Assessment Requirements for AHCNSY401 Plan a growing-on program

Release: 1

Assessment Requirements for AHCNSY401 Plan a growing-on program

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- identify and assess factors that could impact the growing-on program
- Identify labour, materials and activities involved in the growing-on program
- conduct research about production requirements, growth conditions and marketing implications of a growing-on program
- negotiate, budget and document plans
- communicate plans and schedules to staff
- oversee and monitor the growing-on program

Knowledge Evidence

The candidate must demonstrate knowledge of:

- the principles and practices of planning a growing on program
 - application techniques for chemical and non-chemical intervention or treatments
 - chemical, cultural and biological pest, weed and disease control techniques
 - common problems of growing-on and preventative actions that may apply
 - enterprise hygiene standards required for growing-on activities
 - enterprise quality standards of nursery plant production
 - optimal growing requirements of nursery plants
 - preferred types of propagation media for different species
 - processes and techniques for preparing, costing and documenting plans for and scheduling growing-on activities
 - testing methods applied to propagation media

Assessment Conditions

Assessors must satisfy current standards for RTOs.
