Assessment Requirements for AHCNSY202 Care for nursery plants

Release: 1

Assessment Requirements for AHCNSY202 Care for nursery plants

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- select and use appropriate tools and equipment
- maintain nursery hygiene
- Service, repair or replace basic operational irrigation system components and user serviceable parts
- maintain nursery plants as instructed
- check irrigation system performance
- monitor environmental controls
- recognise common problems in nursery plants
- repair or replace user serviceable irrigation components
- record workplace information

Knowledge Evidence

The candidate must demonstrate knowledge of:

- the principles and practices of nursery plant care
 - botany and plant physiology as applies to maintaining nursery plants
 - common problems that may occur with containerised plants in a controlled environment and their treatment
 - daily water requirements of nursery plants
 - hygiene and quality control when tending nursery plants
 - principles and operations of irrigation systems used in nurseries, in basic terms

Assessment Conditions

Assessors must satisfy current standards for RTOs.
