Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- align relevant production systems with the enterprise strategic plan
- adjust production systems to meet the overarching sustainability requirements for the enterprise
- adopt a systemised approach to the incorporation of production systems into the business plan.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- marketplace in which the organisation operates
- property planning, financial management and enterprise budgeting systems and procedures
- relevant State or Territory legislation, regulations and codes of practice which impact on the management of the enterprise
- methods of measuring and implementing business and environmental sustainability
- financial analysis tools and techniques for land based businesses
- sources of information to assist in analysis of operational plans, resourcing and financial analysis
- monitoring strategies for a range of operational plans
- value and methods of risk assessment.

Assessment Conditions

Competency is to be assessed in the workplace or simulated environment that accurately reflects performance in a real workplace setting.

Assessors must satisfy current standards for RTOs.
