TLIF2068 Work at height in the stevedoring industry

Release: 1

TLIF2068 Work at height in the stevedoring industry

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit covers the skills and knowledge required to work at height in the stevedoring industry under the relevant regulatory requirements; it includes using site safe work instructions and procedures for working at height.

Working at height in a stevedoring environment involves the application of workplace safe work instructions, procedures and regulatory requirements as part of work activities. It also includes an understanding of the risk management procedures for working at height.

Working at height tasks are performed by a minimum two-person team under some supervision.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

F – Safety Management

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Apply working at height regulations and procedures
