisation's quality processes  
personal competency level  
organisational, industry and national training requirements  
personal level of knowledge of competency-based assessment  
legal responsibilities

**All component parts of the competency standards refers to:**

elements  
Performance Criteria  
Range Statement/range of variables, including:

- contextualisation
  - link to knowledge and enterprise requirements
  - focus of assessment
  - underpinning language, literacy and numeracy requirements
- evidence guide requirements, including:
- underpinning/required knowledge
  - underpinning/required skills and attributes
  - underpinning language, literacy and numeracy requirements
  - Key Competencies/generic skills
  - critical aspects of evidence to be considered/quality evidence requirements
  - concurrent assessment and interdependence of units
  - assessment methods/resources/context
- dimensions of competency, which include:
- task skills
  - task management skills
  - contingency management skills
  - job role/environment skills

**Related documentation may include:**

Assessment Guidelines of the relevant Training Package/s  
the assessment criteria of accredited modules  
evidence to be collected as set out in assessment plans  
definition and interpretation of evidence in developed assessment tools  
any requirements of OHS, legislation, codes of practice, standards, guidelines  
indicators and levels of competence of the National Reporting System  
organisational requirements for work performance  
product specifications  
integrated competency assessment tool

**Judgement is a two-step process and means:**

the decision made by the assessor on whether the evidence provided meets the principles of assessment and rules of evidence  
the decision made by the assessor, based on the evidence provided and evaluated, on whether the candidate is competent/not yet competent

**An action plan is required when the decision of not yet competent is recorded and may include:**

gap training, further learning

additional practice opportunities  
additional assessment opportunities/evidence gathering opportunities  
individual facilitation, where relevant  
referral to specialist support

**An assessment report may include:**

personal details of candidate  
details of assessment/s, date, time, venue  
details of assessor's summary of evidence considered and copies of assessment papers  
feedback to and from the candidate  
justification of decision  
summary of candidate's action plan  
other critical information including appeals and outcomes  
sign-off by assessor and candidate  
electronic/paper reports to funding bodies

**Recommendations may include:**

recommendation to support training and/or assessment in new areas of competency  
recommendations in the action plan  
reassessment  
appeal implications

**Other relevant parties may include:**

Centrelink personnel  
Department of Immigration and Multicultural Indigenous Affairs (DIMIA)  
parties nominated by the candidate  
parties to be informed because of contractual obligations

**Criteria may include:**

following the assessment plan  
confirming and addressing organisational, ethical and legal requirements where appropriate, including OHS  
providing appropriate information regarding the assessment process to the candidate and explaining all steps, using effective communication and interpersonal skills  
demonstrated application of the rules of evidence and principles of assessment in gathering quality evidence  
demonstrated support and guidance to the candidate throughout the assessment process  
using assessment methods and tools appropriately to gather, organise and document evidence

applying reasonable adjustments where required/ appropriate, in consultation with relevant people

providing clear and constructive feedback to the candidate regarding the assessment decision

reviewing range of own decisions for consistency

**Consultation may involve:**

moderation with other assessors, training and assessment coordinators

discussions with the client, team leaders, managers, supervisors, coaches, mentors

technical/subject experts

English language, literacy and numeracy experts

The Range Statement adds definition to the unit by elaborating critical or significant aspects of the performance requirements of the unit. The Range Statement establishes the range of indicative meanings or applications of these requirements in different operating contexts and conditions. The specific aspects which require elaboration are identified by the use of italics in the Performance Criteria.

**An assessment plan is the overall planning document for the assessment process and may include:**

the purpose and aims of the assessment

the context of assessment

identified personnel

relevant competency standards and other assessment documentation

evidence plan

identified assessment methods and assessment tools

possibilities for clustering units of competency for assessment purposes

identified OHS hazards, including assessed risks and control strategies

material/physical resources required

organisational arrangements for conducting assessment

OHS reporting requirements

any special assessment needs, e.g. personal protective equipment requirements

outline of assessment milestones, time lines and target dates

candidate self-assessment procedures

connections to relevant organisational plans, policies and procedures

**Assessment system policies and procedures may include:**

candidate selection

rational and purpose of competency-based assessment

assessment records/data management/information management

recognition of current competency/recognition of prior learning/credit arrangements

assessors - needs, qualifications, maintaining currency

assessment reporting procedures

assessment appeals

candidate grievances/complaints

validation

evaluation/internal audit

costs/resourcing

access and equity/reasonable adjustment

partnership arrangements

links with human resource or industrial relations systems

links with overall quality management system

**Organisational/legal/ethical requirements may include:**

assessment system policies and procedures

reporting, recording and retrieval systems for assessment

licensing/legal ramifications of assessing competence

requirements of training and/or assessment organisations relating to assessment and validation

quality assurance systems

business and performance plans

collaborative/partnership arrangements

policies, procedures and programs

defined resource parameters

mutual recognition arrangements

industrial relations systems and processes, awards/enterprise agreements

Australian Quality Training Framework (AQTF) Standards for Registered Training Organisations (RTOs), in particular Standard 8, RTO assessments

registration scope

human resources policies/procedures

legal requirements including anti-discrimination, equal employment, job role/responsibilities/conditions

relevant industry codes of practice

confidentiality and privacy requirements of information relating to completed assessments

OHS considerations, including:

ensuring OHS requirements are adhered to during the assessment process

identifying and reporting OHS hazards and concerns to relevant personnel

**Relevant people may include:**

the candidate/s  
other assessors  
the client, company or organisation  
team leaders, managers, supervisors  
trainers/facilitators  
technical/subject experts  
training and assessment coordinators  
industry regulators  
employee and employer representatives  
members of professional associations  
Commonwealth department official/Centrelink staff/caseworker  
New Apprenticeship Centre (NAC) personnel

**Benchmark/s for assessment refers to:**

the criterion against which the candidate is assessed which, may be a competency standard/unit of competency, assessment criteria of course curricula, performance specifications, product specifications

**Assessment tools contain both the instrument and the procedures for gathering and interpreting evidence in accordance with designated assessment methods and may include:**

the instruments to be used for gathering evidence such as:

- a profile of acceptable performance measures
- templates/proformas
- specific questions or activities
- evidence/observation checklists
- checklists for the evaluation of work samples
- candidate self-assessment materials

the procedures, information and instructions for the assessor/candidate relating to the use of assessment instruments and assessment conditions

**Reasonable adjustment must not compromise the integrity of the competency standard and may include:**

adjustments to the assessment process taking into account candidate's language, literacy, numeracy requirements

provision of personal support services, for example, reader, interpreter, attendant carer, scribe, member of community in attendance

use of adaptive technology or special equipment

flexible assessment sessions to allow for fatigue or administering of medication

format of assessment materials, for example, in Braille, first language, use of audiotape/videotape

adjustments to the physical environment or venue

revising proposed assessment methods/tools

considerations relating to age and/or gender,

considerations relating to cultural beliefs, traditional practices, religious observances

**Assessment methods are the particular techniques used to gather different types of evidence and may include:**

direct observation, for example:

- real work/real time activities at the workplace
- work activities in a simulated workplace environment

structured activities, for example:

- simulation exercises/role-plays
- projects
- presentations
- activity sheets

questioning, for example:

- written questions, e.g. on a computer
- interviews
- self-assessment
- verbal questioning
- questionnaires
- oral/written examinations (for higher AQF levels)

portfolios, for example:

- collections of work samples by the candidate
- product with supporting documentation
- historical evidence
- journal/log book
- information about life experience

review of products, for example:

- products as a result of a project
- work samples/products

third party feedback, for example:

- testimonials/reports from employers/supervisors
- evidence of training
- authenticated prior achievements
- interview with employer, supervisor, peer

**Principles of assessment guide the assessment process and must address:**

validity

reliability

flexibility

fairness

**Rules of evidence are closely related to the assessment principles and provide guidance on the collection of evidence to ensure that it is:**

valid

sufficient

authentic

current

**Quality evidence addresses the rules of evidence and must:**

encompass the Performance Criteria to demonstrate achievement of the outcomes (Elements)

reflect the skills, knowledge and attributes defined in the relevant units of competency

show application of the skills in the context described in the Range Statement

demonstrate competence over a period of time

demonstrate repeatable competence

be the work of the candidate

be able to be verified

demonstrate current skills/knowledge of the candidate

not inflate the language, literacy and numeracy requirements beyond those required in the performance of the competency

**Guided means to explain to the candidate:**

what is recognition-based assessment

what are assessment tools

how to use these tools

the rules of evidence that must be met by the evidence they provide

**Recognition of current competence is defined as:**

the process of assessment and formal recognition by an assessor of competence currently held by a candidate which has been gained through any combination of formal, informal training and education, work experience or real life experiences

**Communication skills may include:**

- providing constructive and supportive feedback
- using active listening
- using appropriate questioning to clarify and confirm instructions for evidence gathering
- accurately interpreting verbal messages
- assisting candidates to paraphrase advice/instructions to the assessor
- making clear and concrete presentations of options/advice

**Interpersonal skills may include:**

- accurately interpreting non-verbal messages
- engaging in two-way interaction
- using language appropriate to candidate, assessment context and work performance addressed by competency standards
- using language and concepts appropriate to cultural differences
- using culturally inclusive and sensitive techniques

**Individual differences may include:**

- English language, literacy and numeracy barriers
- physical impairment or disability involving hearing, vision, voice, mobility
- intellectual impairment or disability
- medical conditions such as arthritis, epilepsy, diabetes and asthma that are not obvious but may impact on assessment
- learning difficulties
- psychiatric or psychological disability
- religious and spiritual observances
- cultural images/perceptions
- age
- gender

**Feedback may include:**

- ensuring assessment process is understood
- ensuring candidate concerns are addressed
- enabling question and answer
- confirming outcomes
- identifying further evidence to be provided
- discussing action plans
- confirming gap training needed

information regarding available appeal processes  
suggesting improvements in evidence gathering and presentation

English language, literacy and numeracy experts

## **Unit Sector(s)**

Not applicable.

