

# RIICWD529D Prepare detailed design of underground services

Release: 2

## RIICWD529D Prepare detailed design of underground services

## **Modification History**

Release	Comment
1	This unit replaces RIICWD529A Prepare detailed design of underground services
2	Required frequency and volume of evidence amended in Performance evidence.  Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

## **Application**

This unit describes a participant's skills and knowledge required to prepare a detailed design of underground services in Civil construction.

This unit is appropriate for those working in management or in technical specialist roles.

No licensing or certification requirements apply to this unit at the time of publication.

#### **Unit Sector**

Civil construction

#### **Elements and Performance Criteria**

1. Plan and prepare for the detailed design of underground services	1.2 1.3	Access, interpret and apply detailed design of underground s documentation and ensure the work activity is compliant  Obtain, read, interpret, clarify and confirm work requirements  Identify and confirm the underground services project ments and information  Prepare a design plan
2. Undertake the detailed design of underground services	2.1 2.2 2.3 2.4 underg 2.5	Interpret and analyse data and identify viable options  Interpret and analyse data and recommend the preferred option  Complete the detailed design of the underground services  Prepare a cost estimate for executing of the designed round services  Participate in the review of the underground services design

Approved Page 2 of 3

	with peers and stakeholders		
	2.6 design	Complete the documentation of the underground services	
	2.7 involve	Monitor and coordinate the progress of other team members ed in the design process	
	2.8	Gain design approval	
3. Finalise design processes of	3.1 3.2	Ensure filing of design records is completed  Complete and submit design cost and other reporting	
underground services	3.3	Participate in performance review of the design process	
	3.4 design	Seek client feedback and contribute to the verification of the	
	3.5	Close out all systems	
4. Support and	4.1	Provide clarification and advice to those applying the design	
review the application of the design of underground services	4.2 for cor	Review the application of the design and recommend changes ntinuous improvements	
and ground sorvices	4.3	Contribute to the validation of the design	

### **Foundation Skills**

Foundation skills essential to performance are explicit in the performance criteria of this unit. Further information is available in the Resources and Infrastructure Industry Training Package Companion Volume.

## **Unit Mapping Information**

RIICWD529A Prepare detailed design of underground services
