The terms of use for the Commonwealth Coat of Arms available from the Department of the Prime Minister and Cabinet's website.

### Disclaimer

The content of this Training Package was prepared in consultation with Australian industry participants. It does not necessarily represent the view of the Department of Employment and Workplace Relations (Department) or any specific body. The Department does not make any representation or warranty about the accuracy, reliability, currency or completeness of any training material and you should exercise your own independent skill and judgement before you rely on it. The Department is not liable for any loss resulting from any action taken or reliance made by you on any information contained in the training material or incorporated into it by reference (including, without limitation, third party information). No responsibility is taken for any information or services which may appear on any linked websites.

## Preliminary Information

### Important Note to Users

Training Packages are not static documents; they are amended periodically to reflect the latest industry practices and are version controlled. It is essential that the latest version is always used.

**Check the version number before commencing training or assessment**

This Training Package is Version 2 - check whether this is the latest version by going to the National Training Information Service ( [www.ntis.gov.au](http://www.ntis.gov.au)) and locating information about the Training Package. Alternatively, contact AgriFood Skills Australia at <http://www.agrifoodskills.net.au> to confirm the latest version number.

### Explanation of version number conventions

The primary release Training Package is Version 1. When changes are made to a Training Package, sometimes the version number is changed and sometimes it is not, depending on the extent of the change. When a Training Package is reviewed it is considered to be a new Training Package for the purposes of version control, and is Version 1. Do not confuse the version number with the Training Packages national code (which remains the same during its period of endorsement).

## Full List of AQF Qualifications

| Qualification Code | Title                                                      |
|--------------------|------------------------------------------------------------|
| RGR10108           | Certificate I in Racing (Stablehand)                       |

## Summary of Units of Competency

### Racing Performance Services – Harness and Thoroughbred Racing Codes

This table lists all the units of competency attached to the Harness and Thoroughbred Racing Codes in the Performance Services competency field.

Where prerequisite units are required for the listed units this is noted in the prerequisite column.

| <b>Unit Code</b> | <b>Unit Title</b>                               | <b>Prerequisite</b>                    |
|------------------|-------------------------------------------------|----------------------------------------|
| RGRPSH101A       | Catch and handle quiet horses under supervision |                                        |
| RGRPSH102A       | Perform basic stable duties                     |                                        |
| RGRPSH201A       | Handle horses                                   |                                        |
| RGRPSH202A       | Assist with transportation of horses            | RGRPSH201A Handle horses               |
| RGRPSH203A       | Perform basic driving tasks                     |                                        |
| RGRPSH204A       | Prepare to drive jog work                       | RGRPSH203A Perform basic driving tasks |
| RGRPSH205A       | Perform basic riding tasks                      |                                        |

|                |                                                                                  |                                                   |
|----------------|----------------------------------------------------------------------------------|---------------------------------------------------|
| RGRPSH206<br>A | Develop riding skills for flatwork                                               | RGRPSH205A Perform basic riding tasks             |
| RGRPSH207<br>A | Perform stable duties                                                            |                                                   |
| RGRPSH208<br>A | Attend horses at trackwork                                                       |                                                   |
| RGRPSH209<br>A | Attend horses at race meetings and trials                                        |                                                   |
| RGRPSH301<br>A | Implement stable operations                                                      |                                                   |
| RGRPSH302<br>A | Supervise handling of horses                                                     |                                                   |
| RGRPSH303<br>A | Supervise transportation of horses                                               |                                                   |
| RGRPSH304<br>A | Identify factors that affect racehorse performance                               |                                                   |
| RGRPSH305<br>A | Develop driving skills for trackwork                                             | RGRPSH204A Prepare to drive jog work              |
| RGRPSH306<br>A | Develop basic trackwork riding skills                                            |                                                   |
| RGRPSH307<br>A | Exercise horses in pacework                                                      | RGRPSH306A Develop basic trackwork riding skills  |
| RGRPSH308<br>A | Provide first aid and emergency care for horses                                  |                                                   |
| RGRPSH309<br>A | Implement feeding programs for racehorses under direction                        |                                                   |
| RGRPSH310<br>A | Prepare for self-management in racing                                            |                                                   |
| RGRPSH311<br>A | Participate in racing as an owner                                                |                                                   |
| RGRPSH401<br>A | Relate anatomical and physiological features to the care and treatment of horses |                                                   |
| RGRPSH402<br>A | Drive horses in pacework and fast work                                           | RGRPSH305A Develop driving skills for trackwork   |
| RGRPSH403<br>A | Educate harness horses for racing                                                | RGRPSH402A Drive horses in pacework and fast work |
| RGRPSH404<br>A | Ride horses at trackwork                                                         | RGRPSH307A Exercise horses in pacework            |

|                |                                                         |                                                                                     |
|----------------|---------------------------------------------------------|-------------------------------------------------------------------------------------|
| RGRPSH405<br>A | Ride horses in jump outs                                | RGRPSH404A Ride horses at trackwork                                                 |
| RGRPSH406<br>A | Develop riding skills for jumping racing                | RGRPSH404A Ride horses at trackwork                                                 |
| RGRPSH407<br>A | Educate thoroughbred horses for racing                  | RGRPSH404A Ride horses at trackwork                                                 |
| RGRPSH408<br>A | Manage horse health and welfare                         |                                                                                     |
| RGRPSH409<br>A | Determine nutritional requirements for racing horses    |                                                                                     |

| RGRPSH417<br>A | Participate in protests, inquiries and appeals          |                                                                                     |
| RGRPSH418<br>A | Set goals to improve racing performance                 |                                                                                     |
| RGRPSH419<br>A | Manage principles of sports science for jockeys         |                                                                                     |
| RGRPSH420<br>A | Participate in implementing racehorse exercise programs |                                                                                     |
| RGRPSH421<br>A | Operate horse racing training business                  |                                                                                     |

|                |                                                                           |  |
|----------------|---------------------------------------------------------------------------|--|
| RGRPSH422<br>A | Promote and maintain business arrangements with racehorse owners          |  |
| RGRPSH423<br>A | Train horses for jumping racing                                           |  |
| RGRPSH501<br>A | Plan and adapt training and conditioning programs for racehorses          |  |
| RGRPSH502<br>A | Plan and implement education of horses for racing                         |  |
| RGRPSH503<br>A | Trial and race horses                                                     |  |
| RGRPSH504<br>A | Develop systems and records for horse racing business training operations |  |
| RGRPSH505<br>A | Select horses for racing                                                  |  |

### Racing Performance Services – Greyhound Racing Code

This table lists all the units of competency attached to the Greyhound Code in the Performance Services competency field.

Where prerequisite units are required for the listed units this is noted in the prerequisite column.

| Unit Code      | Unit Title                                               | Prerequisite                 |
|----------------|----------------------------------------------------------|------------------------------|
| RGRPSG201<br>A | Handle greyhounds                                        |                              |
| RGRPSG202<br>A | Transport greyhounds                                     | RGRPSG201A Handle greyhounds |
| RGRPSG203<br>A | Perform kennel duties                                    |                              |
| RGRPSG204<br>A | Attend greyhounds during exercise routines               |                              |
| RGRPSG205<br>A | Attend greyhounds at race meetings                       |                              |
| RGRPSG206<br>A | Perform duties of greyhound catcher                      |                              |
| RGRPSG301<br>A | Supervise handling of greyhounds                         |                              |
| RGRPSG302<br>A | Assess health and provide first aid for greyhounds       |                              |
| RGRPSG303<br>A | Determine nutritional requirements for racing greyhounds |                              |

|                |                                                                                      |  |
|----------------|--------------------------------------------------------------------------------------|--|
| RGRPSG304<br>A | Participate in greyhound inquiries and appeals                                       |  |
| RGRPSG401<br>A | Relate anatomical and physiological features to the care and treatment of greyhounds |  |
| RGRPSG402<br>A | Manage greyhound health and welfare                                                  |  |
| RGRPSG403<br>A | Plan and implement education and training of greyhounds for racing                   |  |
| RGRPSG404<br>A | Trial and race greyhounds                                                            |  |

## Racing Operations Services Unit of Competency Groups

Racing Operations Services units are presented in five groups based on the common and specialist areas of occupation in racing operations services. More details regarding the application of these groups are provided in Volume IV.

The units of competency in the table below are listed in group order. There are no prerequisite units attached to these units.

Notes:

1. Group A – Racing Common units apply across Australian Qualifications Framework (AQF) levels as these have been deemed essential requirements for a range of racing industry job outcomes regardless of the qualification or skill set aligned AQF level.
2. Refer to Volume IV for the tables that list imported units included in these groups for qualification and skill set packaging.

| Unit Code                      | Unit Title                                            | Unit Code      | Unit Title                                  |
|--------------------------------|-------------------------------------------------------|----------------|---------------------------------------------|
| <b>GROUP A – Racing Common</b> |                                                       |                |                                             |
| RGRCMN00<br>1A                 | Comply with the rules of racing and related protocols | RGRCMN20<br>2A | Achieve requirements for industry induction |
| RGRCMN00                       | Investigate job opportunities                         | RGRCMN40       | Maintain and monitor OHS                    |

|                                        |                                                                                            |            |                                                                       |
|----------------------------------------|--------------------------------------------------------------------------------------------|------------|-----------------------------------------------------------------------|
| 2A                                     | in racing and related industries                                                           | 1A         | procedures and environmental work practices                           |
| RGRCMN003A                             | Manage personal health and fitness                                                         | RGRCMN402A | Participate in media interviews for racing                            |
| RGRCMN201A                             | Follow OHS procedures and observe environmental work practices                             | RGRCMN403A | Participate in racing industry appeals                                |
| <b>GROUP B – Steward</b>               |                                                                                            |            |                                                                       |
| RGRSTD301A                             | Perform duties of cadet steward                                                            | RGRSTD404A | Prepare for racing industry appeals                                   |
| RGRSTD302A                             | Interpret wagering trends                                                                  | RGRSTD405A | Conduct steward supervision of sample collection procedures           |
| RGRSTD303A                             | Assess racing gear suitability and safety                                                  | RGRSTD406A | Assess greyhound or horse handling skills                             |
| RGRSTD401A                             | Perform duties of stipendiary steward at race meetings and trials                          | RGRSTD407A | Assess driving or riding skills of license or registration applicants |
| RGRSTD402A                             | Perform stewards' non-race day duties                                                      | RGRSTD408A | Analyse race performance                                              |
| RGRSTD403A                             | Apply principles of administrative law to investigation and resolution of racing incidents | RGRSTD501A | Manage steward services                                               |
| <b>GROUP C – Racing Administration</b> |                                                                                            |            |                                                                       |
| RGRADM301A                             | Assist with race meeting operations                                                        | RGRADM401A | Manage race meeting operations                                        |
| RGRADM302A                             | Supervise use of track and race club facilities                                            | RGRADM402A | Prepare for race meeting special events                               |
| <b>GROUP D – Track Maintenance</b>     |                                                                                            |            |                                                                       |
| RGRTRK301A                             | Assist with race meeting track management                                                  | RGRTRK401A | Prepare track and facilities for race meetings                        |
| RGRTRK302A                             | Maintain specialised non-turf track surfaces for racing                                    | RGRTRK402A | Relate animal welfare to track and environmental conditions           |

|                                    |                                                                                       |                |                                                                            |
|------------------------------------|---------------------------------------------------------------------------------------|----------------|----------------------------------------------------------------------------|
| RGRTRK30<br>3A                     | Provide emergency animal assistance                                                   |                |                                                                            |
| <b>GROUP E – Racing Operations</b> |                                                                                       |                |                                                                            |
| RGRROP201<br>A                     | Perform duties of barrier attendant at thoroughbred race meetings and trials          | RGRROP31<br>5A | Perform duties of timekeeper at greyhound or horse race meetings           |
| RGRROP202<br>A                     | Perform duties of kennel attendant at race meetings                                   | RGRROP31<br>6A | Perform duties of track supervisor during trackwork operations             |

## Skill Sets

### Skill Sets

#### Definition

Skill sets are defined as single units of competency, or combinations of units of competency from an endorsed Training Package, which link to a licence or regulatory requirement, or defined industry need.

#### Wording on Statements of Attainment

Skill sets are a way of publicly identifying logical groupings of units of competency which meet an identified need or industry outcome. Skill sets are not qualifications.

Where skill sets are identified in a Training Package, the Statement of Attainment can set out the competencies a person has achieved in a way that is consistent and clear for employers and others. This is done by including the wording "these competencies meet [insert skill set title or identified industry area] need" on the Statement of Attainment. This wording applies only to skill sets that are formally identified as such in the endorsed Training Package. See the 2010 edition of the AQF Implementation Handbook for advice on wording on Statements of Attainment.

### Skill Sets in this Training Package

There are twenty-four Skill Sets within the RGR08 Racing Training Package. These are:

#### Licensing and Registration Skill Sets

- Greyhound Training Operations
- Greyhound Race Day Attendant
- Harness or Thoroughbred Training Operations
- Harness Trackwork Driver
- Thoroughbred Exercise Rider
- Thoroughbred Fast Work Rider

#### Approval to Operate Skill Sets

- Greyhound Clerk of Scales
- Greyhound Lure Driver
- Greyhound Race Club Kennel Attendant
- Greyhound Race Club Parade Official
- Harness Mobile Start Driver
- Harness or Thoroughbred Clerk of Course
- Harness or Thoroughbred Racing Handicapper
- Harness Race Starter
- Race Meeting Farrier
- Racing Biological Security Officer
- Racing Judge
- Racing Licensing and Registration Clerk
- Racing Nominations and Acceptances Clerk
- Racing Photo Finish Operator
- Racing Swab Attendant
- Racing Timekeeper
- Thoroughbred Barrier Attendant
- Thoroughbred Race Starter

## Overview

### What is a Training Package?

A Training Package is an integrated set of nationally endorsed Competency Standards, Assessment Guidelines and Australian Qualifications Framework (AQF) qualifications for a specific industry, industry sector or enterprise.

Each Training Package:

- provides a consistent and reliable set of components for training, recognising and assessing people's skills, and may also have optional support materials
- enables nationally recognised qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training which suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

### How do Training Packages fit within the National Skills Framework?

The National Skills Framework applies nationally, is endorsed by the Ministerial Council for Vocational and Technical Education, and comprises the Australian Quality Training Framework (AQTF), and Training Packages endorsed by the National Quality Council (NQC).

### How are Training Packages developed?

Training Packages are developed by Industry Skills Councils or enterprises to meet the identified training needs of specific industries or industry sectors. To gain national endorsement of Training Packages, developers must provide evidence of extensive research, consultation and support within the industry area or enterprise.

### How do Training Packages encourage flexibility?

Training Packages describe the skills and knowledge needed to perform effectively in the workplace without prescribing how people should be trained.

Training Packages acknowledge that people can achieve vocational competency in many ways by emphasising what the learner can do, not how or where they learned to do it. For example, some experienced workers might be able to demonstrate competency against the units of competency, and even gain a qualification, without completing a formal training program.

With Training Packages, assessment and training may be conducted at the workplace, off the job, at a training organisation, during regular work, or through work experience, work placement, work simulation or any combination of these.

### Who can deliver and assess using Training Packages?

Training and assessment using Training Packages must be conducted by a registered training organisation (RTO) that has the qualifications or specific units of competency on its scope of registration, or that works in partnership with another RTO as specified in the AQTF 2007.

**Note:**

Steward specialist units have restricted access due to the highly sensitive and often confidential nature of a steward's duties. (Please see Licensing/registration requirements section in the Assessment Guidelines section of this Training Package for more information.)

**Training Package components**

Training Packages are made up of mandatory components endorsed by the NQC, and optional support materials.

**Training Package endorsed components**

The nationally endorsed components include the Competency Standards, Assessment Guidelines and Qualifications Framework. These form the basis of training and assessment in the Training Package and, as such, they must be used.

**Competency Standards**

Each unit of competency identifies a discrete workplace requirement and includes the knowledge and skills that underpin competency as well as language, literacy and numeracy; and occupational health and safety requirements. The units of competency must be adhered to in training and assessment to ensure consistency of outcomes.

**Assessment Guidelines**

The Assessment Guidelines provide an industry framework to ensure all assessments meet

industry needs and nationally agreed standards as expressed in the Training Package and the AQTF 2007. The Assessment Guidelines must be followed to ensure the integrity of assessment leading to nationally recognised qualifications.

### Qualifications Framework

Each Training Package provides details of those units of competency that must be achieved to award AQF qualifications. The rules around which units of competency can be combined to make up a valid AQF qualification in the Training Package are referred to as the ‘packaging rules’. The packaging rules must be followed to ensure the integrity of the nationally recognised qualifications issued.

### Training Package support materials

The endorsed components of Training Packages are complemented and supported by optional support materials that provide for choice in the design of training and assessment to meet the needs of industry and learners.

Training Package support materials can relate to single or multiple units of competency, an industry sector, a qualification or the whole Training Package. They tend to fall into one or more of the categories illustrated below.

Training Package support materials are produced by a range of stakeholders such as RTOs, individual trainers and assessors, private and commercial developers and government agencies.

Where such materials have been quality assured through a process of ‘noting’ by the NQC, they display the following official logo. Noted support materials are listed on the National Training Information Service (NTIS) website, together with a detailed description and information on the type of product and its availability ([www.ntis.gov.au](http://www.ntis.gov.au)).

It is not compulsory to submit support materials for noting; any resources that meet the requirements of the Training Package can be used.

### **Training Package, qualification and unit of competency codes**

There are agreed conventions for the national codes used for Training Packages and their components. Always use the correct codes, exactly as they appear in the Training Package, and with the code always before the title.

#### **Training Package codes**

Each Training Package has a unique five-character national code assigned when the Training Package is endorsed, for example RGR08 Racing Training Package. The first three characters are letters identifying the Training Package industry coverage and the last two characters are numbers identifying the year of endorsement.

#### **Qualification codes**

Within each Training Package, each qualification has a unique eight-character code, for example RGR20108. Qualification codes are developed as follows:

- the first three letters identify the Training Package
- the first number identifies the qualification level (noting that, in the qualification titles themselves, Arabic numbers are not used)
- the next two numbers identify the position in the sequence of the qualification at that level
- the last two numbers identify the year in which the qualification was endorsed. (Where qualifications are added after the initial Training Package endorsement, the last two numbers may differ from other Training Package qualifications as they identify the year in which those particular qualifications were endorsed).

#### **Unit of competency codes**

Within each Training Package, each unit of competency has a unique code. The unit of competency codes are assigned when the Training Package is endorsed, or when new units of competency are added to an existing endorsed Training Package. Unit codes are developed as follows:

- a typical code is made up of 12 characters, normally a mixture of upper-case letters and numbers, as in RGRSTD301A
- the first three characters signify the Training Package and up to eight characters, relating to an industry sector, function or skill area, follow

- the last character is always a letter and identifies the unit of competency version. An 'A' at the end of the code indicates that this is the original unit of competency. 'B' or another incremented version identifier means that minor changes have been made. Typically this would mean that wording has changed in the range statement or evidence guide, providing clearer intent
- where changes are made that alter the outcome, a new code is assigned and the title is changed.

### **Training Package, qualification, skill set and unit of competency titles**

There are agreed conventions for titling Training Packages and their components. Always use the correct titles, exactly as they appear in the Training Package, and with the code always placed before the title.

#### **Training Package titles**

The title of each endorsed Training Package is unique and relates the Training Package's broad industry coverage.

#### **Qualification titles**

The title of each endorsed Training Package qualification is unique. Qualification titles use the following sequence:

- first, the qualification is identified as either Certificate I, Certificate II, Certificate III, Certificate IV, Diploma, Advanced Diploma, Vocational Graduate Certificate, or Vocational Graduate Diploma
- this is followed by the words 'in' for Certificates I to IV, and 'of' for Diploma, Advanced Diploma, Vocational Graduate Certificate and Vocational Graduate Diploma
- then, the industry descriptor, for example Racing
- then, if applicable, the occupational or functional stream in brackets, for example (Stablehand).

For example:

- RGR20108 Certificate II in Racing (Stablehand)
- RGR30308 Certificate III in Racing Services (Racing Administration).

#### **Unit of competency titles**

Each unit of competency title is unique. Unit of competency titles describe the competency outcome concisely, and are written in sentence case.

For example:

- RGRPSH420A Participate in implementing racehorse exercise programs
- RGRSTD501A Manage steward services.

#### **Skill set titles**

Each endorsed Racing Training Package skill set is unique. The skill set titles describe the job function outcome and use the following sequence:

- firstly, the job task or functional stream, including the relevant racing code if applicable

- followed by the words ‘skill set’.

For example:

- Racing Nominations and Acceptances Clerk Skill Set
- Harness Race Starter Skill Set.

## Introduction to RGR08 Racing Training Package

RGR08 Racing Training Package has been developed by the Racing Industry Standing Committee of the Agri-Food Industry Skills Council. An extensive consultation, development and validation process occurred across all sectors covering racing industry participants, and with registered training organisations with scope to deliver racing industry training.

This review work was conducted in two phases.

- The first phase was initiated in 2004 to address the findings of a scoping study that identified gaps in RGR02 Racing Training Package to introduce racing services qualifications and units of competency identified as the Racing Operations Services competency field.
- The second phase was initiated in 2006 to review and redevelop RGR02 Racing Training Package qualifications and units of competency, now identified as the Racing Performance Services competency field.

### Overview

The endorsed components of RGR08 Racing Training Package include:

- Competency Standards for the greyhound, harness and thoroughbred racing codes
- a Qualifications Framework
- national industry skill sets
- Assessment Guidelines.

### Summary of changes from RGR02

Global features of RGR08 Racing Training Package include:

- new unit codes assigned to assist with identifying the sector and functional area of the units
- units reformatted in line with the Department of Education, Science and Training (DEST) requirements and including employability skills and more emphasis on essential skills and knowledge to support delivery and assessment processes
- Employability Skills Summaries incorporated for all qualifications
- eight racing common units of competency developed that apply across AQF levels that were deemed essential requirements for a range of racing industry job outcomes, regardless of the qualification or skill set aligned AQF level
- 25 skill sets incorporated to accommodate industry licensing and registration regulations and racing operations approval to operate requirements

- to avoid duplication, a significant number of units from other industry Training Packages have been imported to accommodate the new or revised qualifications and skill sets.

### **Racing Performance Services competency fields**

- qualifications reduced from 14 to 10
- separate driving and riding units introduced
- trackwork and race driving or riding units split into smaller units that relate more closely to the progressive development of skills and license categories
- units redesigned to place greater emphasis on personal health, nutrition and self-management as well as on race planning and analysis
- lower AQF level units introduced, for example horse health and nutrition
- overlap in unit content reduced, especially for the greyhound, harness and thoroughbred trainer units
- skill sets introduced, aligned to industry licensing or registration requirements.

### **Racing Operations Services competency fields**

- 11 new qualifications added to the Training Package
- skill sets introduced, aligned to industry approval to operate requirements
- 65 new Racing Operations Services units developed.

### **Transition arrangements**

Prior to the introduction of RGR08 Racing Training Package there will be consultation between the Racing Industry Standing Committee of the Agri-Food Industry Skills Council, DEST and the key industry stakeholders to establish transition arrangements and credits for units and qualifications part completed. The results of this work will be published as a supplement to RGR08 Racing Training Package to assist in its implementation.

### **Introduction**

The Racing Performance Services competency field covers the job functions of those involved with the care and training of racing greyhounds and horses as well as those who ride or drive in races, including:

- stablehands
- kennelhands
- trackwork drivers or riders
- harness drivers
- jockeys
- racing greyhound and racehorse trainers.

The Racing Operations Services competency field covers the many and varied roles of workers in the regulatory, administrative, and track and race meeting operational sectors of racing, including:

- racing administrators

- stipendiary stewards
- track maintenance
- race day operations.

## Profile of the racing industry

The Australian racing industry provides opportunities for racing greyhounds and horses. The industry covers the regulation and administration of racing, as well as the upkeep of race and training tracks and the provision of care and training of greyhounds and standardbred (harness) and thoroughbred (galloping) horses.

Racing operates in all parts of Australia from over 600 racecourses and more than 22,000 small to medium sized enterprises (horse and greyhound trainers), 95% of which are located outside metropolitan areas.

The industry has a workforce of 319,000 (82,700 full-time equivalent), of which two thirds are located outside metropolitan areas.<sup>2</sup> The workforce comprises workers drawn from a wide variety of backgrounds, including Indigenous and workers with language backgrounds other than English. Numbers of women in the racing industry workforce are increasing and there are increasing numbers of workers from culturally and linguistically diverse backgrounds.

Nationally each code is managed by a separate governing body:

- Greyhound: Greyhounds Australasia
- Harness: Australian Harness Racing Council
- Thoroughbred: Australian Racing Board.

In some states, the racing codes are managed as separate entities, while in others two or three codes are administered from one central authority. The general administration of racing may vary in some specific areas only for each code, however the protocols and procedures for race meetings and preparation and management of track surfaces vary from code to code. For this reason some competencies must be offered for code-specific job functions (although the job title may appear to be similar).

### Compliance and corporate governance

Overseeing compliance with both federal and state legislation and the rules of racing is a significant role of the racing authorities at national, state and local level. Regulation of racing is the responsibility of the racing bodies in each code and this is managed so that participants and the general public can be assured that racing is conducted with the utmost integrity.

OHS responsibilities, duty of care to workers, as well as animal health and welfare obligations are significant compliance issues for racing administrators.

Licensing and registration of participants (including greyhounds and racehorses) ensure that participants can demonstrate the relevant skills required to care for and race greyhounds or horses. Licensing and registration also ensure that participants are aware of their obligations to comply with the rules of racing and the directions of stewards and other officials.

-----

1 This information was originally part of the Agri-Food Industry Skills Council Racing Industry Standing

Committee Report on Skill Shortages and Skill Sets published in December 2005.

2 IER Strategic Ltd December 2001, Size and Scope of the Australian Thoroughbred Racing Industry, Australian Racing Board Sydney and Australian Harness Racing Council. Decade of National Statistic Information web access:

[http://www.harness.org.au/ahrc/annual/public/stats/dec\\_index.htm](http://www.harness.org.au/ahrc/annual/public/stats/dec_index.htm) and consultation with Greyhounds Australasia.

All participants in racing have an obligation to ensure that racing practices uphold the integrity of racing. Investigation of non-compliance is a significant function of the regulation of racing. Racing stewards have the responsibility of ensuring that racing is conducted fairly and in accordance with the rules of racing. Stewards have the authority to interview racing participants and to enter trainer's properties to gather evidence, as well as to issue penalties for non-compliance. They must conduct their duties under the terms of natural justice, which requires a significant understanding of the principles of administrative law.

### **Employment**

The racing industry includes direct employment in:

- breeding, rearing and training racing animals
- harness driving and thoroughbred jockeys
- trackwork driving and riding
- kennelhands and stablehands
- integrity services to racing
- administration of racing, at state and national regulatory level as well as at race club level
- track, grounds and facility management
- race meeting operations (where a range of specific skills is required for the conduct of races).

Indirect employment and revenue generation in the racing industry occurs in:

- hospitality (at individual race meetings and in regional tourism)
- transport (animal and racing personnel)
- media (research and publication of form, and television, radio, print or internet journalism)
- veterinary, farriery and alternative therapies services
- agriculture and horticulture industries (through production of feed and bedding, as well as track and training facility services)
- TAB and other wagering
- building and construction.

## Economic impact

The racing industry plays a significant role in the Australian economy through revenue generated for the federal and state governments from taxation, direct and indirect industry-related spending on goods and services, full-time equivalent employment and the contribution of unpaid (volunteer) staff.

Services and activities that occur in the different areas of racing include:

| Animal related expenditure                    | Business related expenditure | Race day related expenditure                                                        |
|-----------------------------------------------|------------------------------|-------------------------------------------------------------------------------------|
| Alternative animal therapies                  | Labour                       | Catering                                                                            |
| Animal breeding                               | Insurance                    | Transport—people                                                                    |
| Animal husbandry                              | Legal costs                  | Transport—horses and greyhounds                                                     |
| Training                                      | Accounting fees              | Accommodation—staff and spectators                                                  |
| Stabling and kennelling                       | Technological services       | Venue costs Operations costs Technological services Communication services Wagering |
| Feed production                               | Communication services       |                                                                                     |
| Veterinary, nutritional and saddlery supplies |                              |                                                                                     |
| Farrier services                              |                              |                                                                                     |
| Technological services                        |                              |                                                                                     |
| Communication services                        |                              |                                                                                     |

The major economic inputs of the racing industry are wagering and labour.

Wagering in Australia has a significant impact on the Gross Domestic Product. In 1997-98, over \$11.6 billion was wagered across the three racing codes; with net takings of \$1.6 billion achieved by TAB and bookmakers. (RIRDC 20013)

According to the Australian Racing Board report *Size and Scope of the Australian Thoroughbred Racing Industry*, the Australian thoroughbred racing industry created a gross economic impact of \$7.74 billion during the 1999-2000 racing season. This figure includes a non-metropolitan contribution of \$3.8 billion that makes up 49% of the total impact.

| The economic impact of the thoroughbred racing industry is made up of: (IER 2001) 4 |               |
|-------------------------------------------------------------------------------------|---------------|
| State taxation contributions                                                        | \$900 million |
| Federal taxation contributions                                                      | \$700 million |
| Direct spending by breeders, owners and trainers on industry investment             | \$2.4 billion |
| Race clubs and customer outlay                                                      | \$3.2 billion |

## Taxation

In 2003-04, TAB wagering revenue distributed to state governments totalled \$514.23 million.<sup>5</sup>

Racing and wagering in NSW generates more than \$720 million in taxation revenue. This money represents tax on purchase of goods and services, salaries and wagering. \$393 million of this remains in state government funds; the rest is federal funds generated by pay-as-you-go (PAYG) income tax. (IER, 2003b).

## Volunteers

Volunteers working in the industry make a significant indirect contribution to the national economy. The Social National Account includes an estimate of the contribution of labour to the national economy via voluntary and paid staff.

In 2000 it was estimated that voluntary labour in the racing industry contributed the equivalent of \$43 million to the Social National Account. Racing industry volunteers provide voluntary labour in animal care (particularly in harness and greyhound racing), driving, riding, training and officiating.

The Rural Industries Research and Development Corporation (RIRDC) estimates that 10% of metropolitan horses and 30% of regional horses are strapped by volunteer (generally family) labour. (RIRDC, June 2001b)

## Training Package review methodology

### Racing Operations Services development phase

The Racing Training Package extension project was initiated following a scoping study conducted in 1999 that identified gaps in RGR02 Racing Training Package.

RGR02 covered the skills and knowledge required for the care, management, training and racing of greyhounds and horses (Racing Performance Services). Employment in the racing industry also covers occupations to manage the conduct and administration of racing and race meetings. The extension identified the skills and knowledge required in the administrative, regulatory, track and facility management, and race meeting operations (Racing Operations Services) that are necessary to allow race meetings to be conducted.

The Racing Industry Standing Committee of Agri-Food Industry Skills Council invited nominations to the Racing Training Package Extension Project Steering Committee (PSC), which was convened in July 2004.

Membership of the PSC included representation from the following groups:

- Agri-Food Industry Skills Council

- DEST
- Race Club Management
- Racing Industry Standing Committee of Agri-Food Industry Skills Council
- Racing Regulatory Authorities
- representatives from the three racing codes
- public and enterprise-based RTOs that provide racing training
- State Training Authority.

| <b>PSC guidelines for the development of the Racing Operations Services qualifications</b> |                                                                                                                                                                                                                                                                                                                            |
|--------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1                                                                                          | Provide an overt racing identity in the naming of units and the qualification structure.                                                                                                                                                                                                                                   |
| 2                                                                                          | Avoid prerequisites and co-requisites as much as possible, as delivery of training and assessment for<br>RGR02 was adversely affected by the number of pre and co-requisites.                                                                                                                                              |
| 3                                                                                          | Consider incorporating packaging that allows the take-up of small groups of units rather than full qualifications, as many race meeting staff do not require full qualifications to carry out their job functions but do need specialist skill identification.                                                             |
| 4                                                                                          | Allow flexibility in packaging of units and qualifications to allow for the preparation of individual training plans.                                                                                                                                                                                                      |
| 5                                                                                          | Link the qualification framework to current and predicted license and job function structures within racing.                                                                                                                                                                                                               |
| 6                                                                                          | Limit training delivery opportunities in areas such as steward qualifications where employment is conditional on completion of a successful probationary period (which is managed by the racing regulatory authority) and access to industry documents and other information is highly restricted due to integrity issues. |
| 7                                                                                          | Avoid duplication of elements and performance criteria between units of competency.                                                                                                                                                                                                                                        |
| 8                                                                                          | Consider the impact of large units on learner completion outcomes.                                                                                                                                                                                                                                                         |
| 9                                                                                          | Investigate options for traineeships that allow skill development across more than one job functional area in racing operations services which may encourage race clubs to employ trainees.                                                                                                                                |

Consultation was conducted in all states and territories and included regulatory authorities as well as local race clubs and racing industry participants in all job functions across all three racing codes.

Consultation was conducted by the project team through face-to-face interviews, surveys, attendance at race meetings and observation (and confirmation) of job operations, and research of current job descriptions, duty statements and racing procedures.

In addition, the PSC members reviewed all relevant documentation and proposed qualifications structure and unit content with racing participants in their region and/or jurisdiction.

Face-to-face meetings and teleconferences were held on a regular basis to keep PSC members informed and to gain approval of the project team findings and recommendations.

Racing job functions that were included in the consultation process included:

- barrier attendants
- race administrators and regulatory authority staff
- race club secretary
- race handicapper, programmer and grader
- race meeting kennel staff and parade officials
- race regulatory authority staff
- race starter, judge, timekeeper and photo finisher
- race veterinarian and farrier
- stipendiary steward
- swab attendant
- track maintenance, track management and facility management staff.

### **Background to the development of the extension qualifications**

The following points summarise the major job profiles and issues regarding employment and skill recognition in racing operations services.

- Although three job functional areas were identified (administration [including regulatory functions], track maintenance and race meeting operations) it has been recognised that many people who work in racing perform duties across all three functional areas. In some roles, there may be migration from track management to race meeting operations, such as barrier attendants for example.
- Some people who work full-time in administration also work as casuals or volunteers during race meetings.
- Many race meeting operations staff members are casual, however if qualifications were developed that could allow take-up of qualifications covering competencies in more than one job function, race clubs may be prepared to employ full-time staff who share job responsibilities across more than one job functional area.
- Some people come to racing with high level qualifications in specialist areas but need racing context for their new job functions. Examples include veterinarians, senior administrators, public relations, marketing specialists and racecourse detectives. These people often require a racing compliance skill set to supplement their other qualifications.

- Some race meeting staff members are employed on a casual or volunteer basis however they must still demonstrate competence in their job and operate under the rules of racing. A skill set that covers racing compliance issues and their job-specific functions is all that is required in these cases.
- Many race meeting operational tasks cover quite narrow job responsibilities but require a high level of decision making and/or supervision of staff. For these reasons skill sets have been aligned to AQF qualification levels based on skills and responsibilities required.
- Completion of skill sets may also encourage those who find full qualifications daunting to work towards a full qualification in smaller chunks of skill development and assessment.

### **Imported units of competency**

An extensive search of other industry Training Package units of competency relevant to the racing industry was undertaken by the project team to avoid duplication. Many relevant units were identified and these have been imported into the qualifications taking the following into consideration.

- While there are many units of competency available for general business administration, race clubs have complained that there are no racing-specific units available that identify the regulatory or procedural requirements of operating in a racing administrative environment.
- While there are many units of competency available for horticultural practices, race clubs have complained that there are no racing-specific units available that cover the development and/or management of non-turf racing surfaces or the unique requirements of supervising trackwork, managing racing facilities or assisting in racing animal emergencies.
- Racing stewards also have a unique role; they are required to investigate non-compliance with the rules of racing and issue penalties, as well as monitor practices to ensure the safety and welfare of horses, greyhounds and human participants. While some administrative procedure and investigation units exist, no units were found that covered the job functions and responsibilities of stewards.

### **RGR02 Racing Training Package review phase**

As mentioned previously, RGR02 covers the racing performance services competencies that are required for the care, management, training and racing of greyhounds and horses.

In November 2005 the Board of the Agri-Food Industry Skills Council (AFISC) approved the initiation of the RGR02 Racing Training Package Review Environmental Scan. This scan began in January 2006 and was conducted in conjunction with the Racing Operations Services extension qualifications project.

The Environmental Scan used a range of research methods which met the requirements of the AFISC project brief and DEST guidelines. The research methodology included:

- desktop audit of RGR02 and related Training Packages and historical data
- targeted research through surveys, semi-structured interviews and teleconferences with provider networks
- consultation and advice received from the AFISC equity evaluator
- consultation with representatives from racing and related industry stakeholder groups

- ongoing web-based research and liaison with consultants working on other AFISC projects relevant to the review.

Changes to Australian government policy and procedures requiring the incorporation of employability skills, identification and removal of unnecessary duplication, and access and equity and template adherence were also key considerations.

Key emergent concerns that were raised for consideration included:

- the National Jockey Safety Review Committee requirements
- ways the structure of the Training Package could work towards addressing identified industry skills shortages
- the high level of pre and co-requisite unit packaging which was constraining entry opportunities as well as flexibility of delivery
- unit suites that are complementary and relevant to industry controlling authorities' regulatory requirements
- an approach where skill sets were provided as an alternative to the 'whole of qualification' approach
- nominal hour inconsistencies across states relating to funding provision and the resultant goal of equality of national consistency in training
- availability of current resources and funding for support materials.

### **Redevelopment industry and VET consultation processes**

In January 2007, the Racing Industry Standing Committee appointed a Technical Advisory Group (TAG) to assist the consultants in reviewing, drafting and editing units of competency, skill sets and qualifications. The redevelopment consultation processes included:

- TAG workshop to form the basis of the consultation process and redevelopment scope requirements
- consultative meetings and forums with key stakeholders, including state and territory racing controlling authorities to ensure all proposed changes were consistent with industry regulatory requirements
- distribution of draft materials through email alert updates to over 250 industry and provider stakeholders, with requests for feedback
- maintenance of an issues register to monitor stakeholder feedback for consideration of incorporation into materials where appropriate
- development of schedules of agreed changes to guide consultants, TAG and PSC
- consultation with AFISC equity advisor appointed to the review to identify access and equity requirements
- meetings, email interactions and teleconferences with TAG members to advise on and ratify redevelopment work.

### **Validation and editing of final products**

Feedback received throughout the consultation process was used as the basis for the development of the draft qualification packaging, skill sets and units of competency. The validation process included:

- posting validation summary master document to the AFISC website for review and comment by stakeholders, including draft qualification packaging rules, skill sets, mapping RGR02 units of competency to proposed new and revised RGR08 units of competency, and draft unit files
- email alerts sent to over 250 stakeholders to alert of validation process and request feedback
- validation meetings and teleconferences with TAG and PSC to confirm that agreed changes had been made and to identify any further adjustments necessary
- employability skills audit to confirm these were appropriately incorporated into RGR08

#### Racing Training Package

- final equity review to ensure all access and equity requirements had been fulfilled
- checks to ensure the revised Training Package met the requirements outlined in the *DEST Training Package Development Handbook, September 2007 version*
- final editing and proofreading of the units of competency and four volumes that comprise the revised RGR08 Racing Training Package
- validation sign-off by PSC.

## Qualification Pathways

### Pathways to RGR08 Racing Training Package qualifications

There are many pathways into and through occupations within the racing industry. Therefore RGR08 Racing Training Package does not mandate particular pathways to achieve its qualifications. This guiding principle was established in direct response to the feedback from industry and providers that the Training Package should:

- allow for maximum flexibility in the range of responses to achieving its specified outcomes
- facilitate all pathways to the achievement of a qualification
- ensure that those entering with existing relevant experience, skills and knowledge can have competencies recognised and undertake a program commensurate with their learning needs at an appropriate level.

For many of the occupations, it is necessary to be licensed or registered by the relevant State Principal Racing Authority before working in a particular operational role. Users of RGR08 Racing Training Package are therefore encouraged to contact the relevant authorities to verify the licensing or registration requirements for specific occupations.

### VET in Schools

Registered training organisations should contact relevant jurisdictional agencies responsible for establishing and authorising recognised VET in Schools pathways.

### **Australian apprenticeship pathways**

Australian apprenticeships (traineeships and apprenticeships) provide one approach for achieving qualifications in RGR08 Racing Training Package. Other approaches include direct assessment against the competencies for people with relevant workforce experience, workplace training and assessment, and/or off-the-job training and assessment by an RTO.

All qualifications at AQF levels 1 to 4 that have been identified in this Training Package are potentially accessible as an Australian apprenticeship.

The capacity to establish an Australian apprenticeship for any of the qualifications will depend on industry demand, resources available at the state or territory level, and any award requirements.

Where an Australian apprenticeship structure is established for a racing qualification, the following considerations must be met.

- All Australian apprenticeship arrangements must reflect the qualification requirements and packaging arrangements for the relevant qualification as defined in this Training Package, including the content of the training agreement and training program.
- All Australian apprenticeship arrangements must reflect the requirements for assessment as set out in the Assessment Guidelines of RGR08 Racing Training Package.
- All assessment for the purpose of issuing a qualification through an Australian apprenticeship must be against the specified units of competency and in compliance with the packaging rules as set out for the relevant qualification.
- Any customisation of the qualification for an Australian apprenticeship program must reflect the customisation advice set out in this Training Package.

## Pathways to RGR08 racing industry qualifications

## Employability Skills Summary

An Employability Skills Summary follows the packaging requirements for each qualification in this Training Package. Summaries provide a lens through which to view employability skills at the qualification level and capture the key aspects or facets of the employability skills that are important to the job roles covered by the qualification. Summaries are designed to assist trainers and assessors to identify and include important industry application of employability skills in learning and assessment strategies.

The following is important information for trainers and assessors about Employability Skills Summaries.

- Employability Skills Summaries provide examples of how each skill is applicable to the job roles covered by the qualification.
- Employability Skills Summaries contain general information about industry context which is further explained as measurable outcomes of performance in the units of competency in each qualification.
- The detail in each Employability Skills Summary will vary depending on the range of job roles covered by the qualification in question.
- Employability Skills Summaries are not exhaustive lists of qualification requirements or checklists of performance (which are separate assessment tools that should be designed by trainers and assessors after analysis at the unit level).
- Employability Skills Summaries contain information that may also assist in building learners' understanding of industry and workplace expectations.

For more information relating to employability skills, refer to the Competency Standards section of this volume.

### RGR08 Racing Training Package qualifications and packaging rules

The Qualifications Framework forms part of RGR08 Racing Industry Training Package developed by Agri-Food Industry Skills Council and produced with the assistance of funding provided by the Commonwealth Government through DEST.

RGR08 Racing Training Package integrates competency standards, qualifications, skill sets and assessment guidelines. This volume must be used in conjunction with at least one of the following documents:

- Volume II – Racing Performance Services Competency Standards covering Harness and Thoroughbred Racing Codes
- Volume III – Racing Performance Services Competency Standards covering Greyhound Racing Code
- Volume IV - Racing Operations Services Competency Standards covering the following specialisations:
  - Racing Administration
  - Racing Common
  - Stipendiary Steward
  - Track Maintenance
  - Racing Operations.

## Assessment Guidelines

### Introduction

These Assessment Guidelines provide the endorsed framework for assessment of units of competency in this Training Package. They are designed to ensure that assessment is consistent with the Australian Quality Training Framework (AQTF) 2007. Assessments against the units of competency in this Training Package must be carried out in accordance with these Assessment Guidelines.

### Assessment system overview

This section provides an overview of the requirements for assessment when using this Training Package, including a summary of the AQTF requirements, licensing and registration requirements, and assessment pathways.

### Benchmarks for assessment

Assessment within the National Skills Framework is the process of collecting evidence and making judgements about whether competency has been achieved to confirm whether an individual can perform to the standards expected in the workplace, as expressed in the relevant endorsed unit of competency.

In the areas of work covered by this Training Package, the endorsed units of competency are the benchmarks for assessment. As such, they provide the basis for nationally recognised Australian Qualifications Framework (AQF) qualifications and Statements of Attainment issued by registered training organisations (RTOs).

### Australian Quality Training Framework assessment requirements

Assessment leading to nationally recognised AQF qualifications and Statements of Attainment in the vocational education and training (VET) sector must meet the requirements of the AQTF as expressed in the AQTF 2007 *Essential Standards for Registration*.

The AQTF 2007 *Essential Standards for Registration* can be downloaded from [www.training.com.au](http://www.training.com.au). The following points summarise the assessment requirements.

- **Registration of training organisations**

Assessment must be conducted by, or on behalf of, an RTO formally registered by a State or Territory Registering/Course Accrediting Body in accordance with the AQTF 2007. The RTO must have the specific units of competency and/or AQF qualifications on its scope of registration.

### **Special restrictions in the registration of RTOs for access to RGR08 Racing Training Package**

Application to include the delivery and assessment of Racing Operations Services Steward qualifications on an RTO's scope is subject to the approval of the Racing Industry Standing Committee of the Agri-Food Industry Skills Council. In some Racing Operations Services skill sets, RTOs will also need to gain approval from the State Principal Racing Authority to assess candidates. See further information in the following *Licensing/registration requirements* section.

- **Quality training and assessment**

Each RTO must provide quality training and assessment across all its operations. See the AQTF 2007 *Essential Standards for Registration*, Standard 1.

- **Assessor competency requirements**

Each person involved in training and assessment must be competent for the functions they perform. See the AQTF 2007 *Essential Standards for Registration*, Standard 1 for assessor (and trainer) competency requirements.

- **Assessment requirements**

The RTO's assessments, including RPL, must meet the requirements of the relevant endorsed Training Package. See the AQTF 2007 *Essential Standards for Registration*, Standard 1.

- **Assessment strategies**

Each RTO must have strategies for training and assessment that meet the requirements of the relevant Training Package or accredited course and are developed in consultation with industry stakeholders. See the AQTF 2007 *Essential Standards for Registration*, Standard 1.

- **National recognition**

Each RTO must recognise the AQF qualifications and Statements of Attainment issued by any other RTO. See the AQTF 2007 *Essential Standards for Registration*, Condition of Registration 7: Recognition of qualifications issued by other RTOs.

- **Access and equity and client outcomes**

Each RTO must adhere to the principles of access and equity and maximise outcomes for its clients. See the AQTF 2007 *Essential Standards for Registration*, Standard 2.

- **Monitoring assessments**

Training and/or assessment provided on behalf of the RTO must be monitored to ensure that it is in accordance with all aspects of the *Essential Standards for Registration*. See the AQTF 2007 Essential Standards for Registration, Standard 3.

- **Recording assessment outcomes**

Each RTO must manage records to ensure their accuracy and integrity. See the AQTF 2007 *Essential Standards for Registration*, Standard 3.

- **Issuing AQF qualifications and Statements of Attainment**

Each RTO must issue AQF qualifications and Statements of Attainment that meet the requirements of the current AQF Implementation Handbook and the endorsed Training Packages within the scope of its registration. An AQF qualification is issued once the full requirements for a qualification, as specified in the nationally endorsed Training Package are met. A Statement of Attainment is issued when an individual has completed one or more units of competency from nationally recognised qualification(s)/courses(s). See the AQTF 2007 and the 2007 edition of the AQF Implementation Handbook—available on the AQFAB website ([www.aqf.edu.au](http://www.aqf.edu.au)).

## **Licensing/Registration Requirements**

This section provides information on licensing/registration requirements for this Training Package, with the following important disclaimer.

Licensing and registration requirements that apply to specific industries, and VET, vary between each State and Territory and can regularly change. The developers of this Training Package and DEST consider that the licensing/registration requirements described in this section apply to RTOs, assessors or candidates with respect to this Training Package. While reasonable care has been taken in its preparation, the developers of this Training Package and DEST cannot guarantee that the list is definitive or accurate at the time of reading; the information in this section is provided in good faith on that basis.

Contact the relevant state or territory department(s) to check if the licensing/registration requirements described below still apply, and to check if there are any others with which you must comply.

Australian Harness Racing Council: [www.harness.org.au](http://www.harness.org.au)

## **Racing industry license, registration and approval to operate requirements**

In order to conduct training and assessment for statutory licensing or other industry registration requirements, RTOs and assessors must meet the requirements outlined in

the following chart, in addition to the AQTF requirements.

**Note:**

Steward specialist units have restricted access due to the highly sensitive and often confidential nature of a steward's duties. Cadets and stewards cannot undertake training or assessment before they are employed or approved by the Principle Racing Authority in the relevant state. RTOs may not apply for inclusion of steward qualifications on their scope of registration without the prior approval of the Racing Industry Standing Committee of Agri-Food Industry Skills Council.

| License or Registration or Approval to operate | Jurisdiction                                                                                                  | Requirements                                                                                                                                                                                                                                                                                             |
|------------------------------------------------|---------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| Chemical users                                 | State legislation. | <p>The use and storage of chemicals varies from State to State. Consult state legislation for more advice.</p> <p>The care, management and use of racing animals are controlled by the Prevention of Cruelty to Animals Act and racing-specific guidelines in some States.</p> <p>It is expected that the principles of the Australian Code of Practice for the Care and Use of Animals for Scientific Purposes (the Code) will be incorporated in the design, delivery and updating of any training and/or assessment program using animals. Furthermore, it is essential that all involved (trainers, assessors, trainees and mentors) comply with all animal welfare regulations and legislation and that they apply the relevant codes of practice for animal welfare for the animal species with which they are working.</p> |
| Animal welfare and emergency animal management | State legislation. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

### Access to enrolment and delivery in steward qualifications

Employment as a steward in racing is strictly limited and highly competitive; there are only a small number of new positions offered across all codes of racing per year Australia-wide. All stewards are employed directly by the relevant State Principal Racing Authority and only after probity and integrity checks, as well as satisfactory completion of an employment probation period of on average 12 months. This process is necessary because stewards have access to highly confidential information concerning racing participants and a high degree of discretion is required when performing their duties. Open access to these qualifications is not possible.

### Requirements for Candidates

Candidates who wish to undertake steward training need to be employed or recommended by the racing authority in their State prior to enrolment or commencing training in steward qualifications. Candidates are advised to watch for advertisements inviting applications for the position of cadet steward on authority websites and in industry-related publications.

### Requirements for RTOs

RTOs may not apply for inclusion of steward qualifications on their scope of registration without the prior approval of the Racing Industry Standing Committee of Agri-Food Industry Skills Council.

## Pathways

The competencies in this Training Package may be attained in a number of ways, including through:

- formal or informal education and training
- experiences in the workplace
- general life experience
- any combination of the above.

Assessment under this Training Package leading to an AQF qualification or Statement of Attainment may follow a learning and assessment pathway, an assessment-only or recognition pathway, or a combination of the two as illustrated in the following diagram.

Each of these assessment pathways leads to full recognition of competencies held – the critical issue is that the candidate is competent, not how the competency was acquired. Assessment, by any pathway, must comply with the assessment requirements set out in the Assessment Guidelines of the Training Package and the AQTF 2007.

### Learning and assessment pathways

Usually, learning and assessment are integrated, with assessment evidence being collected

and feedback provided to the candidate at any time throughout the learning and assessment process.

Learning and assessment pathways may include structured programs in a variety of contexts using a range of strategies to meet different learner needs. Structured learning and assessment programs could be group-based, work-based, project-based, self-paced and action learningbased;

conducted by distance or e-learning; and/or involve practice and experience in the workplace.

Learning and assessment pathways to suit Australian apprenticeships have a mix of formal structured training and structured workplace experience with formative assessment activities through which candidates can acquire and demonstrate skills and knowledge from the relevant units of competency.

Assessment-only or recognition of prior learning pathway

Competencies already held by individuals can be formally assessed against the units of competency in this Training Package, and should be recognised regardless of how, when or where they were achieved.

In an assessment-only or recognition of prior learning (RPL) pathway, the candidate provides current, quality evidence of their competency against the relevant unit of competency. This process may be directed by the candidate and verified by the assessor, such as in the compilation of portfolios; or directed by the assessor, such as through observation of workplace performance and skills application, and oral and/or written assessment. Where the outcomes of this process indicate that the candidate is competent, structured training is not required. The RPL requirements of the AQTF 2007 must be met.

As with all assessment, the assessor must be confident that the evidence indicates that the candidate is currently competent against the endorsed unit of competency. This evidence may take a variety of forms and might include certification, references from past employers, testimonials from clients, and work samples. The onus is on candidates to provide sufficient evidence to satisfy assessors that they currently hold the relevant competencies. In judging evidence, the assessor must ensure that the evidence of prior learning is:

- authentic (the candidate's own work)
- valid (directly related to the current version of the relevant endorsed unit of competency)
- reliable (shows that the candidate consistently meets the endorsed unit of competency)
- current (reflects the candidate's current capacity to perform the aspect of the work covered by the endorsed unit of competency)
- sufficient (covers the full range of elements in the relevant unit of competency and addresses the four dimensions of competency, namely task skills, task management skills, contingency management skills, and job/role environment skills).

The assessment only or recognition of prior learning pathway is likely to be most appropriate in the following scenarios:

- candidates enrolling in qualifications who want recognition for prior learning or current competencies
- existing workers
- individuals with overseas qualifications
- recent migrants with established work histories
- people returning to the workplace
- people with disabilities or injuries requiring a change in career.

### Combination of pathways

Where candidates for assessment have gained competencies through work and life experience and gaps in their competence are identified, or where they require training in new areas, a combination of pathways may be appropriate.

In such situations, the candidate may undertake an initial assessment to determine their current competency. Once current competency is identified, a structured learning and assessment program ensures that the candidate acquires the required additional competencies identified as gaps.

### Assessor requirements

This section identifies the mandatory competencies for assessors, and clarifies how others

may contribute to the assessment process where one person alone does not hold all the required competencies.

### **Assessor competencies**

The AQTF 2007 specifies mandatory competency requirements for assessors. For information, Element 1.4 from the AQTF 2007 *Essential Standards for Registration* follows:

1.4 Training and assessment are conducted by trainers and assessors who:

- a) have the necessary training and assessment competencies as determined by the National Quality Council or its successors
- b) have the relevant vocational competencies at least to the level being delivered or assessed
- c) continue developing their vocational and training and assessment competencies to support continuous improvements in delivery of the RTO's services.

### **Designing assessment tools**

This section provides an overview on the use and development of assessment tools.

#### **Use of assessment tools**

Assessment tools provide a means of collecting the evidence that assessors use in making judgements about whether candidates have achieved competency.

There is no set format or process for the design, production or development of assessment tools. Assessors may use prepared assessment tools, such as those specifically developed to support this Training Package, or they may develop their own.

#### **Using prepared assessment tools**

If using prepared assessment tools, assessors should ensure these are benchmarked, or mapped, against the current version of the relevant unit of competency. This can be done by checking that the materials are listed on the National Training Information Service ([www.ntis.gov.au](http://www.ntis.gov.au)). Materials on the list have been noted by the National Quality Council as meeting their quality criteria for Training Package support materials.

#### **Developing assessment tools**

When developing their own assessment tools, assessors must ensure that the tools:

- are benchmarked against the relevant unit or units of competency
- are reviewed as part of the validation of assessment strategies required under the AQTF

2007

- meet the assessment requirements expressed in the AQTF 2007 *Essential Standards for*

*Registration*.

A key reference for assessors developing assessment tools is TAA04 Training and Assessment Training Package and the unit of competency TAAASS403A *Develop assessment tools*.

### **Conducting assessment**

This section details the mandatory assessment requirements and provides information on equity in assessment including reasonable adjustment.

### **Mandatory assessment requirements**

Assessments must meet the criteria set out in the AQTF 2007 *Essential Standards for Registration*.

For information, the mandatory assessment requirements from Standard 1 from the AQTF 2007 *Essential Standards for Registration* are as follows:

- 1.5 Assessment, including recognition of prior learning (RPL):**
- a) meets the requirements of the relevant Training Package or accredited course
  - b) is conducted in accordance with the principles of assessment and the rules of evidence
  - c) meets workplace and, where relevant, regulatory requirements.

### **Assessment of employability skills**

Employability skills are integral to workplace competency. As such, they must be considered in the design, customisation, delivery and assessment of vocational education and training programs in an integrated and holistic way, as represented diagrammatically below.

Employability skills are embedded and explicit within each unit of competency. Training providers must use employability skills information in order to design valid and reliable training and assessment strategies. This analysis could include:

- reviewing units of competency to locate relevant employability skills and determine how they are applied within the unit
- analysing the Employability Skills Summary for the qualification in which the unit or units are packaged to help clarify relevant industry and workplace contexts and the application of employability skills at that qualification outcome
- designing training and assessment to address employability skills requirements.

For more information on employability skills in RGR08 Racing Training Package go to the Agri-Food Industry Skills Council website at [www.agrifoodskills.net.au](http://www.agrifoodskills.net.au).

### Access and equity

An individual's access to the assessment process should not be adversely affected by restrictions placed on the location or context of assessment beyond the requirements specified in this Training Package: training and assessment must be bias-free.

Under the rules for their development, Training Packages must reflect and cater for the increasing diversity of Australia's VET clients and Australia's current and future workforce. The flexibilities offered by Training Packages should enhance opportunities and potential outcomes for all people so that we can all benefit from a wider national skills base and a shared contribution to Australia's economic development and social and cultural life.

### **Reasonable adjustments**

It is important that education providers take meaningful, transparent and reasonable steps to consult, consider and implement reasonable adjustments for students with disability.

Under the *Disability Standards for Education 2005*, education providers must make reasonable adjustments for people with disability to the maximum extent that those adjustments do not cause that provider unjustifiable hardship. While 'reasonable adjustment' and 'unjustifiable hardship' are different concepts and involve different considerations, they both seek to strike a balance between the interests of education providers and the interests of students with and without disability.

An adjustment is any measure or action that a student requires because of their disability, and which has the effect of assisting the student to access and participate in education and

training on the same basis as students without a disability. An adjustment is reasonable if it achieves this purpose while taking into account factors such as the nature of the student's disability, the views of the student, the potential effect of the adjustment on the student and others who might be affected, and the costs and benefits of making the adjustment.

An education provider is also entitled to maintain the academic integrity of a course or program and to consider the requirements or components that are inherent or essential to its nature when assessing whether an adjustment is reasonable. There may be more than one adjustment that is reasonable in a given set of circumstances; education providers are required to make adjustments that are reasonable and that do not cause them unjustifiable hardship.

