Qualification Description

This qualification is the industry qualification for persons undertaking animal control and regulatory functions. Animal control and regulation (also known as urban animal management) is a function provided by local and State/Territory governments. It provides a community management service comprising four elements - regulation, education, information and infrastructure.

The job role that this qualification describes is an animal management officer undertaking animal control and regulatory functions.

No licensing, legislative or certification requirements apply to this qualification at the time of publication. However, an individual unit of competency may specify relevant licensing, legislative and/or regulatory requirements. Specific determination should be sought through the relevant state or territory authority.
