Release: 2

TLISS00043 Repairing Concrete/Masonry Structures Skill Set

Modification History

Not Applicable

Description

Not Applicable

Pathways Information

This skill set is to be undertaken in addition to the Certificate II in Rail Infrastructure (Structures) and targets those workers who will also repair concrete/masonry structures.

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

A total of **2 units** of competency must be completed.

Unit/s	
TLIS2036A	Use chemical repair products
TLIB2096A	Repair concrete/masonry structures

Target Group

This is a skill set covering the role of concrete/masonry structures repairer within the general rail infrastructure environment.

Suggested words for Statement of Attainment

These competencies from the TLI10 Transport and Logistics Training Package (Version 2) meet the needs for repairing concrete/masonry structures. The competencies are drawn from a nationally endorsed Training Package, and provide the skills and knowledge for a person working as a concrete/masonry structures repairer operating within the general rail infrastructure environment.