The following references provide a range of information and resources related to training and assessment for equity groups.

The Australian Disability Clearing House on Education and Training ([www.adcet.edu.au](http://www.adcet.edu.au)) website includes resources and articles about the training and assessment of people with a disability.

Information source for Aboriginal and/or Torres Strait Islander people training and assessment include: National Aboriginal and Torres Strait Education website: [www.natsiew.nexus.edu.au](http://www.natsiew.nexus.edu.au). In addition most State and Territory Education Departments have an Aboriginal and/or Torres Strait Islander Unit who may be able to provide advice and information.

## Competency Standards

### What is competency?

The broad concept of industry competency concerns the ability to perform particular tasks and duties to the standard of performance expected in the workplace. Competency requires the application of specified skills, knowledge and attitudes relevant to effective participation in an industry, industry sector or enterprise.

Competency covers all aspects of workplace performance and involves performing individual tasks; managing a range of different tasks; responding to contingencies or breakdowns; and dealing with the responsibilities of the workplace, including working with others. Workplace competency requires the ability to apply relevant skills, knowledge and attitudes consistently over time and in the required workplace situations and environments. In line with this

concept of competency, Training Packages focus on what is expected of a competent individual in the workplace as an outcome of learning, rather than focussing on the learning process itself.

Competency standards in Training Packages are determined by industry to meet identified industry skill needs. Competency standards are made up of a number of units of competency each of which describes a key function or role in a particular job function or occupation. Each unit of competency within a Training Package is linked to one or more AQF qualifications.

### Contextualisation of units of competency by RTOs

Registered training organisations (RTOs) may contextualise units of competency in this endorsed Training Package to reflect required local outcomes. Contextualisation could involve additions or amendments to the unit of competency to suit particular delivery methods, learner profiles, specific enterprise equipment requirements, or to otherwise meet local needs. However, the integrity of the overall intended outcome of the unit of competency must be maintained.

Any contextualisation of units of competency in this Training Package must be within the bounds of the following advice:

- RTOs must not remove or add to the number and content of elements and performance criteria
- RTOs can include specific industry terminology in the range statement
- Any amendments and additions to the range statement made by RTOs must not diminish the breadth of application of the competency, or reduce its portability
- RTOs may add detail to the evidence guide in areas such as the critical aspects of evidence or required resources and infrastructure—but only where these expand the breadth of the competency and do not limit its use.

Racing industry customisation and contextualisation guidelines

Any modifications to the competency standards and their assessment requirements must ensure the integrity of the standards, so as to maintain their applicability and portability within the racing industry.

The racing industry units of competency are developed to have application across all codes of the industry and in all States and Territories where the industry operates.

It is intended that standards can be customised to reflect differences in industry structure and delivery requirements of organisations and enterprises.

It is strongly recommended that customisation be carried out in consultation with the Racing Industry Standing Committee of Agri-Food Industry Skills Council.

RGR08 Racing Training Package incorporates racing industry competency standards, other competency standards, qualifications and skill sets. Customisation provides the opportunity to modify any or each of the components packaged in a qualification or skill set.

The following guidelines determine the extent of customisation allowable to meet the needs of an individual, an enterprise, workplace or a code of racing.

### **Customisation**

Customisation of the unit must not alter the outcome of the unit. Nor must it alter the health, safety and environmental requirements of the unit.

General directions, processes and procedures can be adapted to fit enterprise or industry group requirements.

Customisation is not designed to be so extensive that the assessment and training required to achieve the unit of competency is substantially changed.

It is not acceptable to change any part of an element of competency or the performance criteria in a unit of competency. The removal or addition in total or in part, of either an element of competency or a performance criterion, may substantially alter the integrity of the unit of competency and its relationship to the qualification.

Some customisation of a unit of competency may occur within the range of variables, or evidence guides, but this should only occur if the change proposed is complementary to the existing range of variables or evidence guides.

### **Contextualisation**

Contextualisation is a method of providing a meaningful framework for trainers and assessors to maximise learning outcomes for the trainees. RTOs are able to do this by organising appropriate support materials, learning activities, case studies and adaptations to language and terminology. All units of competency in this Training Package offer advice on resource implications for delivery and assessment, and provide range statements that take account of differences between codes of the racing industry.

### **Components of units of competency**

The components of units of competency are summarised below, in the order in which they appear in each unit of competency.

#### **Unit title**

The unit title is a succinct statement of the outcome of the unit of competency. Each unit of competency title is unique, both within and across Training Packages.

### **Unit descriptor**

The unit descriptor broadly communicates the content of the unit of competency and the skill area it addresses. Where units of competency have been contextualised from units of competency from other endorsed Training Packages, summary information is provided. There may also be a brief second paragraph that describes its relationship with other units of competency, and any licensing requirements.

### **Employability skills**

This sub-section contains a statement that the unit contains employability skills.

### **Prerequisite units (optional)**

If there are any units of competency that must be completed before the unit, these will be listed.

### **Application of the unit**

This sub-section fleshes out the unit of competency's scope, purpose and operation in different contexts, for example, by showing how it applies in the workplace.

### **Competency field (optional)**

The competency field either reflects the way the units of competency are categorised in the Training Package or denotes the industry sector, specialisation or function. It is an optional component of the unit of competency.

### **Sector (optional)**

The industry sector is a further categorisation of the competency field and identifies the next classification, for example an elective or supervision field.

### **Elements of competency**

The elements of competency are the basic building blocks of the unit of competency. They describe in terms of outcomes the significant functions and tasks that make up the competency.

### **Performance criteria**

The performance criteria specify the required performance in relevant tasks, roles, skills and in the applied knowledge that enables competent performance. They are usually written in passive voice. Critical terms or phrases may be written in bold italics and then defined in range statement, in the order of their appearance in the performance criteria.

### **Required skills and knowledge**

The essential skills and knowledge are either identified separately or combined. *Knowledge* identifies what a person needs to know to perform the work in an informed and effective manner. *Skills* describe the application of knowledge to situations where understanding is converted into a workplace outcome.

### **Range statement**

The range statement provides a context for the unit of competency, describing essential operating conditions that may be present with training and assessment, depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts. As applicable, the meanings of key terms used in the performance criteria will also be explained in the range statement.

### Evidence guide

The evidence guide is critical in assessment as it provides information to the RTO and assessor about how the described competency may be demonstrated. The evidence guide does this by providing a range of evidence for the assessor to make determinations, and by providing the assessment context. The evidence guide describes:

- conditions under which competency must be assessed including variables such as the assessment environment or necessary equipment
- relationships with the assessment of any other units of competency
- suitable methodologies for conducting assessment including the potential for workplace simulation
- resource implications, for example access to particular equipment, infrastructure or situations
- how consistency in performance can be assessed over time, various contexts and with a range of evidence
- the required underpinning knowledge and skills.

## Employability skills in units of competency

The detail and application of employability skills facets will vary according to the job-role requirements of each industry. In developing Training Packages, industry stakeholders are consulted to identify appropriate facets of employability skills which are incorporated into the relevant units of competency and qualifications.

Employability skills are not a discrete requirement contained in units of competency (as was the case with key competencies). Employability skills are specifically expressed in the context of the work outcomes described in units of competency and will appear in elements, performance criteria, range statements and evidence guides. As a result, users of Training Packages are required to review the entire unit of competency in order to accurately determine employability skills requirements.

### How employability skills relate to the key competencies

The eight nationally agreed employability skills now replace the seven key competencies in Training Packages. Trainers and assessors who have used Training Packages prior to the introduction of employability skills may find the following comparison useful.

| Employability Skills | Mayer Key Competencies              |
|----------------------|-------------------------------------|
| Communication        | Communicating ideas and information |

|                           |                                                                                        |
|---------------------------|----------------------------------------------------------------------------------------|
| Teamwork                  | Working with others and in teams                                                       |
| Problem solving           | Solving problems<br>Using mathematical ideas and techniques                            |
| Initiative and enterprise |                                                                                        |
| Planning and organising   | Collecting, analysing and organising information<br>Planning and organising activities |
| Self-management           |                                                                                        |
| Learning                  |                                                                                        |
| Technology                | Using technology                                                                       |

When analysing the above table it is important to consider the relationship and natural overlap of employability skills. For example, using technology may involve communication skills and combine the understanding of mathematical concepts.

### Explicitly embedding employability skills in units of competency

This Training Package seeks to ensure that industry-endorsed employability skills are explicitly embedded in units of competency. The application of each skill and the level of detail included in each part of the unit will vary according to industry requirements and the nature of the unit of competency.

Employability skills must be both explicit and embedded within units of competency. This means that employability skills will be:

- embedded in units of competency as part of the other performance requirements that make up the competency as a whole
- explicitly described within units of competency to enable Training Packages users to identify accurately the performance requirements of each unit with regards to employability skills.

This Training Package also seeks to ensure that employability skills are well-defined and written into units of competency so that they are apparent, clear and can be delivered and assessed as an essential component of unit work outcomes.

### Employability Skills Framework

The following table contains the employability skills facets identified in the report *Employability Skills for the Future*. Copies of the report are available from the DEST website at: [http://www.dest.gov.au/archive/ty/publications/employability\\_skills/index.htm](http://www.dest.gov.au/archive/ty/publications/employability_skills/index.htm)

| Skill | Facets                                                                |
|-------|-----------------------------------------------------------------------|
|       | Aspects of the skill that employers identify as important. The nature |

|                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                                              | and application of these facets will vary depending on industry and job type.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Communication</b> that contributes to productive and harmonious relations across employees and customers. | <ul style="list-style-type: none"> <li>• listening and understanding</li> <li>• speaking clearly and directly</li> <li>• writing to the needs of the audience</li> <li>• negotiating responsively</li> <li>• reading independently</li> <li>• empathising</li> <li>• using numeracy effectively</li> <li>• understanding the needs of internal and external customers</li> <li>• persuading effectively</li> <li>• establishing and using networks</li> <li>• being assertive</li> <li>• sharing information</li> <li>• speaking and writing in languages other than English.</li> </ul>                                             |
| <b>Teamwork</b> that contributes to productive working relationships and outcomes.                           | <ul style="list-style-type: none"> <li>• working across different ages irrespective of gender, race, religion or political persuasion</li> <li>• working as an individual and as a member of a team</li> <li>• knowing how to define a role as part of the team</li> <li>• applying teamwork to a range of situations e.g. futures planning and crisis problem solving</li> <li>• identifying the strengths of team members</li> <li>• coaching and mentoring skills, including giving feedback.</li> </ul>                                                                                                                          |
| <b>Problem solving</b> that contributes to productive outcomes.                                              | <ul style="list-style-type: none"> <li>• developing creative, innovative and practical solutions</li> <li>• showing independence and initiative in identifying and solving problems</li> <li>• solving problems in teams</li> <li>• applying a range of strategies to problem solving</li> <li>• using mathematics, including budgeting and financial management to solve problems</li> <li>• applying problem-solving strategies across a range of areas</li> <li>• testing assumptions, taking into account the context of data and circumstances</li> <li>• resolving customer concerns in relation to complex project</li> </ul> |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                     |  |

## **RGR10108 Certificate I in Racing (Stablehand)**

### **Modification History**

Not Applicable

### **Description**

This qualification provides an avenue for pre-employment training for students in schools who are contemplating employment in the entry-level occupation of stablehand. These trainee stablehands demonstrate basic practical skills and work under constant supervision with horses that are well-educated, tractable and docile. Driving or riding skills can be acquired through optional electives.

A stablehand is a person who is employed in a harness or thoroughbred racing stable and whose prime function is to care for horses and meet their individual needs of feeding, grooming and keeping the environment safe, clean and hygienic. A stablehand at AQF level 1 works under the direction of a trainer or stable supervisor in performing routine tasks and only handles horses that are well-educated and tractable. The stablehand is also responsible for passing on messages and information to others in the stable.

### **Pathways Information**

#### **Pathways into the qualification**

Direct entry

#### **Pathways from the qualification**

RGR20108 Certificate II in Racing (Stablehand)

#### **Licensing considerations**

There are no specific licences that relate to this qualification.

#### **Australian Apprenticeships**

#### **Job roles**

| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of employees who work under supervision and in known routines but with a defined amount of responsibility and limited judgement.

A stablehand is a person who is employed in a harness or thoroughbred racing stable and whose prime function is to care for the animals and to meet their individual needs of feeding, grooming, exercising and transporting; as well as keeping the environment safe, clean and hygienic. In a harness racing stable the stablehand cares for standardbred horses. In a thoroughbred racing stable the stablehand cares for thoroughbreds. The stablehand works under the direction of a trainer or stable supervisor but is also able to act autonomously in certain situations requiring solutions to a limited range of problems or working as part of a team.

It should be noted that duties involve caring for highly-strung, expensive animals that can easily injure themselves or their handlers. There is therefore a degree of responsibility as well as a duty of care involved in the work. There will be occasions when a stablehand will be in sole charge of an animal in situations where a danger exists to the animal, the handler or the general public, such as unloading from a float or leading on a racecourse.

Competencies attained in the units packaged for this qualification will apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and a Certificate II in Racing (Stablehand) must contain a statement as follows:

'This qualification was achieved under the conditions operating in the [*insert relevant racing code - harness OR thoroughbred*] code of the racing industry.'

### Pathways Information

#### Pathways into the qualification

## RGR10108 Certificate I in Racing (Stablehand)

### Pathways from the qualification

RGR30208 Certificate III in Racing (Advanced Stablehand)

### Licensing considerations

This qualification is required for industry licensing and registration in some states and territories. Refer to your state or territory Principal Racing Authority for advice.

### Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

### Job roles

## Licensing/Regulatory Information

Refer to Pathways Information

## Entry Requirements

### Entry requirements

There are no entry requirements for this qualification.

| RGRPSH203A | Perform basic driving tasks        |
| RGRPSH204A | Prepare to drive jog work          |
| RGRPSH205A | Perform basic riding tasks         |
| RGRPSH206A | Develop riding skills for flatwork |
| BSBITU203A | Communicate electronically         |

## RGR20213 Certificate II in Racing (Greyhound)

### Modification History

| Release | TP Version | Comments                                                   |
|---------|------------|------------------------------------------------------------|
| 1       | RGR08v2    | Initial release. Supersedes and is equivalent to RGR20208. |

### Description

This qualification reflects the role of employees who work under supervision and in known routines but with a defined amount of responsibility and limited judgement.

An attendant is a person who is employed in a greyhound racing kennel and whose prime function is to care for the animals and to meet their individual needs of feeding, grooming, exercising, transporting and keeping the environment safe, clean and hygienic. Attendants work under the direction of a greyhound trainer or kennel supervisor but are also able to act autonomously in certain situations requiring solutions to a limited range of problems or working as part of a team.

It should be noted that duties involve caring for racing greyhounds that can easily injure themselves or their handlers. There is therefore a degree of responsibility as well as a duty of care involved in the work. There will be occasions when an attendant will be in sole charge of an animal in situations where a danger exists to the animal, the handler or the general public, such as exercising in public areas or leading on a racecourse.

### Pathways Information

#### Pathways into the qualification

#### Pathways from the qualification

#### Licensing considerations

This qualification is required for industry licensing and registration in some states and territories. Refer to your state or territory Principal Racing Authority for advice.

#### Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

### Description

This qualification reflects the role of employees who work under supervision in known routines but with a defined amount of responsibility and limited judgement. The employee works under the direction of a supervisor but is also able to act autonomously in certain situations requiring solutions to a limited range of problems or working as part of a team.

While they may not be required to handle horses or greyhounds, employees with this qualification are often required to work close to race animals. For their own safety, the safety of others and the safety of animals, employees must be aware of potential risks and hazards associated with animal behaviour.

**Packaging Rules****Packaging Rules**

Completion of fifteen (15) units made up of four (4) core and eleven (11) electives.

**RULES FOR ELECTIVE UNITS**

- a minimum of one (1) unit from Group A
- a minimum of five (5) units from Group C
- a minimum of three (3) units from Groups A, C, D or E
- a maximum of two (2) units may be selected from the RGR08 Racing Training Package or any other currently endorsed Training Package or accredited course. Selected units must be relevant to job outcomes in the racing industry.

For a Certificate II in Racing Services (Racing Administration) at least eight (8) of the

## Packaging Rules

units selected to make up this qualification must be aligned clearly to Certificate II outcomes.

Electives may be selected from any of the listed groups A, C, D and E. Refer to Volume IV for the group listings.

The electives can be chosen from any AQF level however they should complement Certificate II qualification requirements.

Ideally electives should be chosen as part of the individual training plan for a learner so that they provide skills and knowledge development that is relevant to their employment or future promotion. In some cases an individual training plan may include a mixture of units for those who work in more than one specialist area.

### CORE UNITS

|            |                                                                |
|------------|----------------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocol           |
| RGRCMN201A | Follow OHS procedures and observe environmental work practices |
| RGRCMN202A | Achieve requirements for industry induction                    |
| HLTFA301B  | Apply first aid                                                |

### GROUP A UNITS - RACING COMMON

|             |                                                              |
|-------------|--------------------------------------------------------------|
| RGRCMN002A  | Investigate job opportunities in racing and related industry |
| RGRCMN003A  | Manage personal health and fitness                           |
| RGRTRK402A  | Relate animal welfare to track and environmental conditions  |
| AHCBIO202A  | Follow site quarantine procedures                            |
| PUACOM001C  | Communicate in the workplace                                 |
| SISXEMR201A | Respond to emergency situations                              |
| SRSCOP001B  | Prepare for public speaking                                  |

### GROUP C UNITS - RACING ADMINISTRATION

|            |                                             |
|------------|---------------------------------------------|
| BSBCUS201B | Deliver a service to customers              |
| BSBINM201A | Process and maintain workplace information  |
| BSBWOR202A | Organise and complete daily work activities |

**Packaging Rules**

|            |                                                 |
|------------|-------------------------------------------------|
| BSBWOR203B | Work effectively with others                    |
| BSBWOR204A | Use business technology                         |
| BSBWRT301A | Write simple documents                          |
| SITHFAB201 | Provide responsible service of alcohol          |
| SRXGRO002A | Deal with conflict                              |
| THTFME09A  | Develop and update knowledge of protocol events |

| Release | TP Version | Comments                            |
|---------|------------|-------------------------------------|
| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of employees who work under supervision in known routines but with a defined amount of responsibility and limited judgement. Work responsibilities cover the maintenance and repair of racing tracks, gardens and other facilities as well as the use of tools and machinery. The employee works under the direction of a supervisor but is also able to act autonomously in certain situations requiring solutions to a limited range of problems or working as part of a team.

Employees with this qualification may be required to handle greyhounds or horses in emergency situations and assist in marshalling prior to racing (depending on the individual's training plan).

**Packaging Rules****Packaging Rules**

Completion of sixteen (16) units made up of four (4) core and twelve (12) elective units.

**RULES FOR ELECTIVE UNITS**

- a minimum of one (1) unit from Group A
- a minimum of seven (7) units from Group D
- a minimum of two (2) units from Groups A, C, D or E
- a maximum of two (2) units may be selected from the RGR08 Racing Training Package or any other currently endorsed Training Package or accredited course. Selected units must be relevant to job outcomes in the racing industry.

For a Certificate II in Racing Services (Track Maintenance) at least nine (9) of the units selected to make up this qualification must be aligned clearly to Certificate II

## Packaging Rules

outcomes.

Electives may be selected from any of the listed groups A, C, D and E. Refer to Volume IV for the group listings.

The electives can be chosen from any AQF level however they should complement Certificate II qualification requirements.

Ideally electives should be chosen as part of the individual training plan for a learner so that they provide skills and knowledge development that is relevant to their employment or future promotion. In some cases an individual training plan may include a mixture of units for those who work in more than one specialist area.

### CORE UNITS

|            |                                                                |
|------------|----------------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocol           |
| RGRCMN201A | Follow OHS procedures and observe environmental work practices |
| RGRCMN202A | Achieve requirements for industry induction                    |
| HLTFA301B  | Apply first aid                                                |

### GROUP A UNITS - RACING COMMON

|             |                                                              |
|-------------|--------------------------------------------------------------|
| RGRCMN002A  | Investigate job opportunities in racing and related industry |
| RGRCMN003A  | Manage personal health and fitness                           |
| RGRTRK402A  | Relate animal welfare to track and environmental conditions  |
| AHCBIO201A  | Follow site quarantine procedures                            |
| PUACOM001C  | Communicate in the workplace                                 |
| SISXEMR201A | Respond to emergency situations                              |

### GROUP D UNITS - TRACK MAINTENANCE

|            |                                                                 |
|------------|-----------------------------------------------------------------|
| RGRPSG201A | Handle greyhounds                                               |
| RGRPSH201A | Handle horses                                                   |
| RGRTRK303A | Provide emergency animal assistance                             |
| AHCBIO301A | Work effectively in an emergency disease or plant pest response |
| AHCCHM201A | Apply chemicals under supervision                               |

**Packaging Rules**

|            |                                                         |
|------------|---------------------------------------------------------|
| AHCINF203A | Maintain properties and structures                      |
| AHCIRG202A | Assist with the operation of pressurised irrigation     |
| AHCMOM204A | Undertake operational maintenance of machinery          |
| AHCMOM205A | Operate vehicles                                        |
| AHCMOM304A | Operate machinery and equipment                         |
| AHCPGD201A | Plant trees and shrubs                                  |
| AHCPMG201A | Treat weeds                                             |
| AHCPMG202A | Treat plant pests, diseases and disorders               |
| AHCSOL201A | Determine basic properties of soil and/or growing media |
| AHCWRK201A | Observe and report on weather                           |
| HLTGM202B  | Use hand and power tools                                |
| HLTGM305B  | Maintain pool environments                              |
| THTGTM01B  | Carry out general maintenance                           |
| THTGTM02B  | Carry out grounds maintenance                           |

## RGR30108 Certificate III in Racing (Trackrider)

### Modification History

| Release | TP Version | Comments                            |
|---------|------------|-------------------------------------|
| 3       | RGR08v2    | Corrected typographical error       |
| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

The qualification covers the role of self-employed or employed persons who work independently with limited supervision in a defined range of varied contexts that may be complex and non-routine.

A trackrider is a person who is independently engaged or employed to exercise thoroughbred horses on the instruction of a trainer. The duties require judgement and the ability to communicate information concerning horse health, performance and temperament accurately to the trainer as well as high level riding skills and the ability to interpret and relay information covering a variety of circumstances.

### Pathways Information

## RGR30208 Certificate III in Racing (Advanced Stablehand)

### Modification History

| Release | TP Version | Comments                            |
|---------|------------|-------------------------------------|
| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of persons who work independently with limited supervision in a range of areas across a defined range of skills where they are required to use judgement, interpret information, apply solutions to various problems and be responsible for their own outputs.

An advanced stablehand (sometimes referred to as stable foreman) is a person who is in charge of daily operations in a harness or thoroughbred racing stable. In a harness racing stable the stablehand cares for standardbred horses. In a thoroughbred racing stable the stablehand cares for thoroughbreds. The advanced stablehand works to the delegated instructions of a trainer who has overall responsibility for the enterprise. There is a degree of autonomy within the delegation, for example an advanced stablehand is permitted under the rules of racing to act for the trainer on race days and when operating as a foreman in the stable environment directs and coordinates one or more stablehands.

Competencies attained in the units packaged for this qualification will apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied, they will relate to the harness or thoroughbred code and a Certificate III in Racing (Advanced Stablehand) must contain a statement as follows:

'This qualification was achieved under the conditions operating in the [*insert relevant racing code - harness OR thoroughbred*] code of the racing industry.'

### Pathways Information

#### Pathways into the qualification

RGR20108 Certificate II in Racing (Stablehand)

## Pathways from the qualification

### Licensing considerations

This qualification is required for industry licensing and registration in some states and territories. Refer to your state or territory Principal Racing Authority for advice.

### Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

### Job roles

## Licensing/Regulatory Information

Refer to Pathways Information

## Entry Requirements

### Entry requirements

There are no entry requirements for this qualification.

| 2       | RGR08v1.1  | Updated superseded equivalent units. Fixed error in packaging rules that identified wrong choice of core units |
| 1       | RGR08      | Initial release                                                                                                |

### Description

This qualification reflects the role of persons who are responsible for organising their own work within known routines. Work responsibilities cover general office administration conducted under racing-specific protocols and procedures. A range of well-developed skills involving judgement and problem solving with some theoretical knowledge is required.

While they may not be required to handle horses or greyhounds, employees with this qualification are often required to work close to race animals. For their own safety, the safety of others and the safety of animals, employees must be aware of potential risks and hazards associated with animal behaviour.

### Pathways Information

#### Pathways into the qualification

RGR20308 Certificate II in Racing Services (Racing Administration)

#### Pathways from the qualification

RGR40508 Certificate IV in Racing Services (Racing Administration)

### Licensing considerations

There are no specific licences that relate to this qualification.

## Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

## Job roles

| BSBWOR301B | Organise personal work priorities and development |

**Packaging Rules**

|            |                                                        |
|------------|--------------------------------------------------------|
| BSBWRT301A | Write simple documents                                 |
| SITHFAB201 | Provide responsible service of alcohol                 |
| SRXEVT007B | Manage spectators at an event or program               |
| SRXGRO002A | Deal with conflict                                     |
| THTFME07A  | Organise and monitor infrastructure for outdoor events |
| THTFME09A  | Develop and update knowledge of protocol events        |

## RGR30408 Certificate III in Racing Services (Cadet Steward)

### Modification History

| Release | TP Version | Comments                                         |
|---------|------------|--------------------------------------------------|
| 3       | RGR08v2    | Corrected typographical error in packaging rules |
| 2       | RGR08v1.1  | Updated superseded equivalent units              |
| 1       | RGR08      | Initial release                                  |

### Description

This qualification reflects the role of persons who are responsible for organising their own work within known routines. Work responsibilities are undertaken within regulatory and integrity services operations in racing; a high degree of confidentiality and discretion is required in job functions.

Employees with this qualification need to be confident about moving in close proximity to racing horses or greyhounds and to be able to identify safe and unsafe methods of handling by others, as well as recognising approved and non-approved racing gear and equipment and legal and illegal racing tactics.

Knowledge of the rules of racing, racing protocols, animal welfare and duty of care requirements is also considered essential. A range of well-developed skills involving judgement and problem solving with some theoretical knowledge is required.

### Pathways Information

#### Pathways into the qualification

This qualification may be accessed by direct entry.

RGR20308 Certificate II in Racing Services (Racing Administration)

#### Pathways from the qualification

Further training pathways from this qualification include, but are not limited to RGR40608 Certificate IV Racing Services (Steward)

| <p>Completion of twenty (20) units made up of four (4) core units and sixteen (16) elective units.</p> <p><b>RULES FOR ELECTIVE UNITS</b></p> <ul style="list-style-type: none"> <li>a minimum of four (4) units from Group A</li> <li>a minimum of seven (7) units from Group B</li> </ul> |

## Packaging Rules

- a minimum of two (2) units from Groups A, B or C
- a maximum of three (3) units may be selected from the RGR08 Racing Training Package or any other currently endorsed Training Package or accredited course. Selected units must be relevant to job outcomes in the racing industry.

For a Certificate III in Racing Services (Cadet Steward) at least twelve (12) of the units selected to make up this qualification must be aligned clearly to Certificate III outcomes.

## CORE UNITS

|            |                                                                      |
|------------|----------------------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocols                |
| RGRCMN202A | Achieve requirements for industry induction                          |
| RGRCMN401A | Maintain and monitor OHS procedures and environmental work practices |
| HLTFA301B  | Apply first aid                                                      |

## GROUP A UNITS - RACING COMMON

|             |                                                                |
|-------------|----------------------------------------------------------------|
| RGRCMN002A  | Investigate job opportunities in racing and related industries |
| RGRCMN003A  | Manage personal health and fitness                             |
| AHCBIO202A  | Follow site quarantine procedures                              |
| PUACOM001C  | Communicate in the workplace                                   |
| SISXEMR201A | Respond to emergency situations                                |
| SRSCOP001B  | Prepare for public speaking                                    |

## GROUP B UNITS - STEWARD

|            |                                                     |
|------------|-----------------------------------------------------|
| RGRPSG201A | Handle greyhounds                                   |
| RGRPSH201A | Handle horses                                       |
| RGRROP301A | Perform ear branding and marking up of greyhounds   |
| RGRSTD301A | Perform duties of cadet steward                     |
| RGRSTD302A | Interpret wagering trends                           |
| RGRSTD303A | Assess racing gear suitability and safety           |
| RGRSTD408A | Analyse race performance                            |
| RGRSWA301A | Collect non-blood samples from greyhounds or horses |
| RGRSWA302A | Collect non-blood samples from racing personnel     |
| RGRTRK303A | Provide emergency animal assistance                 |

SRXGRO002A Deal with conflict

THTFME09A Develop and update knowledge of protocol events

## RGR30508 Certificate III in Racing Services (Track Maintenance)

### Modification History

| Release | TP Version | Comments                            |
|---------|------------|-------------------------------------|
| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of persons who are responsible for organising their own work within known routines. Work responsibilities cover the maintenance and repair of racing tracks, gardens and other facilities as well as the use of tools and machinery.

Employees will be expected to demonstrate knowledge of the impact of track and environmental conditions on racing animal welfare.

Employees may be required to handle greyhounds or horses in emergency situations and assist in marshalling prior to racing (depending on the individual's training plan).

A range of well-developed skills involving judgement and problem solving with some theoretical knowledge is required.

### Pathways Information

#### Pathways into the qualification

RGR20408 Certificate II in Racing Services (Track Maintenance)

#### Pathways from the qualification

RGR40708 Certificate IV in Racing Services (Track Maintenance)

### Licensing considerations

There are no specific licences that relate to this qualification.

## Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

## Job roles

## Licensing/Regulatory Information

Refer to Pathways Information

## Entry Requirements

### Entry requirements

There are no entry requirements for this qualification.

**Packaging Rules****Packaging Rules**

Completion of twenty (20) units made up of five (5) core and fifteen (15) elective units.

**RULES FOR ELECTIVE UNITS**

- a minimum of ten (10) units from Group D
- a minimum of two (2) units from Groups A, C, D or E
- a maximum of three (3) units may be selected from the RGR08 Racing Training Package or any other currently endorsed Training Package or accredited course. Selected units must be relevant to job outcomes in the racing industry.

## Packaging Rules

For a Certificate III in Racing Services (Track Maintenance) at least twelve (12) of the units selected to make up this qualification must be aligned clearly to Certificate III outcomes.

Electives may be selected from any of the listed groups A, C, D and E. Refer to Volume IV for the group listings.

The electives can be chosen from any AQF level however they should complement Certificate III qualification requirements.

Ideally electives should be chosen as part of the individual training plan for a learner so that they provide skills and knowledge development that is relevant to their employment or future promotion. In some cases an individual training plan may include a mixture of units for those who work in more than one specialist area.

## CORE UNITS

|            |                                                                          |
|------------|--------------------------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocols                    |
| RGRCMN002A | Investigate job opportunities in racing and related industries           |
| RGRCMN201A | Follow OHS procedures and observe environmental work practices <b>OR</b> |
| RGRCMN401A | Maintain and monitor OHS procedures and environmental work practices     |
| RGRCMN202A | Achieve requirements for industry induction                              |
| HLTFA301B  | Apply first aid                                                          |

## GROUP D - TRACK MAINTENANCE

|            |                                                                 |
|------------|-----------------------------------------------------------------|
| RGRADM302A | Service use of track and race club facilities                   |

| RGRPSH201A | Handle horses                                                   |
| RGRTRK301A | Assist with race meeting track management                       |
| RGRTRK302A | Maintain specialised non-turf track surfaces for racing         |
| RGRTRK303A | Provide emergency animal assistance                             |
| AHCBIO301A | Work effectively in an emergency disease or plant pest response |
| AHCCHM303A | Prepare and apply chemicals                                     |
| AHCCHM304A | Transport, handle and store chemicals                           |

**Packaging Rules**

|            |                                                           |
|------------|-----------------------------------------------------------|
| AHCIRG302A | Install irrigation systems                                |
| AHCIRG305A | Operate pressurised irrigation systems                    |
| AHCIRG306A | Troubleshoot irrigation systems                           |
| AHCMOM301A | Coordinate machinery and equipment maintenance and repair |
| AHCMOM305A | Operate specialised machinery and equipment               |
| AHCPGD301A | Implement a plant establishment program                   |
| AHCPGD304A | Implement a landscape maintenance program                 |
| AHCPMG301A | Control weeds                                             |
| AHCPMG302A | Control plant pests, diseases and disorders               |
| AHCSOL201A | Determine basic properties of soil and/or growing media   |
| AHCSOL401A | Sample soils and interpret results                        |
| AHCTRF304A | Monitor turf health                                       |
| AHCTRF305A | Renovate sports turf                                      |
| AHCWRK201A | Observe and report on weather                             |
| AHCWRK302A | Monitor weather conditions                                |
| AHCWRK305A | Coordinate work site activities                           |
| HLTGM202B  | Use hand and power tools                                  |
| HLTGM305B  | Maintain pool environments                                |
| THTGTM01B  | Carry out general maintenance                             |
| THTGTM02B  | Carry out grounds maintenance                             |

## RGR40108 Certificate IV in Racing (Racehorse Trainer)

### Modification History

| Release | TP Version | Comments                            |
|---------|------------|-------------------------------------|
| 3       | RGR08v2    | Corrected typographical error       |
| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of independently employed persons who are responsible for organising their own work as well as leading others and planning for and carrying out tasks of complex and non-routine functions.

A racehorse trainer is a person who is licensed to operate a business that trains horses under racing industry regulated licensing criteria for the purpose of competing in industry-regulated events. The trainer is responsible for the care, maintenance and racing performance of the animals. A trainer at this level has developed a sound knowledge of all aspects of the industry and has acquired competencies that enable performance of all tasks and duties associated with running a racing establishment, including managing staff, finances and equipment. The trainer is required to solve unpredictable problems by the analysis and evaluation of information and demonstrate broad knowledge in a variety of contexts. Knowledge of industry rules and legal procedures is essential.

Competencies attained in the units packaged for this qualification will apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and a Certificate IV in Racing (Racehorse Trainer) must contain a statement as follows:

'This qualification was achieved under the conditions operating in the [*insert relevant racing code - harness OR thoroughbred*] code of the racing industry.'

### Pathways Information

#### Pathways into the qualification

RGR30108 Certificate III in Racing (Trackrider)

## Pathways from the qualification

RGR50108 Diploma of Racing (Racehorse Trainer)

## Licensing considerations

This qualification is required for industry licensing and registration in some states and territories. Refer to your state or territory Principal Racing Authority for advice.

## Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

## Job roles

## Licensing/Regulatory Information

Refer to Description

## Entry Requirements

### Entry requirements

To undertake this qualification the candidate will have extensive industry-relevant experience in the care, welfare and management of horses. Before commencing this qualification, candidates must be able to demonstrate that they have the appropriate skills and knowledge commensurate with RGR30208 Certificate III in Racing (Advanced Stablehand).

## Packaging Rules

### Packaging Rules

Completion of fifteen (15) units made up of seven (7) core units and eight (8) elective units.

### RULES FOR ELECTIVE UNITS

- Of the eight (8) elective units, a maximum of two (2) units aligned to AQF level 5 may be selected.

Ideally electives should be chosen as part of the individual training plan for a learner so that they provide progressive skills and knowledge development that is relevant to their business and career progression.

### CORE UNITS

|            |                                                                      |
|------------|----------------------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocols                |
| RGRCMN401A | Maintain and monitor OHS procedures and environmental work practices |
| RGRPSH408A | Manage horse health and welfare                                      |
| RGRPSH417A | Participate in protests, inquiries and appeals                       |
| RGRPSH421A | Operate horse racing training business                               |
| RGRPSH503A | Trial and race horses                                                |
| BSBSMB407A | Manage a small team                                                  |

### ELECTIVE UNITS

|            |                                                                                  |
|------------|----------------------------------------------------------------------------------|
| RGRCMN402A | Participate in media interviews for racing                                       |
| RGRPSH301A | Implement stable operations                                                      |
| RGRPSH302A | Supervise handling of horses                                                     |
| RGRPSH401A | Relate anatomical and physiological features to the care and treatment of horses |
| RGRPSH409A | Determine nutritional requirements for racing horses                             |
| RGRPSH420A | Participate in implementing racehorse exercise programs                          |
| RGRPSH422A | Promote and maintain business arrangements with racehorse owners                 |
| RGRPSH423A | Train horses for jumping racing                                                  |
| RGRPSH501A | Plan and adapt training conditioning programs for racehorses                     |
| RGRPSH502A | Plan and implement education of horses for racing                                |

| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of independently employed persons who are responsible for organising their own work.

A jockey is an independent professional sportsperson licensed by thoroughbred racing industry authorities to compete in industry-regulated competition. The jockey contracts riding services on a daily basis to owners and trainers. A jockey possesses the highest level of race riding and horse handling skills, which require application of problem solving skills to unpredictable problems. As some of a jockey's income is derived from percentages of prize money, the jockey must compete with peers to obtain the best mounts. This requires marketing and communication skills and the ability to operate autonomously in the choice of mounts, trainers and venues.

A jockey is required to exhibit a high degree of decision-making skill during races, to exercise judgement when choosing mounts and to have an ability to assess form and discriminate between mounts. The communication of performance and fitness of the horse to trainers and owners at the end of a race is a critical part of the jockey's role. This requires in-depth understanding of anatomy, physiology and health of the horse applied in the context of a competitive environment.

The occupation of jockey is one of a few where there is an absolute restriction on the weight of the participant, a requirement for a high degree of physical fitness and a constant reliance on performance to obtain income.

It is also an occupation where non-adherence to rules or poor performance can result in fines or suspensions from riding. Consequently, knowledge of rules and legal procedures is essential and the ability to defend reputation and livelihood in stewards' inquiries is an important requirement for a jockey. As racing is conducted at a wide range of local, national and international venues, a jockey is required to identify, analyse and evaluate information from a variety of sources.

## Pathways Information

### Pathways into the qualification

RGR30108 Certificate III in Racing (Trackrider)

### Pathways from the qualification

RGR50108 Diploma of Racing (Racehorse Trainer)

### Licensing considerations

This qualification is required for industry licensing and registration in some states and territories. Refer to your state or territory Principal Racing Authority for advice.

### Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

### Job roles

## Licensing/Regulatory Information

Refer to Pathways Information

## Entry Requirements

### Entry requirements

There are no entry requirements for this qualification.

## Packaging Rules

### Packaging Rules

Completion of twenty nine (29) units made up of twenty six (26) core units and three (3) elective units.

#### CORE UNITS

|            |                                                                |
|------------|----------------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocols          |
| RGRCMN003A | Manage personal health and fitness                             |
| RGRCMN201A | Follow OHS procedures and observe environmental work practices |
| RGRCMN202A | Achieve requirements for industry induction                    |
| RGRPSH201A | Handle horses                                                  |
| RGRPSH202A | Assist with transportation of horses                           |
| RGRPSH205A | Perform basic riding tasks                                     |
| RGRPSH206A | Develop riding skills for flatwork                             |
| RGRPSH207A | Perform stable duties                                          |
| RGRPSH208A | Attend horses at trackwork                                     |
| RGRPSH209A | Attend horses at race meetings and trials                      |
| RGRPSH304A | Identify factors that affect racehorse performance             |
| RGRPSH306A | Develop basic trackwork riding skills                          |
| RGRPSH307A | Exercise horses in pacework                                    |
| RGRPSH310A | Prepare for self-management in racing                          |
| RGRPSH404A | Ride horses at trackwork                                       |
| RGRPSH405A | Ride horses in jump outs                                       |
| RGRPSH407A | Educate thoroughbred horses for racing                         |
| RGRPSH413A | Prepare for race riding                                        |
| RGRPSH414A | Ride horses in trials                                          |
| RGRPSH415A | Ride horses in races                                           |
| RGRPSH417A | Participate in protests, inquiries and appeals                 |
| RGRPSH419A | Manage principles of sports science for jockeys                |
| HLTFA301B  | Apply first aid                                                |
| PUACOM001C | Communicate in the workplace                                   |

**Packaging Rules**

SRXGRO002A Deal with conflict

**ELECTIVE UNITS**

RGRCMN402A Participate in media interviews for racing

RGRPSH406A Develop riding skills for jumping racing

RGRPSH416A Perform trial and race jumping riding skills

RGRPSH418A Set goals to improve racing performance

BSBITU203A Communicate electronically

SISXEMR201A Respond to emergency situations

## RGR40308 Certificate IV in Racing (Harness Race Driver)

### Modification History

| Release | TP Version | Comments                            |
|---------|------------|-------------------------------------|
| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of independently employed persons who are responsible for organising their own work and the outputs generated, and are able to identify, analyse and evaluate information from a variety of sources.

The harness race driver is an independent professional sportsperson licensed by harness racing industry authorities to compete in industry-regulated competition. A high degree of skill in handling large animals racing at speed is required of a harness driver and income depends on competition with peers and marketing services effectively. Knowledge of rules and legal procedures is essential.

The communication of performance and fitness of the horse to trainers and owners at the end of a race is a critical part of the harness driver's role. This requires understanding of anatomy, physiology and health of the horse, and the application of problem solving skills to unpredictable situations.

Harness driving is an occupation where non-adherence to rules or poor performance can result in fines or suspension. Consequently, knowledge of rules and legal procedures is essential and the ability to defend reputation and livelihood in stewards' inquiries is important.

### Pathways Information

#### Pathways into the qualification

RGR30108 Certificate III in Racing (Trackrider)

#### Pathways from the qualification

RGR50108 Diploma of Racing (Racehorse Trainer)

## Licensing considerations

This qualification is required for industry licensing and registration in some states and territories. Refer to your state or territory Principal Racing Authority for advice.

## Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

## Job roles

## Licensing/Regulatory Information

Refer to Pathways Information

## Entry Requirements

### Entry requirements

There are no entry requirements for this qualification.

## RGR40408 Certificate IV in Racing (Greyhound Trainer)

### Modification History

| Release | TP Version | Comments                            |
|---------|------------|-------------------------------------|
| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of independently employed persons who are responsible for organising their own work as well as leading others and planning for and carrying out tasks of complex and non-routine functions.

A greyhound trainer is a person who is licensed to operate a business that trains greyhounds under racing industry regulated licensing or registration criteria for the purpose of competing in industry-regulated events. The trainer is responsible for the care, maintenance and racing performance of the greyhounds. A trainer at this level has developed a sound knowledge of all aspects of the greyhound racing industry and has acquired competencies that enable performance of all tasks and duties associated with running a racing establishment, including management of staff, finances and equipment. The trainer is required to solve unpredictable problems by the analysis and evaluation of information, and to demonstrate broad knowledge in a variety of contexts. Knowledge of industry rules and legal procedures is essential.

### Pathways Information

#### Pathways into the qualification

RGR20208 Certificate II in Racing (Kennelhand)

#### Pathways from the qualification

#### Licensing considerations

This qualification is required for industry licensing and registration in some states and territories. Refer to your state or territory Principal Racing Authority for advice.

#### Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

## Job roles

## Licensing/Regulatory Information

Refer to Description

## Entry Requirements

### Entry requirements

To undertake this qualification the candidate will have extensive industry-relevant experience in the care, welfare and management of greyhounds. Before commencing this qualification candidates must be able to demonstrate that they have the appropriate skills and knowledge commensurate with the RGR20208 Certificate II in Racing (Kennelhand).

### Description

This qualification reflects the role of persons who are responsible for organising their own work, leading others, and planning for and carrying out tasks of complex and non-routine functions. Work responsibilities include the administration, event management and operations areas of racing.

The candidate is required to solve unpredictable problems by analysing and evaluating information, and to demonstrate broad knowledge in a variety of contexts. The ability to communicate with racing participants across a wide range of socio-economic and cultural groups is an important aspect of this role.

While they may not be required to handle horses or greyhounds, employees with this qualification are often required to work close to race animals. For their own safety, the safety of others and the safety of animals, employees must be aware of potential risks and hazards associated with animal behaviour.

### Pathways Information

#### Pathways into the qualification

RGR30308 Certificate III in Racing Services (Racing Administration)

#### Pathways from the qualification

RGR50208 Diploma of Racing Services (Racing Administration)

## Licensing considerations

There are no specific licences that relate to this qualification.

## Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

## Job roles

## Licensing/Regulatory Information

| <p>Completion of twenty five (25) units made up of three (3) core units and twenty two (22) elective units.</p> <p><b>RULES FOR ELECTIVE UNITS</b></p> <ul style="list-style-type: none"> <li>a minimum of four (4) units from Group A</li> <li>a minimum of twelve (12) units from Group C</li> </ul> |

## Packaging Rules

- a minimum of two (2) units from Groups A,C,D or E
- a maximum of four (4) units may be selected from the RGR08 Racing Training Package or any other currently endorsed Training Package or accredited course. Selected units must be relevant to job outcomes in the racing industry.

For a Certificate IV in Racing Services (Racing Administration) at least fifteen (15) of the units selected to make up this qualification must be aligned clearly to Certificate IV outcomes.

Electives may be selected from any of the listed groups A, C, D and E. Refer to Volume IV for the group listings.

The electives can be chosen from any AQF level however they should complement Certificate IV qualification requirements.

Ideally electives should be chosen as part of the individual training plan for a learner so that they provide skills and knowledge development that is relevant to their employment or future promotion. In some cases an individual training plan may include a mixture of units for those who work in more than one specialist area.

## CORE UNITS

|            |                                                                      |
|------------|----------------------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocols                |
| RGRCMN401A | Maintain and monitor OHS procedures and environmental work practices |

## RGR40608 Certificate IV in Racing Services (Steward)

### Modification History

| Release | TP Version | Comments                            |
|---------|------------|-------------------------------------|
| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of persons who are responsible for organising their own work, leading others and planning for and carrying out tasks of complex and non-routine functions. Work responsibilities are undertaken within the regulatory and integrity services operations in racing. In addition, stewards supervise the conduct of race meetings, and investigate incidents and potential non-compliance issues, as well as arbitrating and awarding penalties under the principles of administrative law.

Employees with this qualification need to be confident about moving in close proximity to racing horses or greyhounds and to be able to identify safe and unsafe methods of handling by others, as well as recognising approved and non-approved racing gear and equipment and legal and illegal racing tactics.

An extensive knowledge of the rules of racing, racing protocols, animal welfare and duty of care requirements is also considered essential. The candidate is required to solve unpredictable problems by the analysis and evaluation of information and demonstrate broad knowledge in a variety of contexts.

### Pathways Information

#### Pathways into the qualification

RGR30408 Certificate III in Racing Services (Cadet Steward)

#### Pathways from the qualification

RGR50308 Diploma of Racing Services (Steward)

| BSBWOR401A | Establish effective workplace relationships |
| BSBWOR402A | Promote team effectiveness                  |
| SRXGRO002A | Deal with conflict                          |

## RGR40708 Certificate IV in Racing Services (Track Maintenance)

### Modification History

| Release | TP Version | Comments                            |
|---------|------------|-------------------------------------|
| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of independently employed persons who are responsible for organising their own work, leading others and planning for and carrying out tasks of complex and non-routine functions. Work responsibilities cover the maintenance and repair of racing tracks, gardens and other facilities as well as the use of tools and machinery. Responsibilities may also cover the planning of work rosters, supervision of race meeting staff and management of contract capital works or improvements.

Employees will be expected to demonstrate knowledge of the impact of track and environmental conditions on racing animal welfare.

Employees may be required to handle greyhounds or horses in emergency situations and assist in marshalling prior to racing (depending on the individual's training plan).

The candidate is required to solve unpredictable problems by the analysis and evaluation of information and demonstrate broad knowledge in a variety of contexts.

### Pathways Information

#### Pathways into the qualification

RGR30508 Certificate III in Racing Services (Track Maintenance)

#### Pathways from the qualification

RGR50408 Diploma of Racing Services (Track Management)

### Licensing considerations

There are no specific licences that relate to this qualification.

### Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

### Job roles

## Licensing/Regulatory Information

| <p>Completion of twenty five (25) units made up of two (2) core units and twenty three (23) elective units.</p> <p><b>RULES FOR ELECTIVE UNITS</b></p> <ul style="list-style-type: none"> <li>• a minimum of five (5) units from Group A</li> <li>• a minimum of twelve (12) units from Group D</li> <li>• a minimum of two (2) units from Groups A, C, D or E</li> <li>• a maximum of four (4) units may be selected from the RGR08 Racing Training</li> </ul> |

## Packaging Rules

Package or any other currently endorsed Training Package or accredited course.  
Selected units must be relevant to job outcomes in the racing industry.

For a Certificate IV in Racing Services (Track Maintenance) at least fifteen (15) of the units selected to make up this qualification must be aligned clearly to Certificate IV outcomes.

Electives may be selected from any of the listed groups A, C, D and E. Refer to Volume IV for the group listings.

The electives can be chosen from any AQF level however they should complement Certificate IV qualification requirements.

Ideally electives should be chosen as part of the individual training plan for a learner so that they provide skills and knowledge development that is relevant to their employment or future promotion. In some cases an individual training plan may include a mixture of units for those who work in more than one specialist area.

## CORE UNITS

|            |                                                                      |
|------------|----------------------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocols                |
| RGRCMN401A | Maintain and monitor OHS procedures and environmental work practices |

## GROUP A UNITS - RACING COMMON

|             |                                                             |
|-------------|-------------------------------------------------------------|
| RGRCMN003A  | Manage personal health and fitness                          |
| RGRCMN403A  | Participate in racing industry appeals                      |
| RGRTRK402A  | Relate animal welfare to track and environmental conditions |

## RGR50108 Diploma of Racing (Racehorse Trainer)

### Modification History

| Release | TP Version | Comments                            |
|---------|------------|-------------------------------------|
| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of persons who operate independent businesses with responsibilities for quality outputs, supervising staff, coordinating groups, planning and developing strategic initiatives, and operating in a wide variety of contexts, most of which are complex and non-routine.

The racehorse trainer at this level differs in degree of complexity and responsibility from a licensed owner trainer. The scope of operation, complexity and size of the business require higher-level skills, particularly in the technical, planning and management areas. The trainer at this level would train for outside owners, would generally have a large training establishment, employ several or many staff, often operate interstate and/or internationally and have extensive demands from owners, media and public. A thorough knowledge of rules of racing and business practice is an essential requirement for trainers. The trainer at this level is required to evaluate information for planning and research purposes and apply theoretical concepts to a range of situations.

The supply of livestock is an essential part of the racing industry. Trainers are required to act for owners in advising on the purchase of livestock. This involves knowledge of pedigree, conformation and animal physiology as well as the rules relating to partnerships and syndication.

Competencies attained in the units packaged for this qualification will apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and a Diploma of Racing (Racehorse Trainer) must contain a statement as follows:

'This qualification was achieved under the conditions operating in the [*insert relevant racing code - harness OR thoroughbred*] code of the racing industry.'

## Pathways Information

### Pathways into the qualification

RGR40108 Certificate IV in Racing (Racehorse Trainer)

### Pathways from the qualification

### Licensing considerations

This qualification is required for industry licensing and registration in some states and territories. Refer to your state or territory Principal Racing Authority for advice.

### Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

### Job roles

## Licensing/Regulatory Information

Refer to Pathways Information

## Entry Requirements

### Entry requirements

To undertake this qualification the candidate will have extensive industry-relevant experience in the care, welfare and management of horses. Before commencing this qualification candidates must be able to demonstrate that they have the appropriate skills and knowledge commensurate with the RGR40108 Certificate IV in Racing (Racehorse Trainer).

## Packaging Rules

### Packaging Rules

Completion of twelve (12) units made up of seven (7) core units and five (5) elective units.

#### RULES FOR ELECTIVE UNITS

- a maximum of two (2) units may be selected from the RGR08 Racing Training Package or any other currently endorsed Training Package or accredited course. Selected units must be relevant to job outcomes in the racing industry.

Ideally electives should be chosen as part of the individual training plan for a learner so that they provide progressive skills and knowledge development that is relevant to their business and career progression.

#### CORE UNITS

|            |                                                                           |
|------------|---------------------------------------------------------------------------|
| RGRCMN402A | Participate in media interviews for racing                                |
| RGRPSH422A | Promote and maintain business arrangements with racehorse owners          |
| RGRPSH501A | Plan and adapt training and conditioning programs for racehorses          |
| RGRPSH502A | Plan and implement education of horses for racing                         |
| RGRPSH504A | Develop systems and records for horse racing business training operations |
| RGRPSH505A | Select horses for training                                                |
| BSBSUS501A | Develop workplace policies and procedures for sustainability              |

#### ELECTIVE UNITS

|            |                                                                                  |
|------------|----------------------------------------------------------------------------------|
| RGRPSH401A | Relate anatomical and physiological features to the care and treatment of horses |
| RGRPSH409A | Determine nutritional requirements for racing horses                             |
| RGRPSH420A | Participate in implementing racehorse exercise programs                          |
| RGRPSH423A | Train horses for jumping racing                                                  |
| RGRTRK402A | Relate animal welfare to track and environmental conditions                      |
| BSBSMB403A | Market the small business                                                        |
| BSBSMB406A | Manage small business finances                                                   |

**Packaging Rules**

|             |                                   |
|-------------|-----------------------------------|
| HLTFA403C   | Manage first aid in the workplace |
| PUACOM001C  | Communicate in the workplace      |

### Description

This qualification reflects the role of persons who operate in business with responsibilities for quality outputs, supervising staff, coordinating groups, planning and developing strategic initiatives, and operating in a wide variety of contexts, most of which are complex and non-routine. The size of the business requires higher-level skills particularly in the technical, planning and management areas. Employees at this level are required to evaluate information for planning and research purposes and apply theoretical concepts to a range of situations.

Responsibilities may also include the overall management of race club or regulatory authority administration services, developing budgets, preparing improvement and/or marketing proposals as well as providing services to committees or boards.

While they may not be required to handle horses or greyhounds, employees with this qualification are often required to work close to race animals. For their own safety, the safety of others and the safety of animals, employees must be aware of potential risks and hazards associated with animal behaviour.

**Packaging Rules****Packaging Rules**

Completion of twenty eight (28) units made up of three (3) core units and twenty five (25) elective units.

**RULES FOR ELECTIVE UNITS**

- a minimum of five (5) units from Group A
- a minimum of fourteen (14) units from Group C
- a minimum of two (2) units from Groups A, C, D or E
- a maximum of four (4) units may be selected from the RGR08 Racing Training Package or any other currently endorsed Training Package or accredited course.

## Packaging Rules

Selected units must be relevant to job outcomes in the racing industry.

For a Diploma of Racing Services (Racing Administration) at least twelve (12) of the units selected to make up this qualification must be aligned clearly to Diploma outcomes.

Electives may be selected from any of the listed groups A, C, D and E. Refer to Volume IV for the group listings.

The electives can be chosen from any AQF level however they should complement Diploma qualification requirements.

Ideally electives should be chosen as part of the individual training plan for a learner so that they provide skills and knowledge development that is relevant to their employment or future promotion. In some cases an individual training plan may include a mixture of units for those who work in more than one specialist area.

## CORE UNITS

- |            |                                                              |
|------------|--------------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocols        |
| BSBWHS501A | Ensure a safe workplace                                      |
| BSBSUS501A | Develop workplace policies and procedures for sustainability |

## GROUP A UNITS - RACING COMMON

- |             |                                                             |
|-------------|-------------------------------------------------------------|
| RGRCMN403A  | Participate in racing industry appeals                      |
| RGRTRK402A  | Relate animal welfare to track and environmental conditions |

| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of persons who operate in business with responsibilities for quality outputs, supervising staff, coordinating groups, planning and developing strategic initiatives, and operating in a wide variety of contexts, most of which are complex and non-routine. The size of the business requires higher-level skills particularly in the technical, planning and management areas.

Employees with this qualification need to be confident about moving in close proximity to racing horses or greyhounds and to be able to identify safe and unsafe methods of handling by others, as well as recognising approved and non-approved racing gear and equipment and legal and illegal racing tactics.

An extensive knowledge of the rules of racing; application of appropriate penalties, racing protocols, animal welfare and duty of care requirements; preparation of budgets; development of rules and policy recommendations; and effective skills in public speaking are also considered to be essential.

Employees at this level are required to evaluate information for planning and research purposes and apply theoretical concepts to a range of situations

### Pathways Information

#### Pathways into the qualification

RGR40608 Certificate IV Racing Services (Steward)

#### Pathways from the qualification

## Licensing considerations

There are no specific licences that relate to this qualification.

## Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

## Job roles

**Packaging Rules****Packaging Rules**

Completion of twenty six (26) units made up of two (2) core units and twenty four (24) elective units.

**RULES FOR ELECTIVE UNITS**

- a minimum of six (6) units from Group A

## Packaging Rules

- a minimum of ten (10) units from Group B
- a minimum of four (4) units from Groups A, B or C
- a maximum of four (4) units may be selected from the RGR08 Racing Training Package or any other currently endorsed Training Package or accredited course. Selected units must be relevant to job outcomes in the racing industry.

For a Diploma of Racing Services (Steward) at least twelve (12) of the units selected to make up this qualification must be aligned clearly to Diploma outcomes.

## CORE UNITS

BSBWHS501A Ensure a safe workplace

BSBSUS501A Develop workplace policies and procedures for sustainability

## GROUP A UNITS - RACING COMMON

AHCBIO202A Follow site quarantine procedures

RGRCMN402A Participate in media interviews for racing

RGRCMN403A Participate in racing industry appeals

RGRTRK402A Relate animal welfare to track and environmental conditions

HLTFA403C Manage first aid in the workplace

PSPREG401C Exercise regulatory powers

PSPREG601B Manage regulatory compliance

PUACOM001C Communicate in the workplace

SISXEMR402A Coordinate emergency response

SRSCOP001B Prepare for public speaking

## GROUP B UNITS - STEWARD

RGRSTD302A Interpret wagering trends

RGRSTD403A Apply principles of administrative law to investigation and resolution of racing incidents

RGRSTD404A Prepare for racing industry appeals

RGRSTD405A Conduct steward supervision of sample collection procedures

RGRSTD406A Assess greyhound or horse handling skills

RGRSTD407A Assess driving or riding skills of license or registration applicants

RGRSTD408A Analyse race performance

| 3       | RGR08v2    | Updated superseded equivalent units |
| 2       | RGR08v1.1  | Updated superseded equivalent units |
| 1       | RGR08      | Initial release                     |

### Description

This qualification reflects the role of persons who operate in business with responsibilities for quality outputs, supervising staff, coordinating groups, planning and developing strategic initiatives; operating in a wide variety of contexts, most of which are complex and non-routine. The size of the business requires higher-level skills particularly in the technical, planning and management areas.