# **TAADEL301A Provide training through instruction and demonstration of work skills**

## **Modification History**

Not applicable.

## **Unit Descriptor**

This unit specifies the competency required to conduct individual and group instruction and demonstration of work skills.

### **Competency Field**

Delivery and Facilitation

### **Application of the Unit**

Demonstration of work skills is typically provided by experienced workers or supervisors in the workplace. The focus of this instruction is usually on specific learner and organisation requirements, including workplace induction, learning how to operate new equipment and processes, developing new skills at work, improving efficiency and effectiveness, and meeting safety procedures.

This unit covers the skills required to provide instruction and demonstration of work skills using existing learning resources, in a safe and comfortable learning environment, and to determine the success of both the training provided and personal training performance.

The unit addresses the skills and knowledge required to organise and conduct the instruction and demonstration through a planned approach. It emphasises the training as being driven by the work process and context.

This competency is performed in the context that all documents needed to carry out this function have been provided, including delivery plans, learning materials, learning programs and learning resources.

The training may be delivered to achieve competency standards/ units of competency prescribed by a Training Package, or may be delivered to meet organisational requirements.

Skills and knowledge relating to assessment are not covered in this unit. This is addressed in relevant units from the Assessment field of the TAA04 Training and Assessment Training Package.

This unit is not equivalent to **TAADEL401A Plan and organise group-based delivery** and/or **TAADEL402A Facilitate group-based learning** and cannot be assessed in place of either of these units.

This unit has been developed to support a wide range of applications across any workplace setting and therefore can be used by any organisation.

This unit specifies the competency required to conduct individual and group instruction and demonstration of work skills.

## Competency Field

Delivery and Facilitation

## Application of the Unit

Demonstration of work skills is typically provided by experienced workers or supervisors in the workplace. The focus of this instruction is usually on specific learner and organisation requirements, including workplace induction, learning how to operate new equipment and processes, developing new skills at work, improving efficiency and effectiveness, and meeting safety procedures.

This unit covers the skills required to provide instruction and demonstration of work skills using existing learning resources, in a safe and comfortable learning environment, and to determine the success of both the training provided and personal training performance.

The unit addresses the skills and knowledge required to organise and conduct the instruction and demonstration through a planned approach. It emphasises the training as being driven by the work process and context.

This competency is performed in the context that all documents needed to carry out this function have been provided, including delivery plans, learning materials, learning programs and learning resources.

The training may be delivered to achieve competency standards/ units of competency prescribed by a Training Package, or may be delivered to meet organisational requirements.

Skills and knowledge relating to assessment are not covered in this unit. This is addressed in relevant units from the Assessment field of the TAA04 Training and Assessment Training Package.

This unit is not equivalent to **TAADEL401A Plan and organise group-based delivery** and/or **TAADEL402A Facilitate group-based learning** and cannot be assessed in place of either of these units.

This unit has been developed to support a wide range of applications across any workplace setting and therefore can be used by any organisation.

relevant work skills

- 2.6 Opportunities for practice are provided during instruction and through work activities
- 2.7 Feedback on learner performance is provided and discussed to support learning
- 3 Check training performance
  - 3.1 Measures are used to ensure learners are acquiring and can use new technical/generic skills and knowledge
  - 3.2 Personal delivery style and performance in providing instruction and demonstration is reviewed and strategies for improvement are reflected upon
  - 3.3 Learner records are maintained, stored and secured in accordance with legal/organisational requirements

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

The Evidence Guide provides advice to inform and support appropriate assessment of this unit. It contains an overview of assessment followed by identification of specific aspects of evidence that will need to be addressed in determining competency. The Evidence Guide is an integral part of the unit and should be read and interpreted in conjunction with the other components of competency.

Assessment must reflect the endorsed Assessment Guidelines of the TAA04 Training and Assessment Training Package.

### Overview of Assessment

To demonstrate competency against this unit candidates must be able to provide evidence that they can provide instruction and demonstration of work skills using resources and materials provided for training purposes.

The instruction/demonstration should be conducted using appropriate communication and interpersonal skills to enhance learning and build rapport and trust. The learning must be logically sequenced and paced in such a way as to ensure new skills/knowledge/competencies are achieved. The instruction/demonstration should engage the learner/s and a range of delivery techniques should be used.

### Evidence Requirements

**Required knowledge includes:**

learner characteristics and needs

content and requirements of the relevant learning program and/or delivery plan

sources and availability of relevant learning resources and learning materials

content of learning resources/learning materials

training techniques which enhance learning and when to use them, e.g. using:

- instruction and explanation
- questioning
- practice
- written information
- group/pair/team activities
- individual activities
- demonstration

learning principles (introductory), for example:

- learning and experience are connected for meaning
- adults need to know why they are learning
- adults can self-evaluate
- adults learn in different ways

different learning styles, (introductory), for example:

- visual
- audio
- theoretical
- activist
- reflective

OHS, for example:

- roles and responsibilities of key personnel in learning environment
- responsibilities of learners learning environment

relevant policies and procedures including hazard identification, risk assessment, reporting requirements, safe use of equipment and emergency procedures

- hazard identification and risk controls for the specific learning environment
- organisational policies, systems of operation relevant to specific area of training, e.g. job roles, industrial relations requirements

**Required skills and attributes include:**

verbal and non-verbal communication techniques, for example:

- ask relevant and appropriate questions
- provide explanations
- organise and give demonstrations
- use listening skills
- provide information clearly
- engage, motivate and connect with learners
- provide constructive feedback

implement OHS requirements, by acting and responding safely in order to:

- identify hazards
- conduct pre-start up checks if required
- observe and interpret learner behaviour which may put people at risk

time management, for example:

- ensure all learning objectives are covered
- pace learning

reflection skills in order to:

- identify areas for improvement
- maintain personal skill development

literacy skills to:

- complete and maintain documentation
- read and follow learning program/plan
- read and analyse learner information
- skills to operate audio-visual and technical equipment

interpersonal skills to:

- maintain appropriate relationships
- establish trust
- use appropriate body language
- maintain humour
- demonstrate tolerance
- manage a group

observation skills to:

- monitor learner acquisition of new skills/knowledge/competency requirements
- assess learner communication and interaction skills with others
- identify learner concerns
- recognise learner readiness to take on new skills/tasks

recognising and being sensitive to individual difference and diversity, for example:

- being sensitive to and valuing culture
- acting without bias/discrimination
- responding to individuals with particular needs
- recognising the importance of religion

**Products that could be used as evidence include:**

video/observation of a demonstration/instruction

learner evaluations

peer evaluations

**Processes that could be used as evidence include:**

what learning techniques were used and why

how learning achievement was checked

how practice opportunities were provided

what resources were organised and why

**Resource implications for assessment include:**

materials required for instruction/demonstration

technology required for instruction/demonstration

learning activities

**The collection of quality evidence requires that:**

assessment must address the scope of this unit and reflect all components of the unit i.e. the Elements, Performance Criteria, Range Statement, Evidence Requirements and Key Competencies

a range of appropriate assessment methods/evidence gathering techniques is used to determine competency

evidence must be gathered in the workplace whenever possible. Where no workplace is available, a simulated workplace must be provided

the evidence collected must relate to a number of performances assessed at different points in time and in a learning and assessment pathway these must be separated by further learning and practice

assessment meets the rules of evidence

a judgement of competency should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated

**Specific evidence requirements must include:**

a minimum of three training sessions involving demonstrating and instructing of particular work skills for different groups. Each session must address different learning objectives, a range of techniques and effective communication skills appropriate to the audience

### **Integrated assessment means that:**

this unit can be assessed alone or as part of an integrated assessment activity involving relevant units in the TAA04 Training and Assessment Training Package or any other Training Package. Suggested units include but are not limited to:

TAADEL403A Facilitate individual learning

The Evidence Guide provides advice to inform and support appropriate assessment of this unit. It contains an overview of assessment followed by identification of specific aspects of evidence that will need to be addressed in determining competency. The Evidence Guide is an integral part of the unit and should be read and interpreted in conjunction with the other components of competency.

