Assessment Requirements for TLIX5042 Organise road transport operations

Release: 1

Assessment Requirements for TLIX5042 Organise road transport operations

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- analysing and validating numerical information accurately
- analysing task complexities such as limitations, freedoms, vulnerabilities, time limitations
- applying a broad range of problem-solving strategies
- drafting and releasing complex forms of written communication
- interpreting instructions and applying to actions and tasks
- interpreting policies and procedures
- making decisive, informed decisions that align with organisational requirements
- managing at least two different road transport operations such as replenishment operations and passenger transport
- managing own planning tasks in accordance with organisational requirements
- moving forward despite task difficulty
- undertaking analysis to determine where internal and external factors impact on transport support requirements
- using appropriate information technology and software.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- environmental considerations for planning transport support
- fatigue management
- logistics analysis principles and processes
- logistics concepts
- organisation, its function and logistics capabilities
- organisational policy and procedures relevant to road transport
- organisational writing conventions

- passenger transport operations
- planning process
- regulatory standards and requirements for road transport
- replenishment operations
- vehicle and transport equipment capabilities and limitations.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations*, current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
