TLIF4102 Implement and maintain safety management plans

Release: 1

TLIF4102 Implement and maintain safety management plans

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to implement and maintain rail safety management plans.

It includes identifying safety management plans appropriate to organisational activities, implementing plans, monitoring their effectiveness, and identifying and reporting on non-compliance issues.

People achieving competence in this unit will need to fulfil the applicable state/territory legislated rail safety requirements and to comply with relevant codes of practice and/or guidelines.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

F – Safety Management

Unit Sector

Not applicable.
