Assessment Requirements for AHCCHM101 Follow basic chemical safety rules

Release: 1

Assessment Requirements for AHCCHM101 Follow basic chemical safety rules

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- locate and follow safety information on chemical labels and relevant Safety Data Sheets (SDS)
- recognise caution or hazard signs and symbols
- recognise hazards and risks associated with chemical handling and use
- use appropriate personal protective equipment
- follow emergency procedures during an accident or spillage
- communicate effectively with supervisor such as raising issues of concern
- record information accurately
- apply enterprise work health and safety procedures

Knowledge Evidence

The candidate must demonstrate knowledge of:

- occupational health and safety rules required to work near and around chemicals
- level of hazard and Poisons Schedule in the relevant State or Territory
- types of chemicals used for the control of pests, weeds and diseases
- personal protection equipment and when and how it should be used, stored and maintained
- environmental impacts of chemical use
- roles and responsibilities for using and managing pesticides within the workplace
- relevant work health and safety, pesticide and environmental legislation

Assessment Conditions

Competency is to be assessed in the workplace OR simulated environment that accurately reflects performance in a real workplace setting.

Assessors must satisfy current standards for RTOs.