Assessment must reflect the endorsed Assessment Guidelines of the TAA04 Training and Assessment Training Package.

### **Overview of Assessment**

To demonstrate competency against this unit candidates must be able to provide evidence that they can provide instruction and demonstration of work skills using resources and materials provided for training purposes.

The instruction/demonstration should be conducted using appropriate communication and interpersonal skills to enhance learning and build rapport and trust. The learning must be logically sequenced and paced in such a way as to ensure new skills/knowledge/competencies are achieved. The instruction/demonstration should engage the learner/s and a range of delivery techniques should be used.

### **Evidence Requirements**

#### **Required knowledge includes:**

learner characteristics and needs

content and requirements of the relevant learning program and/or delivery plan

sources and availability of relevant learning resources and learning materials

content of learning resources/learning materials

training techniques which enhance learning and when to use them, e.g. using:

- instruction and explanation
- questioning
- practice
- written information
- group/pair/team activities
- individual activities
- demonstration

learning principles (introductory), for example:

- learning and experience are connected for meaning
- adults need to know why they are learning

- adults can self-evaluate
- adults learn in different ways

different learning styles, (introductory), for example:

- visual
- audio
- theoretical
- activist
- reflective

OHS, for example:

- roles and responsibilities of key personnel in learning environment
- responsibilities of learners learning environment

relevant policies and procedures including hazard identification, risk assessment, reporting requirements, safe use of equipment and emergency procedures

- hazard identification and risk controls for the specific learning environment
- organisational policies, systems of operation relevant to specific area of training, e.g. job roles, industrial relations requirements

**Required skills and attributes include:**

verbal and non-verbal communication techniques, for example:

- ask relevant and appropriate questions
- provide explanations
- organise and give demonstrations
- use listening skills
- provide information clearly
- engage, motivate and connect with learners
- provide constructive feedback

implement OHS requirements, by acting and responding safely in order to:

- identify hazards
- conduct pre-start up checks if required
- observe and interpret learner behaviour which may put people at risk

time management, for example:

- ensure all learning objectives are covered
- pace learning

reflection skills in order to:

- identify areas for improvement

- maintain personal skill development

literacy skills to:

- complete and maintain documentation
- read and follow learning program/plan
- read and analyse learner information
- skills to operate audio-visual and technical equipment

interpersonal skills to:

- maintain appropriate relationships
- establish trust
- use appropriate body language
- maintain humour
- demonstrate tolerance

- manage a group

observation skills to:

- monitor learner acquisition of new skills/knowledge/competency requirements
- assess learner communication and interaction skills with others
- identify learner concerns
- recognise learner readiness to take on new skills/tasks

recognising and being sensitive to individual difference and diversity, for example:

- being sensitive to and valuing culture
- acting without bias/discrimination
- responding to individuals with particular needs
- recognising the importance of religion

**Products that could be used as evidence include:**

video/observation of a demonstration/instruction

learner evaluations

peer evaluations

**Processes that could be used as evidence include:**

what learning techniques were used and why

how learning achievement was checked

how practice opportunities were provided

what resources were organised and why

**Resource implications for assessment include:**

materials required for instruction/demonstration

technology required for instruction/demonstration

learning activities

**The collection of quality evidence requires that:**

assessment must address the scope of this unit and reflect all components of the unit i.e. the Elements, Performance Criteria, Range Statement, Evidence Requirements and Key Competencies

a range of appropriate assessment methods/evidence gathering techniques is used to determine competency

evidence must be gathered in the workplace whenever possible. Where no workplace is available, a simulated workplace must be provided

the evidence collected must relate to a number of performances assessed at different points in time and in a learning and assessment pathway these must be separated by further learning and practice

assessment meets the rules of evidence

a judgement of competency should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated

**Specific evidence requirements must include:**

a minimum of three training sessions involving demonstrating and instructing of particular work skills for different groups. Each session must address different learning objectives, a range of techniques and effective communication skills appropriate to the audience

**Integrated assessment means that:**

this unit can be assessed alone or as part of an integrated assessment activity involving relevant units in the TAA04 Training and Assessment Training Package or any other Training Package. Suggested units include but are not limited to:

TAADEL403A Facilitate individual learning

## **Range Statement**

The Range Statement adds definition to the unit by elaborating critical or significant aspects of the performance requirements of the unit. The Range Statement establishes the range of indicative meanings or applications of these requirements in different operating contexts and conditions. The specific aspects which require elaboration are identified by the use of italics in the Performance Criteria.

**Information about learner characteristics may include:**

learning styles

specific needs

language, literacy and numeracy levels

past learning and work experiences

workplace culture

**Safe learning environment may include:**

safe access

exit requirements

use of equipment

personal protective equipment, if needed

**Details may include:**

time of instruction/demonstration

location

who will be attending

reason for instruction/demonstration

outcomes of instruction/demonstration

**Instruction and demonstration objectives may relate to:**

competencies to be achieved

learning outcomes

individual/group objectives

generic and/or technical skills

and may be:

provided by the organisation

developed by a colleague

**Learning resources may be:**

Training Packages noted support materials, such as:

- learner/user guides
- trainer/facilitator guides
- how to organise training guides
- example training programs
- specific case studies
- professional development materials
- assessment materials

commercially available support materials for Training Packages/courses

organisational learning resources

competency standards as a learning resource

videos

CDs and audio tapes

references and texts

manuals

record/log books

learning resources and learning materials developed under the Workplace English Language and Literacy (WELL) program

learning resources produced in languages other than English as appropriate to learner group and workplace

**Learning materials may include:**

handouts for learners

worksheets

workbooks

prepared case studies

prepared task sheets

prepared activity sheets

prepared topic/unit/subject information sheets

prepared role-plays

prepared presentations and overheads

prepared scenarios, projects, assignments

materials sourced from the workplace, e.g. workplace documentation, operating procedures, specifications

prepared research tasks

**Interpersonal skills may include:**

engaging and motivating learners

responding to learners appropriately and individually

maintaining appropriate body language

communicating clearly and effectively

actively listening

adjusting personal language to suit others' requirements

**The learning program includes:**

competencies or other criteria to be achieved

specific learning outcomes derived from the criteria for each chunk or segment of the learning program

an overview of the content to be covered in each chunk/segment of the learning program

learning resources, learning materials and activities for each chunk/segment of the learning program

number and duration of training sessions/classes required and overall timelines

delivery methods for each segment of the learning program

OHS issues to be addressed in delivery

identification of assessment points to measure learner progress

assessment methods and tools to be used to collect evidence of competency, where assessment is required

**The delivery plan is used by the trainer/facilitator to guide and manage delivery to a group and may include:**

individual/group learning objectives or outcomes for the segment of the learning program to be addressed

number of learners and their specific support requirements

content of sessions as specified in the session plans

timelines/duration of activities within sessions

learning resources, learning materials and learning activities to be used in sessions

other resource requirements

OHS considerations, including:

incident or hazard reporting

emergency procedures

**Occupational health and safety (OHS) procedures may include:**

hazards and their means of control

safety briefing

incident reporting

use of personal protective equipment

safe working practices

emergency procedures

site-specific safety rules

**Techniques to structure, pace and enhance learning may include:**

demonstrations

explanations

question and answer

group/pair work

case studies

discovery activities

problem solving

providing opportunities to practise skills

**Communication skills may include:**

- providing explanations
- asking clear and probing questions
- using legible writing
- providing constructive feedback
- providing information coherently and clearly
- communicating with learners in the learning environment and training context

**Measures to ensure learners are acquiring new skills and knowledge may include:**

- questioning
- informal review or discussion
- learner surveys
- on-the-job observation
- peer coaching systems

**Reviewing and reflecting on personal performance may include:**

- peer assessment or feedback
- learner evaluations
- video recording of session
- critical questioning of personal performance
- discussions with other trainers/facilitators

The Range Statement adds definition to the unit by elaborating critical or significant aspects of the performance requirements of the unit. The Range Statement establishes the range of indicative meanings or applications of these requirements in different operating contexts and conditions. The specific aspects which require elaboration are identified by the use of italics in the Performance Criteria.

**Measures to ensure learners are acquiring new skills and knowledge may include:**

questioning

informal review or discussion

learner surveys

on-the-job observation

peer coaching systems

**Reviewing and reflecting on personal performance may include:**

peer assessment or feedback

learner evaluations

video recording of session

critical questioning of personal performance

discussions with other trainers/facilitators

## **Unit Sector(s)**

Not applicable.

## **THTFME06A Manage event contractors**

### **Modification History**

Not applicable.

### **Unit Descriptor**

This unit describes the skills and knowledge required to manage the staging and operation of a major indoor event comprising multiple components. It does not cover the high levels of technical expertise required to actually provide these services, but focuses on the key knowledge and skills required to oversee the process from an organisational and contractor management perspective. This role may be undertaken by a manager working within an event venue, by an external event manager or a combination.

