Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to collect, prepare and preserve plant specimens for recording or identification purposes.

The unit applies to individuals working in a broad range of job contexts who undertake defined routine activities under supervision. They exercise limited autonomy within established and well-known parameters, providing solutions to a limited range of predictable problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Plants culture and management (PCM)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Collect plant specimens	1.1 Collect plant specimen according to workplace requirements 1.2 Ensure the sample includes sufficient plant parts required for positive identification 1.3 Observe plant characteristics and record observations according to

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	workplace procedures 1.4 Ensure congruence of specimens and observations by accurate labelling according to workplace procedures
2. Preserve plant specimens	2.1 Store collected plant specimens to prevent degradation until they can be preserved according to workplace procedures 2.2 Identify and select an appropriate preservation technique according to workplace requirements 2.3 Prepare and arrange specimens for preserving according to preservation technique and workplace procedures 2.4 Preserve the specimen according to selected preservation technique 2.5 Arrange and mount the preserved specimen and observation records according to workplace procedures 2.6 Package the specimens and submit for identification according to workplace procedures
3. Record and catalogue specimen	3.1 Record and catalogue specimen information according to workplace procedures 3.2 File records appropriately according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Writing	<ul style="list-style-type: none"> • Uses clear and appropriate language and terminology to ensure clarity of meaning when recording data and characteristics of plant specimens
Navigate the world of work	<ul style="list-style-type: none"> • Complies with explicit policies and procedures.
Get the work done	<ul style="list-style-type: none"> • Plans and implements routine tasks and workload seeks assistance in setting priorities • Uses the main features and functions of digital tools to record

Skill	Description
	plant data
