# **RIICWD520D** Prepare detailed design of rigid pavements

Release: 2

## **RIICWD520D** Prepare detailed design of rigid pavements

Release	Comment
1	This unit replaces RIICWD520A Prepare detailed design of rigid pavements
2	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

#### **Modification History**

## Application

This unit describes a participant's skills and knowledge required to prepare detailed designs of rigid pavements in Civil construction.

This unit is appropriate for those working in management or technical specialist roles.

No licensing, legislation or certification requirements apply to this unit at the time of publication.

## Unit Sector

Civil construction

## **Elements and Performance Criteria**

1. Plan and prepare for the detailed design of rigid pavements	<ul> <li>1.1 Access, interpret and apply rigid pavements design documentation and ensure the work activity is compliant</li> <li>1.2 Obtain, read, interpret, clarify and confirm work requirements</li> <li>1.3 Identify and confirm the rigid pavement project requirements and information</li> </ul>
	<ul><li>1.4 Prepare a design plan which makes best use of the available resources and meets the design requirements</li></ul>
2. Undertake the detailed design of rigid pavement	<ul> <li>2.1 Interpret and analyse data and identify viable options</li> <li>2.2 Interpret and analyse data and recommend the preferred option</li> <li>2.3 Complete the detailed design of the rigid pavement</li> <li>2.4 Prepare a cost estimate for executing the designed rigid pavement</li> </ul>

	2.5 peers a	Participate in the review of the rigid pavement design with and stakeholders
	2.6	Complete the documentation of the rigid pavement design
	2.7 involve	Monitor and coordinate the progress of other team members ed in the design process
	2.8	Gain design approval
3. Finalise design	3.1	Ensure filing of design records is completed
processes of rigid pavement	3.2	Complete and submit design cost and other reporting
	3.3	Participate in performance review of the design process
	3.4 design	Seek client feedback and contribute to the verification of the
	3.5	Close out all systems
4. Support and	4.1	Provide clarification and advice to those applying the design
review the application of the design of rigid	4.2 for co	Review the application of the design and recommend changes ontinuous improvement
pavement	4.3	Contribute to the validation of the design

## **Foundation Skills**

Foundation skills essential to performance are explicit in the performance criteria of this unit. Further information is available in the Resources and Infrastructure Industry Training Package Companion Volume.

## **Unit Mapping Information**

RIICWD520A Prepare detailed design of rigid pavements
