**Release 2**

## RII41220 Certificate IV in Well Servicing Operations

### Modification History

Release	Comments
Release 2	This version was released with RII Resources and Infrastructure Training Package version 7.0. Version created to fix typographical and/or unit grid errors.
Release 1	This version first released with RII Resources and Infrastructure Industry Training Package Version 5.0. <ul style="list-style-type: none"> <li>• RIIWSV402D Conduct well servicing milling operations</li> <li>• RIIWSV404D Conduct fishing operations.</li> </ul>

### Qualification Description

This qualification reflects the role of individuals such as drillers or operators working in a well servicing context. They perform tasks involving a broad range of varied activities most of which are complex and non-routine. They are responsible for the quantity and quality of the output of others and contribute to the development of technical solutions to non-routine problems.

### Licensing/Regulatory Information

Licensing, legislative and certification requirements that apply to this qualification can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the qualification.

### Entry Requirements

Nil

### Packaging Rules

The following provides the packaging rules for this qualification, followed by the list of relevant units of competency.

**Total number of units = 12**

**6 core units** plus

**6 elective units**, of which:

- at least two (2) must be chosen from Group A
- at least two (2) must be chosen from Group B

- no more than two (2) may be chosen from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

All elective units selected from outside this qualification must reflect current occupational and learning outcomes of this AQF qualification level.

The elective bank contains both licensed and non-licensed units of competency relating to high risk work in the resources and infrastructure industry. To be appointed under any statutory requirements in related roles, units of competency should be selected to meet the state/territory licensing requirements.

There are prerequisites to imported units listed in this qualification. Where a unit is imported as an elective, care must be taken to ensure that all prerequisites specified are complied with.

<b>Core units of competency</b>	
<i>Unit code</i>	<i>Unit title</i>
BSBLDR403	Lead team effectiveness
RIIERR405	Control emergencies and critical situations
RIISAM404	Monitor oil and gas equipment maintenance
RIIWHS405D	Maintain standard procedures and safe working practices
RIIWSV401E	Rig up and rig down for well servicing operations
RIIWSV403E	Participate in well servicing nippling-up and pressure test
<b>Electives</b>	
<b>Group A</b>	
<i>Unit code</i>	<i>Unit title</i>
RIIBEF401E	Manage non-routine and complex technical situations
RIIERR401E	Apply and monitor emergency preparedness and response systems in surface operations
RIIOGD405E	Carry out well control and blow out prevention operations
RIIWSV402D	Conduct well servicing milling operations
RIIWSV404D	Conduct fishing operations
<b>Group B</b>	
<i>Unit code</i>	<i>Unit title</i>
BSBLED401	Develop teams and individuals
RIICOM301E	Communicate information
MSMPER300*	Issue work permits
MSMWHS201	Conduct hazard analysis

TAEDEL301	Provide work skill instruction
-----------	--------------------------------

\*Note the following prerequisite unit requirements

Unit in this qualification	Prerequisite unit
MSMPER300 Issue work permits	MSMWHS201 Conduct hazard analysis

## Qualification Mapping Information

Supersedes and is equivalent to RII41215 Certificate IV in Well Servicing Operations.
