**Release: 1**

# Assessment Requirements for AHCCHM304 Transport and store chemicals

## Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

## Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- follow legislative requirements for the safe transport of chemicals
- follow emergency procedures for chemical spillage
- handle, transport and store chemical safely
- maintain a chemical storage area and chemical manifest, including copies of SDS for each product
- follow chemical label directions and SDS requirements for handling, transporting and storage
- maintain storage records
- follow enterprise work health and safety policies
- follow enterprise environmental protection policies

## Knowledge Evidence

The candidate must demonstrate knowledge of:

- how to read a chemical label and SDS and translate that information into actions
- appropriate legislation and regulations that apply to transporting and storing chemicals
- risk factors including human and animal health and environmental associated with transporting, handling and storing chemicals
- requirements for disposal of excess, unwanted and out-of-date chemicals and used chemical containers
- processes to clear spillages and clean up
- types of placarding required for storage of hazardous chemicals and dangerous goods
- types of emergency information that must be carried in the vehicle when transporting dangerous goods

## Assessment Conditions

Competency is to be assessed in the workplace OR simulated environment that accurately reflects performance in a real workplace setting.

Assessors must satisfy current standards for RTOs.
