Assessment Requirements for AHCLSC404 Supervise landscape project works

Release: 1

Assessment Requirements for AHCLSC404 Supervise landscape project works

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has supervised landscape project works on at least one occasion, and has:

- identified scope of landscape project work
- identified personnel and resource requirements
- developed and documented a project work program that identifies project outcomes, timelines, labour, materials and equipment
- applied relevant workplace health and safety and environmental and biosecurity legislation, regulations and workplace procedures
- fitted, used and maintained personal protective equipment (PPE)
- calculated materials and equipment
- controlled the quality of supplied materials
- supervised and communicated with staff and sub-contractors
- monitored, recorded and reported on progress of a works program
- liaised with clients
- completed a landscape works report.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- principles and practices of supervising landscape works, including:
 - causes of disruption to work programs and their effect on quality and time schedules
 - how to conduct site assessment and work site establishment
 - issuing of instructions, variations and requests for information
 - format, frequency and documentation for job reporting requirements
 - legislative requirements and legal responsibilities relevant to landscape project works

- contracts, plans and specifications for project documentation
- supervision techniques of staff and sub-contractors
- workplace health and safety and environmental and biosecurity legislation, regulations and workplace procedures relevant to supervising landscape project works.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represent workplace conditions
- resources, equipment and materials:
 - landscape documentation including scope of works
 - PPE applicable to supervising landscape project works
- specifications:
 - workplace health and safety and environmental and biosecurity legislation, regulations and workplace procedures relevant to supervising landscape project works
 - legislative requirements and legal responsibilities relevant to landscape project works
- relationships:
 - clients, staff and sub-contractors
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
