ACMAIM305 Carry out casualty and post-rescue management of animals

Release: 1

ACMAIM305 Carry out casualty and post-rescue management of animals

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 3.0.

Application

This unit of competency describes the skills and knowledge required to carry out an initial assessment, care for animals at an incident scene and assist a veterinarian during and after an incident.

The unit applies to individuals who have experience handling large animals and have a role in supporting veterinarians in an incident involving animals. Incidents may involve individual animals or groups of animals and cover a range of incident types. Individuals have basic knowledge of animal first aid and animal incident management.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety and animal welfare regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Animal Incident Management (AIM)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Carry out initial assessment and care of	1.1 Conduct visual assessment of condition and behaviour of animal/s on arrival at incident scene

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
animal/s	<p>1.2 Participate in team briefing and provide information on the level of veterinary care and/or emergency response support required to relevant personnel</p> <p>1.3 Arrange screening and animal transport, if required, in consultation with the incident controller</p> <p>1.4 Monitor health and vital signs of animal/s, using safe handling techniques and safe zones, for protection of self, others and other animal/s</p> <p>1.5 Provide animal care, including natural sedation techniques to reduce stress or stimulation, until veterinary support arrives</p>
