# **RIERR304D Control emergencies and critical situations**

**Release: 3**

## RIERR304D Control emergencies and critical situations

### Modification History

Release	Comment
1	This unit replaces RIERR304A Control emergencies and critical situations
2	Removed repetition in Performance Criteria
3	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

### Application

This unit describes a participant's skills and knowledge required to control emergencies and critical situations in Drilling.

This unit is appropriate for those working in operational roles.

No licensing, legislation or certification requirements apply to this unit at the time of publication.

### Unit Sector

Drilling (Oil and Gas)

### Elements and Performance Criteria

1. Plan and prepare to control emergencies and critical situations	<p>1.1 Access, interpret and apply emergency and critical situation documentation and ensure the work activity is compliant</p> <p>1.2 Obtain, read, interpret, clarify and confirm written and oral work instructions</p> <p>1.3 Identify and address potential risks, hazards and environmental issues and implement control measures</p> <p>1.4 Select and wear personal protective equipment appropriate for work activities</p> <p>1.5 Communicate and coordinate activities with others prior to, during and on completion of the work activity</p>
2. Control critical	2.1 Identify developing, emerging and existing critical situations

situations	<p>and take appropriate action</p> <p>2.2 Locate and activate alarms</p> <p>2.3 Control and minimise the situation</p> <p>2.4 Recognise the symptoms and effects of contaminants, toxic materials and heat stress and implement control measures</p>