Work responsibilities cover the management of racing tracks, gardens and other facilities as well as the use of tools and machinery. Planning of work rosters, supervision of race meeting staff, the preparation of budgets and capital works proposals, and management of improvement projects are also considered essential skills.

Employees will be expected to demonstrate knowledge of the impact of track and environmental conditions on racing animal welfare.

Employees may be required to handle horses or greyhounds in emergency situations and assist in marshalling prior to racing (depending on the individual's training plan).

Employees at this level are required to evaluate information for planning and research purposes and apply theoretical concepts to a range of situations.

### Pathways Information

#### Pathways into the qualification

RGR40708 Certificate IV in Racing Services (Track Maintenance)

## Pathways from the qualification

### Licensing considerations

There are no specific licences that relate to this qualification.

### Australian Apprenticeships

This qualification is suited to Australian Apprenticeship pathways.

### Job roles

## Licensing/Regulatory Information

Refer to Pathways Information

## Entry Requirements

### Entry requirements

There are no entry requirements for this qualification.

**Packaging Rules****Packaging Rules**

Completion of twenty eight (28) units made up of three (3) core units and twenty five (25) elective units.

**RULES FOR ELECTIVE UNITS**

- a minimum of five (5) units from Group A

## Packaging Rules

- a minimum of fourteen (14) units from Group D
- a minimum of two (2) units from Groups A, C, D or E
- a maximum of four (4) units may be selected from the RGR08 Racing Training Package or any other currently endorsed Training Package or accredited course. Selected units must be relevant to job outcomes in the racing industry.

For a Diploma of Racing Services (Track Management) at least twelve (12) of the units selected to make up this qualification must be aligned clearly to Diploma outcomes.

## CORE UNITS

RGRCMN001A Comply with the rules of racing and related protocols

BSBWHS501A Ensure a safe workplace

BSBSUS501A Develop workplace policies and procedures for sustainability

## GROUP A UNITS - RACING COMMON

RGRCMN403A Participate in racing industry appeals

RGRTRK402A Relate animal welfare to track and environmental conditions

AHCBIO202A Follow site quarantine procedures

HLTFA403C Manage first aid in the workplace

PSPREG401C Exercise regulatory powers

PSPREG601B Manage regulatory compliance

PUACOM001C Communicate in the workplace

PUACOM012B Liaise with the media at a local level

SRSCOP001B Prepare for public speaking

SISXEMR402A Coordinate emergency response

## GROUP D UNITS - TRACK MAINTENANCE

RGRADM302A Supervise use of track and race club facilities

RGRSTD406A Assess greyhound or horse handling skills

RGRTRK301A Assist with race meeting track management

RGRTRK303A Provide emergency animal assistance

RGRTRK401A Prepare track and facilities for race meetings

AHCAGB402A Analyse and interpret production data

AHCBIO301A Work effectively in an emergency disease or plant pest response

## RGRSS00001 Greyhound Clerk of Scales Skill Set

### Modification History

| Release | TP Version | Comments        |
|---------|------------|-----------------|
| 1       | RGR08      | Initial release |

### Description

Not applicable.

### Pathways Information

These units provide credit towards a Certificate III in Racing or Certificate III in Racing Services.

### Licensing/Regulatory Information

Check with your State Principal Racing Authority for current license or registration requirements for this Skill Set.

### Skill Set Requirements

Complete three (3) units of competency.

| Unit Code  | Unit Title                                                   |
|------------|--------------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocols        |
| RGRCMN201A | Follow OHS procedures and environmental work practices       |
| RGRROP304A | Perform duties of clerk of scales at greyhound race meetings |

### Target Group

Those undertaking the duties of clerk of scales at greyhound race meetings.

## Suggested words for Statement of Attainment

These competencies from the RGR08 Racing Training Package meet industry requirements for working as clerk of scales in the greyhound racing code.

## Additional Advice

There may be additional units necessary to comply with specific State Principal Racing Authority licensing requirements. When additional units are required they are recognised as a separate Statement of Attainment. Suggested additional units are listed below.

| Unit Code  | Unit Title        |
|------------|-------------------|
| RGRPSG201A | Handle greyhounds |

## RGRSS00002 Greyhound Lure Driver Skill Set

### Modification History

| Release | TP Version | Comments        |
|---------|------------|-----------------|
| 1       | RGR08      | Initial release |

### Description

Not applicable.

### Pathways Information

These units provide credit towards a Certificate III in Racing or Certificate III in Racing Services.

### Licensing/Regulatory Information

Check with your State Principal Racing Authority for current license or registration requirements for this Skill Set.

### Skill Set Requirements

Complete three (3) units of competency.

| Unit Code  | Unit Title                                               |
|------------|----------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocols    |
| RGRCMN201A | Follow OHS procedures and environmental work practices   |
| RGRROP307A | Perform duties of lure drive at race meetings and trials |

### Target Group

Those undertaking the duties of lure driver during greyhound race meetings and trials.

## Suggested words for Statement of Attainment

These competencies from the RGR08 Racing Training Package meet industry requirements for working as lure driver in the greyhound racing code.

## Additional Advice

There may be additional units necessary to comply with specific State Principal Racing Authority licensing requirements. When additional units are required they are recognised as a separate Statement of Attainment. Suggested additional units are listed below.

| Unit Code  | Unit Title                                                  |
|------------|-------------------------------------------------------------|
| RGRTRK402A | Relate animal welfare to track and environmental conditions |

## RGRSS00003 Greyhound Race Club Kennel Attendant Skill Set

### Modification History

| Release | TP Version | Comments        |
|---------|------------|-----------------|
| 1       | RGR08      | Initial release |

### Description

Not applicable.

### Pathways Information

These units provide credit towards a Certificate II in Racing or Certificate II in Racing Services.

### Licensing/Regulatory Information

Check with your State Principal Racing Authority for current license or registration requirements for this Skill Set.

### Skill Set Requirements

Complete four (4) units of competency.

| Unit Code  | Unit Title                                             |
|------------|--------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocols  |
| RGRCMN201A | Follow OHS procedures and environmental work practices |
| RGRPSG201A | Handle greyhounds                                      |
| RGRROP202A | Perform duties of kennel attendant at race meetings    |

### Target Group

Those working under supervision as a race club kennel attendant at greyhound race meetings.

## **Suggested words for Statement of Attainment**

These competencies from the RGR08 Racing Training Package meet industry requirements for working as a race club kennel attendant in the greyhound racing code.

## RGRSS00004 Greyhound Race Club Parade Official Skill Set

| RGRCMN001A | Comply with the rules of racing and related protocols                |
| RGRCMN401A | Maintain and monitor OHS procedures and environmental work practices |
| RGRPSG408A | Manage horse health and welfare                                      |
| RGRPSH417A | Participate in protests, inquiries and appeals                       |
| RGRPSH421A | Operate horse racing training business                               |
| RGRPSH503A | Trial and race horses                                                |

## Target Group

Those wishing to meet industry licensing requirements to be able to race horses in industry regulated competitions.

## Suggested words for Statement of Attainment

These competencies from the RGR08 Racing Training Package meet industry requirements to be licensed as a racehorse trainer in the [*insert relevant racing code - harness OR thoroughbred*] racing code, subject to State Principal Racing Authority requirements.

## Entry Requirements

Before undertaking this Skill Set candidates will be able to demonstrate extensive industry-relevant experience in the care, welfare and management of racing horses and must be able to demonstrate that they have the appropriate skills and knowledge commensurate with RGR30208 Certificate III in Racing (Advanced Stablehand).

## Additional Advice

There may be additional units necessary to comply with specific State Principal Racing Authority licensing requirements. When additional units are required they are recognised as a separate Statement of Attainment. Suggested additional units are listed below.

| Unit Code  | Unit Title                                                                       |
|------------|----------------------------------------------------------------------------------|
| RGRPSH401A | Relate anatomical and physiological features to the care and treatment of horses |
| RGRPSH409A | Determine nutritional requirements for racing horses                             |
| RGRPSH420A | Participate in implementing racehorse exercise programs                          |
| RGRPSH423A | Train horses for jumping racing                                                  |
| RGRPSH502A | Plan and implement education of horses for racing                                |

## RGRSS00011 Harness Race Starter Skill Set

### Modification History

| Release | TP Version | Comments        |
|---------|------------|-----------------|
| 1       | RGR08      | Initial release |

### Description

Not applicable.

### Pathways Information

These units provide credit towards a Certificate IV in Racing Services.

### Licensing/Regulatory Information

Check with your State Principal Racing Authority for current license or registration requirements for this Skill Set.

### Skill Set Requirements

Complete five (5) units of competency.

| Unit Code  | Unit Title                                                           |
|------------|----------------------------------------------------------------------|
| RGRCMN001A | Comply with the rules of racing and related protocols                |
| RGRCMN401A | Maintain and monitor OHS procedures and environmental work practices |
| RGRPSH201A | Handle horses                                                        |
| RGRROP406A | Perform duties of harness race starter                               |
| RGRSTD303A | Assess racing gear suitability and safety                            |

## Target Group

Those undertaking the duties of a race starter at harness race meetings and trials.

## Suggested words for Statement of Attainment

These competencies from the RGR08 Racing Training Package meet industry requirements for working as a race starter in the harness racing code.

## Additional Advice

There may be additional units necessary to comply with specific State Principal Racing Authority licensing requirements. When additional units are required they are recognised as a separate Statement of Attainment. Suggested additional units are listed below.

| Unit Code  | Unit Title                                                  |
|------------|-------------------------------------------------------------|
| RGRTRK303A | Provide emergency animal assistance                         |
| RGRTRK402A | Relate animal welfare to track and environmental conditions |

## RGRSS00012 Harness Trackwork Driver Skill Set

### Modification History

| Release | TP Version | Comments        |
|---------|------------|-----------------|

| RGRCMN401A | Maintain and monitor OHS procedures and environmental work practices |
| RGRPSH201A | Handle horses                                                        |
| RGRROP407A | Perform duties of thoroughbred race starter                          |
| RGRSTD303A | Assess racing gear suitability and safety                            |

## Target Group

Those undertaking the duties of a race starter at thoroughbred race meetings and trials.

## Suggested words for Statement of Attainment

These competencies from the RGR08 Racing Training Package meet industry requirements for working as a race starter in the thoroughbred racing code.

## Additional Advice

There may be additional units necessary to comply with specific State Principal Racing Authority licensing requirements. When additional units are required they are recognised as a separate Statement of Attainment. Suggested additional units are listed below.

| Unit Code  | Unit Title                                                  |
|------------|-------------------------------------------------------------|
| RGRTRK303A | Provide emergency animal assistance                         |
| RGRTRK402A | Relate animal welfare to track and environmental conditions |

| <b>Release 1</b> | New release of this Qualification released with <i>version 6 of BSB07 Business Services Training Package</i> .<br><br>Revised unit. Required skills updated to focus on learning and development practices and compliance with policy and procedures. |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to develop strategies to manage organisational systems that ensure products and services are delivered and maintained to standards agreed by the organisation.

Operators may have staff involved in delivering customer service and are responsible for the quality of their work. In many instances the work will occur within the organisation's policies and procedures framework. At this level, the exercise of considerable discretion and judgement, using a range of problem solving and decision making strategies, will be required.

### Application of the Unit

Many managers are involved in ensuring that products and services are delivered and maintained to standards agreed by the organisation.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

## Elements and Performance Criteria

|                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Plan to meet internal and external customer requirements | <p>1.1 Investigate, identify, assess, and include the needs of <b>customers</b> in planning processes</p> <p>1.2 Ensure plans achieve the <b>quality</b>, time and cost specifications agreed with customers</p>                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2. Ensure delivery of quality products and services         | <p>2.1 Deliver <b>products and services</b> to customer specifications within organisation's business plan</p> <p>2.2 Monitor team performance to consistently meet the organisation's quality and delivery standards</p> <p>2.3 Assist colleagues to overcome difficulty in meeting customer service standards</p>                                                                                                                                                                                                                                                                                                                                |
| 3. Monitor, adjust and review customer service              | <p>3.1 Develop and use <b>strategies</b> to monitor progress in achieving product and/or service targets and standards</p> <p>3.2 Develop and use strategies to obtain customer feedback to improve the provision of products and services</p> <p>3.3. Develop, procure and use <b>resources</b> effectively to provide quality products and services to customers</p> <p>3.4 Make decisions to overcome problems and to adapt customer services, products and service delivery in consultation with appropriate individuals and groups</p> <p>3.5 Manage records, reports and recommendations within the organisation's systems and processes</p> |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

**Required skills**

- analytical skills to identify trends and positions of products and services
- communication skills to:
  - coach and mentor staff and colleagues
  - monitor and advise on customer service strategies
- literacy skills to:
  - edit and proofread texts to ensure clarity of meaning and accuracy of grammar and punctuation
  - prepare general information and papers according to target audience
  - read and understand a variety of texts
- problem-solving skills to:
  - deal with customer enquiries or complaints
  - deal with complex and non-routine difficulties
- technology skills to select and use technology appropriate to a task
- self-management skills to:
  - comply with policies and procedures
  - consistently evaluate and monitor own performance
  - seek learning opportunities.

**Required knowledge**

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - Australian consumer law
  - ethical principles
  - codes of practice
  - privacy laws
  - financial legislation
  - occupational health and safety (OHS)
- organisational policy and procedures for customer service including handling customer complaints
- service standards and best practice models
- public relations and product promotion
- techniques for dealing with customers, including customers with specific needs
- techniques for solving complaints including the principles and techniques involved in the management and organisation of:
  - customer behaviour
  - customer needs research
  - customer relations
  - ongoing product and/or service quality

- problem identification and resolution
- quality customer service delivery
- record keeping and management methods
- strategies for monitoring, managing and introducing ways to improve customer service relationships
- strategies to obtain customer feedback.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|-----------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | Evidence of the following is essential: <ul style="list-style-type: none"><li>• plans, policies or procedures for delivering quality customer service</li><li>• demonstrated techniques in solving complex customer complaints and system problems that lead to poor customer service</li><li>• knowledge of techniques for solving complaints.</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Context of and specific resources for assessment</b>                                             | Assessment must ensure: <ul style="list-style-type: none"><li>• access to appropriate documentation and resources normally used in the workplace.</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Method of assessment</b>                                                                         | A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: <ul style="list-style-type: none"><li>• assessment of written reports</li><li>• demonstration of techniques</li><li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li><li>• observation of performance in role plays</li><li>• evaluation of leadership, supervision, coaching and mentoring used to assist colleagues to overcome difficulty in meeting customer service standards</li><li>• review of strategies developed and used to monitor progress in achieving product and/or service targets and standards</li><li>• review of records, reports and recommendations about managing customer service.</li></ul> |

|                                            |                                                                                                              |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------|
| <b>Guidance information for assessment</b> | Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended. |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------|

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## BSBPMG522A Undertake project work

### Modification History

| Release   | Comments                                                                                                                                         |
|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version first released with <i>BSB07 Business Services Training Package Version 8.0</i>.</p> <p>Replaces BSBPMG510A Manage projects.</p> |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to undertake a straightforward project or a section of a larger project. This unit addresses the management of projects, including developing a project plan, administering and monitoring the project, finalising the project, and reviewing the project to identify lessons learned for application to future projects.

### Application of the Unit

The unit focuses on the application of project-management skills and the requirement to meet timelines, quality standards, budgetary limits and other requirements set for the project.

The unit does not apply to specialist project managers. For specialist project managers, the other units of competency in the project management field (BSBPMG) will be applicable.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

## Elements and Performance Criteria

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Define project                 | 1.1 Access <b>project scope and other relevant documentation</b><br>1.2 Define project stakeholders<br>1.3 Seek clarification from <b>delegating authority</b> of issues related to project and <b>project parameters</b><br>1.4 Identify limits of own responsibility and reporting requirements<br>1.5 Clarify relationship of project to other projects and to the organisation's objectives<br>1.6 Determine and access available resources to undertake project                     |
| 2. Develop project plan           | 2.1 Develop <b>project plan</b> in line with the project parameters<br>2.2 Identify and access appropriate <b>project-management tools</b><br>2.3 Formulate risk-management plan for project, including work health and safety (WHS)<br>2.4 Develop and approve project budget<br>2.5 Consult team members and take their views into account in planning the project<br>2.6 Finalise project plan and gain necessary approvals to commence project according to documented plan          |
| 3. Administer and monitor project | 3.1 Take action to ensure project team members are clear about their responsibilities and the project requirements<br>3.2 Provide <b>support for project team members</b> , especially with regard to specific needs, to ensure that the quality of the expected outcomes of the project and documented time lines are met<br>3.3 Establish and maintain <b>required record-keeping systems</b> throughout the project<br>3.4 Implement and monitor plans for managing project finances, |

|                     |                                                                                                                                                                                                                                                                                              |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                     | <b>resources</b> and quality<br>3.5 Complete and forward project reports as required to stakeholders<br>3.6 Undertake <b>risk management</b> as required to ensure project outcomes are met<br>3.7 Achieve project deliverables                                                              |
| 4. Finalise project | 4.1 Complete financial record keeping associated with project and check for accuracy<br>4.2 Ensure transition of staff involved in project to new roles or reassignment to previous roles<br>4.3 Complete project documentation and obtain <b>necessary sign-offs</b> for concluding project |
| 5. Review project   | 5.1 Review project outcomes and processes against the project scope and plan<br>5.2 Involve team members in the project review<br>5.3 Document lessons learned from the project and report within the organisation                                                                           |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- communication and negotiation skills to work with team members and other stakeholders to maintain project schedules
- communication skills to relate to people with diverse abilities and from diverse backgrounds in a culturally appropriate way
- literacy skills to read, write and review a range of documentation
- numeracy skills to:
  - analyse data
  - compare time lines and promotional costs against budgets
- planning and organising skills to develop, monitor and maintain implementation schedules.

### Required knowledge

- organisation's mission, goals, objectives and operations and how the project relates to them
- organisational structure, and lines of authority and communication in the organisation
- relevant legislation and codes from all levels of government that may affect aspects of business operations, including:
  - anti-discrimination legislation
  - codes of practice
  - environmental issues
  - ethical principles
  - WHS
  - privacy laws.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                |
|-----------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• developing a project plan</li> <li>• examples of monitoring arrangements and evaluation of the efficacy of the project plan in addressing project time lines and budget</li> <li>• knowledge of relevant legislation.</li> </ul>                                                                       |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to workplace project documentation</li> <li>• demonstration of all required skills, knowledge and performance in a workplace-based project.</li> </ul>                                                                                                                                                          |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate</li> <li>• observation of presentations</li> </ul> |

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>oral or written questioning to assess knowledge of the organisation's mission, goals, objectives and operations and how the project relates to them</li> <li>review of project risk-management plan and project plan</li> <li>evaluation of project reports forwarded to stakeholders</li> <li>analysis of documentation reviewing project outcomes and processes against the project scope and plan</li> <li>evaluation of documentation outlining lessons learned from the project.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>other project management units.</li> </ul>                                                                                                                                                                                                                                                                                                                      |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                  |

|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This Unit first released with <i>BSB07 Business Training Package version 7.0</i>.</p> <p>Replaces and is equivalent to BSBOHS509A Ensure a safe workplace.</p> |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to establish, maintain and evaluate the organisation's work health and safety (WHS) policies, procedures and programs in the relevant work area according to WHS legislative requirements.

### Application of the Unit

This unit applies to managers working in a range of contexts. It takes a systems approach and addresses compliance with relevant legislative requirements.

Those who have or are likely to have responsibility for WHS as part of their broader management role should undertake this unit.

The unit is relevant for people with obligations under WHS legislation, for example persons conducting a business or undertaking (PCBUs) or their officers (as defined by relevant legislation).

*NOTE: The terms Occupational Health and Safety (OHS) and Work Health and Safety (WHS) are equivalent and generally either can be used in the workplace. In jurisdictions where the National Model WHS Legislation has not been implemented RTOs are advised to contextualise the unit of competency by referring to the existing State/Territory OHS legislative requirements.*

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

## Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

## Elements and Performance Criteria

|                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Establish and maintain a WHS management system                                             | <p>1.1 Locate, adapt, adopt and communicate WHS policies that clearly define the organisation's commitment to complying with <b>WHS legislation</b></p> <p>1.2 Identify <b>duty holders</b> and define WHS responsibilities for all workplace personnel according to WHS legislation, policies, procedures and programs</p> <p>1.3 Identify and approve financial and human resources required by the WHS management system (WHSMS)</p>                 |
| 2. Establish and maintain effective and compliant participation arrangements for managing WHS | <p>2.1 Work with workers and their representatives to set up and maintain participation arrangements according to relevant WHS legislation</p> <p>2.2 Appropriately resolve issues raised through participation and consultation arrangements according to relevant WHS legislation</p> <p>2.3 Promptly provide information about the outcomes of participation and consultation to workers and ensure it is easy for them to access and understand</p> |
| 3. Establish and maintain procedures for effectively identifying                              | <p>3.1 Develop procedures for ongoing hazard identification, and assessment and <b>control of associated risks</b></p> <p>3.2 Include hazard identification at the planning, design and</p>                                                                                                                                                                                                                                                             |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| hazards, and assessing and controlling risks     | <p>evaluation stages of any change in the workplace to ensure that new hazards are not created by the proposed changes and existing hazards are controlled</p> <p>3.3 Develop and maintain procedures for selecting and implementing risk controls according to the hierarchy of control and WHS legislative requirements</p> <p>3.4 Identify inadequacies in existing risk controls according to the hierarchy of control and WHS legislative requirements, and promptly provide resources to enable implementation of new measures</p> <p>3.5 Identify requirements for expert WHS advice, and request this advice as required</p>                                                                      |
| 4. Evaluate and maintain a WHS management system | <p>4.1 Develop and provide a WHS induction and training program for all workers as part of the organisation's training program</p> <p>4.2 Use a system for <b>WHS recordkeeping</b> to allow identification of patterns of occupational injury and disease in the organisation, and to maintain a record of WHS decisions made, including reasons for the decision</p> <p>4.3 Measure and evaluate the WHSMS in line with the organisation's quality systems framework</p> <p>4.4 Develop and implement improvements to the WHSMS to achieve organisational WHS objectives</p> <p>4.5 Ensure compliance with the WHS legislative framework so that, as a minimum, WHS legal requirements are achieved</p> |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- analytical and problem solving skills to examine relevant workplace information and data to identify hazards, and to assess and control risks
- communication skills to consult with staff and to promote a safe workplace
- information technology skills to store and retrieve relevant workplace information and data
- literacy skills to adapt and communicate WHS policies that reflect WHS legislative requirements
- problem-solving skills to deal with complex and non-routine difficulties.

## Required knowledge

- hazard identification and risk-management processes
- hierarchy of risk control
- in-house and WHS legislative reporting requirements
- relevant WHS Acts, regulations and codes of practice that apply to the business operation.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"><li>• detailed knowledge and application of all relevant WHS Acts, regulations and codes of practice</li><li>• establishing and maintaining arrangements for managing WHS within the organisation's business systems and practices</li><li>• identifying requirements for expert WHS advice.</li></ul>                                                                                                                                                                                                                  |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure access to:</p> <ul style="list-style-type: none"><li>• appropriate documentation and resources normally used in the workplace.</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"><li>• analysis of responses to case studies and scenarios</li><li>• assessment of written reports</li><li>• demonstration of techniques</li><li>• direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate</li><li>• review of WHS policies, information provided on the WHSMS, and information about the outcomes</li></ul> |

|                                            |                                                                                                                                                                                                                                                                                                |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <p>of participation and consultation provided to workers</p> <ul style="list-style-type: none"> <li>• oral or written questioning to assess knowledge of WHS and WHS legislation</li> <li>• evaluation of WHS induction and training</li> <li>• review of WHS recordkeeping system.</li> </ul> |
| <b>Guidance information for assessment</b> | Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.                                                                                                                                                                                   |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>WHS legislation</b> may include: | <ul style="list-style-type: none"> <li>• applicable commonwealth and state or territory WHS Acts, regulations and codes of practice</li> <li>• common law duties to meet general duty of care requirements</li> <li>• WHS legislative and regulatory requirements for: <ul style="list-style-type: none"> <li>• effectively managing hazards</li> <li>• establishing consultation arrangements, including those for health and safety representatives and health and safety committees</li> <li>• providing information and training, including training in safe operating procedures; procedures for workplace hazards; hazard identification, risk assessment and risk control; and emergency and evacuation procedures</li> </ul> </li> <li>• WHS legislative, regulatory and other requirements for the maintenance and confidentiality of records of occupational injury and disease.</li> </ul> |

|                        |                                                                                                                                                                                                                                                                                                                                                                                                                     |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Unit descriptor</b> | <p>This unit describes the performance outcomes, skills and knowledge required to manage own performance and professional development. Particular emphasis is on setting and meeting priorities, analysing information and using a range of strategies to develop further competence.</p> <p>No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.</p> |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Application of the Unit

|                                |                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application of the unit</b> | <p>This unit applies to managers and focuses on the need for managers to be organised, focussed and skilled, in order to effectively manage the work of others. As such it is an important unit for most managers, particularly as managers serve as role models and have a significant influence on the work culture and patterns of behaviour.</p> |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                         | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                     |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Establish personal work goals                | <p>1.1. Serve as a positive role model in the workplace through personal work planning and organisation</p> <p>1.2. Ensure personal work goals, plans and activities reflect the organisation's plans, and <b><i>own responsibilities and accountabilities</i></b></p> <p>1.3. Measure and maintain personal performance in varying work conditions, work contexts and contingencies</p> |
| 2. Set and meet own work priorities             | <p>2.1. Take initiative to prioritise and facilitate competing demands to achieve personal, team and organisational goals and objectives</p> <p>2.2. Use <b><i>technology</i></b> efficiently and effectively to manage work priorities and commitments</p> <p>2.3. Maintain appropriate work-life balance, and ensure stress is effectively managed and health is attended to</p>       |
| 3. Develop and maintain professional competence | <p>3.1. Assess personal knowledge and skills against <b><i>competency standards</i></b> to determine development needs, priorities and plans</p> <p>3.2. Seek feedback from employees, <b><i>clients and colleagues</i></b> and use this feedback to identify and</p>                                                                                                                    |

| ELEMENT | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                      |
|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|         | <p>develop ways to improve competence</p> <p>3.3. Identify, evaluate, select and use <b>development opportunities</b> suitable to personal learning style/s to develop competence</p> <p>3.4. Undertake participation in networks to enhance personal knowledge, skills and work relationships</p> <p>3.5. Identify and develop new skills to achieve and maintain a competitive edge</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to receive, analyse and report on feedback
- literacy skills to interpret written and verbal information about workplace requirements
- organisational skills to set and achieve priorities.

#### Required knowledge

- principles and techniques involved in the management and organisation of:
  - performance measurement
  - personal behaviour, self-awareness and personality traits identification
  - personal development plan
  - personal goal setting
  - time management
- management development opportunities and options for self
- organisation's policies, plans and procedures
- types of learning style/s and how they relate to the individual
- types of work methods and practices that can improve personal performance.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the

| <b>EVIDENCE GUIDE</b>                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

## Range Statement

| <b>RANGE STATEMENT</b>                                                                    |
|-------------------------------------------------------------------------------------------|
| The range statement relates to the unit of competency as a whole. It allows for different |

**RANGE STATEMENT**

work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Own responsibilities and accountabilities*** may include:

- expectations of workplace performance as expressed in a performance plan
- outputs as expressed in position descriptions or duty statements
- statement of conduct outlining an individual's responsibilities/actions/performance

***Technology*** may include:

- computerised systems and software, databases, project management and word processing
- electronic diary
- personal digital assistant (PDA)

***Competency standards*** may include:

- enterprise-specific units of competency consistent with work requirements
- nationally endorsed units of competency consistent with work requirements

***Clients and colleagues*** may be:

- colleagues at the same level and more senior managers
- internal or external customers
- people from a wide range of social, cultural and ethnic backgrounds and with a range of physical and mental abilities
- team members

***Development opportunities*** may include:

- action learning
- coaching
- exchange/rotation
- induction
- mentoring
- shadowing
- structured training programs

| ELEMENT                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                             | <p>others to undertake required roles and responsibilities</p> <p>2.3. Provide feedback to team members to encourage, value and reward individual and team efforts and contributions</p> <p>2.4. Develop <b>processes</b> to ensure that issues, concerns and problems identified by team members are recognised and addressed</p>                                                                                                                                                                    |
| 3. Facilitate teamwork      | <p>3.1. Encourage team members and individuals to participate in and to take responsibility for team activities, including communication processes</p> <p>3.2. Support the team in identifying and resolving work performance problems</p> <p>3.3. Ensure own contribution to work team serves as a role model for others and enhances the organisation's image for all <b>stakeholders</b></p>                                                                                                       |
| 4. Liaise with stakeholders | <p>4.1. Establish and maintain open communication processes with all stakeholders</p> <p>4.2. Communicate information from <b>line manager/management</b> to the team</p> <p>4.3. Communicate unresolved issues, concerns and problems raised by team members and follow-up with line manager/management and other relevant stakeholders</p> <p>4.4. Evaluate and take necessary corrective action regarding unresolved issues, concerns and problems raised by internal or external stakeholders</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to explain team goals, to address team conflict and to build an environment of trust
- planning and organisational skills to keep team on track and focussed on work outcomes.

#### Required knowledge

**REQUIRED SKILLS AND KNOWLEDGE**

- group behaviour
- strategies for mentoring and coaching to informally guide and instruct team members
- issue resolution
- strategies for gaining consensus.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- range of techniques that can be used to build work teams, strengthen communications in the team and resolve issues
- methods for engaging with stakeholders and obtaining advice from outside the work team, to ensure team is focussed and on track
- knowledge of group behaviour.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to appropriate documentation and resources normally used in the workplace.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- analysis of responses to case studies and scenarios
- assessment of written reports
- demonstration of team building techniques
- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- observation of performance in role plays
- review of performance plans developed for work team
- review of policies and procedures developed to

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | ensure team members take responsibility for own work.                                                                                                                                                                          |

## RGRADM301A Assist with race meeting operations

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to assist with race meeting operations. It requires the ability to maintain and monitor the organisation's policies including OHS standards, assist stewards and race meeting operations staff, liaise with racing participants, apply effective verbal and written communication skills, work in a team environment and complete required administration tasks.

This unit of competency operates in workplace environments of racing administration, kennels, stables, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports race club employees to assist with race meeting operations.

Competencies attained in this unit apply to the greyhound, harness and thoroughbred codes of the industry.

Consequently when performance criteria are applied they will relate to the greyhound or harness or thoroughbred code, and statements of attainment for this unit will reflect this distinction.

### Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

### Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

| ELEMENT                                              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- allocating duties to staff based on a range of operational requirements, staff experience, level of responsibility and complexity of job task
- communicating with stewards, racing officials, personnel and others using assertive communication techniques to gather, interpret and relay information related to the conduct and operation of race meetings
- completing duties in accordance with safe operating procedures and nominated time frame
- complying with organisational policies and procedures
- making effective decisions to resolve routine problems
- operating a range of equipment and technology and complying with procedures for operation and maintenance
- reading and interpreting workplace documentation, including rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- teamwork skills to ensure completion of job tasks
- written communication skills to complete workplace documentation and reports.

#### Required knowledge

## REQUIRED SKILLS AND KNOWLEDGE

- applicable federal, state or territory legislation and regulations, and national standards and codes of practice relevant to full range of processes relating to own work role and responsibilities
- organisational policies and procedures
- principles of effective communication
- communication procedures with stewards, racing officials and other relevant people
- race meeting operations and staff roles
- relevant workplace documentation and its purpose
- rules of racing
- time management in the completion of workplace tasks
- types of equipment and procedures for their operation and maintenance.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to the specific industry sector and workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when assisting with race meeting operations
- implementation of procedures and timely techniques for the safe, effective and efficient application of race meeting operations assistance
- working with others to undertake and complete assistance procedures that meet required outcomes.

Evidence should be collected over a period of time in a range of workplace-relevant contexts and include dealings with an appropriate range of situations.

**Context of and specific resources for** Competency must be assessed in a racing workplace that

## EVIDENCE GUIDE

---

### assessment

provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- materials and equipment relevant to assessing candidate's ability to assist with race meeting operations
- relevant racing industry work sites, such as administration buildings, race clubs and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to effectively assist with race meeting operations. Workplaces include greyhound, harness and thoroughbred racecourses, training tracks, administration buildings and public areas.

***Stewards' room preparation*** may include:

- lighting and power
- race books
- recording equipment
- television monitors
- video re-play equipment.

***Other methods of communication*** may include:

- internet
- mobile phones (restricted access)
- public address system
- race callers address system
- semaphore
- television monitors
- two-way radios.

***Race documentation and reports*** may include:

- approved gear lists
- barrier trial reports
- current racing code notices of greyhound or horse trainer, driver or jockey offences
- form guides
- gear changes
- greyhound or horse identification summaries
- greyhound performance cards
- medical for drivers or riders
- race books
- registration papers
- scratching lists
- starter reports
- swab reports
- trainer, driver or jockey disciplinary records
- veterinary reports.

## RANGE STATEMENT

---

***Equipment check*** may include:

- barriers or starting boxes
- back up generators
- bar taps and associated equipment
- camera and photo finish equipment
- electrical equipment, including timing devices
- internet connections and computers
- kitchen equipment for dining areas
- public address system
- power
- recording devices
- semaphore
- telephones
- television monitors
- tractors and other vehicles, including animal ambulances
- totalisator.

***Information and support provided*** may include:

- information via:
  - notice boards
  - public address
  - race day office
  - semaphore
  - strategically placed signage
  - television monitors
- support to:
  - race club committee
  - race club manager
  - race day operations staff
  - stewards.

***Racing protocols and procedures*** may include:

- adherence to Australian and local rules of racing
- confidentiality
- following chain of command, such as stewards or licensed personnel
- restricted areas for use of mobile phones
- security and restricted access areas.

***Special guests*** may include:

- career advisors and schools groups
- function guests
- media and journalists
- race sponsors

## RANGE STATEMENT

## RGRADM302A Supervise use of track and race club facilities

### Modification History

Not Applicable

### Unit Descriptor

**Unit descriptor** This unit of competency specifies the outcomes required to supervise the use of track and race club facilities. It requires knowledge and skills associated with maintaining and monitoring the organisation's policies related to facilities usage, staff supervision, security of race club property and the conduct of licensed personnel and others in the relevant area of work in accordance with OHS standards.

This unit of competency operates in workplace environments of racing administration, kennels, stables, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

**Application of the unit** This unit of competency supports race club employees to supervise use of track and race club facilities.

Competencies attained in this unit apply to the greyhound, harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the greyhound or harness or thoroughbred code, and statements of attainment for this unit will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- allocating duties to staff, based on a range of operational requirements, staff experience, level of responsibility and complexity of job task
- assessing race club and industry requirements associated with trackwork and training operations, including safety, security, licensing, staff and animal welfare
- communicating with licensed and registered personnel and industry officials using assertive communication techniques to gather, interpret and relay information related to the track and race club facilities supervision
- completing duties in accordance with safe operating procedures and nominated time frame
- complying with OHS and environmental regulations
- complying with organisational policies and procedures
- evaluating risks associated with track and race club equipment and activities
- identifying industry approved gear and saddlery
- making effective decisions
- operating equipment and machinery
- reading and interpreting workplace documentation, including rules of racing

## REQUIRED SKILLS AND KNOWLEDGE

- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- resolving routine problems
- teamwork skills to ensure completion of job tasks
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- applicable federal, state or territory legislation and regulations, and national standards and codes of practice relevant to full range of processes relating to own work role and responsibilities
- hazards and potential hazards in the workplace and risk control procedures
- OHS and environmental legislative requirements
- organisational policies and procedures
- principles of effective communication
- protocols and procedures for communicating with licensed and registered personnel, racing officials and other relevant people
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- reporting requirements for non-conformance
- rules relating to common welfare principles of racing animals, race club security, track conditions and associated documentation
- rules relating to licensed personnel, permit holders and others authorised to undertake work on training and racecourses
- types of equipment and procedures for operation and maintenance
- workplace specific and OHS requirements for engagement of contractors.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to the specific industry sector and workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

## EVIDENCE GUIDE

---

- knowledge of the requirements, procedures and instructions that are to apply when supervising use of track and race club facilities
- implementation of procedures and timely techniques for the safe, effective and efficient application of supervisory duties
- working with others to undertake and complete supervisory procedures that meet required outcomes.

Evidence should be collected over a period of time in a range of workplace-relevant contexts and include dealings with an appropriate range of situations.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- materials and equipment relevant to assessing candidate's ability to supervise use of track and race club facilities
- relevant racing industry work sites, such as administration buildings, training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by

|                                            | This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.                                                                                                                                                                                                 |
| <b>Guidance information for assessment</b> | Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds). |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to effectively supervise the use of track and race club facilities. Workplaces include greyhound, harness or thoroughbred racecourses, training tracks, administration buildings and public areas.

***Track selection in relation to race club policy*** may include:

- fast days and slow days
- horses not working fast keep to outside of designated track
- number of horses working abreast
- slow work, pace work or gallops
- type of track, including:
  - A grass
  - B grass
  - cinders
  - sand
  - synthetic
  - woodchip.

***Emergency equipment location*** may include:

- administration buildings
- tie up stalls, kennels and stables

## RANGE STATEMENT

---

***Risk of accidents*** may be minimised by:

- with trackwork supervision attendant.
- applying safe operating procedures for the protection of other persons and animals
- identifying hazards
- controlling risks
- eliminating hazardous materials and substances
- safely using and operating equipment
- using correct manual handling techniques, including:
  - carrying
  - lifting
  - shifting.

***Other race club facilities*** may include:

- administration buildings
- alarms
- amenities block
- bull ring
- exercise yard
- float or trailer parking areas
- grandstands or spectator viewing areas
- grounds and gardens
- hose bays
- kennels
- machinery sheds
- mobile starting barriers
- rails and fences
- sand roll
- semaphore board and timing equipment
- signage
- steward and camera towers
- swab box
- tie up stalls and stabling
- totalisator area and equipment.
- closed circuit camera operation
- lighting
- registered and licensed persons
- relevant rules of racing
- restricted areas
- stewards' operations
- track opening times.

***Track security protocols*** may involve:

- closed circuit camera operation
- lighting
- registered and licensed persons
- relevant rules of racing
- restricted areas
- stewards' operations
- track opening times.

***Supervising crossings or other***

- adhering to animal welfare principles

## RANGE STATEMENT

***areas of potential contact with animals*** may involve:

- attendant leading horses person to person in tie up or other exercise areas
- horses using crossings in single file, unless led off a hack
- loading and unloading horses from floats in safe manner
- trainer or attendant responsibility for cleanliness of sand roll after use
- trainer or attendant responsibility for use of bridle or bit on horses, or muzzles on greyhounds, on race club property
- using personal protective equipment in all activities with horses or greyhounds.

***Equipment and machinery*** may include:

- chemical spray apparatus
- electrical boards
- escalators and lifts
- fire equipment
- gardening tools
- hydrants
- irrigation pipes and sprinklers
- lighting
- mirror box
- mobile starting barriers
- photo finish equipment
- public address system
- rails
- soil aerators and spreaders
- starting boxes
- tractors and harrows
- travelling irrigators.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- allocating duties to staff based on a range of operational requirements, staff experience, level of responsibility and complexity of job task
- assessing race club and industry requirements associated with race meeting operations, including safety, security, licensing, and staff and animal welfare
- communicating with race club personnel, officials and contractors using assertive communication techniques to gather, interpret and relay information related to the conduct and operation of a race meeting
- completing duties in accordance with safe operating procedures and nominated time frame

## REQUIRED SKILLS AND KNOWLEDGE

- completing roster preparation
- complying with OHS legislation, regulations and codes of practice
- complying with organisational policies and procedures
- developing operational plans and procedures
- evaluating risks associated with race club equipment and activities
- giving, receiving and interpreting instructions
- making effective decisions
- monitoring procedures for operation and maintenance of a range of equipment and technology
- reading and interpreting workplace documentation, including rules of racing
- recognising faulty equipment, machinery and infrastructure
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- resolving routine and unexpected problems
- teamwork skills to ensure completion of job tasks
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- detailed understanding of applicable federal, state or territory legislation and regulations, and national standards and codes of practices relevant to full range of processes relating to work role and responsibilities
- environmental protection requirements
- organisational policies and procedures
- principles of effective communication
- racing industry safety requirements, including safe operating procedures
- relevant workplace documentation and its purpose
- rights and responsibilities of employees, supervisors, employers and contractors
- specific customer requirements in relation to access and cultural requirements and protocols
- time management in the completion of workplace tasks
- types of equipment and procedures for their operation and maintenance
- workplace specific and OHS requirements for engagement of contractors.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

## EVIDENCE GUIDE

---

Guidelines for the Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to the specific industry sector and workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when managing race meeting operations
- implementation of procedures and timely techniques for the safe, effective and efficient application of management duties
- working with others to undertake and complete management procedures that meet required outcomes.

Evidence should be collected over a period of time in a range of workplace-relevant contexts and include dealings with an appropriate range of situations.

### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- materials and equipment relevant to assessing candidate's ability to manage race meeting operations
- relevant racing industry work sites, such as administration buildings, racetracks and registered race meetings
- work instructions and related documentation.

### **Method of assessment**

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

## EVIDENCE GUIDE

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRCMN401A Maintain and monitor OHS procedures and environmental work practices.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to manage race meeting operations. Workplaces include greyhound, harness and thoroughbred racecourses, training tracks, administration buildings and public areas.

***Staff requirements*** may include:

- administration:
- race day office
- catering and hospitality
- first aid personnel

## RANGE STATEMENT

---

***Special race meeting activities or procedures*** may include:

- grounds staff
- operations staff:
  - barrier attendant or kennel attendant
  - clerk of the course
  - farrier
  - judge
  - photo finish operator
  - racecourse detective
  - starter
  - scribe or shorthand writer
  - swab staff
  - timekeeper
  - veterinarian
- staff requirements for TAB and non-TAB meetings
- security
- stewards
- totalisator operators.
- access for contractors
- additional requirements for:
  - audiovisual, including assistive technology requirements
  - beverage
  - catering, including specific dietary requirements
  - cleaning
  - entertainment
  - hospitality
  - marquees
  - media
  - parking, including accessible parking for people with a disability
  - power
- reviewing contractors' safe operating procedures
- risk management
- security
- signage, including accessible signage
- site or venue

## RANGE STATEMENT

---

***Race meeting duties allocated to staff*** may include:

- speakers
- suppliers
- transport, including arrangements for groups such as people with a disability.
- administration
- checking operation and soundness of infrastructure and facilities:
  - public address system and semaphore
  - signage
  - spectator viewing facilities and seating
  - totalisator
- erection and pull down of marquees
- hospitality
- landscaping and grounds
- track surrounds preparation:
  - condition
  - irrigation pipes removal
  - machinery removal.

***Emergencies requiring contingency plans*** will include:

- animal injury
- chemical spillage
- earthquake
- fire
- high winds
- security threat, such as bomb threat
- suspected animal emergency disease outbreak.

***Race meeting requirements of stewards*** may include:

- catering
- equipment, including television monitors and telephones in good operating order
- lighting and power to stewards room
- recording equipment
- video re-play equipment.

***Information and services provided to race meeting participants*** may include:

- notice boards
- public address
- race day office
- semaphore
- signage
- televised races.

***Supervised race meeting activities*** may include those

- administration areas, including race day office
- bars

## RANGE STATEMENT

---

occurring in:

- betting rings
- hospitality and catering areas
- members area and public stands
- parking areas, including areas for cars, floats and trailers
- race meeting stalls or kennels
- special function areas
- totalisator
- track maintenance between races.

***Damaged or faulty equipment or facilities*** may include:

- barriers or starting boxes
- machinery, including track maintenance equipment
- monitors
- seating
- swab box
- surveillance towers.

***Operational procedures and legislative requirements*** may include:

- adhering to legislation from local, state and federal levels of government that affects business operation, including:
  - animal welfare
  - anti-discrimination
  - environmental and waste management
  - equal employment opportunity
  - food and beverage handling
  - industrial relations
  - OHS
  - responsible service of alcohol
- maintaining records and reports, including:
  - audit and inspection records
  - contractor records
  - consultation records of OHS committees and agendas
  - dangerous goods storage lists
  - employee and payroll records
  - first aid and medical records
  - hazardous substances register
  - induction, training and instruction records
  - material safety data sheets for chemicals and medications
  - plant and equipment maintenance testing

## RANGE STATEMENT

---

records

- safe operating procedures
- workers' compensation and rehabilitation records.

## RGRADM402A Prepare for race meeting special events

### Modification History

Not Applicable

### Unit Descriptor

**Unit descriptor** This unit of competency specifies the outcomes required to prepare for race meeting special events and includes pre and post-event inspections of race club facilities, equipment, machinery and infrastructure. It requires knowledge of regulations related to workplace health and safety, including emergency evacuation and communication skills to discuss client and contractor requirements.

This unit of competency operates in workplace environments of racing administration, stables, kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

**Application of the unit** This unit of competency supports race club employees authorised to prepare for race meeting special events.

Competencies attained in this unit apply to the greyhound, harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the greyhound or harness or thoroughbred code, and statements of attainment for this unit will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Plan for special event.

1. Special event ***requirements*** are clarified with race club personnel.
2. Pre-planning ***work roster*** with monthly, weekly and daily objectives is prepared.
3. ***Contractor and client requirements*** are discussed and logged, and equipment is ordered.
4. Site plan is prepared for allocation of client and contractor venues.

| ELEMENT                                          | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- allocating duties to staff based on a range of operational requirements, staff experience, level of responsibility and complexity of job task
- communicating with race club staff, licensed or registered personnel, and industry officials using assertive communication techniques to gather, interpret and relay information related to preparing for special events
- completing duties in accordance with safe operating procedures and nominated time frame
- completing roster preparation
- complying with OHS legislation, regulations and codes of practice
- complying with organisational policies and procedures
- delegating duties to staff
- giving, receiving and interpreting instructions
- making effective decisions
- operating equipment and technology, including new technology as required
- reading and interpreting workplace documentation, including rules of racing
- recognising faulty equipment, machinery and infrastructure

## REQUIRED SKILLS AND KNOWLEDGE

- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- resolving routine problems
- teamwork skills to ensure completion of job tasks
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- detailed understanding of applicable federal, state or territory legislation and regulations, and national standards and codes of practices relevant to full range of processes relating to work role and responsibilities
- environmental protection requirements
- organisational policies and procedures
- principles of effective communication
- racing industry safety requirements, including safe operating procedures
- relevant workplace documentation and its purpose
- rights and responsibilities of employees, supervisors, employers and contractors
- specific customer requirements in relation to access and cultural requirements and protocols
- time management in the completion of workplace tasks
- types of equipment and procedures for their operation and maintenance
- workplace specific and OHS requirements for engagement of contractors.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to the specific industry sector and workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when preparing for race meeting special events
- implementation of procedures and timely techniques

## EVIDENCE GUIDE

---

for safe, effective and efficient special events preparations

- working with others to undertake and complete preparation procedures that meet required outcomes.

Evidence should be collected over a period of time in a range of workplace-relevant contexts and include dealings with an appropriate range of situations.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- materials and equipment relevant to assessing candidate's ability to manage race meeting operations
- relevant racing industry work sites, such as administration buildings, racetracks and registered race meetings
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector,

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying relevant industry rules and regulations pertaining to rights, responsibilities and dress codes
- communicating with stewards, racing officials, licensed and registered personnel and others using assertive communication techniques to gather, interpret and relay information related to the conduct and operation of racing
- interpreting and relating personal conduct to rules of racing
- monitoring and evaluating own ideals and performance
- organising thoughts and information in a systematic manner
- reading and interpreting workplace documentation, including rules of racing
- selecting and organising evidence relevant to racing incidents (verbal and written) in a logical and succinct manner
- written communication skills to complete workplace documentation and reports.

#### Required knowledge

- appeals and inquiries processes and procedures

## REQUIRED SKILLS AND KNOWLEDGE

- ethical and unethical conduct in racing
- own roles and responsibilities in relation to other industry personnel
- personal grooming and presentation requirements
- protocols and procedures for communicating with stewards, racing officials and tribunal members
- range of documentation and records used in appeals and inquiries
- rules of racing
- regulations and legislation related to non-discriminatory language and behaviour
- relevant code's administrative structure, at federal, state and local levels.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to the specific industry sector and workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when complying with the rules of racing and related protocols
- implementation of procedures and timely techniques for the safe, effective and efficient application of compliance to the rules of racing and related protocols
- working with others to undertake and complete compliance procedures that meet required outcomes.

Evidence should be collected over a period of time in a range of workplace-relevant contexts and include dealings with an appropriate range of situations.

#### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard

## EVIDENCE GUIDE

---

and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- materials and equipment relevant to assessing candidate's ability to comply with the rules of racing and related protocols
- relevant racing industry work sites, such as administration buildings, licensed stables or kennels, training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to comply with the rules of racing and related protocols. Workplaces include greyhound kennels, harness and thoroughbred stables as well as greyhound, harness and thoroughbred racecourses, training tracks, administration buildings and public areas.

***Size and scope*** of the racing industry covers:

- direct and indirect contribution racing makes to the economy
- key industry personnel and their roles and functions, including:
  - club secretaries
  - drivers
  - industry administrators
  - jockeys
  - kennelhands
  - race day staff
  - stablehands and strappers
  - stewards
  - trackwork riders or drivers
  - trainers
- sources of income for the racing industry
- structure of the racing industry, which consists of:
  - national and state or territory administrations
  - racing industry associations
  - national and state or territory racing industry government administration bodies
  - code controlling bodies
  - principal clubs
  - race clubs
  - three codes of racing: greyhound, harness and thoroughbred
  - totalisator agency boards.

Impacts of ***corruption*** may

- loss of integrity

## RANGE STATEMENT

---

include:

- loss of public confidence
- loss of sources of income for the racing industry.

Dimensions of ***ethical behaviour*** may include:

- administrative structures
- codes of conduct
- corporate strategies
- systems, policies and procedures.

***Legislation*** that impacts on racing will include:

- Australian and local rules of racing
- legislation from local, state and federal levels of government covering:
  - animal welfare
  - anti-discrimination and harassment, including sexual harassment
  - environment
  - equal employment opportunity
  - industrial relations
  - OHS
  - taxation law
  - workers' compensation.

***Rules of racing*** cover:

- animal welfare
- constitutional
- human and animal drug testing
- interpretation
- licensing
- local rules
- offences
- penalties
- race meetings
- registration
- stable and kennel activities
- stewards
- syndicates
- trackwork
- veterinary
- wagering.

***Industry records*** may include:

- models, actual items or equipment and/or other relevant material required when reporting incidents to supervisor or stewards.

***Evidence*** may include:

- audiovisual materials
- copies of betting sheets and fluctuations

## RANGE STATEMENT

---

|                                                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

## **RGRCMN002A Investigate job opportunities in racing and related industries**

### **Modification History**

Not Applicable

### **Unit Descriptor**

**Unit descriptor** This unit of competency specifies the outcomes required to understand the structure of the racing industry, as well as employment opportunities in the racing industry and industries closely associated or linked to racing.

This unit of competency operates in workplace environments of racing administration, stables, kennels, racecourses and public areas.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

### **Application of the Unit**

**Application of the unit** This unit of competency supports the learner in gaining knowledge of the structure, employment areas, general work conditions and associated work procedures of racing and related industries.

Competencies attained in this unit apply to the greyhound, harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the greyhound, harness or thoroughbred code, and statements of attainment for this unit will reflect this distinction.

### **Licensing/Regulatory Information**

Refer to Unit Descriptor

## Pre-Requisites

### Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Research the structure of the racing industry.

1. **Sectors** of the racing industry are described.
2. **Structure** of racing in each sector is outlined.
3. **Functional areas** within each racing sector are identified.

Profile racing employment opportunities and related responsibilities.

4. Number of people employed in racing is investigated.
5. General work conditions in functional areas of racing are described.
6. Job responsibilities in essential racing job functions are outlined.
7. Employment opportunities in **racing-related industries** are investigated.

Explore race day

8. Range of **race day operations** is described.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying basic research methods to determine subject matter
- communicating with racing officials, licensed and registered personnel and other relevant people using assertive communication techniques to gather, interpret and relay information related to the conduct and operation of racing
- following direction in different work situations, including when accessing restricted areas
- maintaining confidentiality when accessing licensed premises or restricted areas
- operating a range of equipment and technology
- organising thoughts and information in a systematic manner
- reading and interpreting workplace documentation, including rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities.

#### Required knowledge

- employment areas within the racing industry
- employment areas in jobs allied to racing
- ethical and unethical conduct in racing
- general work conditions in the racing industry
- procedures for operation and maintenance of equipment and technology
- protocols and procedures for communicating with stewards, racing officials and other relevant persons
- race meeting operations and staff roles
- rules of racing
- structure and hierarchy of the racing industry.

# Evidence Guide

## EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of requirements, procedures and instructions that demonstrate an understanding of the structure of racing and the job opportunities available
- implementation of procedures and timely techniques for the safe, effective and efficient investigation of racing and racing-related job opportunities
- working with others to complete tasks that meet required outcomes.

Evidence should be gathered over a period of time in a range of racing sectors and include dealings with an appropriate range of situations.

### **Context of and specific resources for assessment**

Competency must be assessed in racing workplaces that provide access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a range of racing sector work sites, such as administration buildings, racing kennels, racing stables, racetracks and race meetings
- materials and equipment relevant to assessing candidate's ability to investigate racing and related job opportunities, including:
- internet and racing websites
- racing magazines and related publications
- work instructions and related documentation.

### **Method of assessment**

Assessment methods must satisfy the endorsed

## EVIDENCE GUIDE

Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to investigate job opportunities in racing and related industries. Workplaces include greyhound kennels, harness and thoroughbred stables as well as greyhound, harness and thoroughbred racecourses, training tracks, administration buildings and public areas.

***Sectors*** that make up the racing industry include:

- greyhound
- harness
- thoroughbred.

***Structure*** of the racing industry

- horse or greyhound training establishments

## RANGE STATEMENT

includes:

(public and private trainers)

- national and state governing bodies for each racing code
- race club organisations
- racing organisations, such as trainers' associations.

**Functional areas** of racing include:

- racing administration
- race day operations
- steward and integrity services
- track maintenance
- training operations.

**Racing-related industries** include:

- bloodstock agents
- breeding studs or kennels
- building and construction, including:
  - fences
  - tracks
- farrier services
- feed, supplement and medication suppliers
- float drivers
- kennel supplies and services
- massage and other complementary therapists
- saddlery and gear suppliers
- transport services
- veterinary services, including:
  - veterinarians
  - veterinary nurses.

Roles in **race day operations** will include:

- barrier attendant
- clerk of scales
- clerk of course
- judge
- kennel supervisor
- lure drive
- mobile barrier driver
- photo finish operator
- race caller
- race club secretary
- racecourse detective
- race meeting veterinarian
- race meeting farrier
- scribe or shorthand writer

## RANGE STATEMENT

---

***Integrity of racing*** is managed by:

- starter
- steward
- swab attendant
- trainer, stable and kennel staff
- track maintenance.
- determining and awarding penalties when rules of racing are contravened
- establishing and applying rules of racing
- investigating racing-related incidents
- licensing or registering participants
- overseeing integrity of services staff
- overseeing racing by stewards and integrity services staff.

***Race day safety procedures*** may include:

- allocation of security staff
- designation of restricted areas
- evacuation instructions
- identification of race day licensed or registered persons
- provision of first aid staff and equipment
- race meeting under control of stewards
- race start under control of starter
- safely moving around horses or greyhounds in stables or kennels and on or near tracks
- stable or kennel area supervision.

## RGRCMN003A Manage personal health and fitness

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to manage personal health and fitness in the racing industry workplace and on a personal level.

The unit requires an understanding of common health and nutritional principles and requirements relevant to job function under a variety of conditions. It also requires an understanding of stress management strategies and ways in which to manage workplace fatigue.

Drug and alcohol misuse, and other health risks are identified, including zoonotic diseases, as well as principles of fitness and strategies to develop and maintain fitness.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

### Application of the Unit

#### Application of the unit

This unit of competency supports employees in effectively managing their personal health and fitness in a variety of job functions at varying qualification levels in the racing industry. It is developed for licensed and non-licensed racing industry personnel.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

### Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

### Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

| ELEMENT                                  | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

Factors affecting employees' ability to complete work role are identified.</li><li>9. <b><i>On-the-job strategies</i></b> for managing work-related stress are practised.</li><li>10. <b><i>Off-the-job</i></b> strategies for managing work-related stress are practised.</li></ol> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- assessing own capacity for specific physical exercise
- complying with OHS and anti-discrimination legislation and regulations
- complying with organisational policies and procedures
- demonstrating healthy methods of weight reduction and control
- employing long-term strategies for weight and fitness management
- employing strategies to manage fatigue in the workplace
- employing strategies to manage stress in work and personal life.

#### Required knowledge

- causes of workplace stress
- effects of drug and alcohol misuse
- exercise routines
- improving and maintaining fitness levels
- improving and maintaining health
- nutritional requirements
- racing industry health risks.

# Evidence Guide

## EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when managing personal health and fitness
- implementation of procedures and timely techniques for the safe, effective and efficient application of long-term strategies for health and fitness management, including:
  - coping with stress and uncertainty in work and personal life
  - employing methods of fatigue reduction
- working with others to undertake and apply personal health and fitness strategies that meet required outcomes.

Evidence should be collected over a period of time in a range of workplace-relevant contexts and include dealings with an appropriate range of situations.

### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace or simulated environment that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- materials and equipment relevant to assessing candidate's ability to apply personal health and fitness strategies
- relevant racing industry work sites, such as administration buildings, racing kennels, racing

## EVIDENCE GUIDE

---

### Method of assessment

stables and racetracks

- work instructions and related documentation.

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to manage personal health and fitness. Workplaces include greyhound kennels, and harness and thoroughbred stables and racecourses, training tracks, administration buildings and public areas for the three codes.

## RANGE STATEMENT

---

***Nutritional requirements for job function and general health*** may include:

- energy expenditure
- food groups and nutritional factors
- maintaining hydration levels
- protein and carbohydrate requirements
- recommended vaccination requirements
- types of job functions and associated energy demands
- weight management.

