ACMGAS206 Provide basic first aid for animals

Release: 1

ACMGAS206 Provide basic first aid for animals

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to provide essential first aid for animals by recognising and responding to an emergency using basic first aid measures. The first aider is not expected to deal with complex casualties or incidents, but to provide an initial response where first aid is required.

This unit is applicable to new entrants to the animal care and management industry. Animal care may occur in a wide variety of workplaces, including retail pet stores, kennels and catteries, shelters, veterinary practices, zoos, animal research facilities and others.

This unit applies to individuals who work under general supervision and exercise limited autonomy. They undertake defined activities and work in a structured context.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

NOTE: The terms 'occupational health and safety' (OHS) and 'work health and safety' (WHS) generally have the same meaning in the workplace. In jurisdictions where the national model WHS legislation has not been implemented, RTOs must contextualise the unit of competency by referring to current OHS legislative requirements.

Pre-requisite Unit

Nil

Unit Sector

General Animal Studies (GAS)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assess the situation	1.1 Recognise emergency situation 1.2 Identify physical hazards to self, bystanders, the public and the animal 1.3 Take action to minimise the immediate risk to self, bystanders, the public and the animal 1.4 Use personal protective equipment and safe working practices according to WHS at all times when handling animals 1.5 Assess physical condition and vital signs of the animal
