AHCLSK225 Identify and mark livestock

Release: 1

AHCLSK225 Identify and mark livestock

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Release 11.0.

Application

This unit of competency describes the skills and knowledge required to carry out the identification and marking of livestock.

The unit applies to individuals who work under general supervision and exercise limited autonomy with some accountability for their own work. They identify and provide solutions to a limited range of predictable problems.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety regulations, legislation and standards that apply to the workplace, and animal welfare legislation, regulations, standards and guidelines, and sustainability and biosecurity practices.

In addition to legal responsibilities, all units of competency dealing with animals in the AHC Agriculture, Horticulture and Conservation and Land Management Training Package have the requirements for animals to be handled humanely to minimise stress and discomfort.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Livestock (LSK)

Elements and Performance Criteria

Elements	Performance Criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Prepare to identify and	1.1 Discuss work requirements with supervisor and seek clarification

Elements	Performance Criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
mark animals	where necessary 1.2 Prepare and use equipment according to supervisor instructions and safe working practices 1.3 Select and prepare materials and preventative health treatments, and ensure adequate quantities for required task according to supervisor instructions 1.4 Identify, clean and prepare sites and facilities for marking 1.5 Identify workplace health and safety hazards and report to supervisor 1.6 Select, fit, use and maintain personal protective equipment (PPE) applicable to task 1.7 Check and report faulty or unsafe equipment, materials or PPE to supervisor
2. Identify and mark animals	2.1 Identify, draft and move animals using good stock handling techniques in readiness for identifying and marking 2.2 Carry out animal identification and marking operations according to workplace procedures and animal welfare practices 2.3 Dispose of livestock residues and other waste according to environmental practices and supervisor instructions
3. Complete identification and marking operation	3.1 Tally and record animal numbers during and on completion of operations according to supervisor instructions 3.2 Prepare and move animals along a planned route using good stock handling techniques 3.3 Clean and maintain site and facilities used 3.4 Return materials and unused treatments to store or dispose of according to workplace environment and biosecurity policies and procedures 3.5 Clean, maintain and store equipment according to supervisor instructions 3.6 Report work outcomes, and faults, wear or damage of equipment to supervisor 3.7 Monitor livestock behaviour and welfare post-operations, and mother-up young animals if required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Writing	Use clear language, accurate industry terminology and logical structure to record disease incidence and treatments
Oral communication	- Use clear language to report malfunctions, faults, wear or damage to equipment, and livestock health and welfare issues and treatments - Respond to questions and clarify information
Numeracy	Interpret basic numerical measurements and quantities as required for the identification and marking of livestock