***Drug and alcohol health issues advisers*** may include:

- counsellors
- health professionals
- nutritionists
- sports physiologists
- stipendiary stewards using rules of racing.

***Hydration status*** may affect:

- athletes, including:
  - apprentice jockeys
  - jockeys
  - trackwork riders and drivers
- other racing industry employees and employers.

***Health risks encountered at work*** may include:

- chemical use
- diseases from animals, such as:
  - morbillivirus
  - other zoonotic diseases
- inappropriate self-management related to hydration and nutrition levels
- injury from animals
- other people, including employees
- machinery and equipment
- physical environment
- tetanus
- unsafe work practices.

***Fatigue evidenced in the racing industry*** may include:

- fatigue due to long distance vehicle driving pre and post-race meetings
- fatigue while riding or driving due to lack of fitness or inappropriate dieting and weight control
- inability to manage rest periods during split shifts
- inappropriate use of drugs and alcohol.

***Physical fitness*** may be assessed

- demonstrating strengthening exercises

## RANGE STATEMENT

|                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Unit Sector(s)

**Unit Sector** Greyhound, harness and thoroughbred racing codes

## Co-requisite units

Co-requisite units

## Functional Area

Functional Area      Racing common

## **RGRCMN201A Follow OHS procedures and observe environmental work practices**

### **Modification History**

Not Applicable

### **Unit Descriptor**

#### **Unit descriptor**

This unit of competency specifies the outcomes required to contribute to and follow the organisation's OHS policies, procedures and programs in the relevant area of work and in accordance with OHS requirements. It requires the ability to contribute to environmental work practice improvements within the scope of responsibilities of the job function.

This unit of competency operates in workplace environments of racing administration, stables, kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### **Application of the Unit**

#### **Application of the unit**

This unit of competency supports licensed, registered and other racing industry employees to follow OHS procedures and observe environmental work practices.

Competencies attained in this unit apply to the greyhound, harness and thoroughbred codes of the industry.

Consequently when performance criteria are applied they will relate to either the greyhound code or harness code or the thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

---

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

---

Contribute to OHS in the workplace.

1. OHS legislation and safe work practices are known and followed within scope of responsibilities .
2. OHS issues are raised with ***appropriate people*** in accordance with workplace procedures and relevant OHS legislation.
3. Contributions to improvement of OHS management in the workplace are made through ***workplace safety committees*** or other workplace reporting methods.

| ELEMENT                                                                    | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                     |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying OHS and environmental work procedures
- communicating with stewards, racing officials, licensed and registered personnel and others using assertive communication techniques to gather, interpret and relay information related to the conduct and operation of racing
- contributing to risk control measures
- following instructions
- identifying and reporting workplace hazards in the appropriate time frame and to the correct person
- reading and interpreting workplace documentation, including rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- teamwork skills to ensure completion of job tasks in a safe and timely manner
- workplace procedures for dealing with accidents, fires and emergencies

## REQUIRED SKILLS AND KNOWLEDGE

- written communication skills to complete workplace documentation and reports.

### Required knowledge

- basic knowledge of OHS and environmental legislative and workplace requirements
- behaviour of greyhounds or horses in a range of environments
- communication procedures, including reporting lines within the kennel or stable and wider racing industry
- hazards and potential hazards in the workplace and risk control procedures
- hierarchy of control covering:
  - elimination
  - engineering controls
  - administrative controls
  - personal protective equipment
- procedures for participation in and communication of OHS workplace processes
- racing industry animal welfare requirements
- reporting requirements in relation to OHS and environmental workplace procedures.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when following OHS procedures and observing environmental work practices
- implementation of procedures and timely techniques for the safe, effective and efficient application of OHS and environmental work practices
- working with others to undertake and complete OHS

## EVIDENCE GUIDE

and environmental procedures that meet required outcomes.

Evidence should be collected over a period of time in a range of workplace-relevant contexts and include dealings with an appropriate range of situations.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- materials and equipment relevant to assessing candidate's ability to follow OHS procedures and observe environmental work practices, including:
  - sample copies of local, state and federal legislation, regulations, codes of practice, safe operating procedures and industry checklists
- relevant racing industry work sites, such as administration buildings, racing kennels, racing stables and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

## EVIDENCE GUIDE

### Guidance information for assessment

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to follow OHS procedures and observe environmental work practices. Workplaces include greyhound kennels, harness and thoroughbred stables as well as greyhound, harness and thoroughbred racecourses, training tracks, administration buildings and public areas.

***OHS legislation*** includes:

- award and workplace agreements and other industrial instruments
- duty of care and common law duties, including rights and obligations of:
  - contractors
  - employees
  - employers
  - visitors
- legislation from local, state and federal levels of government that affects business operation, especially in regard to:
  - anti-discrimination
  - equal employment opportunity
  - OHS and environmental issues
  - industrial relations

## RANGE STATEMENT

|                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| <b>Appropriate people</b> may include:        | <ul style="list-style-type: none"> <li>• OHS officer</li> <li>• OHS work group</li> <li>• person to whom incidents, hazards and risks must be reported, for example supervisor or employer.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Workplace safety committees</b> may:       | <ul style="list-style-type: none"> <li>• appoint workplace health and safety representatives</li> <li>• conduct OHS committee meetings</li> <li>• hold informal consultation with work teams</li> <li>• listen to suggestions, and record and act upon requests</li> <li>• obtain expert OHS advice</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## RANGE STATEMENT

**Environmental legislation** may include:

- write and forward reports and concerns presented by employees to management.
- legislation from local, state and federal levels of government that affects business operation in regard to environmental issues, including:
  - contaminated land
  - hazardous waste and hazardous chemicals
  - protection of the environment
  - renewable energy
  - waste minimisation
  - water efficiency
- offence codes
- prosecution and enforcement.

**Safety and environmental hazards** may include:

- chemicals and hazardous substances
- gear, machinery and equipment
- greyhound and horse behaviour in stable or kennel and race meeting contexts
- other people, including employees
- physical environment, including run-off proximity to watercourses, rivers, dams or streams
- unsafe work practices
- zoonotic diseases.

**Hazards** may be identified by:

- accident investigation records
- checking work area and equipment before and after work
- complaints
- employee and employer consultation
- job and work system assessment
- maintenance of gear, plant and equipment
- monitoring animal handling skills
- reviews of OHS records, including registers of hazardous substances and dangerous goods
- workplace inspections.

**Assessing and controlling risks** may include:

- applying hierarchy of control
- correct manual handling, including:
  - carrying
  - lifting
  - shifting
- eliminating hazardous materials and substances

## RANGE STATEMENT

***Accident, fire and emergency procedures*** may include:

- identifying hazards
- safely using and operating equipment, including:
  - fire safety equipment
  - first aid equipment
  - personal protective equipment
  - safety equipment
- safety procedures for protecting self, other people and animals.
- adhering to fire drills and emergency evacuation procedures
- disposing properly of infected or suspect animals that die
- maintaining surveillance of animals once approved to do so
- responding in accordance with organisational procedures
- working within safe work practice guidelines and procedures.

***Workplace safety and environmental records*** may include:

- accident reports
- audit and inspection records
- consultation records of OHS committees and agendas
- dangerous goods storage lists
- first aid and medical records
- hazardous substances register
- induction, training and instruction records
- material safety data sheets for chemicals, hazardous substances and medications
- plant and equipment maintenance testing records
- safe operating procedures
- workers' compensation and rehabilitation records.

## Unit Sector(s)

**Unit Sector**

Greyhound, harness and thoroughbred racing codes

## Co-requisite units

Co-requisite units

## Functional Area

## RGRCMN202A Achieve requirements for industry induction

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to begin work in the racing industry and to achieve an understanding of legislative and regulatory standards, and industry practices and protocols. The unit involves competencies related to roles, rights, responsibilities and professional behaviour for individuals working in occupations in a commercial racing enterprise. It requires knowledge of relevant workplace policies, including federal, state and industry-specific OHS requirements, animal welfare legislation (if applicable) and personal presentation standards.

This unit of competency operates in workplace environments of racing administration, stables, kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports the employee in working effectively in a variety of job functions at varying qualification levels in an agri-food industry and may be revisited should or whenever the employee begins a new job role.

The unit may be used as a continuous improvement or compliance unit so that specific job requirements are addressed according to legislative and regulatory policies.

Competencies attained in this unit apply to the greyhound, harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to either the greyhound code or harness code or

the thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

### Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

| ELEMENT                                                                    | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

## REQUIRED SKILLS AND KNOWLEDGE

### Required skills

- accurately locating, recording and reporting workplace information
- applying relevant industry rules and regulations pertaining to rights, responsibilities and dress codes
- communicating with employer, supervisor, other employees and others using assertive communication techniques to gather, interpret and relay information related to the conduct and operation of the enterprise
- complying with legislation, regulations, standards, codes of practice and established safe practices and procedures relevant to own work, role and responsibilities
- identifying safe and humane animal management practices
- identifying safe work practices
- interpreting and complying with workplace protocols
- reading and interpreting workplace documentation
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reviewing and accurately identifying work requirements
- using appropriate language and interpersonal techniques
- workplace procedures for dealing with accidents, fires and emergencies
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- awards and relevant union coverage
- chain of command in relation to work environment
- dress code requirements as determined by industry and workplace
- environmental protection requirements
- own roles and responsibilities and relationships with other industry personnel
- principles of safe work practices
- racing industry animal welfare requirements, if relevant
- regulations related to non-discriminatory language and behaviour and the transfer of information
- relevant administrative structure, at federal and own state or territory and local level, including roles and responsibilities of key personnel related to the industry
- workplace communication channels, protocols and procedures.

## Evidence Guide

### EVIDENCE GUIDE

---

## EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations policies, procedures and practices and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are required to complete industry induction
- implementation of procedures and timely techniques for the safe, effective and efficient application of industry induction requirements
- working with others to undertake and complete industry induction procedures that meet required outcomes.

Evidence should be collected over a period of time in a range of workplace-relevant contexts and include dealings with an appropriate range of situations.

### **Context of and specific resources for assessment**

Competency must be assessed in an actual workplace that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- copies of relevant Acts and legislation, including Occupational Health and Safety Act, Workplace Relations Act, Anti-Discrimination Act, Prevention of Cruelty to Animals Act (or relevant state animal welfare legislation), federal and state awards, and relevant enterprise sexual harassment policy and guidelines
- materials and equipment relevant to assessing candidate's ability to complete workplace induction
- supervised access to relevant racing sector work sites
- work instructions and related documentation.

## EVIDENCE GUIDE

---

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks either on-the-job, during work experience or as a work-based project.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRCMN201A Follow OHS procedures and observe environmental work practices.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in racing industry workplaces to complete workplace induction. Workplaces include administration buildings, kennels, stables, training and racetracks. It is necessary for this unit to be completed on-the-job, during work experience or as a work-based

## RANGE STATEMENT

---

project.

Location of ***emergency exits*** and application of ***evacuation procedures*** may cover:

- administration buildings
- racecourses and training tracks
- race club premises
- stables and kennels.

Personal ***responsibilities, rights and roles*** may include:

- adhering to Australian and local rules of racing
- adhering to regulations and legislation related to:
  - animal welfare
  - anti-discrimination and harassment
  - employment
  - equal employment opportunity
  - OHS
  - superannuation awards
  - taxation law
  - union coverage and workplace agreements
  - workers' compensation
- knowledge of support services, including independent bodies such as anti-discrimination authorities
- maintaining confidentiality related to:
  - individual racehorses or greyhounds
  - security arrangements at place of work
- timely completion of work activities
- understanding benefits of team work
- understanding job tasks
- understanding personal ethical standards and basic integrity
- work ethic required to work in the industry.

***Conditions of employment*** will include:

- Acts and regulations covering employment, including:
  - Workers' Compensation
  - Industrial Relations
- agreed salary and provisions for payment, deductions and increases
- allowances
- code of conduct
- enterprise or workplace agreements or industrial awards covering employment
- health and fitness requirements, including

## RGRCMN401A Maintain and monitor OHS procedures and environmental work practices

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to apply practical and theoretical information related to OHS and environmental work practices. The unit is concerned with maintaining and monitoring the organisation's OHS policies, procedures and programs in the relevant area of work and in accordance with OHS requirements.

This unit of competency operates in workplace environments of racing administration, stables, kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports licensed, registered and other racing industry employees to maintain and monitor OHS procedures and environmental work practices.

Competencies attained in this unit apply to the greyhound, harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to either the greyhound code or harness code or the thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

---

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

---

Maintain standards of a safe workplace and environment.

1. ***Legislation, standards and organisation's policies and practices*** relevant to the maintenance of a safe workplace and environment are conveyed to colleagues or work team where applicable, and are followed accurately.
2. Arrangements are made to ***provide information*** in a language, style and format understood by ***colleagues and teams*** .

| ELEMENT                                                                                    | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| Maintain records.                                                                          | <ol style="list-style-type: none"><li>13. <b>Systems, records and reporting procedures</b> are maintained according to organisational and legislative requirements.</li></ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- analysing relevant workplace data to identify hazards
- applying OHS and environmental work procedures
- communicating with stewards, racing officials, licensed and registered personnel

## REQUIRED SKILLS AND KNOWLEDGE

and others using assertive communication techniques to gather, interpret and relay information related to maintaining and monitoring OHS procedures and environmental work practices

- consulting concisely and effectively with colleagues and team members
- developing safe operating procedures
- ensuring timely conduct of safety and environmental regulatory requirements, including:
  - consultative practices
  - emergency drills
  - accident or near miss reporting
  - staff training
  - workplace inspections
- identifying workplace hazards and implementing risk control measures
- interpreting and applying relevant legislation and regulations
- providing information and training to suit differing needs, for example using large print materials or materials that use pictures and diagrams and providing culturally appropriate training
- reading and interpreting workplace documentation, including rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- workplace procedures for dealing with accidents, fires and emergencies
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- behaviour of greyhounds or horses in a range of environments
- communications procedures, including reporting lines within the workplace and wider racing industry
- detailed understanding of OHS and environmental legislative requirements
- hazards and potential hazards in the workplace and risk control procedures
- hierarchy of control covering:
  - elimination
  - engineering controls
  - administrative controls
  - personal protective equipment
- OHS committee procedures and requirements
- procedures for participation in and communication of OHS workplace processes
- reporting requirements in relation to OHS and environmental workplace procedures
- workplace procedures for dealing with accidents, fires and emergencies.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when maintaining and monitoring OHS procedures and environmental work practices
- demonstration of maintenance of OHS and environmental business systems and recording practices
- implementation of procedures and timely techniques for the safe, effective and efficient application of OHS and environmental work practices
- working with others to undertake and complete OHS and environmental procedures that meet required outcomes.

Evidence should be collected over a period of time in a range of workplace-relevant contexts and include dealings with an appropriate range of situations

.

#### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- materials and equipment relevant to assessing

## EVIDENCE GUIDE

---

candidate's ability to maintain and monitor OHS procedures and environmental work practices, including:

- sample copies of local, state and federal legislation, regulations, codes of practice, safe operating procedures and industry checklists
- relevant racing industry work sites, such as administration buildings, racing kennels, racing stables and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different

## RANGE STATEMENT

work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to maintain and monitor OHS procedures and environmental work practices. Workplaces include greyhound kennels, harness and thoroughbred stables as well as greyhound, harness and thoroughbred racecourses, training tracks, administration buildings and public areas.

***Legislation, standards and organisation's policies and practices*** may include:

- award and workplace agreements and other industrial instruments
- duty of care and common law duties
- industry codes of practice
- industry checklists and associated documentation
- legislation from local, state and federal levels of government that affects business operation, especially in regard to OHS and environmental issues, equal employment opportunity, anti-discrimination and industrial relations
- requirements for consultative arrangements
- requirements for provision of information and training, including safe operating procedures, risk assessment and risk control, and emergency evacuation procedures.

***Information provided*** may include:

- communicating legislation and codes of practice and relating these to work area
- hazards and risk management procedures
- indicators of potential emergency disease
- induction for new workers
- nature of work, tasks and procedures
- providing direct supervision to inexperienced workers
- vaccination program for tetanus.

***Colleagues and team members*** may include:

- administrators
- kennel or stable staff
- licensed and registered personnel
- officials
- racing meeting operational staff
- trackwork riders.

***Actual and potential safety and environmental hazards in the***

- chemicals
- greyhounds or horses

## RANGE STATEMENT

---

***workplace*** may include:

- machinery and equipment
- other people, including:
  - contractors
  - employees
  - visitors
- physical environment, including run-off proximity to watercourses:
  - dams
  - rivers
  - streams
- unsafe work practices
- zoonotic diseases.

***Hazards*** may be identified by:

- audits
- checking work area and equipment before and after work
- housekeeping
- identifying employee concerns
- job and work system assessment
- maintaining plant and equipment
- purchasing supplies and equipment
- reviewing OHS records, including registers of:
  - dangerous goods
  - hazardous substances
- workplace inspections.

***Risks*** may be minimised by:

- adhering to safe work practices
- identifying unsafe workplace practices and procedures, including incorrect disposal of kennel or stable refuse and manure or faeces
- implementing key elements of the hierarchy of control:
  - eliminate
  - substitute
  - engineer
  - administrative
  - personal protective equipment
- understanding individual animal behaviour.

***Waste recycling, reduction and disposal legislative and organisational requirements*** will

- adhering to local regulations and state government legislation
- adhering to industry codes of practice
- following the Australian Horse Industry

## RANGE STATEMENT

include:

Council code of practice.

***Contingency plan*** may be implemented by:

- disinfecting premises
- disposing properly of infected or suspect animals that die
- establishing exits points out of the restricted area
- following procedures such as stock standstill, for total movement control on infected and dangerous contact premises
- using established organisational systems designed to deal with:
  - chemical spillage
  - earthquake
  - fire
  - high winds
  - security threat, such as bomb threat
- identifying incident, emergency or accident and responding within organisational procedures
- maintaining surveillance of animals
- preventing movement and gatherings of animals within a 10km restricted area
- procuring vaccine
- treating sick animals
- tracing movement of animals
- working within safe work practice guidelines and procedures.

***Designated personnel*** may include:

- OHS officer
- OHS committee
- person to whom incidents, hazards and risks must be reported.

***Organisational consultative procedures*** may include:

- health and safety representatives
- formal and informal consultation with work teams
- informing staff of avenues to address harassment, bullying and discrimination
- obtaining expert OHS advice
- organising and conducting OHS committee meetings systematically
- other committees such as consultative, planning and purchasing

## RANGE STATEMENT

***Evaluations to identify improved safety and environmental work practices*** may include:

- suggestions, requests, reports and concerns put forward by employees to management.
- checking fire and safety equipment is working and not obstructed
- ensuring visual deterrents are in place, such as surveillance and signage
- informing staff of avenues to address harassment, bullying and discrimination
- security measures for staff working on their own or those working in hours of darkness
- training employees to follow procedures, including in the event of unexpected or threatening circumstances
- using workplace inspection checklists.

***Training*** may include:

- anti-discrimination and harassment
- emergency and evacuation drills
- induction
- specific hazard
- specific task or equipment
- training as part of broader programs, for example animal handling.

***Systems, records and reporting procedures*** may include:

- audit and inspection records
- chemicals and hazardous substances registers
- consultation agenda and minutes of OHS committee meetings
- dangerous goods storage lists
- first aid and medical records
- incident reports
- induction, training and instruction records
- material safety data sheets for chemicals and medications
- plant and equipment maintenance testing records
- safe operating procedures
- workers' compensation records.

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to work effectively with the media. It identifies the various forms of media and the benefits of working cooperatively with the media, as well as strategies for dealing with both positive and negative publicity.

This unit of competency operates in workplace environments of racing administration, stables, kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency provides participants with knowledge and skills to prepare and present a media release, and to participate in press conferences and impromptu interviews.

Competencies attained in this unit apply to the greyhound, harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to either the greyhound code or harness code or the thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Prepare for interviews.

1. Purpose of interview is clarified.
2. ***Obligations of racing personnel*** to racing authority when participating in media interviews are clarified with supervisor.
3. ***Obligations and code of conduct*** for journalists are considered when agreeing to participate in formal and informal interviews.
4. Topic is clarified and authority to comment is confirmed

| ELEMENT                    | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying assertive communication techniques, including appropriate body language, to seek and relay relevant information accurately and succinctly
- applying strategies for deflecting critical remarks or questions
- gathering accurate and relevant evidence to racing incidents that may be of interest to media representatives
- imparting succinct and accurate verbal information related to subject matter at hand
- interpreting and relating personal conduct to rules of racing
- organising thoughts and information in a systematic manner
- personal speaking and presentation skills
- preparing press releases
- reading and interpreting workplace documentation, including rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- using internet, email and word processing

## REQUIRED SKILLS AND KNOWLEDGE

- written communication skills to complete workplace documentation and reports.

### Required knowledge

- different forms of media
- journalists' obligations and code of practice requirements
- personal grooming and presentation requirements
- protocols and procedures for communicating with racing officials
- racing authority regulations and relevant communication protocols
- range of documentation and records used in the racing industry workplace
- relevant rules of racing
- workplace protocols for dealing with the media.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when participating in media interviews
- demonstration of ability to prepare for and participate in media interviews
- implementation of procedures and timely techniques for the safe, effective and efficient participation in media interviews
- preparation of relevant and succinct press releases
- working with others to undertake and complete procedures for dealing with the media that meet required outcomes.

Evidence should be collected over a period of time in a range of workplace-relevant contexts and include dealings with an appropriate range of situations.

## EVIDENCE GUIDE

---

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- materials and equipment relevant to preparing for and participating in media interviews and developing press releases, including:
  - examples of enterprise press release formats
  - sample media releases
- relevant racing or simulated environments where media interviews are requested and conducted
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women,

## EVIDENCE GUIDE

---

people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to participate in media interviews for racing. Workplaces include greyhound kennels, harness and thoroughbred stables as well as greyhound, harness and thoroughbred racecourses, training tracks, administration buildings and public areas.

***Obligations of racing personnel*** to the racing authority may include:

- assisting public relations officer with information dissemination
- ensuring comprehensive preparation of subject matter
- familiarity with rules of racing relevant to interview and subject matter
- following procedural requirements in relation to commenting on current cases
- following racing authority protocols
- maintaining loyalty to racing authority.

Journalists' ***obligations and code of conduct*** may include:

- audience, ratings and circulation
- Australian Journalists Association Code of Ethics (under the Media, Entertainment and Arts Alliance)
- commercial considerations, including:
  - advertising
  - commercial news services
- ethical conduct guidelines, including:
  - bias
  - fair play
  - independence
  - misrepresentation

## RANGE STATEMENT

|                                                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

## RANGE STATEMENT

---

- refraining from interrupting
  - refraining from swearing, arguing or fighting
  - speaking clearly
  - using body language and voice that is assertive but not aggressive
  - using effective listening and speaking skills
  - using language that is not patronising but at suitable level
  - using non-discriminatory language
  - using strategies to deflect critical remarks, such as:
    - clarifying incorrect information before answering a question
    - focussing on long-term benefits rather than current impact
    - talking in terms of the public interest rather than organisation's
  - verifying what has been said or done and why it has been said or done.
- Non-verbal communication skills*** include:
- appropriate mode of expression, for example:
    - assertive
    - authoritative
    - compassionate
  - engaging the audience by looking at them
  - ensuring mannerisms are limited, for example:
    - fidgeting
    - hands in pockets
    - moving about
    - shifting position
  - focusing on the interviewer.
- Press releases*** are prepared and reviewed:
- avoiding longwinded sentences
  - avoiding repetitive phrases
  - ensuring controversial topics are treated positively and realistically
  - ensuring facts and figures are accurate
  - ensuring tone is polite but not too formal or familiar
  - including a title that encapsulates main purpose of the release
  - providing no more than one fact or idea per paragraph

## RANGE STATEMENT

---

- providing specific facts rather than generalisations
- stating the purpose
- using illustrations or examples where necessary for clarity.

## Unit Sector(s)

**Unit Sector** Greyhound, harness and thoroughbred racing codes

## Co-requisite units

**Co-requisite units**

## Functional Area

**Functional Area** Racing common

## RGRCMN403A Participate in racing industry appeals

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to participate in racing industry appeals. It requires knowledge of appeal processes and protocols, and understanding reasons for appeals and related rules of racing.

An ability to communicate with appeal panel members, lawyers, licensed personnel and racing officials is also a requirement. Skills in conducting relevant research and gathering evidence are necessary, along with knowledge of appropriate behaviour and dress codes for participating in appeals.

This unit of competency operates in workplace environments of racing administration, stables, kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports industry participants in effectively participating in racing industry appeals to an appropriate industry-acceptable level.

Competencies attained in this unit apply to the greyhound, harness and thoroughbred codes of the industry.

Consequently when performance criteria are applied they will relate to either the greyhound code or harness code or the thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Appeal a decision.

1. ***Rights of individual*** to appeal a decision are researched.
2. Advice on merit of appeal is sought.
3. Reasons for appealing a decision are defined.
4. Appeal is lodged according to ***rules of racing*** and within ***specified time frame*** .

| ELEMENT                              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                      |

Other evidence or witnesses produced are relevant to appeal. |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying relevant industry rules and regulations pertaining to rights, responsibilities and dress codes
- communicating with stewards, officials, co-workers and others using assertive communication techniques to gather, interpret and relay information related to the appeal process
- completing procedures within nominated time frames
- consulting with experts
- gathering evidence relevant to racing or other incidents covered by the rules of racing
- identifying rights, responsibilities and procedures of appeals
- interpreting and relating personal conduct to rules of racing
- reading and interpreting workplace documentation, including rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- written communication skills to complete workplace documentation and reports.

#### Required knowledge

- appeals processes and procedures
- communication procedures within kennel or stable and wider racing industry
- personal grooming and presentation requirements
- protocols and procedures for communicating with stewards and appeal panel

## REQUIRED SKILLS AND KNOWLEDGE

members

- range of documentation and records used in appeals
- relevant rules of racing.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when participating in appeals
- documentation related to information and evidence gathered for a number of appeal situations
- implementation of procedures and timely techniques for the safe, effective and efficient participation in appeals
- working with others to undertake and complete appeal participation procedures that meet required outcomes.

Evidence should be collected over a period of time in a range of workplace-relevant contexts and include dealings with an appropriate range of situations.

#### Context of and specific resources for assessment

- Competency may be assessed in an actual workplace or simulated environment that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

## EVIDENCE GUIDE

---

### Method of assessment

The following resources must be available:

- materials and equipment relevant to assessing candidate's ability to effectively participate in appeals
- work instructions and related documentation.

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to participate in racing industry appeals. Workplaces include greyhound kennels, harness and thoroughbred stables as well as greyhound,

## RANGE STATEMENT

harness and thoroughbred racecourses, training tracks, administration buildings and public areas.

- Rights of individual*** may include:
- right to natural justice or procedural fairness during the conduct of inquiries, hearings or protests, including the appeals process.
- Rules of racing and specified time frame*** may include:
- appeal panel time frame for delivery of decision
  - application for stay of proceedings time frame
  - one level system for harness and greyhound racing
  - two tier system for thoroughbred racing
  - time allowed for notice of appeal to be lodged
  - lodgement of fee.
- Evidence*** may include:
- copy of betting sheets and fluctuations
  - inquiry transcripts
  - stewards' reports
  - swab materials
  - videos.
- Protocols to be researched*** will include:
- legal parameters within the rules of racing
  - stewards' rights and obligations under these rules of racing when conducting an investigation, hearing an inquiry and determining a resolution of an incident.
- Dressing suitably and addressing tribunal members and others appropriately*** will involve:
- addressing tribunal members politely
  - adhering to industry dress codes
  - personal grooming requirements
  - refraining from swearing, arguing or fighting
  - remaining patient
  - refraining from interrupting
  - using effective listening and speaking skills.

### Modification History

Not Applicable

### Unit Descriptor

**Unit descriptor**

This unit of competency specifies the outcomes required to identify, safely catch, control and lead greyhounds for the purposes of training and racing.

It is recommended that RGRCMN201A Follow OHS procedures and observe environmental work practices is completed and assessed before or in conjunction with this unit of competency.

This unit of competency operates in work environments of racing kennels, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

**Application of the unit**

This unit of competency supports personnel, stewards, swab attendants, race meeting kennel attendants and others in the greyhound racing industry who may be required to handle greyhounds as part of their job function.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

### Licensing/Regulatory Information

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with greyhounds
- catching, leading and controlling a range of greyhounds in a variety of environments
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to greyhound handling activities
- completing duties in accordance with safe operating procedures and nominated time frame
- evaluating risks associated with catching and handling greyhounds
- identifying and correctly using different items of handling gear
- identifying features of greyhounds using industry standards
- identifying greyhound behaviour, social traits and vices
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities.

#### Required knowledge

- basic industry terminology related to handling greyhounds
- basic understanding of applicable federal, state or territory legislation and regulations, and national standards and codes of practice relevant to the full range of processes relating to own work role and responsibilities
- communication procedures, including reporting lines within kennel and wider racing industry
- common greyhound behaviour, social traits and vices
- purpose of using different items of handling gear and appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures

## REQUIRED SKILLS AND KNOWLEDGE

- relevant rules of racing
- relevant road safety rules
- reporting requirements in relation to handling greyhounds safely
- senses, communication traits and behaviour patterns of greyhounds.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when identifying and handling greyhounds
- implementation of procedures and timely techniques for the safe, effective and efficient catching, leading and controlling of greyhounds
- working with others to undertake and complete greyhound handling procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of greyhounds of different ages, sexes and temperaments, and at different stages of preparation in racing kennel and track environments.

#### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will

## EVIDENCE GUIDE

---

be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds that are currently racing
- materials and equipment relevant to assessing candidate's ability to identify and handle greyhounds
- safe handling areas, such as commercial kennels and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRCMN201A Follow OHS procedures and observe environmental work practices.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

## RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to handle greyhounds. Workplaces include greyhound kennels and racecourses, training tracks and public areas.

- Features** of a greyhound include:
- colour
  - ear brands
  - markings
  - points of the greyhound
  - sex.
- Industry standards** may include:
- colour variations and specific markings as outlined in the controlling body's registration and marking-up guidelines.
- Greyhound ***behaviour and level of education*** involves:
- assessment of behaviour made prior to handling
  - communication methods, including:
    - body signals
    - verbal
  - identifying normal and abnormal behaviour traits, including social behaviour and vices
  - identifying characteristics of relaxed, alert and distressed greyhounds
  - relating behaviour to level of education and experience of greyhound
  - understanding senses of a greyhound, including:
    - eyesight
    - hearing
    - smell
    - taste
    - touch.
- Risks** associated with catching greyhounds may include:
- bites
  - gear breakage
  - greyhound injury
  - loose greyhound
  - personal injury:
    - contracting diseases from greyhound

## RANGE STATEMENT

---

Controlling **risks** associated with catching and controlling greyhounds includes:

- being knocked over by a loose or excited greyhound.
- adhering to responsibilities under OHS legislation and workplace practices
- adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
- adhering to rules of training tracks and public venues
- complying with relevant road safety rules
- considering variables that influence behaviour of greyhounds, such as:
  - fences and equipment
  - lure
  - other persons or animals
  - vehicles
  - wind or noise
- contributing to development of risk control measures
- following safe operating procedures
- holding greyhounds for veterinary and other treatments
- identifying and reporting unsafe work practices
- identifying emergency situations
- practising walking greyhounds in confined environments
- reporting defective gear, including:
  - broken or exposed wire in muzzles
  - broken stitching
  - tears or cracks in leather
  - broken or loose rivets
- understanding individual greyhound behaviour
- using gear or equipment approved by the regulatory racing body
- wearing approved personal protective equipment.

**Gear** for safely handling greyhounds will include:

- collar and slips
- leads
- muzzles.

## RANGE STATEMENT

---

**Public areas** may include:

- bridges and roads
- kennels
- paddocks or parks
- racecourses
- training tracks.

**Safe leading, lifting and holding techniques** to control greyhounds may include:

- being aware of surroundings and possible causes of distraction
- encouraging nervous greyhounds using voice, body language and patting
- ensuring collar fits and is tight enough
- maintaining appropriate lead tension and length on lead
- never leading more than the approved number of greyhounds at the same time
- preventing greyhound from getting too far ahead of handler by checking animal to ensure it stays by the handler's side
- using own voice and body language to assert control or reassure the greyhound
- using leads of suitable length
- using safe lifting skills to avoid greyhound and personal injury
- using well-maintained and safe gear.

**Functional Area**                      Racing performance services

## RGRPSG202A Transport greyhounds

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to safely prepare greyhounds for road transportation; load and unload greyhounds; monitor greyhound health, welfare and behaviour during transportation; and conduct post-transport procedures.

To undertake this unit the candidate will be able to apply safe greyhound handling skills and follow workplace OHS standards.

This unit of competency operates in work environments of racing kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports greyhound training personnel and others in the greyhound racing industry who may be required to transport greyhounds as part of their job function.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

### Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

### Prerequisite units

RGRPSG201A      Handle greyhounds

## Employability Skills Information

**Employability skills**      This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.      Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

| ELEMENT                                   | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                     |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with greyhounds
- checking and cleaning vehicles, trailers or trucks
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to greyhound handling and transportation activities
- completing duties in accordance with safe operating procedures and nominated time frame
- evaluating risks associated with transporting greyhounds
- following instructions
- identifying greyhound behaviour problems
- identifying symptoms and signs of greyhound illness, injury or distress
- identifying and correctly using different items of handling gear
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting problems promptly.

#### Required knowledge

- basic industry terminology related to handling greyhounds
- communication procedures, including reporting lines within kennel and wider racing industry
- common greyhound behaviour, social traits and vices
- illness or injury to greyhounds
- methods of checking greyhound physical condition during and after transport
- purpose of using different items of handling gear and appropriate personal protective equipment

## REQUIRED SKILLS AND KNOWLEDGE

- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- relevant road safety rules.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when transporting greyhounds
- implementation of procedures and timely techniques for the safe, effective and efficient transport of greyhounds
- working with others to undertake and complete greyhound transportation procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of greyhounds of different ages, sexes and temperaments, and at different stages of preparation in racing kennel and track environments.

#### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will

## EVIDENCE GUIDE

---

be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds
- materials and equipment, including transport vehicles relevant to assessing candidate's ability to transport greyhounds
- safe handling areas, such as commercial kennels and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different

## RANGE STATEMENT

---

work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to transport greyhounds. Workplaces include greyhound kennels and racecourses, training tracks and public areas.

***Basic vehicle and trailer safety check*** may include:

- assessment of risks and hazards to people and greyhounds
- trailer:
  - brake lights and indicators
  - floor
  - hitch and chain
  - interior lighting
  - ventilation
- vehicle:
  - brakes
  - jack and wheel brace
  - lights and indicators
  - tow bar and ball
  - tyres.

***Equipment for transporting greyhounds*** may include:

- appropriate bedding
- collar and lead
- first aid kit
- food and water
- muzzle
- pooper scooper
- rug.

***Checking and preparing greyhounds for transport*** may include:

- establishing special requirements for a particular greyhound
- greyhound is assessed for signs and symptoms of illness or injury.

***Transport*** may include:

- cars
- station wagons
- trailers
- vans or trucks.

***Indicators of illness or injury*** may include:

- dehydration
- diarrhoea
- elevated temperature (overheating)
- excessive panting

## RANGE STATEMENT

***Caring for greyhounds*** may include:

- head, leg or body wounds
- listlessness
- swelling in limbs.
- adhering to responsibilities under OHS legislation and workplace practices
- adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
- considering variables that influence behaviour of greyhounds, such as:
  - fences and equipment
  - other persons or animals
  - vehicles
  - wind or noise
- cooling down greyhounds according to weather conditions
- feeding and watering as directed
- identifying and reporting unsafe work practices
- identifying emergency situations, including:
  - gear breakage
  - greyhound getting loose
- providing appropriate rest stops during transportation
- rugging as appropriate
- treating illness or injury as directed
- understanding individual greyhound behaviour.

***Checking and cleaning vehicle and trailer*** may include:

- removing faeces to correct area
- removing, cleaning and storing gear and equipment
- cleaning matting or removing if wet
- locking vehicle and trailer.

## RGRPSG203A Perform kennel duties

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to clean and maintain the kennel environment, identify and report workplace hazards, provide feed and water to greyhounds, groom greyhounds and monitor basic greyhound health and welfare.

To undertake this unit the candidate will be able to apply safe greyhound handling skills and follow workplace OHS standards. It is recommended that RGRPSG201A Handle greyhounds be delivered in conjunction with or before this unit of competency.

This unit of competency operates in work environments of racing kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports kennel hands and others in the greyhound racing industry who may be required to undertake a range of kennel duties related to the general care and maintenance of racing greyhounds.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

### Licensing/Regulatory Information

particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to perform kennel duties. Workplaces include greyhound kennels and racecourses, training tracks and public areas.

***Racing kennel operations*** may include:

- cleaning drains
- cleaning waterers, dishes and bowls
- cleaning grooming equipment
- grooming and washing greyhounds
- following instructions regarding the order of operations
- hosing, sweeping and cleaning kennels, runs and environments
- identifying and adapting to changes to routine when greyhounds are racing or trialling
- moving greyhounds from kennels to runs
- operating walking machines
- preparing and providing feed and water
- replacing bedding
- removing faeces and soiled or wet bedding.

***Kennel environment*** may include:

- kennels
- runs
- walking, exercise and training areas
- walking machines
- yards.

***Hazards in the workplace*** may include:

- chemicals
- disease transfer between greyhounds and people

## RANGE STATEMENT

***Feed and water preparation*** will include:

- heavy loads, for example bags of feed
- greyhounds
- machinery and equipment
- other people
- unsafe work practices.
- applying rules of cleanliness and hygiene
- feed additives, including:
  - appetite stimulants
  - bicarbonate of soda
  - Epsom salts
  - electrolytes
  - minerals
  - rehydration agents
  - vitamins
- identifying feed ingredients and preparing feeds according to trainer instructions
- providing correct mix and quantity of feed to individual greyhounds according to trainer instructions
- identifying, removing and reporting contaminated feed
- understanding consequences of incorrect use of additives, such as:
  - accidental introduction of banned substances through use of additives and combinations of additives
  - causing toxic reactions due to imbalance of insoluble vitamins, trace elements and other items
  - causing illness due to not feeding or administering medication according to greyhound specific metabolic features
  - some additives alkalising the blood level in greyhounds (total carbon dioxide [TCO2] level) and alkalising agents include:
    - bicarbonates
    - lactates and citrates
- wasting money by overfeeding soluble vitamins or other feed items that cannot be absorbed or stored.
- mould or water damage

***Feed*** may be contaminated due

## RANGE STATEMENT

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with greyhounds
- catching, leading, and controlling greyhounds
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to attending greyhounds during exercise routines
- completing duties in accordance with safe operating procedures and nominated time frame
- evaluating risks associated with working around greyhounds
- following directions
- identifying and correctly using different items of working and grooming gear
- identifying common greyhound illnesses or injuries
- identifying greyhound behaviour, social traits and vices
- identifying individual greyhounds
- preparing greyhounds for exercise
- performing post-exercise procedures
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- verbal and written communication skills to complete workplace documentation and related reports.

#### Required knowledge

- basic industry terminology related to greyhound exercise procedures
- characteristics of healthy greyhounds
- communication procedures within kennel and wider racing industry
- common greyhound behaviour, social traits and vices
- common greyhound illnesses or injuries
- council regulations regarding walking and slipping greyhounds in public areas
- effective working relationships, including teamwork

# Evidence Guide

## EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when performing kennel duties related to attending greyhounds during exercise routines
- implementation of procedures and timely techniques for the safe, effective and efficient performance of greyhound exercise duties
- working with others to undertake and complete kennel procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of greyhounds of different ages, sexes and temperaments, and at different stages of preparation in racing kennel and track environments.

### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds
- materials and equipment relevant to assessing candidate's ability to attend greyhounds during exercise routines
- safe handling areas, such as commercial kennels, and training and racetracks
- work instructions and related documentation.

## EVIDENCE GUIDE

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRPSG203A Perform kennel duties.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to attend greyhounds during exercise routines. Workplaces include greyhound kennels and racecourses, training tracks and public areas.

## RANGE STATEMENT

---

**Verifying** greyhounds to be exercised may include:

- asking questions
- checking worksheets against kennel numbers
- identifying individual greyhound features.

**Preparations for exercise** may include:

- applying bandages as required
- assisting with transportation requirements
- checking feed and water intake
- checking greyhound for symptoms of illness or injury, including:
  - cuts or abrasions
  - heat in limbs
  - lameness
  - strains or sprains
- checking gear for signs of wear or damage, then fitting gear, including:
  - collar
  - lead
  - muzzle
- grooming to instructions.

**Potential exercise hazards** may include:

- considering variables that influence behaviour of greyhounds, such as:
  - fences and equipment
  - lure
  - other persons or animals
  - vehicles
  - wind or noise
- considering weather conditions, including:
  - excessive heat
  - rain
- crossing or walking along roads
- materials or equipment that may lead to injured greyhounds or people, including:
  - lure
  - walking machines
- insecure boundary fencing
- number of greyhounds to be walked or exercised by one handler
- potential for greyhounds to get out of collar
- walking greyhounds in areas used by the public to exercise pet dogs.

## RANGE STATEMENT

---

- Rules and protocols** may include:
- council regulations regarding walking and slipping greyhounds
  - local track rules and regulations
  - relevant road rules
  - rules of racing, including:
    - animal welfare principles
    - drugs and alcohol.
- Exercise activity** may include:
- free exercise for greyhounds in open spaces or in exercise yards, singly or in groups
  - hand slipping
  - road or public area walking
  - field trials, including:
    - straight tracks
    - circular tracks
  - swimming
  - walking machines.
- Kennel procedures** for post-exercise care may include:
- cooling greyhounds down
  - checking for injuries
  - hosing and bathing
  - grooming
  - reporting irregularities or injuries
  - walking or transporting from track if required.
- Irregularities with greyhound or gear** may include:
- gear breakage or signs of wear or damage
  - symptoms of illness or injury
  - slow post-exercise recovery rate.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with greyhounds
- catching, leading, controlling and parading greyhounds
- communicating with stewards, racing officials, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to attending greyhounds at race meetings
- completing duties in accordance with safe operating procedures and nominated time frame
- completing kennelling and pre-race procedures
- evaluating risks associated with working around greyhounds
- following directions during kennelling and pre-race procedures
- identifying behaviour and temperaments of greyhounds
- identifying common greyhound illnesses or injuries
- identifying and correctly using different items of working and grooming gear
- identifying individual greyhounds
- preparing greyhounds for race meetings
- performing post-race procedures
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- safely boxing a greyhound for a racing event
- using reporting protocols
- written communication skills to complete workplace documentation and related reports.

#### Required knowledge

## REQUIRED SKILLS AND KNOWLEDGE

- basic industry terminology related to greyhound racing procedures
- characteristics of healthy greyhounds
- communication procedures during race day operations and within wider racing industry
- common greyhound illnesses or injuries
- common greyhound behaviour, social traits and vices
- effective working relationships, including teamwork
- grooming methods and equipment for race meetings
- methods of checking greyhound physical condition during and after transport and post-race
- pre and post-race care and welfare requirements of racing greyhounds
- purpose of using appropriate personal protective equipment
- racing industry safety requirements, including safe operating procedures
- race meeting procedures and protocols
- relevant rules of racing
- requirements and procedures for the conduct of an inquiry.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when performing kennel duties related to attending greyhounds at race meetings
- implementation of procedures and timely techniques for the safe, effective and efficient performance of greyhound attendant duties at race meetings
- working with others to undertake and complete race meeting procedures that meet required outcomes.

## EVIDENCE GUIDE

---

### Context of and specific resources for assessment

Evidence should be collected over a period of time using a range of greyhounds of different ages, sexes and temperaments, and at different stages of preparation in racing kennel and track environments.

Competency must be assessed in a racing workplace that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds
- materials and equipment relevant to assessing candidate's ability to attend greyhounds during race meetings
- safe handling areas, such as commercial kennels, racetracks and associated facilities
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRPSG202A Transport greyhounds.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women,

## EVIDENCE GUIDE

---

people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to attend greyhounds at race meetings. Workplaces include greyhound kennels and racecourses, training tracks and public areas.

Greyhounds are ***prepared*** prior to race meeting by:

- checking feed and water intake
- checking faeces quality and quantity
- checking greyhound for illnesses or injuries
- checking racing gear for wear or damage
- grooming to race meeting presentation standards
- monitoring weather conditions and ensuring greyhound temperature is controlled
- providing post-transport care of greyhound, including:
  - light walk to stretch muscles
  - opportunity to empty out.

***Personal presentation*** will include:

- dress
- grooming
- jewellery
- personal behaviour.

***Racing officials*** may include:

- catching supervisor
- kennel supervisor
- parade official
- race day veterinarian
- starter
- steward
- weigh in clerk.

## RANGE STATEMENT

---

**Documentation** may include:

- attendant or trainer registration card
- greyhound registration certificate
- greyhound weight card.

**Kennelling duties** will include:

- keeping greyhound calm and controlled through kennelling procedures, including:
  - following officials' instructions
  - greyhound identification
  - greyhound weigh-in
  - veterinary inspection
  - placing in assigned kennel.

**Pre-race processes** may include:

- identification check
- fitting allocated racing rug
- opportunity for greyhound to empty out
- completing stir-up.

**Post-race procedures** may include:

- catching greyhound after race
- checking for signs of injury or soreness
- collecting greyhound from catcher
- completing random swab draw procedure
- parading before the public if placegetter
- hosing and towelling
- presenting for inquiry if required
- re-kennelling
- walking lightly to allow recovery of breath.

**Returned to home kennels** procedures may include:

- checking again for illness, injury or distress
- feeding and watering according to kennel routine
- providing post-race therapy under trainer's instructions and supervision
- reporting irregularities to trainer
- settling greyhound into home kennel
- storing gear.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with greyhounds, including ensuring the safety of others
- catching, leading and controlling greyhounds
- communicating with stewards, racing officials, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to greyhound catcher duties
- completing duties in accordance with safe operating procedures and nominated time frame
- evaluating risks associated with catching greyhounds
- following directions
- identifying and correctly fitting gear
- identifying individual greyhounds
- performing pre and post-race catching pen procedures
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- using reporting protocols.

#### Required knowledge

- basic industry terminology related to greyhound racing procedures
- characteristics of healthy greyhounds
- communication procedures during race day operations and within wider racing industry
- effective working relationships, including teamwork
- post-race care and welfare requirements of racing greyhounds
- purpose of using appropriate personal protective equipment
- racing industry safety requirements, including safe operating procedures
- race day and trial catching pen procedures
- relevant rules of racing.

# Evidence Guide

## EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when performing catching duties at race meetings and trials
- implementation of procedures and timely techniques for the safe, effective and efficient performance of greyhound catcher duties
- working with others to undertake and complete catching procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of greyhounds of different ages, sexes and temperaments, and at different stages of preparation in racing kennel and track environments.

### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds
- materials and equipment relevant to assessing candidate's ability to perform the duties of a greyhound catcher
- safe handling and catching pen areas, such as training and racetracks
- work instructions and related documentation.

### **Method of assessment**

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit

## EVIDENCE GUIDE

are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to perform the duties of a greyhound catcher. Workplaces include greyhound kennels and racecourses, training tracks and public areas.

#### ***Rules of racing, protocols and procedures*** may include:

- Australian and local rules of racing relating to race meeting procedures
- adhering to responsibilities under OHS legislation and workplace practices
- adhering to state, territory or federal legislation related to animal welfare
- adhering to personal presentation standards

## RANGE STATEMENT

***Pre-race catching preparations*** may include:

- following instructions from racing officials, including:
  - stewards
  - catching pen supervisors.
- arriving at catching pen prior to start of each race
- collecting collar and lead or approved catching slip lead
- knowing runner's number and race rug colours
- observing race from catchers' designated area
- presenting catcher's pass or identification to official if required.

***Potential hazards in catching area*** may include:

- getting hit by greyhounds running into pen
- greyhounds attacking other greyhounds
- greyhounds not entering catching area and running back down track
- making physical contact with other greyhound catchers.

***Issues in race or trial run*** may include:

- greyhound falls or injuries
- greyhounds fighting
- lure malfunction
- runners coming in late to catching pen.

***Collected and restrained*** may include:

- avoiding contact with other catchers or greyhounds
- capturing greyhound as quickly as possible
- controlling greyhound until trainer or handler arrives
- entering catching pen only when supervisor or steward gives permission
- securing greyhound with collar and lead as quickly as possible.

***Incidents or observations*** may include:

- attacks from other dogs
- greyhound falling in catching pen
- greyhound being hit by other dogs while pulling up
- muzzle caught in teeth
- obvious limping
- torn or loose race rug.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with greyhounds
- assessing an individual's capability to perform specific tasks
- catching, controlling and handling greyhounds
- coaching and mentoring learners or new staff
- communicating with employer, co-workers and others using assertive communication techniques to gather and relay information related to greyhound handling activities
- completing duties in accordance with safe operating procedures and nominated time frame
- delegating tasks
- demonstrating best practice techniques for identifying, catching, controlling and handling greyhounds
- evaluating risks associated with catching and handling greyhounds
- identifying and explaining features of greyhounds using industry standards
- identifying and explaining behaviour of greyhounds
- identifying and correctly using different items of handling gear
- incorporating safe operating procedures into all instructions
- giving, receiving and interpreting instructions
- providing positive feedback to learners on skills development
- providing opportunities for staff to practise skills development
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities and adapting practice and skills development opportunities to suit these varying needs
- supporting others in handling greyhounds using industry best practice techniques.

#### Required knowledge

- communication procedures within kennel and wider racing industry
- common greyhound behaviour, social traits and vices
- effective working relationships, including teamwork
- handling techniques for greyhounds
- industry terminology related to identifying, catching, controlling and handling greyhounds
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures

## REQUIRED SKILLS AND KNOWLEDGE

- range and purpose of gear
- relevant council regulations and by-laws related to keeping and handling greyhounds
- relevant rules of racing
- relevant road safety rules
- safe work practices when giving instructions
- staff management.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that apply to supervising duties related to the handling of greyhounds
- implementation of procedures and timely techniques for the safe, effective and efficient performance of overseeing duties
- working with others to undertake and complete overseeing procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of greyhounds of different ages, sexes and temperaments, and at different stages of preparation in racing kennel and track environments.

#### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards

## EVIDENCE GUIDE

---

requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds
- materials and equipment relevant to assessing candidate's ability to perform overseeing duties
- safe handling areas, such as commercial kennels, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

## RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to supervise the handling of greyhounds. Workplaces include kennels and racecourses, training tracks and public areas.

***Supervised*** handling of greyhounds may include:

- explaining behaviour traits of individual greyhounds
- explaining identification features of individual greyhounds
- explaining rules of racing and local government rules related to the operation of racing kennels and handling of greyhounds in public places
- demonstrating catching, leading and controlling techniques
- outlining kennel routines and safe work practices
- providing assistance to others in the identification or handling of greyhounds, such as:
  - kennel staff
  - swab supervisors or attendants
  - stewards
  - trainers
  - veterinarians or therapists.

Factors to consider when tasks are ***delegated*** may include:

- adhering to responsibilities under OHS legislation and workplace practices
- adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
- adhering to rules of training tracks and public venues
- age of participant, as some race meeting tasks have minimum age requirements
- approved gear for greyhounds
- assessing competence of individual workers
- considering variables that influence behaviour of greyhounds, such as:

## RANGE STATEMENT

---

- fences and equipment
- lure
- other persons or animals
- vehicles
- wind or noise
- experience attending race meetings
- experience handling young or inexperienced greyhounds
- identifying potential hazards and applying risk control measures
- individual greyhound behaviour
- knowledge of approved gear for greyhounds
- relevant road safety rules.

**Gear** may include:

- collars
- leads
- muzzles.

**Practice and skill development** opportunities may include:

- allowing learner the opportunity to make mistakes during skill development where the consequences will be minimal
- asking learner to explain the steps involved in a particular task prior to performing it
- confirming understanding of task by questioning learner
- graduating difficulty of tasks
- mentoring
- monitoring performance to provide immediate feedback
- providing opportunities to perform skills in a controlled environment
- providing positive feedback
- staff initially working with more reliable greyhounds
- training courses.

# RGRPSG302A Assess health and provide first aid for greyhounds

## Modification History

Not Applicable

## Unit Descriptor

### Unit descriptor

This unit of competency specifies the outcomes required to assess the health and condition of greyhounds, respond to illness or injury, including emergency situations, and monitor greyhound health and welfare before and after exercise or races, taking into account considerations related to prohibited substances.

To undertake this unit the candidate will be able to apply safe greyhound handling skills and follow workplace OHS standards. It is recommended that RGRPSG201A Handle greyhounds be delivered in conjunction with or before this unit of competency.

This unit of competency operates in work environments of racing kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

## Application of the Unit

### Application of the unit

This unit of competency supports supervisors, trainers and others in the greyhound racing industry responsible for assessing health of, and providing first aid for, racing greyhounds.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Assess health and condition of greyhounds.

1. Signs of a healthy and fit greyhound are identified.
2. ***Signs of ill health*** , injury or distress are recognised.
3. Procedures for ***specialist*** treatment ***referral*** are followed.

Respond to injuries, illnesses or distress in greyhounds.

4. ***First aid policies and procedures*** with respect to obligations to greyhounds, owners, regulations and duty of care are understood and followed.
5. Rules relating to ***prohibited substances*** and alternative treatments are complied with.

| ELEMENT                                                                  | PERFORMANCE CRITERIA                                                                                                       |
|--------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with greyhounds
- applying basic first aid to greyhounds
- applying quarantine control measures for isolation of sick greyhounds and prevention of transference of disease by dogs, other animals and humans
- assessing and responding to injuries in greyhounds
- assessing vital signs of greyhounds
- calming and restraining greyhounds
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to assessing health and first aid requirements for greyhounds
- evaluating risks associated with catching, handling and controlling sick or injured greyhounds
- following instructions
- identifying behaviour traits of individual greyhounds
- identifying and correctly using different treatments following procedures
- identifying common illnesses and injuries in greyhounds
- implementing emergency care procedures
- incorporating safe operating procedures into all instructions
- providing assistance to others in the workplace
- reporting greyhound irregularities to kennel nominated person
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- supporting others in handling and providing treatment to greyhounds in the

## REQUIRED SKILLS AND KNOWLEDGE

appropriate manner

- written communication skills to complete workplace documentation and reports.

### Required knowledge

- communication procedures within kennel and wider racing industry
- common behaviour traits of healthy, sick, injured or distressed greyhounds
- common illnesses and injuries in greyhounds
- disease control and reporting requirements
- effective working relationships, including teamwork
- greyhound first aid and emergency care
- industry terminology related to handling and treating greyhounds
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing and prohibited substances
- restraining techniques for greyhounds
- signs of lameness in greyhounds
- signs of shock in greyhounds
- types of treatments.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that apply to assessing greyhound health and providing first aid
- implementation of procedures and timely techniques for the safe, effective and efficient performance of greyhound health and first aid assessment and application
- working with others to undertake and complete

---

## EVIDENCE GUIDE

---

procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of greyhounds of different ages, sexes and temperaments, and at different stages of preparation in racing kennel and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds
- materials and equipment relevant to assessing candidate's ability to assess greyhound health and fitness and apply required first aid procedures
- safe handling areas, such as commercial kennels, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

## EVIDENCE GUIDE

---

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to assess health and provide first aid for greyhounds. Workplaces include greyhound kennels and racecourses, training tracks and public areas.

#### ***Signs of a healthy and fit greyhound*** may include:

- alert and interested in surroundings
- clearly defined muscle structure with veins clearly showing
- coat condition light and flat
- eating up and drinking appropriate quantity of water daily
- greyhound standing with weight carried on all four limbs
- weight within optimal range relevant to natural body structure and fitness status.

#### ***Signs of ill health, injury or distress*** may include:

- excess heat in limbs or isolated areas of body
- discolouration of urine
- temperature, pulse or respiration outside normal parameters
- inappetence
- lameness
- listlessness
- slow skin rebound
- swelling
- tenderness in body parts.

## RANGE STATEMENT

---

- Specialist*** may include:
- chiropractor
  - massage therapist
  - nutritionist
  - veterinary surgeon.
- Reason for referral*** may include:
- greyhound may:
    - be insured
    - have to be treated with race day or non-race day prohibited substances
    - have to be withdrawn from competition
    - require prescription medication
    - require stitching or specialist injury management or treatment
  - illness may be:
    - contagious condition
    - notifiable disease
    - passed on to humans
  - illness or injury may be:
    - life threatening or have consequences to ongoing career of greyhound
    - result of neglect or non-compliance with duty of care.
- First aid policies and procedures*** may include:
- administration of treatments
  - communication processes when greyhounds are treated
  - disease prevention and control
  - emergency care
  - emergency contact details, including veterinarian
  - permissible treatments
  - procedure for recording treatments
  - procedure for reporting and recording vital signs
  - regular health checks
  - replenishing supplies of first aid kits, including portable first aid kit
  - system of referral for injury treatment
  - staff access to first aid treatments and materials.
- Prohibited substances*** may include:
- substances listed below as well as other items defined by racing regulatory authority from time to time, including:

## RANGE STATEMENT

---

- acidifying agents
  - alkalising agents
  - analgesics
  - antihistamines
  - anti-inflammatory agents
  - buffering agents
  - diuretics
  - general and local anaesthetics
  - hormones
  - muscle relaxants
  - narcotics
  - respiratory stimulants
  - sedatives
  - tranquillisers
  - vitamins administered by injection.
- Basic first aid treatment*** may include:
- applying bandages for:
    - control of bleeding and swelling
    - drawing out of foreign bodies or pus
    - splinting
    - wound protection
  - cleaning wounds
  - managing heat or cold distress
  - nursing sick, in pain or anxious greyhounds
  - observing behaviour signs and symptoms of illness and injury
  - preventing where possible further injury or spread of disease
  - providing clean, warm or cool shelter out of inclement weather
  - quarantining sick greyhounds
  - removing, where possible cause of illness or injury
  - taking and monitoring vital signs
  - treating swelling and inflammation
  - using safe shifting or lifting techniques.
- First aid equipment*** may include:
- antiseptic cream, lotions or sprays
  - bandages and wound dressings
  - infection control items
  - inflammation and swelling controlling items,

# RGRPSG303A Determine nutritional requirements for racing greyhounds

## Modification History

Not Applicable

## Unit Descriptor

**Unit descriptor** This unit of competency specifies the outcomes required to prepare rations for racing greyhounds and assess the range of feed, additives and supplements in relation to quality industry regulations.