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

### Essential Knowledge and Skills to be Assessed

The following knowledge and skills must be assessed as part of this unit:

roles and responsibilities of organisations involved in event staging

suppliers of staging services and sources of information on staging services

risk management issues to be considered for key areas of event staging

knowledge of terminology, services and key technology in key areas of staging including:

catering

venue decoration

audio-visual options

sound amplification

lighting

rigging

live entertainment

registration areas

display

security

electronic media coverage of events

safety equipment.

the key inclusions for contractor briefing or specification documents.

### Linkages to Other Units

This unit has very strong linkages to other event management units and combined training and assessment is recommended with units such as:

THTFME04A Develop an event concept

THTFME05A Select event venues and sites

### Critical Aspects of Assessment

Evidence of the following is critical:

general knowledge of all event staging services and terminology as detailed under Essential Skills and Knowledge

ability to organise and co-ordinate multiple contractors as part of the overall event management process.

### **Context of Assessment and Resource Implications**

Assessment must ensure:

management of the staging of an indoor event comprising multiple components

access to venues for staging of an indoor event

access to all equipment required for the staging of an event

liaison with and involvement of multiple contractors.

### **Assessment Methods**

Assessment methods must be chosen to ensure that the ability to manage the staging of an event can be practically demonstrated. Methods must include assessment of knowledge as well as assessment of practical skills.

The following examples are appropriate for this unit:

evaluation of the staging at an event managed by the candidate through attendance at the event

review of documentation used to manage contractors prepared by the candidate

questioning of contractors to assess the organisational skills of the candidate

case studies to assess ability to determine staging requirements for different events

oral or written questions to assess knowledge of key staging services and relevant terminology

review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate.

### **Key Competencies in this Unit**

Key Competencies are an integral part of all workplace competencies. The table below describes those applicable to this unit. Trainers and assessors should ensure that they are addressed in training and assessment.

Level 1 = Perform      Level 2 = Administer and Manage      Level 3 = Design and Evaluate

### **Key Competencies**

#### **Collecting, Organising and Analysing Information**

For example:

Assessing competitive quotes from staging suppliers (3)

#### **Communicating Ideas and Information**

For example:

Developing a tender brief for staging suppliers (3)

#### **Planning and Organising Activities**

For example:

Appointing and managing multiple suppliers before, during and after an event (3)

**Working with Others and in Teams**

For example:

Negotiating with suppliers on changing requirements (3)

**Using Mathematical Ideas and Techniques**

For example:

Calculating numbers of exhibition panels required for a trade show (1)

**Solving Problems**

For example:

Negotiating with a supplier who is failing to meet contract obligations (3)

**Using Technology**

For example:

Using a computerised system to create different staging scenarios (1)

**Essential Knowledge and Skills to be Assessed**

The following knowledge and skills must be assessed as part of this unit:

roles and responsibilities of organisations involved in event staging

suppliers of staging services and sources of information on staging services

risk management issues to be considered for key areas of event staging

knowledge of terminology, services and key technology in key areas of staging including:

catering

venue decoration

audio-visual options

sound amplification

lighting

rigging

live entertainment

registration areas

display

security

electronic media coverage of events

safety equipment.

the key inclusions for contractor briefing or specification documents.

**Linkages to Other Units**

This unit has very strong linkages to other event management units and combined training and assessment is recommended with units such as:

THTFME04A Develop an event concept

THTFME05A Select event venues and sites

### **Critical Aspects of Assessment**

Evidence of the following is critical:

general knowledge of all event staging services and terminology as detailed under Essential Skills and Knowledge

ability to organise and co-ordinate multiple contractors as part of the overall event management process.

### **Context of Assessment and Resource Implications**

Assessment must ensure:

management of the staging of an indoor event comprising multiple components

access to venues for staging of an indoor event

access to all equipment required for the staging of an event

liaison with and involvement of multiple contractors.

### **Assessment Methods**

Assessment methods must be chosen to ensure that the ability to manage the staging of an event can be practically demonstrated. Methods must include assessment of knowledge as well as assessment of practical skills.

The following examples are appropriate for this unit:

evaluation of the staging at an event managed by the candidate through attendance at the event

review of documentation used to manage contractors prepared by the candidate

questioning of contractors to assess the organisational skills of the candidate

case studies to assess ability to determine staging requirements for different events

oral or written questions to assess knowledge of key staging services and relevant terminology

review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate.

### **Key Competencies in this Unit**

Key Competencies are an integral part of all workplace competencies. The table below describes those applicable to this unit. Trainers and assessors should ensure that they are addressed in training and assessment.

Level 1 = Perform      Level 2 = Administer and Manage      Level 3 = Design and Evaluate

### **Key Competencies**

#### **Collecting, Organising and Analysing Information**

For example:

Assessing competitive quotes from staging suppliers (3)

### **Communicating Ideas and Information**

For example:

Developing a tender brief for staging suppliers (3)

### **Planning and Organising Activities**

For example:

Appointing and managing multiple suppliers before, during and after an event (3)

### **Working with Others and in Teams**

For example:

Negotiating with suppliers on changing requirements (3)

### **Using Mathematical Ideas and Techniques**

For example:

Calculating numbers of exhibition panels required for a trade show (1)

### **Solving Problems**

For example:

Negotiating with a supplier who is failing to meet contract obligations (3)

### **Using Technology**

For example:

Using a computerised system to create different staging scenarios (1)

## **Range Statement**

This unit applies to any enterprise involved in event management. The following explanations identify how this unit may be applied in different workplaces, sectors and circumstances.

### **A major event comprising multiple components must include:**

multiple contractors

substantial catering (i.e. not simply an afternoon tea)

multiple speakers, performers or exhibitors

requirement for display, decoration or theming.

### **Contractors may include:**

venues

speakers

staging and audio visual suppliers

display suppliers

caterers

entertainers

equipment hire companies.

**Staging elements or requirements may relate to:**

exhibition set-up

audio-visual

display and decoration

furniture

special effects

entertainment

lighting

sound

stage design

rigging

catering and catering set-up

security.

**Specifications for contractor services may include or relate to:**

price

performance standards

timelines

technical specifications for equipment etc

theme-related requirements

regulatory requirements

previous experience.

| 3 Monitor infrastructure                                  | <ul style="list-style-type: none"><li>3.1 Monitor the progress of staging elements through ongoing liaison with contractors.</li><li>3.2 Identify the need for adjustments and organise appropriate changes with confirmation in writing.</li><li>3.3 Evaluate work completed against event requirements prior to event commencement and take appropriate corrective action where necessary.</li></ul>                                                                                                                                                                                                                                                                                                                  |

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

### Essential Knowledge and Skills to be Assessed

The following knowledge and skills must be assessed as part of this unit:

roles and responsibilities of organisations involved in staging of outdoor events including government agencies and other authorities

suppliers of services related to outdoor event infrastructure and sources of information on those suppliers

risk management and safety issues to be considered for key areas of event staging

Australian Standards that relate to typical event operations

knowledge of terminology and services in key areas related to outdoor event infrastructure including:

temporary water and power supply

portable/demountable toilets

temporary structures (e.g. marquees, demountables)

mobile catering outlets.

### Linkages to Other Units

This unit must be assessed with or after the following units which describe skills and knowledge essential to this unit of competence:

THTFME06A Manage event contractors

This unit also has very strong linkages to other event management units and combined assessment and/or training is recommended with units such as:

THTFME04A Develop an event concept

THTFME05A Select event venues and sites

### Critical Aspects of Assessment

Evidence of the following is critical:

ability to organise and monitor infrastructure for an outdoor event

knowledge of the issues that specifically impact on the organisation of outdoor events, including requirements of local authorities, Australian Standards and OH&S regulations.

### Context of Assessment and Resource Implications

Assessment must ensure:

organisation and monitoring of the infrastructure requirements for an outdoor event where the candidate plays a key management role

access to venues or sites for staging of an outdoor event

access to all equipment required for the staging of an outdoor event

liaison with and involvement of suppliers and local authorities.

### **Assessment Methods**

Assessment methods must be chosen to ensure that ability to organise and monitor the infrastructure for an outdoor event can be practically demonstrated. Methods must include assessment of knowledge as well as assessment of practical skills.

The following examples are appropriate for this unit:

evaluation of the infrastructure through attendance at an event managed by the candidate

review of documentation used to co-ordinate infrastructure prepared by the candidate

questioning of contractors to assess the organisational skills of the candidate

case studies to assess ability to determine infrastructure requirements for different events

questions to assess knowledge of infrastructure services and terminology

review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate.

### **Key Competencies in this Unit**

Key Competencies are an integral part of all workplace competencies. The table below describes those applicable to this unit. Trainers and assessors should ensure that they are addressed in training and assessment.

