ACMSPE314 Provide general care of birds

Release: 1

ACMSPE314 Provide general care of birds

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 4.0.

Application

This unit of competency describes the skills and knowledge required to identify birds and their behavioural and physical needs, and provide daily care requirements.

The unit applies to individuals working in the animal care industry where it may be necessary to care for commonly kept avicultural birds. This may include animal shelters or rehabilitation organisations, pet shops, breeding establishments, zoos or similar workplaces. In some cases, birds may have been rescued from the wild, and successful rehabilitation is required to restore bird health and wellbeing before releasing back to their natural environment.

This unit applies to individuals who work under broad supervision and provide and communicate solutions to a range of predictable problems.

All work must be carried out to comply with workplace procedures according to Commonwealth and state/territory health and safety and animal welfare regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Species Specific (SPE)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify commonly	1.1 Define habitat, activity cycle and general features of birds

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
kept birds	commonly housed in facility 1.2 Identify and describe external features using industry terminology 1.3 Identify common birds according to taxonomy 1.4 Define, interpret and document colours, markings and other identifying features
2. Identify and evaluate behavioural and housing needs	2.1 Identify indicators of bird comfort and normal behaviour 2.2 Recognise signs of distress and report to supervisor 2.3 Identify industry standards and guidelines for housing design, environmental factors and appropriate stocking densities 2.4 Evaluate current bird housing and nesting requirements to ensure animal welfare needs are met 2.5 Identify behavioural enrichment activities for specific bird species
3. Approach and handle birds	3.1 Identify workplace health and safety hazards associated with handling and restraining birds and implement controls to minimise risks 3.2 Select and use personal protective equipment to catch, handle and restrain birds 3.3 Approach, catch and restrain birds using low stress handling techniques and equipment to minimise risks to the animal and others
4. Assist with health care needs	4.1 Identify signs of good health in birds 4.2 Report signs of disease or other conditions to supervisor 4.3 Identify general health maintenance and preventative treatment procedures and implement in line with level of job responsibility
5. Feed and water birds	5.1 Identify digestive system features and relate to bird-specific feeding routines and diets 5.2 Identify preferred food sources and assess samples for quality and suitability 5.3 Identify potential feeding hazards and implement risk control options 5.4 Prepare food in accordance with dietary needs 5.5 Distribute food and water according to schedule, feeding plan or animal requirements

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
6. Maintain records	6.1 Complete feed and treatment records noting food consumption, health and care activities 6.2 Report abnormalities to supervisor 6.3 Complete documentation relevant to licences and transport, where required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	Interpret key information and quantities specified on product labels
Numeracy	Measure quantities of food and/or health treatments accurately

Unit Mapping Information