This unit also requires the ability to apply nutritional principles, formulate basic rations, assess and select feed, monitor individual greyhound feeding programs and comply with the rules of racing.

This unit of competency operates in work environments of racing kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

## Application of the Unit

**Application of the unit** This unit of competency supports supervisors, trainers and others in the greyhound racing industry responsible for determining nutritional requirements for racing greyhounds.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

### Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

|                                                                          |                                                                                                                                                                                                                                                                                                                         |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe work practices when determining nutritional requirements of greyhounds
- applying nutritional principles
- assessing quality feed
- communicating with employer, supervisor, co-workers, feed merchants and others using assertive communication techniques to gather and relay information related to nutritional requirements of racing greyhounds
- completing duties in accordance with safe operating procedures and nominated time frame
- complying with animal welfare policies in the care, management and feeding of greyhounds
- following instructions
- identifying and correctly using different feed components and feed supplements
- identifying behaviour traits and eating patterns of individual greyhounds
- identifying changes to greyhound behaviour
- identifying individual greyhounds
- identifying quality, type and value of feed
- identifying spoiled or contaminated feed
- monitoring and maintaining feed records
- preparing feed rations
- reading and interpreting workplace documentation, including relevant rules of racing
- recognising changes in greyhounds' condition
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting problems promptly
- supporting others in handling and providing rations to greyhounds in the

## REQUIRED SKILLS AND KNOWLEDGE

appropriate manner

- weighing feed items and greyhounds
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- greyhound digestive system
- communication procedures within kennel and wider racing industry
- common greyhound behaviour, social traits and vices
- economic value of various feeds
- feed and feed supplements
- industry terminology related to handling, caring and feeding greyhounds
- interaction between feed and supplements that may result in contravention of industry regulations
- methods used to measure feed value, including weighing feeds
- methods used to measure greyhound weight and condition
- monitoring systems
- nutritional principles in respect to greyhounds' age, condition and needs while in training and racing
- nutritional value of various feeds
- quality of feed
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- sources and importance of energy, protein, fibre, minerals, trace elements and vitamins in a feed ration.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

## EVIDENCE GUIDE

---

- knowledge of the requirements, procedures and instructions that apply to determine nutritional requirements for racing greyhounds
- implementation of procedures and timely techniques for the safe, effective and efficient application and monitoring of greyhound nutritional requirements
- working with others to undertake and complete feeding regime procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of greyhounds of different ages, sexes and temperaments, and at different stages of preparation in racing kennel and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds
- materials and equipment relevant to assessing candidate's ability to determine and monitor nutritional requirements of racing greyhounds
- safe handling areas, such as commercial kennels, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

## EVIDENCE GUIDE

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRPSG401A Relate anatomical and physiological features to the care and treatment of greyhounds
- RGRPSG402A Manage greyhound health and welfare
- RGRPSG403A Plan and implement education and training of greyhounds for racing.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to determine nutritional requirements for racing greyhounds. Workplaces include greyhound kennels and racecourses, training tracks and public areas.

***Nutritional principles*** may include:

- digestive system features:
  - mouth and teeth
  - stomach
  - small intestine
  - large intestine
- digestive problems

## RANGE STATEMENT

## RANGE STATEMENT

are selected and checked to avoid: that contravene the rules of racing.

***Greyhound feeding behaviour***  
may be monitored and recorded to include:

- age, gender, weight and body condition of greyhound
- feeding regime plan, including:
  - individual greyhound's changes in feeding due to training, racing or distractions
  - individual greyhound taste and eating pattern
  - ingredients of the ration and alternatives
  - quantity of each ingredient
  - supplements to be included
  - when variation to ration may be offered
- recording and monitoring feeding patterns and body condition to identify:
  - circumstances that may require adjustments to daily rations
  - dietary disturbances that require appropriate treatment
  - injuries that may be aggravated or caused by feeding regime
- training program and racing schedule.

## Unit Sector(s)

**Co-requisite units**

## Functional Area

**Functional Area**                      Racing performance services

# RGRPSG304A Participate in greyhound inquiries and appeals

## Modification History

Not Applicable

## Unit Descriptor

**Unit descriptor** This unit of competency specifies the outcomes required to identify relevant rules of racing, participate in inquiries and appeals, understand procedures, recognise rights and responsibilities, seek advice and provide clear and accurate information.

It is recommended that RGRCMN001A Comply with the rules of racing and related protocols be delivered in conjunction with or before this unit of competency.

This unit of competency operates in work environments of racing kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

## Application of the Unit

**Application of the unit** This unit of competency supports greyhound racing industry participants to prepare for and participate in inquiries and appeals.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

**ELEMENT****PERFORMANCE CRITERIA**

and observed.

11. Appellant's ***personal presentation*** and ***methods of address*** to participants in appeal are appropriate.
12. Written statements and documents are relevant and legible.
13. Verbal evidence and statements are succinct and relevant to the appeal.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying relevant industry rules and regulations relating to rights, responsibilities and dress codes
- communicating with stewards, officials, co-workers and others using assertive communication techniques to gather, interpret and relay information related to inquiries and appeals
- completing duties in accordance with safe operating procedures and nominated time frame
- gathering evidence relevant to racing or other incidents covered by the rules of racing
- identifying rights, responsibilities and procedures of inquiries and appeals
- identifying inquiry and appeal participants
- interpreting and relating personal conduct to rules of racing
- lodging an appeal
- presenting information
- reading and interpreting workplace documentation, including rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- seeking advice
- understanding nature of inquiry
- verifying nature of the charge and plea options
- written communication skills to complete workplace documentation and reports.

#### Required knowledge

- communication procedures within kennel and wider racing industry

## REQUIRED SKILLS AND KNOWLEDGE

- personal grooming and presentation requirements
- processes and procedures for inquiries and appeals
- protocols and procedures for communicating with stewards and appeal panel members
- range of documentation and records used in inquiries and appeals
- relevant rules of racing.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when participating in inquiries and appeals
- demonstrated appropriate use of language, terms of address and personal presentation
- implementation of procedures and timely techniques for the safe, effective and efficient participation in inquiries and appeals
- working with others to undertake and complete tasks related to managing participation in inquiries and appeals that meet required outcomes.

Evidence should be collected over a period of time and be focused on participating in greyhound training and racing. Assessment in a simulated situation may occur but must be related to racing industry conditions and context.

#### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace or simulated environment that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety

## EVIDENCE GUIDE

---

requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- materials and equipment relevant to assessing candidate's ability to effectively participate in inquiries and appeals
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRCMN001A Comply with the rules of racing and related protocols.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to participate in inquiries and appeals. Workplaces include greyhound kennels and racecourses, training tracks and public areas.

***Nature of inquiry*** may include:

- any matter concerning greyhound racing, for example:
  - greyhound fails to pursue lure with due commitment
- any matter or conduct that is or may be detrimental to best interests of greyhound racing
- any matter that involves or may involve a breach of the rules of racing
- conduct of any registered person in connection with a greyhound or any official.

***Rules of racing*** will include:

- animal welfare
- Australian and local greyhound racing rules
- constitutional
- interpretation
- licensing
- offences
- penalties
- registration
- race meetings
- stewards
- syndication.

***Participants*** may include:

- greyhound attendants
- kennelhands
- officials
- stewards
- trainers
- other persons nominated by stewards.

***Rights, responsibilities and procedures*** may include:

- appeal against stewards' decision
- appeal against board members' rights and obligations under the rules of racing when conducting an appeal

## RANGE STATEMENT

---

- gathering relevant evidence
- legal parameters within the rules of racing
- right to natural justice or procedural fairness during the conduct of inquiries and appeals
- responsibilities of handler, trainer and owner
- stewards' rights and obligations under the rules of racing when conducting an inquiry
- time frames:
  - hearing by stewards between races at the time of the race meeting
  - notification of inquiry at time of incident with hearing conducted at a later date
  - number of days allowed to lodge a notice of appeal in writing
  - number of days allowed to begin appeal procedures.

***Clear and accurate information*** may include:

- clarifying what the inquiry is about
- presenting clear and accurate information in a logical order
- relating evidence with reference to relevant rules and regulations
- speaking clearly
- using non-discriminatory language
- using effective listening and speaking skills
- verifying what has been said or done and why it has been said or done.

***Advice prior to lodging an appeal*** may include:

- appeals process and procedures
- legal advice
- level of penalty or suspension duration
- lodgement of notice of appeal and fees
- subject matter of appeals against stewards' decision and penalty and associated rules of racing
- time frame of appeal related to statutory requirement.

***Personal presentation*** may include:

- industry dress codes
- personal grooming requirements
- personal cleanliness and condition of clothing appropriate for a formal meeting.

***Methods of address*** may include:

- addressing appeal panel members politely
- refraining from swearing, arguing or fighting

## RANGE STATEMENT

---

- refraining from interrupting
- remaining patient
- using assertive but not aggressive body language and voice
- using language that is not patronising but at a suitable level.

## Elements and Performance Criteria Pre-Content

---

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

---

Identify basic anatomy and physiology of greyhounds.

1. Key features and functions of ***skeletal system*** and ***muscular system*** are identified.
2. Key features and functions of ***respiratory system*** are identified.
3. Key features and functions of ***circulatory system*** are identified.
4. Key features and functions of ***digestive system*** are identified.
5. Key features and functions of ***reproductive system*** are identified.

Relate anatomy and body systems to performance

6. ***Common illnesses and injuries*** of skeletal and muscular system of racing greyhounds are identified.

| ELEMENT                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                          |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- adhering to responsibilities under OHS legislation and workplace practices
- adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
- administering or supervising administration of non-prescription and prescribed medication
- applying safe handling and work practices when caring for and treating greyhounds
- assessing and responding to illness or injury in greyhounds
- caring for and treating greyhounds
- communicating with kennel staff, greyhound health specialists and others using assertive communication techniques to gather and relay information related to relating basic anatomical and physiological features of greyhounds to their care and treatment
- evaluating risks associated with catching and controlling greyhounds
- giving and receiving instructions
- identifying and correctly using different therapies or medications
- identifying features and functions of greyhound body systems
- identifying common illnesses and injuries
- reading and interpreting workplace documentation, including relevant rules of

## REQUIRED SKILLS AND KNOWLEDGE

- racing and material safety data sheets
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- using or supervising use of technology related to therapy
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- communication procedures within kennel and wider racing industry
- common greyhound behaviour, social traits and vices
- common illnesses and injuries in greyhounds
- impact of medications or therapies
- industry terminology related to caring for and treating racing greyhounds
- key features and functions of greyhound body systems
- prohibited substances
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- restraining techniques for greyhounds
- signs and symptoms of greyhound illnesses and injuries
- types of medications and therapies.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that apply when relating anatomical and physiological features to the care and treatment of greyhounds
- implementation of procedures and timely techniques for the safe, effective and efficient application of care

## EVIDENCE GUIDE

---

and treatment programs for racing greyhounds

- working with others to undertake and complete procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of greyhounds of different ages, sexes and temperaments, and at different stages of preparation in racing kennel and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds
- materials and equipment relevant to assessing candidate's ability to relate anatomical and physiological features to the care and treatment of greyhounds
- safe handling areas, such as commercial kennels, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

## EVIDENCE GUIDE

---

### Guidance information for assessment

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to relate anatomical and physiological features to the care and treatment of greyhounds. Workplaces include greyhound kennels and racecourses, training tracks and public areas.

Components of ***skeletal*** and ***muscular systems*** will include:

- bones
- joints
- ligaments
- muscles
- tendons.

Components of ***respiratory system*** will include:

- alveolus
- diaphragm
- larynx
- lungs
- nostrils
- pharynx
- trachea.

Components of ***circulatory system*** will include:

- arteries
- blood cells
- heart
- lungs

## RANGE STATEMENT

## RANGE STATEMENT

---

**Therapies** may include:

- vasodilators
- vitamins.
- acupuncture
- bandaging
- chiropractic
- counter irritation
- electromagnetic
- exercise, for example walking or swimming
- hydrotherapy
- ice and heat
- immobilisation
- laser
- magnetic
- massage
- pharmaceutical
- rest
- ultrasound.

**Directions** related to care and treatment of greyhounds may include:

- adhering to rules of racing in administration of treatments
- adhering to medication material safety data sheet directions
- administering prescribed treatments
- advice from veterinary surgeons, acupuncturists, chiropractors or message therapists.

# RGRPSG402A Manage greyhound health and welfare

## Modification History

Not Applicable

## Unit Descriptor

**Unit descriptor** This unit of competency specifies the outcomes required to monitor and maintain greyhound health and welfare; undertake health management programs; ensure provision of safe, compliant and secure housing arrangements; determine health problems; decide upon and administer treatment; monitor greyhound progress; and plan greyhound health emergency procedures.

This unit also requires the practical care and management of racing greyhounds and application of OHS standards in the workplace.

This unit of competency operates in work environments of racing kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

## Application of the Unit

**Application of the unit** This unit of competency supports supervisors, trainers and others in the greyhound racing industry responsible for managing greyhound health and welfare.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

### Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

|                                                                          |                                                                                                                                                                                                                                                                                                                         |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying OHS workplace procedures
- applying safe handling and work practices when dealing with greyhounds
- applying quarantine control measures for isolation of sick greyhounds and prevention of transference of disease by dogs, other animals and humans
- assessing vital signs of greyhounds
- assessing and responding to illnesses or injuries in greyhounds
- calming and controlling greyhounds
- communicating with kennel staff, greyhound health specialists and others using assertive communication techniques to gather and relay information related to managing health and welfare of greyhounds
- complying with animal welfare regulations in the care and management of greyhounds
- developing health and emergency care protocols and programs
- dealing with emergencies
- discussing, identifying and administering different treatments in accordance with directions
- evaluating risks associated with catching and handling greyhounds

## REQUIRED SKILLS AND KNOWLEDGE

- giving and receiving instructions
- identifying behaviour traits of individual greyhounds
- identifying illnesses and injuries in greyhounds
- planning and adhering to vaccination and parasite control program schedules
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- supporting others in handling and providing treatment to greyhounds in the appropriate manner
- written communication skills to compile and maintain greyhound health records and associated procedural documentation.

### Required knowledge

- communication procedures within kennel and wider racing industry
- common greyhound behaviour, social traits and vices
- common illnesses and injuries in greyhounds
- disease control, reporting requirements and quarantine measures
- effective working relationships, including teamwork
- emergency control measures
- controlling techniques for greyhounds
- greyhound first aid
- greyhound feet and limb maintenance programs
- greyhound health record systems
- industry terminology related to handling and treating greyhounds
- parasite control programs
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing and prohibited substances
- signs and symptoms of communicable diseases
- signs of shock in greyhounds
- signs of lameness in greyhounds
- suitable and approved greyhound housing requirements
- types of treatments
- vaccination programs.

# Evidence Guide

## EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that apply to managing greyhound health and welfare
- delegating duties related to the care and management of greyhound health according to experience and level of responsibility
- implementation of procedures and timely techniques for the safe, effective and efficient administration of greyhound health and welfare requirements
- working with others to undertake and complete procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of greyhounds of different ages, sexes and temperaments, and at different stages of preparation in racing kennel and track environments.

### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds
- materials and equipment relevant to assessing candidate's ability to manage greyhound health and welfare
- safe handling areas, such as commercial kennels, and

## EVIDENCE GUIDE

---

### Method of assessment

training and racetracks

- work instructions and related documentation.

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRCMN401A Maintain and monitor OHS procedures and environmental work practices
- RGRPSG303A Determine nutritional requirements for racing greyhounds
- RGRPSG401A Relate anatomical and physiological features to the care and treatment of greyhounds.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording

## RANGE STATEMENT

---

in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to manage greyhound health and welfare. Workplaces include kennels and racecourses, training tracks and public areas.

***Health and emergency care protocols and programs*** may include:

- advice to other organisations related to disease control or other issues as required by rules and regulations
- advice to stewards of greyhound health or injury status
- greyhound management:
  - routine health checks
  - equipment and gear cleanliness
  - handling and monitoring greyhounds
  - husbandry practices
  - hazard identification
  - maintaining first aid and treatments stores
  - monitoring seasonal status of bitches
  - notifiable diseases
  - permissible treatments
  - record keeping for personal use and rules of racing compliance
  - vaccine and parasite control programs
  - veterinary or specialist advice and assistance
  - kennel and yard cleanliness
- risk control measures:
  - controlling insects or rodents
  - disinfection and hygiene measures
  - emergency care procedures
  - faeces and waste disposal
  - fire drills
  - health programs
  - isolation or quarantine of sick or new greyhounds
  - monitoring movement of greyhounds
- staff management:
  - access to and administration of treatments
  - communication procedures

## RANGE STATEMENT

---

***Suitable and approved premises*** will require:

- emergency drills.
- access to and exit from kennels that can accommodate emergency situations
- accommodation suitable for a mix of sexes to cater for dominant and submissive behaviours
- all areas free from sharp or dangerous protrusions
- kennels of appropriate size, sited according to prevalent climatic conditions and adequately ventilated
- kennel size, construction materials and security comply with industry standards and rules of racing.

***Rules of racing and other regulations*** may include:

- Australian rules of racing and local rules of racing of the state or territory regulatory racing body, including kennel establishment:
  - building structure and maintenance
  - cleanliness and hygiene
  - husbandry practices
  - security
- local government regulations, for example:
  - buildings
  - disposal of faeces and waste
  - noise pollution
- national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare, including:
  - operation of dog training establishments
  - operation of breeding and rearing establishments
- OHS legislation and regulations
- race club and training track regulations.
- by observing changes in normal behaviour or performance
- during daily and routine health checks
- prior to and after travelling or racing
- upon first entering kennels
- when parasite presence, illness or injury is suspected.

***Health status of individual greyhounds*** is assessed:

## RANGE STATEMENT

---

- Infectious diseases*** may include:
- canine coronavirus
  - canine distemper
  - canine influenza
  - canine parvovirus
  - hepatitis
  - herpes virus
  - hydatid infection
  - kennel cough
  - leptospirosis
  - myocarditis
  - rabies.
- Vaccination programs*** will include:
- adherence to regulations relating to interstate or overseas travel
  - ensuring scheduled vaccinations are administered, including vaccines determined by the racing regulatory authority that may include:
    - distemper
    - hepatitis
    - parvovirus.
- Parasite control programs*** will include:
- scheduled regular inspections
  - identification indicators and conditions related to presence of internal or external parasites
  - management procedures for internal or external parasites, including:
    - accurate measurement of dosages
    - administering topical washes to manufacturer specifications
    - kennel cleaning and disinfection procedures to prevent transmission of external parasites from animal to animal
    - meeting and maintaining regulations related to use of pharmaceutical substances
    - using drenches or worming medications to manufacturer specifications or veterinary instructions
  - relating treatment to climatic and local conditions that may attract parasite infestation.
- Health records information*** will include:
- dates and times of:
    - application of treatments, including parasite control treatments

## RANGE STATEMENT

---

|                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

## RANGE STATEMENT

---

include:

- balms or poultice treatment
- medications that must adhere to animal welfare guidelines and the rules of racing, including:
  - inhalants
  - injectable medications
  - oral medications
  - topical medications.

## Unit Sector(s)

**Unit Sector** Greyhound racing code

## Co-requisite units

**Co-requisite units**

## Functional Area

**Functional Area** Racing performance services

## **RGRPSG403A Plan and implement education and training of greyhounds for racing**

### **Modification History**

Not Applicable

### **Unit Descriptor**

#### **Unit descriptor**

This unit of competency specifies the outcomes required to introduce and oversee greyhound husbandry and racing education practices, plan and implement training programs, and review individual greyhound performance in line with rules of racing and animal welfare principles.

This unit also requires the ability to demonstrate competence in the practical care and management of racing greyhounds and application of OHS standards in the workplace.

This unit of competency operates in work environments of racing kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### **Application of the Unit**

#### **Application of the unit**

This unit of competency supports trainers and others in the greyhound racing industry responsible for planning and implementing the education and training of greyhounds for racing.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

### **Licensing/Regulatory Information**

Refer to Unit Descriptor

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- adapting exercise and training programs according to individual greyhound responses and specific stages of preparation
- adhering to responsibilities under OHS legislation and workplace practices
- adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
- applying safe handling and work practices when dealing with greyhounds
- assessing greyhound condition
- assessing and responding to illnesses or injuries in greyhounds
- calming and controlling greyhounds
- communicating with kennel staff, greyhound breakers and health specialists and others using assertive communication techniques to gather and relay information related to educating and training greyhounds for racing
- dealing with emergencies
- evaluating and selecting greyhound breaking-in services
- giving and receiving instructions
- identifying behaviour traits of individual greyhounds
- identifying illnesses and injuries in greyhounds
- implementing greyhound training processes and procedures
- investigating options to improve performance, including consulting specialists
- measuring training times and evaluating results in relation to stages of education and fitness
- overseeing health services for greyhounds in training
- reading and interpreting workplace documentation, including relevant rules of

## REQUIRED SKILLS AND KNOWLEDGE

racing

- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- supporting others in handling and providing education and training services in the appropriate manner
- teaching greyhounds to lead
- teaching greyhounds to chase
- written communication skills to compile and maintain greyhound education and training records and associated procedural documentation.

### Required knowledge

- communication procedures within kennel and wider racing industry
- common greyhound behaviour, social traits and vices
- common illnesses and injuries in greyhounds
- effective working relationships, including teamwork
- emergency control measures
- greyhound trial and race times
- industry terminology related to educating and training greyhounds
- principles of greyhound learning theory
- principles of planning training and racing programs for greyhounds
- racing industry animal welfare requirements
- stages of training and education of greyhounds for racing
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that apply to planning and implementing

## EVIDENCE GUIDE

---

education and training programs for racing greyhounds

- demonstration of methods used to assess performance, health and fitness status of greyhounds in different stages of training
- demonstration of procedures and timely techniques for the safe, effective and efficient implementation of education and training programs for racing greyhounds
- working with others to undertake and complete procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of greyhounds of different ages, sexes and temperaments, and at different stages of preparation in racing kennel and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to greyhounds that are being educated and trained in a commercial racing kennel under the care of a licensed trainer and the required resources.

Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds currently in training
- materials and equipment relevant to assessing candidate's ability to educate and train greyhounds for racing
- safe handling areas, such as commercial kennels, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks.

## EVIDENCE GUIDE

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRPSG303A Determine nutritional requirements for racing greyhounds
- RGRPSG401A Relate anatomical and physiological features to the care and treatment of greyhounds
- RGRPSG402A Manage greyhound health and welfare.

### Guidance information for assessment (optional)

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to plan and implement the education and training of greyhounds for racing. Workplaces include kennels and racecourses, training tracks and public areas.

### *Principles of learning theory* may include:

- associative and non-associative learning
- classic and operant conditioning
- influence of memory
- motivation for learning
- response to positive or negative reinforcement and punishment
- social structure of canines and status of humans

## RANGE STATEMENT

|                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|--------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Greyhounds</i></b> may be introduced to chasing by:                      | <ul style="list-style-type: none"> <li>in a kennel situation</li> <li>understanding impact of a greyhound's physical characteristics and behaviour as a sight hound.</li> <li>chasing prior to breaking-in does not usually involve a mechanical race lure, other activities can be used, such as:               <ul style="list-style-type: none"> <li>learning to chase a ball, squeaky toy or other object</li> <li>learning to chase a skin or cloth dragged along the ground</li> <li>watching other greyhounds chase a lure.</li> </ul> </li> </ul> |

## RANGE STATEMENT

---

- training times and distances
- training and work schedule
- vaccination records
- veterinary and therapeutic treatments.

## Unit Sector(s)

**Unit Sector** Greyhound racing code

## Co-requisite units

**Co-requisite units**

## Functional Area

**Functional Area** Racing performance services

## RGRPSG404A Trial and race greyhounds

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to review individual greyhound training performance, prepare and implement racing program plans, race greyhounds in accordance with the rules of racing and related protocols, review race performance and develop future race and training plans.

This unit also requires the ability to demonstrate competence in the practical care and management of racing greyhounds and application of OHS standards in the workplace.

This unit of competency operates in work environments of racing kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports trainers and others in the greyhound racing industry responsible for planning and managing trialling and racing of greyhounds.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

### Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

### Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency. Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

| ELEMENT               | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                        |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- adapting trial and racing program plans according to individual greyhound responses and specific stages of preparation
- adhering to responsibilities under OHS legislation and workplace practices
- adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
- applying safe handling and work practices when dealing with greyhounds
- assessing greyhound condition
- assessing and responding to illnesses or injuries in greyhounds
- calming and controlling greyhounds
- communicating with stewards, racing officials, kennel staff, greyhound health and exercise specialists, and others using assertive communication techniques to gather and relay information related to trialling and racing greyhounds
- dealing with emergencies
- giving and receiving instructions
- identifying behaviour traits of individual greyhounds
- identifying possible options for improving race performance
- implementing greyhound trialling and racing processes and procedures
- presenting greyhounds in a fit and healthy condition for trials and races
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- selecting appropriate qualifying trials and races for individual greyhounds
- supporting others when handling, trialling and racing greyhounds in the appropriate manner
- written communication skills to compile and maintain greyhound records and

## REQUIRED SKILLS AND KNOWLEDGE

associated procedural documentation.

### Required knowledge

- communication procedures within kennel and wider racing industry
- common greyhound behaviour, social traits and vices
- common illnesses and injuries in greyhounds
- effective working relationships, including teamwork
- emergency control measures
- industry terminology related to trialling and racing greyhounds, including type and class of race
- principles of planning training and racing programs for greyhounds
- protocols and procedures for entering greyhounds for races
- protocols and procedures for racing greyhounds
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- roles and responsibilities of trainers, staff and officials at trials and race meetings
- rules of racing
- track features, surfaces and conditions

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that apply to planning and managing greyhound trial and race programs.
- demonstration of procedures and timely techniques for the safe, effective and efficient implementation of trial and race programs for racing greyhounds
- working with others to undertake and complete procedures that meet required outcomes.

---

## EVIDENCE GUIDE

---

### Context of and specific resources for assessment

Evidence should be collected over a period of time using a range of greyhounds of different ages, sexes and temperaments, and at different stages of preparation in racing kennel and track environments.

Competency must be assessed in a racing workplace that provides access to greyhounds that are being educated and trained in a commercial racing kennel under the care of a licensed trainer and the required resources.

Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds currently in training
- commercial kennels, safe racetrack areas, race meetings and related facilities
- materials and equipment relevant to assessing candidate's ability to trial and race greyhounds
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRPSG303A Determine nutritional requirements for racing greyhounds
- RGRPSG401A Relate anatomical and physiological features to the care and treatment of greyhounds

## EVIDENCE GUIDE

### Guidance information for assessment

- RGRPSG402A Manage greyhound health and welfare
- RGRPSG403A Plan and implement education and training of greyhounds for racing.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to trial and race greyhounds. Workplaces include kennels and racecourses, training tracks and public areas.

***Greyhounds' training performance against racing goals*** may include:

- animal welfare and racing guidelines for the amount of exercise
- expected time frame to first race
- hormone control, for example:
  - sire versus bitch
- race grade that greyhound is being prepared for
- specialist advice to review fitness, including:
  - blood tests
  - other fitness tests.

***Racing program plans*** may include:

- considering recent training performance and level of greyhound health and fitness
- determining exercise and remedial work required prior to trialling or racing
- available and appropriate qualifying trials, including:
  - greyhound potential to win

## RANGE STATEMENT

---

- location and distance of trial
  - quality and make up of trial field
  - class of races, including:
    - grades 1 to 5
    - aged
    - juvenile
    - maiden
    - mixed
    - non-graded
    - special event
  - external factors, including:
    - distance of races
    - race locations
    - track surfaces
    - weather conditions
  - ultimate aim for greyhound .
- Racing meeting preparations*** may include:
- arranging transportation to and from race meeting and planning departure time
  - checking greyhounds' general health and condition
  - ensuring required racing documents are available at race meeting
  - organising and briefing attendants and catchers, including:
    - routine race meeting procedures
    - safety procedures at race meeting
  - organising gear, including bedding, rug and water.
- Race meeting protocols and procedures*** will include:
- appropriate presentation of greyhounds, attendants, trainers and others at race meetings
  - arriving at race meeting in time for kennelling
  - ensuring safety of greyhounds and people
  - completing kennelling procedures
  - documentation requirements, including:
    - greyhound registration certificate
    - attendant and trainer registration
  - prior to race run procedures, including:
    - collecting greyhound from kennels and preparing

## RANGE STATEMENT

---

|                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|                                                                               | <ul style="list-style-type: none"> <li>• parading greyhound</li> <li>• starting box loading</li> <li>• post-race procedures, including: <ul style="list-style-type: none"> <li>• catching pen</li> <li>• care and welfare of greyhound</li> <li>• inquiries and appeals</li> <li>• re-kennelling</li> <li>• swabbing procedures</li> </ul> </li> <li>• post-race transportation</li> <li>• providing post-transport care for greyhounds.</li> </ul>                                                                                                                     |
| <b><i>Officials' directions likely during race meetings</i></b> will include: | <ul style="list-style-type: none"> <li>• asking for greyhound or attendant documentation</li> <li>• directing greyhound kennelling procedures</li> <li>• instructing patrons in case of an emergency</li> <li>• instructing trainer to present greyhound for swabbing</li> <li>• instructing trainer to present for an inquiry</li> <li>• questioning on any aspect of conduct of race meeting</li> <li>• questioning trainer on health or injury status of greyhound</li> <li>• instructing attendants during kennelling, pre and post-race run procedures.</li> </ul> |
| <b><i>Information required by greyhound owners</i></b> includes:              | <ul style="list-style-type: none"> <li>• prospects of greyhound in race</li> <li>• protocols for addressing and complying with officials' instructions</li> <li>• required protocols and safety procedures in parading and presentation areas</li> <li>• routine procedures for conducting a race meeting</li> <li>• owner rights in an inquiry or appeal.</li> </ul>                                                                                                                                                                                                   |
| <b><i>Assessment of greyhound's recovery</i></b> will include:                | <ul style="list-style-type: none"> <li>• checking for heat or swelling after cool down</li> <li>• checking for signs of injury or soreness after race</li> <li>• monitoring greyhound's recovery rate through vital signs.</li> </ul>                                                                                                                                                                                                                                                                                                                                   |
| <b><i>Assessment of racing condition and performance</i></b> will include:    | <ul style="list-style-type: none"> <li>• appetite and general health and wellbeing, including: <ul style="list-style-type: none"> <li>• brightness of eyes and condition of coat</li> <li>• muscle definition</li> </ul> </li> </ul>                                                                                                                                                                                                                                                                                                                                    |

## RANGE STATEMENT

---

***Variables that impact on performance*** may include:

- recovery time after exercise
- weight of greyhound
- aerobic performance
- box draw and box manners
- quality of opposition
- sex of greyhound
- stage of preparation
- trialling and racing times.
- housing conditions for greyhound
- influence of field position
- interference
- level of fitness and wellbeing of greyhound
- manner in which race was run
- speed of race
- starting position
- temperament of greyhound
- track surface and condition
- travelling conditions for greyhound
- type of race
- weather and temperature.

***Future race and training plans are prepared*** with consideration to:

- checking greyhound's health and fitness via blood and other tests
- consulting with owners
- determining if greyhound is better suited to a different race class
- determining if training or conditioning needs to be modified, for example:
  - more or less work
  - varying type of work
- race performance during current preparation
- spelling the greyhound
- rationalising whether greyhound should continue to race.

# RGRPSG405A Operate a greyhound racing training business

## Modification History

Not Applicable

## Unit Descriptor

### Unit descriptor

This unit of competency specifies the outcomes required to comply with racing regulatory authority requirements as a trainer, including acquiring and maintaining a trainer's license, keeping records and submitting documents to the racing authority; administering payment and invoicing for services; providing safe, healthy and secure facilities suitable for the preparation of greyhounds for racing that also comply with local government requirements; upholding safe operating procedures for the welfare of staff, the public and greyhounds; and conducting training operations that reflect a positive image of racing.

This unit also requires the practical care and management of racing greyhounds and application of OHS standards in the workplace.

This unit of competency operates in work environments of racing kennels, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

## Application of the Unit

### Application of the unit

This unit of competency supports trainers and others in the greyhound racing industry responsible for operating a greyhound racing training business.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Determine racing business structure.

1. Rules and regulations relating to obligations and responsibilities of licensed trainers are followed.
2. Racing premises design, security and location comply with racing, local government, animal welfare and OHS requirements.
3. Options for training business structure are evaluated.

Maintain basic racing record-keeping

4. Racing registrations and licenses are organised and maintained.

| ELEMENT                                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                             |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- adhering to responsibilities under relevant legislation and workplace practices
- checking invoices and completing payments
- communicating with racing officials, kennel staff, greyhound health specialists and others using assertive communication techniques to gather and relay information related to operating a greyhound racing training business
- complying with animal welfare policies in the care and management of greyhounds
- ensuring license and registration applications are completed, submitted and maintained
- ensuring security of medications and kennel complies with racing regulatory authority requirements
- incorporating safe work practices into all instructions and procedures
- maintaining required insurances
- maintaining staff employment and related payroll records
- maintaining taxation records
- preparing and distributing invoices
- preparing and maintaining kennel and medication records
- providing assistance to others in the workplace
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with

## REQUIRED SKILLS AND KNOWLEDGE

varying physical and mental abilities

- resolving conflict
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- animal welfare obligations
- business registration and related obligations, including taxation and insurance
- council requirements for the operation of a racing kennel
- employment conditions and recruitment options
- license and registration requirements for staff and greyhounds
- OHS obligations and racing industry safe operating procedures
- rules of racing.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when operating a greyhound racing training business
- documentation related to a number and variety of racing greyhounds that are presently in training and housed in registered training facilities
- implementation of procedures and timely techniques for the safe, effective and efficient operation of a greyhound racing training business
- working with others to implement and complete procedures that meet required outcomes.

Evidence should be collected over a period of time and be focused on business activities of an establishment that trains racing greyhounds. Theoretical components can be

## EVIDENCE GUIDE

---

### Context of and specific resources for assessment

assessed in a simulated situation but must be related to racing industry conditions and context.

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds currently in training
- commercial racing training establishments, and training and racetracks
- materials and equipment relevant to assessing candidate's ability to operate a greyhound racing training business
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- inspection of completed work
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- RGRCMN001A Comply with the rules of racing and related protocols
- RGRCMN401A Maintain and monitor OHS

## EVIDENCE GUIDE

---

### Guidance information for assessment

- procedures and environmental work practices
- RGRPSG406A Promote and maintain business arrangements with greyhound owners.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to operate a greyhound racing training business. Workplaces include kennels and racecourses, training tracks and public areas.

### ***Obligations and responsibilities of licensed trainers*** may include:

- complying with Australian rules of racing and local rules of racing of the state or territory regulatory racing body
- complying with national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
- complying with OHS legislation and regulations and environmental work practices
- confirming arrangements for collection of prize money and distribution to owners
- confirming arrangements for payment of race entry fees and track fees
- confirming owner representative
- ensuring all staff are registered or licensed
- ensuring kennel adheres to council regulations and by-laws, for example:
  - buildings

## RANGE STATEMENT

---

***Options for training business structure*** may include:

- disposal of waste
- instructing staff in safe work practices
- maintaining kennel security
- providing information to racing regulatory officers.
- whether trainer need to register for goods and services tax (GST) and acquire an Australian business number (ABN) for distributing prize money
- location of training kennels, such as:
  - country
  - metropolitan
  - provincial
- operating as a sole trader, partnership or company
- staffing requirements.

***Racing registrations and licenses*** may include:

- owner-trainer
- public trainer.

***Racing documents*** will include:

- greyhounds' official racing documents
- kennel medication control information and declarations
- kennel records for individual greyhounds
- race nominations and acceptances
- race programs
- race results
- race scratching notification
- registration identification cards for trainers and attendants
- steward inquiry information and notices.

***Kennel records*** may include:

- medication records
- major injuries
- notes on feed requirements
- race and trial performances
- racing official notifications and related correspondence
- records of nominations lodged
- therapeutic treatments
- training schedules
- vaccinations
- veterinary treatments.

## RANGE STATEMENT

---

***Obligations resulting from contractual arrangements*** will include:

- license obligations to comply with rules of racing
- Sale of Goods Act
- requirements to complete or provide agreed services.

***Expenses involved in training greyhounds*** may include:

- advertising
- building maintenance
- council rates
- feed, including supplements
- gear and equipment purchase, maintenance and repair
- kennel rent or mortgage expenses
- insurance
- license and registration maintenance
- medication
- office operation expenses
- race entry fees
- specialist services, including:
  - complementary therapists
  - veterinarians
- taxation obligations
- track fees
- transport and travel costs
- utilities, including:
  - power
  - telephone
  - water
- vehicle purchase and running costs
- wages and associated on-costs, including:
  - superannuation
  - workers' compensation.

***Arrangements between trainer, staff, clients and contractors*** may include:

- client:
  - decisions on when to race greyhound
  - decisions on when to retire greyhound or remove from kennels
  - decisions on who pays for greyhound expenses (flat rate all inclusive or other arrangement)
  - payment of accounts by monthly invoice or other arrangement

## RANGE STATEMENT

---

***Racing and financial requirements*** may include:

- services to be provided
- contractor:
  - confirming who has authority to order services and equipment on behalf of trainer
  - confirming whether accounts will be settled monthly or cash on delivery
  - negotiating plans of treatment or service to be provided for special situations
  - negotiating whether individual client or trainer will be billed for services provided
- staff:
  - conditions of employment, including hours and days of work
  - wages
- work duties and safe operating procedures.
- ensuring accounts are paid on time to ensure operation of kennel is safe and maintains welfare of greyhounds and staff
- meeting taxation obligations, including:
  - GST
  - income taxation
- proving to the satisfaction of the racing regulatory authority that a trainer has the financial resources to operate a racing kennel.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices while supervising owners around greyhounds
- communicating with owners, staff and others using assertive communication techniques to gather and relay information related to promoting and maintaining business arrangements with greyhound owners
- identifying and recruiting potential new clients
- managing conflict and potentially difficult situations
- preparing accounts for services rendered in the preparation of greyhounds for racing
- preparing information on kennel success and performance of greyhounds for owners and media
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- supporting others in owning greyhounds for racing
- written communication skills to complete workplace documentation, reports and accounts.

#### Required knowledge

- communication procedures within kennel and wider racing industry
- effective working relationships, including teamwork
- industry terminology related to handling and racing greyhounds
- racing industry animal welfare requirements

## REQUIRED SKILLS AND KNOWLEDGE

- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- rights and obligations of trainers and owners when racing greyhounds.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and processes that are to apply when promoting and maintaining business arrangements with greyhound owners
- demonstration of effective negotiation and assertiveness skills in managing owners
- preparation and application of criteria for the safe, effective and efficient maintenance of business arrangements with greyhound owners
- working with others to promote and maintain arrangements that meet required outcomes
- consistent, timely completion of promotion, maintenance and decision making processes that safely, effectively and efficiently meet required outcomes.

Evidence should be collected over a period of time and be focused on business activities of an establishment that trains racing greyhounds. Theoretical components can be assessed in a simulated situation but must be related to racing industry conditions and tasks.

#### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal

## EVIDENCE GUIDE

Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds currently in training
- commercial racing training establishments, and training and racetracks
- materials and equipment relevant to assessing candidate's ability to market and promote participation in racing as an owner
- racing documentation related to owning and racing greyhounds
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- inspection of completed work
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- BSBSMB403A Market the small business
- BSBSMB406A Manage small business finances
- BSBSMB407A Manage a small team
- RGRPSG405A Operate a greyhound racing training business
- RGRPSG407A Select greyhounds for racing.

## EVIDENCE GUIDE

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to promote and maintain business arrangements with greyhound owners. Workplaces include kennels and racecourses, training tracks and public areas.

***Market research techniques*** may include:

- conducting surveys to identify potential clients and their expectations
- identifying racing participation demographics
- investigating amount of money invested in racing
- researching other trainer services and charges
- reviewing membership numbers
- reviewing participation and money invested in other sports.

***Training services*** may include:

- breaking in
- conditioning greyhounds for racing fitness
- educating greyhounds for race starts
- educating greyhounds to chase, work and race against other greyhounds
- preparing greyhounds for specialist events.

***Relevant sources*** may include:

- local and racing-specific media sources
- local race clubs
- greyhound racing owner groups
- past and present owners

## RANGE STATEMENT

### ***Needs of racing greyhound owners*** may include to:

- owner of bitch of winning greyhound
- own website or newsletter
- studmaster of sire of winning greyhound.
- be able to participate as owner at race meetings
- be able to visit greyhounds at trainer's kennels
- be advised if trainer wishes to rest greyhound
- be advised of greyhound illness or injury
- be advised of trial and race dates
- be advised on selecting greyhounds for racing
- be given a realistic opinion of greyhound's potential for future success
- be kept informed of greyhound's progress during education, training and racing
- be recognised and shown respect by trainer and staff
- be recognised as a valuable client by trainer
- be owner of a winning greyhound
- discuss training and racing program plans with trainer.

### ***Services to be provided*** may include:

- education and re-education of greyhound for racing
- feed and board for greyhound
- management of sick or injured greyhounds
- rehabilitation after injury
- spelling or resting
- training of greyhound for nominated racing program
- transport to and from trackwork, trials and race meetings.

### ***Contract for training of greyhound*** may cover:

- clarifying how specialist or consultant fees will be paid, for example veterinary services
- clarifying obligations of owner and trainer in relation to animal welfare legislation
- date when fees are due
- fee for services provided
- method of payment
- obligations of owner
- obligations of trainer
- provision for dissolving business arrangements
- rights of owner to make decisions on

## RANGE STATEMENT

|                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|                                                                     | <ul style="list-style-type: none"> <li>greyhound activities</li> <li>rights of trainer to make decisions on greyhound health, welfare and activities</li> <li>rights of trainer to recover debts from owner</li> <li>services to be provided.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Training progress reports</b> may include:                       | <ul style="list-style-type: none"> <li>days worked, type of work performed and any highlights or incidents</li> <li>expected trial and race plans for the coming month</li> <li>health and injury status, including updates on progress in recovery and expected prognosis for return to racing</li> <li>number of trials attended and results.</li> </ul>                                                                                                                                                                                                                                                                                                                                  |
| <b>Decisions on future plans for greyhounds</b> may include should: | <ul style="list-style-type: none"> <li>greyhound be aimed at lower or higher level races</li> <li>greyhound be assessed by specialists before further plans are made</li> <li>greyhound be moved to a different location</li> <li>greyhound be moved to a different trainer</li> <li>greyhound be rested</li> <li>owner be encouraged to stop racing this greyhound.</li> </ul>                                                                                                                                                                                                                                                                                                             |
| <b>Race meeting arrangements for owners</b> may include:            | <ul style="list-style-type: none"> <li>advising owners of race date, location, race number and time</li> <li>clarifying number of owners that can participate at race meetings if part of a syndicate or partnership</li> <li>clarifying use of mobile phones and other methods of communication on course</li> <li>clarifying what rights owners have to participate in inquiries or appeals relating to their greyhound</li> <li>ensuring owners are able to participate in prize-giving ceremonies for their greyhounds</li> <li>organising tickets or passes for owners</li> <li>outlining procedures at race meetings so owners are aware of where they can and can not go.</li> </ul> |
| <b>Problems with owners</b> may include:                            | <ul style="list-style-type: none"> <li>accounts not paid</li> <li>confusion over what services are included in base training fees</li> <li>confusion over who makes decisions on</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

## RANGE STATEMENT

---

- greyhound's training, racing and future plans
- fees charged appear to be high per person for members of syndicate
- no account provided
- not being acknowledged in role as owner
- not being kept informed of greyhound health, injury and racing status
- not clarifying fees prior to commencing training
- prize money not credited
- unspecified additional charges appearing on accounts.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communicating with greyhound health and exercise specialists and others using assertive communication techniques to gather and relay information related to selecting greyhounds for racing
- determining desired extent of participating in racing and how this may influence type of greyhound selected
- evaluating conformation features of nominated greyhounds
- evaluating racing breeding theories and rationalising influence of pedigree and other factors to potential performance
- evaluating potential influence of ancestors to characteristics and potential of nominated greyhounds
- identifying current popular sires
- identifying current prominent racing greyhounds
- identifying prominent racing family lines
- interpreting basic genetic terminology
- interpreting statistical racing information, including breeding performance, track times, race sectional times and winners
- listing track records for major feature races
- rationalising greyhound's future in racing, based on performance, health and injury status
- reading and interpreting racing pedigrees and breeding theories
- reading and interpreting workplace documentation, including relevant rules of racing and animal welfare regulations
- relating greyhound temperament to racing potential
- relating pedigree and conformation to potential performance in various race distances and types
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities

## REQUIRED SKILLS AND KNOWLEDGE

- written communication skills to complete workplace documentation and reports.

### Required knowledge

- basic genetic theory of inheritance of traits
- characteristics of successful greyhounds of various racing types
- common greyhound behaviour, social traits and vices
- features of healthy and fit racing greyhounds
- features of conformation of racing greyhounds
- illnesses and injuries that may impact on greyhound's potential in racing
- industry terminology related to breeding and racing greyhounds
- life span of greyhounds and likely length of racing career
- popular racing breeding theories
- racing industry animal welfare requirements
- relevant rules of racing
- role of greyhound temperament in racing potential
- statistical information related to breeding performance
- track records for prominent races
- types of pedigree layout.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and processes that are to apply when determining a greyhound's suitability for racing
- preparation and timely application of criteria for the safe, effective and efficient selection of greyhounds for racing or alternative future options
- working with others to select greyhounds for racing that meet required outcomes.

## EVIDENCE GUIDE

---

Evidence should be collected over a period of time and be focused on selection and decision making processes applying to a range of greyhounds of different ages and sexes, at different stages of their racing career. Theoretical components can be assessed in a simulated situation but must be related to racing industry conditions and contexts.

### **Context of and specific resources for assessment**

Competency may be assessed in an actual workplace or simulated environment that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

This unit includes practical aspects as well as the research, interpretation and evaluation of data. Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of greyhounds
- breeding or commercial racing kennels
- materials and equipment relevant to assessing candidate's ability to assess conformation, pedigree and race type features of greyhounds for racing
- work instructions and related documentation.

### **Method of assessment**

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- inspection of completed work
- simulation exercises.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector,

## EVIDENCE GUIDE

### Guidance information for assessment

workplace and job role.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to select greyhounds for racing. Workplaces include greyhound kennels and racecourses, training tracks and public areas.

***Profiling*** a greyhound may include:

- assessment of pedigree and performance of close relatives
- conformation evaluation
- health and injury status
- performance if any of nominated greyhound.
- climate adaptability
- greyhounds that prefer to lead versus those who prefer to cover
- race greyhound types include:
  - all weather runners versus particular weather specialists
  - distance versus sprinting types
  - track direction preferences
  - track type preferences
- temperament and ability to settle into training and racing
- variations in behaviour and management requirements based on sex and age.
- balance and proportion of body

***Characteristics*** of greyhound types include:

***Features of conformation*** may

## RANGE STATEMENT

|                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## RANGE STATEMENT

---

- Greyhound's future* may include:
- ensuring adequate provision is made for feed, water, shelter, exercise and companionship if greyhound is to be retired
  - euthanasing greyhound with serious injuries or poor prognosis
  - identifying potential other uses for greyhound that is retired from racing, such as:
    - companion animals
    - re-homing program
    - pets as therapy
  - leasing greyhound to other racing team
  - selling greyhound to other racing home
  - sending greyhound to stud.

**Functional Area** Racing performance services

## RGRPSH101A Catch and handle quiet horses under supervision

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to identify horses and horse behaviour; safely catch, lead and tie up a well-educated horse with docile temperament; fit common items of gear and rugs; and clean and store gear under supervision of an experienced person competent in horse handling skills.

The term well-educated horse' refers to an animal that has undergone sufficient training to ensure that it behaves in a safe, tractable and manageable way when being handled, even by inexperienced personnel.

It is recommended that RGRCMN201A Follow OHS procedures and observe environmental work practices be delivered in conjunction with or before this unit of competency.

This unit of competency operates in work environments of stables, yards and paddocks.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

### Application of the Unit

#### Application of the unit

This unit of competency supports new workers and others in the various horse industries who are required to identify, catch and handle horses safely while working under supervision.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Use general horse industry terminology.

1. Points of the horse, external body parts and features are identified by name and location.
2. Horses are described using common horse industry expressions .

Safely catch and handle horses.

3. Appropriate ***catching and handling gear*** is identified and prepared for use.
4. Horse ***behaviour signals*** are interpreted prior to approaching horses.

| ELEMENT                                 | PERFORMANCE CRITERIA                                                                                    |
|-----------------------------------------|---------------------------------------------------------------------------------------------------------|
| Fit and remove rugs to and from horses. | 5. Horses are approached and caught .                                                                   |
|                                         | 6. Horses are <b>lead and controlled</b> within stables, yards and paddocks.                            |
|                                         | 7. Horses are <b>tied up</b> or released safely.                                                        |
| Fit and remove rugs to and from horses. | 8. <b>Rugs</b> are correctly identified for individual horses.                                          |
|                                         | 9. Correct procedures for fitting and removing rugs are completed under supervision.                    |
| Fit and maintain specified gear.        | 10. <b>Stable or paddock gear</b> is correctly identified for individual horses.                        |
|                                         | 11. Correct procedures for fitting and removing stable or paddock gear are completed under supervision. |
|                                         | 12. Exercise, stable and paddock gear is cleaned and stored appropriately.                              |
|                                         | 13. <b>Signs of wear and damage</b> to gear are reported to stable supervisor.                          |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe work practices when catching and handling horses
- catching and handling a range of quiet and well-educated horses in a variety of environments following instructions and under supervision
- cleaning and checking gear for wear and tear
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to catching and handling horses
- completing duties in accordance with safe operating procedures and nominated time frame
- complying with animal welfare policies in the handling and care of horses
- interpreting and following supervisor's instructions
- identifying common behaviour signals of horses
- identifying, selecting and correctly fitting nominated gear for catching and handling horses
- identifying, selecting and fitting common stable and paddock gear and equipment
- identifying common breeds of horses

## REQUIRED SKILLS AND KNOWLEDGE

- identifying points of the horse
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting problems promptly
- supporting others in identifying, catching and handling horses in the appropriate manner
- tying up and releasing horses safely
- using common horse industry terminology.

### Required knowledge

- basic colours and markings of horses
- basic industry terminology related to handling and caring for horses
- communication procedures to seek information, advice or assistance
- common safe horse handling techniques
- points of the horse
- principles of safe work practices
- racing industry animal welfare requirements
- range of common stable and paddock horse gear
- senses and behaviour patterns of horses
- social behaviour and communication methods of horses.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that apply to catch and handle horses safely under supervision
- implementation of procedures and timely techniques for the safe, effective and efficient catching and handling of horses under supervision

## EVIDENCE GUIDE

---

- working with others to undertake and complete procedures under supervision that meet required outcomes.

Evidence should be collected over a period of time using a range of well-educated horses of different ages, sexes and temperaments, and at different stages of preparation in horse industry environments.

### Context of and specific resources for assessment

Competency may be assessed in a horse industry workplace or simulated environment that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of horses
- materials and equipment relevant to assessing candidate's ability to catch and handle horses safely under supervision
- safe handling areas, such as stables or training arenas
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRCMN201A Follow OHS procedures and

## EVIDENCE GUIDE

### Guidance information for assessment

- observe environmental work practices
- RGRPSH102A Perform basic stable duties.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to catch and handle quiet horses under supervision. Workplaces include stables, yards, training arenas, paddocks and public areas.

***Common horse industry expressions*** may include common terms used to describe:

- horse behaviour, including when horses are:
  - being handled, for example:
    - barging
    - rearing
    - striking
  - in the stable, yard or paddock, for example:
    - cast
    - cribbing
    - fence walking
    - weaving
    - wind sucking
  - sick or injured
- horse colours and markings
- horse condition and eating habits
- stable tasks, for example:
  - floating
  - hosing

## RANGE STATEMENT

---

|                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Unit Sector(s)

**Unit Sector** Harness and thoroughbred racing codes

## Co-requisite units

**Co-requisite units**

## Functional Area

**Functional Area** Racing performance services

## RGRPSH102A Perform basic stable duties

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to work with well-educated horses to clean and maintain the stable environment, feed and water horses, identify and use basic grooming equipment, and recognise signs of healthy and unhealthy horses as well as common illnesses and injuries in horses.

The term 'well-educated horse' refers to an animal that has undergone sufficient training to ensure that it behaves in a safe, tractable and manageable way when being handled, even by inexperienced personnel.

It is recommended that RGRCMN201A Follow OHS procedures and observe environmental work practices and RGRPSH101A Catch and handle quiet horses under supervision be delivered in conjunction with or before this unit of competency.

This unit of competency operates in work environments of stables, yards, paddocks and public areas. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

### Application of the Unit

#### Application of the unit

This unit of competency supports new workers and others in the various horse industries who are required to perform basic stable duties while working under supervision.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Perform basic stable maintenance duties.

1. ***Stable facilities*** are identified and ***maintained*** according to stable routine.
2. Stable and yard ***cleaning equipment*** is recognised.
3. ***Bedding*** is identified and ***box cleaning procedures*** are demonstrated.
4. ***Workplace hazards*** are identified and reported to stable supervisor.

| ELEMENT                                                | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Feed and water horses.                                 | 5. <b>Common feeds</b> are identified, <b>quality</b> is assessed and <b>contaminated feed</b> is <b>reported</b> to stable supervisor.<br>6. Stable and/or yard is prepared with feed and water.<br>7. Feed is provided in a <b>safe manner</b> .                                                                                                                     |
| Apply basic grooming practices.                        | 8. Types and functions of items of <b>grooming equipment</b> are identified and applied.<br>9. Horses are tied up and groomed, according to instructions, in a safe manner.<br>10. Horses are checked for external parasites, fungi, injuries and other abnormalities and reports are made to supervisor as necessary.<br>11. Grooming equipment is cleaned after use. |
| Contribute to monitoring health and welfare of horses. | 12. <b>Principles of animal welfare</b> are known and applied when working with horses.<br>13. Signs of healthy and unhealthy horses are identified.<br>14. Signs of <b>common illnesses and injuries</b> are identified and reported.                                                                                                                                 |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe work practices when performing basic stable duties
- applying basic grooming practices to horses
- cleaning and grooming equipment
- cleaning stable facilities
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to performing basic stable duties
- completing duties in accordance with safe operating procedures and nominated time frame
- contributing to monitoring horses' health and welfare
- interpreting and following supervisor's instructions
- identifying different items of working gear and assessing their condition in terms of safe use or need for repair

## REQUIRED SKILLS AND KNOWLEDGE

- identifying different types of feed and feed quality
- identifying common illnesses and injuries
- identifying horse behaviour
- identifying stable facilities and equipment
- identifying and preventing workplace hazards
- preparing stables and yards with feed and water
- providing feed and water to horses in a safe manner
- recognising signs of a healthy or unhealthy horse
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting problems promptly
- supporting others in the performance of basic stable duties.

### Required knowledge

- basic industry terminology related to performing basic stable duties
- bedding types
- behaviour patterns of horses
- common illnesses and injuries
- communication procedures to seek information, advice or assistance
- horse feeds, including contaminated feeds
- horse gear, including damaged gear
- principles of safe work practices
- racing industry animal welfare requirements
- stable facilities.

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and

## EVIDENCE GUIDE

---

instructions that apply when performing basic stable duties

- implementation of procedures and timely techniques for the safe, effective and efficient performance of stable duties under supervision
- working with others to undertake and complete basic stable duty procedures under supervision that meet required outcomes.

Evidence should be collected over a period of time using a range of well-educated horses of different ages, sexes and temperaments, and at different stages of preparation in horse industry environments.

### Context of and specific resources for assessment

Competency may be assessed in a horse industry workplace that provides access to the required resources or simulated environment. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of horses
- materials and equipment relevant to assessing candidate's ability to perform basic stable duties under supervision
- safe handling areas, such as stables and training arenas
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by

## EVIDENCE GUIDE

### Guidance information for assessment

supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRCMN201A Follow OHS procedures and observe environmental work practices
- RGRPSH101A Catch and handle quiet horses under supervision.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to perform basic stable duties under supervision. Workplaces include stables, yards, training tracks and arenas, paddocks, and public areas.

***Stable facilities*** may include:

- arenas
- barns
- crushes
- feed rooms
- tack rooms
- paddocks
- sand rolls
- stables
- swimming facilities
- walking machines
- wash bays

## RANGE STATEMENT

---

***Stable facilities*** are maintained by:

- yards.
- cleaning boxes, yards and paddocks
- cleaning gutters
- removing leaves, rubbish, feed stuffs and bedding
- raking and sweeping
- storing gear and equipment.

***Cleaning equipment*** may include:

- brooms
- dung bags or buckets
- gloves
- hydrated lime or other floor treatments
- long-pronged forks
- rakes
- shovels
- wheelbarrows.

***Bedding*** may include:

- paper
- rice hulls
- sand
- shavings
- sawdust
- straw.

***Box cleaning procedures*** may include:

- banking around the walls
- complete muck out
- dung disposal
- ensuring adequate thickness of bedding
- personal hygiene
- picking up and skipping over
- reducing dust
- removing horse from box
- removing damp bedding
- time frame for different bedding types
- topping up bedding
- using hydrated lime or other floor treatments.

***Workplace hazards*** may include:

- chemicals
- heavy loads, for example full water buckets
- horses
- machinery and equipment
- other people
- unsafe work practices.

***Common feeds and feed quality***

- feeds:

## RANGE STATEMENT

---

may include:

- barley
- chaff
- hay
- maize
- meals, including soybean and linseed
- molasses
- oats
- pellets or premixed feeds
- supplements, including vitamins and minerals
- feed quality:
  - appearance
  - smell
  - touch.

**Contaminated feed** may include:

- chemical contamination
- dust
- mould or moisture
- rodent or weevil damage.

**Contaminated feed** must be reported:

- promptly to supervisor to avoid dangers of feeding contaminated feed, including:
  - botulism
  - colic.