Level 1 = Perform      Level 2 = Administer and Manage      Level 3 = Design and Evaluate

### **Key Competencies**

#### **Collecting, Organising and Analysing Information**

For example:

Assessing the legal issues to be considered for an outdoor event (3)

#### **Communicating Ideas and Information**

For example:

Providing a briefing to the local council of the scope of an outdoor event (3)

#### **Planning and Organising Activities**

For example:

Co-ordinating the activities of multiple trades people prior to an event (3)

#### **Working with Others and in Teams**

For example:

Managing a progress meeting of event co-ordinators all working on different aspects of an outdoor event (3)

**Using Mathematical Ideas and Techniques**

For example:

Calculating the required size of a marquee to meet estimated audience numbers (1)

**Solving Problems**

For example:

Develop a solution to a situation where the proposed site plan or race route contravenes local council guidelines (3)

**Using Technology**

For example:

Using relevant software (1)

**Essential Knowledge and Skills to be Assessed**

The following knowledge and skills must be assessed as part of this unit:

roles and responsibilities of organisations involved in staging of outdoor events including government agencies and other authorities

suppliers of services related to outdoor event infrastructure and sources of information on those suppliers

risk management and safety issues to be considered for key areas of event staging

Australian Standards that relate to typical event operations

knowledge of terminology and services in key areas related to outdoor event infrastructure including:

temporary water and power supply

portable/demountable toilets

temporary structures (e.g. marquees, demountables)

mobile catering outlets.

**Linkages to Other Units**

This unit must be assessed with or after the following units which describe skills and knowledge essential to this unit of competence:

THTFME06A Manage event contractors

This unit also has very strong linkages to other event management units and combined assessment and/or training is recommended with units such as:

THTFME04A Develop an event concept

THTFME05A Select event venues and sites

**Critical Aspects of Assessment**

Evidence of the following is critical:

ability to organise and monitor infrastructure for an outdoor event

knowledge of the issues that specifically impact on the organisation of outdoor events, including requirements of local authorities, Australian Standards and OH&S regulations.

### **Context of Assessment and Resource Implications**

Assessment must ensure:

organisation and monitoring of the infrastructure requirements for an outdoor event where the candidate plays a key management role

access to venues or sites for staging of an outdoor event

access to all equipment required for the staging of an outdoor event

liaison with and involvement of suppliers and local authorities.

### **Assessment Methods**

Assessment methods must be chosen to ensure that ability to organise and monitor the infrastructure for an outdoor event can be practically demonstrated. Methods must include assessment of knowledge as well as assessment of practical skills.

The following examples are appropriate for this unit:

evaluation of the infrastructure through attendance at an event managed by the candidate

review of documentation used to co-ordinate infrastructure prepared by the candidate

questioning of contractors to assess the organisational skills of the candidate

case studies to assess ability to determine infrastructure requirements for different events

For example:

Develop a solution to a situation where the proposed site plan or race route contravenes local council guidelines (3)

## **Using Technology**

For example:

Using relevant software (1)

## **Range Statement**

This unit applies to any enterprise involved in the management of outdoor events. The following explanations identify how this unit may be applied in different workplaces, sectors and circumstances.

### **Infrastructure requirements applicable to outdoor events may include:**

power supply

water supply

heating or air-conditioning

public toilets

erection of temporary structures

scaffolding

emergency services

car and coach parking

transport systems

camping sites or other temporary accommodation

signage

media services and impacts

disabled access

waste management.

### **Local authorities may include:**

local government

State government

police

ambulance

fire services.

**Licensing requirements may relate to:**

builders and building work

electricians and electrical work

plumbers

gas fitters

handling of hazardous materials

forklift operations

special effects.

|                                                                  | 3.2 Share updated knowledge with customers and colleagues as appropriate and incorporate into day-to-day working activities. |

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

### Essential Knowledge and Skills to be Assessed

The following knowledge and skills must be assessed as part of this unit:

the importance and role of protocol in different events and situations

key sources of information on protocol

main types of civic functions held in Australia

the Australian Honours system including order of precedence, ranks and forms of address and wearing of honours and medals

appropriate protocols for the involvement of indigenous Australians and other cultural groups in events

correct use of national and State symbols including flags, anthems and military salutes

forms of address for different VIPs and dignitaries, both for written correspondence and in oral communication

protocol procedures for different types of function including:

invitations to VIPs

arrival procedures, including for heads of state or government officials

introduction protocols and order of speakers

order of precedence for official guests

seating arrangements

dress styles.

### **Linkages to Other Units**

This unit underpins effective performance in a range of event management and other roles within the tourism and hospitality industries. As such combined training and assessment with other units may be appropriate.

### **Critical Aspects of Assessment**

Evidence of the following is critical:

knowledge of where to source accurate information on protocol for specific situations

knowledge of protocols as specified under Essential Knowledge and Skills.

### **Context of Assessment and Resource Implications**

Assessment must ensure:

project or work activities that allow the candidate to apply protocol knowledge to specific event management, tourism or hospitality situations.

### **Assessment Methods**

Assessment methods must be chosen to ensure that knowledge of protocol can be practically demonstrated. Methods must include assessment of knowledge as well as assessment of practical skills.

The following examples are appropriate for this unit:

case studies and projects to assess ability to apply knowledge of protocol to different workplace situations

oral or written questions to assess knowledge of protocol for different situations

review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate.

### **Key Competencies**

Key Competencies are an integral part of all workplace competencies. The table below describes those applicable to this unit. Trainers and assessors should ensure that they are addressed in training and assessment.

Level 1 = Perform      Level 2 = Administer and Manage      Level 3 = Design and Evaluate

### **Key Competencies**

#### **Collecting, Organising and Analysing Information**

For example:

Determining the protocol information required for a particular event (2)

### **Communicating Ideas and Information**

For example:

Advising colleagues about protocol requirements for a given event (1)

### **Planning and Organising Activities**

For example:

Integrating protocol into event organisation activities (1)

### **Working with Others and in Teams**

For example:

Liaising with protocol officers from a government department (1)

### **Using Mathematical Ideas and Techniques**

Not Applicable

### **Solving Problems**

For example:

Finding protocol information in relation to a totally unknown situation (1)

### **Using Technology**

For example:

Using the Internet to source protocol information (1)

### **Essential Knowledge and Skills to be Assessed**

The following knowledge and skills must be assessed as part of this unit:

the importance and role of protocol in different events and situations

key sources of information on protocol

main types of civic functions held in Australia

the Australian Honours system including order of precedence, ranks and forms of address and wearing of honours and medals

appropriate protocols for the involvement of indigenous Australians and other cultural groups in events

## **Range Statement**

This unit applies to all tourism and hospitality enterprises. The following explanations identify how this unit may be applied in different workplaces, sectors and circumstances.

### **Sources of information on protocol may include:**

libraries

Internet

Federal, State and Local Government protocol departments

Aboriginal Land Councils

Australia Day Councils

Office of the United Nations.

### **Work activities that require integration of protocol may include:**

issuing invitations

preparing running sheets

preparation of briefing papers

liaison with dignitaries and officials

correspondence to dignitaries and officials

providing various services during the conduct of an event (e.g. on-site management, service of food and beverage).

**Functions where protocols need to be used may include:**

civic receptions  
formal parades  
freedom of city ceremonies  
national day receptions  
citizenship ceremonies  
private functions.

|-----------------------------|----------------------------------------------------------------------|
| 1 Perform maintenance tasks | 1.1 Respond promptly to requests for routine maintenance assistance. |
|-----------------------------|----------------------------------------------------------------------|

- 1.2 Select and use appropriate equipment safely and according to manufacturer's instructions.
  - 1.3 Carry out maintenance tasks correctly and promptly, in accordance with enterprise policy and procedures.
  - 1.4 Carry out maintenance tasks according to required schedules and priorities.
  - 1.5 Carry out maintenance tasks with minimum disruption to customers and colleagues.
  - 1.6 Enclose or isolate work areas where appropriate to ensure safety of customers and colleagues, using warning signage where required.
  - 1.7 Complete tasks in accordance with quality requirements.
  - 1.8 Clean work areas on completion of work.
  - 1.9 Identify problems requiring specialist assistance and seek help from the appropriate supervisor or tradesperson.
- 2 Maintain and store equipment
  - 2.1 Identify problems or faults and report them to the appropriate supervisor or tradesperson.
  - 2.2 Carry out basic maintenance on equipment on a regular basis, according to enterprise procedure.
  - 2.3 Store equipment in designated areas.
  - 2.4 Store equipment in accordance with manufacturer's specifications, enterprise requirements and occupational health and safety standards.
- 3 Perform administrative tasks
  - 3.1 Interpret maintenance requests accurately.
  - 3.2 Clarify instructions with persons making a request, when required.
  - 3.3 Complete work report forms and other required documentation accurately.
  - 3.4 Forward documentation to the appropriate person, as required.

