AHCDES404 Prepare simple landscape drawings

Release: 1

AHCDES404 Prepare simple landscape drawings

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

Application

This unit of competency describes the skills and knowledge required to produce simple drawings that communicate landscape design ideas, options and concepts to clients.

The unit applies to individuals who apply specialist skills and knowledge to prepare simple landscape drawings. This includes applying and communicating non-routine technical solutions to predictable and unpredictable problems.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Design (DES)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine simple landscape requirements	1.1 Identify type of drawing required to describe design according to scope and complexity of job being undertaken 1.2 Identify existing key features to be recorded 1.3 Identify and assemble required tools and equipment 1.4 Identify and interpret site surveys, architectural drawings and statutory requirements relevant to site
2. Produce simple	2.1 Determine workplace health and safety requirements applicable to

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
landscape draft sketches and drawings	worksite 2.2 Inspect worksite as required to take and record measurements 2.3 Select appropriate scale for drawing 2.4 Create simple two and three-dimensional drawings using standard drawing conventions and incorporating relevant codes and standards 2.5 Create drawings of simple elements including plan view and site analysis plans using standard drawing conventions 2.6 Create elevation drawings of simple landscape elements using standard drawing conventions
3. Notate and process drawings	3.1 Record essential information on drawing with symbols and abbreviations according to standard drawing conventions 3.2 Label, date and process drawings according to workplace administration and quality procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret and evaluate detailed technical information to prepare simple landscape drawings
Writing	<ul style="list-style-type: none"> Record essential drawing information and notations using correct conventions and terminology
Numeracy	<ul style="list-style-type: none"> Identify and record scales, dimensions, measurements, symbols and other numerically expressed information required for simple landscape drawings