**Stable and/or yard** is prepared with feed and water by:

- filling hay nets
- providing fresh water
- reporting amounts of feed left over and water consumed
- removing left over feed and water
- scrubbing feed and water containers
- tipping and mixing feeds prepared by supervisor into horses' feedbins
- tying hay nets securely at appropriate height.

**Safe manner** will include:

- identifying correct horse to be fed and watered
- identifying horse behaviour
- correctly opening and closing gates or doors
- talking to the horse
- moving purposefully and carefully around horse
- requesting assistance when feeding groups of horses

## RANGE STATEMENT

---

***Grooming equipment*** may include:

- safety of horse and handler.
- body brush
- bot knife
- curry comb
- dandy brush
- hoof dressing and applicator
- hoof pick
- mane comb
- rubber mitts
- scraper
- scrubbing brush
- sponge
- towel
- water bucket.

***Principles of animal welfare*** may include:

- adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
- understanding basic tenets of animal welfare to ensure welfare, safety and health of horses, including:
  - care and treatment
  - provision of food and water
  - shelter.

***Common illnesses and injuries*** may include:

- abrasions, cuts or wounds
- colic
- coughs or colds
- heat in limbs
- lameness
- viruses.

## Unit Sector(s)

**Unit Sector**

Harness and thoroughbred racing codes

## Co-requisite units

Co-requisite units

## Functional Area

**Functional Area**                      Racing performance services

## RGRPSH201A Handle horses

### Modification History

Not Applicable

### Unit Descriptor

**Unit descriptor**

This unit of competency specifies the outcomes required to identify, and safely catch, control and handle racehorses for the purposes of training and racing.

It is recommended that RGRCMN201A Follow OHS procedures and observe environmental work practices be delivered in conjunction with or before this unit of competency.

This unit of competency operates in work environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

**Application of the unit**

This unit of competency supports stablehands, strappers, trainers and others authorised to handle horses.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Identify horses.

1. **Features** used to identify horses are evaluated.
2. Horses are identified using **industry standards**.

Safely approach, catch and lead horses.

3. **Behaviour and level of education of horses** are identified and considered prior to handling.
4. **Risks** associated with catching and leading horses are evaluated.
5. Appropriate **gear** for catching and leading horses is correctly identified and applied.

| ELEMENT                                                  | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                       |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with horses
- catching, leading and handling a range of horses in a variety of environments
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to horse handling activities
- completing duties in accordance with safe operating procedures and nominated time frame
- evaluating risks associated with catching and handling horses
- identifying and correctly using different items of handling gear
- identifying features of horses using industry standards
- identifying horse behaviour, social traits and vices
- leading and handling horses in enclosed spaces
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities.

#### Required knowledge

- basic industry terminology related to handling horses
- basic understanding of applicable federal, state or territory legislation and regulations, and national standards and codes of practice relevant to full range of processes relating to own work role and responsibilities
- communication procedures within stable and wider racing industry

## REQUIRED SKILLS AND KNOWLEDGE

- common horse behaviour, social traits and vices
- purpose of using different items of handling gear and appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- relevant road safety rules
- reporting requirements in relation to handling horses safely.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when handling horses
- implementation of procedures and timely techniques for the safe, effective and efficient handling of horses
- working with others to undertake and complete horse handling procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments.

#### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards

---

## EVIDENCE GUIDE

---

### Method of assessment

requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness or thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to handle horses safely
- safe handling areas, such as racing stables and racetracks
- work instructions and related documentation.

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRCMN201A Follow OHS procedures and observe environmental work practices.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to handle horses. Workplaces include harness and thoroughbred stables and racecourses, training tracks and public areas.

**Features** of a horse include:

- brands
- colours
- markings
- points
- sex.

**Industry standards** are:

- standards that are used by the regulatory racing body to classify and register horses.

Identification of ***behaviour and level of education of horses*** involves:

- assessment of behaviour patterns prior to handling
- communication traits of horses, including:
  - body signals
  - non-verbal (mouth and face)
  - verbal
- education level required for safe handling and controlling
- identifying good behaviour and bad behaviour traits and vices
- understanding senses of a horse, including:
  - eyesight
  - hearing
  - smell
  - taste
  - touch
  - sixth sense.

Horse ***behaviour*** problems may include:

- bed eating
- box walking
- crib biting
- pushing or barging
- rug chewing
- weaving
- wind sucking.

## RANGE STATEMENT

---

**Risks** associated with catching and leading horses may include:

- bites
- gear breakage
- horse injury
- kicks
- loose horse
- personal injury
- trampling.

Controlling **risks** associated with catching and handling horses includes:

- adhering to responsibilities under OHS legislation and workplace practices
  - adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
  - adhering to rules of training tracks and public venues
  - awareness of relevant road safety rules
  - considering variables that influence behaviour of horses, such as:
    - fences and equipment
    - other persons or animals
    - vehicles
    - wind and noise
  - contributing to development of risk control measures
  - holding horses for veterinary, farriery and other treatments
  - identifying and reporting unsafe work practices
  - identifying emergency situations
    - reporting defective gear, including:
      - cracked leather or PVC
      - frayed leads
      - rusted bits, buckles and clips
  - understanding individual horse behaviour
  - using gear or equipment that is approved by the regulatory racing body to be worn by horses when being handled in stables, public places and on training tracks
  - wearing approved personal protective equipment.
- Gear** may include:
- anti-rearing bits
  - bridles

## RANGE STATEMENT

---

|                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                   | <ul style="list-style-type: none"> <li>• double clip leads</li> <li>• head collars</li> <li>• head pieces and bits</li> <li>• hobbles</li> <li>• leads</li> <li>• leg ropes</li> <li>• single clip leads</li> <li>• twitches.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Horses may be <b><i>approached and caught</i></b> by:             | <ul style="list-style-type: none"> <li>• checking soundness of gear before approaching</li> <li>• positioning gear in advance of handling</li> <li>• talking to the horse</li> <li>• encouraging horse to face handler</li> <li>• approaching horse from near side</li> <li>• taking extra care with horses in groups</li> <li>• using and fitting appropriate and approved gear.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                           |
| <b><i>Leading techniques</i></b> may include:                     | <ul style="list-style-type: none"> <li>• applying appropriate pressure should horse rear</li> <li>• allowing some slack in the lead</li> <li>• leading person to person when approaching another horse moving in opposite direction</li> <li>• leading into and out of yards</li> <li>• leading through gates or stable doors, which are open or shut</li> <li>• never leading and carrying something at the same time</li> <li>• never leading two horses at one time</li> <li>• never wrapping lead around any part of handler's body</li> <li>• never letting horse turn its tail to handler</li> <li>• talking to the horse</li> <li>• using both hands on the lead</li> <li>• using leads of suitable length</li> <li>• walking at near side shoulder.</li> </ul> |
| <b><i>Public areas</i></b> include:                               | <ul style="list-style-type: none"> <li>• bridges and roads</li> <li>• shared yards and paddocks</li> <li>• racecourses</li> <li>• stables</li> <li>• training tracks.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## RANGE STATEMENT

---

- placing horse against a wall or suitable fence
- using bits, twitches and blindfolds
- using non-mechanical aids, such as:
  - covering an eye
  - raising a leg
  - skin hold.

**Confined spaces** include:

- barriers
- crushes
- floats and horse trucks
- race stalls
- swab boxes
- swimming pools
- tie-ups
- treadmills and other walkers.

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to work under direction and follow instructions to safely prepare horses for road transportation; load and unload horses; monitor horse health, welfare and behaviour during transportation; and conduct post-transport procedures.

To undertake this unit the candidate will have successfully completed or be able to demonstrate safe horse handling skills and follow workplace OHS standards.

This unit of competency operates in work environments of racing stables, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports stablehands, strappers, trainers and others authorised to assist with the transportation of horses.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Prepare for loading and unloading.

1. **Basic vehicle** and **float safety c** heck is conducted and risks are identified.
2. **Equipment** required for transporting horses is organised and checked for defects.
3. Horses are **checked** and correctly **prepared** for **transport** ,in accordance with instructions and within nominated time frame.

Load and unload horses.

4. Horses to be transported are safely loaded or unloaded

| ELEMENT                               | PERFORMANCE CRITERIA                                                                               |
|---------------------------------------|----------------------------------------------------------------------------------------------------|
|                                       | in accordance with instructions.                                                                   |
|                                       | 5. Horses are positioned according to individual horse requirements and transport configurations . |
|                                       | 6. <b>Procedures</b> for dealing with difficult situations in loading and unloading are applied.   |
|                                       | 7. Difficulties in loading and unloading are referred to supervisor.                               |
| Monitor horses during transportation. | 8. Common behaviour of horses during transportation is identified.                                 |
|                                       | 9. Incidents, equipment defects or procedural problems in transportation are reported.             |
|                                       | 10. <b>Horse behaviour problems</b> in transportation are promptly reported.                       |
| Conduct post-transport procedures.    | 11. Horses are inspected and <b>illness or injury</b> is reported to supervisor.                   |
|                                       | 12. Horses are <b>cared for</b> according to supervisor's instructions.                            |
|                                       | 13. Vehicle and float are <b>checked and cleaned</b> .                                             |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with horses
- checking and cleaning vehicle and float
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather, interpret and relay information related to assisting with transportation of horses
- completing duties in accordance with safe operating procedures and nominated time frame
- following instructions
- identifying horse behaviour problems
- identifying symptoms and signs of illness and injury
- identifying and correctly using different items of personal protective equipment
- identifying and correctly using different items of gear and equipment and assessing condition of same in terms of safe use and need for repair

## REQUIRED SKILLS AND KNOWLEDGE

- reading and interpreting workplace documentation, including rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting problems promptly
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- basic industry terminology related to handling horses
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- illness and injury to horses
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant road safety rules.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when assisting with the transportation of horses
- implementation of procedures and timely techniques for the safe, effective and efficient transport of horses
- working with others to undertake and complete transportation procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable and track

## EVIDENCE GUIDE

---

### Context of and specific resources for assessment

environments.

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness or thoroughbred horses
- materials and equipment, including transport vehicles relevant to assessing candidate's ability to assist with transportation of horses
- safe handling areas, such as racing stables and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women,

## EVIDENCE GUIDE

---

people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to assist with the transportation of horses. Workplaces include harness and thoroughbred stables and racecourses, training tracks and public areas.

***Basic vehicle and float safety check*** may include:

- assessment of risks and hazards to people and horses
- float:
  - breach chains and dividers
  - brake lights and indicators
  - floor
  - interior lighting
  - ventilation
- vehicle:
  - brakes
  - jack and wheel brace
  - lights and indicators
  - tow bar and ball
  - tyres.

***Equipment for transporting horses*** may include:

- bandages for legs and tails
- bell boots
- bits
- head collars and leads
- hock protectors
- hoods
- knee boots
- rugs.

## RANGE STATEMENT

---

***Checking and preparing horses for transport*** may include:

- horse is assessed for illness or injury
- feet are picked out
- legs and tail are protected
- rugs and hoods are used as directed
- shoes are tight.

***Transport*** may include:

- air transport
- floats
- sea transport
- trailers
- trucks.

***Horses*** may be positioned by:

- removing rearing bit or other gear before tying up
- tying up at suitable length and height using a quick release knot.

***Horse requirements*** may include:

- horse's temperament
- horses that scramble or need extra space or height
- stallions versus geldings, mares or young stock.

***Transport configurations*** may include:

- angle loading
- head to front loading
- head to rear loading
- side loading.

***Procedures for dealing with difficult situations during loading and unloading*** may include:

- aligning float correctly
- ensuring interior lighting works
- ensuring angle of ramp is as low as possible
- loading older, more experienced horses first
- placement of individual horses
- using britching rope
- using bits for greater control.

***Horse behaviour problems*** may include:

- barging
- fighting with other horses
- going down in the float
- kicking
- pawing.

***Indicators of illness or injury*** may include:

- dehydration
- diarrhoea
- elevated temperature
- head, leg or body wounds
- laminitis symptoms

## RANGE STATEMENT

### *Caring for horses* may include:

- listlessness
- shifted plates or shoes
- swelling in limbs
- travel sickness symptoms.
- adhering to responsibilities under OHS legislation and workplace practices
- adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare and transport of horses
- checking shoes or plates for shifting
- considering variables that influence behaviour of horses, such as:
  - fences and equipment
  - other persons or animals
  - vehicles
  - wind and noise
- cooling down horses according to weather conditions
- feeding and watering as directed
- identifying and reporting unsafe work practices
- identifying emergency situations, for example:
  - gear breakage
  - horse getting loose
- rugging as appropriate
- treating illness or injury as directed
- understanding individual horse behaviour
- wearing personal protective equipment.

### *Checking and cleaning vehicle and float* may include:

- gear and equipment are removed and stored
- manure is collected and removed to waste area
- rubber matting is cleaned or removed if wet
- vehicle and float are locked.

## RGRPSH203A Perform basic driving tasks

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to achieve basic driving skills using a well-educated horse with a docile temperament. It includes protecting the welfare of people and horses and providing post-exercise care of horses.

The term 'well-educated horse' refers to an animal that has undergone sufficient training to ensure that it behaves in a safe, tractable and manageable way when being handled, even by inexperienced personnel.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards. It is recommended that RGRPSH201A Handle horses be delivered in conjunction with or before this unit of competency.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports novice harness drivers to attain basic driving skills with a range of well-educated horses.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Protect safety and welfare of people and horses.

1. Appropriate personal protective equipment is selected, worn, stored and maintained.
2. Safety instructions, including ***venue-specific requirements*** , are followed.
3. ***Potential hazards*** are identified and risks minimised .

Provide pre-exercise care of horse.

4. Horses are caught and secured following safe handling procedures.
5. Pre-exercise grooming is carried out.

| ELEMENT                              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying aids to control speed and direction of a horse at walk and trot
- applying safe handling and work practices when dealing with horses
- applying safe basic driving skills
- communicating with employer, supervisor, co-workers and public venue employees using assertive communication techniques to gather, interpret and relay information related to performing basic driving tasks
- completing duties in accordance with safe operating procedures and nominated time frame
- following instructions
- identifying and correctly using different items of driving apparel
- identifying and correctly using different items of gear and assessing their condition in terms of safe use and need for repair

## REQUIRED SKILLS AND KNOWLEDGE

- identifying gait at which horse is working
- identifying and following venue rules
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities.

### Required knowledge

- aids to control the speed and direction of a horse
- basic industry terminology related to driving horses
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- relevant road safety rules.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when practising basic driving tasks
- demonstration of control of a quiet harness horse in basic driving manoeuvres in a controlled area
- implementation of procedures and timely techniques to complete basic driving tasks safely, effectively and efficiently
- working with others to undertake and complete basic

## EVIDENCE GUIDE

---

driving tasks that meet required outcomes.

Evidence should be collected over a period of time using a range of well-educated harness horses of different ages and sexes in racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace or simulated environment that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of well-educated harness horses
- materials and equipment relevant to assessing candidate's ability to practise basic driving skills
- safe handling and controlled driving areas, such as racing stables, and training or racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- RGRCMN201A Follow OHS procedures and observe environmental work practices
- RGRPSH201A Handle horses.

## EVIDENCE GUIDE

---

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to perform basic driving tasks. Workplaces include harness stables and racecourses, training tracks and public areas.

- Safety and welfare*** may include:
- adhering to responsibilities under OHS legislation and workplace practices
  - adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
  - adhering to rules of training arena and public venues
  - being aware of relevant road safety rules
  - considering variables that influence behaviour of horses, such as:
    - fences and equipment
    - other persons or animals
    - vehicles
    - wind and noise
  - contributing to development of risk control measures
  - following safe operating procedures
  - identifying and reporting hazards or unsafe work practices
  - identifying emergency situations, for example:

## RANGE STATEMENT

---

- gear breakage
- horse fall
- horse getting loose
- understanding horse behaviour traits as they relate to practising driving tasks, for example:
  - senses
  - social behaviour
  - fight or flight response
- understanding risks associated with handling horses, including:
  - bites
  - horse injury
  - personal injury
  - trampling
- using approved gear for horses
- using approved driving aids
- wearing personal protective equipment, including approved Australian Standard helmet, clothing and footwear.

***Venue-specific requirements*** may include:

- rules and regulations of training tracks
- relevant rules of racing.

***Potential hazards*** may include:

- distracting events or behaviours caused by people with no horse sense
- distracting events or situations due to natural causes, such as wind
- driver or horse falls
- driver illness due to weather conditions or other reasons
- driver injury due to getting clothing or body parts caught in gear
- gear failure
- hazards of:
  - driving alone
  - driving horses with bad habits
  - driving inexperienced horses
  - driving too close to other horses
- horse's behaviour and possible reactions, such as:
  - horse's ability to learn and remember routines and locations, such as:

## RANGE STATEMENT

---

- areas where previous incidents have occurred
- home stables
- track entry or exit points
- horse's natural instinct to:
  - rear, bite or kick if it feels threatened, excited or in pain
  - run if frightened
  - want to stay with other horses
- horse's lack of reasoning ability to rely on driver signals alone to discriminate between safe and unsafe stimuli
- horse's response to loud or unusual noise or other stimuli, including machinery and other animals
- horse injury.

***Pre-exercise care*** may include:

- checking disposition of horse
- grooming to instructions, for example:
  - brushing mane and tidying tail
  - checking legs for injury or swelling and removing mud or dirt
  - ensuring head, girth and saddle regions are free from mud and sweat
  - picking out hooves and checking shoes
- moving safely and calmly around the horse
- positioning horses in tie-up or in stable or yard for harnessing
- removing bandages or poultices
- selecting gear, checking for wear or damage and fitting as directed.

***Designated gear*** may include:

- bits, for example:
  - snaffle
  - rubber
- boots, for example:
  - scalping boot
  - shin or tendon
  - pastern boot and bell boot
- breastplate
- bridle
- crupper, for example:

## RANGE STATEMENT

## RANGE STATEMENT

---

***Post-exercise grooming*** may include:

- checking horse for injury and soreness
- grooming horses
- inspecting gear and equipment for wear and breakage
- warming down horses following stable procedures.
- brushing
- cleaning hooves
- hosing
- rolling
- scraping
- sheath cleaning
- towelling.

***Signs of gear wear and breakage*** may include:

- gear slippage
- frayed reins
- perished rubber or plastic
- rubbed hair or skin
- rusted buckles and bits
- worn bit joints
- worn padding
- worn stitching.

## Unit Sector(s)

## RGRPSH204A Prepare to drive jog work

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to achieve driving skills that prepare drivers for the specific requirements of controlling horses in trackwork, using a well-educated horse with a docile temperament. It includes protecting the welfare of people and horses.

The term 'well-educated horse' refers to an animal that has undergone sufficient training to ensure that it behaves in a safe, tractable and manageable way when being handled, even by inexperienced personnel. All references to driving skills and directions in this unit relate to beginner driver speed not trackwork speeds.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports novice harness drivers to attain jog work driving skills with a range of well-educated horses.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying aids to control speed and direction of horse at walk and jog
- adjusting driving methods according to responses of different horses
- applying safe handling and work practices when dealing with horses
- applying safe driving skills
- communicating with employer, supervisor, co-workers and public venue employees using assertive communication techniques to gather, interpret and relay information related to preparing to drive jog work
- completing duties in accordance with safe operating procedures and nominated time frame
- controlling speed and direction of harness horses
- following instructions
- identifying and correctly using different items of driving apparel
- identifying and correctly using different items of gear and assessing their condition in terms of safe use and need for repair
- identifying gait at which a horse is working
- identifying and following venue rules
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- using numeracy skills to measure distance and time.

## REQUIRED SKILLS AND KNOWLEDGE

### Required knowledge

- aids to control speed and direction of a horse
- industry terminology related to driving horses at trackwork
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- relevant road safety rules.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when practising basic jog work driving tasks
- demonstration of control of quiet harness horses in basic trackwork driving manoeuvres at beginner driver speed not trackwork speeds
- implementation of procedures and timely techniques to complete basic trackwork driving tasks safely, effectively and efficiently
- working with others to undertake and complete basic driving tasks that meet required outcomes.

Evidence should be collected over a period of time using a range of well-educated harness horses of different ages and sexes in racing stable and track environments.

## EVIDENCE GUIDE

---

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Harness Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of well-educated harness horses
- materials and equipment relevant to assessing candidate's ability to practise basic driving skills
- safe handling and controlled driving areas, such as racing stables, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Harness Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to prepare to drive jog work. Workplaces include harness stables and racecourses, training tracks and public areas.

Trackwork ***measurements*** may include:

- distances:
  - estimating distance when watching horses in action or in video
  - estimating distance while driving
  - measuring distances
  - pacing out distances
  - using distance markers
- speed:
  - counting manually
  - estimating speed by watching horses in action or on video
  - estimating speed while driving
  - using a stopwatch to measure time.

***Trackwork instructions*** may include:

- directions to maintain or change position when working with other horses
- gear to be used
- length of time, distance and speed horses are to be worked
- type of warm-up or cool-down exercise
- work speed and distance over particular track sections.

***Modifying trackwork instructions*** may include:

- reducing or stopping trackwork due to:
  - gear failure
  - horse or driver injury
  - impact of weather conditions on horse health
  - track incident or potential hazard

## RANGE STATEMENT

## RANGE STATEMENT

---

close to marker poles or set distance off markers

- maintaining nominated controlled speed
- working with others:
  - changing position on track relative to other horses
  - maintaining position relative to other horses throughout exercise at controlled speed
  - moving back behind other horses at controlled speed
  - overtaking other horses at controlled speed.

**Strategies** may include:

- complying with road rules and track rules
- planning ahead to avoid potential hazards, such as:
  - avoiding driving too close to obstacles or other horses
  - being aware of location of track or exercise area entrance and exit points
  - maintaining control when horses get their tails over reins
  - making suitable corrections to maintain control when horses:
    - bolt
    - buck
    - jump shadows
    - kick
    - pig root
    - stumble
    - shy
  - negotiating public roads and traffic
  - paying attention to location and behaviours of other drivers and horses
  - slowing down in good time
  - watching for unusual obstacles or hazards, damaged equipment or other distractions
  - watching out for track staff, members of the public and other animals
- using assertive rein pressure to encourage horse to follow directions

## RANGE STATEMENT

---

- using corrective aids, such as:
  - bits
  - boots
  - burrs
  - ear plugs
  - head checks
  - hobbles
  - martingales
- using rein pressure to control speed and direction
- using voice to calm or reassure horse.

## Functional Area

**Functional Area**                      Racing performance services

## RGRPSH205A Perform basic riding tasks

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to achieve basic riding skills using a well-educated horse with a docile temperament and includes protecting the welfare of people and horses and providing post-exercise care of horses.

The term 'well-educated horse' refers to an animal that has undergone sufficient training to ensure that it behaves in a safe, tractable and manageable way when being handled and ridden, even by inexperienced personnel.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards. It is recommended that RGRPSH201A Handle horses be delivered in conjunction with or before this unit of competency.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports novice riders to attain basic riding skills with a range of well-educated horses.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying aids to control speed and direction of a horse at walk, trot and canter
- applying safe handling and work practices when dealing with horses
- applying safe basic riding skills
- communicating with employer, supervisor, co-workers and public venue employees using assertive communication techniques to gather, interpret and relay information related to performing basic riding tasks
- completing duties in accordance with safe operating procedures and nominated time frame
- fitting gear
- following instructions
- grooming horses pre and post-exercise

## REQUIRED SKILLS AND KNOWLEDGE

- identifying and correctly using different items of riding apparel
- identifying and correctly using different items of gear and assessing their condition in terms of safe use and need for repair
- identifying gait at which a horse is working
- identifying and following venue rules
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- retrieving reins
- riding horses singly or in company in a controlled and supervised environment
- saddling horses
- stopping and changing direction of horse.

### Required knowledge

- aids to control speed and direction of a horse
- basic industry terminology related to riding horses
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- relevant road safety rules.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when performing basic

## EVIDENCE GUIDE

---

riding tasks

- demonstration of control of a quiet thoroughbred horse in basic riding manoeuvres in a controlled area
- implementation of procedures and timely techniques to complete basic riding tasks safely, effectively and efficiently
- working with others to undertake and complete basic riding tasks that meet required outcomes.

Evidence should be collected over a period of time using a range of well-educated thoroughbred horses of different ages and sexes in racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace or simulated environment that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of well-educated thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to perform basic riding skills
- safe handling and controlled riding areas, such as racing stables, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

## EVIDENCE GUIDE

### Guidance information for assessment

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- RGRCMN201A Follow OHS procedures and observe environmental work practices
- RGRPSH201A Handle horses.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to perform basic riding tasks. Workplaces include thoroughbred stables and racecourses, training tracks and public areas.

- Safety and welfare*** may include:
- adhering to responsibilities under OHS legislation and workplace practices
  - adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
  - adhering to rules of training arena and public venues
  - being aware of relevant road safety rules as they apply to horses being led or ridden singly and in company
  - considering variables that influence behaviour of horses, such as:
    - fences and equipment
    - other persons or animals

## RANGE STATEMENT

---

- vehicles
- wind and noise
- contributing to development of risk control measures
- following safe operating procedures
- identifying and reporting hazards or unsafe work practices
- identifying emergency situations, for example:
  - gear breakage
  - horse bolting
  - horse fall
  - horse getting loose
  - lack of control of horse
- understanding horse behaviour traits as they relate to practising riding tasks, for example:
  - senses
  - social behaviour
  - fight or flight response
- understanding risks associated with handling horses, including:
  - bites
  - horse injury
  - personal injury
  - trampling
- using approved gear for horses
- using approved riding aids
- wearing personal protective equipment, including approved Australian Standard helmet, clothing and footwear.

***Venue-specific requirements*** may include:

- rules of training arena
- rules and regulations of training tracks
- relevant rules of racing.

***Potential hazards*** may include:

- distracting events or behaviours caused by people with no horse sense
- distracting events or situations due to natural causes, such as wind
- rider or horse falls
- rider illness due to weather conditions or other reasons
- gear failure

## RANGE STATEMENT

---

- hazards of:
  - riding alone
  - riding horses with bad habits
  - riding inexperienced horses
  - riding too close to other horses
- horse's behaviour and possible reactions, such as:
  - horse's ability to learn and remember routines and locations, such as:
    - areas where previous incidents have occurred
    - home stables
    - track entry or exit points
  - horse's natural instinct to:
    - rear, bite or kick if it feels threatened, excited or in pain
    - run if frightened
    - want to stay with other horses
  - horse's lack of reasoning ability to rely on rider signals alone to discriminate between safe and unsafe stimuli
  - horse's response to loud or unusual noise or other stimuli, including machinery and other animals
- horse injury.

***Pre-exercise care*** may include:

- checking disposition of horse
- grooming to instructions, including:
  - brushing mane and tidying tail
  - checking legs for injury or swelling and removing mud or dirt
  - ensuring head, girth and saddle regions are free from mud and sweat
  - picking out hooves and checking shoes
- moving safely and calmly around the horse
- positioning horses in tie-up or in stable or yard for saddling
- removing bandages or poultices
  - selecting gear, checking for wear or damage and fitting as directed.

***Basic riding skills*** will include:

- fitting gear for comfort and safety

## RANGE STATEMENT

## RGRPSH206A Develop riding skills for flatwork

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to develop riding skills for flatwork using well-educated horses. It includes communicating with supervisor and co-workers, assessing hazards, protecting the welfare of people and horses, and providing post-exercise care of horses.

The term well-educated horse' refers to an animal that has undergone sufficient training to ensure that it behaves in a safe, tractable and manageable way when being handled and ridden.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards. It is recommended that RGRPSH201A Handle horses is delivered and assessed before or in conjunction with this unit of competency.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports novice riders who have attained basic riding skills to ride horses at flatwork in less controlled conditions with a range of well-educated horses.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Problems are reported and post-exercise care of horses and gear is carried out following stable procedures.</li> </ol> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying aids to control speed and direction of a horse at walk, trot and canter
- applying safe handling and work practices when working with horses
- applying safe riding skills
- assessing hazards and obstacles related to horse exercise areas
- being aware of relevant road safety rules
- communicating with employer, supervisor, co-workers and public venue employees using assertive communication techniques to gather, interpret and relay information related to developing flatwork riding skills
- completing duties in accordance with safe operating procedures and nominated time frame
- complying with safe zones when riding horses
- fitting horse gear and riding apparel
- following instructions
- identifying and correctly using different items of gear and assessing their condition in terms of safe use
- identifying gait at which a horse is working
- identifying and following exercise area rules and regulations
- maintaining riding etiquette
- preparing horses for exercise and providing post-exercise care to horses
- reading and interpreting workplace documentation, including relevant rules of racing

## REQUIRED SKILLS AND KNOWLEDGE

- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- riding horses singly and in company
- working safely with other stable employees.

### Required knowledge

- aids to control speed and direction of a horse
- communication procedures within stable and wider racing industry
- gear and equipment
- paces of horses
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- riding etiquette
- road and track rules
- safe zones for riding.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when developing riding skills for flatwork
- demonstration of flatwork riding skills under controlled conditions
- implementation of procedures and timely techniques to complete riding skills for flatwork safely, effectively and efficiently
- working with others to undertake and complete

## EVIDENCE GUIDE

|                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|---------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                         | <p>flatwork riding skills that meet required outcomes.</p> <ul style="list-style-type: none"> <li>Evidence should be collected over a period of time using a range of well-educated thoroughbred horses of different ages and sexes in racing stable and track environments.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Context of and specific resources for assessment</b> | <p>Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.</p> <p>Assessment of the practical components of this unit will be by observation of relevant skills.</p> <p>The following resources must be available:</p> <ul style="list-style-type: none"> <li>a variety of well-educated thoroughbred horses</li> <li>materials and equipment relevant to assessing candidate's ability to perform flatwork riding skills</li> <li>safe handling and controlled riding areas, such as racing stables, and training and racetracks</li> <li>work instructions and related documentation.</li> </ul>                                          |
| <b>Method of assessment</b>                             | <p>Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.</p> <p>The suggested strategies for the assessment of this unit are:</p> <ul style="list-style-type: none"> <li>written and/or oral assessment of candidate's required knowledge</li> <li>observed and firsthand testimonial evidence of candidate's application of practical tasks</li> <li>simulation exercises conducted in a State Principal Racing Authority approved simulated environment.</li> </ul> <p>Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.</p> <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>RGRCMN201A Follow OHS procedures and observe environmental work practices</li> </ul> |

## EVIDENCE GUIDE

### Guidance information for assessment

- RGRPSH201A Handle horses.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to develop riding skills for flatwork. Workplaces include thoroughbred stables and racecourses, training tracks and public areas.

***Exercise instructions*** may include:

- duration of exercise
- exercise venue
- instructions received by phone or email
- pace
- specific gear or equipment to be used.

***Exercise areas*** may include:

- bull rings
- bush trails
- designated slow exercise areas at racecourses
- paddocks
- private roads at racecourses
- private tracks
- rules and regulations of exercise area.

***Hazards and obstacles*** may include:

- broken rails, fences or gates
- creeks and waterholes
- dusty or eroded tracks
- horses
- machinery
- rabbit holes
- slippery or muddy surfaces

## RANGE STATEMENT

---

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## RGRPSH207A Perform stable duties

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to clean and maintain the stable environment, identify and report workplace hazards, provide feed and water to horses, groom horses and monitor basic horse health and welfare.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards. It is recommended that RGRPSH201A Handle horses be delivered in conjunction with or before this unit of competency.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports stablehands, strappers, leading hands, trainers and others authorised to perform routine stable duties.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Perform stable duties and identify potential hazards.

1. Racing stable operations are complied with.
2. Boxes are cleaned and bedding is replaced in accordance with stable routine.
3. ***Stable environment*** and yards are cleaned, swept or raked.
4. ***Hazards in the workplace*** are identified and reported to nominated person.

Provide feed and water

5. Common feedstuffs are identified.

| ELEMENT                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                             |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with horses
- catching, leading, handling and tying up horses
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to performing stable duties
- completing duties in accordance with safe operating procedures and nominated time frame
- evaluating risks associated with working around horses
- following directions

## REQUIRED SKILLS AND KNOWLEDGE

- identifying and correctly using different items of grooming gear
- identifying common horse illnesses or injuries
- identifying horse behaviour, social traits and vices
- identifying individual horses
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- basic industry terminology related to horse illnesses or injuries, feeding and grooming
- bedding materials
- characteristics of healthy horses
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- common feedstuffs
- effective working relationships, including teamwork
- feed quality
- grooming equipment
- horse feeding and drinking patterns
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- racing stable operations and reporting protocols
- relevant rules of racing
- workplace hazards, including chemicals, heavy loads, machinery, equipment, other people and horses.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Critical aspects for assessment and** The evidence required to demonstrate competency in this

## EVIDENCE GUIDE

---

### evidence required to demonstrate competency in this unit

unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when performing stable duties
- implementation of procedures and timely techniques for the safe, effective and efficient application of stable duties
- working with others to undertake and complete stable duties that meet required outcomes.

Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness or thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to perform stable duties
- safe handling areas, such as racing stables and yards
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal

|                                            | <p>Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.</p> <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• RGRCMN201A Follow OHS procedures and observe environmental work practices</li> <li>• RGRPSH201A Handle horses.</li> </ul> <p>Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).</p> |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to perform stable duties. Workplaces include harness or thoroughbred stables and racecourses, training tracks and public areas.

***Racing stable operations*** may include:

- catching and tying up horses
- cleaning boxes
- cleaning drains
- cleaning waterers, buckets and feedbins
- cleaning grooming equipment
- grooming horses
- following instructions regarding order of operations
- hosing horses

## RANGE STATEMENT

---

- identifying and adapting to changes to routine in morning and afternoon shifts and when horses are racing or trialling
- moving horses from boxes to saddling bays
- preparing and providing feed and water
- picking out hooves
- replacing bedding
- rolling horses
- starting walking machines
- sweeping feed rooms
- sweeping or raking yards
- walking horses pre and post-exercise.

***Stable environment*** may include:

- barns
- boxes
- courtyards
- hosing docks
- round yards
- saddling bays
- sand rolls
- stables
- walking areas
- walking machines
- yards.

***Hazards in the workplace*** may include:

- chemicals
- heavy loads, for example bags of feed
- horses
- machinery and equipment
- other people
- unsafe work practices.

***Feed and water preparation*** will include:

- applying rules of cleanliness and hygiene
- reading feed preparation lists
- providing correct mix and quantity of feed to individual horses in line with factors that affect feeding regimes, including:
  - age and gender of horse
  - individual taste
  - level of work and racing status
  - metabolism
- reporting contaminated feed.

Feed may be ***contaminated*** due

- mould or water damage

## RANGE STATEMENT

|                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## RANGE STATEMENT

- checking legs for injury or swelling and removing mud or dirt
- ensuring head, girth and saddle regions are free from mud and sweat
- picking out hooves and checking shoes
- post-exercise grooming, depending upon individual stable routine and climate, includes:
  - rolling horse
  - removing sand
  - hosing, for example:
    - trace high or full body, using care with head
  - scraping horse
  - towelling horse and keeping hindquarters warm
  - checking legs for injury or swelling
  - nostrils and eyes cleansed
  - dock and sheath cleansed
  - body groomed
  - brushing mane and tidying tail
  - mane pulling as required and directed
  - picking out and dressing hooves and checking shoes.

***Illness or injury*** horses may suffer include:

- back soreness
- colic
- coughs or colds
- epistaxis
- exertional rhabdomyolysis (tying up)
- shin soreness
- tendon or ligament sprains
- thrush
- viruses
- wounds, such as puncture wounds.

Signs ***observed*** indicating healthy or unhealthy horse may include:

- bleeding
- colic
- discharges
- favouring legs
- hot or cold body parts, for example:
  - ears
  - legs

## RANGE STATEMENT

---

- inappetence, including fluid intake
- irregular temperature and respiration rates
- listlessness
- sweating
- swelling.

## Unit Sector(s)

**Unit Sector** Harness and thoroughbred racing codes

## Co-requisite units

**Co-requisite units**

## Functional Area

**Functional Area** Racing performance services

## RGRPSH208A Attend horses at trackwork

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to prepare horses for trackwork, perform post-exercise procedures and maintain working gear.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards. It is recommended that RGRPSH207A Perform stable duties be delivered before or in conjunction with this unit of competency.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports stablehands, strappers, leading hands, trainers and others authorised to attend horses at trackwork.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Prepare horses for trackwork.

1. Horses to be ***worked*** are verified.
2. ***Approved working gear*** is identified, selected and checked for wear.
3. Horses are safely ***handled*** according to ***rules and protocols*** specific to activity and location.
4. Horses are fitted with nominated approved gear and ***prepared for work*** .

Perform post-exercise

5. Gear is removed, ***checked, cleaned*** and stored in

| ELEMENT                | PERFORMANCE CRITERIA                                                               |
|------------------------|------------------------------------------------------------------------------------|
| procedures.            | accordance with stable procedures.                                                 |
|                        | 6. <b>Stable procedures</b> for post-work or exercise care of horses are followed. |
|                        | 7. Rugs are selected and fitted to individual horses.                              |
|                        | 8. Irregularities with horse and gear are reported.                                |
| Maintain working gear. | 9. Working gear is cleaned, checked and maintained.                                |
|                        | 10. Signs of wear and damage to gear are reported.                                 |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with horses
- attaching and releasing horses from jog vehicles (harness)
- catching, leading, handling and tying up horses
- communicating with employer, supervisor, trainer, co-workers and others using assertive communication techniques to gather and relay information related to attending horses at trackwork
- completing duties in accordance with safe operating procedures and nominated time frame
- evaluating risks associated with working around horses
- fitting approved gear
- following instructions of trainer and working autonomously when necessary
- following stable procedures
- identifying and fitting rugs
- identifying and incorporating principles of horse learning into training
- identifying and reporting irregularities with horse and gear
- identifying approved gear
- maintaining working gear
- preparing horses for work
- performing post-exercise procedures
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities

## REQUIRED SKILLS AND KNOWLEDGE

- selecting gear and rugs
- storing gear.

### Required knowledge

- approved gear and rugs
- communication procedures within stable and wider racing industry
- common racehorse behaviour traits
- common horse illnesses or injuries
- effective working relationships, including teamwork
- features of horses
- industry terminology
- irregularities with horses and gear
- personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- stable procedures
- track rules and regulations.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when attending horses at trackwork
- implementation of procedures and timely techniques for safe, effective and efficient attendance of horses at trackwork
- working with others to undertake and complete duties that meet required outcomes.

## EVIDENCE GUIDE

---

Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness or thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to attend horses at trackwork
- safe handling areas, such as racing stables and training or racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- RGRCMN201A Follow OHS procedures and observe environmental work practices

## EVIDENCE GUIDE

### Guidance information for assessment

- RGRPSH201A Handle horses
- RGRPSH207A Perform stable duties.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to attend horses at trackwork. Workplaces include harness and thoroughbred stables and racecourses, training tracks and public areas.

Horses may be ***worked*** by:

- jogging machines or vehicles (harness)
- paddock exercise
- swimming
- trackwork, including:
  - fast work
  - slow work
- treadmills
- walking machines.

Verifying horses to be ***worked*** may include:

- asking questions
- checking worksheets against stall numbers
- identifying individual horse features.

***Approved working gear*** may include:

- gear that is approved by the state or territory regulatory racing body for use in trackwork
- general horse gear:
  - anti-rearing bits
  - bandages
  - blinkers

## RANGE STATEMENT

---

- double clip leads
- floating boots
- nosebands
- pacifiers
- shadow rolls
- tongue ties
- winkers
- harness-specific gear:
  - bridles
  - bits
  - driving boots
  - head checks
  - hobbles
  - hobble shorteners
  - lugging poles
  - jog vehicles
  - pull up blinds
  - reins
  - removable deafeners
  - removable hoods
  - saddles
  - shoes
  - sulkies
- thoroughbred-specific gear:
  - breastplates
  - bridles
  - bits
  - girths
  - reins
  - rings
  - saddles
  - shoes
  - stirrup irons and leathers
  - surcingles
  - working boots.
- adhering to responsibilities under OHS legislation and workplace practices
- adhering to responsibilities under national and

Factors to consider when horses are **handled** include:

## RANGE STATEMENT

---

state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare

- considering variables that influence behaviour of horses, such as:
  - fences and equipment
  - other persons or animals
  - vehicles
  - wind and noise
- checking for injury
- cooling horses down by walking in hand
- fitting rugs and gear
- holding horses for riders
- hosing, scraping and towelling horses
- identifying common hazards, which may include:
  - gear, machinery and equipment
  - other horses
  - other people, including employees
  - physical environment
  - unsafe work practices
- leading horses into and from tie-up
- legging up riders
- practising safe work procedures
- rolling horses
- tying up horses
- walking person to person
- warming horses up by walking in hand, or by placing on treadmill or walking machine.

***Rules and protocols*** may include:

- council regulations, for example:
  - swimming horses
- leading horses at the track with bits and double clip leads
- local track rules and regulations
- road rules, for example:
  - crossing roads leading horses
- rules of racing, including:
  - animal welfare principles
  - drugs and alcohol
  - personal protective equipment.

## RANGE STATEMENT

---

Factors relevant when horses are ***prepared for work*** include:

- checking feed and water intake
- checking manure quality and quantity
- checking disposition of horse
- checking for injury
- checking gear for wear and damage
- following stable procedures
- grooming to instructions, for example:
  - brushing mane and tidying tail
  - checking legs for injury or swelling and removing mud or dirt
  - ensuring head, girth and saddle regions are free from mud and sweat
  - picking out hooves and checking shoes
- moving safely and calmly around the horse
- positioning horses in tie-up or in stable or yard for saddling
- removing bandages or poultices
- selecting and fitting gear as directed
- warming-up horses.

Procedures followed when gear is ***checked and cleaned*** may include:

- checking gear for:
  - breakage
  - gear loss on track
  - signs of wear and damage, including:
    - cracked leather or PVC
    - frayed leads, girths and surcingles
    - rusted bits, buckles and clips
    - splits and rough edges which may cause discomfort to horses
- disassembling and reassembling all tack
- infection control practices in care, cleaning and use of gear
- regular cleaning and maintenance program.

***Stable procedures*** for post-work care of horses may include:

- cooling horses down
- checking for injuries
- grooming horses
- reporting injuries
- rolling, hosing, scraping and towelling horses
- rugging horses
- walking or floating from track.

## RANGE STATEMENT

---

*Irregularities with horse* may include:

- epistaxis
- exertional rhabdomyolysis (tying up)
- injury
- loose shoes
- reports from rider indicating irregularities while working, for example:
  - roaring
  - soreness
- slow recovery rate.

## Unit Sector(s)

**Co-requisite units**

## Functional Area

**Functional Area**                      Racing performance services

## RGRPSH209A Attend horses at race meetings and trials

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to prepare horses for race meetings and trials, attend race meetings and perform post-race meeting duties.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards. It is recommended that RGRPSH201A Handle horses be delivered in conjunction with or before this unit of competency.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports stablehands, strappers, trainers and others authorised to strap horses for race meetings and trials.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- assisting with saddling or harnessing process
- applying safe handling and work practices when dealing with horses
- caring for horses
- cooling down horses
- communicating with employer, supervisor, trainer, co-workers and others using assertive communication techniques to gather and relay information related to attending horses at race meetings and trials
- following instructions of trainer and working autonomously when necessary with regard to attending horses for race meetings and trials
- following stable procedures
- grooming horses
- identifying race gear
- identifying and using grooming tools
- identifying irregularities with horses
- parading horses
- preparing horses for race meetings
- performing post-race procedures
- reading and interpreting workplace documentation, including relevant rules of racing

## REQUIRED SKILLS AND KNOWLEDGE

- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting irregularities with horse or gear to trainer.

### Required knowledge

- communication procedures within stable and wider racing industry
- common racehorse behaviour traits
- common race injuries
- effective working relationships, including teamwork
- industry terminology
- irregularities with horses and gear
- personal presentation
- post-race procedures
- pre-race duties
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- race gear
- relevant rules of racing
- saddling or harnessing procedures.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when strapping horses for race meetings and trials
- implementation of procedures and timely techniques for the safe, effective and efficient attendance of horses at race meetings and trials
- working with others to undertake and complete

---

## EVIDENCE GUIDE

particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to attend horses at race meetings and trials. Workplaces include harness and thoroughbred stables and racecourses, training tracks and public areas.

Horses are ***prepared*** prior to race meetings by:

- checking horse for illnesses or injuries
- checking feed and water intake
- checking manure quantity and quality
- fitting floating bandages, boots and tail guards
- grooming
- mane pulling as directed
- picking out feet
- shampooing as directed
- tail trimming as directed.

***Race gear*** may include:

- anti-rearing bit and double clip lead (selected)
- bandages, elastoplast and vetwrap
- blinkers, pacifiers, tongue ties and nosebands as needed
- buckets
- colours
- cotton wool or gamgee wraps
- grooming kit
- needles, thread and tape
- race bridles
- rugs
- shampoo

## RANGE STATEMENT

---

***Personal presentation*** may include:

- spare leads
- stencils for quarter marks
- sulkies
- towels.
- dress
- grooming
- jewellery
- personal behaviour.

***Instructions from officials*** will relate to:

- changing order of place in parade ring
- giving unruly horse over to clerk of course
- holding horse for identification check
- holding horse for presentation following race
- taking horse to swab box
- walking horse for inspection.

***Pre-race or pre-trial duties*** will include:

- attendance to animal welfare in stalls
- assisting in swabbing process
- preparation of horses for racing, including:
  - applying quarter marks
  - bridling at appropriate time
  - grooming
  - keeping horse calm
  - shampooing
  - taping or bandaging
  - warming up.

***Parading*** horses will include:

- adhering to safe work practices
- awareness of other horses in enclosure or birdcage
- following directions from officials
- holding horse for jockey or driver to mount
- identifying potential hazards, including:
  - horses
  - other people
  - gear and equipment
  - physical environment
  - unsafe work practices
- keeping horse calm
- listening for mount-up instructions
- leading horse onto track and unclipping lead promptly

## RANGE STATEMENT

---

- maintaining safe space between horses
  - parading in numerical order
  - walking in correct direction.
- Post-race or post-trial procedures*** may include:
- assisting with swabbing
  - cooling horse down
  - holding horse for presentation or photos
  - leading horse from enclosure
  - observing semaphore for placing and meeting horse and rider in correct location
  - observing horse for signs of heat stress
  - walking horse in quiet area while presentation preparations are made.
- Injury*** may include:
- cuts and wounds
  - heel or sole injury from shifted or sprung plates
  - jarring up
  - muscle damage
  - tendon or ligament damage.
- Horses may be ***cooled down*** by:
- allowing small drinks of water
  - hosing down
  - placing towel or quarter sheet on loins
  - scraping to remove excess water
  - walking horse for up to 30 minutes.
- Horses and gear may be ***prepared for return to stables*** by:
- collecting and packing gear
  - ensuring horse is properly cooled down before being loaded for transport
  - fitting bandages and boots.
- Returned to stables*** procedures may include:
- checking again for illness, injury or distress
  - checking shoes
  - feeding and watering horse according to stable routine
  - reporting irregularities
  - rolling and hosing horse, depending upon climate
  - rubbing down
  - rugging horse
  - storing gear
  - walking horse after floating if horse is boxed.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with horses
- awareness of trainer and employee roles and responsibilities
- communicating with employer, supervisor, co-workers and feed merchants using assertive communication techniques to gather, interpret and relay information related to implementing stable operations
- completing duties in accordance with safe operating procedures and nominated time frame
- following instructions
- identifying, using and storing medications according to workplace procedures
- incorporating safe operating procedures into all instructions
- reading and interpreting workplace documentation, including relevant rules of racing
- recognising changes in condition of horses
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting problems promptly
- written communication skills to complete workplace documentation and reports.

## REQUIRED SKILLS AND KNOWLEDGE

### Required knowledge

- communication procedures within stable and wider racing industry
- common horse illnesses and injuries
- emergency plans
- gear and equipment maintenance
- procedures for using medications
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- stable supplies
- stable security
- staff duties and routines
- workplace conditions.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when implementing stable operations
- implementation of procedures and timely techniques to complete stable operations safely, effectively and efficiently
- working with others to undertake and complete stable operation tasks that meet required outcomes.

Evidence should be collected over a period of time using a range of harness or thoroughbred horses of different ages and sexes in racing stable and track environments.

---

## EVIDENCE GUIDE

---

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness or thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to implement stable operations
- safe handling areas, such as racing stables, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- RGRCMN201A Follow OHS procedures and observe environmental work practices
- RGRPSH201A Handle horses.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities,

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to implement stable operations. Workplaces include harness or thoroughbred stables and racecourses, training tracks and public areas.

***Obligations and responsibilities of trainers*** will include:

- adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
- complying with rules of racing
- complying with OHS legislation and providing duty of care, covering:
  - safe plant and equipment
  - safe systems of work
  - safe premises
  - information, instructions and training
  - adequate supervision
- dealing with clients
- managing stable
- training horses.

***Obligations of racing employees*** will include:

- complying with Australian and local rules of racing
- contributing to safe work arrangements
- cooperating with employers
- following animal welfare principles
- following directions of trainers or supervisors
- following safe operating procedures.

## RANGE STATEMENT

---

***Rules and regulations of racing and OHS*** will include:

- OHS, including:
  - contributing to safe work environment
  - cooperating with employer:
    - wearing prescribed safety equipment
    - obeying health and safety rules
    - notifying trainer or supervisor of potential or actual hazards
  - following directions of trainer or supervisor
- rules of racing, including:
  - drug use as related to horses and personnel
  - harassment
  - registration or identity card
  - stable security.

***Procedures for use and security of medications*** will include:

- inventory
- locked cabinets
- nominated person to use
- system of identifying horses for treatment
- rules of racing
- safe horse handling
- safe disposal of materials, including sharps and containers
- recording treatments
- material safety data sheets.

***Emergency plans*** will include:

- emergency phone numbers
- evacuation plans
- fire or flood plans
- injury to people
- injury to horses.

***Reporting, managing and monitoring horses*** will include:

- feed and water intake
- gear fit and use
- illnesses and injuries
- maintaining horse record systems
- presentation of horses at trackwork, trials and race meetings
- post-work recovery
- rugging requirements
- temperature monitoring.

***Workplace conditions*** may include:

- avoiding diseases and infections
- doing job the correct way

## RANGE STATEMENT

---

***Gear and equipment maintenance*** may include:

- following track rules and regulations
- following stable procedures
- keeping work areas clean and tidy
- reporting injuries
- reporting workplace hazards
- using safe handling and lifting methods
- using the right equipment.
- checking gear inventory
- cleaning gear
- inspecting stable equipment, including:
  - rakes
  - shovels
  - wheelbarrows
- recommending purchase of new gear or equipment
- removing and reporting broken or damaged gear or equipment
- sending gear or equipment for repair.

***Supplies*** will include:

- bedding
- disinfectants
- feed and feed supplements
- gear and equipment
- grooming tools
- medications and associated veterinary items
- rugs.

## RGRPSH302A Supervise handling of horses

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to direct, assist and oversee others to identify and safely catch, control and handle horses.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards. It is recommended that RGRPSH201A Handle horses be delivered in conjunction with or before this unit of competency.

The competencies operate in work environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports senior stablehands, leading hands, trainers and others authorised to oversee the safe handling of horses.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Direct, assist and oversee others to identify and safely catch, control and handle horses.

1. ***Instructions*** are given to others regarding catching, controlling and general handling of horses as required by stable.
2. ***Assistance*** is provided to others in identifying and handling horses.
3. ***Competence*** of other workers with regard to handling individual horses is determined.
4. Tasks are ***delegated*** according to current competence

**ELEMENT****PERFORMANCE CRITERIA**

and animal and staff welfare.

5. Use of ***different gear*** to control and handle horses is explained and demonstrated.
6. Opportunities are provided for ***practice and skill development*** for inexperienced staff.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with horses
- assessing individual's capability to perform specific tasks
- catching, leading and handling horses
- coaching and mentoring
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to horse handling activities
- completing duties in accordance with safe operating procedures and nominated time frame
- delegating tasks
- evaluating risks associated with catching and handling horses
- identifying and correctly using different items of handling gear
- identifying features of horses using industry standards
- identifying horse behaviour, social traits and vices
- incorporating safe operating procedures into all instructions
- giving, receiving and interpreting instructions
- leading and handling horses in enclosed spaces
- providing opportunities for staff to practise skills development
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities and adapting instructions, and practice and skills development opportunities to suit these varying needs
- supporting others in handling horses in the appropriate manner.

#### Required knowledge

## REQUIRED SKILLS AND KNOWLEDGE

- industry terminology related to handling horses
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- effective working relationships, including teamwork
- handling techniques for horses
- industry terminology related to handling horses and wider racing industry
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- range and purpose of gear
- relevant rules of racing
- relevant road safety rules
- safe work practices when giving instructions
- staff management.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when supervising the handling of horses
- implementation of procedures and timely techniques for the safe, effective and efficient handling of horses
- working with others to undertake and complete horse handling procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments.

## EVIDENCE GUIDE

---

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness or thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to supervise handling of horses
- safe handling areas, such as racing stables and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- RGRCMN201A Follow OHS procedures and observe environmental work practices.

### Guidance information for

Assessment methods should reflect workplace demands

## EVIDENCE GUIDE

### assessment

(e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to supervise the handling of horses. Workplaces include harness and thoroughbred racing stables and racecourses, training tracks and public areas.

**Instructions** to others may cover:

- approved gear
- individual horse behaviour
- relevant rules of racing
- road safety, including:
  - crossing roads
  - using reflective strips on rugs and vests
  - using underpasses or overpasses
- safe horse handling and leading procedures.

**Assistance** in identifying or handling horses may be provided to:

- farriers
- float drivers
- other stable employees
- swab attendants
- stewards
- trainers
- veterinarians or therapists.

**Competence** of other workers may be determined by:

- observing successful completion of graduated tasks
- questioning.

Factors to consider when tasks are

- adhering to responsibilities under OHS legislation and workplace practices

## RANGE STATEMENT

***delegated*** may include:

- adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare and transport of horses
- adhering to rules of training tracks and public venues
- approved gear for horses
- assessing competence of individual workers
- considering variables that influence behaviour of horses, such as:
  - fences and equipment
  - other persons or animals
  - vehicles
  - wind and noise
- identifying potential hazards and applying risk control measures
- individual horse behaviour
- relevant road safety rules
- wearing approved personal protective equipment, including approved Australian Standard helmet, vest, clothing and footwear.

***Different gear*** may include:

- general horse gear:
  - bandages
  - blinkers
  - floating boots
  - nosebands
  - pacifiers
  - shadow rolls
  - tongue ties
  - blinkers
- harness-specific gear:
  - bits
  - bridles
  - deafeners
  - driving boots
  - hobbles
  - hobble shorteners
  - jog vehicles
  - lugging poles

## RANGE STATEMENT

---

- pull up blinds
- reins
- removable deafeners
- saddles
- shoes
- sulkies
- thoroughbred-specific gear:
  - bits
  - breastplates
  - bridles
  - girths
  - reins
  - rings
  - saddles
  - shoes
  - stirrup irons and leathers
  - surcingles
  - working boots.

***Different gear*** may be used to:

- address behavioural problems
- address conformation or anatomical faults
- correct action.

***Practice and skill development***  
opportunities may include:

- graduating difficulty of tasks
- mentoring
- staff initially working with less difficult horses, for example:
  - horses returning from spelling
  - lead ponies
- training courses.

## RGRPSH303A Supervise transportation of horses

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to follow road use regulations and requirements, conduct vehicle and float safety checks, apply strategies for loading difficult horses, and supervise the care of horses during and after transit.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards. It is recommended that RGRPSH201A Handle horses be delivered in conjunction with or before this unit of competency.

A current driver's licence and an appropriate level of driving experience are also requirements.

This unit of competency operates in work environments of racing stables, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports leading hands, trainers and others authorised to supervise the transportation of horses.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

Care of horses is supervised <b>post-travelling</b> . |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with horses
- conducting safety checks on vehicles and floats
- communicating with employer, co-workers and others using assertive communication techniques to gather, interpret and relay information related to supervising transportation of horses
- completing duties in accordance with safe operating procedures
- defensive driving and appropriate level of driving expertise
- identifying and using different items of personal protective equipment
- identifying horse behaviour problems
- identifying signs of stress in horses
- identifying symptoms and signs of illness or injury
- identifying types of horse transport
- operating a range of equipment and technology

## REQUIRED SKILLS AND KNOWLEDGE

- reading and interpreting workplace documentation, including rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting problems promptly
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- air and sea transportation procedures
- alternative loading techniques
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- horse health status
- horse illnesses and injuries
- load capacity of vehicles and floats
- logbooks
- purpose of using appropriate personal protective equipment
- procedures for operation and maintenance of equipment and technology
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- road safety rules and regulations regarding transport of animals
- signs of stress in horses
- vehicle safety.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- consistent timely completion of transportation procedures that safely, effectively and efficiently

## EVIDENCE GUIDE

---

meet required outcomes

- knowledge of the requirements, procedures and instructions that are to apply when supervising transportation of horses and dealing with difficult loaders
- implementation of procedures and techniques for the safe, effective and efficient transport of horses
- working with others to undertake and complete transportation procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness or thoroughbred horses
- materials and equipment, including transport vehicles relevant to assessing candidate's ability to supervise transportation of horses
- safe handling areas, such as racing stables, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal

## EVIDENCE GUIDE

Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- RGRCMN201A Follow OHS procedures and observe environmental work practices.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to supervise the transportation of horses. Workplaces include harness and thoroughbred stables and racecourses, training tracks and public areas.

***Types of transport*** may include:

- air transport
- floats:
  - angle loaders
  - back loaders
  - double:
    - extended front

## RANGE STATEMENT

---

|                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| <b>Evaluation of health status</b> may include:                   | <ul style="list-style-type: none"> <li>• prior to travelling: <ul style="list-style-type: none"> <li>• assessing vital signs</li> </ul> </li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

## RANGE STATEMENT

---

- assessing horse for illness or injury
- checking feed and water intake
- ensuring horse is hydrated
- observing manure and urine
- picking out feet and checking status of shoes
- after travelling:
  - checking brightness of eye and horse's head for injury
  - checking hooves for signs of heat
  - checking mucosal membranes inside mouth
  - checking for rubbing or abrasions on body
  - checking hydration levels by skin pinch
  - conducting capillary refill test
  - lifting hooves and checking shoes are not sprung or shifted
  - removing tail bandage and checking for evidence of diarrhoea
  - removing leg bandages or boots and checking for heat and swelling
  - taking horse's temperature
  - walking horse, observing action and listening to footfall
  - observing horse for 24 to 36 hours.

