# Assessment Requirements for TLIL4075 Implement and amend daily train plan

# Assessment Requirements for TLIL4075 Implement and amend daily train plan

## Modification History

**Release 2**. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor word changes to PC 2.5 and PC 2.6
- Minor word changes to Performance Evidence
- Minor word changes to Knowledge Evidence
- Minor statement changes in Assessment Conditions.

**Release 1**. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant safeworking systems and workplace procedures
- communicating with others when implementing and amending daily train plans
- identifying job hazards and taking required action to minimise, control or eliminate identified hazards
- implementing daily train movements systematically
- maintaining required documentation
- monitoring and making amendments to the daily train plan
- reading and interpreting relevant instructions, procedures and information
- using appropriate infotechnology when amending daily train plan
- working collaboratively with others when implementing and amending daily train plans.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- familiarity with yards, depots and, where applicable, station workings
- organisational procedures for planning and controlling train operations
- restrictions relating to loads and conditions
- route restrictions, geography and limitations
- safeworking and signalling system requirements, where applicable
- timetabling and train planning protocols
- train control diagrams and graphing.

## Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate rail workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including workplace procedures, regulations, rail industry standards, codes of practice and operation manuals.
