Release 1	This version released with ACM Animal Care and Management Training Package Version 5.0.

Application

This unit of competency covers the skills and knowledge required to manage processes for identifying and participating in international events. It includes assessing feasibility, resource implications, compliance with international regulations, managing transport and accommodation arrangements, and meeting quarantine obligations. It is relevant to a range of horse events and performance disciplines.

The unit applies to individuals who have a broad range of skills and experience working in managerial roles in horse operations. They analyse information, solve routine and at times complex problems and convey information and skills to others.

Commonwealth and state/territory health and safety and animal welfare legislation, regulations and codes of practice relevant to interacting with horses apply to workers in this industry. Requirements vary between industry sectors and jurisdictions.

No licensing, legislative or certification requirements apply to this unit at the time of publication.
