**Release: 1**

## RIISS00003 Skill Set Mine Surveying

### Modification History

Not applicable.

### Description

This skill set is for those working in mine surveying. It is essential that the individual already holds either a Diploma of Surveying qualification or a higher level surveying qualification. The skill set is designed to provide the mining specific competencies that a surveyor would need to work in a mining context.

### Pathways Information

These units provide credit towards the Diploma of Surface Operations Management or the Diploma of Underground Coal Mining Management.

### Licensing/Regulatory Information

Not applicable.

### Skill Set Requirements

RIISDM501A	Conduct mine surveying operations
RIIRIS402A	Carry out risk management processes
RIICOM301B	Communicate information
RIIOHS201A	Work safely and follow OHS policies and procedures

### Target Group

This skill set is for those working in mine surveying. It is essential that the individual already holds either a Diploma of Surveying qualification or a higher level surveying qualification. The skill set is designed to provide the mining specific competencies that a surveyor would need to work in a mining context.

## **Suggested words for Statement of Attainment**

This Skill Set from the RII09 Resources and Infrastructure Industry Training Package meets the industry requirements for those working in mine surveying.
