**Release: 1**

## ACMFAR313 Trim equine hooves

### Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 2.0.

### Application

This unit of competency describes the skills and knowledge required to handle equines safely and trim hooves using appropriate techniques and tools.

The unit applies to individuals who trim equine hooves for shoes and/or natural hooves. They take responsibility for their own work and apply knowledge and practical skills to trim equine hooves as part of the hoof care plan.

Workplace health and safety and animal welfare legislation relevant to interacting with horses applies to workers in this industry. Requirements vary between industry sectors and state/territory jurisdictions. Users are advised to check with the relevant authority for specific requirements.

No licensing or certification requirements apply to this unit at the time of publication.

### Pre-requisite Unit

Nil

### Unit Sector

Farriery (FAR)

### Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to trim equine hooves	1.1 Carry out a basic risk assessment of equine behaviour and environmental hazards and take steps to control risks 1.2 Prepare and set up tools and equipment according to workplace requirements 1.3 Identify, fit and use personal protective equipment according to

<b>Elements</b>	<b>Performance Criteria</b>
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
