TLI60222 Advanced Diploma of Supply Chain Management

Release 1

TLI60222 Advanced Diploma of Supply Chain Management

Modification History

Release 1. This is the first release of this qualification in the TLI Transport and Logistics Training Package.

Qualification Description

This is a qualification for a person who provides leadership and strategic direction in planning and managing supply chain logistics.

Successful achievement of this qualification requires the application of a significant range of fundamental principles and complex techniques across a wide and often unpredictable variety of contexts in relation to either varied or highly specific functions. Contribution to developing a broad plan, budget or strategy is involved and accountability and responsibility for self and others in achieving the outcomes is also involved. Significant judgement is required in planning, design, technical or leadership/guidance functions related to products, services, operations or procedures.

Job roles

Job roles and titles vary across different sectors. Possible job titles relevant to this qualification include:

- supply chain executive manager
- supply chain program manager
- supply chain senior manager.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

A total of **12 units of competency** comprising:

- 3 core units listed below, plus
- 9 general elective units from the general elective units listed below or the remaining integrated deployment logistics elective units.

Up to **4 of the general elective units** may be selected from any relevant nationally endorsed Training Package or accredited course. The general elective units must contribute to the vocational outcomes of the qualification.

Where imported units are selected, care must be taken to ensure that all prerequisite units are

Australian Industry Standards

complied with.
