Assessment Requirements for AHCAGB402 Analyse and interpret production data

Assessment Requirements for AHCAGB402 Analyse and interpret production data

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- collect and organise production data
- use business equipment
- assess data accuracy
- analyse and interpret data
- present data with conclusions.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- relevant legislation, industry and enterprise codes of practice and quality assurance procedures that impact on production
- enterprise record keeping and data storage practices
- enterprise policies and procedures relating to collection, analysis and maintenance of production data
- methods to collect and analyse production data
- data management systems and methods
- principles of report writing and data presentation.

Assessment Conditions

Competency is to be assessed in the workplace or simulated environment that accurately reflects performance in a real workplace setting.

Assessors must satisfy current standards for RTOs.