- |                              |                                                                                                                        |
|------------------------------|------------------------------------------------------------------------------------------------------------------------|
| 4 Assist in special projects | 4.1 Carry out work on special projects correctly, under the direction of the appropriate specialist or supervisor.     |
|                              | 4.2 Undertake liaison with other project members to ensure effective co-ordination of tasks within the total project.  |
| 5 Liaise with contractors    | 5.1 Establish and maintain contact with appropriate contractors to ensure effective co-ordination of maintenance work. |
|                              | 5.2 Provide assistance and information to contractors when required.                                                   |
|                              | 5.3 Relay accurate information between contractors and maintenance supervisors when required.                          |

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

### Essential Knowledge and Skills to be Assessed

The following skills and knowledge must be assessed as part of this unit:

safety and emergency procedures related to all general routine maintenance activities, including safe use of tools and equipment

selection, use and care of commonly used maintenance tools and equipment

general maintenance techniques

principles of planned, preventative maintenance

commonly used maintenance materials

environmental issues and legislation affecting general maintenance

customer service skills.

### Linkages to Other Units

There is a link between this unit and the following unit, and combined training and assessment may be appropriate:

THTGTM02B Carry out grounds maintenance

### Critical Aspects of Assessment

Evidence of the following is critical:

ability to operate and use equipment safely and correctly

ability to perform a range of routine maintenance tasks within timeframes acceptable to the enterprise

ability to document maintenance

ability to liaise with contractors

knowledge of general procedures and requirements that apply to routine maintenance work.

### **Context of Assessment and Resource Implications**

Assessment must ensure:

access to all equipment required for routine maintenance in the relevant work context.

project or workplace activities that allow completion of real maintenance activities

completion of maintenance activities within timeframes acceptable to the enterprise and which reflect standard workplace practice.

### **Assessment Methods**

Assessment methods must be chosen to ensure that a full range of maintenance skills can be practically demonstrated. Methods must include assessment of knowledge as well as assessment of practical skills.

The following examples are appropriate for this unit:

direct observation of the candidate completing maintenance tasks

oral or written questions to assess knowledge of maintenance techniques and tools/equipment

evaluation of work completed by the candidate

review of maintenance documentation completed by the candidate

review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate.

### **Key Competencies in this Unit**

Key Competencies are an integral part of all workplace competencies. The table below describes those applicable to this unit. Trainers and assessors should ensure that they are addressed in training and assessment.

Level 1 = Perform      Level 2 = Administer and Manage      Level 3 = Design and Evaluate

### **Key Competencies**

#### **Collecting, Organising and Analysing Information**

For example:

Responding to instructions and requests for maintenance

Seeking out and reviewing information related to work activities (1)

#### **Communicating Ideas and Information**

For example:

Receiving, following and giving instructions and information to others

Communicating with colleagues and contractors (1)

### **Planning and Organising Activities**

For example:

Planning, organising and prioritising work tasks and responsibilities according to standard maintenance schedules and timeframes

Making arrangements with contractors, colleagues and departments or sections (1)

### **Working with Others and in Teams**

For example:

Working co-operatively with colleagues in completing maintenance activities

Clarifying personal responsibilities (1)

### **Using Mathematical Ideas and Techniques**

For example:

Calculating quantities of materials required for maintenance and special projects (1)

### **Solving Problems**

For example:

Dealing with hazards

Assessing routine and non-routine maintenance (1)

### **Using Technology**

For example:

Using equipment requiring adjustment and modulation (1)

### **Essential Knowledge and Skills to be Assessed**

The following skills and knowledge must be assessed as part of this unit:

safety and emergency procedures related to all general routine maintenance activities, including safe use of tools and equipment

selection, use and care of commonly used maintenance tools and equipment

general maintenance techniques

principles of planned, preventative maintenance

commonly used maintenance materials

environmental issues and legislation affecting general maintenance

customer service skills.

### **Linkages to Other Units**

There is a link between this unit and the following unit, and combined training and assessment may be appropriate:

THTGTM02B Carry out grounds maintenance

### **Critical Aspects of Assessment**

Evidence of the following is critical:

ability to operate and use equipment safely and correctly

ability to perform a range of routine maintenance tasks within timeframes acceptable to the enterprise

ability to document maintenance

ability to liaise with contractors

knowledge of general procedures and requirements that apply to routine maintenance work.

### **Context of Assessment and Resource Implications**

Assessment must ensure:

access to all equipment required for routine maintenance in the relevant work context.

project or workplace activities that allow completion of real maintenance activities

completion of maintenance activities within timeframes acceptable to the enterprise and which reflect standard workplace practice.

### **Assessment Methods**

Assessment methods must be chosen to ensure that a full range of maintenance skills can be practically demonstrated. Methods must include assessment of knowledge as well as assessment of practical skills.

The following examples are appropriate for this unit:

direct observation of the candidate completing maintenance tasks

oral or written questions to assess knowledge of maintenance techniques and tools/equipment

evaluation of work completed by the candidate

review of maintenance documentation completed by the candidate

review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate.

### **Key Competencies in this Unit**

Key Competencies are an integral part of all workplace competencies. The table below describes those applicable to this unit. Trainers and assessors should ensure that they are addressed in training and assessment.

Level 1 = Perform      Level 2 = Administer and Manage      Level 3 = Design and Evaluate

### **Key Competencies**

#### **Collecting, Organising and Analysing Information**

For example:

Responding to instructions and requests for maintenance

Seeking out and reviewing information related to work activities (1)

#### **Communicating Ideas and Information**

For example:

Receiving, following and giving instructions and information to others

Communicating with colleagues and contractors (1)

### **Planning and Organising Activities**

For example:

Planning, organising and prioritising work tasks and responsibilities according to standard maintenance schedules and timeframes

Making arrangements with contractors, colleagues and departments or sections (1)

### **Working with Others and in Teams**

For example:

Working co-operatively with colleagues in completing maintenance activities

Clarifying personal responsibilities (1)

### **Using Mathematical Ideas and Techniques**

For example:

Calculating quantities of materials required for maintenance and special projects (1)

### **Solving Problems**

For example:

Dealing with hazards

Assessing routine and non-routine maintenance (1)

### **Using Technology**

For example:

Using equipment requiring adjustment and modulation (1)

## **Range Statement**

This unit may apply to any sector of the tourism and hospitality industry but has particular relevance for attractions and theme parks, hotels and motels. The following explanations identify how this unit may be applied in different workplaces and circumstances.

### **Routine maintenance tasks may include:**

simple repairs

routine servicing of equipment

painting and decorating

minor demolition.

### **Special projects may include:**

construction of new attractions

landscaping

major demolition.

**Appropriate equipment may include:**

hand tools and implements

electrical tools and equipment

painting requisites

earthmoving machinery.

**Problems requiring specialist assistance include:**

major breakdowns in plant and equipment

blasting

drilling

non-routine and contract servicing

servicing of specialist equipment.

**Work report forms and other required documentation may include:**

job sheets

maintenance books, sheets and schedules

sign-off sheets

requisitions and orders

audits.

**Contractors may include:**

tradespeople such as electricians, engineers, carpenters, plumbers, landscape architects, gardeners

labourers.

**Quality requirements may include:**

standards and guidelines for external accreditation

enterprise standards and requirements

audits and reports.

## **Unit Sector(s)**

Not applicable.

## **THTGTM02B Carry out grounds maintenance**

### **Modification History**

Not applicable.

### **Unit Descriptor**

This unit deals with the skills and knowledge required to carry out general routine grounds and garden maintenance in tourism and hospitality enterprises. Where gardening forms a major part of the job role, please refer to the standards within the Horticulture Training Package.

This unit deals with the skills and knowledge required to carry out general routine grounds and garden maintenance in tourism and hospitality enterprises. Where gardening forms a major part of the job role, please refer to the standards within the Horticulture Training Package

### **Application of the Unit**

Not applicable.

### **Licensing/Regulatory Information**

Not applicable.

### **Pre-Requisites**

Not applicable.

### **Employability Skills Information**

Not applicable.

### **Elements and Performance Criteria Pre-Content**

Not applicable.

