Assessment Requirements for AHCBEK405 Select and establish an apiary site

Release: 1

Assessment Requirements for AHCBEK405 Select and establish an apiary site

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- determine an apiary location to meet the nutritional requirements of a colony
- determine site selection criteria
- identify and assess hazards
- establish an apiary at a selected site
- identify and assess flora for their pollen and nectar flow productivity
- load and unload beehives.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- nutritional and other requirements of a bee colony
- sources of information about potential sites
- criteria for selecting a site including relevant planning and land use regulations
- personal protective equipment (PPE) and tools and equipment for handling bees and beehives.

Assessment Conditions

Assessors must satisfy current standards for RTOs.
