ACMFAR317 Replace equine shoes as an emergency measure

Release: 1

ACMFAR317 Replace equine shoes as an emergency measure

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to safely remove and replace standard equine shoes as a contingency or emergency measure in situations where a farrier is not accessible and equine welfare is an issue.

The unit applies to livestock and agricultural workers, typically in regional or remote areas, who use horses or other equines for work and are required to carry out basic hoof care as part of their job role.

Workplace health and safety and animal welfare legislation relevant to interacting with horses applies to workers in this industry. Requirements vary between industry sectors and state/territory jurisdictions. Users are advised to check with the relevant authority for specific requirements.

No occupational licensing or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Farristry (FAR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to remove and replace equine shoes	1.1 Approach and handle the equine calmly and in a manner that reduces stress and alarm, and minimises risk to handlers and the equine

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	<p>1.2 Apply safe work practices and identify, fit and use personal protective equipment according to health and safety in the workplace procedures</p> <p>1.3 Prepare and organise appropriate tools and materials for removing and replacing shoes</p> <p>1.4 Adopt a working position that maintains safety and comfort for self, other handlers and equine</p> <p>1.5 Lift equine fore and/or hind limbs safely and examine hooves and shoes to determine requirements</p>
