Assessment Requirements for AHCCSW306 Use technology in Aboriginal and/or Torres Strait Islander sites work

Assessment Requirements for AHCCSW306 Use technology in Aboriginal and/or Torres Strait Islander sites work

Modification History

Release	Comments
Release 1	This version released with Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has used technology in Aboriginal and/or Torres Strait Islander sites work at least once and has:

- used current and appropriate technology as required by organisation
- used menu features and navigated around the device and Information Management System functions
- used device features, software and applications to perform tasks to organisation requirements
- collected and recorded data according to organisation requirements
- collected and recorded data in accordance with requirements of Indigenous Cultural and Intellectual Property (ICIP), copyright and local cultural protocols
- saved work in a format and location according to organisation requirements
- securely transferred saved files to a computer for long-term storage and printing
- used compass, grid references and physical or online maps to move around site and map site coordinates
- used audio-visual devices according to organisation requirements and local cultural protocols.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- data recording
- basic security functions when using technology
- basic software operation and associated applications
- map reading (including topographical maps), grid references and longitudinal and latitudinal coordinates
- appropriate use of radio equipment, including:

- difference between UHF and VHF
- phonetic alphabet
- radio protocols and etiquette
- requirements of ICIP, copyright and cultural protocols
- principles of free, prior and informed consent
- digital device functions used in own role
- functions of internal and external computer storage devices.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
  - skills must be demonstrated on Country and/or within an Aboriginal and/or Torres Strait Islander Community or an environment that accurately represents workplace conditions
- resources, equipment and materials
  - technology devices appropriate to working on cultural sites
  - radio communication equipment
  - maps and compass relevant for use on cultural sites
- specifications:
  - legislation/codes of practice relevant to ICIP, copyright and using technology
- relationships:
  - local Community Elders and/or Custodians.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards. In addition, the following specific assessor requirements apply to this unit:

- Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

an Aboriginal and/or Torres Strait Islander Elder and/or Custodian or:

- accompanied by, and/or in communication with, an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience and knowledge of local cultural protocols.