**Poor travellers** may include:

- nervous sweaters
- scramblers.

**Signs of stress** may include:

- colic
- dehydration
- diarrhoea
- elevated temperature
- increased respiration rate
- increased pulse rate
- lameness
- listlessness
- pale mucosal membranes
- slow capillary refill
- sweating at neck and girth, for example high temperature
- sweating at flanks
- uncommon individual horse behaviour.

## RANGE STATEMENT

---

|                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|----------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Horses may be <b><i>stressed</i></b> due to:             | <ul style="list-style-type: none"><li>• excessive dust</li><li>• excessive noise inside float from passing trucks</li><li>• high temperatures and humidity changes</li><li>• horse placed next to another horse with existing respiratory infection</li><li>• horse subject to bullying from other horses</li><li>• poor float hygiene</li><li>• poor driving techniques, for example speed and excessive braking</li><li>• poor ventilation</li><li>• slippery flooring</li><li>• tying horse's head too high and too short</li><li>• travelling horses before they cool down after strenuous exercise</li><li>• travelling horses for longer than 12 hours</li><li>• travelling without rest stops every four to six hours.</li></ul> |

| <b><i>Other illness indicators</i></b> may include:      | <ul style="list-style-type: none"><li>• travel sickness, including:<ul style="list-style-type: none"><li>• pleuropneumonia</li><li>• chest pain</li><li>• depression</li><li>• lack of interest in feed</li><li>• painful stance, for example forelegs wide apart</li><li>• reluctance to move</li><li>• rapid but shallow respiration rate</li><li>• suppressed, painful coughs.</li></ul></li></ul>                                                                                                                                                                                                                                                                                                                                   |
| <b><i>Post-travelling care of horse</i></b> may include: | <ul style="list-style-type: none"><li>• checking shoes or plates for shifting</li><li>• cooling down horses according to weather conditions</li><li>• ensuring animal welfare principles are followed</li><li>• providing feed and water</li><li>• rugging as appropriate</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## RANGE STATEMENT

---

- treating illness or injury.

## Unit Sector(s)

**Unit Sector** Harness and thoroughbred racing codes

## Co-requisite units

**Co-requisite units**

## Functional Area

**Functional Area** Racing performance services

## RGRPSH304A Identify factors that affect racehorse performance

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to work safely using independent judgement to recognise signs of fitness in horses, identify abnormalities, recognise problems and communicate options to improve horse performance.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards. It is recommended that RGRPSH201A Handle horses be delivered in conjunction with or before this unit of competency.

This unit of competency operates in work environments of racing stables, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports trackwork riders, senior stablehands, horse trainers, harness drivers, apprentice jockeys and others to identify the factors that affect racehorse performance.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Understand factors that affect horse movement.

1. Features of racehorse ***conformation*** are identified.
2. ***Gaits*** of racehorses are identified and described.
3. Lameness and other abnormalities are identified and reported.
4. Reasons for use of ***corrective gear*** are identified and options to improve horse performance evaluated.

| ELEMENT                                   | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                               |

Behavioural and physical indicators of fitness are identified.</li><li>7. Signs and symptoms of distress in working horses are recognised and reported.</li><li>8. Horses' post-exercise recovery is observed and reported.</li></ol> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe work practices when handling, and driving or riding horses
- checking signs and symptoms of distress when handling or working horses
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather, interpret and relay information related to identifying factors that affect racehorse performance
- completing duties in accordance with safe operating procedures and nominated time frame
- following instructions
- identifying behavioural or physical indicators of horse fitness
- identifying signs and symptoms of distress in working horses
- identifying different items of corrective gear
- identifying and describing normal and abnormal gaits
- observing and reporting horses' post-exercise recovery
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- recognising factors that influence speed and strength in racehorses
- reporting problems promptly
- taking action in a safe manner should horses suffer distress when being exercised.

#### Required knowledge

- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- corrective gear
- features of racehorse conformation
- gaits of a horse

## REQUIRED SKILLS AND KNOWLEDGE

- horse fitness indicators
- lameness in horses
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- signs and symptoms of distress in working horses.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when identifying factors that affect racehorse performance
- implementation of procedures and timely techniques to safely, effectively and efficiently complete identification of factors that affect racehorse performance
- working with others to undertake and complete tasks related to the identification of factors that affect racehorse performance that meet required outcomes.

Evidence should be collected over a period of time using a range of well-educated thoroughbred horses of different ages and sexes in racing stable and track environments.

#### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards

## EVIDENCE GUIDE

---

requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness or thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to identify factors that affect racehorse performance
- safe handling and driving or riding areas, such as racing stables, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- RGRCMN201A Follow OHS procedures and observe environmental work practices.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to identify factors that affect racehorse performance. Workplaces include harness and thoroughbred stables and racecourses, training tracks and public areas.

Features of racehorse  
***conformation*** may include:

- balance and proportion
- body type
- front leg features that may impact on performance
- hind leg features that may impact on performance
- shoulder and pastern angle.

***Gaits*** of racehorse may include:

- abnormal gait:
  - brushing
  - cross firing
  - forging
  - getting down on bumpers
  - over reaching
  - plaiting
  - speedy cutting
  - stumbling
  - winging
- footfalls at each gait
- normal gait:
  - walking or trotting on loose rein towards, past or away from observer
  - cantering and galloping action.

***Lameness and other abnormalities*** will include:

- bone chips
- bone spavin
- bowed tendon
- heat or swelling in limbs
- muscle strain or sprain
- navicular disease

## RANGE STATEMENT

---

|                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| <b><i>Factors that influence speed and strength</i></b> may include:       | <ul style="list-style-type: none"> <li>• basic structure and function of muscle</li> <li>• body type, for example: <ul style="list-style-type: none"> <li>• fast twitch or slow twitch muscle fibre proportions</li> <li>• sprinter</li> <li>• stayer</li> </ul> </li> <li>• climatic conditions</li> <li>• hydration status</li> <li>• individual horse's action</li> <li>• overheating</li> <li>• track conditions and surface</li> <li>• training programs</li> <li>• turns or jumping from barriers</li> <li>• warm up and cool down.</li> </ul> |
| <b><i>Behavioural and physical indicators of fitness</i></b> will include: | <ul style="list-style-type: none"> <li>• behavioural: <ul style="list-style-type: none"> <li>• alert manner</li> <li>• good appetite</li> <li>• keen to work</li> </ul> </li> <li>• physical:</li> </ul>                                                                                                                                                                                                                                                                                                                                             |

## RANGE STATEMENT

---

- bright eye
- good exercise recovery
- less or clearer sweat
- muscle development
- rib and hindquarters well-defined
- shoulders and hindquarters more bulky (sprinters)
- shiny coat
- sound action:
  - noise of uneven footfall (lameness)
  - vision of sound action
  - feel of sound action.

***Signs and symptoms of distress in working horses*** may include:

- circulatory distress:
  - bleeding
  - prolonged increased heart rate
- metabolic distress:
  - colic
  - exertional rhabdomyolysis (tying up)
  - thumps
- musculo-skeletal distress:
  - heat in limbs
  - lameness
  - reluctance to bear weight on all legs
  - swelling
  - wounds
- nervous distress:
  - colic
  - dehydration
  - diarrhoea
  - kicking
  - muscle cramps
  - overheating
  - shivering
  - twitching
  - exertional rhabdomyolysis (tying up)
- respiratory distress:
  - bleeding (lung)
  - chronic coughing

# RGRPSH305A Develop driving skills for trackwork

## Modification History

Not Applicable

## Unit Descriptor

### Unit descriptor

This unit of competency specifies the outcomes required to develop driving skills for trackwork using well-educated horses. It includes communicating with supervisor and co-workers, assessing hazards, protecting the welfare of people and horses, and providing post-exercise care of horses.

The term well-educated horse' refers to an animal that has undergone sufficient training to ensure that it behaves in a safe, tractable and manageable way when being handled and ridden.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards. It is recommended that RGRPSH201A Handle horses be delivered in conjunction with or before this unit of competency.

It is recommended that competence be demonstrated in basic driving before attempting this unit.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

## Application of the Unit

**Application of the unit** This unit of competency supports novice drivers to develop driving skills for trackwork in less controlled conditions with a range of well-educated horses.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

### Prerequisite units

Horses are worked according to <b>trainer's instructions</b> .</li> <li>11. Post-exercise care of horses and gear is carried out according to stable procedures.</li> </ol> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying aids to control speed and direction of horse at walk and trot
- applying safe handling and work practices when driving horses
- applying safe driving skills
- assessing hazards and obstacles related to horse exercise areas
- being aware of relevant road safety rules
- communicating with employer, supervisor, co-workers and public venue employees using assertive communication techniques to gather, interpret and relay information related to developing driving skills for trackwork
- completing duties in accordance with safe operating procedures and nominated

## REQUIRED SKILLS AND KNOWLEDGE

time frame

- driving horses singly and in company
- fitting horse gear and driving apparel
- following instructions
- identifying and correctly using different items of gear and assessing their condition in terms of safe use
- identifying gait at which a horse is working
- identifying and following exercise area rules and regulations
- maintaining driving etiquette
- preparing horses for exercise and providing post-exercise care to horses
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- understanding and complying with safe zones when driving horses
- using numeracy skills to measure distance and time
- working safely with other stable employees.

### Required knowledge

- aids to control speed and direction of a horse
- communication procedures within stable and wider racing industry
- driving etiquette
- gear and equipment
- paces of horses
- private road and track rules
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- safe zones for driving.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

## EVIDENCE GUIDE

---

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when developing driving skills for trackwork
- demonstration of driving skills for trackwork according to trainer instructions
- implementation of procedures and timely techniques to complete driving skills for trackwork safely, effectively and efficiently
- working with others to undertake and complete driving skills for trackwork that meet required outcomes.

Evidence should be collected over a period of time using a range of well-educated harness horses of different ages and sexes in racing stable and track environments.

### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Harness Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of well-educated harness horses
- materials and equipment relevant to assessing candidate's ability to practise driving skills
- safe handling and controlled driving areas, such as racing stables, and training and racetracks
- work instructions and related documentation.

### **Method of assessment**

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

## EVIDENCE GUIDE

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Harness Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to develop driving skills for trackwork. Workplaces include harness stables and racecourses, training tracks and public areas.

***Exercise instructions*** may include:

- duration of exercise
- exercise venue
- pace, including walking and jogging
- specific gear or equipment to be used.

***Exercise areas*** may include:

- designated slow exercise areas at racecourses
- paddocks
- private roads at racecourses

## RANGE STATEMENT

---

***Hazards and obstacles*** may include:

- private tracks
- relevant rules of racing
- rules and regulations of exercise area.
- broken rails, fences or gates
- creeks and waterholes
- dusty or eroded tracks
- horses
- machinery
- rabbit holes
- slippery or muddy surfaces
- stray animals, including native animals
- vehicles.

***Gear selected*** will include:

- bits, for example:
  - snaffle
  - straight rubber
- boots, for example:
  - ankle (pastern)
  - bell boot
  - scalping
  - shin
- breastplate
- bridle
- crupper, for example:
  - standard
  - rubber dock
  - tail tie
- harness
- saddle
- standard overcheck or head check
- driver gear:
  - approved Australian Standard helmet, clothing and footwear
- sulky.

***Horse is prepared for exercise*** by:

- fitting bridle comfortably to horse with reins secured until ready to attach to sulky
- positioning sulky to assist with balance to reduce resistance when in motion
- requesting assistance from strapper for driving or leading exercise
- making final check of gear before mounting

## RANGE STATEMENT

---

|                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

## RGRPSH306A Develop basic trackwork riding skills

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to comply with trackwork rules, protocols and safety requirements and prepare riders for the specific trackwork requirements of controlling horses in slow work, in an exercise saddle, on well-educated horses with docile temperaments.

The term 'well-educated' refers to an animal that has undergone sufficient training to ensure that it behaves in a safe, tractable, and manageable way when being handled, even by inexperienced personnel.

To undertake this unit the candidate will be able to apply safe horse handling and workplace OHS standards, and demonstrate competent flatwork riding skills.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports trackwork riders to develop basic trackwork riding skills at slow paces with a range of well-educated horses.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Comply with trackwork rules, protocols and safety requirements.

1. Safety requirements, rules and regulations for rider and horse are followed.
2. Fit, wear and suitability of ***approved gear*** are checked prior to riding.
3. ***Track features***, weather and potential hazards are evaluated for safety and reported to track supervisor if necessary.

Develop riding skills on

4. Horse is mounted or dismounted following safe work

| ELEMENT                                            | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

Time counting and pace estimation skills are developed.<br>15. <i>Rules for riding in company</i> on the track are followed.<br>16. Trainer or foreman's instructions are followed.<br>17. Skills needed to control horses in a range of <b>common trackwork situations</b> are demonstrated.                                   |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe riding and work practices when dealing with horses
- applying trackwork riding skills
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to basic trackwork riding
- completing duties in accordance with safe operating procedures and nominated time frame
- controlling mounted horse and lead horse simultaneously

## REQUIRED SKILLS AND KNOWLEDGE

- counting the time and identifying the pace at which horse is working
- evaluating risks associated with riding trackwork
- following instructions of supervisor with regard to riding horses in trackwork
- identifying and correctly using different items of approved gear
- identifying horse behaviour, social traits and vices
- interpreting and implementing trackwork instructions
- leading horse at walk while mounted
- maintaining riding etiquette
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities.

### Required knowledge

- basic industry terminology related to riding horses
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- effective working relationships and teamwork
- riding techniques
- personal protective equipment and purpose for its use
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- range and purpose of approved gear
- relevant rules of racing
- riding etiquette.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

## EVIDENCE GUIDE

- knowledge of the requirements, procedures and instructions that are to apply when riding basic trackwork
- demonstration of control of quiet thoroughbred horses in a range of common, slow trackwork riding situations
- implementation of procedures and timely techniques for the safe, effective and efficient application of basic trackwork riding skills
- working with others to undertake and complete basic trackwork riding procedures that meet required outcomes.
- Evidence should be collected over a period of time using a range of well-educated racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to demonstrate basic trackwork riding skills
- safe handling areas and appropriate practical riding areas, such as racing stables, and training and racetracks
- work instructions and related documentation.

### Method of assessment

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRCMN201A Follow OHS procedures and observe environmental work practices
- RGRPSH206A Develop riding skills for flatwork
- RGRPSH304A Identify factors that affect racehorse

## EVIDENCE GUIDE

### Guidance information for assessment

performance.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to develop basic trackwork riding skills. Workplaces include thoroughbred stables and racecourses, training tracks and public areas.

### ***Safety requirements, rules and regulations*** may include:

- adhering to responsibilities under OHS legislation and workplace practices
- adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
- approved personal protective equipment, including approved Australian Standard helmets, vests, clothing and footwear
- considering variables that influence behaviour of horses, such as:
  - fences and equipment
  - other persons or animals
  - vehicles
  - wind and noise
- following safe operating procedures
- gear or equipment that is approved by the regulatory racing body to be worn by horses when being handled
- general requirements pertaining to safety as

## RANGE STATEMENT

|                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## RANGE STATEMENT

---

***Fitness requirements for trackwork riders*** will include:

- position of feet in irons.
- ability to exercise horses at required pace and distance as instructed
- ability to respond to common trackwork situations
- practising gym and fitness regime if not riding horses on a daily basis
- regular use of mechanical horse, equisizer horse or other fitness aid.

***Safe transfer*** will include:

- awareness of strapper's position between horses and moving away from horses
- controlling mounted horses
- folding excess lead in large loops
- talking to horses.

***Control of lead horse and mounted horse*** may include:

- adhering to regulations of racecourse and private roads
- ensuring correct gear is fitted to horse being led, including:
  - bridle with reins tied off around horse's neck and double clip lead
  - if saddled, irons run up
  - if rugged, all fittings secure
  - boots and bandages secure
- encouraging horses to settle at transfer of lead before moving off
- ensuring either horse does not move in advance of the other horse at any time
- halting horses smoothly
- keeping lead horse's head turned toward rider
- leading horse from off side
- leading only one horse at a time
- length of lead
- maintaining firm hold on both reins and lead
- maintaining walking pace
- maintaining safe zones when in company of other horses
- walking through gateway, racecourse or stable entrances and exits.

***Riding etiquette*** may include:

- checking carefully to make sure way is clear before proceeding
- keeping unnecessary noise to a minimum

## RANGE STATEMENT

---

***Slow trackwork*** includes:

- riding horses to ensure you meet oncoming horses near side to near side
- waiting until oncoming horses have passed before proceeding
- waiting for vehicles to pass before proceeding.
- long, slow distance work
- trotting, cantering and half pace
- working horses on nominated slow tracks on nominated slow days.

***Factors to consider with time counting and pace estimation*** include:

- ensuring horse does not overwork or underwork
- following instructions
- judging number of seconds per 200 metres or furlong
- strong canter to half pace.

***Rules for riding in company to be taken into account*** include:

- maintaining safe length and width space between horses
- track rules:
  - riding past horses
  - riding in the bull ring
  - passing slower horses
  - entering and leaving track
  - entering and leaving tie-ups
  - working in pairs
  - working with more than two other horses.

***Common trackwork situations may*** include:

- broken reins or defective gear
- fallen horses or riders
- horse whipping around
- horse ducking out the gap
- horse going in reverse direction
- horse shying
- loose or out of control horses
- track hazards and variations in surface.

## RGRPSH307A Exercise horses in pacework

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to ride a range of horses in pacework, identify approved gear, accept rides based on rider and horse experience, report horse's performance to trainer, use methods to control horses in a range of situations and organise riding commitments.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards, and demonstrate competent slow trackwork riding skills. It is recommended that RGRPSH201A Handle horses be delivered in conjunction with or before this unit of competency.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports trackwork riders to develop pacework riding skills.

### Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe riding and work practices
- communicating with employer, trainer, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to riding pacework
- determining horse experience
- employing techniques to control horses
- judging pace and identifying pace at which horse is working
- following instructions of trainer, or working autonomously when necessary, with regard to riding horses in pacework
- identifying and fitting items of approved gear
- identifying and following safe track entry and exit procedures for all tracks
- interpreting and implementing trackwork instructions
- organising commitments and planning work activities
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting horse performance to trainer
- riding horses in pacework and adhering to individual trainer's interpretation of timing for half pace
- selecting aids in accordance with trainer instructions and rules of racing
- warming horses up and down
- working horses singly or with other horses in a controlled manner and according to instructions

## REQUIRED SKILLS AND KNOWLEDGE

- written communication skills to complete workplace documentation and reports.

### Required knowledge

- basic industry terminology related to riding horses in pacework
- communication procedures within stable and wider racing industry
- common racehorse behaviour traits
- effective working relationships and teamwork
- pacework riding techniques
- personal protective equipment and purpose for its use
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- range and purpose of approved gear
- relevant rules of racing
- safe entry and exit points for all tracks.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when riding pacework
- demonstration of control of experienced thoroughbred horses in a range of common pacework riding situations
- implementation of procedures and timely techniques for the safe, effective and efficient organisation of riding commitments and application of pacework riding skills
- working with others to undertake and complete pacework riding procedures that meet required outcomes.

---

## EVIDENCE GUIDE

---

### Context of and specific resources for assessment

Evidence should be collected over a period of time using a range of experienced racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments.

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to demonstrate pacework riding skills
- safe handling and appropriate practical riding areas, such as racing stables, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for

Assessment methods should reflect workplace demands

## EVIDENCE GUIDE

### assessment

(e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to exercise horses in pacework. Workplaces include thoroughbred stables and racecourses, training tracks and public areas.

***Horses*** ridden in slow work may include:

- horses racing or trialling
- older horses
- pullers
- young horses.

***Aids*** may include:

- natural aids, including:
  - hands
  - legs
  - seat or weight
  - voice
- artificial aids that require experience and moderation in use, including:
  - bits and auxiliary reins
  - crops
  - martingales
  - spurs
  - whips.

***Rider experience*** will include:

- ability to recognise own limits of riding skill
- appropriate ways to accept and decline rides
- duration of riding experience
- fitness of rider.

## RANGE STATEMENT

---

**Horse experience** will include:

- age of horse
- education level of horse
- experience and capability of trainer
- individual horse behaviour.

**Techniques** may include:

- changing the bridge
- shortening lengths
- using corrective gear, including:
  - bits
  - blinkers
  - cross-over nosebands
  - pacifiers
  - rings
  - shadow rolls
  - tongue ties
- working horse with other horses or lead pony
- working horse by itself.

**Horse performance report** may include:

- describing action irregularities, including:
  - climbing
  - hanging
  - lameness or stepping short
- describing behavioural problems, including:
  - attempting to duck out of gap
  - baulking with other horses
  - shying
- describing keenness to work, including:
  - on the bit, pulling
  - off the bit
- describing respiratory irregularities, including:
  - bleeding
  - choking down
  - coughing
  - roaring.

**Trackwork riding commitments** may be:

- arranged by employer or trainer
- self-managed.

**Obligations** may include:

- apprentice jockey arrangements
- award or indenture
- fee per ride
- freelance trackwork rider payment

## RANGE STATEMENT

---

arrangements

- insurance cover
- number of horses each morning
- time of morning to ride
- what days to ride considering slow and fast mornings
- workers compensation.

# RGRPSH308A Provide first aid and emergency care for horses

## Modification History

Not Applicable

## Unit Descriptor

### Unit descriptor

This unit of competency specifies the outcomes required to measure and record vital signs of horses; identify and report signs of common illnesses and injuries; provide emergency care and follow first aid policies and procedures; make pre and post-race health and fitness assessments of horses; apply treatments under supervision; and follow the rules of racing related to the administration of prohibited substances.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards. It is recommended that RGRPSH201A Handle horses be delivered before or in conjunction with this unit of competency.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit. Check with your State Principal Racing Authority for current license or registration requirements.

## Application of the Unit

### Application of the unit

This unit of competency supports stablehands, foremen, trainers and others authorised to provide first aid and emergency care for horses.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while

also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

Horses are calmed and <b>restrained</b> and <b>risks</b> are identified.</p> <p>10. Threat to life of illness or injury is considered and plan of action is determined.</p> |
| Apply basic first aid to horses.                | <p>11. Restraints are used to prevent further injury or to apply first aid to horses.</p> <p>12. <b>Wounds are cleaned</b> and protected from further contamination or injury.</p> <p>13. Swelling is controlled .</p> <p>14. Bandages are applied for management of bleeding, swelling, wounds and possible fractures.</p> <p>15. Horses are <b>nursed</b> to reduce impact of shock, distress and pain.</p> <p>16. Horse behaviour and vital signs are monitored and observations recorded.</p>                                                                                                                                                                                                                                                                                         |
| Respond to hoof and leg illnesses and injuries. | <p>17. Feet and legs are inspected for signs of injury, soreness or foreign bodies .</p> <p>18. Common injuries and ailments to hooves, feet and legs are identified.</p> <p>19. Poultice is applied .</p> <p>20. <b>Condition and fit</b> of horse shoes are assessed.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Assess health and fitness of horses.            | <p>21. <b>Pre and post-race assessment</b> of horse for injuries, distress, health and fitness is implemented.</p> <p>22. <b>Pharmaceutical or therapeutic treatments</b> are applied under trainer or veterinary instructions and supervision.</p> <p>23. <b>Rules</b> relating to <b>prohibited substances</b> and alternative treatments are known and applied.</p>                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with horses
- applying basic first aid to horses
- applying quarantine control measures for isolation of sick horses and prevention of transference of disease by horses, other animals and humans
- assessing vital signs of horses
- assessing and responding to injuries in horses
- calming and restraining horses
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to providing horses with first aid and emergency care
- evaluating risks associated with catching, handling and restraining horses
- following instructions of supervisor
- identifying behaviour of individual horses
- identifying and correctly using different treatments under supervision
- identifying common illnesses and injuries in horses
- incorporating safe operating procedures into all instructions
- providing assistance to others in the workplace
- reporting horse irregularities to stable nominated person
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- supporting others in handling and providing treatment to horses in the appropriate manner
- using numeracy skills to measure vital signs
- written communication skills to complete workplace documentation and reports.

#### Required knowledge

- basic industry terminology related to handling and treating horses
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- common illnesses and injuries in horses
- disease control and reporting requirements

## REQUIRED SKILLS AND KNOWLEDGE

- effective working relationships, including teamwork
- handling techniques for horses
- horse first aid
- methods of restraining horses
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- signs of shock in horses
- signs of lameness in horses
- types of treatments.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when providing first aid and emergency care for horses
- implementation of procedures and timely techniques for the safe, effective and efficient provision of first aid and emergency care for horses
- working with others to undertake and complete first aid and emergency care procedures that meet required outcomes.
- Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments.

#### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal

## EVIDENCE GUIDE

---

Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness or thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to provide first aid and emergency care for horses
- safe handling areas, such as racing stables, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

RGRCMN201A Follow OHS procedures and observe environmental work practices.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to provide first aid and emergency care for horses. Workplaces include harness and thoroughbred racing stables and racecourses, training tracks and public areas.

***Measuring and recording*** may include:

- measuring rectal temperature with mercury and digital thermometers
- writing diary entries for temperature in degrees centigrade
- measuring heart rate over 30 seconds, then calculating in beats per minute
- writing diary entries for heart rate in beats per minute
- measuring respiration in breaths per minute
- writing diary entries for respiration in breaths per minute.

***Hydration level reporting methods*** may include:

- verbal and diary entry of observation of neck skin pinch rebound time measured in seconds
- verbal and diary entry of observation of capillary refill time measured in seconds.

***Common illnesses*** may include:

- circulatory disorders
- eye, nose and mouth disorders, including:
  - bleeding
  - conjunctivitis
  - ulcers
- digestive disorders, including:
  - colic
  - diarrhoea or scouring
- metabolic disorders:
  - exertional rhabdomyolysis (tying up)
  - thumps
- musculo-skeletal disorders:

## RANGE STATEMENT

---

- back soreness
- knocked down hip
- shin soreness
- respiratory disorders, including:
  - exercise induced pulmonary haemorrhage (EIPH)
  - respiratory infections
  - travel sickness
- skin disorders, including:
  - girth galls
  - rain scald
  - ringworm
  - whither sores.

***Causes for shock*** may include:

- colic
- extensive wounds
- fractured limbs
- loss of blood
- snakebite
- traumatic accidents, for example hit by car.

***Common injuries*** may include:

- bruises
- falls
- girth galls
- joint injuries
- over-reaching
- scalping
- speedy cutting
- sprained ligaments or tendons
- strained muscles
- tack rubs
- wounds.

***Incident site may be inspected and assessed*** to identify:

- potential hazards for illness or injury of horses or people, including:
  - building or facility damage
  - crush or impact hazards
  - electrocution hazards
  - slip, trip or fall hazards
  - toxic substances
- rescue equipment required, including:
  - restraints

## RANGE STATEMENT

---

***First aid policy and procedures***  
may include:

- ropes
- winches
- rescue specialist assistance requirements:
  - emergency services
  - veterinary assistance
  - animal health specialist services.
- administration of treatments
- communication procedures when horses are treated
- disease prevention and control
- emergency care
- emergency phone numbers, for example veterinarian and fire department
- permissible treatments
- procedure for recording treatments
- procedure for recording and reporting vital signs
- routine health checks
- replenishing supplies of first aid kits
- system of referral for injury treatment
- staff access to first aid treatments and materials.

***Reasons referral to a specialist***  
may be necessary include:

- horse may:
  - be insured
  - have to be treated with race day or non-race day prohibited substances
  - have to be withdrawn from competition
  - require prescription medication
  - require stitching or specialist injury management or treatment
- illness may be:
  - contagious condition
  - notifiable disease
  - passed on to humans
- illness or injury may be:
  - life threatening or have consequences to ongoing career of horse
  - result of neglect or non-compliance with duty of care.

## RANGE STATEMENT

---

|                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-----------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Horses</b> may be restrained using:                                | <ul style="list-style-type: none"> <li>• bit and head collar or bridle</li> <li>• crush</li> <li>• leg lift</li> <li>• skin pinch</li> <li>• twitch.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Risks associated with handling horses</b> may include:             | <ul style="list-style-type: none"> <li>• bites</li> <li>• horse injury</li> <li>• kicks</li> <li>• personal injury</li> <li>• trampling.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Controlling risks associated with handling horses</b> may include: | <ul style="list-style-type: none"> <li>• adhering to responsibilities under OHS legislation and workplace practices</li> <li>• adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare</li> <li>• considering variables that influence behaviour of horses, such as : <ul style="list-style-type: none"> <li>• fences and equipment</li> <li>• other persons or animals</li> <li>• vehicles</li> <li>• wind and noise</li> </ul> </li> <li>• contributing to development of risk control measures</li> <li>• following safe operating procedures</li> <li>• identifying and reporting unsafe work practices</li> <li>• identifying emergency situations, for example: <ul style="list-style-type: none"> <li>• gear breakage</li> <li>• horse getting loose</li> </ul> </li> <li>• understanding individual horse behaviour</li> <li>• wearing personal protective equipment.</li> </ul> |
| <b>Basic first aid</b> may include:                                   | <p>applying bandages for:</p> <p>controlling bleeding and swelling</p> <p>drawing out foreign bodies or pus</p> <p>splinting</p> <p>wound protection</p> <ul style="list-style-type: none"> <li>• cleaning wounds</li> <li>• controlling bleeding</li> <li>• managing shock</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## RANGE STATEMENT

---

- nursing sick, in pain or anxious horses
- observing behaviour signs and symptoms of illness and injury
- preventing where possible further injury or spread of disease
- providing clean, warm or cool shelter out of inclement weather
- quarantining sick horses
- removing where possible cause of illness or injury
- restraining an injured or cast horse to prevent further injury
- taking and monitoring vital signs
- treating swelling and inflammation.

**First aid equipment** may include:

- antiseptic creams, lotions or sprays
- bandages and wound dressings
- infection control items
- inflammation and swelling control items, including:
  - cold hosing
  - icepacks
  - pressure bandaging
- poultices
- scissors
- wound cleaning solutions.

**Wounds** are cleaned with consideration to:

- options for treatment when animal is in pain or reluctant to stand still
- possible requirement for stitching of wound
- potential for infection
- presence of foreign bodies or internal damage.

**Swelling** can be controlled by:

- cold water therapy:
  - hosing
  - whirlpool boots
  - walking in cold water
- ice therapy:
  - ice boots
  - icepacks using available sources, such as frozen peas or ice blocks
- pressure bandaging.

**Nursing** may include:

- adjusting rugs to ensure adequate warmth

## RANGE STATEMENT

***Signs of injury, soreness or foreign bodies in horse's feet*** may include:

- keeping horse quiet and calm
- monitoring vital signs and behaviour regularly
- sponging or hosing to lower temperature.
- distorted shape or angle of limbs
- favouring a leg
- heat
- irregular movement in some or all gaits
- reluctance to allow leg or foot to be handled
- reluctance to move
- resting a foot
- swelling
- visible object in foot.

***Types of injuries and ailments to hooves, feet and legs*** may include:

- capped hocks
- corns
- laminitis
- loose shoe
- navicular disease
- sand cracks
- seedy toe
- shin soreness
- sole bruise and abscess
- thrush.

***Application of poultice*** may include:

- selecting drawing agent, including:
  - commercial preparations
  - herbal or other treatments
  - heat treatment
- applying protective covering, such as:
  - paper, plastic or other layers
  - adhesive bandages and bandage cover
  - poultice boots
  - sole protectors.

***Condition and fit of horse shoes*** would include:

- shoes display even wear
- shoe seated along hoof wall avoiding pressure on bars and sole
- shoes firmly fitted to hoof, and nails tight enough to ensure shoe fit is stable
- shoe removed if considered likely to cause further damage by:
  - identifying and describing function of shoeing tools required to remove a loose

## RANGE STATEMENT

|                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

# RGRPSH309A Implement feeding programs for racehorses under direction

## Modification History

Not Applicable

## Unit Descriptor

### Unit descriptor

This unit of competency specifies the outcomes required to monitor and maintain racehorse feeding programs under direction and understand the factors that regulate racehorse feeding programs.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards. It is recommended that RGRPSH201A Handle horses be delivered in conjunction with or before this unit of competency.

This unit of competency operates in work environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

## Application of the Unit

### Application of the unit

This unit of competency supports licensed and registered personnel and others authorised to prepare and distribute feed for horses under direction.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Monitor and maintain racehorse feeding program.

1. Quality and suitability of feed and feed supplements for horses are evaluated.
2. Feeds are ***prepared and distributed*** in line with feeding program.
3. Feed storage areas and water supplies are maintained, cleaned and kept free of ***contaminants***.

| ELEMENT                                                               | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with horses
- communicating with employer, supervisor, co-workers and feed merchants using assertive communication techniques to gather, interpret and relay information related to implementing feeding programs
- completing duties in accordance with safe operating procedures and nominated time frame
- following instructions
- identifying and correctly using different feed components and feed supplements
- identifying individual horses
- identifying changes to horse feeding behaviour
- reading and interpreting workplace documentation, including relevant rules of racing
- recognising changes in condition of horses
- recognising spoiled feed
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting problems promptly
- understanding horse digestive system
- using feed weighing scales
- written communication skills to complete workplace documentation.

## REQUIRED SKILLS AND KNOWLEDGE

### Required knowledge

- basic horse digestion
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- feed and feed supplements
- feeding principles, including racehorse nutritional requirements
- interaction between feed and supplements that may result in contravention of industry regulations
- quality, type and value of feed
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- weights and energy value of feeds.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when feeding horses under direction
- implementation of procedures to complete horse feeding tasks safely, effectively and efficiently
- working with others to undertake and complete horse feeding tasks that meet required outcomes.

Evidence should be collected over a period of time using a range of harness and thoroughbred horses of different ages and sexes in racing stable and track environments.

**Context of and specific resources for** Competency must be assessed in a racing workplace that

## EVIDENCE GUIDE

---

### assessment

provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a range of harness and thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to implement feeding programs for horses under direction
- safe handling areas, such as racing stables
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to implement feeding programs for racehorses under direction. Workplaces include harness and thoroughbred stables and racecourses, training tracks and public areas.

***Quality and suitability of feed and feed supplements*** may include:

- recognising quality of feed:
  - age
  - presence or absence of mould
  - rodent or other spoilage
  - type of grass or grain species
- recognising:
  - electrolytes
  - herbal remedies
  - prescribed additives
  - vitamins and minerals
- recognising and evaluating pre and post-race feeds
- understanding basic digestive system
- understanding feeding principles.

***Preparation and distribution of feeds*** will include:

- adhering to enterprise's feeding time requirements
- changing rations, as directed, to suit local conditions:
  - high energy feeds for racing animals
  - spelling feeds for horses coming into work or being let down
  - climate
- damping feeds as required
- ensuring prepared feed is given to correct horse
- following relevant rules of racing related to feed additives
- following safe horse handling practices

## RANGE STATEMENT

## RANGE STATEMENT

---

*Common problems related to incorrect feeding* may include:

- changing consistency, odour or frequency of manure or urine
- developing a dull or rough coat
- developing a nervy disposition
- losing or gaining weight.
- contravention of rules of racing
- colic
- diarrhoea
- leg swelling
- laminitis
- exertional rhabdomyolysis (tying up).

### **Unit Descriptor**

**Unit descriptor** This unit of competency specifies the outcomes required to determine current and future financial requirements, identify sources of professional assistance, develop strategies for self-promotion, and identify and apply principles of small business management.

This unit of competency operates in work environments of racing stables, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

### **Application of the Unit**

**Application of the unit** This unit of competency supports drivers, riders and trainers to prepare for self-management in racing.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

### **Licensing/Regulatory Information**

Refer to Unit Descriptor

### **Pre-Requisites**

**Prerequisite units**

## Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency. Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

| ELEMENT                                                  | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying marketing and promotions strategies
- checking documentation and records
- communicating with racing officials, colleagues, accountants, financial advisers and others using assertive communication techniques to prepare for self-management in racing
- computer skills, including:
  - basic data entry and retrieval
  - email and internet
- establishing budgets
- following rules of racing
- identifying sources of professional advice
- identifying principles and requirements of small business management
- identifying and evaluating services of riders' agents
- investigating future career options
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- using numeracy skills to recognise and apply principles of financial record keeping and budgeting
- written communication skills to maintain business documentation and related records.

#### Required knowledge

- business promotion and public relations principles
- career options
- communication procedures within stable and wider racing industry
- financial record keeping
- investments
- insurance
- marketing and promotion
- relevant rules of racing
- sources of professional advice
- small business management
- superannuation
- taxation requirements.

# Evidence Guide

## EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when preparing for self-management in racing
- implementation of procedures and timely techniques to effectively apply business and financial management skills and marketing techniques
- working with others to undertake and complete tasks related to preparing for self-management in racing that meet required outcomes.

Evidence should be collected over a period of time and be focused on business and marketing activities related to self-management in racing. Theoretical components can be assessed in a simulated situation but must be related to racing industry conditions and contexts.

### **Context of and specific resources for assessment**

Competency may be assessed in an actual workplace or simulated environment that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

The following resources must be available:

- materials and equipment relevant to assessing candidate's ability to prepare for self-management in racing
- work instructions and related documentation.

### **Method of assessment**

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit

## EVIDENCE GUIDE

---

are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- inspection of completed work
- simulation exercises.

Where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry prepare for self-management in racing. Workplaces include administration buildings, harness and thoroughbred stables and racecourses, training tracks and public areas.

### ***Financial record keeping and budgeting*** may include:

- bank statements
- business financial structure, for example trust or sole trader
- business or personal budgeting of expenditure and income
- record-keeping systems, including software

## RANGE STATEMENT

---

### ***Investment, insurance, taxation and superannuation*** will include:

- programs
- records of race rides or drives, including earnings of rider or driver
- records of fees for services provided for horse owners or trainers
- receipts of expenditure
- tax invoices.
- investment:
  - accessibility to funds
  - banks
  - bonds
  - financial institutions
  - property
  - reasons for investment
  - share markets
- insurance:
  - accident or injury
  - income protection
  - life
  - motor vehicle
  - property
  - public liability
  - trauma
  - travel
- taxation:
  - Australian business number
  - business activity statements
  - income taxation returns
  - goods and services tax
  - pay-as-you-go tax (PAYG)
- superannuation:
  - diverse or specialised portfolio
  - high risk or low risk
  - lump sum payment
  - personal and employment contributions
  - rollover
  - tax benefits.

### ***Investigations of future career***

- financial goals

## RANGE STATEMENT

**options** may include:

- identifying alternative career preferences
- retraining or new training requirements.

**Marketing opportunities** may include:

- brochure or pamphlet advertising
- industry publications
- internet, including web page
- marketing within rules of racing
- media releases
- personal contact with drivers, owners, riders or trainers
- radio interviews
- television appearances
- word of mouth.

**Business promotion** will include:

- promotion of services:
  - drivers
  - riders
  - trainers
- clients:
  - owners
  - trainers
- riders' agents (thoroughbred):
  - assisting rider or employer of apprentice to secure rides
  - fee for service
  - licensing and rules of racing compliance.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with greyhounds or horses
- communicating with trainer, racing officials, racing kennel or stable staff and others using assertive communication techniques to gather and relay information related to greyhound or horse racing activities
- complying with animal welfare regulations, legislation and rules of racing guidelines
- complying with safe operating procedures
- following instructions of trainer and officials when appropriate, for example in parade enclosure
- negotiating resolution of conflict or disagreements with others relating to racing greyhounds or horses in compliance with racing codes of conduct and rules of racing
- reading and interpreting racing documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- upholding agreement with trainer, other owners and syndicate managers (if relevant) regarding payment of accounts for training services
- written communication skills to complete racing documentation.

#### Required knowledge

- basic industry terminology related to racing, handling and caring for greyhounds or horses
- common reasons for greyhounds and horses having to stop racing
- communication procedures within the kennel or stable and wider racing industry
- content of training contract or agreement
- effective working relationships, including teamwork
- obligations of owners to animals, trainers and racing officials
- options for greyhounds and horses that have finished their racing career
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- structure, protocols and procedures related to racing greyhounds or horses.

# Evidence Guide

## EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that apply to racing greyhounds or horses
- implementation of procedures and timely techniques for safe participation in racing as an owner
- working with others when participating in racing as an owner that meets required outcomes.

Evidence should be collected over a period of time and be focused on business activities and obligations related to racing participation as an owner. Theoretical components can be assessed in a simulated situation but must be related to racing industry conditions and contexts.

### **Context of and specific resources for assessment**

Competency may be assessed in an actual workplace or simulated environment that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

The following resources must be available:

- a variety of greyhounds or racing horses that are currently in training
- commercial racing training establishments, safe racetrack areas, race meetings and related facilities
- materials and equipment relevant to assessing candidate's ability to race animals as an owner
- work instructions and related documentation.

### **Method of assessment**

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

## EVIDENCE GUIDE

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises.

Where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role, for example:

- RGRPSG407A Select greyhounds for racing
- RGRPSH505A Select horses for racing
- RGRROP317A Attend racing events and comply with protocols and safety procedures.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to participate in racing as an owner. Workplaces include administration buildings, greyhound kennels, harness and thoroughbred stables and racecourses, training tracks and public areas.

#### ***Structure of the racing industry*** may include:

- breeder associations
- national and state racing regulatory authority role
- owner and trainer associations

## RANGE STATEMENT

---

***Rights and responsibilities*** may include:

- race club structure and functions
- rules of racing:
  - who and what is controlled by them
  - what rules impact on owners
  - how racing fairness is ensured.
- authority of owners to hear or give evidence or protest decisions
- authority of stewards and officials to direct or instruct racing participants, including owners
- authority of stewards to call witnesses, hear evidence and make decisions on penalties to be incurred
- obligation of all racing participants, including officials, to comply with rules of racing, animal welfare and OHS
- obligations of owners to comply with relevant rules of racing and officials' instructions
- obligations of trainers to ensure security of their training establishment and to present animals drug free for racing
- responsibility of stewards and officials to follow natural justice processes.

***Options for racing*** may include:

- joining a syndicate to race one or more animals
- leasing animal to race (to be returned to owner after racing career)
- purchasing animal ready to run
- purchasing pup or yearling
- purchasing share in an animal.

***Arrangements for training*** may include:

- confirming:
  - how and when training services may be concluded
  - training fees, payment dates and method
  - what is covered by training fee
  - who will pay additional services, such as veterinarian or transportation
- establishing protocols for charging additional fees for items, such as entry fees, and additional tack and equipment
- type of training facilities offered, such as spelling and access to paddocks or runs.

***Options for resolving disputes***

- discussing issues with:

## RANGE STATEMENT

may include:

- consumer affairs
- owners' association
- stewards or racing officials
- trainers' association
- engaging a dispute resolution specialist
- negotiating with trainer.

***Plans for racing animals*** may include:

- estimated length of preparation time before trial and racing
- type and class of races animal is to be prepared for
- options if animal does not show adequate form within agreed time frame.

***Options for animals*** may include:

- does the animal have a use as a:
  - companion animal or pet
  - in another market
- if animal is to be given away or retired:
  - can welfare of animal be assured if it is given away as a companion animal or pet
  - will sufficient water, feed, shelter and care be provided if animal is retired from racing
  - will animal have a reasonable quality of life if it is retired from racing after illness or injury or would it be kinder to have animal put down
- is animal suitable for breeding.

***Decisions on the future of racing animals*** may include:

- average cost of keeping a retired animal
- can costs of treatment (and costs to animal's quality of life) be justified if prognosis for illness or injury means it is unlikely that animal will race again
- has animal suffered illnesses or injuries that will restrict its racing potential
- is it cruel to continue racing animal
- is animal likely to perform better if it:
  - is castrated or spayed
  - races in opposite direction
  - races in different climate
  - races in lower or higher level of competition
  - races under a different trainer.

**Co-requisite units**

## Functional Area

**Functional Area** Racing common

# RGRPSH401A Relate anatomical and physiological features to the care and treatment of horses

## Modification History

Not Applicable

## Unit Descriptor

### Unit descriptor

This unit of competency specifies the outcomes required to identify basic anatomy and physiology of horses, relate anatomy and body systems to the performance of racehorses, and follow illness and injury management plans for racehorses.

This unit also requires the practical care and management of harness or thoroughbred racehorses and application of OHS standards in the workplace.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

## Application of the Unit

### Application of the unit

This unit of competency supports trainers and others authorised to relate anatomical and physiological features to the care and treatment of horses.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Identify basic anatomy and physiology of horses.

1. Key features and functions of ***skeletal system*** and ***muscular system*** are identified.
2. Key features and functions of ***respiratory system*** are identified.
3. Key features and functions of ***circulatory system*** are identified.
4. Key features and functions of ***digestive system*** are identified.

| ELEMENT                                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- adhering to responsibilities under OHS legislation and workplace practices
- adhering to responsibilities under national and state codes of practice; federal, state and territory legislation; and local government regulations covering animal welfare
- administering or supervising administration of prescribed medication
- applying safe handling and work practices when caring for and treating horses
- assessing and responding to illnesses or injuries in horses
- caring for and treating horses
- communicating with stable staff, horse health specialists and others using assertive communication techniques to gather and relay information related to relating anatomical and physiological features of horses to their care and treatment
- evaluating risks associated with catching and handling horses
- giving and receiving instructions
- identifying and correctly using different therapies or medications
- identifying features and functions of body systems
- identifying common illnesses and injuries

## REQUIRED SKILLS AND KNOWLEDGE

- reading and interpreting workplace documentation, including relevant rules of racing and material safety data sheets
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- using or supervising use of technology related to therapy.

### Required knowledge

- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- common illnesses and injuries in horses
- handling and restraining techniques for horses
- impact of medications or therapies
- industry terminology related to caring for and treating racehorses
- key features and functions of horses' body systems
- prohibited substances
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- signs and symptoms of illnesses and injuries
- types of medications and therapies.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of key features and functions of the skeletal, muscular, respiratory, circulatory, digestive and reproductive systems of horses
- knowledge of common illnesses and injuries of the skeletal, muscular and respiratory systems of horses
- implementation of procedures and timely techniques

## EVIDENCE GUIDE

---

to relate anatomical and physiological features to the care and treatment of horses that meet required outcomes

- working with others to undertake and complete care and treatment tasks that meet required outcomes.

Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness or thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to relate anatomical and physiological features to the care and treatment of horses
- safe handling areas, such as racing stables, yards, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by

## EVIDENCE GUIDE

### Guidance information for assessment

supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- RGRPSH408A Manage horse health and welfare.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to relate anatomical and physiological features to the care and treatment of horses. Workplaces include harness and thoroughbred stables and racecourses, training tracks and public areas.

Components of ***skeletal*** and ***muscular systems*** will include:

- bones
- joints
- ligaments
- muscles
- tendons.

Components of ***respiratory system*** will include:

- alveolus
- diaphragm
- larynx
- lungs
- nostrils
- pharynx
- trachea.

Components of ***circulatory***

- arteries

## RANGE STATEMENT

---

**system** will include:

- blood cells
- heart
- lungs
- veins.

Components of **digestive system** will include:

- caecum
- diaphragm
- intestines
- kidneys
- mouth
- oesophagus
- pharynx
- stomach.

Components of **reproductive system** will include:

- endocrine glands
- male and female genital organs
- oestrous cycle
- pregnancy and foaling.

**Common illnesses and injuries** may include:

- skeletal and muscular systems, including:
  - bone chips
  - bone spavin
  - bowed tendon
  - navicular disease
  - sesamoiditis
  - shin soreness
  - splints
  - stifle joint lameness
  - suspensory ligament injury
  - tendonitis
- respiratory system, including:
  - air passage inflammation
  - equine influenza
  - heaves
  - pneumonia
  - roaring
  - strangles
- circulatory system, including:
  - cardiac abnormalities
  - epistaxis
  - myocardial disease
- digestive system, including:

## RANGE STATEMENT

---

**Directions** related to care and treatment of racehorses will include:

- pharmaceutical
- rest
- ultrasound.
- adhering to rules of racing in administration of treatments
- adhering to medication material safety data sheet directions
- administering prescribed treatments
- advice from veterinary surgeons, farriers or other horse health specialists.

**Co-requisite units**

## Functional Area

**Functional Area** Racing performance services

## RGRPSH402A Drive horses in pacework and fast work

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to develop driving skills for trackwork using a range of horses. It includes communicating with supervisors and co-workers, assessing hazards, protecting the welfare of people and horses, adjusting driving techniques for different trackwork speeds and horse styles, and providing post-exercise care of horses.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards.

It is recommended that competence be demonstrated in the protocols, procedures and techniques required to drive jog work before attempting this unit.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports drivers who have attained jog work driving skills and are ready to drive trackwork in less controlled conditions with a range of horses.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying aids to control speed and direction of a horse at walk, trot and pace
- applying safe work practices and handling and driving skills when working with horses
- assessing hazards and obstacles related to horse exercise areas
- being aware of relevant road safety rules
- communicating with employer, supervisor, co-workers and public venue employees using assertive communication techniques to gather, interpret and relay information related to developing pacework and fast work driving skills
- completing duties in accordance with safe operating procedures and nominated time frame
- complying with horse welfare directives when responding to indicators of injury or fatigue of horses during or after exercise
- driving horses singly and in company
- fitting horse gear and driving apparel, including personal protective equipment
- following instructions
- identifying and correctly using different items of gear and assessing their condition in terms of fit and condition
- identifying and following exercise area rules and regulations
- identifying gait and speed at which a horse is working
- maintaining driving etiquette
- maintaining fast work and pacework speed throughout exercise period
- identifying poor response to exercise that may indicate horse injury or fatigue
- preparing horses for exercise and providing post-exercise care to horses
- reading and interpreting workplace documentation, including relevant rules of

## REQUIRED SKILLS AND KNOWLEDGE

racing

- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting horses' response to exercise to trainer and others
- understanding and complying with safe zones when driving horses
- using numeracy skills to measure distance and time
- working safely with other stable employees.

### Required knowledge

- aids to control speed and direction of a horse
- communication procedures within stable and wider racing industry
- driving etiquette
- gear and equipment
- paces of horses
- private road and track rules
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- safe zones for driving.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when developing driving skills for pacework and fast work
- demonstration of driving skills to establish and maintain pacework and fast work speeds according to trainer instructions

## EVIDENCE GUIDE

---

- demonstration of driving skills to avoid or prevent potential accidents at speed
- implementation of procedures and timely techniques to complete driving skills safely, effectively and efficiently
- working with others to undertake and complete driving skills that meet required outcomes.

Evidence should be collected over a period of time using a range of well-educated harness horses of different ages and sexes in racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to horses that are being educated and trained in a commercial racing stable under the care of a licensed trainer and the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness horses that are currently in training
- commercial racing training establishments, and training and racetracks
- materials and equipment relevant to assessing candidate's ability to practise pacework and fast work driving skills
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by

## EVIDENCE GUIDE

### Guidance information for assessment

supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to drive horses in pacework and fast work. Workplaces include harness stables and racecourses, training tracks and public areas.

***Exercise instructions*** may include:

- achieving and maintaining speed for each section of exercise period
- duration of exercise
- exercise venue
- pace, including walking and jogging
- specific gear and equipment to be used.

***Horse welfare monitoring*** may include:

- feeling consistent contact on reins
- identifying unexplained drop-off in horse speed, power or attitude to work
- listening to breathing pattern
- listening to footfalls
- measuring heart rate
- observing sweating pattern.

***Gear selected*** will include:

- horse gear:
  - anti-rearing bit
  - bandages

## RANGE STATEMENT

---

- burrs
- bits
- boots
- breastplate
- blinkers
- bridle
- crupper
- harness
- head check
- leading bit
- saddle
- shadow rolls
- spreaders
- tail tie
- tongue tie
- driver gear:
  - approved Australian Standard helmet, clothing and footwear
  - sulky.

***Pacework speed*** may include:

- establishing and maintaining speeds of 2.20 minutes per mile
- maintaining line on track for efficiency of movement
- using track markers, stopwatch and other indicators to measure distance and speed.

***Fast work speed*** may include:

- establishing and maintaining speeds of 2.10 to 2.08 minutes per mile
- maintaining line on track for efficiency of movement
- using track markers, stopwatch and other indicators to measure distance and speed.

***Racing skills*** may include:

- driving horse from front of field
- driving horse from behind
- driving horse in company to encourage horse to maintain or better position on track
- judicious use of the whip within animal welfare rules of racing to control speed and line on track
- practising score-up procedures
- practising standing and mobile starts

## RANGE STATEMENT

---

- working close to other horses at fast work speeds.

## Unit Sector(s)

**Unit Sector** Harness racing code

## Co-requisite units

**Co-requisite units**

## Functional Area

**Functional Area** Racing performance services

## RGRPSH403A Educate harness horses for racing

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to introduce a horse to the skills, gear and equipment required for harness racing; and correct or re-educate horses with inappropriate training or racing behaviours or styles.

Developing competence in this unit will require a strong emphasis on animal welfare and humane treatment of horses, particularly when re-educating horses with identified problems. Care must be taken to apply the principles of horse learning theory to all aspects of introducing inexperienced horses and horses with schooling problems.

To undertake this unit candidates will be able to apply safe horse handling skills and workplace OHS standards. They must also have a high standard of competence in trackwork driving and would generally be expected to be a licensed harness racing trainer or be able to demonstrate competence in harness racing training and driving skills.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports experienced, licensed trackwork drivers and trainers authorised to educate horses for harness racing.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying principles of horse learning in education and re-education of harness horses
- applying safe handling and work practices when dealing with horses
- communicating with trainer, co-workers and others using assertive communication techniques to gather and relay information related to educating horses for racing
- developing balance and tractability of horses
- driving horses from mobile start position
- driving trackwork on young, inexperienced and problem horses
- employing strategies to control horses
- evaluating horse education
- evaluating horse performance
- evaluating risks associated with working with horses
- following instructions of trainer, and working autonomously when necessary with regard to driving horses at trackwork
- identifying behaviour of individual horses
- judging pace and identifying pace at which horse is working
- planning a horse education program

## REQUIRED SKILLS AND KNOWLEDGE

- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting horse performance and wellbeing to trainer
- selecting and applying techniques to correct racing, training and barrier problems
- selecting and using remedial training gear
- using written communication skills to complete workplace documentation and reports.

### Required knowledge

- approved gear
- causes of common harness racing and training problems
- common standardbred behaviour traits
- communication procedures within stable and wider racing industry
- horse education programs
- horse learning theory principles
- indicators of poor performance
- industry terminology related to educating horses for racing
- mobile start procedures
- personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- remedial gear
- standing start procedures
- training plans.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of

## EVIDENCE GUIDE

---

this unit and include evidence of the following:

- identification of behaviour and movement that could potentially affect horse performance in harness training and racing
- evaluation of potential for further improvement or progression in training when deciding if there is a benefit in continuing, particularly with re-education
- knowledge of the requirements, procedures and instructions that are to apply when educating harness horses for racing
- demonstration of effective horse handling skills (including corrective techniques) that comply with animal welfare directives
- implementation of procedures and timely techniques for the safe, effective and efficient provision of horse education
- selection and application of appropriate, effective and humane techniques to correct or modify behaviour and performance of horses being prepared or re-educated for harness racing
- working with others to undertake and complete horse education procedures that meet required outcomes.
- Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Harness Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness horses
- materials and equipment relevant to assessing candidate's ability to educate harness horses for racing
- safe handling and work areas, such as racing stables,

## EVIDENCE GUIDE

### Method of assessment

and training and racetracks

- work instructions and related documentation.

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Harness Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the harness racing industry to assess a candidate's ability to educate harness horses for racing. Workplaces include harness stables and racecourses, training

## RANGE STATEMENT

---

tracks and public areas.

**General care and handling** may include:

- grooming
- hoof care
- hosing
- leading
- rugging
- tying up.

**Mouthed** may include:

- accepting bridle fitting and removal
- accepting pressure on the bit
- being driven in long reins
- turning, stopping and backing up to rein signals.

**Controlled environment** may include:

- areas of different sizes suitable to introduce various gear and equipment, including:
  - area suitable for driving horse at trot for first time
  - area suitable for driving horse at walk for first time
  - breaking yard
  - round yard
  - specified breaking in harness
- quiet surroundings away from distractions
- safe footing
- secure, clearly visible fencing.

**Confidence in driving tasks** may include:

- accepting gear and equipment
- negotiating basic driving techniques, including:
  - accepting direction to work beside and past other horses
  - accepting driver directional aids
  - accepting rein pressure
  - accepting restriction of harness and vehicle
  - backing up
  - becoming less reactive to activities and stimuli within a training centre
  - maintaining gaits at walk, trot and pace
  - moving away from home
  - moving forward
  - stopping
  - turning
- standing quietly while being tacked up or

## RANGE STATEMENT

---

- Physical and behavioural causes* may include:
- stripped down.
  - physical causes:
    - damaged or ill-fitting gear
    - condition of teeth
    - possible soreness, for example:
      - back
      - feet
      - hindquarters
      - limbs
      - mouth
      - poll
    - track conditions
    - weather
  - behavioural causes:
    - age
    - aggression with other horses
    - excitement
    - fear of other horses
    - frights caused by a range of stimuli
    - individual horse responses to normal stimuli
    - injury
    - sex.
- Planning an education program* may include:
- application of principles of horse learning theory, including:
    - bonding
    - classical conditioning, for example:
      - conditioned response
      - dominant versus submissive response
      - habituation
    - operant conditioning, for example:
      - extinction response
      - habituation
      - positive and negative reinforcement
      - sensitisation
      - stimulus and response
  - degree of training required, for example:
    - pre-training at long or slow distance work
    - jog work

## RANGE STATEMENT

---

*Corrective techniques* may include:

- fast or slow mornings' work
- duration of training program
- encouraging tractability of horse
- improving horses' balance and tempo
- improving horses' response to aids and gear
- reporting horse performance to trainer
- role of sexes in herd structure.
- changing bits
- corrective shoeing
- ensuring health and injury status of horse are not cause of problems
- hoods, blinkers and shadow rolls
- humane use of restraints to control speed and direction
- practising with start equipment
- protective boots and bandages
- working horses away from the track
- working horses with quiet, experienced horses.

## RGRPSH404A Ride horses at trackwork

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to apply advanced track riding skills, participate in professional riding arrangements with trainers, and introduce horses to practice barriers.

