ACMSS00019 Large Animal Incident Team Member Skill Set

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 3.0.

Description

This skill set reflects the work required to safely participate in a team responding to a large animal incident. It covers assessing risks and hazards, working safely and using recognised manual manipulation and handling techniques with compromised animals at incident scenes. It applies to large land-based domesticated animals, typically prey and herd species.

Pathways Information

These units of competency build on skills in several *ACM Animal Care and Management Training Package* qualifications and provide credit towards the *ACM40117 Certificate IV in Animal Control and Regulation*.

Licensing/Regulatory Information

No licensing or regulatory requirements apply to this skill set at the time of publication.
