Assessment Requirements for AHCLSC208

Install aggregate paths

Release: 1

Assessment Requirements for AHCLSC208 Install aggregate paths

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has installed aggregate paths of at least two metres in length on at least two occasions and has:

- planned and prepared for installation and site safety
- read and interpreted site plans
- applied workplace health and safety requirements, including fitted and used personal protective equipment (PPE)
- set the path out
- undertaken ground preparation for the path
- laid base material and surface aggregate materials
- reinstated site at completion of work
- reported aggregate path installation operations and unserviceable tools and equipment.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- principles and practices of aggregate path installation, including:
 - base and aggregate materials and their performance
 - environmental impacts of soil disturbance when installing paths
 - types of machinery used in path construction
 - types of membranes
 - types of edge restraints
 - types of signs and barriers that need to be erected around the site
 - tools and equipment used for installing paths
- workplace requirements applicable to health and safety in the workplace for installing aggregate paths including appropriate use of PPE.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - work instructions applicable to installing aggregate paths
 - materials, tools, equipment and machinery applicable to installing aggregate paths
 - PPE applicable to aggregate path installation work
- specifications:
 - workplace requirements applicable to health and safety in the workplace and installing aggregate paths
 - site plan
- relationships:
 - supervisor
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
