TLIF2082 Perform handsignaller duties

Release: 2

TLIF2082 Perform handsignaller duties

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Performance Evidence
- Minor statement changes in Knowledge Evidence
- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to perform handsignaller duties in accordance with Rail Infrastructure Manager, legislative and regulatory requirements.

It includes identifying site protection requirements, taking up handsignaller positions, using hand signal commands to manage rail traffic, and taking actions in unsafe situations or emergencies.

People achieving competence in this unit will need to fulfil the applicable state/territory legislated rail safety requirements and to comply with relevant codes of practice and/or guidelines.

The unit includes the application of Rail Infrastructure Manager rules, procedures and protocols for performing handsignaller duties.

A hand signal is a signal given by hand movements, with or without a flag, board or light.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

F – Safety Management

Unit Sector

Rail sector.

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1 Identify site protection requirements

- 1.1** Worksite protection plan briefing conducted by relevant personnel is attended
- 1.2** Responsibilities as handsignaller for protection are identified and clarified as required
- 1.3** Hazards are identified, risks are assessed and control measures are implemented
- 1.4** Tools and equipment required for handsignalling duties are identified, obtained and checked for functional condition
- 1.5** Communications equipment to be used is tested and set to correct channel

2 Take up handsignaller position

- 2.1** Danger zone is safely accessed in accordance with workplace procedures
- 2.2** Unsafe and/or ineffective signalling positions are identified and reported in accordance with workplace procedures
- 2.3** Handsignalling positions that conform to worksite protection plan and workplace procedures are identified and the most appropriate position is chosen
- 2.4** Situational awareness is conducted to identify potential risks
- 2.5** Audible track warning devices are applied in accordance with workplace procedures as required
- 2.6** Effectiveness of handsignalling position and communications protocols are confirmed

3 Use hand signal commands to manage rail traffic

- 3.1** Vigilance is maintained at all times
- 3.2** Protection officer is alerted to approaching rail traffic in accordance with workplace procedures
- 3.3** Correct hand signal is displayed to rail traffic in accordance with protection officer instructions
- 3.4** Verbal instructions are provided to train driver, as required
- 3.5** Railway track signals are replaced, as required

- 4 Take action in unsafe situations or emergencies**
- 4.1** Unsafe situations and/or emergencies are identified and appropriate actions taken to minimise risk in accordance with workplace procedures
 - 4.2** Emergencies and/or incidents are recorded and reported to relevant personnel in accordance with workplace procedures

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Unit Mapping Information

This unit replaces and is equivalent to TLIF2082B Perform handsignaller duties.
