Assessment Requirements for AHCPCM302 Provide information on plants and their culture

Release: 1

Assessment Requirements for AHCP302 Provide information on plants and their culture

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- develop product knowledge through research and access to in-house and online information
- interpret information sheets, labels, horticultural literature, specifications and design symbols
- investigate requests for information, identify and evaluate options, decide on a solution, and deliver recommendation and information to the client
- select plants from a range of available stock lists
- communicate with clients, work team members, supervisors, suppliers, contractors and consultants

Knowledge Evidence

The candidate must demonstrate knowledge of:

- principles of plant culture
 - broad range of plant species and their cultural requirements
 - duty of care in provision of advice and recommendations to retail, commercial and private clients
 - local plant suppliers, consultants, services, products and contractors
 - pest and disease symptoms, basic physiology and life cycle of pests and diseases, vulnerable plant growth stages, treatment thresholds, treatment products, effective application procedures and environmental implications
 - plant identification techniques, plant selection, plant physiology, habit and growth characteristics of the plants
 - soil characteristics particularly in relation to the local region

- weed species, growth stages, treatment thresholds, treatment products, effective application procedures and environmental implications

Assessment Conditions

Assessors must satisfy current standards for RTOs.
