**Release: 1**

# Assessment Requirements for TLIC2012 Ride courier/delivery motorcycle

## Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying action to minimise, control or eliminate identified hazards
- applying relevant legislation and workplace procedures
- completing relevant documentation
- demonstrating low-risk riding behaviours
- monitoring performance of motorcycle and taking appropriate action
- reporting and/or rectifying identified problems, faults or malfunctions promptly, in accordance with regulatory requirements and workplace procedures
- reading and interpreting relevant instructions, procedures, information and signs
- selecting and using required personal protective equipment conforming to industry and work health and safety (WHS)/occupational health and safety (OHS) standards.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- factors that may cause traffic delays and diversions and related action that can be taken
- map reading and road navigation techniques
- motorcycle handling procedures
- motorcycling hazards and related defensive riding techniques
- pre-operational checks carried out on motorcycle and related action
- procedures and policies for identifying, accepting and carrying dangerous/hazardous goods
- relevant state/territory road traffic authority road rules, regulations, permit and licence requirements
- relevant WHS/OHS and environmental procedures and regulations
- workplace operational instructions.

## Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Practical riding aspects must be assessed on a motorcycle suitable for courier-delivery work as currently used in industry.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, current Australian Dangerous Goods (ADG) Code, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
