Assessment Requirements for TLIA1001

Secure cargo

Release: 2

Assessment Requirements for TLIA1001 Secure cargo

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package.

- Minor change in Application to remove reference to transport and logistics
- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and includes

- applying precautions and required action to minimise, control or eliminate hazards that may exist during work activities
- applying relevant legislation and workplace procedures
- communicating effectively with others when securing cargo or freight
- completing documentation related to securing cargo or freight
- identifying cargo, container and goods, coding, Australian Dangerous Goods (ADG) and International Maritime Dangerous Goods (IMDG) markings and where applicable, emergency information panels
- identifying, selecting and using relevant equipment, processes and procedures when securing cargo or freight
- interpreting and following operational instructions and prioritising work
- operating and adapting to differences in cargo handling equipment, in accordance with standard operating procedures
- reporting and/or rectifying identified problems, faults or malfunctions promptly, in accordance with regulatory requirements and workplace procedures
- reading and interpreting instructions, procedures, information and labels relevant to securing cargo or freight
- selecting and using required personal protective equipment conforming to industry and Work, Health and Safety (WHS)/Occupational Health and Safety (OHS) standards
- using lashing and protection equipment
- working collaboratively with others when securing cargo or freight
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the

requirements of the elements and performance criteria and includes knowledge of

- Australian and international standards, codes and regulations relevant to securing cargo or freight including ADG and IMDG codes
- cargo marking and numbering systems
- focus of operation of work systems, equipment, management and site operating systems for securing cargo or freight
- problems that may occur when securing cargo or freight and appropriate actions that can be taken to resolve these problems
- procedures for managing and controlling hazardous situations when carrying out work activities
- relevant bond, quarantine or other legislative requirements
- relevant handling and safety codes
- relevant WHS/OHS and environmental procedures and regulations
- workplace procedures and policies for securing cargo or freight.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so. Where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include

- a range of exercises, case studies or other simulations
- materials, tools and equipment including personal protective equipment used in industry
- documentation including organisational policies and procedures industry standards, regulations, codes of practice and operational manuals.
