ACMCAS402 Manage and maintain aviaries and bird rooms

Release: 1

ACMCAS402 Manage and maintain aviaries and bird rooms

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to determine the housing and maintenance needs of specific species and breeds of birds.

This unit applies to individuals working in companion animal industry organisations that include aviaries and bird rooms as part of their operations. These individuals analyse information and exercise judgement to complete a range of skilled activities and demonstrate deep knowledge in a specific technical area. They have accountability for the work of others and analyse, design and communicate solutions to a range of complex problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

NOTE: The terms ‘occupational health and safety’ (OHS) and ‘work health and safety’ (WHS) generally have the same meaning in the workplace. In jurisdictions where the national model WHS legislation has not been implemented, RTOs must contextualise the unit of competency by referring to current OHS legislative requirements.

Pre-requisite Unit

Nil

Unit Sector

Companion Animal Sector (CAS)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine housing needs	1.1 Identify housing requirements of particular species and breeds, and provide appropriate security and housing

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.2 Determine husbandry practices of species, and provide appropriate resources
2. Maintain enclosures	2.1 Develop maintenance plans for aviaries and bird rooms according to WHS requirements and environmental considerations 2.2 Conduct maintenance activities according to maintenance plans and industry standards 2.3 Select and use appropriate tools, equipment and materials, including personal protective equipment (PPE) 2.4 Implement environmentally safe and effective measures, including hygiene standards and infection control procedures 2.5 Document maintenance plans and activities
3. Identify and control pests and report notifiable diseases	3.1 Identify pests and implement appropriate control procedures 3.2 Maintain pest control and disease records 3.3 Identify notifiable diseases and document and report in accordance with legislative requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret product information about aviaries, bird rooms and pest control
Writing	<ul style="list-style-type: none"> Maintain accurate records to meet legal and regulatory requirements
Get the work done	<ul style="list-style-type: none"> Use problem-solving techniques to control pests