To undertake this unit the candidate will be able to apply safe horse handling and workplace OHS standards.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports trackwork riders to develop advanced trackwork riding skills.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

### Licensing/Regulatory Information

Refer to Unit Descriptor

### Pre-Requisites

#### Prerequisite units

## Prerequisite units

RGRPSH307A

Exercise horses in pacework

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

Apply advanced trackwork riding skills.

1. Horses are ***warmed up to and down from*** working pace and are exercised in a balanced manner in all required gaits.
2. ***Pace of horse*** is judged and maintained for required times and distances according to trainer instructions.
3. ***Rules and etiquette*** for riding on fast tracks are known and practised.
4. Safe entry and exit procedures to all tracks are followed.
5. Trainer instructions are followed.
6. ***Professional judgement*** is applied according to the circumstances.
7. Performance of horse is evaluated and reported to trainer or foreman.

Participate in professional riding arrangements with trainers.

| ELEMENT                               | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                   |

Horses are entered into and ridden from practice barriers in a <b>safe manner</b> .</li><li>10. <b>Common barrier problems</b> are identified, rectified and reported to trainer or foreman.</li></ol> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe riding and work practices
- communicating with employer, trainer, foreman, supervisor, co-workers and others using assertive communication techniques to gather and relay information related to riding horses at trackwork
- employing techniques to control horses
- evaluating horse performance
- judging pace and identifying pace at which horse is working
- following instructions of trainer, and working autonomously when necessary, with regard to riding horses at trackwork
- identifying and fitting items of approved gear
- identifying and rectifying barrier problems
- identifying and following safe track entry and exit procedures for all tracks
- interpreting and implementing trackwork instructions
- organising commitments and planning work activities
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting horse performance and wellbeing to trainer
- riding horses in pacework and fast work
- riding horses into and from barriers
- selecting aids in accordance with trainer instructions and rules of racing
- using professional judgement
- warming horses up and down
- working horses singly or with other horses in a controlled manner and according to instructions.

## REQUIRED SKILLS AND KNOWLEDGE

### Required knowledge

- approved gear
- barrier operation
- communication procedures within stable and wider racing industry
- common racehorse behaviour traits
- common barrier problems
- different horse paces
- effective working relationships and teamwork
- industry terminology related to riding horses in pacework and fast work
- fast work riding techniques
- personal protective equipment and purpose for its use
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- safe entry and exit points for all tracks.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when riding fast work
- demonstration of advanced trackwork riding skills and practice barrier training for thoroughbred horses
- implementation of procedures and timely techniques for the safe, effective and efficient application of fast work riding skills
- working with others to undertake and complete fast work riding procedures that meet required outcomes.

## EVIDENCE GUIDE

---

Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to demonstrate advanced trackwork riding skills and practice barrier techniques
- safe handling and appropriate riding and practice barrier areas, such as racing stables, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons, at least one of whom should be approved by the State Principal Racing Authority.

This unit may be assessed in a holistic way with other

## EVIDENCE GUIDE

### Guidance information for assessment

units of competency relevant to the industry sector, workplace and job role.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to assess riding horses at trackwork. Workplaces include thoroughbred stables and racecourses, training tracks and public areas.

Horses may ***be warmed up to and down from*** working pace by:

- adhering to local track rules and regulations regarding pace permitted in specific areas
- trotting in bull ring
- trotting or cantering in designated exercise areas
- trotting and cantering on track before pacework or gallops
- easing horse after completing pacework or gallops
- walking or trotting from gap.

***Pace of horse*** may include:

- strong canter
- half pace
- three-quarter pace
- even time
- working gallop.

***Rules and etiquette*** for riding on fast tracks may include:

- additional safety awareness and responsibility when riding fast work
- easing own horse, should other horses become

## RANGE STATEMENT

## RANGE STATEMENT

---

regulations covering animal welfare

- ensuring barrier training is conducted when ground is suitable and not slippery
- considering variables that influence behaviour of horses, such as:
  - fences and equipment
  - other persons or animals
  - vehicles
  - wind and noise
- following safe operating procedures
- identifying hazards associated with barrier training and applying risk control measures
- identifying and reporting unsafe work practices and procedures
- understanding individual horse's behaviour
- using approved gear in good repair
- using barriers when there is minimal horse traffic in immediate area
- using graduated procedures to accustom horse to barriers
- wearing approved personal protective equipment, including approved Australian Standard helmets, vests, clothing and footwear.

**Common barrier problems** may include:

- horse laying back on gate
- horse laying on sides of stall
- horse burrowing
- horse sitting down
- horse refusing
- horse pulling back
- horse straddling front of stalls.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling, riding and work practices when dealing with horses
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather, interpret and relay information related to riding in jump outs
- completing duties in accordance with safe operating procedures and nominated time frame
- evaluating risks associated with jump outs
- following instructions
- employing strategies to control horses
- galloping horses
- identifying horse behaviour problems
- identifying and correctly using different items of personal protective equipment
- identifying and correctly using different items of gear and equipment and assessing condition of same in terms of safe use
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- riding horses in jump outs
- riding horses in company
- settling horses in barriers
- warming horses down.

#### Required knowledge

- approved gear
- barrier attendant duties
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- gear adjustment
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- rules of racing
- track rules.

# Evidence Guide

## EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when riding in jump outs
- demonstration of riding and jump out skills related to loading horses into barriers and safely jumping out, following all instructions
- implementation of procedures and timely techniques to complete riding in jump outs safely, effectively and efficiently
- working with others to undertake and complete jump out riding tasks that meet required outcomes.

Evidence should be collected over a period of time using a range of horses of different ages and sexes, in different circumstances and in different racing stable and track environments.

### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to apply jump out riding skills
- safe handling, riding and jump out areas, such as racing stables, and training and racetracks

## EVIDENCE GUIDE

### Method of assessment

- work instructions and related documentation.

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to ride horses in jump outs. Workplaces include thoroughbred stables and racecourses, training tracks and public areas.

***Trainer instructions*** may include:

- horse's action and behaviour
- galloping pace.

## RANGE STATEMENT

---

***Procedures*** will include:

- action required should problems occur
- checking time of jump outs
- confirming ride with trainer
- complying with barrier attendant activities when horses are loaded
- making necessary gear adjustment at barriers
- knowledge of maximum number of horses per jump out.

***Rules*** will include:

- relevant rules of racing, including:
  - approved personal protective equipment
  - approved gear
- local track rules, for example:
  - using specified entry and exit points
  - providing horse and trainer information to relevant officials.

***Barrier attendant and starter instructions*** may include:

- barrier attendant:
  - action behind barrier
  - loading horses
- starter:
  - allocated barrier
  - approach to barrier.

***Positioning and settling horses*** will include:

- awareness of expected horse behaviour before entering barriers, for example:
  - becoming agitated or sweaty
  - attempting to bite
  - kicking
  - pulling back or sideways
  - rearing
  - turning in circles
- being alert to potential horse behaviour problems in barriers, for example:
  - becoming cast
  - burrowing
  - laying back on gates
  - sitting down
  - straddling front of stall or adjacent stall
  - turning head into adjacent stall
- identifying good horse behaviour traits and bad horse behaviour traits

## RANGE STATEMENT

---

- Jumping out safely*** will include:
- riding horse purposefully and calmly into allocated barrier
  - seeking assistance from barrier attendants
  - talking to and patting horse.
  - adhering to responsibilities under OHS legislation and workplace practices
  - being aware of other horses
  - considering variables that influence behaviour of horses, such as:
    - fences and equipment
    - other persons or animals
    - vehicles
    - wind and noise
  - keeping horse straight.
- Warming down*** may include:
- adhering to local track rules and regulations regarding pace permitted in specific areas
  - easing horse after completing gallop
  - trotting in bull ring
  - walking or trotting from gap.

## Unit Sector(s)

**Unit Sector** Thoroughbred racing code

## Co-requisite units

**Co-requisite units**

## Functional Area

**Functional Area**      Racing performance services

## RGRPSH406A Develop riding skills for jumping racing

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to select and fit approved gear, calculate distances between jumps, assess features of a jumping course, determine strategies and rules, control horses over jumps in all gaits and discuss plans to improve riding performance.

To undertake this unit the candidate will be able to handle horses safely, follow workplace OHS standards.

This unit of competency operates in work environments of racing stables, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports licensed apprentice jockeys and approved riders to develop riding skills for jumping racing.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe work practices when handling and riding horses
- assessing characteristics of jumps
- calculating distances
- checking gear and equipment
- communicating with employer, supervisor, instructor, co-workers and others using assertive communication techniques to gather, interpret and relay information related to developing riding skills for jumping racing
- completing duties in accordance with safe operating procedures and nominated time frame
- controlling horses in various jumping racing conditions
- identifying and correctly using different items of personal protective equipment
- identifying and correctly fitting different items of gear and equipment
- identifying strides to a jump
- maintaining an effective seat
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- riding over jumps.

## REQUIRED SKILLS AND KNOWLEDGE

### Required knowledge

- communication procedures within stable and wider racing industry
- height of jumps
- jumping gear and equipment
- jumping exercises
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- riding gear
- rules of racing.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when developing riding skills for jumping racing
- demonstration of basic jumps riding skills and riding a jumping course at speed
- implementation of procedures and timely techniques for the safe, effective and efficient application of riding skills for jumping racing
- working with others to undertake and apply riding skills for jumping racing that meet required outcomes.

Evidence should be collected over a period of time using a range of horses of different ages and sexes, in different circumstances and in different racing stable and track environments.

## EVIDENCE GUIDE

---

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to apply riding skills for jumping racing
- safe handling and appropriate jumps riding areas, such as racing stables, and training and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons, at least one of whom should be approved by the State Principal Racing Authority.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women,

## EVIDENCE GUIDE

people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to develop riding skills for jumping racing. Workplaces include thoroughbred stables and racecourses, training tracks and public areas.

***Approved jumping gear and personal protective equipment*** will include:

- horse gear:
  - bridles, including leather or plastic with variety of appropriate bits
  - breastplates
  - girths
  - girth sleeves
  - protective boots
  - rings or running martingales
  - saddles, including exercise pad or jumping saddle
  - saddlecloths and necessary packing
- riding gear:
  - approved Australian Standard helmet, vest, clothing, footwear, goggles and whip.

***Effective seat*** may include:

- aids
- correct racing position with lower heel
- degree of accuracy and control
- leg position
- riding without hands
- riding without stirrups.

***Rhythm, speed, line and balance*** may include:

- cadence
- impulsion

## RANGE STATEMENT

# RGRPSH407A Educate thoroughbred horses for racing

## Modification History

Not Applicable

## Unit Descriptor

### Unit descriptor

This unit of competency specifies the outcomes required to evaluate a horse's level of education, implement a training program and introduce a horse to the barriers following instructions provided by the horse's licensed trainer.

Developing competence in this unit will require a strong emphasis on animal welfare and humane treatment of horses, particularly when re-educating horses with identified problems. Care must be taken to apply the principles of horse learning theory to all aspects of introducing inexperienced horses and horses with schooling problems to education programs for racing.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards.

The candidate must also have a high standard of competence in riding trackwork.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

## Application of the Unit

### Application of the unit

This unit of competency supports experienced, licensed trackwork riders authorised to educate thoroughbred horses for racing.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with horses
- communicating with trainer, co-workers and others using assertive communication techniques to gather and relay information related to educating horses for racing
- developing balance and tractability of horses
- employing strategies to control horses
- evaluating horse education
- evaluating horse performance
- evaluating risks associated with working with horses
- judging pace and identifying pace at which horse is working
- following instructions of trainer and working autonomously when necessary with regard to riding horses at trackwork
- identifying and rectifying barrier problems
- identifying and using remedial training gear
- identifying, and incorporating into training the principles of horse learning
- identifying behaviour of individual horses
- planning a horse education program
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting horse performance and wellbeing to trainer
- riding horses into and from barriers
- riding trackwork
- written communication skills to complete workplace documentation and reports.

## REQUIRED SKILLS AND KNOWLEDGE

### Required knowledge

- approved gear
- barrier operation
- communication procedures within stable and wider racing industry
- common racehorse behaviour traits
- common barrier problems
- effective working relationships, including teamwork
- horse education programs
- industry terminology
- personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- remedial gear
- training plans.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- identification of horse behaviour and movement that could potentially affect horse performance in training and racing
- evaluation of potential for further improvement or progression in training when deciding if there is a benefit in continuing, particularly with re-education
- knowledge of the requirements, procedures and instructions that are to apply when educating thoroughbred horses for racing
- demonstration of effective horse handling skills

---

## EVIDENCE GUIDE

---

(including corrective techniques) that comply with animal welfare directives

- implementation of procedures and timely techniques for the safe, effective and efficient provision of horse education
- selection and application of appropriate, effective and humane techniques to correct or modify behaviour and performance of horses being prepared for thoroughbred racing
- working with others to undertake and complete horse education procedures that meet required outcomes.

Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to educate horses for racing
- safe handling and work areas, such as racing stables, and training and racetracks

work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks

## EVIDENCE GUIDE

- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons, at least one of whom should be approved by the State Principal Racing Authority.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to assess a candidate's ability to educate thoroughbred horses for racing. Workplaces include thoroughbred stables and racecourses, training tracks and public areas.

Planning an ***education program*** will include:

- discussions with trainer
- duration of training program
- degree of training covering pre-training at long, slow distance work and faster work
- fast or slow morning's work
- reporting horse performance to trainer.

Principles of ***horse learning*** include:

- bonding
- conditioned response

## RANGE STATEMENT

---

|                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| Development of <b>balance and tractability</b> will include:                                          | <ul style="list-style-type: none"><li>• older horses requiring re-education</li><li>• young horses that have been broken in and are preparing for training.</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Factors to consider when horses are worked with <b>other horses at controlled paces</b> will include: | <ul style="list-style-type: none"><li>• coping with change of pace from trot, canter and half pace during workouts</li><li>• maintaining safe width space and length between horses</li><li>• moving outside or inside other horses without altering action or baulking</li><li>• moving smoothly from slow canter to faster striding work</li><li>• remaining balanced and travelling on the bit</li><li>• rules and regulations of the track</li><li>• working past gaps without deviating</li><li>• working quietly with other horses or on its own</li><li>• working with confidence with other horses.</li></ul> |
| Factors to consider when <b>remedial training techniques</b> are employed may include:                | <ul style="list-style-type: none"><li>• condition of teeth</li><li>• individual horse behaviour, including:<ul style="list-style-type: none"><li>• bolting</li><li>• climbing</li><li>• head throwing</li><li>• inattention to use of aids</li><li>• opening mouth</li><li>• shying</li><li>• whipping around</li></ul></li><li>• possible soreness, for example:<ul style="list-style-type: none"><li>• back</li><li>• feet</li><li>• hindquarters</li><li>• limbs.</li></ul></li></ul>                                                                                                                              |
| <b>Gear</b> required for remedial training may include:                                               | <ul style="list-style-type: none"><li>• barrier blankets</li><li>• bits</li><li>• blindfolds</li><li>• blinkers</li><li>• ear muffs</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## RANGE STATEMENT

---

**Arrangements** to use practice barriers will include:

- nosebands
- pacifiers
- rings
- shadow rolls.
- confirming availability of practice barriers with gap attendant or other authorised track personnel
- confirming trainer requirements for barrier practice
- following local track rules and regulations regarding barrier use
- requesting barrier assistant to check smooth operation of front and rear gates before introducing horse to barriers.

**Safe manner** will include:

- ensuring barrier training is conducted when ground is suitable and not slippery
- identifying hazards associated with barrier training and applying risk control measures, including adhering to safe operating procedures
- considering variables that influence behaviour of horses, such as:
  - fences and equipment
  - other persons or animals
  - vehicles
  - wind and noise
- identifying emergency situations, for example:
  - horse injury
  - loose horse
  - rider injury
- identifying and reporting unsafe work practices
- wearing personal protective equipment
- understanding individual horse's behaviour
- using approved gear in good repair
- using barriers when there is minimal horse traffic in the immediate area
- using graduated procedures to accustom horse to barriers, including:
  - walking horse through gates on first occasion before re-entering and closing front and rear gates

## RANGE STATEMENT

---

**Common barrier problems** may include:

- accustoming horse to barrier and gate noises while standing calmly in barriers
- trotting horses from barriers before attempting faster exits
- jumping from barriers and riding at controlled canter
- jumping smartly from barriers and working strongly as permitted in available space.
- horse laying back on gate
- horse laying on sides of stall
- horse burrowing
- horse sitting down
- horse refusing
- horse pulling back
- horse straddling front of stalls.

## Unit Sector(s)

## Functional Area

**Functional Area** Racing performance services

# RGRPSH408A Manage horse health and welfare

## Modification History

Not Applicable

## Unit Descriptor

### Unit descriptor

This unit of competency specifies the outcomes required to monitor and maintain horse health and welfare; undertake health management programs for horses; ensure provision of safe, compliant and secure housing arrangements; determine horse health problems; decide upon treatment for horses; administer treatment; monitor horse's progress; and plan horse health emergency procedures.

To undertake this unit the candidate will have already achieved or be able to demonstrate competence in the practical care and management of harness or thoroughbred racing horses and application of OHS standards in the workplace.

This unit of competency operates in workplace environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

## Application of the Unit

### Application of the unit

This unit of competency supports senior stablehands, leading hands, trainers and others authorised to manage horse health and welfare.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

**Prerequisite units**

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

| ELEMENT                                          | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                       |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying OHS workplace procedures

## REQUIRED SKILLS AND KNOWLEDGE

- applying safe handling and work practices when dealing with horses
- administering medication and treatments
- assessing vital signs of horses
- assessing and responding to illnesses or injuries in horses
- calming and restraining horses
- communicating with employer, stable staff, horse health specialists and others using assertive communication techniques to gather and relay information related to managing health and welfare of horses
- complying with animal welfare policies in the care and management of horses
- developing health and emergency care protocols and programs
- dealing with emergencies
- discussing treatment options
- evaluating risks associated with catching and handling horses
- giving and receiving instructions
- identifying behaviour of individual horses
- identifying and using different treatments in accordance with directions
- identifying illnesses and injuries
- incorporating safe work practices into all horse handling activities
- reporting horse irregularities to stable nominated person
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- supporting others in handling and providing treatment to horses in the appropriate manner
- written communication skills to compile and maintain horse health records and associated procedural documentation.

## Required knowledge

- appropriate horse housing
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- common illnesses and injuries in horses
- dental programs
- effective working relationships, including teamwork
- emergency protocols and quarantine measures
- handling techniques for horses
- horse first aid
- horse health record systems
- hoof maintenance programs
- methods of restraining horses

## REQUIRED SKILLS AND KNOWLEDGE

- parasite programs
- prohibited substances
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- signs and symptoms of communicable diseases
- types of medication and treatments
- vaccination programs.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when managing horse health and welfare
- implementation of procedures and techniques for the safe, effective and efficient provision of horse health and welfare
- working with others to implement and complete horse health and welfare procedures that meet required outcomes
- consistent timely completion of horse health and welfare management procedures that safely, effectively and efficiently meet required outcomes.

Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable and track environments

.

## EVIDENCE GUIDE

---

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness or thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to manage horse health and welfare
- safe handling areas, such as racing stables and racetracks
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- inspection of completed work
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- RGRCMN401A Maintain and monitor OHS procedures and environmental work practices.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities,

## EVIDENCE GUIDE

---

Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to manage horse health and welfare. Workplaces include harness and thoroughbred racing stables and racecourses, training tracks and public areas.

***Health and emergency care protocols*** may include:

- advice to other organisations, as required by rules and regulations
- horse management:
  - comprehensive record keeping
  - routine health checks
  - equipment and gear cleanliness
  - handling and monitoring horses
  - hazard identification
  - maintaining first aid and treatments stores
  - notifiable diseases
  - permissible medication and treatments
  - quarantine measures
  - veterinary or specialist advice and assistance
  - stable and yard cleanliness
- risk control measures:
  - controlling insects and rodents
  - disinfection and hygiene measures
  - fire drills
  - health programs
  - isolation or quarantine of sick horses

## RANGE STATEMENT

---

|                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

---

***Health records information*** will include:

- recent overseas contact
- unexplained lethargy, listlessness or depression
- unusually high numbers of sick horses
- severe hacking cough.
- dates and times of:
  - arrival at stables
  - assessing vital signs
  - illness or injury
  - treatments and vaccinations
- features of horse identification
- name of horse
- name of person administering treatment
- prescribed treatments administered
- treatment instructions
- vital signs at rest.

***Health care and management*** may include:

- administration of treatments
- communication procedures when horses are treated
- disease prevention and control
- emergency care
- emergency phone numbers, for example veterinarian or fire department
- permissible treatments
- procedure for recording treatments
- procedure for recording and reporting vital signs
- routine health checks
- replenishing supplies of first aid kits
- system of referral for injury treatment
- staff access to first aid treatments and materials.

***Common illnesses or injuries*** may include:

- illnesses:
  - circulatory disorders
  - eye, nose and mouth disorders
  - digestive disorders
  - metabolic disorders
  - musculo-skeletal disorders
  - neurological disorders
  - respiratory disorders
  - skin disorders

## RANGE STATEMENT

---

|                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

## RANGE STATEMENT

---

***Injectible medication*** may be given:

- rest
- ultrasound.
- by adhering to animal welfare guidelines
- in accordance with rules of racing
- intramuscular
- intravenous
- intra-articular
- subcutaneous
- under veterinary supervision.

***Injectible medication considerations*** include:

- alcohol swabs
- correct dosage of medication
- cleanliness of surroundings
- enlisting help of assistant
- fitting restraints, for example bit or twitch
- injection site
- injection type:
  - antibiotics
  - vaccinations
  - vitamins
- method of injection to suit prescribed treatment
- needle gauge
- race meeting blood samples
- procedure for loading syringe
- preparing horse, for example skin swabbing or tapping
- record keeping
- rules of racing
- sterile needles and syringes
- sharps container
- syringe disposal
- using only veterinary-prescribed substances.

***Inhalants*** may include:

- oxygen
- prescribed veterinary treatments
- steam.

## Unit Sector(s)

**Unit Sector** Harness and thoroughbred racing codes

## Co-requisite units

**Co-requisite units**

## Functional Area

**Functional Area** Racing performance services

# RGRPSH409A Determine nutritional requirements for racing horses

## Modification History

Not Applicable

## Unit Descriptor

### Unit descriptor

This unit of competency specifies the outcomes required to prepare rations for racing horses and assess a range of feed, additives and supplements in relation to quality and potential influence on industry regulations.

To undertake this unit the candidate will have already achieved or be able to demonstrate competence in the practical care and management of harness or thoroughbred racing horses and application of OHS standards in the workplace.

This unit of competency operates in work environments of racing stables, paddocks, yards, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

## Application of the Unit

### Application of the unit

This unit of competency supports senior stablehands, leading hands, trainers and others authorised to determine nutritional requirements for racing horses.

Competencies attained in this unit apply to the harness and thoroughbred codes of the industry. Consequently when performance criteria are applied they will relate to the harness or thoroughbred code and statements of attainment will reflect this distinction.

This unit can be contextualised for other industries while also maintaining the integrity of the unit.

## Licensing/Regulatory Information

Refer to Unit Descriptor

## Pre-Requisites

Prerequisite units

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

| ELEMENT                            | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                 |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe work practices when determining nutritional requirements of horses
- applying nutritional principles
- communicating with employer, supervisor, co-workers and feed merchants using assertive communication techniques to gather, interpret and relay information related to determining nutritional requirements for racing horses
- completing duties in accordance with safe operating procedures and nominated time frame
- complying with animal welfare policies in the care and management of horses
- identifying and correctly using different feed components and feed supplements
- identifying individual horses
- identifying changes to horse behaviour
- identifying quality, type, and nutritional, energy and economic value of various feeds
- monitoring feed records
- preparing feed orders
- reading and interpreting workplace documentation, including relevant rules of racing
- recognising changes in horses' condition
- recognising spoiled or contaminated feed
- relating to people from a range of social, cultural and ethnic backgrounds and with

## REQUIRED SKILLS AND KNOWLEDGE

varying physical and mental abilities

- reporting problems promptly
- using feed weighing scales
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- horse digestive system
- basic industry terminology related to handling and caring for horses
- communication procedures within stable and wider racing industry
- common horse behaviour, social traits and vices
- economic value of various feeds
- feed and feed supplements
- interaction between feed and supplements that may result in contravention of industry regulations
- nutritional principles in relation to horses' age and needs while spelling, training and racing
- nutritional value of various feeds
- quality of feed
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- sources and importance of energy, protein, fibre, minerals, trace elements and vitamins in a feed ration
- weighing feeds.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when determining

## EVIDENCE GUIDE

---

nutritional requirements for racing horses

- implementation of procedures and timely techniques for the safe, effective and efficient determination of nutritional requirements for racing horses
- working with others to undertake and complete tasks related to racing horse nutritional requirements that meet required outcomes.

Evidence should be collected over a period of time using a range of racehorses of different ages and sexes, and at different stages of preparation in racing stable environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources or simulated environment approved by the relevant State Principal Racing Authority. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness and thoroughbred horses
- materials and equipment relevant to assessing candidate's ability to determine and monitor nutritional requirements of racing horses
- racing stables
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks
- simulation exercises conducted in a State Principal Racing Authority approved simulated environment.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by

## EVIDENCE GUIDE

### Guidance information for assessment

supervisors or other appropriate persons.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- RGRPSH401A Relate anatomical and physiological features to the care and treatment of horses
- RGRPSH408A Manage horse health and welfare
- RGRPSH501A Plan and adapt training and conditioning programs for racehorses.

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to assess determining nutritional requirements for racing horses. Workplaces include harness and thoroughbred stables and racecourses, training tracks and public areas.

***Nutritional principles*** will include:

- digestive system:
  - mouth and teeth
  - stomach
  - small intestine
  - large intestine
- digestive problems:
  - colic
  - ulcers
- feeding habits:

## RANGE STATEMENT

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to prepare for race driving, identify and practise race driving skills, follow rules of racing, read and interpret form, and research and observe race meeting procedures and protocols.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards.

This unit of competency operates in work environments of racing stables, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports harness drivers preparing to accept race drives.

### Licensing/Regulatory Information

9. Driving skills for ***mobile starts*** are demonstrated.
  10. Driving skills in ***a field of horses*** are demonstrated.
  11. Skills for ***pushing out*** are demonstrated.
  12. Techniques for emergency evasive action are known and described.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with horses
- assessing track shape and surface
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather, interpret and relay information related to preparing to drive horses
- completing duties in accordance with safe operating procedures and nominated time frame
- driving techniques for standing starts, mobile starts and driving in a field of horses
- following instructions
- identifying and correctly using different items of gear and equipment and assessing condition of same in terms of safe use and need for repair
- identifying and interpreting industry jargon and abbreviations
- observing pre and post-race procedures
- predicting horse location within race field during stages of a race using previous form
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- researching classes of races.

#### Required knowledge

- classes of races
- communication procedures within stable and wider racing industry
- drug testing procedures
- industry terminology related to handling and racing horses

## REQUIRED SKILLS AND KNOWLEDGE

- permits and license requirements to drive in races
- potential race problems and suitable evasive action techniques
- purpose of using appropriate personal protective equipment
- race nomination, acceptance and scratching documents and procedures
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- rules of racing.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when preparing to drive in races
- demonstration of driving skills for standing and mobile starts, driving in a field and applying push out techniques
- implementation of procedures and timely techniques to safely, effectively and efficiently complete preparation for race driving tasks
- interpreting documentation and other sources of racing information to evaluate and assess individual horse's expected performance in a race
- working with others to undertake and complete preparation for race driving tasks that meet required outcomes.

Evidence should be collected over a period of time using a range of horses of different ages and sexes, in different circumstances and in different racing stable and track environments.

## EVIDENCE GUIDE

---

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to horses that are being educated and trained in a commercial racing stable under the care of a licensed trainer and the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

This unit is largely practical in nature. Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness horses that are currently in training
- commercial racing training establishments, and training and racetracks
- materials and equipment relevant to assessing candidate's skills related to preparing for race driving
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons, at least one of whom should be approved by the State Principal Racing Authority.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English,

## EVIDENCE GUIDE

youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the harness racing industry to assess the skills required to prepare for race driving. Workplaces include harness stables and racecourses, training tracks and public areas.

***Industry jargon and abbreviations*** will include:

- terminology related to:
  - action and behaviour of horses during race
  - age and experience of horses
  - inquiries into the running of races
  - position in a race
  - protests
  - race classes
  - race finish position of runners
  - race incidents
  - stages of a race
  - track conditions.

***Factors that can affect race outcomes*** may include:

- barrier draws
- fitness of horse and level of education
- interference
- race strategies
- race tempo
- wheels locking.

***Reports*** may include:

- form guides
- form reports produced by specialists
- internet
- live race observations
- race books
- steward reports

## RANGE STATEMENT

---

***Individual horse's racing style*** may include:

- verbal reports from drivers, trainers or others
- videos.
- coming from behind
- first up race form
- front runners
- number of starts per preparation
- score-up and start manners
- sprint and staying race behaviour.

***Applying for a license*** may include:

- age of applicant
- driving skill assessments
- license class requirements.

***Rules related to safe and legal race driving*** may include:

- careless, improper, incompetent or foul driving
- crossing only when clear of other horses
- drug testing procedures for drivers and horses
- keeping horse straight
- driving horse calmly and safely to and from race stalls
- principles of animal welfare
- whip use.

***Standing starts*** will include:

- balance and control of horse and sulky prior to start
- complying with clerk of course and starter's directions
- control and balance at release of starting stands
- adjusting gait in case of horse breaking
- gaining a field position.

***Mobile starts*** will include:

- score-up procedure prior to start
- complying with clerk of course and starter's directions
- control and balance at release of starting gate
- adjusting gait in case of horse breaking
- gaining a field position.

***Driving in a field of horses*** will include:

- maintaining a safe distance from other horses when:
  - behind horse in front
  - crossing horse
  - side by side.

***Pushing out*** will include:

- adhering to rules of racing relating to push outs
- applying safe pushing out techniques.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- anticipating and responding rapidly to changed circumstances in a trial, including emergency situations
- applying safe handling and work practices when dealing with horses
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather, interpret and relay information related to driving horses in trials
- completing duties in accordance with safe operating procedures and nominated time frame
- controlling a variety of horses during trials at different tracks, and under different circumstances and track conditions
- following instructions
- following rules of racing
- judging and maintaining pace
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- driving horses to and from barriers
- driving horses in trials
- scoring up
- using whip effectively, following rules of racing and animal welfare guidelines
- warming horses up.

#### Required knowledge

- Australian and local rules of racing and regulations pertaining to trial driving
- classes of trials
- communication procedures with stewards, barrier attendants and trainers
- behaviour of trialling horses
- industry terminology related to handling and racing horses
- pace of trialling horses
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- starting procedures
- stewards' responsibilities
- track rules
- track condition and surfaces
- whip use.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when driving in trials
- demonstration of trial driving skills in accordance with racing officials' and trainer's instructions and adhering to relevant rules of racing
- implementation of procedures and timely techniques to complete trial driving tasks safely, effectively and efficiently
- working with others to undertake and complete trial driving tasks that meet required outcomes.

Evidence should be collected over a period of time using a range of horses of different ages and sexes, in different circumstances and in different racing stable and track environments.

#### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to horses that are being educated and trained in a commercial racing stable under the care of a licensed trainer and the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness horses that are currently in training

## EVIDENCE GUIDE

## Range Statement

### RANGE STATEMENT

---

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the

## RANGE STATEMENT

---

workplaces of the racing industry to prepare to drive horses in trials. Workplaces include harness stables and racecourses, training tracks and public areas.

- Stewards' and starters' directions*** may include:
- complying with requests
  - listening for instructions
  - moving on and off track promptly
  - moving to gates promptly
  - providing documentation.
- Trainer instructions*** may include:
- listening and responding
  - following instructions where possible
  - information related to horse's:
    - action
    - barrier manners
    - race or trial behaviour
    - warm-up requirements
  - reasons for trialling:
    - conditioning
    - education or re-education
    - gear change
    - stewards' observation
  - whip use.
- Driving skills*** may include:
- ability to position horse safely in field
  - adapting driving style to suit individual horses
  - adapting driving style to suit trial conditions
  - changing pace
  - constant awareness of other drivers
  - considering variables that influence behaviour of horses, such as:
    - fences and equipment
    - other persons or animals
    - vehicles
    - wind and noise
  - following rules of racing
  - identifying emergency situations, for example:
    - gear breakage
    - horse getting loose
  - judging pace and position in field
  - maintaining balance
  - maintaining control of position and speed
  - maintaining or improving position

## RANGE STATEMENT

---

***Track conditions and situations*** may include:

- using aids, including whips
- wearing personal protective equipment.
- camber
- designated track for trials
- track rating
- track surface
- hazards
- negotiating turns
- shifting ground
- undulating ground
- weather.

***Pace*** will include:

- demonstrating understanding of speed relative to trial distance
- following trainer instructions
- slowing or quickening pace.

***Rules relating to safe trial driving*** will include:

- careless, improper, incompetent or foul driving
- crossing only when two lengths clear of other horses
- keeping horse straight
- driving horse calmly and safely to and from the barriers.

***Rules relating to whip use*** will include:

- approved rider use of whip
- features of a legal race-riding whip
- reasons for use of whip
- rules and regulations governing non-use of whip:
  - forward of the horse's shoulder or near its head
  - in an excessive, unnecessary or improper manner
  - when horse is showing no response
  - when horse is out of contention
  - when horse is clearly winning
  - when horse has passed the winning post.

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to drive harness horses in races conducted on racecourses in the harness sector of the Australian racing industry. It requires knowledge of race meeting procedures, planning and preparing for races, acquiring high level driving skills, following safety procedures and communicating with a range of officials and other personnel.

To undertake this unit the candidate will be able to apply safe horse handling skills and workplace OHS standards.

This unit of competency operates in work environments of racing stables, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

| ELEMENT                                                      | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|--------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Follow an appropriate pre and post-race routine.             | <ol style="list-style-type: none"> <li>1. <b><i>Race gear is prepared and checked</i></b> for safety prior to race day and immediately prior to a race.</li> <li>2. Pre and post-race procedures are followed.</li> <li>3. Starting procedures are followed.</li> </ol>                                                                                                                                                                                                                                    |
| Plan and use appropriate race strategies and driving skills. | <ol style="list-style-type: none"> <li>4. <b><i>Form and racing behaviour</i></b> of own horse and other horses and drivers are studied .</li> <li>5. Horses are warmed up to and down from racing pace according to trainer instructions.</li> <li>6. <b><i>Driving skills</i></b> are appropriate to a variety of track conditions and situations.</li> <li>7. <b><i>Strategies</i></b> are modified appropriately as required during races, and according to pace and how race is being run.</li> </ol> |

| ELEMENT         | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                |
|-----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Report on race. | <p>8. Whip use and technique are appropriate and consistent with rules of racing.</p> <p>9. <i>Horse's race performance</i> is evaluated and reported.</p> <p>10. <i>Critical incidents</i> of races are recalled and reported.</p> <p>11. Protocol for communicating performance is applied.</p> <p>12. Post-race assessment of own performance is undertaken.</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- anticipating and responding rapidly to changed circumstances in a race, including emergency situations
- applying safe handling and work practices when dealing with horses
- assessing own performance
- communicating with stewards, racing officials, horse trainer and others using assertive communication techniques to gather, interpret and relay information related to driving horses in races
- completing duties in accordance with safe operating procedures and nominated time frame
- controlling a variety of horses during races at different tracks, and under different circumstances and track conditions
- driving horses in races
- evaluating track features
- following instructions
- following rules of racing
- identifying horse behaviour and action
- identifying and correctly using different items of personal protective equipment
- identifying, preparing and correctly using different items of gear and equipment and assessing condition of same in terms of safe use and need for repair
- implementing sound race strategies and meeting contingencies during race
- judging and maintaining pace
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities

## REQUIRED SKILLS AND KNOWLEDGE

- reporting problems promptly
- using whip effectively, following rules of racing and animal welfare guidelines
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- Australian and local rules of racing and regulations pertaining to race driving
- communication procedures with race meeting personnel and wider racing industry
- common racehorse behaviour traits
- drug testing procedures
- form of racing horses
- handicapping system
- industry terminology related to handling and racing horses
- personal protective equipment and purpose for its use
- pre and post-race procedures
- predicted behaviour or racing style of opposition horses in race
- race gear
- race driving strategies
- race injury to horses
- race meeting documentation
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- starting procedures for standing and mobile starts
- score-up procedures
- track surfaces
- types and classes of races
- warm-up procedures
- whip use.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all the requirements of the performance criteria, required

## EVIDENCE GUIDE

---

skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when driving in races
- demonstration of driving skills suitable for race driving and making appropriate judgement calls on driving strategies based on a range of common racing scenarios
- implementation of procedures and timely techniques to complete race driving tasks safely, effectively and efficiently
- working with others to undertake and complete race driving tasks that meet required outcomes.

Evidence should be collected over a period of time using a range of horses of different ages and sexes, in different circumstances and in different racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to horses that are being educated and trained in a commercial racing stable under the care of a licensed trainer and the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- a variety of harness horses that are currently in training
- commercial racing training establishments, racetracks and registered race meetings
- materials and equipment relevant to assessing candidate's ability to demonstrate race driving skills
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge

## EVIDENCE GUIDE

- observed and firsthand testimonial evidence of candidate's application of practical tasks.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons, at least one of whom should be approved by the State Principal Harness Racing Authority.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to prepare to drive horses in races. Workplaces include harness stables and racecourses, training tracks and public areas.

***Race gear*** will include:

- horse gear:
  - bandages
  - boots
  - breastplate
  - bridle
  - harness
  - head check
  - hobbles (pacing)
  - hopple pins

## RANGE STATEMENT

---

|                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                          | <ul style="list-style-type: none"> <li>• hopple shorteners</li> <li>• lugging pole</li> <li>• martingale</li> <li>• pull up or down blinds</li> <li>• race bridle and saddlecloth numbers</li> <li>• reins</li> <li>• removable ear plugs or removable hood</li> <li>• saddle</li> <li>• saddlecloth</li> <li>• shadow rolls</li> <li>• sulky</li> <li>• terrets</li> <li>• tongue ties</li> <li>• whip</li> <li>• personal protective equipment: <ul style="list-style-type: none"> <li>• goggles</li> <li>• helmets</li> <li>• driving boots</li> <li>• vests.</li> </ul> </li> </ul>                                                                                                                                                      |
| Race gear <b><i>preparation and checking</i></b> for safety may include: | <ul style="list-style-type: none"> <li>• checking fit of gear</li> <li>• cleaning gear, including: <ul style="list-style-type: none"> <li>• cleaning and oiling leather</li> <li>• washing hardware</li> <li>• washing plastic, rubber and towelling</li> <li>• washing sulky</li> </ul> </li> <li>• recognising wear and breakage, including: <ul style="list-style-type: none"> <li>• cracked leather</li> <li>• gear slippage</li> <li>• frayed girths and surcingles</li> <li>• perished elastic, rubber or plastic</li> <li>• rusted buckles</li> <li>• split or cracked points</li> <li>• worn padding</li> <li>• worn stitching</li> </ul> </li> <li>• recognising approved gear</li> <li>• replacing worn or broken gear.</li> </ul> |
| <b><i>Pre and post-race procedures</i></b> may include:                  | <ul style="list-style-type: none"> <li>• assessing camber</li> <li>• attending protests and inquiries</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

## RANGE STATEMENT

---

- checking for track obstacles or possible distractions
- complying with drug testing procedures
- discussing horse's chances and likely race style with owner
- discussing race instructions with trainer
- evaluating surface of tracks
- evaluating track rating
- following parade yard procedures
- inspecting track
- knowing colours of other drivers
- making and announcing a decision to protest
- observing distances between turns and straights
- observing length of straights
- presenting to the start
- providing documentation, including:
  - clearances
  - horse identification documents
  - driver identification documents
  - trainer correspondence
- relating weather conditions to possible racing conditions
- reporting horse performance post-race to trainer and owner.

**Starting procedures** will include:

- asking for assistance when required
- following officials' directions
- listening for name to be called
- moving into and maintaining position at mobile barrier or standing start.

**Form** of own horse and other horses may include:

- assessing performance of horses at a range of distances and on different track surfaces
- predicting stages of race where favourites are likely to move
- reading form guides
- understanding handicapping system
- watching horses trial and race to ascertain performance.

**Racing behaviour** of own horse and other horses may include:

- appearing to falter
- changing gait
- checking
- climbing

## RANGE STATEMENT

---

Appropriate ***driving skills*** may include:

- crowding
- laying in or hanging
- not finishing race strongly
- not trying
- over racing
- score-up and start manners
- racing wide.
- adapting driving styles to suit individual horses
- changing direction
- controlling and changing speed
- considering variables that influence behaviour of horses, such as:
  - fences and equipment
  - other persons or animals
  - vehicles
  - wind and noise
- dealing with pressure from other drivers for position in field
- following rules of racing
- interpreting trainer instructions
- identifying emergency situations, for example:
  - gear breakage
  - horse fall
  - horse getting loose
- judging pace and position in field
- maintaining balance
- maintaining control of position and speed
- using aids, including:
  - ear plugs
  - lugging poles
  - whips
- judging and maintaining pace, including:
  - knowing sectional times for varying race distances
  - following trainer instructions
  - slowing or quickening pace
  - using speed maps before race to estimate:
    - own place in the run
    - which will be hardest to beat

## RANGE STATEMENT

---

|                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-----------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                       | <ul style="list-style-type: none"> <li>• which will be running first, second and third</li> <li>• whether there will be speed in the race</li> <li>• who to follow</li> </ul>                                                                                                                                                                                                                                                                                                                                                        |
| <b>Strategies</b> may require modification because:                   | <ul style="list-style-type: none"> <li>• using own judgement when race is not truly run.</li> <li>• horse not performing as expected</li> <li>• interference</li> <li>• opportunity appears to improve position</li> <li>• horse is slow away from start.</li> </ul>                                                                                                                                                                                                                                                                 |
| Evaluating and reporting <b>horse's race performance</b> may include: | <ul style="list-style-type: none"> <li>• how horse travelled throughout the race</li> <li>• incidents in the race</li> <li>• reason for not finishing closer</li> <li>• whether horse had cover</li> <li>• whether horse was boxed in</li> <li>• whether horse was caught wide.</li> </ul>                                                                                                                                                                                                                                           |
| <b>Critical incidents</b> may include:                                | <ul style="list-style-type: none"> <li>• injury to or distress of horse</li> <li>• interference</li> <li>• loss of stamina or reluctance to race</li> <li>• missing the start.</li> </ul>                                                                                                                                                                                                                                                                                                                                            |
| <b>Protocol for communicating performance</b> may include:            | <ul style="list-style-type: none"> <li>• reporting honestly, factually and tactfully</li> <li>• providing information using appropriate language and terms of address</li> <li>• reporting to trainer</li> <li>• providing information to stewards or other officials.</li> </ul>                                                                                                                                                                                                                                                    |
| <b>Post-race assessment of own performance</b> may include:           | <ul style="list-style-type: none"> <li>• discussing drive with trainer or employer</li> <li>• discussing drive with other drivers or mentor</li> <li>• identifying areas where improvement could be made, including:             <ul style="list-style-type: none"> <li>• driving horses of particular classes, experience and racing styles</li> <li>• driving racehorses at trackwork not just at race meetings</li> <li>• practising driving horses working close together</li> </ul> </li> <li>• viewing race videos.</li> </ul> |

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency. Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- applying safe handling and work practices when dealing with horses
- assessing track shape and surface
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather, interpret and relay information related to preparing for race riding
- completing duties in accordance with safe operating procedures and nominated time frame
- following instructions
- identifying and correctly using different items of gear and equipment and assessing condition of same in terms of safe use and need for repair
- identifying industry jargon and abbreviations
- observing pre and post-race procedures
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- riding mechanical horse
- riding short in a racing saddle
- using numeracy skills to interpret predicted speed in a race and prepare speed maps
- weighing in and out

## REQUIRED SKILLS AND KNOWLEDGE

- written communication skills to complete workplace documentation and reports.

### Required knowledge

- apprentice weight claim allowances
- classes of races
- communication procedures within stable and wider racing industry
- drug testing procedures
- enquiry and protest procedures
- industry terminology related to handling and racing horses
- permits to ride in races
- procedures for race nominations, acceptances and scratchings
- procedures to organise rider bookings
- purpose of using appropriate personal protective equipment
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- rules of racing
- speed maps
- whip use.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when preparing to ride in races
- evaluating form and assessing individual horse's expected performance in a race
- implementation of procedures and timely techniques to complete preparation of race riding tasks safely, effectively and efficiently

## EVIDENCE GUIDE

---

- interpreting documentation and other sources of racing information
- working with others to undertake and complete preparation of race riding tasks that meet required outcomes.

Evidence should be collected over a period of time using a range of horses of different ages and sexes, in different circumstances and in different racing stable and track environments.

### Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to horses that are being educated and trained in a commercial racing stable under the care of a licensed trainer and the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills and must be conducted on licensed racetracks in conjunction with the State Principal Racing Authority officials, for example stewards or riding masters.

The following resources must be available:

- a variety of thoroughbred horses that are currently in training
- commercial racing training establishments, and training and licensed racetracks
- materials and equipment relevant to assessing candidate's ability to demonstrate race riding skills
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by

## EVIDENCE GUIDE

|                                            |                                                                                                                                                                                                                                                                                                                                            |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <p>supervisors or other appropriate persons, at least one of whom should be approved by the State Principal Racing Authority.</p> <p>This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.</p>                                                               |
| <b>Guidance information for assessment</b> | <p>Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).</p> |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to prepare for race riding. Workplaces include thoroughbred stables and racecourses, training tracks and public areas.

|                                                            |                                                                                                                                                                                                                                                                                            |
|------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Techniques for riding short</i></b> may include:     | <ul style="list-style-type: none"> <li>• altering bridge</li> <li>• centre of gravity</li> <li>• local rulings related to leather lengths</li> <li>• mechanical horse practice</li> <li>• position of foot in iron</li> <li>• transition from exercise saddle to racing saddle.</li> </ul> |
| <b><i>Whip action and seat refinement</i></b> may include: | <ul style="list-style-type: none"> <li>• changing hold</li> <li>• pulling the whip</li> <li>• showing the whip</li> <li>• swapping whip between hands</li> <li>• maintaining balance</li> <li>• maintaining control</li> <li>• mechanical horse practice</li> </ul>                        |

## RANGE STATEMENT

---

***Pre and post-race riding procedures*** may include:

- principles of animal welfare
- rules of racing related to whip use.
- discussions with trainers or jockeys related to riding instructions
- discussions with stewards related to drug testing procedures
- inspecting track
- observing jockey room procedures
- observing mounting yard procedures
- observing stewards' race meeting activities
- observing the start
- observing weigh in and out.

***Track shape and surface assessment*** may include:

- differences between tracks in various locations
- grass or synthetic tracks
- observing rail position and condition
- observing length of straights
- observing distances between turns and straights.

***Classes of races*** will include:

- restricted
- maiden
- trophy
- classes A to D
- classes 1 to 6
- special conditions
- open transition
- group
- listed.

***Individual horse's racing style*** may include:

- discussions with trainer or foreman and other jockeys
- observing how races are run:
  - jumping from barriers
  - coming from behind
  - front runners
  - sprint and staying races
- watching races and race re-plays.

***Industry jargon and abbreviations*** will include:

- terminology related to:
  - action and behaviour of horses during race
  - age and experience of horses
  - inquiries into the running of races
  - position in a race

## RANGE STATEMENT

---

|                                                                                        |                                                                                                                                                                                                                                                                                                                                   |

## RGRPSH414A Ride horses in trials

### Modification History

Not Applicable

### Unit Descriptor

**Unit descriptor** This unit of competency specifies the outcomes required to ride horses in trials, follow the rules of racing, follow instructions, judge pace and apply riding skills according to track conditions.

To undertake this unit the candidate will be able to ride fast trackwork and follow workplace OHS standards.

This unit of competency operates in work environments of racing stables, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

**Application of the unit** This unit of competency supports apprentice jockeys, approved riders and authorised registered trackwork riders to ride horses in barrier trials.

### Licensing/Regulatory Information

Refer to Unit Descriptor

### Pre-Requisites

#### Prerequisite units

RGRPSH413A

Prepare for race riding

## Prerequisite units

RGRPSH404A

Ride horses at trackwork

## Employability Skills Information

**Employability skills** This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

| ELEMENT                               | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                   |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- anticipating and responding rapidly to changed circumstances in a trial, including emergency situations
- applying safe handling and work practices when dealing with horses
- communicating with employer, supervisor, co-workers and others using assertive communication techniques to gather, interpret and relay information related to riding horses in trials
- completing duties in accordance with safe operating procedures and nominated time frame
- following instructions
- following rules of racing
- judging and maintaining pace
- reading and interpreting workplace documentation, including relevant rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- riding horses into and from barriers
- riding and controlling a variety of horses during trials at different tracks, and under different circumstances and track conditions
- using whip effectively, following rules of racing and animal welfare guidelines
- warming horses up and down.

#### Required knowledge

- Australian and local rules of racing and regulations pertaining to trial riding
- barrier attendants' responsibilities
- communication procedures with stewards, barrier attendants and horse trainers
- behaviour of trialling horses
- industry terminology related to handling and racing horses
- pace of trialling horses
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- relevant rules of racing
- starting procedures
- stewards' responsibilities

## REQUIRED SKILLS AND KNOWLEDGE

- track rules
- track condition and surfaces
- classes of trials
- whip use.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when riding in trials
- demonstration of trial riding skills in accordance with racing officials' and trainer's instructions and adhering to the relevant rules of racing
- implementation of procedures and timely techniques to complete trial riding tasks safely, effectively and efficiently
- working with others to undertake and complete trial riding tasks that meet required outcomes.
- Evidence should be collected over a period of time using a range of horses of different ages and sexes, in different circumstances and in different racing stable and track environments.

#### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to horses that are being educated and trained in a commercial racing stable under the care of a licensed trainer and the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

## EVIDENCE GUIDE

---

Assessment of the practical components of this unit will be by observation of relevant skills and must be conducted on licensed racetracks in conjunction with the State Principal Racing Authority officials, for example stewards or riding masters.

The following resources must be available:

- a variety of thoroughbred horses that are currently in training
- commercial racing training establishments, training and licensed racetracks, and barrier trials
- materials and equipment relevant to assessing candidate's ability to demonstrate trial riding skills
- work instructions and related documentation.

### Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons, at least one of whom should be approved by the State Principal Racing Authority.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to ride horses in trials. Workplaces include thoroughbred stables and racecourses, training tracks and public areas.

- Stewards' and barrier attendants' directions*** may include:
- complying with requests
  - listening for instructions
  - moving on and off track promptly
  - moving into gates promptly
  - providing documentation.
- Trainer or foreman's instructions*** may include:
- listening and responding
  - following instructions where possible
  - information related to horse's:
    - action
    - barrier manners
    - race and trial behaviour
    - warm-up requirements
  - reasons for trialling, including:
    - apprentice jockey experience
    - conditioning
    - education or re-education
    - gear change
    - stewards' observation
  - whip use.
- Riding skills*** may include:
- ability to position horse safely in field
  - adapting riding style to suit individual horses
  - adapting riding style to suit trial conditions
  - changing direction
  - changing pace
  - constant awareness of other riders
  - considering variables that influence behaviour of horses, such as:
    - fences and equipment
    - other persons or animals
    - vehicles

## RANGE STATEMENT

## RGRPSH415A Ride horses in races

### Modification History

Not Applicable

### Unit Descriptor

#### Unit descriptor

This unit of competency specifies the outcomes required to ride thoroughbred horses in races conducted on racecourses in the thoroughbred sector of the Australian racing industry. It requires knowledge of race meeting procedures, planning and preparing for races, acquiring high level riding skills, following safety procedures, and communicating with a range of officials and other personnel.

To undertake this unit the candidate will be able to prepare for race riding, ride in trials and follow workplace OHS standards.

This unit of competency operates in work environments of racing stables, racecourses and public areas.

Licensing, legislative, regulatory or certification requirements may apply to this unit, check with your State Principal Racing Authority for current license or registration requirements.

### Application of the Unit

#### Application of the unit

This unit of competency supports apprentice jockeys and approved riders to ride thoroughbred horses in registered races and picnic races.

### Licensing/Regulatory Information

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- anticipating and responding rapidly to changed circumstances in a race, including emergency situations
- applying safe handling and work practices when dealing with horses
- assessing own performance
- communicating with stewards, racing officials, horse trainer and others using assertive communication techniques to gather, interpret and relay information related to riding horses in races
- completing duties in accordance with safe operating procedures and nominated time frame
- controlling a variety of horses during races at different tracks, and under different circumstances and track conditions
- evaluating track features
- following instructions
- following rules of racing
- identifying horse behaviour and action
- identifying and correctly using different items of personal protective equipment
- identifying, preparing and correctly using different items of gear and equipment and assessing condition of same in terms of safe use and need for repair
- implementing sound racing strategies and meeting contingencies during the race
- judging and maintaining pace
- reading and interpreting workplace documentation, including relevant rules of

## REQUIRED SKILLS AND KNOWLEDGE

racing

- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- reporting problems promptly
- riding horses in races
- using whip effectively, following rules of racing and animal welfare guidelines
- using videos to review races and riding performance
- written communication skills to complete workplace documentation and reports.

### Required knowledge

- Australian and local rules of racing and regulations pertaining to race riding
- communication procedures with race meeting personnel and wider racing industry
- common racehorse behaviour traits
- drug testing procedures
- form of racing horses
- handicapping system
- industry terminology related to handling and racing horses
- personal protective equipment and purpose for its use
- pre and post-race procedures
- predicted behaviour or racing style of opposition horses in race
- race meeting documentation
- race injury to horses
- racing industry animal welfare requirements
- racing industry safety requirements, including safe operating procedures
- race riding strategies
- starting procedures
- saddlery and other race gear
- track surfaces
- types and classes of races
- weighing procedures
- whip use.

## Evidence Guide

### EVIDENCE GUIDE

---

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

## EVIDENCE GUIDE

---

Guidelines for the Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when riding in races
- demonstration of riding skills suitable for race riding and making appropriate judgement calls on riding strategies based on a range of common racing scenarios
- implementation of procedures and timely techniques to complete race riding tasks safely, effectively and efficiently
- working with others to undertake and complete race riding tasks that meet required outcomes.

Evidence should be collected over a period of time using a range of horses of different ages and sexes, in different circumstances and in different racing stable and track environments.

### **Context of and specific resources for assessment**

Competency must be assessed in a racing workplace that provides access to horses that are being educated and trained in a commercial racing stable under the care of a licensed trainer and the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills and must be conducted on licensed racetracks in conjunction with the State Principal Racing Authority officials, for example stewards or riding masters.

The following resources must be available:

- a variety of thoroughbred horses that are currently racing
- commercial racing training establishments, racetracks and registered race meetings
- materials and equipment relevant to assessing candidate's ability to demonstrate race riding skills

## EVIDENCE GUIDE

### Method of assessment

- work instructions and related documentation.

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit are:

- written and/or oral assessment of candidate's required knowledge
- observed and firsthand testimonial evidence of candidate's application of practical tasks.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons, at least one of whom should be approved by the State Principal Racing Authority.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

### Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to ride horses in races. Workplaces include thoroughbred stables and racecourses, training tracks and public areas.

***Race gear*** will include:

- approved personal protective equipment, including:

## RANGE STATEMENT

## RANGE STATEMENT

**conditions** may include:

- evaluating track rating
- evaluating surface of turf and synthetic tracks
- observing rail position and condition
- observing length of straights
- observing distances between turns and straights.

**Pre and post-race procedures** may include:

- attending protests and inquiries
- claiming allowances
- complying with drug testing procedures
- following mounting yard procedures
- inspecting track
- making and announcing a decision to protest
- presenting to the start
- providing documentation
- receiving riding instructions
- reporting horse's performance post-race to trainer and owner
- weighing in and out.

**Starting procedures** will include:

- asking for assistance when required
- following official's directions
- listening for name to be called
- moving into gates promptly.

**Form** of own horse and other horses may include:

- assessing performance of horses at a range of distances and on different track surfaces
- predicting stages of race where favourites are likely to move
- reading form guides
- understanding handicapping system
- watching horses trial and race to ascertain performance.

**Racing behaviour** of own horse and other horses may include:

- appearing to falter
- barrier manners
- changing stride
- checking
- climbing
- crowding
- laying in or hanging
- not finishing race strongly
- not trying
- over racing

## RANGE STATEMENT

---

Appropriate ***riding skills*** may include:

- racing wide.
- adapting riding styles to suit individual horses
- changing direction
- controlling and changing pace
- considering variables that influence behaviour of horses, such as:
  - fences and equipment
  - other persons or animals
  - vehicles
  - wind and noise
- dealing with pressure from other riders for position in field
- following rules of racing
- interpreting trainer instructions
- identifying emergency situations, for example:
  - gear breakage
  - horse pecking or falling
  - horse racing erratically
  - horse getting loose
- judging pace and position in field
- maintaining balance
- maintaining control of position and speed
- using aids, including whips
- judging and maintaining pace, including:
  - knowing sectional times for varying race distances
  - following trainer instructions
  - slowing or quickening pace
  - using speed maps before race to estimate:
    - own place in the run
    - which will be hardest to beat
    - which will be running first, second and third
    - whether there will be speed in the race
    - who to follow
- using own judgement when race is not truly run.
- horse not performing as expected
- interference

***Strategies*** may require modification because:

## RANGE STATEMENT

---

Evaluating and reporting *horse's race performance* may include:

- opportunity appears to improve position
- horse is slow away from gates.
- how horse travelled throughout race
- incidents in the race
- reason for not finishing closer
- whether horse had cover
- whether horse was boxed in
- whether horse was caught wide.

*Race incidents* may include:

- injury to or distress of horse
- interference
- missing the start.

*Protocol for communicating performance* may include:

- reporting honestly, factually and tactfully
- providing information using appropriate language and terms of address
- reporting to trainer
- providing information to stewards or other officials.

*Post-race assessment of own performance* may include:

- discussing ride with trainer and employer
- discussing ride with other jockeys or mentor
- identifying areas where improvement could be made, including:
  - riding horses of particular classes, experience and racing styles
  - riding racehorses at trackwork not just at race meetings
  - practising riding horses working close together
  - viewing race videos.
