TLISS00018 Installing Transoms Skill Set

Release: 2

TLISS00018 Installing Transoms Skill Set

Modification History

Not Applicable

Description

Not Applicable

Pathways Information

This skill set is to be undertaken in addition to the Certificate II in Rail Infrastructure (Structures) and targets those workers who will also install transoms.

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

A total of **1 unit** of competency must be completed.

Unit/s	
TLIS2028A	Install and replace transoms

Target Group

This is a skill set covering a role which includes installing transoms within the general rail infrastructure environment.

Suggested words for Statement of Attainment

This competency from the TLI10 Transport and Logistics Training Package (Version 2) meets the needs for installing transoms. The competencies are drawn from a nationally endorsed Training Package, and provide the skills and knowledge for a person working within the general rail infrastructure environment who is required to install transoms.