### **Elements and Performance Criteria**

#### **Elements and Performance Criteria**

| <b>Element</b> | <b>Performance Criteria</b> |
|----------------|-----------------------------|
|----------------|-----------------------------|

- 1 Perform routine gardening activities
  - 1.1 Carry out routine gardening activities, following any directions from a supervisor or other designated person.
  - 1.2 Select and use appropriate equipment safely and according to manufacturer's instructions.
  - 1.3 Follow proven gardening techniques.
  - 1.4 Wear correct/required clothing according to type of work being completed and prevailing conditions.
  - 1.5 Carry out tasks according to schedules.
  - 1.6 Cause minimum disruption to customers and colleagues.
  - 1.7 Meet quality requirements for completed work.
  - 1.8 Clean work areas following completion of work.
  - 1.9 Identify problems requiring specialist assistance and seek help from the appropriate person.
  - 1.10 Observe safe workplace practices.
- 2 Monitor the appearance and quality of grounds and gardens
  - 2.1 Identify sickly and unsightly plants and either treat or remove them.
  - 2.2 Keep grounds free of litter.
  - 2.3 Maintain lawns in the condition specified by the enterprise.
  - 2.4 Keep garden beds and lawns free of weeds.
  - 2.5 Identify hazards and take action promptly within the scope of individual responsibility.
  - 2.6 Identify ways of improving grounds and gardens presentation and make suggestions to the appropriate supervisor or other person.
- 3 Perform administrative tasks
  - 3.1 Interpret grounds maintenance requests accurately.
  - 3.2 Clarify instructions with persons making a request, when required.
  - 3.3 Complete work report forms and other required

- documentation accurately.
- 3.4 Forward documentation to the appropriate person, as required.
- 4 Maintain and store equipment
- 4.1 Identify equipment problems or faults and report them to the appropriate person.
- 4.2 Carry out basic maintenance on gardening equipment, according to manufacturer's recommendations and enterprise practice.
- 4.3 Store equipment in the designated area.
- 4.4 Store equipment in accordance with manufacturer's specifications, enterprise requirements and occupational health and safety standards.
- 5 Assist in special gardening projects
- 5.1 Carry out work on special projects correctly, under direction from the appropriate specialist or supervisor.
- 5.2 Liaise with other project members to ensure effective co-ordination of tasks within the total project.
- 6 Liaise with contractors
- 6.1 Establish and maintain contact with appropriate contractors to ensure effective co-ordination of contract work.
- 6.2 Provide assistance and information to contractors when required.
- 6.3 Relay accurate information between contractors and maintenance supervisors when required.

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

### Essential Knowledge and Skills to Be Assessed

The following skills and knowledge must be assessed as part of this unit:

occupational health and safety/emergency procedures in relation to grounds maintenance

technical procedures for commonly used equipment in grounds maintenance

chemical usage in grounds maintenance

basic gardening techniques

basic plant knowledge

environmental issues and legislation affecting grounds maintenance.

principles of planned, preventative maintenance

customer service skills.

### **Linkages to Other Units**

There is a link between this unit and the following units and combined training and assessment may be appropriate:

THTGTM01B Carry out general maintenance

### **Critical Aspects of Assessment**

Evidence of the following is critical:

ability to operate and use all equipment correctly and safely

ability to perform a range of routine ground maintenance tasks within timeframes acceptable to the enterprise

ability to document grounds maintenance

ability to liaise with contractors

knowledge of general procedures and requirements that apply to routine grounds maintenance work.

### **Context of Assessment and Resource Implications**

Assessment must ensure:

project or workplace activities that allow access to all equipment required for routine ground maintenance and completion of real grounds maintenance activities

completion of ground maintenance activities within timeframes acceptable to the enterprise and which reflect standard workplace practice.

### **Assessment Methods**

Assessment methods must be chosen to ensure that grounds maintenance skills can be practically demonstrated. Methods must include assessment of knowledge as well as assessment of practical skills.

The following examples are appropriate for this unit:

direct observation of the candidate undertaking grounds maintenance activities

evaluation of work completed by the candidate

oral or written questions about selection, use and maintenance of tools and equipment; plants and chemicals

review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate.

### **Key Competencies in this Unit**

Key Competencies are an integral part of all workplace competencies. The table below describes those applicable to this unit. Trainers and assessors should ensure that they are addressed in training and assessment.

Level 1 = Perform      Level 2 = Administer and Manage      Level 3 = Design and Evaluate

### **Key Competencies**

#### **Collecting, Organising and Analysing Information**

For example:

Responding to instructions and requests for grounds maintenance

Seeking out and reviewing information related to work activities

Reading and following manuals, labels and instruction sheets (1)

#### **Communicating Ideas and Information**

For example:

Receiving, following and giving instructions to others

Completing documentation (1)

#### **Planning and Organising Activities**

For example:

Planning, organising and prioritising work tasks and responsibilities according to standard schedules and timeframes

Making arrangements with specific customers, colleagues and departments or sections (1)

#### **Working with Others and in Teams**

For example:

Working co-operatively with colleagues in completing grounds maintenance activities

Clarifying personal responsibilities (1)

#### **Using Mathematical Ideas and Techniques**

For example:

Calculating quantities of chemicals required and dilution rates.

Calculating numbers of plants required for a given area given growth rate and mature size (1)

#### **Solving Problems**

For example:

Dealing with hazards

Assessing routine and non-routine cleaning and equipment maintenance (1)

## Using Technology

For example:

Using maintenance equipment requiring adjustment and modulation (1)

## Essential Knowledge and Skills to Be Assessed

The following skills and knowledge must be assessed as part of this unit:

occupational health and safety/emergency procedures in relation to grounds maintenance

technical procedures for commonly used equipment in grounds maintenance

chemical usage in grounds maintenance

basic gardening techniques

basic plant knowledge

environmental issues and legislation affecting grounds maintenance.

principles of planned, preventative maintenance

customer service skills.

## **Range Statement**

This unit may apply to any sector of the tourism and hospitality industry but has particular relevance for attractions and theme parks, hotels, motels, resorts and caravan parks. The following explanations identify how this unit may be applied in different workplaces and circumstances.

### **Routine gardening tasks may include:**

mowing

weeding

pruning

trimming

feeding plants and lawns

planting and sowing

spraying

edging.

### **Gardening projects may include:**

creation of new beds

refurbishment and replanting of existing beds

landscaping

planting

removal of unsuitable plants

moving plants and trees.

### **Appropriate equipment may include:**

hand tools and implements

electrical tools and equipment

earthmoving machinery

lawn mowers, including hand-operated, petrol-operated, ride-on

edgers  
rotary hoes  
hedge and tree/shrub trimmers  
leaf blasters and vacuums  
whipper snippers  
mulching machines.

**Problems requiring specialist assistance may include:**

major breakdowns in plant and equipment  
rock blasting  
drilling  
servicing of specialist equipment  
tree removal or surgery.

**Work report forms and other required documentation may include:**

job sheets  
maintenance books/sheets and schedules  
sign-off sheets  
requisitions and orders  
audits and reports.

**Contractors may include:**

tradespeople such as tree surgeons, electricians, engineers, carpenters, plumbers, landscape architects, architects  
labourers  
gardeners  
lawn mowers.

**Basic maintenance may include:**

cleaning of tools equipment  
sharpening blades and bits  
routine replacement of worn parts  
lubrication  
checking operation against manuals.

**Quality requirements may include:**

standards and guidelines for external accreditation or certification  
enterprise standards and requirements  
audits and reports on quality and compliance.

enterprise standards and requirements  
audits and reports on quality and compliance.

**Unit Sector(s)**

Not applicable.

## **TLIC107C Drive vehicle**

### **Modification History**

Not applicable.

### **Unit Descriptor**

This unit involves the skills and knowledge required to drive commercial light vehicles and cars safely, including the systematic, safe and efficient control of all vehicle functions, monitoring of traffic and road conditions, management of vehicle condition, and performance and effective management of hazardous situations. Assessment of this unit may be undertaken within a licensing examination conducted by, or under the authority of, the relevant state/territory Road Traffic Authority.

### **Application of the Unit**

Driving must be carried out in compliance with the licence requirements and regulations of the relevant state/territory roads and traffic authority.

Driving is performed with limited or minimum supervision, and with limited accountability and responsibility for self and others in achieving the prescribed outcomes.

Driving involves the application of routine vehicle driving principles and procedures to maintain the safety and operation of a commercial vehicle across a variety of driving contexts.

### **Licensing/Regulatory Information**

Refer to Unit Descriptor

### **Pre-Requisites**

Not applicable.

### **Employability Skills Information**

The required outcomes described in this unit of competency contain applicable facets of Employability Skills. The Employability Skills Summary of the qualification in which this competency is packaged will assist in identifying employability skill requirements.

### **Elements and Performance Criteria Pre-Content**

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### Elements and Performance Criteria

| Element                                           | Performance Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| <b>3 Monitor and maintain vehicle performance</b> | <ul style="list-style-type: none"><li>3.1 Vehicle performance is maintained through pre-operational inspections and checks of the vehicle</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

- 3.2 Performance and efficiency of vehicle operation is monitored during use
- 3.3 Defective or irregular performance or malfunctions are reported to the appropriate authority
- 3.4 Vehicle records are maintained/updated and information is processed in accordance with workplace procedures

## Required Skills and Knowledge

### REQUIRED KNOWLEDGE AND SKILLS

This describes the essential knowledge and skills and their level required for this unit.

