**Release: 1**

# Assessment Requirements for AHCPM201 Recognise plants

## Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

## Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- prepare resources and processes for use in recognition activity
- identify desirable and non-desirable plants requiring recognition
- recognise and describe plant attributes
- describe specific handling requirements and growth requirements
- use appropriate methods of research to assist with plant recognition
- document and update information about identified plants

## Knowledge Evidence

The candidate must demonstrate knowledge of:

- principles and practices of plant recognition
  - plant morphology and physiology as they relate to recognising plants
  - plant nomenclature
  - procedures for obtaining and providing advice and information about plants
  - plant recognition techniques

## Assessment Conditions

Assessors must satisfy current standards for RTOs.
