ACMHBR312 Carry out procedures for foaling down mares

Release: 1

ACMHBR312 Carry out procedures for foaling down mares

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to monitor mares and their newborn at foaling, and refer high risk issues or problems for expert advice.

The unit applies to individuals who work under broad direction and take responsibility for their own work. They complete routine activities and work in a range of known contexts within horse breeding and other horse industry environments.

No occupational licensing or certification requirements apply to this unit at the time of publication.

Work health and safety and animal welfare legislation relevant to interacting with horses applies to workers in this industry. Requirements vary between industry sectors and state/territory jurisdictions. Users are advised to check with the relevant authority for specific requirements.

NOTE: The terms 'occupational health and safety' (OHS) and 'work health and safety' (WHS) generally have the same meaning in the workplace. In jurisdictions where the national model WHS legislation has not been implemented, RTOs must contextualise the unit of competency by referring to current OHS legislative requirements.

Pre-requisite Unit

Nil

Unit Sector

Horse Breeding (HBR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for foaling	1.1 Assess and monitor condition and health status of pregnant mare prior to foaling 1.2 Identify hazards and assess and control risks in assisting with birthing, and follow safe work and safe horse handling practices 1.3 Check and prepare birthing equipment, resources and materials, and environment 1.4 Move mares to an area where intervention can be carried out with minimal disruption and where biosecurity and quarantine procedures can be implemented 1.5 Check mating or artificial insemination records and confirm anticipated foaling date 1.6 Prepare a foaling plan according to workplace practices
2. Monitor the foaling process	2.1 Make regular observations to detect the signs of parturition 2.2 Prepare a pregnant mare for foaling 2.3 Check regularly for signs of problems that may occur during foaling, and seek professional advice if required 2.4 Make regular observations of mare and foal during foaling 2.5 Ensure the foaling environment, facilities and equipment are maintained in a safe, hygienic and operational state 2.6 Update and maintain records of foaling and foaling outcomes
3. Carry out monitoring after foal has been born	3.1 Allow mare to lie and rest for as long as possible 3.2 Allow the foal to stand to break the umbilical cord and treat stump with iodine 3.3 Assist with tying the placenta after the mare stands and checking for expulsion 3.4 Examine the placenta to ensure no part of it has been retained 3.5 Monitor the mare and foal for nursing and general health 3.6 Maintain foaling environment, facilities and equipment in a safe, hygienic and operational state, and report or fix faults 3.7 Update foaling records accurately according to workplace practices
4. Care for newborn foals	4.1 Monitor and report on the health of newborn foal 4.2 Record the markings and other identifying features of newly born

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	foals 4.3 Report conditions or signs of ill health requiring veterinary assistance

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> Use basic arithmetic to calculate gestation times and expected birthing dates
Navigate the world of work	<ul style="list-style-type: none"> Comply with workplace procedures, including safe work and horse handling practices, and animal welfare requirements, in own role and work area
Interact with others	<ul style="list-style-type: none"> Work cooperatively with other personnel using clear communication techniques to report foaling activity
Get the work done	<ul style="list-style-type: none"> Plan and sequence multiple tasks, monitoring activity and prioritising tasks to achieve outcomes
