Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- use relevant technology such as computers, internet and email
- prepare production data in the required format
- meet timelines required by the e-business supply chain
- define the business model and how it can use e-business
- develop procedures and systems for e-business
- implement an e-business supply chain
- monitor and review e-business systems.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- entire supply chain from raw materials to producers, component suppliers, manufacturers, wholesalers, third party service providers, retailers, customers and recyclers, plus freight, distribution and cash flow
- technology hardware and software requirements of the e-business supply chain
- protocols for electronic data access and interchange
- protocols for electronic funds transfer
- protocols for e-business legal and security issues.

Assessment Conditions

Competency is to be assessed in the workplace or simulated environment that accurately reflects performance in a real workplace setting.

Assessors must satisfy current standards for RTOs.