#### Required knowledge:

Relevant road rules, regulations, permit and licence requirements of the relevant state/territory road traffic authority

Relevant OH&S and environmental procedures and regulations

Vehicle controls, instruments and indicators and their use

Vehicle handling procedures

Workplace driving and operational instructions

Driving hazards and related defensive driving techniques

Procedures to be followed in the event of a driving emergency

Engine power management and safe driving strategies

Efficient driving techniques

Pre-operational checks carried out on vehicle and related action

Differences between transmission types

Map reading and road navigation techniques

Factors which may cause traffic delays and diversions and related action that can be taken by a driver

Principles of stress management when driving a vehicle

Causes and effects of fatigue on drivers

Factors which increase fatigue-related accidents

Fatigue management strategies including on-road techniques

Lifestyles which promote the effective long-term management of fatigue

**Required skills:**

Communicate effectively with others when driving a commercial vehicle

Read and interpret instructions, procedures, information and signs relevant to the driving of a commercial vehicle

Interpret and follow operational instructions and prioritise work

Complete documentation related to the driving of a commercial vehicle

Operate electronic communication equipment to required protocol

Work collaboratively with others when driving a commercial vehicle

Adapt appropriately to cultural differences in the workplace, including modes of behaviour and interactions with others

Promptly report and/or rectify any identified problems, faults or malfunctions that may arise when driving a commercial vehicle in accordance with regulatory requirements and workplace procedures

Implement contingency plans for unexpected events that may occur when driving a commercial vehicle

Apply precautions and required action to minimise, control or eliminate hazards that may exist during the driving of a commercial vehicle

Monitor and anticipate traffic hazards and take appropriate action

Modify activities depending on differing operational contingencies, risk situations and environments

Apply fatigue management knowledge and techniques

Work systematically with required attention to detail without injury to self or others, or damage to goods or equipment

Operate and adapt to differences in equipment in accordance with standard operating procedures

Monitor performance of vehicle and take appropriate action where required

Check and replenish fluids and carry out lubrication processes in the course of work activities

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required knowledge and skills, the range statement and the assessment guidelines for this Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria of this unit and include demonstration of applying:

the underpinning knowledge and skills

relevant legislation and workplace procedures

other relevant aspects of the range statement

### **Context of and specific resources for assessment**

Performance is demonstrated consistently over a period of time and in a suitable range of contexts

Resources for assessment include:

a range of relevant exercises, case studies and other simulated practical and knowledge assessment, and/or

access to an appropriate range of relevant operational situations in the workplace

In both real and simulated environments, access is required to:

relevant and appropriate materials and/or equipment, and/or

applicable documentation including workplace procedures, regulations, codes of practice and operation manuals

**Method of assessment**

Assessment of this unit must be undertaken by a registered training organisation

As a minimum, assessment of knowledge must be conducted through appropriate written/oral tests

Practical assessment must occur:

through appropriately simulated activities at the registered training organisation, and/or

in an appropriate range of situations in the workplace

**Range Statement****RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance.

Type of vehicle includes:

cars and vehicles equal to or less than 4.5 tonnes GVM and seating up to 12 adults, including the driver, and all types of transmission

Driving may be carried out in typical road transport situations, including:

operations conducted at day or night  
typical weather conditions  
on the open road  
on a private road  
while at a depot, base or warehouse  
while at a client's workplace or work site

Vehicle handling procedures may include:

starting a vehicle  
steering and manoeuvring a vehicle  
accelerating and braking  
positioning and stopping a vehicle  
reversing a vehicle  
operating vehicle controls, instruments and indicators  
using defensive driving techniques

|                                                                                   |                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                   | managing engine performance                                                                                                                                                                                                                                                                            |
| Pre-operational checks may include:                                               | visual check of vehicle<br>checking and topping up of fluid levels<br>checks of tyre pressures<br>checks of operation of vehicle lights and indicators<br>checks of brakes                                                                                                                             |
| Minor routine repairs may include:                                                | replacement of blown globes in vehicle lights<br>replacement of broken fan belt<br>replacement of blown fuse<br>replacement of door mirrors<br>repairs to rear tail-light lens<br>changing of tyres<br>repair of tyre punctures<br>replacement of broken coolant hose                                  |

## **Unit Sector(s)**

Not applicable.

## **Competency Field**

C - Driving Vehicle

## **TLIR4002A Source goods/services and evaluate contractors**

### **Modification History**

Not Applicable

### **Unit Descriptor**

#### **Unit Descriptor**

This unit involves the skills and knowledge required to source goods/materials/services and evaluate contractors including analysing supply requirements, and evaluating and selecting appropriate potential contractor(s). Licensing, legislative, regulatory or certification requirements are applicable to this unit.

### **Application of the Unit**

#### **Application of the Unit**

Work is performed under general guidance on progress and outcomes of work. It involves discretion and judgement for self and others in planning and using resources, services and processes to achieve required outcomes within organisational policy and procedures. This includes the application of established workplace procedures to source goods and to evaluate potential contractors.

A range of opportunities may be used to develop the work area and to support the development of work systems and innovative strategies to deal with contingencies and to encourage the achievement of the organisations' goals and key performance objectives by the work area and the individuals and teams within it.

The unit generally applies to those with responsibility for resource coordination and allocation and who provide leadership of others individually or in teams.

### **Licensing/Regulatory Information**

Refer to Unit Descriptor

### **Pre-Requisites**

Not Applicable

## Employability Skills Information

**Employability Skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1 Analyse supply requirements

- 1.1 Purpose and specifications of required goods/services are identified
- 1.2 Criteria to evaluate potential or existing contractor performance is established
- 1.3 Quantities of required goods/services are determined
- 1.4 Frequency of ordering/requesting of goods/services is identified

#### 2 Evaluate potential contractors

- 2.1 Contractors of requested goods/materials/services are identified
- 2.2 Comparative costings for goods/materials/services are obtained
- 2.3 Contractors' ability to provide a consistent level of performance on repeat jobs is assessed
- 2.4 Contractors are evaluated in relation to established criteria and in accordance with workplace and regulatory procedures
- 2.5 A prioritised contractor shortlist is established based on the capacity of contractors to provide a cost competitive quality service
- 2.6 The outcomes of the contractor selection process are documented including recommendations for actioning agreements/contracts with selected contractors
- 2.7 Information and data generated during the selection process is filed and maintained in accordance with workplace procedures

## Required Skills and Knowledge

### REQUIRED KNOWLEDGE AND SKILLS

This describes the essential knowledge and skills and their level required for this unit.

#### Required knowledge:

- Relevant regulatory and code requirements
- Relevant OH&S responsibilities and procedures
- Workplace policies, procedures and protocols for the sourcing and supply of goods/services, and the evaluation of potential supply contractors
- Workplace grievance and disputation handling policies and procedures
- Workplace business policies and plans as they relate to supply contracts, including procedures for maintenance of confidentiality
- Focus of operation of recording, reporting and statistical analysis systems and resources
- Resource availability including the processing capacity of equipment and software systems for statistical analysis of data
- Typical problems that can occur when sourcing goods and services and evaluating contractors, and related appropriate action that can be taken

#### Required skills:

- Communicate and negotiate effectively with others when sourcing goods and services and evaluating contractors
- Read and interpret instructions, procedures and information and signs relevant to the sourcing of goods and services and the evaluation of contractors
- Interpret and follow operational instructions and prioritise work
- Complete documentation related to the sourcing of goods and services and the evaluation of contractors
- Operate electronic communication equipment to required protocol
- Work collaboratively with others when sourcing goods and services and evaluating contractors
- Adapt appropriately to cultural differences in the workplace, including modes of behaviour and interactions with others
- Promptly report and/or rectify any identified problems that may arise when sourcing goods and services and evaluating contractors in accordance with regulatory requirements and workplace procedures
- Monitor work activities in terms of planned schedule
- Modify activities depending on differing operational contingencies, risk situations and environments
- Work systematically with required attention to detail without injury to self or others, or damage to goods or equipment
- Select and appropriately apply technology, information systems and procedures to workplace

**Required skills:**

tasks

- Adapt to differences in equipment in accordance with standard operating procedures

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required knowledge and skills, the range statement and the assessment guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

- The evidence required to demonstrate competency in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria of this unit and include demonstration of applying:
  - the underpinning knowledge and skills
  - relevant legislation and workplace procedures
  - other relevant aspects of the range statement

**Context of and specific resources for assessment**

- Performance is demonstrated consistently over a period of time and in a suitable range of contexts
- Resources for assessment include:
  - a range of relevant exercises, case studies and/or other simulated practical and knowledge assessment, and/or
  - access to an appropriate range of relevant operational situations in the workplace
- In both real and simulated environments, access is required to:
  - relevant and appropriate materials and equipment, and
  - applicable documentation including workplace procedures, regulations, codes of practice and operation manuals

**Method of assessment**

- Assessment of this unit must be undertaken by a registered training organisation
- As a minimum, assessment of knowledge must be conducted through appropriate written/oral tests
- Practical assessment must occur:
  - through activities in an appropriately simulated environment at the registered training organisation,

## EVIDENCE GUIDE

and/or

- in an appropriate range of situations in the workplace

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance.

|                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                         |
|-------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| The workplace environment may involve twenty-four hour operation and may include:                                 | <ul style="list-style-type: none"> <li>• single and multi-site location</li> <li>• large, medium or small companies</li> </ul>                                                                                                                                                                                                                                                          |
| Services, products, risks, work systems and requirements may:                                                     | <ul style="list-style-type: none"> <li>• potentially vary across different sections of the workplace</li> </ul>                                                                                                                                                                                                                                                                         |
