Assessment Requirements for TLIF4088 Implement and coordinate rail safety and WHS risk-control strategies

Assessment Requirements for TLIF4088 Implement and coordinate rail safety and WHS risk-control strategies

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant legislation and workplace procedures
- communicating effectively with others
- completing relevant documentation
- identifying job hazards and taking required action to minimise, control or eliminate identified hazards
- implementing contingency plans
- reading and interpreting relevant instructions, procedures, information and signs
- reporting and rectifying within limits of own role, problems, faults and malfunctions
- reviewing previous incidents and hazard register for relevant existing workplace risk management controls.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- emergency management plan and evacuation procedures
- housekeeping standards and procedures
- rail safety management system
- relevant rail safety and work health and safety (WHS)/occupational health and safety (OHS) legislation, procedures and guidelines
- reporting procedures for unsafe situations, hazards and workplace risks
- signs and signals used for WHS/OHS warnings.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training

Australian Industry Standards

Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation including safety management system, workplace procedures, regulations, rules, codes of practice and operation manuals.
