Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit. There must be evidence that the individual has prepared for, safely operated and completed tractor operations under general supervision at least once and has:

- identified and reported hazards and implemented safe operating procedures
- carried out tractor pre-operational checks and reported faults to supervisor
- driven and operated a tractor safely, in a smooth and controlled manner
- operated tractors in even and uneven terrain conditions
- carried out tractor shut down procedures
- maintained tractor use records and reported faults or malfunctions
- minimised environmental impacts associated with tractor operation
- followed workplace health and safety procedures for safe tractor operation
- followed industry and workplace biosecurity procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- tractor components, controls and features and operational functions
- tractor operation and maintenance manuals
- tractor steering systems and features
- features, operational functions and procedures for attached equipment
- load limits and the principles of weight distribution with regard to load shifting and tractor movement
- distinguishing characteristics of individual tractors including rated performance capacities
• effects of various surface and difficult terrain conditions on tractor operation
• duty of care to self, others and the environment
• relevant legislation with regard to tractor operation and licensing requirements
• environmental impacts relevant to operation of vehicles
• health and safety in the workplace requirements to operate a tractor safely
• industry and workplace biosecurity procedures.

Assessment Conditions

Assessment of skills must take place under the following conditions:

• physical conditions:
  • a workplace setting or an environment that accurately represents workplace conditions
  • individual must not be under the influence of alcohol or drugs
  • individual must not be taking any medication (prescribed or otherwise) that may impair judgement
  • individual must not be in a fatigued state when operating the machinery

• resources, equipment and materials:
  • tractors
  • safety equipment and personal protective equipment applicable to the task being undertaken

• specifications:
  • tractor operation and maintenance manual
  • industry and workplace biosecurity procedures applicable to tractor operation
  • legislation relevant to tractor operation and licensing requirements

• timeframes:
  • according to the job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
