RII60220 Advanced Diploma of Extractive Industries Management

Release 1

RII60220 Advanced Diploma of Extractive Industries Management

Modification History

Release	Comments
Release 1	This version first released with RII Resources and Infrastructure Industry Training Package Version 7.0.

Qualification Description

This qualification reflects the role of individuals, such as quarry managers, working in quarries or other extractive industry operations who perform tasks that are broad, specialised, complex and technical, and include strategic areas and initiating activities. They are responsible for the establishment of the site management systems, plans and policies, and are required to demonstrate self-directed application of theoretical and technical knowledge, and initiate solutions to technical problems or management requirements.

Licensing, legislative, regulatory or certification considerations

Licensing, legislative and certification requirements that apply to this qualification can vary between states, territories, and industry sectors. Users must check requirements with relevant body before applying the qualification.

Entry Requirements

Nil

Packaging Rules

The following provides the packaging rules for this qualification, followed by the list of relevant units of competency.

Total number of units = 14

3 core units plus

11 elective units, of which:

- at least 5 must be from Group A
- no more than 5 may be from Group B
- no more than two 2 may be from elsewhere in this or any other currently endorsed training package, or from an accredited course.

Elective units must be relevant to the work environment and the qualification, maintain the overall integrity of the AQF alignment, not duplicate the outcome of another unit chosen for the qualification, and contribute to a valid industry-supported vocational outcome.

The elective bank contains both licensed and non-licensed units of competency relating to high risk work in the resources and infrastructure industry. To be appointed under any statutory requirements in related roles, units of competency should be selected to meet the state/territory licensing requirements.

There are no prerequisites to imported units listed in this qualification. Where a unit is imported as an elective care must be taken to ensure that all prerequisites specified are complied with.

Core units of competency	
<i>Unit code</i>	<i>Unit title</i>
RIIGOV601E	Establish, maintain and develop a statutory compliance management system
RIIRIS601E	Establish and maintain the risk management systems
RIIWHS601E	Establish and maintain the WHS management system
Electives	
Group A	
<i>Unit code</i>	<i>Unit title</i>
RIIBLA602E	Establish and maintain explosives safety and security management systems
RIIENV601E	Establish and maintain the environmental management system
RIIERR601E	Establish and maintain mine emergency preparedness and response systems
RIIMEX601D	Plan pit development
RIIMEX602D	Establish and maintain surface mining ground control and slope stability systems
RIIMEX604D	Establish and maintain surface product haulage and transport systems
RIIRAI607D	Establish quarry operations
RIIRAI608D	Establish quarry development
