# Assessment Requirements for TLIH3004 Identify major roads, services and attractions

# Assessment Requirements for TLIH3004 Identify major roads, services and attractions

## Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant legislation and workplace procedures
- communicating effectively with others when identifying and locating major roads, services and attractions
- identifying and correctly using maps and other information about the location and features of roads, services and attractions
- interpreting and following operational instructions and prioritising work
- locating identified roads, services and attractions on a map and/or physically (i.e. driving to location)
- operating electronic communications equipment to required protocol
- operating technology when locating roads, services and attractions
- reading and interpreting relevant instructions, procedures, information and signs.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- information and technology for locating roads, services and attractions including:
  - bus and emergency lane usage
  - entry and access points to major road systems
  - location of city centre streets and major buildings and traffic flows
  - location of main hotels, motels and tourist attractions in a specified area
  - location of metropolitan suburbs
  - main arterial roads
  - most appropriate routes for entering and exiting a city centre
  - restrictions to traffic movement at major intersections

Australian Industry Standards

- - roads and suburbs connecting with freeways and transport interchanges, terminals, jetties, ports and stations
  - road signs and route markers
  - traffic patterns and densities
- relevant state/territory regulations and road laws
- typical problems that may arise when identifying and locating roads, services and attractions and appropriate action that should be taken
- workplace procedures for identifying and locating roads, services and attractions.

## Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
